Funds to support this request are available in State Fiscal Year 2019 in the following accounts, with the authority to adjust encumbrances between State Fiscal Years through the Budget Office without approval of the Governor and Executive Council, if needed and justified.

Please see attached financial details.

EXPLANATION

The Department requests approval of ten (10) agreements with a combined price limitation of \$3,157,927 that will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is

determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. Three (3) more agreements will be submitted by the Department at a future Governor and Executive Council meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2016; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services is having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2019-BDAS-01-SUBST) on the Department of Health and Humans Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

This contract includes language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

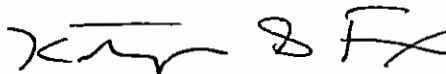

Should the Governor and Executive Council determine to not authorize this Request, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Area served: Statewide.

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

9.2 All data and any property which has been received from the State or purchased with funds provided for that purpose under this Agreement, shall be the property of the State, and shall be returned to the State upon demand or upon termination of this Agreement for any reason.

9.3 Confidentiality of data shall be governed by N.H. RSA chapter 91-A or other existing law. Disclosure of data requires prior written approval of the State.

10. TERMINATION. In the event of an early termination of this Agreement for any reason other than the completion of the Services, the Contractor shall deliver to the Contracting Officer, not later than fifteen (15) days after the date of termination, a report ("Termination Report") describing in detail all Services performed, and the contract price earned, to and including the date of termination. The form, subject matter, content, and number of copies of the Termination Report shall be identical to those of any Final Report described in the attached EXHIBIT A.

11. CONTRACTOR'S RELATION TO THE STATE. In the performance of this Agreement the Contractor is in all respects an independent contractor, and is neither an agent nor an employee of the State. Neither the Contractor nor any of its officers, employees, agents or members shall have authority to bind the State or receive any benefits, workers' compensation or other emoluments provided by the State to its employees.

12. ASSIGNMENT/DELEGATION/SUBCONTRACTS. The Contractor shall not assign, or otherwise transfer any interest in this Agreement without the prior written notice and consent of the State. None of the Services shall be subcontracted by the Contractor without the prior written notice and consent of the State.

13. INDEMNIFICATION. The Contractor shall defend, indemnify and hold harmless the State, its officers and employees, from and against any and all losses suffered by the State, its officers and employees, and any and all claims, liabilities or penalties asserted against the State, its officers and employees, by or on behalf of any person, on account of, based or resulting from, arising out of (or which may be claimed to arise out of) the acts or omissions of the Contractor. Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. This covenant in paragraph 13 shall survive the termination of this Agreement.

14. INSURANCE.

14.1 The Contractor shall, at its sole expense, obtain and maintain in force, and shall require any subcontractor or assignee to obtain and maintain in force, the following insurance:

14.1.1 comprehensive general liability insurance against all claims of bodily injury, death or property damage, in amounts of not less than \$1,000,000 per occurrence and \$2,000,000 aggregate; and

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.
5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

Prior to subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

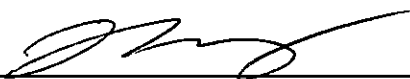

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
 - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
 - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

 - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
 - 13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
 - 13.2. where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal (contract).

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. MINISTRY OBJECTIVE

I want to foster and participate in new possibilities for parish ministry where the congregation actively engages and responds to its community

THEOLOGY OF MINISTRY

My theology of ministry is based in St. Paul's letter to the Ephesians (4:11f). Christian ministry is not the sole task of the ordained, but extends to each and every baptized member. It is in the hands and hearts of the laity where Christ touches the world. The work of the ordained is to help equip the laity for the fulfillment of their baptismal vows and to share the work of ministry with them.

SUMMARY OF QUALIFICATIONS

- involved with community organizing and chaplain work
- helped grow and build St. Peter's from mission to parish status

- Expanded outreach committee work and made outreach opportunities more transparent and accessible to parishioners
- Linked parishes in mutual support for local food pantry ministry

**CERTIFICATION REGARDING DEBARMENT, SUSPENSION
AND OTHER RESPONSIBILITY MATTERS**

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
 - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
 - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
 - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (l)(b) of this certification; and
 - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:

Exhibit I

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

- a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

INDEPENDENT AUDITORS' REPORT

To the Board of Commissioners
County of Grafton, New Hampshire

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the County of Grafton, New Hampshire, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the County of Grafton, New Hampshire's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

The County's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the County of Grafton, New Hampshire, as of June 30, 2017, and the respective changes in financial position, and the respective budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the OPEB and Pension schedules appearing on pages 40 to 42 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with evidence sufficient to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 17, 2017 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the County of Grafton, New Hampshire (the County), we offer readers this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2017.

A. OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the basic financial statements. The basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to financial statements. This report also contains other required supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of our finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all assets, liabilities, and deferred outflows/inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position is improving or deteriorating.

The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation and sick leave).

The governmental activities include general government, public safety, corrections, county farm, human services, cooperative extension, economic development and nursing home.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. All of the funds can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available

at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

An annual appropriated budget is adopted for the General Fund. A budgetary comparison statement has been provided in order to demonstrate compliance with this budget.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support County programs.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information which is required to be disclosed by accounting principles generally accepted in the United States of America.

B. FINANCIAL HIGHLIGHTS

Net position - end of year	<u>\$ (8,976,798)</u>	<u>\$ (7,832,196)</u>

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. At the close of the most recent fiscal year, total net position was \$(8,976,798), a change of \$(1,144,602) from the prior year.

The largest portion of net position, \$20,266,951, reflects our investment in capital assets (e.g., land, land improvements, buildings and improvements, and equipment and vehicles), less any related debt used to acquire those assets that is still outstanding. These capital assets are used to provide services to citizens; consequently, these assets are not available for future spending. Although the investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of net position, \$46,106, represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position is in a deficit of \$(29,289,855), primarily resulting from the unfunded net OPEB obligation (see Note 13) and the unfunded net pension liability (see Note 14).

Governmental activities. Governmental activities for the year resulted in a change in net position of \$(1,144,602). Key elements of this change are as follows:

Governmental funds operating results	\$ 349,094
Purchase of capital assets	765,211
Loss on disposals of capital assets	(7,165)
Principal debt service in excess of depreciation expense	698,975
Change in accrued interest liability	(97,674)
Change in compensated absence liability	55,158
Change in net OPEB obligation	(1,623,379)
Change in net pension liability	(8,194,021)
Change in deferred outflows of resources	6,284,181
Change in deferred inflows of resources	625,018
Total	<u>\$ (1,144,602)</u>

D. FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As noted earlier, fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources.

Such information is useful in assessing financing requirements. In particular, unassigned fund balance may serve as a useful measure of the County's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, governmental funds reported combined ending fund balances of \$3,639,835, a change of \$349,094 in comparison to the prior year. Key elements of this change are as follows:

General Fund operating results	\$ 419,340
Nonmajor Governmental Funds operating results	(70,246)
Total	<u>\$ 349,094</u>

The General Fund is the chief operating fund. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$1,019,257, while total fund balance was \$3,593,729. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total budgeted expenditures. Refer to the table below:

<u>General Fund</u>	<u>6/30/17</u>	<u>6/30/16</u>	<u>Change</u>	<u>Percentage of Total Budgeted Expenditures</u>
Unassigned fund balance	\$ 1,619,257	\$ 999,047	\$ 620,210	4.0%
Total fund balance	\$ 3,593,729	\$ 3,174,389	\$ 419,340	8.9%

The total fund balance of all funds changed by \$349,094 during the current fiscal year. Key factors in this change are as follows:

Revenues in excess of budget	\$ 967,394
Expenditures less than appropriations	787,831
Use of fund balance - reduce taxes	(1,030,000)
Use of fund balance - prior year reserves	(196,459)
Transfer to reserve funds	88,152
Nonmajor governmental funds operating results	(70,246)
Use of Deeds surcharge funds	(20,472)
Use of committed reserve funds	<u>(177,106)</u>
Total all funds	<u>\$ 349,094</u>

Included in the General Fund are the County's Delegation voted reserve funds with the following balances:

	<u>6/30/17</u>	<u>6/30/16</u>	<u>Change</u>
Nursing Home Reserve	\$ 110,581	\$ 236,026	\$ (125,445)
Dispatch Capital Reserve	<u>153,401</u>	<u>115,908</u>	<u>37,493</u>
Total	<u>\$ 263,982</u>	<u>\$ 351,934</u>	<u>\$ (87,952)</u>

E. BUDGETARY HIGHLIGHTS

Differences between the original budget and the final amended budget resulted in an overall change in appropriations of \$196,459. This change relates to a use of prior year reserves (fund balance) for various purposes.

F. CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets. Total investment in capital assets for governmental activities at year-end amounted to \$48,941,905 (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings and improvements, and equipment and vehicles.

Additional information on capital assets can be found in the notes to financial statements.

Long-term debt. At the end of the current fiscal year, total bonded debt outstanding was \$30,863,719, all of which was backed by the full faith and credit of the County.

Additional information on long-term debt can be found in the notes to financial statements.

As required by Generally Accepted Accounting Principles, these financial statements present the County (primary government) and applicable component units for which the County is considered to be financially accountable. In fiscal year 2017, it was determined that no entities met the required GASB 14 (as amended) criteria of component units.

B. Government-wide and Fund Financial Statements

Government-wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Fund Financial Statements

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter is excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-wide Financial Statements

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Fund Financial Statements

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Generally, all other revenue items are considered to be measurable and available only when cash is received by the County. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County reports the following major governmental fund:

- The *General Fund* is the County's primary operating fund. It accounts for all financial resources of the County, except those required to be accounted for in another fund.

The fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Under this method, revenues are recognized when earned and expenses are recorded when liabilities are incurred.

The County reports the following fiduciary funds:

- *Agency Funds* are used to account for funds held by the County on behalf of others (e.g., inmate funds and patient funds).

Cash balances from all funds, except those required to be segregated by law, are combined to form a consolidation of cash. Cash balances are invested to the extent available, and interest earnings are recognized in

the General Fund. Certain special revenue and fiduciary funds segregate cash, and investment earnings become a part of those funds.

Deposits with financial institutions consist primarily of demand deposits, certificates of deposits, and savings accounts. A cash and investment pool is maintained that is available for use by all funds. Each fund's portion of this pool is reflected on the combined financial statements under the caption "cash and short-term investments". The interest earnings attributable to each fund type are included under investment income.

E. Inventory

Inventory is valued at cost using the first-in/first-out (FIFO) method. Inventory includes dietary, housekeeping, and activity supplies for use at the nursing home, maintenance supplies, and corrections supplies.

F. Capital Assets

Capital assets, which include land, land improvements, buildings and improvements, and equipment and vehicles, are reported in the government-wide financial statements. Capital assets are defined by the County as assets with a grouped cost of more than \$500 for assets acquired for use in the Nursing Home, and \$5,000 for all other assets, and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Land improvements	20
Buildings and improvements	20 - 40
Equipment and vehicles	3 - 20

G. Compensated Absences

It is the County's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All vested sick and vacation pay is accrued when incurred in the government-wide and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

H. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities Statement of Net Position.

I. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance". Fund equity for all other reporting is classified as "net position".

Fund Balance - Generally, fund balance represents the difference between current assets and current liabilities. The County reserves those portions of fund balance that are legally segregated for a specific future use or which do not represent available, spendable resources and, therefore, are not available for appropriation or expenditure. Unassigned fund balance indicates that portion of fund balance that is available for appropriation in future periods.

When an expenditure is incurred that would qualify for payment from multiple fund balance types, the County uses the following order to liquidate liabilities: restricted, committed, assigned, and unassigned.

Net Position - Net position represents the difference between assets/deferred outflows and liabilities/deferred inflows. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The remaining net position is reported as unrestricted.

J. Fund Balance Policy

There is no rule or law in New Hampshire that governs the level of fund balance for counties. However, by looking at other guidelines that exist and by comparing the County to other counties in the state and in other states, the County arrived at a policy that fits the County's needs and standards:

- 1) The NH Department of Revenue Administration recommends that municipalities maintain a fund balance that represents between 5% and 10% of its total annual appropriations, including municipal, school, and county obligations.
- 2) The Government Finance Officer Association recommends as a best practice that "general-purpose governments, regardless of size, maintain unrestricted fund balance in their General Fund of no less than two months of regular General Fund operating revenues or regular General Fund operating expenditures. Furthermore, a government's particular situation often may require a level of unrestricted fund balance in the General Fund significantly in excess of this recommended minimum level. In any case, such measures should be applied within the context of long-term forecasting, thereby avoiding the risk of placing too much emphasis upon the level of unrestricted fund balance in the General Fund at any one time". Two months of operating revenues for operations funded by the General Fund for the County is approximately \$6 million, which is about 15% of the budgeted appropriations.

Through this fund balance policy, the County will endeavor to achieve and maintain an undesignated fund balance that is between 7% and 14% of its annual budgeted appropriations, which represents one to two months of operations.

K. Use of Estimates

The preparation of basic financial statements in conformity with Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures for contingent assets and liabilities at the date of the basic financial statements and the reported amounts of the revenues and expenditures/expenses during the fiscal year. Actual results could vary from estimates that were used.

2. Stewardship, Compliance, and Accountability

A. Budgetary Information

The County follows the following procedures for establishing the budgetary data reflected in the basic financial statements:

- Prior to May 1st, the County departments submit to the County Commissioners a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them.
- Hearings are conducted by the County Commissioners prior to the County's budget meeting to discuss the proposed budget.
- The budget is legally enacted by the County Delegation prior to September 1st.
- Appropriations for certain projects and specific items not fully expended at the fiscal year-end are carried forward as continued appropriations to the new fiscal year in which they supplement the appropriations of that year.
- The budgets for all departments and operations of the County are prepared under the direction of the County Commissioners. Original appropriations are acted upon by the County Delegation vote.
- A copy of the budget is published in the Annual Report of the County of Grafton, New Hampshire.

B. Budgetary Basis

The final appropriation appearing on the "Budget and Actual" page of the fund financial statements represents the final amended budget after all reserve fund and line item transfers.

C. Budget/GAAP Reconciliation

The budgetary data for the General Fund is based upon accounting principles that differ from Generally Accepted Accounting Principles (GAAP). Therefore, in addition to the GAAP basis financial statements, the results of operations are presented in accordance with budgetary accounting principles to provide a meaningful comparison to budgetary data.

The following is a summary of adjustments made to the actual revenues and other sources, and expenditures and other uses, to conform to the budgetary basis of accounting.

