April 2, 2015

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the New Hampshire Department of Environmental Services (DES) to award an Aquatic Resource Mitigation (ARM) Fund grant to the Upper Valley Land Trust, Hanover, NH (hereinafter "UVLT") (Vendor Code #155927) in the amount of \$43,378 to acquire a conservation easement for 50 acres of a 58 acre parcel of land located in Lyme, effective upon G&C approval through December 31, 2015. 100% Aquatic Resource Mitigation Funds.

Funding is available in the account as follows:

	<u>FY 15</u>
03-44-44-442010-38710000-073-500580	\$43,378.00
Dept. Environmental Services, In-Lieu Wetland Mitigation, Grants – Non - Federal	

EXPLANATION

New Hampshire RSA 482-A:3 requires a wetland permit for any proposed project that involves dredging or filling of a wetland. Before a wetland permit is issued, applicants must show that the proposed project will avoid adverse impacts to wetlands and will minimize and provide compensation for those wetland impacts which are unavoidable.

The DES wetlands program adopted a set of mitigation rules that establish what is necessary for an applicant to provide for wetland compensation. The current department rules spell out ratios for wetland compensation that include creating a new wetland, restoring a former wetland site, or protecting a high-quality aquatic resource by preserving adjacent upland habitat. The newest improvement, begun in 2006, to the mitigation options is commonly referred to as an *in-lieu fee program*. This mitigation option is ideal for projects that have difficulty in locating an appropriate mitigation site. The Aquatic Resource Mitigation Fund (ARM) authorizes the collection of mitigation funds in lieu of other forms of wetland mitigation as part of a Wetlands Permit Application.

The Department issued the request for proposals for ARM Funds available in the Middle Connecticut River watershed in April, 2013. Three applications were received and on November 12, 2013, DES announced the decision to fund two projects in the Middle Connecticut River Watershed. The project proposed by UVLT was recommended for funding by the ARM Fund Site Selection Committee. Attachment A lists the proposals received and Committee members involved in the decision. The review of the awards by the Army Corps of Engineers and the New Hampshire Wetland Council resulted in full support of the recommendations.

The UVLT will utilize its ARM funds to acquire a conservation easement on 50 acres of land located on NH Route 10 in Lyme. The property is rated as Tier 2 habitat in the NH Fish & Game *Wildlife Action Plan* and consists of agriculture fields with the exception of an area west of NH Route 10 which contains wetland areas providing high functions and values. In addition, approximately 77% of the parcel overlies a groundwater aquifer, a very important stratified drift aquifer area in town. Protecting undeveloped land over aquifer areas is critical in maintaining the natural functioning of the groundwater/surface water connections along Clay Brook as it flows to the Connecticut River.

In the event that other funds no longer become available, general funds will not be requested to support this program. This agreement has been approved as to form, content, and execution by the Attorney General's Office.

We respectfully request your approval.

Thomas S. Burack, Commissioner

No express waiver of any Event of Default shall be deemed a waiver of any provisions hereof. No such failure or waiver shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other default on the part of the Grantee.
