The provision of Senior Energy Assistance Services (SEAS) home energy services assist in the prevention of an energy emergency that is defined as conditions that pose serious threat to the health and safety of individuals from the lack of adequate home energy.

The OSI is the designated administrator for the statewide Fuel Assistance Program and has the capacity and expertise to serve the Bureau of Elderly and Adult Services' population of eligible older adults.

The Department reserves the right to extend the Memo of Understanding for up to two (2) additional years, contingent upon satisfactory performance, available funding, written agreement of the parties and approval of the Governor and Executive Council.

The Agency's performance will be measured by their ability to provide energy assistance to senior households in accordance with the terms of the Memorandum of Understanding as evidenced by monthly invoices and reports submitted to the Department. In addition, by May 15th of each State Fiscal Year, the OSI will report to the Department the outcome of client feedback as to the quality of services provided.

Should the Governor and Executive Council not authorize this request, the assistance provided to these senior households may be reduced, or eliminated, to a level that may jeopardize their ability to remain in their homes. These energy assistance services allow the elderly to secure and maintain maximum independence, health and quality of life which support the Bureau of Elderly and Adult Services' mission for individuals, age sixty (60) and over, to remain in the community.

This service is provided to eligible households statewide.

However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.