<u>General Fund</u>	<u>Revenues and Other Financing Sources</u>	<u>Expenditures and Other Financing Uses</u>
Revenues/Expenditures - (GAAP Basis)	\$ 40,969,736	\$ 40,550,396

Budgetary Basis	<u>\$ 40,969,736</u>	<u>\$ 40,352,818</u>

3. Cash and Short-Term Investments

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of a bank failure, the County's deposits may not be returned to it. RSA 29:1 limits "deposit in any one bank shall not at any time exceed the sum of its paid-up capital and surplus." The County does not have a deposit policy for custodial credit risk.

As of June 30, 2017, none of the County's bank balance was exposed to custodial credit risk as uninsured or uncollateralized.

4. Restricted Cash

Restricted cash represents cash and cash equivalents where use is limited by legal requirements. Within the General Fund, the restricted cash amount of \$446,374 is composed of amounts from the Nursing Home Capital Reserve, the Registry of Deeds Surcharge Fund, the Dispatch Capital Reserve, and the Pandemic Fund.

5. Allowance for Doubtful Accounts and Contractual Allowances

The allowance for doubtful accounts for Nursing Home receivables has been estimated at approximately \$83,000 at June 30, 2017. Nursing Home receivables are also reported net of contractual allowances.

6. Capital Assets

Capital asset activity for the year ended June 30, 2017 was as follows (in thousands):

7. Deferred Outflows of Resources

Deferred outflows of resources represent the consumption of net position by the County that is applicable to future reporting periods. Deferred outflows of resources have a positive effect on net position, similar to assets. Deferred outflows of resources related to pensions, in accordance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, are more fully discussed in Note 14.

Other deferred outflows of resources consist of loss on bond refunding (see Note 10).

8. Anticipation Notes Payable

At June 30, 2017, the County had no anticipation lines of credit available. The following summarizes notes payable activity during fiscal year 2017:

<u>Purpose</u>	<u>Issue Amount</u>	<u>Issue Date</u>	<u>Interest Rate</u>	<u>Balance Beginning of Year</u>	<u>Advances</u>	<u>Repayments</u>	<u>Balance End of Year</u>

Equipment financed by capital lease payable totaling \$174,942 is reported in capital assets net of \$73,443 accumulated depreciation.

10. Long-Term Debt

A. General Obligation Bonds

The County issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for governmental activities. General obligation bonds currently outstanding are as follows:

D. Advance Refunding

On October 14, 2016, the County issued general obligation bonds in the amount of \$16,180,000 with a variable interest rate ranging from 2.50% to 5.00% to advance refund \$16,500,000 of term bonds with an interest rate of 3.00% to 4.75%. The term bonds mature on December 1, 2030 and January 1, 2032 and are callable on December 1, 2020 and January 1, 2022, respectively. The general obligation bonds were issued at 3.00% and, after paying issuance costs of \$200,706, the net proceeds were \$18,948,719. The net proceeds from the issuance of the general obligation bonds were used to purchase U.S. government securities and those securities were deposited in an irrevocable trust with an escrow agent to provide debt service payments until the term bonds are called on December 1, 2020 and January 1, 2022, respectively. The advance refunding met the requirements of an in-substance debt defeasance and the term bonds were removed from the County's financial statements.

As a result of the advance refunding, the County decreased its total debt service cash flow requirements by \$875,596, which resulted in an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$638,904.

Defeased debt still outstanding at June 30, 2017 is \$16,500,000.

11. Deferred Inflows of Resources

Deferred inflows of resources are the acquisition of net position by the County that is applicable to future reporting periods. Deferred inflows of resources have a negative effect on net position, similar to liabilities. Deferred inflows of resources related to pension will be recognized in pension expense in future years and is more fully described in Note 14.

12. Fund Balances

The County's fund balance classification policies and procedures are as follows:

- 1) Nonspendable funds are either unspendable in the current form (i.e., inventory) or can never be spent.
- 2) Restricted funds are used solely for the purpose in which the fund was established. In the case of special revenue funds, these funds are created by statute or otherwise have external constraints on how the funds can be spent.
- 3) Committed funds are reported and expended as a result of motions passed by the highest decision-making authority in the County (i.e., County Delegation).

- 4) Assigned funds are used for specific purposes as established by management. These funds, which include encumbrances, have been assigned for specific goods and services ordered but not yet paid for. This account also includes fund balance voted to be used in the subsequent fiscal year.
- 5) Unassigned funds are available to be spent in future periods.

The following is a summary of fund balances at June 30, 2017:

	General Fund	Nonmajor Governmental Funds	Total Governmental Funds

13. Other Post-Employment Benefits – OPEB (GASB 45)

GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*, requires governments to account for other post-employment benefits (OPEB) on an accrual basis, rather than on a pay as you go basis. The effect is the recognition of an actuarially required contribution as an expense on the Statement of Activities when a future retiree earns their post-employment benefits, rather than when they use their post-employment benefit. To the extent that an entity does not fund their actuarially required contribution, a post-employment benefit liability is recognized on the Statement of Net Position over time.

A. Plan Description

The County provides post-employment healthcare benefits for certain eligible retirees.

B. Benefits Provided

The County provides medical benefits to its eligible retirees. The benefits are provided through HealthTrust.

C. Funding Policy

The County pays 100% of the retiree's medical benefits. Eligible retirees of the County also receive a subsidy from the New Hampshire State Retirement System that is used to offset OPEB.

The County does not contribute towards the cost of retiree spouses' medical coverage. Spouses desiring to remain covered under the County plan pay 100%.

The spouse is required to pay 100% of the cost of benefits following the death of the retired employee.

D. Annual OPEB Costs and Net OPEB Obligation

The County's fiscal year 2017 annual OPEB expense is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost per year and amortize the unfunded actuarial liability over a period of thirty years. The following table shows the components of the County's annual OPEB cost for the year ending June 30, 2017, the amount actually contributed to the plan, and the change in the County's net OPEB obligation based on an actuarial valuation as of July 1, 2016.

Annual Required Contribution (ARC)	\$ 2,071,252
Interest on net OPEB obligation	362,509
Adjustment to ARC	<u>(513,921)</u>
Annual OPEB cost	1,919,840
Contributions made	<u>(296,461)</u>
Increase in net OPEB obligation	1,623,379
Net OPEB obligation - beginning of year	<u>9,062,727</u>
Net OPEB obligation - end of year	<u>\$ 10,686,106</u>

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation were as follows:

<u>Fiscal year ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
2017	\$ 1,919,840	15%	\$ 10,686,106
2016	\$ 1,592,002	23%	\$ 9,062,727
2015	\$ 1,496,680	24%	\$ 7,841,459

E. Funded Status and Funding Progress

The funded status of the plan as of July 1, 2016, the date of the most recent actuarial valuation, was as follows:

Actuarial accrued liability (AAL)	\$ 18,405,319
Actuarial value of plan assets	<u>-</u>
Unfunded actuarial accrued liability (UAAL)	\$ <u>18,405,319</u>
Funded ratio (actuarial value of plan assets/AAL)	<u>0%</u>
Covered payroll (active plan members)	\$ <u>13,222,395</u>
UAAL as a percentage of covered payroll	<u>139.2%</u>

Actuarial valuations of an ongoing plan involve estimates of the value of reported amount and assumptions about the probability of occurrence of events far into the future. Examples included assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision, as actual results are compared with past expectations and new estimates are made about the future. The Schedule of OPEB Funding Progress, presented as required supplementary information following the Notes to Financial Statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

F. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the plan as understood by the County and the plan members, and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the County and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued

liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2016 actuarial valuation, the projected unit credit cost method was used. The actuarial value of assets was not determined, as the County has not advance funded its obligation. The actuarial assumptions included a 4.0% investment rate of return and an initial annual healthcare cost trend rate of 9%, which decreases to a 5% long-term rate for all healthcare benefits after eight years. The amortization costs for the initial UAAL is a level percentage of payroll for a period of 29 years, on a closed basis.

14. New Hampshire Retirement System

The County follows the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, with respect to the State of New Hampshire Retirement System (NHRS).

A. Plan Description

Full-time employees participate in the State of New Hampshire Retirement System, a cost-sharing, multiple-employer defined benefit contributory pension plan and trust established in 1967 by RSA 100-A:2 and qualified as a tax-exempt organization under Section 401(a) and 501(a) of the Internal Revenue Code. The plan is a contributory, defined benefit plan providing service, disability, death, and vested retirement benefits to members and their beneficiaries. Substantially all full-time state employees, public school teachers and administrators, permanent firefighters, and permanent police officers within the State of New Hampshire are eligible and required to participate in the system. Full-time employees of political subdivisions, including counties, municipalities, and school districts are also eligible to participate as a group if the governing body of the political subdivision has elected participation.

The New Hampshire Retirement System, a Public Employees Retirement System (PERS), is divided into two membership groups. State or local employees and teachers belong to Group I. Police officers and firefighters belong to Group II. All assets are held in a single trust and are available to each group. Additional information is disclosed in the NHRS' annual report publicly available from the New Hampshire Retirement System located at 54 Regional Drive, Concord, New Hampshire 03301-8507.

B. Benefits Provided

Group I members at age 60 or 65 (for members who commence service after July 1, 2011) qualify for a normal service retirement allowance based on years of creditable service and average final salary for the highest of

either three or five years, depending on when their service commenced. The yearly pension amount is 1/60 or 1.667% of average final compensation (AFC), multiplied by years of creditable service. At age 65, the yearly pension amount is recalculated at 1/66 or 1.515% of AFC multiplied by years of creditable service.

Group II members who are age 60, or members who are at least age 45 with at least 20 years of creditable service, can receive a retirement allowance at a rate of 2.5% of AFC for each year of creditable service, not to exceed 40 years. Members commencing service on or after July 1, 2011 or members who have a nonvested status as of January 1, 2012 can receive a retirement allowance at age 52.5 with 25 years of service or age 60. The benefit shall be equal to 2% of AFC times creditable service up to 42.5 years. However, a member who commenced service on or after July 1, 2011 shall not receive a retirement allowance until attaining the age of 52.5, but may receive a reduced allowance after age 50 if the member has at least 25 years of creditable service where the allowance shall be reduced, for each month by which the benefit commencement date precedes the month after which the member attains 52.5 years of age by $\frac{1}{4}$ of 1% or age 60.

Members of both groups may qualify for vested deferred allowances, disability allowances and death benefit allowances subject to meeting various eligibility requirements. Benefits are based on AFC or earned compensation and/or service.

C. Contributions

Plan members are required to contribute a percentage of their gross earnings to the pension plan, for which the contribution rates are 7% for employees and 11.55% for sheriff's deputies and correctional officers. The County makes annual contributions to the pension plan equal to the amount required by Revised Statutes Annotated 100-A:16, and range from 10.86% to 25.32% of covered compensation. The County's contribution to NHRS for the year ended June 30, 2017 was \$2,023,429, which was equal to its annual required contribution.

D. Summary of Significant Accounting Policies

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the NHRS and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by NHRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value

E. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the County reported a liability of \$28,405,831 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2015. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2015, the County's proportion was .51020249 percent.

At June 30, 2016, the County's proportion was .53418565 percent, which was an increase of .02398316% from its proportion measured as of June 30, 2015.

For the year ended June 30, 2017, the County recognized pension expense of \$3,410,466. In addition, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 78,939	\$ 358,695
Changes of assumptions	3,495,855	-
Net difference between projected and actual earnings on pension plan investments	1,777,215	-
Changes in proportion and differences between contributions and proportionate share of contributions	1,016,185	-
Contributions subsequent to the measurement date (fiscal year 2017)	<u>2,023,429</u>	-
Total	<u>\$ 8,391,623</u>	<u>\$ 358,695</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year ended June 30:</u>	
2018	\$ (3,280,524)
2019	(1,257,095)
2020	(1,869,706)
2021	(1,545,083)
2022	<u>(80,520)</u>
Total	\$ <u>(8,032,928)</u>

F. Actuarial Assumptions

The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5 percent per year
Salary increases	5.6 percent average, including inflation
Investment rate of return	7.25 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2014 Employee generational mortality table for males and females, adjusted for mortality improvements using Scale MP-2015, based on the last experience study.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of the most recent actuarial experience study, which was for the period July 1, 2010 – June 30, 2015.

The long-term expected rate of return on pension plan investments was selected from a best estimate range determined using the building block approach. Under this method, an expected future real return range is calculated separately for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return net of investment expenses by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation Percentage</u>	<u>Weighted Average Average Long- Term Expected Real Rate of Return</u>
Large Cap Equities	22.50 %	4.25%
Small/Mid Cap Equities	<u>7.50</u>	4.50%
Total domestic equities	30.00	
Int'l Equities (unhedged)	13.00	4.75%
Emerging Int'l Equities	<u>7.00</u>	6.25%
Total international equities	20.00	
Core Bonds	5.00	0.64%
Short Duration	2.00	-0.25%
Global Multi-Sector Fixed Income	11.00	1.71%
Absolute Return Fixed Income	<u>7.00</u>	1.08%
Total fixed income	25.00	
Private Equity	5.00	6.25%
Private Debt	5.00	4.75%
Opportunistic	<u>5.00</u>	3.68%
Total alternative investments	15.00	
Real Estate	<u>10.00</u>	3.25%
Total	<u><u>100.00</u></u> %	

G. Discount Rate

The discount rate used to measure the total pension liability was 7.25%. This is a decrease of .50% from the previous valuation and has contributed to the significant deferred outflow of resources balance for changes of assumptions. The projection of cash flows used to determine the discount rate assumed that the plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. For purposes of the projection, member contributions and employer service cost contributions are projected based on the expected payroll of current members only. Employer contributions are determined based on the pension plan's actuarial funding policy and as required by RSA 100-A 16. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

H. Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (6.25%) or one percentage-point higher (8.25%) than the current rate:

<u>Fiscal Year Ended</u>	<u>1% Decrease (6.25%)</u>	<u>Current Discount Rate (7.25%)</u>	<u>1% Increase (8.25%)</u>
June 30, 2017	\$ 36,499,558	\$ 28,405,831	\$ 21,693,367

I. Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued NHRS financial report.

15. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the County carries commercial insurance. There were no significant reductions in insurance coverage from the previous year and have been no material settlements in excess of coverage in any of the past three fiscal years.

16. Commitments and Contingencies

Outstanding Legal Issues – On an ongoing basis, there are typically pending legal issues in which the County is involved. The County's management is of the opinion that the potential future settlement of these issues would not materially affect its financial statements taken as a whole.

