EXPLANATION

The Department of Health and Human Services, Division for Behavioral Health, Bureau of Drug & Alcohol Services seeks approval to accept and expend State Opioid Response Grant federal funds in the amount of \$35,267,411 from the Substance Abuse and Mental Health Service Administration (SAMHSA). This request represents additional funding from a supplemental grant award dated March 20, 2019 as well as funding for year 2 of a two-year grant (September 30, 2018 – September 29, 2020). This grant does not have a matching funds requirement. The federal notice of award from SAMHSA is attached.

The State Opioid Response grant funds will be used to continue the implementation of a comprehensive and enhanced approach to address NH's opioid use disorder (OUD) crisis through various prevention, treatment, and recovery services. NH is continuing to increase and standardize services for individuals with OUD statewide. While services for OUD are now being made available to anyone seeking assistance in NH, special populations have been made a priority for some of the program designs including children and young adults, pregnant women, veterans and service members, individuals with or at-risk of HIV/AIDS, older adults caring for a minor child due to Division for Children, Youth and Families (DCYF) involvement, and individuals re-entering the community from incarceration. NH anticipates serving approximately 1,018,000 individuals annually and 2,036,000 individuals over the lifetime of this grant.

The projects affiliated with the grant have an emphasis on a strong collaboration between a newly designed hub for service access, referral, and care coordination and existing and expanded specialty spoke providers. Expansion of specialty spokes include investments in medication assisted treatment, recovery housing, services to individuals in corrections, telehealth, workforce readiness opportunities, peer recovery support services, enhanced care coordination, support services that increase treatment engagement (transportation, childcare), and parenting education. Surrounding all of the grant investments will also be a public awareness campaign around the risk of opioids, safe medication storage, and accessing help for those who are affected by OUD. NH will also invest in an education and training initiative that will provide training, technical assistance and educational opportunities to support the implementation of evidence-based programs.

The Memorandum of Understanding with the Department of Corrections has been applied to extend the successful provision of substance use disorder case management services to the residents of the Shea Farm Transitional Housing Unit and has made available Naloxone kits and related instruction on administration to individuals re-entering the community from any correctional facility or State-run transitional housing. Funds will be used for:

Class 102 Contract payments to providers

Area served: Statewide.

Source of Funds: 100% Federal from Substance Abuse and Mental Health Service Administration.

In the event that federal funds become no longer available, general funds will not be requested to support the program expenditures.

Respectfully submitted,

Jeffrey A. Meyers