Grants - Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount of expenditures which may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

17. Implementation of New GASB Standard

The Governmental Accounting Standards Board (GASB) has issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*, replacing requirements of Statements No. 45 and 57, effective for the County beginning with its year ending June 30, 2018. This Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. In addition, the Statement details the recognition and disclosure requirements for employers with payables to defined benefit OPEB plans that are administered through trusts that meet the specific criteria and for employers whose employees are provided with defined contribution OPEB.

The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

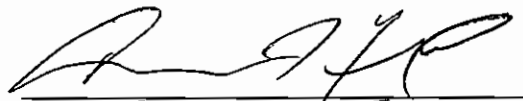

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
 - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
 - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
 - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (I)(b) of this certification; and
 - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
 - 13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
 - 13.2. where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal (contract).

- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

- e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.
- f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) l, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

When no longer in use, electronic media containing State of New Hampshire data shall be rendered unrecoverable via a secure wipe program in accordance with industry-accepted standards for secure deletion and media sanitization, or otherwise physically destroying the media (for example, degaussing) as described in NIST Special Publication 800-88, Rev 1, Guidelines for Media Sanitization, National Institute of Standards and Technology, U. S. Department of Commerce. The Contractor will document and certify in writing at time of the data destruction, and will provide written certification to the Department upon request. The written certification will include all details necessary to demonstrate data has been properly destroyed and validated. Where applicable, regulatory and professional standards for retention requirements will be jointly evaluated by the State and Contractor prior to destruction.
2. Unless otherwise specified, within thirty (30) days of the termination of this Contract, Contractor agrees to destroy all hard copies of Confidential Data using a secure method such as shredding.
3. Unless otherwise specified, within thirty (30) days of the termination of this Contract, Contractor agrees to completely destroy all electronic Confidential Data by means of data erasure, also known as secure data wiping.

The Contractor will maintain policies and procedures to protect Department confidential information throughout the information lifecycle, where applicable, (from creation, transformation, use, storage and secure destruction) regardless of the media used to store the data (i.e., tape, disk, paper, etc.).

DHHS Information Security Requirements

3. The Contractor will maintain appropriate authentication and access controls to contractor systems that collect, transmit, or store Department confidential information where applicable.
4. The Contractor will ensure proper security monitoring capabilities are in place to detect potential security events that can impact State of NH systems and/or Department confidential information for contractor provided systems.
5. The Contractor will provide regular security awareness and education for its End Users in support of protecting Department confidential information.
6. The purpose of the survey is to enable the Department and Contractor to monitor for any changes in risks, threats, and vulnerabilities that may occur over the life of the Contractor engagement. The survey will be completed annually, or an alternate time frame at the Departments discretion with agreement by the Contractor, or the Department may request the survey be completed when the scope of the engagement between the Department and the Contractor changes.
10. The Contractor will not store, knowingly or unknowingly, any State of New Hampshire or Department data offshore or outside the boundaries of the United States unless prior express written consent is obtained from the Information Security Office leadership member within the Department.
11. Data Security Breach Liability. In the event of any security breach Contractor shall make efforts to investigate the causes of the breach, promptly take measures to prevent future breach and minimize any damage or loss resulting from the breach. The State shall recover from the Contractor all costs of response and recovery from

Exhibit K

INDEPENDENT AUDITORS' REPORT ON FINANCIAL STATEMENTS

To the Board of Directors
Headrest, Inc.
Lebanon, New Hampshire 03766

We have audited the accompanying financial statements of Headrest, Inc. (a nonprofit organization), which comprise the statements of financial position as of June 30, 2017 and 2016, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to the above present fairly, in all material respects, the financial position of Headrest, Inc. as of June 30, 2017 and 2016, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The schedule of functional expenses on page 11 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

HEADREST, INC.
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2017 AND 2016

NOTE 1 – NATURE OF ORGANIZATION

Headrest, Inc. ("Headrest") is a New Hampshire nonprofit corporation that provides information and referral, crisis intervention and other related services through the use of a telephone hotline and office visitations. Headrest also provides counseling and emergency shelter to transients, and information to the community relating to drugs and alcohol.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

The summary of significant accounting policies of Headrest is presented to assist in understanding the Organization's financial statements. The financial statements and notes are representations of Headrest's management who is responsible for their integrity and objectivity. These accounting policies conform to U.S. generally accepted accounting principles and have been consistently applied in the preparation of the financial statements.

The financial statements of Headrest have been prepared on the accrual basis of accounting. The significant accounting policies followed are described below.

Financial statement presentation

Financial statement presentation follows the recommendations of the Financial Accounting Standards Board in its Statement of Financial Accounting Standards (SFAS) No. 117, "Financial Statements of Not-for-Profit Organizations". Under SFAS No. 117, Headrest is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted net assets are comprised of operating revenues and expenses and contributions pledged which are not subject to any donor-imposed restrictions. Headrest, Inc. currently has \$117,338 and \$186,769 unrestricted net assets as of June 30, 2017 and 2016, respectively.

Temporary restricted net assets are comprised of contributions and gifts for which donor-imposed restrictions will be met either by the passage of time or the actions of the Organization. Headrest, Inc. currently has no temporarily restricted net assets as of June 30, 2017 and 2016, respectively.

HEADREST, INC.
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2017 AND 2016

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Permanently restricted net assets include those assets for which donor-imposed restrictions stipulate that the asset be permanently maintained by the Organization. Headrest, Inc. has no permanently restricted net assets as of June 30, 2017 and 2016.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash equivalents – For purposes of the statement of cash flows, Headrest considers all short-term investments with an original maturity of three months or less to be cash equivalents. At June 30, 2017 and 2016 there were no cash equivalents.

Assets limited as to use

Assets Limited as to Use represent board-designated assets for capital expenditures and reserves amounting to \$26,184 and \$51,127 at June 30, 2017 and 2016. Assets limited to use consist of cash and cash equivalents however these amounts have not been included in cash and cash equivalents for cash flow purposes.

Allowance for doubtful accounts – Headrest considers accounts receivable to be fully collectible, accordingly, no allowance for doubtful accounts is required.

Depreciation and fixed assets – Property and equipment are stated at cost if purchased and at fair market value on the date of the donations if donated. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted or temporarily restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, Headrest reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. Headrest reclassifies temporarily restricted net assets to unrestricted net assets at that time. Depreciation is computed using straight-line and accelerated methods based on the estimated useful life of each asset. Estimated useful lives used for building and improvements are ten to thirty- nine years and for furniture and fixtures three to seven years.

Public support and revenue – All contributions are considered to be available or unrestricted use unless specifically restricted by the donor.

 NOTES TO FINANCIAL STATEMENTS
 YEARS ENDED JUNE 30, 2017 AND 2016

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income taxes – The Organization is a not-for-profit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and classified by the Internal Revenue Service as other than a private foundation.

The Organization adopted the recognition requirements for uncertain income tax positions as required by generally accepted accounting principles, with no cumulative effect adjustment required. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more likely-than-not be sustained upon examination by taxing authorities. The Organization has analyzed tax positions taken for filing with the Internal Revenue Service and the state jurisdiction where it operates. The Organization believes that income tax filing positions will be sustained upon examination and does not anticipate any adjustments that would result in a material adverse affect on the Organization's financial condition, results of operations or cash flows. Accordingly, the Organization has not recorded any reserves, or related accruals for interest and penalties for uncertain income tax positions at June 30, 2017.

Donated services and materials - Donated supplies and equipment are reflected as contributions in the accompanying financial statements at their estimated fair market values.

Functional expenses – Functional and administrative expenses have been allocated among program services based on an analysis of personnel time and space utilized for the activities.

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Easter Seals New Hampshire, Inc. and Subsidiaries

We have audited the accompanying consolidated financial statements of Easter Seals New Hampshire, Inc. and Subsidiaries (Easter Seals NH), which comprise the consolidated statements of financial position as of August 31, 2017 and 2016, and the related consolidated statements of activities and changes in net assets, functional expenses and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the Board of Directors
Easter Seals New Hampshire, Inc. and Subsidiaries

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Easter Seals NH as of August 31, 2017 and 2016, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying other financial information is presented for purposes of additional analysis rather than to present the financial position and results of operations of the individual companies and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

As discussed in note 1, effective August 31, 2016, Easter Seals NH transferred its sole member interest in Easter Seals Rhode Island, Inc. to Fedcap Rehabilitation Services, Inc. As a result, these consolidated financial statements do not include the financial position of Easter Seals Rhode Island, Inc. at August 31, 2016, while the results of operations of Easter Seals Rhode Island, Inc. are included for the year then ended.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 4, 2017, on our consideration of Easter Seals New Hampshire, Inc. and Subsidiaries' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Easter Seals New Hampshire, Inc. and Subsidiaries' internal control over financial reporting and compliance.

EASTER SEALS NEW HAMPSHIRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2017 and 2016

1. Corporate Organization and Purpose

Easter Seals New Hampshire, Inc. and Subsidiaries (Easter Seals NH) consists of various separate nonprofit entities: Easter Seals New Hampshire, Inc. (parent and service corporation); Easter Seals Maine, Inc. (Easter Seals ME); The Harbor Schools Incorporated (Harbor Schools); Manchester Alcoholism Rehabilitation Center; and Easter Seals Vermont, Inc. (Easter Seals VT). Easter Seals New Hampshire, Inc. is the sole member of each subsidiary. Easter Seals NH is affiliated with Easter Seals, Inc. (the national headquarters for the organization).

On August 31, 2016, Easter Seals NH entered into an agreement with Fedcap Rehabilitation Services, Inc. (Fedcap), an unrelated entity, whereby Easter Seals NH agreed to transfer its sole member interest in Easter Seals RI to Fedcap for no consideration. See note 14. The accompanying consolidated statements of activities include the results of operations of Easter Seals RI through the date Easter Seals NH's sole member interest was transferred.

Effective October 26, 2016, Agency Realty, Inc. was dissolved and all properties were transferred to Easter Seals New Hampshire, Inc.

Easter Seals NH's purpose is to provide (1) programs and services for people with disabilities and other special needs, (2) assistance to people with disabilities and their families, (3) assistance to communities in identifying and developing needed services for residents, and (4) a climate of acceptance for people with disabilities and other special needs which will enable them to contribute to the well-being of the community. Easter Seals NH operates programs throughout New Hampshire, Maine, Massachusetts (prior to the closure of Harbor Schools, see note 15), Rhode Island (prior to deconsolidation), and Vermont.

2. Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of Easter Seals New Hampshire, Inc. and the subsidiaries of which it is the sole member as described in note 1. Significant intercompany accounts and transactions have been eliminated in consolidation.

Cash and Cash Equivalents

Easter Seals NH considers all highly liquid securities purchased with an original maturity of 90 days or less to be cash equivalents. Cash equivalents consist of cash, overnight repurchase agreements and money market funds, excluding assets limited as to use.

The management of Easter Seals NH has implemented a practice to establish cash reserves on hand. As of August 31, 2017 and 2016, approximately \$1,705,000 and \$1,262,000, respectively, of cash and cash equivalents, and approximately \$2,816,000 and \$2,749,000, respectively, of investments were on-hand under this practice. Because such funds are available and may be used in current operations, they have been classified as current in the accompanying consolidated statements of financial position.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2017 and 2016

2. Summary of Significant Accounting Policies (Continued)

Assets Limited as to Use and Investments

Assets limited as to use consists of cash and cash equivalents, short-term certificates of deposit with original maturities greater than 90 days, but less than one year, and investments. Investments are stated at fair value. Realized gains and losses on investments are computed on a specific identification basis. The changes in net unrealized and realized gains and losses on investments are recorded in other non-operating expenses, gains and losses in the accompanying consolidated statements of activities and changes in net assets. Donated securities are stated at fair value determined at the date of donation.

Beneficial Interest in Trust

Easter Seals NH is the beneficiary of a trust held by others. Easter Seals NH has recorded as an asset the fair value of its interest in the trust and such amount is included in permanently restricted net assets, based on the underlying donor stipulations. The change in the interest due to fair value change is recorded within other non-operating expenses, gains and losses as permanently restricted activity.

Fixed Assets

Fixed assets are recorded at cost less accumulated depreciation and amortization. Expenditures for maintenance and repairs are charged to expense as incurred, and expenditures for major renovations are capitalized. Depreciation is computed on the straight-line method over the estimated useful lives of the underlying assets. Leasehold improvements and the carrying value of equipment financed by capital leases are amortized using the straight-line method over the shorter of the lease term or the estimated useful life of the asset.

Fixed assets obtained by Easter Seals NH as a result of acquisitions on or after September 1, 2011 are recorded at estimated fair value as of the date of the acquisition in accordance with generally accepted accounting principles guidance for acquisitions by a not-for-profit entity.

Donated property and equipment not subject to donor stipulated conditions is recorded at fair value at the date of donation. If donors stipulate how long the assets must be used, the contributions are recorded as restricted support or, if significant uncertainties exist, as deferred revenue pending resolution of the uncertainties. In the absence of such stipulations, contributions of property and equipment are recorded as unrestricted support. See also note 7.

Property held for sale is recorded at the lower of net realizable value or carrying value. No impairment losses were recognized in 2017 or 2016.

Intangible Assets and Long-Lived Assets

Accounting rules require that intangible assets with estimable or determinable useful lives be amortized over their respective estimated useful lives to their estimated residual values, and be reviewed by management for impairment. Intangible assets at August 31, 2016 consisted of a patient list obtained in the acquisition of Webster Place in 2012 (in May 2013, Webster Place was merged with Manchester Alcoholism Rehabilitation Center).

EASTER SEALS NEW HAMPSHIRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2017 and 2016

2. Summary of Significant Accounting Policies (Continued)

Amortization expense recognized in 2017 and 2016 totaled \$33,131 and \$33,130, respectively.

When there is an indication of impairment, management considers whether long-lived assets are impaired by comparing gross future undiscounted cash flows expected to be generated from utilizing the assets to their carrying amounts. If cash flows are not sufficient to recover the carrying amount of the assets, impairment has occurred and the assets are written down to their fair value. Significant estimates and assumptions are required to be made by management in order to evaluate possible impairment.

Based on current facts, estimates and assumptions, management believed that the patient list was impaired in 2017 and recorded \$132,521 in impairment to write-off the remaining book value. Additionally, management believed that certain fixed assets were impaired in 2017 and recorded \$635,111 in impairment related to those long-term assets. No other long-lived assets were deemed impaired at August 31, 2017 and 2016.

Bond Issuance Costs

Bond issuance costs are being amortized to interest expense using the straight-line method over the repayment period of the related bonds, or the expected time until the next refinancing, whichever is shorter. Interest expense recognized on the amortization of bond issuance costs during 2017 and 2016 was \$5,069 and \$3,072 respectively. The bond issuance costs are presented as a component of long-term debt on the accompanying consolidated statement of financial position.

Revenue Recognition

Revenue generated from services provided to the public is reported at the estimated net realizable amounts from clients, third-party payors and others based upon approved rates as services are rendered. A significant portion of Easter Seals NH's revenues are derived through arrangements with third-party payors. As such, Easter Seals NH is dependent on these payors in order to carry out its operating activities. There is at least a reasonable possibility that recorded estimates could change by a material amount in the near term. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in other fees and grants in the year that such amounts become known.

Revenues are recognized as earned, or attributable to the period in which specific terms of the funding agreement are satisfied, and to the extent that expenses have been incurred for the purposes specified by the funding source. Revenue balances in excess of the foregoing amounts are accounted for as deferred revenue until any restrictions are met or allowable expenditures are incurred.

The allowance for doubtful accounts is provided based on an analysis by management of the collectability of outstanding balances. Management considers the age of outstanding balances and past collection efforts in determining the allowance for doubtful accounts. Accounts are charged against the allowance for doubtful accounts when deemed uncollectible. The bad debt provision in 2017 and 2016 totaled \$2,284,863 and \$984,511 respectively, and is recorded against fees and grants from governmental agencies and others and contributions. The increase in bad debt provision in 2017 is due to growth in services provided by Manchester Alcoholism Rehabilitation Center. See also note 5.

EASTER SEALS NEW HAMPSHIRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2017 and 2016

2. Summary of Significant Accounting Policies (Continued)

Easter Seals NH has agreements with third-party payors that provide for payment at amounts different from its established rates. Payment arrangements include discounted charges and prospectively determined payments. Contractual allowances for program and other accounts receivable at August 31, 2017 and 2016 were \$8,302,300 and \$7,372,700, respectively. The total contractual adjustments provided in 2017 and 2016 totaled \$42,812,400 and \$22,364,200, respectively, and are recorded against fees and grants from governmental agencies and others. The increase in contractual adjustments in 2017 is primarily due to growth in services provided by Manchester Alcoholism Rehabilitation Center and an increase in these services being covered by third-party payors.

Unconditional contributions are recognized when pledged.

Advertising

Easter Seals NH's policy is to expense advertising costs as incurred.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the accompanying consolidated statements of activities and changes in net assets. Accordingly, certain costs have been allocated among the programs and supporting services based mainly on time records and estimates made by Easter Seals NH's management.

Charity Care (Unaudited)

Easter Seals NH has a formal charity care policy under which program fees are subsidized as determined by the Board of Directors. Free and subsidized services are rendered in accordance with decisions made by the Board of Directors and, at established charges, amounted to approximately \$6,701,000 and \$5,611,000 for the years ended August 31, 2017 and 2016, respectively.

Income Taxes

Easter Seals New Hampshire, Inc., Easter Seals ME, Easter Seals VT, Harbor Schools and Manchester Alcoholism Rehabilitation Center are exempt from both federal and state income taxes under Section 501(c)(3) of the Internal Revenue Code. Agency Realty, Inc., through to the date of its dissolution (see note 1) received a determination letter from the Internal Revenue Service stating that it qualifies for tax-exempt status under Section 501(c)(2) of the Internal Revenue Code.

Tax-exempt organizations could be required to record an obligation for income taxes as the result of a tax position historically taken on various tax exposure items including unrelated business income or tax status. In accordance with accounting principles generally accepted in the United States of America, assets and liabilities are established for uncertain tax positions taken or positions expected to be taken in income tax returns when such positions are judged to not meet the "more-likely-than-not" threshold, based upon the technical merits of the position.

EASTER SEALS NEW HAMPSHIRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2017 and 2016

2. Summary of Significant Accounting Policies (Continued)

Management has evaluated tax positions taken by Easter Seals New Hampshire, Inc. and its subsidiaries on their respective filed tax returns and concluded that the organizations have maintained their tax-exempt status, do not have any significant unrelated business income, and have taken no uncertain tax positions that require adjustment to or disclosure in the accompanying consolidated financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Estimates are used in accounting for the allowance for doubtful accounts, contractual allowances, workers' compensation liabilities and contingencies.

Derivatives and Hedging Activities

Accounting guidance requires that Easter Seals NH record as an asset or liability the fair value of the interest rate swap agreement described in note 10. Easter Seals NH is exposed to repayment loss equal to the net amounts receivable under the swap agreement (not the notional amount) in the event of nonperformance of the other party to the swap agreement. However, Easter Seals NH does not anticipate nonperformance and does not obtain collateral from the other party.

As of August 31, 2017 and 2016, Easter Seals NH had recognized a liability of \$2,641,673 and \$3,487,979, respectively, as a result of the interest rate swap agreements discussed in note 10. As a result of changes in the fair value of these derivative financial instruments, Easter Seals NH recognized an increase in net assets of \$846,306 and a decrease in net assets of \$668,012 for the years ended August 31, 2017 and 2016, respectively, in the accompanying consolidated statements of activity and changes in net assets.

Increase in Net Assets from Operations

For purposes of display, transactions deemed by management to be ongoing, major or central to the provision of services are reported as revenue and expenses that comprise the increase in net assets from operations. The primary transactions reported as other non-operating expenses, gains and losses include the adjustment to fair value of interest rate swaps, the change in the fair value of beneficial interest in trust held by others, gains and losses on sales and disposals of fixed assets, and net realized and unrealized gains and losses on investments.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2017 and 2016

2. Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncements

Effective for the year ended August 31, 2017, Easter Seals NH retroactively adopted the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) No. 2015-03, *Interest – Imputation of Interest*, which changes the presentation of debt issuance costs by requiring that debt issuance costs related to a recognized debt liability be presented in the consolidated statement of financial position as a direct deduction from the carrying amount of that debt liability and amortized to interest expense, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs is not affected by the ASU. As a result of the adoption, Easter Seals NH has reclassified unamortized bond issuance costs in the amount of \$56,073 from bond issuance costs, net on the accompanying consolidated statement of financial position at August 31, 2016 and presented the amount as a reduction of long-term debt, as required by the ASU. The adoption has no effect on Easter Seals NH's net assets, consolidated statement of activities and changes in net assets or statement of cash flows for the year ended August 31, 2016.

In May 2014, the FASB issued No. 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09), which requires revenue to be recognized when promised goods or services are transferred to customers in amounts that reflect the consideration to which Easter Seals NH expects to be entitled in exchange for those goods and services. ASU 2014-09 will replace most existing revenue recognition guidance when it becomes effective. ASU 2014-09 is effective for Easter Seals NH on September 1, 2019. ASU 2014-09 permits the use of either the retrospective or cumulative effect transition method. Management is currently evaluating the impact that ASU 2014-09 will have on Easter Seals NH's consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*, which requires that lease arrangements longer than twelve months result in an entity recognizing an asset and liability. The pronouncement is effective for Easter Seals NH beginning September 1, 2020, with early adoption permitted. The guidance may be adopted retrospectively. Management is currently evaluating the impact this guidance will have on Easter Seals NH's consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-14, *Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities* (ASU 2016-14). Under ASU 2016-14, there is a change in presentation and disclosure requirements for not-for-profit entities to provide more relevant information about their resources (and the changes in those resources) to donors, grantors, creditors, and other users. These include qualitative and quantitative requirements in net asset classes, investment return, expenses, liquidity and availability of resources and presentation of operating cash flows. ASU 2016-14 is effective for Easter Seals NH on September 1, 2018, with early adoption permitted. Management is currently evaluating the impact of the pending adoption of ASU 2016-14 on Easter Seals NH's consolidated financial statements.

Subsequent Events

Events occurring after the statement of financial position date are evaluated by management to determine whether such events should be recognized or disclosed in the consolidated financial statements. Management has evaluated events occurring between the end of Easter Seals NH's fiscal year end and December 4, 2017, the date these consolidated financial statements were available to be issued.

3. **Classification of Net Assets**

In accordance with the *Uniform Prudent Management of Institutional Funds Act* (UPMIFA), net assets are classified and reported based on the existence or absence of donor-imposed restrictions. Gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of donated assets. Temporarily restricted net assets are those whose use by Easter Seals NH has been limited by donors to a specific time period or purpose. When a donor restriction expires (when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of activities and changes in net assets as net assets released from restrictions. Permanently restricted net assets have been restricted by donors to be maintained by Easter Seals NH in perpetuity, the income from which is expendable to support all activities of the organization, or as stipulated by the donor.

Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

In accordance with UPMIFA, Easter Seals NH considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (a) the duration and preservation of the fund; (b) the purpose of the organization and the donor-restricted endowment fund; (c) general economic conditions; (d) the possible effect of inflation and deflation; (e) the expected total return from income and the appreciation of investments; (f) other resources of the organization; and (g) the investment policies of the organization.

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires Easter Seals NH to retain as a fund of permanent duration. Deficiencies of this nature are reported in unrestricted net assets. There were no deficiencies between the fair value of the investments of the endowment funds and the level required by donor stipulation at August 31, 2017 or 2016.

Investment and Spending Policies

Easter Seals NH has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that Easter Seals NH must hold in perpetuity or for a donor-specified period. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of an appropriate market index while assuming a moderate level of investment risk. Easter Seals NH expects its endowment funds to provide an average rate of return over a five year period equal to the rate of 2% over the inflation rate. Actual returns in any given year may vary from this amount.

To satisfy its long-term rate-of-return objectives, Easter Seals NH relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Easter Seals NH targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

3. Classification of Net Assets (Continued)

Easter Seals NH may appropriate for distribution some or all of the earnings and appreciation on its endowment for funding of operations. In establishing this policy, Easter Seals NH considered the objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to, so long as it would not detract from Easter Seals NH's critical goals and initiatives, provide additional real growth through new gifts and investment return.

13. Fair Value of Financial Instruments

Fair value of a financial instrument is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at their measurement date. In determining fair value, Easter Seals NH uses various methods including market, income and cost approaches, and utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in factors used in the valuation. These factors may be readily observable, market corroborated, or generally unobservable. Easter Seals NH utilizes valuation techniques that maximize the use of observable factors and minimizes the use of unobservable factors.

Certain of Easter Seals NH's financial instruments are reported at fair value, which include beneficial interest held in trust, investments and the interest rate swap, and are classified by levels that rank the quality and reliability of the information used to determine fair value:

Level 1 – Valuations for financial instruments traded in active exchange markets, such as the New York Stock Exchange. Valuations are obtained from readily available pricing sources for market transactions involving identical instruments.

Level 2 – Valuations for financial instruments traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar instruments.

Level 3 – Valuations for financial instruments derived from other methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining fair value.

The following describes the valuation methodologies used to measure financial assets and liabilities at fair value. The levels relate to valuation only and do not necessarily indicate a measure of investment risk. There have been no changes in the methodologies used by Easter Seals NH at August 31, 2017 and 2016.

Investments and Assets Limited as to Use

Cash and cash equivalents are deemed to be Level 1. The fair values of marketable equity securities, and mutual funds that are based upon quoted prices in active markets for identical assets are reflected as Level 1. Investments in certain government and agency securities and corporate and foreign bonds where securities are transparent and generally are based upon quoted prices in active markets are valued by the investment managers and reflected as Level 2.

Beneficial Interest in Trust Held by Others

The beneficial interest in trust held by others has been assigned fair value levels based on the fair value levels of the underlying investments within the trust. The fair values of marketable equity securities, money market and mutual funds are based upon quoted prices in active markets for identical assets and are reflected as Level 1. Investments in marketable equity securities and mutual funds where securities are transparent and generally are based upon quoted prices in active markets are valued by the investment managers and reflected as Level 2.

Interest Rate Swap Agreement

The fair value for the interest rate swap liability is included in Level 3 and is estimated by the counterparty using industry standard valuation models. These models project future cash flows and discount the future amounts to present value using market-based observable inputs, including interest rates.

At August 31, 2017 and 2016, Easter Seals NH's assets and liabilities measured at fair value on a recurring basis were classified as follows:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
North Country Health Consortium, Inc. and Subsidiary
Littleton, New Hampshire

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of North Country Health Consortium, Inc. (a nonprofit organization) and Subsidiary, which comprise the consolidated statements of financial position as of September 30, 2017 and 2016, and the related consolidated statements of activities and changes in net assets, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of North Country Health Consortium, Inc. and Subsidiary as of September 30, 2017 and 2016, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 9, 2018 on our consideration of North Country Health Consortium, Inc. and Subsidiary's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering North Country Health Consortium, Inc. and Subsidiary's internal control over financial reporting and compliance.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Activities and Summary of Significant Accounting Policies

Nature of activities

North Country Health Consortium, Inc. and Subsidiary (NCHC) (the Organization) is a not-for-profit health center chartered under the laws of the State of New Hampshire. The Organization's mission is to lead innovative collaboration to improve the health status of the region. NCHC is engaged in promoting and facilitating access to services and programs that improve the health status of the area population, provide health training and educational opportunities for healthcare purposes, and provide region-wide dental services for an underserved and uninsured residents.

The Organization's wholly owned subsidiary, North Country ACO (the ACO), is a non-profit 501(c)(3) charitable corporation formed in December 2011. This entity was formed as an accountable care organization (ACO) with its purpose to support the programs and activities of the ACO participants to improve the overall health of their respective populations and communities. North Country ACO members participate in the Medicare Shared Savings Program to pay for services to Medicare beneficiaries. North Country ACO performs administration and manages the distribution of funds to participants using a patient based model.

Medicare payments to North Country ACO have ceased. The Organization did not submit an application to reapply to the Medicare Shared Savings Program. As a result, North Country ACO was issued a status of non-renewal, and its participation agreement with the Shared Savings Program has been terminated. Substantially all funds have been distributed to participants. A nominal cash balance remained to fund closing activities and completion of the required notifications to participants. After these activities have been completed, it is the intent of the Organization to dissolve North Country ACO.

The Organization's primary programs are as follows:

Network and Workforce Activities – To provide workforce education programs and promote oral health initiatives for the Organization's dental services.

Public Health and CSAP – To conduct community substance abuse prevention activities, coordination of public health networks, and promote community emergency response plan.

Dental Services and Molar – To sustain a program offering oral health services for children and low income adults in northern New Hampshire.

Following is a summary of the significant accounting policies used in the preparation of these consolidated financial statements.

Principles of consolidation

The accompanying consolidated financial statements include the accounts of North Country Health Consortium, Inc. and its wholly owned subsidiary, North Country ACO. All significant inter-company transactions and balances have been eliminated in consolidation.

Note 1. Nature of Activities and Summary of Significant Accounting Policies (Continued)

Use of estimates

In preparing the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of risk

The Organization's operations are affected by various risk factors, including credit risk and risk from geographic concentration and concentrations of funding sources. Management attempts to manage risk by obtaining and maintaining revenue funding from a variety of sources. A substantial portion of the Organization's activities are funded through grants and contracts with private and federal and state agencies. As a result, the Organization may be vulnerable to the consequences of change in the availability of funding sources and economic policies at the agency level. The Organization generally does not require collateral to secure its receivables.

Revenue recognition

Below are the revenue recognition policies of the Organization:

Dental Patient Revenue

Dental services are recorded as revenue within the fiscal year related to the service period.

Grant and Contract Revenue

Grants and contracts are recorded as revenue in the period they are earned by satisfaction of grant or contract requirements.

Fees for Programs and Services

Fees for programs and services are recorded as revenue in the period the related services were performed.

Cash and cash equivalents

For purposes of the statement of cash flows, the Organization considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Restricted cash - IDN

Restricted cash – IDN consists of advanced funding received from The State of New Hampshire Department of Health and Human Services for the Integrated Delivery Network program (IDN). The original advance of funds of \$2,000,000 is to be used to fund the Organization's cost of administering the IDN over a period of five years, beginning in fiscal year 2017. The remaining balance is to be distributed to participants.

Note 1. Nature of Activities and Summary of Significant Accounting Policies (Continued)

For the years ending September 30, 2017 and 2016, these amounts were restricted as follows:

	2017	2016
Administration fee to the Organization	\$ 1,600,000	\$ 2,000,000
Distributions to participants	<u>621,388</u>	<u>413,235</u>
	<u>\$ 2,221,388</u>	<u>\$ 2,413,235</u>

Accounts receivable

The Organization has receivable balances due from dental services provided to individuals and from grants and contracts received from federal, state, and private agencies. Management reviews the receivable balances for collectability and records an allowance for doubtful accounts based on historical information, estimated contractual adjustments, and current economic trends. Management considers the individual circumstances when determining the collectability of past due amounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to earnings and a credit to accounts receivable. Any collection fees or related costs are expensed in the year incurred. The Organization recorded an allowance for doubtful accounts for estimated contractual adjustments for dental service of \$7,776 as of September 30, 2017 and 2016, and an allowance for doubtful accounts for grants and contracts of \$0 as of September 30, 2017 and 2016. The Organization does not charge interest on its past due accounts, and collateral is generally not required.

Certificates of deposit

The Organization has three certificates of deposit with one financial institution. These certificates carry original terms of 12 months to 24 months, have interest rates ranging from .40% to .55%, and mature at various dates through September 2018.

Property and equipment

Property and equipment is stated at cost less accumulated depreciation. The Organization generally capitalizes property and equipment with an estimated useful life in excess of one year and installed costs over \$2,500. Lesser amounts are generally expensed. Purchased property and equipment is capitalized at cost.

Property and equipment are depreciated using the straight-line method using the following ranges of estimated useful lives:

Computers and equipment	3-7 years
Dental equipment	5-7 years
Furniture and fixtures	5-7 years
Vehicles	5 years

Depreciation expense totaled \$30,209 and \$15,721 for the years ended September 30, 2017 and 2016, respectively.

Note 1. Nature of Activities and Summary of Significant Accounting Policies (Continued)

Deferred revenue

Deferred revenue is related to advance payments on grants or advance billings relative to anticipated expenses or events in future periods. The revenue is realized when the expenses are incurred or as services are provided in the period earned.

Net assets

The Organization is required to report information regarding its financial position and activity according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted net assets – consist of unrestricted amounts that are available for use in carrying out the mission of the Organization.

Temporarily restricted net assets – consist of those amounts that are donor restricted for a specific purpose. When a donor restriction expires, either by the passage of a stipulated time restriction or by the accomplishment of a specific purpose restriction, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. The Organization has elected, however, to show those restricted contributions whose restrictions are met in the same reporting period as they are received as unrestricted support. The Organization had no temporarily restricted net assets at September 30, 2017 and 2016.

Permanently restricted net assets – result from contributions from donors who place restrictions on the use of donated funds mandating that the original principal remain invested in perpetuity. The Organization had no permanently restricted net assets at September 30, 2017 and 2016.

Income taxes

The Organization and the ACO are exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and are not classified as private foundations. FASB ASC 740-10 prescribes a recognition threshold and measurement attributable for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return, and provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Organization is not aware of any such uncertain tax positions. The tax years ending September 30, 2014 through 2017 are still open to audit.

Functional expenses

The costs of providing the various programs and activities have been summarized on a functional basis in the Statement of Activities. Expenses are charged to programs based on direct expenses incurred and certain costs, including salaries and fringe benefits, are allocated to the programs and supporting services based upon related utilization and benefit.

Note 1. Nature of Activities and Summary of Significant Accounting Policies (Continued)

Implementation of new accounting pronouncements

Management is reviewing the following Accounting Standards Updates (ASU) issued by the Financial Accounting Standards Board, which are effective for future years, for possible implementation and to determine their effect on the Organization's financial reporting.

ASU No. 2014-09, *Revenue from Contracts with Customers*. This ASU includes new revenue measurement and recognition guidance, as well as required additional disclosures. The ASU is effective for annual reporting beginning after December 15, 2017, including interim reporting periods within that reporting period. The effect of this ASU has not been quantified

ASU No. 2016-02, *Leases (Topic 842)*. This ASU requires lessees to recognize the following for all leases (with the exception of short-term leases) at the commencement date; (1) a lease liability, which is the lessee's obligation to make lease payments arising from a lease, measured on a discounted basis; and (2) a right-of-use asset which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term. For short-term leases (term of twelve months or less), a lessee is permitted to make an accounting policy election by class of underlying asset not to recognize lease assets and lease liabilities. If a lessee makes the election, it should recognize lease expense for such leases generally on a straight-line basis over the lease term. The ASU is effective for annual periods, and interim reporting periods within those annual periods, beginning after December 15, 2019. The effect of this ASU has not been quantified.

ASU No. 2016-14, *Not-For-Profit Entities: Presentation of Financial Statements of Not-for-Profit Entities*. The ASU was issued to improve reporting by not-for-profit entities in the areas of net asset classifications and information provided about liquidity. This ASU is effective for fiscal years beginning after December 31, 2017, and interim periods within fiscal years beginning after December 31, 2018. This ASU will increase disclosures in the Organization's financial statements.

ASU No. 2016-18, *Statement of Cash Flows: Restricted Cash*. This ASU clarifies how to report restricted cash in the statement of cash flows. This ASU is effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 31, 2019. This ASU will have minimal effect on the Organization's financial statements.

Reclassification

Certain amounts in the 2016 financial statements have been reclassified to conform to the current year presentation.

Note 2. Cash Concentrations

The Organization maintains cash balances at two financial institutions. Their bank accounts at the institutions are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 per financial institution. The Organization's cash balances exceeded federally insured limits by \$103,495 at September 30, 2017. The Organization has not experienced any losses with these accounts. Management believes the Organization is not exposed to any significant credit risk on cash as of September 30, 2017.

Note 2. Cash Concentrations (Continued)

The Organization attempts to manage credit risk relative to cash concentrations by utilizing "sweep" accounts. The Organization maintains ICS Sweep accounts that invest cash balances in other financial institutions at amounts that do not exceed FDIC insurable limits. All cash at these institutions is held in interest-bearing money market accounts. Interest rates on these balances ranged from .10% to .15% as of September 30, 2017.

Note 3. Operating Leases

The Organization leases office space in Littleton, NH under a three year operating lease that expires in October 2020. The Organization has the option to renew the lease for two additional years.

Future minimum rental payments under lease commitments are as follows:

Year Ended September 30,	
2018	\$ 97,636
2019	103,797
2020	106,911
2021	8,931
Thereafter	-
	<u>\$ 317,275</u>

Lease expense for the aforementioned leases was \$62,100 and \$59,105 for the years ended September 30, 2017 and 2016, respectively.

Note 4. Deferred Revenue

The summary of the components of deferred revenue as of September 30, are as follows:

	2017	2016
Deferred Revenue- IDN	\$ 2,215,782	\$ 2,392,816
Deferred Revenue- Other	<u>169,483</u>	<u>187,053</u>
Total	<u>\$ 2,385,265</u>	<u>\$ 2,579,869</u>

Deferred revenue - IDN

Under the terms of an agreement between the Centers for Medicare and Medicaid Services (CMS) and the State of New Hampshire Department of Health and Human Services, various Integrated Delivery Networks (IDN) are to be established within geographic regions across the state to develop programs to transform New Hampshire's behavioral health delivery system by strengthening community-based mental health and substance use disorder services and programs to combat the opioid crisis. The Organization has been designated to be the administrative lead of one of these IDNs.

Note 4. Deferred Revenue (Continued)

In September 2016, the Organization was awarded a five-year grant from the CMS, passed through the State of New Hampshire Department of Health and Human Services. At that date, the Organization was advanced \$2,413,256 upon fulfillment of the condition of successful submission and state approval of an IDN Project Plan. Of that amount, \$2,000,000 will be retained by the Organization as administrative fees for five years and the remaining funds will be disbursed to participants. For years two through five, the IDNs will continue to earn performance-based incentive funding by achieving defined targets and any funds received will be passed through to the participants.

Note 5. Related Party Transactions

A majority of the Organization's members and the Organization are also members of a Limited Liability Company. There were no transactions between the Limited Liability Company and the Organization's members in 2017 and 2016.

The Organization contracts various services from other organizations of which members of management of these other organizations may also be board members of North Country Health Consortium, Inc. and Subsidiary. Amounts paid to these organizations were \$348,668 and \$121,264 for the years ended September 30, 2017 and 2016, respectively. Outstanding amounts due to these organizations as of September 30, 2017 and 2016 amounted to \$37,950 and \$0, respectively. Outstanding amounts due from these organizations as of September 30, 2017 and 2016 amounted to \$0 and \$1,380, respectively.

Note 6. Retirement Plan

The Organization offers a defined contribution savings and investment plan (the Plan) under section 403(b) of the Internal Revenue Code. The Plan is available to all employees who are 21 years of age or older. There is no service requirement to participate in the Plan. Employee contributions are permitted and are subject to IRS limitations. Monthly employer contributions are \$50 for each part-time employee and \$100 for each full-time employee. Employer contributions for the years ended September 30, 2017 and 2016 were \$26,291 and \$16,725, respectively.

Note 7. Commitment and Contingencies

The Organization receives a significant portion of its support from various funding sources. Expenditure of these funds requires compliance with terms and conditions specified in the related contracts and agreements. These expenditures are subject to audit by the contracting agencies. Any disallowed expenditures would become a liability of the Organization requiring repayment to the funding sources. Liabilities resulting from these audits, if any, will be recorded in the period in which the liability is ascertained. Management estimates that any potential liability related to such audits will be immaterial.

Note 8. Federal Reports

Additional reports, required by *Government Auditing Standards* and Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, including the Schedule of Expenditures of Federal Awards, are included in the supplements to this report.

Note 9. Subsequent Events

Subsequent to year end, the Organization received \$1,388,399 from the State of New Hampshire in funding for the IDN grant based on the successful submission and completion of the year 2 plan. The funds will be used for future expenses related to the programs of the grant.

Friendship House

Effective October 1, 2017, the Organization agreed to assume the operations of Friendship House, an outpatient drug and alcohol treatment facility and program from Tri County Community Action Program (TCCAP). The existing facility did not meet various safety codes. The property was sold to Affordable Housing, Education, and Development (AHEAD). AHEAD is constructing a new facility. The facility is to be leased to the Organization for the purpose of continuing the operations of Friendship House. The old building will be demolished after the new building is completed and vacated.

On October 1, 2017, the Organization entered into a lease agreement with AHEAD to lease the premises for \$1 per year until a certificate of occupancy is issued for the new building. Once the certificate of occupancy has been issued, a new five-year lease becomes effective through March 2023, with monthly rent and CAM fee payments of \$19,582. The payment may be adjusted annually each year. The Organization has the option to renew this lease for five additional five year terms.

Under the terms of the program transition agreement, the Organization, at its discretion, offered employment to most of the employees of Friendship House. No liabilities or assets were assumed by the Organization.

In August 2017, the Organization was awarded funding of \$250,000 from the State of New Hampshire Department of Health and Human Services to provide services to bridge the transition of services from TCCAP to the Organization. The funds were received in October 2017.

The Organization has evaluated subsequent events through March 9, 2018, the date the financial statements were available to be issued.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Directors of
North Country Health Consortium, Inc. and Subsidiary
Littleton, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of North Country Health Consortium, Inc. and Subsidiary (the Organization) (a New Hampshire nonprofit organization), which comprise the consolidated statements of financial position as of September 30, 2017, and the related consolidated statements of activities and changes in net assets, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated March 9, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered North Country Health Consortium, Inc. and Subsidiary's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of North Country Health Consortium, Inc. and Subsidiary's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether North Country Health Consortium, Inc. and Subsidiary's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR
EACH MAJOR PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the Board of Directors of
North Country Health Consortium, Inc. and Subsidiary
Littleton, New Hampshire

Report on Compliance for Each Major Federal Program

We have audited North Country Health Consortium, Inc. and Subsidiary's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of North Country Health Consortium, Inc. and Subsidiary's major federal programs for the year ended September 30, 2017. North Country Health Consortium, Inc. and Subsidiary's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of North Country Health Consortium, Inc. and Subsidiary's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about North Country Health Consortium, Inc. and Subsidiary's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of North Country Health Consortium, Inc. and Subsidiary's compliance.

Opinion on Each Major Federal Program

In our opinion, North Country Health Consortium, Inc. and Subsidiary complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2017.

Report on Internal Control Over Compliance

Management of North Country Health Consortium, Inc. and Subsidiary is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered North Country Health Consortium, Inc. and Subsidiary's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of North Country Health Consortium, Inc. and Subsidiary's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Board of Directors of
Phoenix Houses of New England, Inc.

We have audited the accompanying financial statements of Phoenix Houses of New England, Inc. (“PH New England”), which comprise the statements of financial position as of June 30, 2017 and 2016, and the related statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

Management’s responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform our audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to PH New England’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of PH New England’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of PH New England as of June 30, 2017 and 2016, and the results of its operations and changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Supplementary Information

Our audits were conducted for the purposes of forming an opinion on the financial statements of PH New England as of and for the years ended June 30, 2017 and 2016, taken as a whole. The supplementary information included on pages 18 and 19 is presented for purposes of additional analysis and is not a required part of the financial statements. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling the information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

PHOENIX HOUSES OF NEW ENGLAND, INC.

Notes to Financial Statements

June 30, 2017 and 2016

1. ORGANIZATION

Phoenix Houses of New England, Inc. (“PH New England”) is a Section 501(c)(3) not-for-profit organization, exempt from federal income taxes under Section 501(a) of the Internal Revenue Code (the “Code”). PH New England is also exempt from state and local taxes under similar provisions. PH New England was established in order to operate therapeutic treatment centers for the rehabilitation of drug and substance abusers throughout New England.

Through June 30, 2016, Phoenix House Foundation, Inc. was the sole member of PH New England and the following affiliated organizations: Phoenix Houses of New York, Inc. and Affiliates (which consists of Phoenix Houses of New York, Inc. and Phoenix Houses of Long Island, Inc.); Phoenix Houses of California, Inc. and Affiliates (which consists of Phoenix Houses of California, Inc.; Phoenix Houses of Los Angeles, Inc.; Phoenix House Orange County, Inc.; and Phoenix House San Diego, Inc.); Phoenix Houses of the Mid-Atlantic, Inc. and Affiliate (which consists of Phoenix Houses of the Mid-Atlantic, Inc. and Phoenix Houses of Mid-Atlantic Property Management, Inc.); Phoenix Programs of Florida, Inc.; Phoenix Houses of Texas, Inc.; American Council for Drug Education, Inc.; Center on Addiction and the Family, Inc.; and Phoenix Houses of New Jersey, Inc.

On April 11, 2016, a new corporation, named “Phoenix House,” was incorporated in the State of Minnesota. Phoenix House is a nonprofit corporation which, effective September 29, 2017, was granted recognition of its federal tax exempt status as an organization described in Internal Revenue Code § 501(c)(3).

As of July 1, 2016, Phoenix House (the “Parent”) became the sole corporate member of the following affiliated organizations: Phoenix House Foundation, Inc., Phoenix Houses of California, Inc., Phoenix Houses of New York, Inc., Phoenix Houses of New England, Inc., Phoenix Houses of Texas, Inc., Phoenix Programs of Florida, Inc., and Phoenix Houses of the Mid-Atlantic, Inc. Phoenix House Foundation, Inc. remains the sole corporate member of the American Council for Drug Education, Inc., Center on Addiction and the Family, Inc., and Phoenix Houses of New Jersey, Inc.

The accompanying 2017 and 2016 financial statements reflect losses from operations totaling \$116,745 and \$1,071,837, respectively. In order to address the operational deficits and ensure the long-term viability of PHNE’s program services, management and the Board are evaluating the discontinuation of unprofitable programs and will restructure the remaining programs in order to improve operating margins, before administrative expense allocations from the Parent (see also Note 3).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“US GAAP”). Accordingly, the net assets of PH New England and changes therein are classified and reported based upon the existence or absence of donor-imposed restrictions as follows:

- Unrestricted net assets represent expendable resources that are used to carry out PH New England’s operations and are not subject to donor-imposed stipulations.

PHOENIX HOUSES OF NEW ENGLAND, INC.
Notes to Financial Statements
June 30, 2017 and 2016

- Temporarily restricted net assets represent resources that contain donor-imposed restrictions that permit PH New England to use or expend such resources only as or when specified. Restrictions are satisfied either by the passage of time or by actions of PH New England.
- Permanently restricted net assets contain donor-imposed restrictions that stipulate that such resources be maintained permanently. PH New England had no permanently restricted net assets at June 30, 2017 and 2016.

Cash and Cash Equivalents

PH New England considers all highly liquid financial instruments, which principally consist of money market funds, with original maturities of three months or less from the date of purchase to be cash equivalents.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The allowance for doubtful accounts on receivables, the useful lives assigned to fixed assets and the fair value of donated goods and services represent significant accounting estimates reflected in the accompanying financial statements. Actual results could differ from those estimates.

Donated Goods and Services

Donated goods are recorded as revenues and assets (at fair value when received) and expenses (when used) on the statement of operations and changes in net assets. Food stamps are recorded at face amount, which is the same as fair value, as revenues and assets and are charged to resident sustenance when expended. Donated goods received during the years ended June 30, 2017 and 2016 totaled approximately \$189,000 and \$261,000, respectively.

PH New England receives contributed legal services that meet the criteria established by US GAAP for recognition as contributions. Such services are recorded as part of donated goods and services on the accompanying statements of operations and changes in net assets at fair value, which for the year ended June 30, 2017 approximated \$17,000. There were no contributed services received for the year ended June 30, 2016.

Property and Equipment

Property and equipment are stated at cost, if purchased, or if donated, at fair value at the date of gift, less accumulated depreciation and amortization. PH New England capitalizes assets acquired for greater than \$1,000 and with useful lives greater than three years. Depreciation is computed on the straight-line basis over the estimated useful lives of the assets as follows:

Buildings and improvements	4 - 40 years
Furniture, fixtures and equipment	3 - 7 years
Computer equipment and vehicles	3 - 5 years

PHOENIX HOUSES OF NEW ENGLAND, INC.
Notes to Financial Statements
June 30, 2017 and 2016

Furniture, fixtures and equipment acquired under capital lease arrangements are amortized using the straight-line method over the shorter of the lease term or the estimated useful life of the asset.

Statement of Operations and Changes in Net Assets

PH New England's operating income includes all unrestricted revenues and expenses. Other items include depreciation on capital assets funded with government grants and losses on disposals of capital assets. The statement of operations and changes in net assets also includes the caption "(deficiency in) excess of revenues and support over expenses and other items," which is the performance indicator. Other changes in net assets, which are excluded from the performance indicator, consistent with industry practice, include capital contributions (including assets acquired using contributions which by donor restriction are to be used for the purposes of acquiring such assets).

Revenue and Support

Contributions (including unconditional promises to give) are recorded at fair value when received. Revenues relative to special events are recognized upon occurrence of the respective event. Contributions received with donor stipulations that limit the use of the donated assets are reported as either temporarily or permanently restricted support. Unconditional promises to give, with payments due in future years, are reported as either temporarily restricted or permanently restricted support and discounted to present value. When a donor restriction expires, that is, when a time restriction ends or purpose restriction is fulfilled, temporarily restricted net assets are reclassified to unrestricted net assets and reported on the statement of operations and changes in net assets as net assets released from restrictions. Contributions restricted by donors for the acquisition of property and equipment are released from their restrictions when the respective assets are acquired or constructed and placed into service. Such contributions and related releases are reported below the performance indicator.

Special Events Revenue

Special events revenue consists of proceeds from fundraising events, reported net of direct donor benefits, if any. Revenue and related expenses are recognized upon occurrence of the respective event to which they pertain. For the years ended June 30, 2017 and 2016, direct benefits to donors totaled approximately \$23,000 and \$6,000, respectively.

Government Contract Revenue

PH New England's contracts and other program funding arrangements with government agencies are classified as part of operating activities within the unrestricted net asset category and revenue is recognized when earned. PH New England operates under various contracts with government agencies which generally cover a one-year period, subject to annual renewal. The terms of these contracts allow the grantors the right to audit the costs incurred thereunder and adjust contract funding based upon, among other things, the amount of program income received. Any costs disallowed by the grantor would be absorbed by PH New England and any adjustments by grantors would be recorded when amounts are known; however, it is the opinion of management that disallowances, if any, would not be material to the accompanying financial statements.

Client and Third-Party Revenue

Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed based on pre-determined rates. Medicaid and managed Medicaid approximated 73% and 62% of total client and third-party revenue for the years ended June 30, 2017 and 2016, respectively. Contracts have been entered into with commercial insurance carriers and reimbursement is based on contracted rates.

Laws and regulations governing healthcare programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near-term. Noncompliance with such laws and regulations could result in fines, penalties, and exclusion from such programs. The federal government and many states have aggressively increased enforcement under Medicaid antifraud and abuse legislation. PH New England believes that it is in compliance, in all material respects, with all applicable laws and regulations and, is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no such regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation.

Noncompliance with such laws and regulations could result in repayments of amounts improperly reimbursed, substantial monetary fines, civil and criminal penalties and exclusion from the Medicaid program.

Concentration of Credit Risk

Financial instruments that potentially subject PH New England to concentrations of credit risk consist principally of cash and cash equivalents. PH New England maintains its cash and cash equivalents in various bank deposit accounts that, at times, may exceed federally insured limits. PH New England's cash and cash equivalents have been placed with high credit quality financial institutions at June 30, 2017 and 2016, and PH New England believes the risk of nonperformance by these financial institutions to be remote.

PH New England provides drug and alcohol rehabilitation services through its inpatient and outpatient care facilities. PH New England grants credit without collateral to clients, however, it routinely obtains assignment of (or is otherwise entitled to receive) clients' benefits payable under their respective health insurance programs, plans, or policies (e.g., Medicaid and commercial insurance providers).

Amounts due from government agencies and other receivables by financial class as a percentage of total accounts receivable at June 30, 2017 and 2016, are as follows:

	<u>2017</u>	<u>2016</u>
Medicaid/Managed Medicaid	27 %	36 %
Commercial insurance	43	31
Other third-party payors	30	33
	<u>100 %</u>	<u>100 %</u>

June 30, 2017 and 2016

Income Taxes

PH New England follows guidance that clarifies the accounting for uncertainty in tax positions taken or expected to be taken in a tax return, including issues relating to financial statement recognition and measurement. This guidance provides that the tax effects from an uncertain tax position can only be recognized in the financial statements if the position is “more-likely-than-not” to be sustained if the position were to be challenged by a taxing authority. The assessment of the tax position is based solely on the technical merits of the position, without regard to the likelihood that the tax position may be challenged.

PH New England is exempt from federal income tax under IRC section 501(c)(3), though it is subject to tax on income unrelated to its exempt purpose, unless that income is otherwise excluded by the Code. PH New England has processes presently in place to ensure the maintenance of its tax-exempt status; to identify and report unrelated income; to determine its filing and tax obligations in jurisdictions for which it was nexus; and to identify and evaluate other matters that may be considered tax positions. PH New England has determined that there are no material uncertain tax positions that require recognition or disclosure in the financial statements.

Subsequent Events

PH New England evaluated its subsequent events through March 9, 2018, the date these financial statements were available to be issued.

3. RELATED PARTY TRANSACTIONS

PH New England is charged for administrative services provided by its Parent based upon a cost allocation plan. The administrative expenses charged by the Parent approximate the federally approved indirect cost rate for the Parent and its affiliates on a consolidated basis, adjusted to reflect PH New England’s own administrative expenses. For the years ended June 30, 2017 and 2016, such allocated charges totaled approximately \$1,117,000 and \$519,000, respectively, and are included as part of administrative charges from Parent on the accompanying statements of operations and changes in net assets.

The Parent has adopted a cash management strategy with the principal goal of pooling its cash balances with those of its affiliates to maximize returns and reduce short-term borrowings and to pay for certain costs on behalf of the respective affiliates on a reimbursable basis. As a result of this strategy, certain affiliates participating in the cash management program will have corresponding amounts due to/(from) the Parent as of the reporting date. Amounts reflected as due to Parent on the accompanying statements of financial position of approximately \$3,228,000 and \$3,633,000 as of June 30, 2017 and 2016, respectively, relate to costs incurred by PH New England, but paid for by the Parent. The Parent has represented to PH New England that it will defer collection of this debt and continue to support the operations of PH New England, as needed, until at least April 2019.

4. CONTRIBUTIONS RECEIVABLE

At June 30, 2017 and 2016, contributions receivable consist of unconditional promises to give of approximately \$47,000 and \$23,000, respectively, which are expected to be collected within one year.

PHOENIX HOUSES OF NEW ENGLAND, INC.
Notes to Financial Statements
June 30, 2017 and 2016

Multi-year pledges received are recorded at the present value of their expected future cash flows using a credit adjusted discount rate which articulates with the collection period of the respective pledge. Discount rates assigned to multi-year pledges in the year of origination are not subsequently revised.

5. NOTES RECEIVABLE

During May 2012, PH New England entered into a lease, with no stated rental payments due, and a promissory agreement with Central Vermont Community Land Trust ("CVCLT"), a non-profit corporation existing under the laws of the State of Vermont. In conjunction with a new program, PH New England agreed to lease a facility from CVCLT for twenty years. As part of the lease agreement, PH New England entered into a non-interest bearing note of \$100,000 payable by CVCLT and secured by a mortgage of and security interest in the property in Barre, Vermont. The principal of this note does not bear interest nor will any principal be due at any time during which the lease between PH New England and CVCLT is in effect and for a period beginning on the date of termination of the lease and ending on the last day of the twelfth calendar month after such date. The principal due shall be reduced by \$5,000 each year for the initial twenty year term of the lease, beginning with the commencement of the new program, beginning July 1, 2013. In the event the lease is in effect throughout the entire initial 20 year term, the note shall be deemed paid in full upon the conclusion of such term. In the event the lease terminates prior to the conclusion of the initial lease term, then the remaining principal shall be due and payable on the last day of the twelfth full calendar month following termination of the lease. Interest shall begin to accrue on such remaining principal balance beginning on the first day of the first month following the due date at a rate equal to the U.S. Department of the Treasury One Year Treasury Bill Rate in effect on the due date. At June 30, 2017 and 2016, the balance of this note receivable was \$80,000 and \$85,000, respectively. Use of this facility is received free of charge, however, is cancellable by any party to the lease agreement. Given the immaterial amount of the free rent received, the fair value for the right to use this space has not been quantified and recognized in the accompanying financial statements.

During July 2010, PH New England entered into a lease and promissory agreement with Burlington Housing Authority ("BHA"), a housing authority existing under the laws of the State of Vermont and the City of Burlington. In conjunction with a new program, PH New England agreed to lease a facility from BHA for twenty-five years. As part of the lease agreement, PH New England entered into a non-interest bearing note of \$75,000 due and payable by BHA on the last day of the twelfth full calendar month immediately following the termination of the lease. Interest accrues on the principal balance of this note, beginning on the first day of the first month following the due date, at a rate equal to the One Year Treasury Bill rate in effect on that date. At June 30, 2017 and 2016, the balance of this note receivable was \$75,000. Total rent expense associated with the lease for this space totaled approximately \$52,000 for each of the years ended June 30, 2017 and 2016.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.
4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.
5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
 - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
 - 7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

- a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
**Southeastern New Hampshire
Alcohol & Drug Abuse Services**
Dover, New Hampshire

We have audited the accompanying financial statements of Southeastern New Hampshire Alcohol & Drug Abuse Services (a nonprofit organization), which comprise the statement of financial position as of June 30, 2017, and the related statements of activities and changes in net assets, functional expenses and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Southeastern New Hampshire Alcohol & Drug Abuse Services as of June 30, 2017, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Nature of Organization & Activities:

Southeastern New Hampshire Alcohol & Drug Abuse Services (the "Organization"), is a non-profit organization formed under the laws of the State of New Hampshire in 1979, dedicated to helping people recover from addictive disorders thru programs that focus on substance use disorders as chronic, progressive, biological, psychological and social in nature.

Note 1 - Summary of Significant Accounting Principles:

A. Method of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

B. Basis of Presentation

The Organization presents its financial statements following the Not-For-Profit Entities topic of the FASB Accounting Standards Codification with respect to financial statement presentation. Under this topic, the Organization is required to report information regarding its financial position and activities according to the three classes of net assets: unrestricted net assets, temporarily restricted net assets and permanently restricted net assets. In addition, the Organization is required to present a statement of cash flows. The financial statements are presented using the three classes of net assets and are as follows:

Unrestricted Net Assets:

The portion of net assets of a not-for-profit Organization that is neither permanently restricted nor temporarily-restricted by donor-imposed stipulations.

Temporarily Restricted Net Assets:

The portion of net assets of a not-for-profit Organization resulting (a) from contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Organization pursuant to those stipulations, (b) from other asset enhancements and diminishments subject to the same kinds of stipulations, and (c) for reclassifications to or from other classes of net assets as a consequence of donor-imposed stipulations, their expiration by passage of time, or their fulfillments and removal by actions of the Organization pursuant to those stipulations. There are no Temporarily Restricted Net Assets at June 30, 2017.

B. Basis of Presentation - Continued

Permanently Restricted Net Assets:

The portion of net assets of a not-for-profit Organization resulting (a) from contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that neither expire by the passage of time nor can be fulfilled or otherwise removed by actions of the Organizations, (b) from other asset enhancements and diminishments subject to the same kinds of stipulations, and (c) from reclassifications from or to other classes of net assets as a consequence of donor-imposed stipulations. There are no Permanently Restricted Net Assets at June 30, 2017.

C. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Organization considers all highly liquid deposits with maturity of three months or less to be cash and/or cash equivalents.

D. Use of Estimates in the Preparation of Financial Statements

Management uses estimates and assumptions in preparing these financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were used.

E. Income Taxes

The Organization is exempt from Federal Income Tax under Section 501(c)(3) of the Internal Revenue Code. There are no state income taxes due to the fact that the State of New Hampshire recognizes Section 501(c)(3) for exemption of organizations that are organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes. The Organization's evaluation on June 30, 2017 revealed no uncertain tax positions that would have a material impact of the financial statements.

The Organization's information returns are subject to possible examination by the taxing authorities. For federal purposes the returns essentially remain open for possible examination for a period of three years after the respective filing deadlines of those returns.

Note 1 - Summary of Significant Accounting Principles - Continued:

F. Fixed Assets

Property and equipment are carried at cost and donations of property and equipment are recorded as support at fair value at the time of the gift. Acquisitions of property and equipment in excess of \$1,500 that meet the capitalization requirements are capitalized. Depreciation is computed using the straight-line method based on the assets' estimated useful lives. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized. The cost of maintenance and repairs is charged to operations as incurred; significant renewals and betterments are capitalized. The breakdown of assets relevant to useful life is as follows:

<u>Description</u>	<u>Method</u>	<u>Life</u>
Furniture and Fixtures	Straight-Line	5-7 years
Equipment	Straight-Line	3-5 years
Buildings and Improvements	Straight-Line	5-39 years

G. Accounts Receivable

Accounts receivable are reported at net realizable value. Net realizable value is equal to the gross amount of receivables less an estimated allowance for uncollectible accounts. The Organization determines an allowance for doubtful accounts based on historical experience and assessment and review of subsequent collections. The balance for allowance for doubtful accounts at June 30, 2017 is \$29,000.

H. Donor-Restricted Contributions

The Organization's policy is to report donor-restricted contributions whose restrictions are met in the same reporting period, as unrestricted support, as there is no effect to reported restricted net assets.

I. Advertising

The Organization follows the policy of charging the costs of advertising to expense as they are incurred. Advertising expenses were \$4,172 for the year ended June 30, 2017.

Note 2 - Capital Lease:

Note 4 – Concentration of Credit Risk – Cash in Bank:

The Organization maintains its bank accounts with commercial banks, which could at times exceed federally insured limits. Management considers this risk minimal.

Note 5 – Concentration of Revenues and Support Sources:

Other support originates from charges for private services performed for citizens of New Hampshire and miscellaneous income and grants.

Note 6 – Contributions:

Donated materials, equipment and essential services are reflected as contributions in the accompanying financial statements at fair market value, at the date of the donation. The Organization also adopted a policy to record an in-kind donation for food procured at a below market rate from another non-profit organization. These transactions have been recorded as follows.

- j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.
- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

Mission Statement

Greater Nashua Mental Health Center has as its mission: empowering people to lead full and satisfying lives through effective treatment and support.

FINANCIAL STATEMENTS

June 30, 2017 and 2016

With Independent Auditor's Report

Board of Directors
The Community Council of Nashua, NH
d/b/a Greater Nashua Mental Health Center

We have audited the financial statements of The Community Council of Nashua, NH d/b/a Greater Nashua Mental Health Center (the Organization) as of and for the year ended June 30, 2017. Professional standards require that we communicate to you the following information related to our audit.

Our Responsibility under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated June 26, 2017, our responsibility, as described by professional standards, is to express an opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles (U.S. GAAP). Our audit of the financial statements does not relieve you or management of your responsibilities.

As part of the audit, we considered the internal control of the Organization. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Organization are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year ended June 30, 2017.

We noted no transactions entered into by the Organization during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements were:

- Note 2 – Program service fees and concentrations of credit risk
- Note 6 – Endowment
- Note 8 – Commitments and contingencies

The financial statement disclosures are neutral, consistent and clear.

Management Judgments and Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

- Management's estimate of the allowance for uncollectible accounts based on historical collectability by major payer source;
- Management's estimate of depreciation expense on property and equipment based on the estimated useful lives of assets;
- Management's estimate of the cost allocations based on time spent between location and function;
- Management's estimate of accrued revenues based on budgeted client services approved by Medicaid but unbilled at year-end.

We have evaluated the key factors and assumptions used to develop these estimates to satisfy ourselves of their reasonableness in relation to the financial statements as a whole.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the consolidated financial statements taken as a whole.

The attached schedule identifies uncorrected misstatements of the financial statements. Management has determined the effects of the uncorrected misstatements to be immaterial, individually and in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 25, 2017.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Organization's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Organization's auditor. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

INTERNAL CONTROL MATTERS

In planning and performing our audit of the financial statements of the Organization as of and for the year ended June 30, 2017, in accordance with U.S. generally accepted auditing standards, we considered the Organization's internal control as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a certain deficiency in internal control that we considered to be a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Organization's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiency in the Organization's internal control to be significant deficiency:

Endowment Funds Spending Policy

As a result of our testing surrounding endowment funds, we noted the Organization does not properly accumulate earnings on permanently restricted funds and appropriate those funds on an annual basis through a spending policy. The State of New Hampshire has adopted the Uniform Prudent Management of Institutional Funds Act, known as UPMIFA. New Hampshire UPMIFA states the appropriation for expenditure in any year of any amount greater than 7 percent of the fair market value of an endowment fund, calculated on the basis of fair market value determined at least quarterly and averaged over a period of not less than 3 years immediately preceding the year in which the appropriation for expenditure was made creates a rebuttable presumption of imprudence. We recommend the Organization establish a formalized spending policy pertaining to endowment funds at a percentage the Board determines to be prudent.

Management's Response

While GNMHC has in place a comprehensive investment policy, we agree that no formal spending policy exists within the current investment policy. The agency will bring this suggestion forward to both the Board of Trustees and the Trustees for our endowment for consideration.

Management's written response above has not been subjected to the audit procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

We sincerely appreciate the cooperation, courtesy, and working environment provided our personnel by management and the employees of the Organization during the engagement. We have previously discussed the comments and suggestions contained herein with management, and we will be pleased to discuss them further at your request.

This communication is intended solely for the information and use of the Board of Directors and management of the Organization and is not intended to be, and should not be, used by anyone other than these specified parties.

FINANCIAL STATEMENTS

June 30, 2017 and 2016

With Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT

Board of Directors

The Community Council of Nashua, NH d/b/a Greater Nashua Mental Health Center

We have audited the accompanying financial statements of The Community Council of Nashua, NH d/b/a Greater Nashua Mental Health Center (the Organization), which comprise the statement of financial position as of June 30, 2017, and the related statements of activities and changes in net assets, functional revenue and expenses and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Organization, as of June 30, 2017, and the changes in its net assets and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matter

Report on Summarized Comparative Information and Audit of the Financial Statements as of and for the Year Ended June 30, 2016

The financial statements of the Organization as of and for the year ended June 30, 2016 were audited by other auditors whose report dated January 13, 2017, expressed an unmodified opinion on those statements. The summarized comparative information presented herein as of and for the year ended June 30, 2016, is consistent in all material respects with the audited financial statements from which it has been derived.

Organization

The Community Council of Nashua, NH, d/b/a Greater Nashua Mental Health Center (the Organization) is a comprehensive community health center located in Nashua, New Hampshire. The Organization's mission is to work with the community to meet the mental health needs of its residents by offering evaluation, treatment, resource development, education and research. The Organization is dedicated to clinical excellence and advocacy with their Community Support Services, Child and Adolescent Programs, Clinical Research and Integrated HealthCare Programs, Adult Outpatient Services, and specialty services such as Housing, Deaf Services, Substance Abuse Program, Vocational Services and Individual and Group Therapy.

1. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Basis of Presentation

Net assets and revenues, expenses, gains and losses are classified as follows:

Unrestricted net assets - Net assets that are not subject to donor-imposed stipulations.

Temporarily restricted net assets - Net assets subject to donor-imposed stipulations that may be or will be met by actions of the Organization and/or the passage of time. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statement of activities as net assets released from restrictions.

Permanently restricted net assets - Net assets subject to donor-imposed stipulations that they be maintained permanently by the Organization.

All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are designated for future periods or restricted by the donor for specific purposes are reported as temporarily restricted or permanently restricted support that increases those net asset classes. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. The Organization records donor-restricted contributions whose restrictions are met in the same reporting period as unrestricted support in the year of the gift.

Notes to Financial Statements

**June 30, 2017
(With Comparative Totals for June 30, 2016)**

The Organization reports contributions of land, buildings or equipment as unrestricted support, unless a donor places explicit restriction on their use. Contributions of cash or other assets that must be used to acquire long-lived assets are reported as temporarily restricted support and reclassified to unrestricted net assets when the assets are acquired and placed in service.

The financial statements include certain prior year summarized comparative information in total, but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with GAAP. Accordingly, such information should be read in conjunction with the Organization's June 30, 2016 financial statements, from which the summarized information was derived.

Cash and Cash Equivalents

Cash and cash equivalents include highly liquid investments with an original maturity of three months or less, excluding assets limited as to use.

The Organization has cash deposits in major financial institutions which may exceed federal depository insurance limits. The Organization has not experienced any losses in such accounts. Management believes it is not exposed to any significant risk with respect to these accounts.

Accounts Receivable

Accounts receivable are reduced by an allowance for uncollectible accounts. In evaluating the collectibility of accounts receivable, the Organization monitors the amount of actual cash collected during each month against the Organization's outstanding patient accounts receivable balances, as well as the aging of balances. The Organization analyzes its past history and identifies trends for each of its major payer sources of revenue to estimate the appropriate allowance for uncollectible accounts and provision for bad debts. Management, as well as the Finance Committee of the Organization, regularly reviews the aging and collection rate of major payer sources.

Investments

Investments in marketable securities and debt instruments with readily determined market values are carried at fair value. Fair values are based on quoted market prices, if available, or estimated using quoted market prices for similar securities.

Dividends, interest, net realized and unrealized gains (losses) arising from investments are reported as follows:

- Increases (decreases) in permanently restricted net assets if the terms of the gift require that they be maintained with the corpus of a permanent endowment fund;

**THE COMMUNITY COUNCIL OF NASHUA, NH
D/B/A GREATER NASHUA MENTAL HEALTH CENTER**

Notes to Financial Statements

**June 30, 2017
(With Comparative Totals for June 30, 2016)**

- Increases (decreases) in temporarily restricted net assets if the terms of the gift or state law impose restrictions on the use of the allocated investment income (loss); and
- Increases (decreases) in unrestricted net assets in all other cases.

Property and Equipment

Property and equipment are carried at cost, if purchased, or at estimated fair value at date of donation in the case of gifts, less accumulated depreciation. The Organization's policy is to capitalize assets greater than \$5,000, while minor maintenance and repairs are charged to expense as incurred. Depreciation is recorded using the straight-line method over the following estimated lives as follows:

Furniture & Equipment	3-10 years
Buildings and improvements	15-50 years
Computer equipment and software	3-10 years
Vehicles	5 years

Functional Allocation of Expenses

The costs of providing various programs and other activities have been summarized on a functional basis in the statements of functional expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Income Taxes

The Organization is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. There was no unrelated business income tax incurred by the Organization for the years ended June 30, 2017 and 2016. Management has evaluated the Organization's tax positions and concluded the Organization has maintained its tax-exempt status, does not have any significant unrelated business income and has taken no uncertain tax positions that require adjustment to, or disclosure within, the accompanying financial statements.

Reclassifications

Certain amounts in the 2016 financial statements have been reclassified to conform to the current year's presentation.

Subsequent Events

For purposes of the preparation of these consolidated financial statements in conformity with U.S. GAAP, management has considered transactions or events occurring through October 25, 2017, which is the date that the financial statements were available to be issued.

2. Program Service Fees and Concentrations of Credit Risk

Program service fees are charged at established rates and recognized as services are rendered. The State of New Hampshire has implemented payment reform in which certain patients covered under Medicaid were transitioned to coverage under a managed care system. Discounts, allowances and other arrangements for services provided at other than established rates are recorded as an offset to program service fees. Net revenues from managed care represented approximately 74% and 65% of the Organization's net program service fees for 2017 and 2016, respectively. Net revenues from the Medicaid program accounted for approximately 17% and 20% of the Organization's net program service fees for 2017 and 2016, respectively.

An estimated breakdown of program service fees, net of the provision for bad debt, capitation adjustments and contractual allowances, recognized in 2017 and 2016 from those major sources is as follows:

	<u>2017</u>	<u>2016</u>
Private pay	\$ 1,070,603	\$ 874,132
Commercial insurance	322,958	290,898
Medicaid	2,546,817	2,781,132
Medicare	1,301,991	1,408,343
Other payers	438,909	393,704
Managed Care	<u>12,886,961</u>	<u>9,705,698</u>
	<u>18,568,239</u>	<u>15,453,907</u>
Less: Contractual allowances	(3,092,460)	(3,437,775)
Capitation adjustments	(3,452,269)	(1,289,796)
Provision for bad debt	<u>(1,106,441)</u>	<u>(601,695)</u>
	<u>(7,651,170)</u>	<u>(5,329,266)</u>
Program service fees, net	<u>\$ 10,917,069</u>	<u>\$ 10,124,641</u>

The increase in bad debt expense in 2017 as compared to 2016 is primarily due to collection trends.

Notes to Financial Statements

**June 30, 2017
(With Comparative Totals for June 30, 2016)**

The Organization grants credit without collateral to its patients, most of whom are insured under third-party payer agreements. Following is a summary of gross accounts receivable by funding source as of June 30:

	<u>2017</u>	<u>2016</u>
Private pay	61 %	77 %
Blue Cross/Blue Shield	1	1
Medicaid	23	7
Medicare	5	4
Other	3	1
Managed care	7	10
	<u>100 %</u>	<u>100 %</u>

3. Investments

Investments, which are reported at fair value, consist of the following at June 30:

	<u>2017</u>	<u>2016</u>
Common stocks	\$ 558,516	\$ 488,444
Mutual funds	718,546	704,816
U.S. Treasury bonds	343,841	294,900
Corporate bonds	24,062	58,122
Mortgage backed securities	87,951	122,549
	<u>\$ 1,732,916</u>	<u>\$ 1,668,831</u>

The Organization's investments are subject to various risks, such as interest rate, credit and overall market volatility, which may substantially impact the values of investments at any given time.

4. Fair Value of Financial Instruments

Financial Accounting Standards Board Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement*, defines fair value as the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants and also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

**THE COMMUNITY COUNCIL OF NASHUA, NH
D/B/A GREATER NASHUA MENTAL HEALTH CENTER**

Notes to Financial Statements

**June 30, 2017
(With Comparative Totals for June 30, 2016)**

The fair value hierarchy within ASC Topic 820 distinguishes three levels of inputs that may be utilized when measuring fair value:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.
- Level 2: Significant observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following table sets forth by level, within the fair value hierarchy, the Organization's assets measured at fair value on a recurring basis as of June 30:

	<u>2017</u>		
	<u>Level 1</u>	<u>Level 2</u>	<u>Total</u>
<u>Investments</u>			
Common stock	\$ 558,516	\$ -	\$ 558,516
Mutual funds	718,546	-	718,546
U.S. Treasury bonds	343,841	-	343,841
Corporate bonds	-	24,062	24,062
Mortgage-backed securities	<u>87,951</u>	<u>-</u>	<u>87,951</u>
	<u>\$ 1,708,854</u>	<u>\$ 24,062</u>	<u>\$ 1,732,916</u>
		<u>2016</u>	
	<u>Level 1</u>	<u>Level 2</u>	<u>Total</u>
<u>Investments</u>			
Common stock	\$ 488,444	\$ -	\$ 488,444
Mutual funds	704,816	-	704,816
U.S. Treasury bonds	294,900	-	294,900
Corporate bonds	-	58,122	58,122

	<u>\$ 1,610,709</u>	<u>\$ 58,122</u>	<u>\$ 1,668,831</u>

The fair value for Level 2 assets is primarily based on market prices of comparable or underlying securities, interest rates, and credit risk, using the market approach for the Organization's investments.

6. Endowment

The Organization's endowment primarily consists of funds established for certain programs provided by the Organization. Its endowment includes both donor-restricted endowment funds and funds designated by the Board of Directors to function as endowments. As required by U.S. GAAP, net assets associated with endowment funds, including funds designated by the Board of Directors to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

The Organization has interpreted the State of New Hampshire Uniform Prudent Management of Institutional Funds Act (the Act), which became effective July 1, 2008, as requiring the preservation of the contributed value of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as permanently restricted net assets (1) the original value of gifts donated to the permanent endowment, (2) the original value of subsequent gifts to the permanent endowment, and (3) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. If the donor-restricted endowment assets earn investment returns beyond the amount necessary to maintain the endowment assets' real value, that excess is available for appropriation and, therefore, classified as temporarily restricted net assets until appropriated by the Board of Trustees for expenditure. Funds designated by the Board of Directors to function as endowments are classified as unrestricted net assets.

Notes to Financial Statements

**June 30, 2017
(With Comparative Totals for June 30, 2016)**

In accordance with the Act, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund;
- (2) The purposes of the organization and the donor-restricted endowment fund;
- (3) General economic conditions;
- (4) The possible effect of inflation and deflation;
- (5) The expected total return from income and the appreciation of investments;
- (6) Other resources of the organization; and
- (7) The investment policies of the organization.

Return Objectives and Risk Parameters

The Organization has adopted investment policies, approved by the Board of Directors, for endowment assets that attempt to maintain the purchasing power of those endowment assets over the long term. Accordingly, the investment process seeks to achieve an after-cost total real rate of return, including investment income as well as capital appreciation, which exceeds the annual distribution with acceptable levels of risk. Endowment assets are invested in a well-diversified asset mix, which includes equity and debt securities, that is intended to result in a consistent inflation-protected rate of return that has sufficient liquidity to make an annual distribution of accumulated interest and dividend income to be reinvested or used as needed, while growing the funds if possible. Actual returns in any given year may vary from this amount. Investment risk is measured in terms of the total endowment fund; investment assets and allocation between asset classes and strategies are managed to reduce the exposure of the fund to unacceptable levels of risk.

Spending Policy

Currently, the Organization does not have a written spending policy approved by its Board of Directors. Historically, the Organization has appropriated for distribution the accumulated interest and dividend income on the investment funds. The Organization considers the long-term expected return on its investment assets, the nature and duration of the individual endowment funds, many of which must be maintained in perpetuity because of donor restrictions, and the possible effects of inflation.

EMPLOYMENT HISTORY:

President & CEO

Behavioral Health Services North
Plattsburgh, NY

Dates of employment: Mar. '13 - Present

Duties: Responsible for the overall operations of one of the oldest and largest nonprofit organizations in upstate New York, providing a comprehensive array of behavioral health and social support services for clients across the entire age / developmental spectrum. The agency has a staff of approximately 180, with an annual budget of over 10 million; serving approximately 8,000 individuals each year through 24 programs across three rural counties.

Results: Led the Board and Staff through a comprehensive strategic planning process in response to a rapidly changing healthcare environment--including the transition to Medicaid managed care and integrated health. New initiatives include: same day client access, maximizing technology to enhance efficiency and effectiveness, a performance management program and other human capital enhancements, significant expansion of new low income housing, bringing primary care into the behavioral health clinic, a new community-based crisis stabilization program, enhancing client access to best practices; along with an expansion of development, marketing and community relations activities. Named to the Steering Committee for the northern New York healthcare delivery system reform initiative: a program initiated by the Governor to promote integrated care, reduce unnecessary hospitalizations, increase best practices, and make recommendations for a successful transition to Medicaid managed care.

Consultant & Interim Director of Development and Community Relations

Visiting Nurse & Hospice of VT and NH
West Lebanon, NH

Dates of employment: Jan.-Sept. 2012

Duties: Brought in to assist the organization with Fund Raising / Development, Marketing and Community Relations initiatives. The agency provides home health care and hospice services to a large, rural population in western New Hampshire and eastern Vermont; with over 200 staff and an annual operating budget of 20 million. The agency had been experiencing declines in referrals as a result of new competition, as well as declines in revenue from development activities (annual appeals, grants, etc.).

Results: Serving as both consultant and interim Director of Development and Community Relations, I worked with the senior leadership and the Board Development Committee to define the problems and formulate solutions. Delivered new marketing and development strategies and plans that were designed to address the issues identified and effectively utilize available resources to accomplish the goals. Achieved the best Spring appeal campaign in five years, more than doubling the income from the previous year's effort. This was a limited term engagement.

CEO **Range Mental Health Center**
Virginia, MN Dates of employment: June '10-Nov. '11

Duties: Responsible for the overall operations of this comprehensive community behavioral health organization that employs 250 staff, with an annual budget of 13 million. The organization offers comprehensive programming for youth through seniors, has both in-patient and outpatient chemical dependency services (including detox), supported housing, community crisis facilities, adult foster homes, partial hospitalization programs, community-based support services for the seriously mentally ill, and family / youth support services in every school district in the area.

Results: Led board and senior management through a strategic planning effort to prepare the agency to thrive in a rapidly changing, healthcare reformed marketplace. Developed new partnerships with primary care and launched an integrated care pilot program that holds the promise of both enhanced client outcomes and improved profit margins. Initiated several business process restructuring efforts to dramatically reduce client wait times, reduce days in A/R, reduce documentation time, and increase service capacity without adding additional staff. Launched several new service lines and opened a community-based crisis facility to meet the acute behavioral health needs of area residents—at roughly a third of the cost of hospital-based services. Left the agency to return to New Hampshire and reunite with family after efforts to sell NH home proved to be unsuccessful in a difficult market.

Executive Director: **Familystrength**
Concord, NH Dates of employment: Jan.'06-May '10

Duties: Responsible for the overall operations of this state-wide private, nonprofit agency that provides intensive home / community-based services for at-risk youth and their families; the agency had a staff of 45 and a budget of 2.5 million. Strong focus on strategic planning, board and middle management development, and restructuring of organizational processes and personnel for optimal agency performance.

Results: The agency went from a deficit of \$197,000 in 2005 (prior to my arrival), to a surplus of \$228,000 (and additional clients served) at the close of my first year. The agency saw similar increases in 2007 and was on track for another record year in 2008--until the state / national economy took a downturn and referrals were adversely affected. Re-engineered the organization to be more cost effective, competitive in '09; State funding continued to be cut so sought out strategic partnerships and merged the organization with another nonprofit agency that was closely aligned and less dependent upon State funding for future growth and sustainability.

Owner: **The Wellness Center**
Powell, Wyoming Dates of employment: 2004 - 2005

Duties: Private practice providing consulting services to area businesses, schools, hospitals, and other human services related organizations; in addition to conducting individual, couples and family therapy on an outpatient basis.

Executive **Park County Mental Health Center**

Director: Cody, Wyoming

Dates of employment: 1996 – 2004

Duties: Responsible for the overall operations of this private, nonprofit community mental health agency with a staff of 30 and a budget of 2 million. When I arrived, the agency was heavily in debt, attempting to recover from lawsuits, had multiple staffing and recruitment concerns and was facing the very real prospect of having to close its doors. The agency's reputation in the community was poor at best and its ability to accomplish its mission was severely compromised.

Led the organization through a comprehensive strategic planning process and within a relatively short period, the organization more than quadrupled in size, expanded its operating budget / income by almost 500%, established a healthy reserve and best of all—significantly enhanced the mental health of the communities it serves by providing healthcare in a rural environment that is second to none. The agency maintained multiple sites for ease of access, operated a drop-in center for SPMI clients and provided on-site community-based services in area hospitals, schools, nursing homes / senior centers, correctional facilities, etc. Created a community-based acute care option to prevent unnecessary hospitalizations and implemented a mobile crisis program to respond to acute/emergency needs on a county-wide basis.

Results: Development of a comprehensive system of mental health care that encompassed youth through the elderly—utilizing evidenced based models where appropriate.

- Quadrupled the size of organization and the associated revenue
- Oversaw the design and building of multiple facilities
- Oversaw the design and implementation of an integrated computerized client database, clinical records, and accounting/billing system
- Facilitated the integration of mental health care with primary health care systems, educational systems, law enforcement / correctional systems and other community-based social / human service systems.
- Achieved national accreditation (CARF), youth/adult behavioral health care
- Significantly enhanced the agency's community reputation and fiscal viability
- Effectively managed significant growth and change

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of West Central Services, Inc. d/b/a West Central Behavioral Health as of June 30, 2017 and 2016, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

The supplementary information on pages 14-17 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

West Central Services, Inc.
d/b/a West Central Behavioral Health
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

West Central Services, Inc. d/b/a West Central Behavioral Health (the Center) is a not-for-profit corporation, organized under New Hampshire law to provide services in the areas of mental health and related non-mental health programs; it is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code (Code). In addition, the Center qualifies for the charitable contribution deduction under Section 170(b)(1)(a) and has been classified as an organization that is not a private foundation under Section 509(a)(2).

Income Taxes

The Center is exempt from federal income tax under Internal Revenue Code Section 501(c)(3) and is not a private foundation. Therefore no provision for income tax expense has been reflected in these financial statements.

Consideration has been given to uncertain tax positions. The federal income tax returns for the years ended after June 30, 2014 remain open for potential examination by major tax jurisdictions generally for three years after they were filed.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash and Cash Equivalents

The Center considers cash on hand, cash in banks and all highly liquid debt instruments purchased with a maturity of three months or less to be cash and cash equivalents.

Accounts Receivable

Accounts receivable are recorded based on the amount billed for services provided, net of respective allowances.

Policy for Evaluating Collectability of Accounts Receivable

In evaluating the collectability of accounts receivable, the Center analyzes past results and identifies trends for each major payer source of revenue for the purpose of estimating the appropriate amounts of the allowance for doubtful accounts. Data in each major payer source is regularly reviewed to evaluate the adequacy of the allowance for doubtful accounts. Specifically, for receivables relating to services provided to clients having third-party coverage, an allowance for doubtful accounts and a corresponding provision for bad debts are established for amounts outstanding for an extended period of time and for third-party payers experiencing financial difficulties; for receivables relating to self-pay clients, a provision for bad debts is made in the period services are rendered based on experience indicating the inability or unwillingness of clients to pay amounts for which they are financially responsible.

West Central Services, Inc.
d/b/a West Central Behavioral Health
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Based on management's assessment, the Center provides for estimated uncollectible amounts through a charge to earnings and a credit to a valuation allowance. Balances that remain outstanding after the Center has used reasonable collection efforts are written off through a change to the valuation allowance and a credit to accounts receivable.

Policy for Evaluating Collectability of Accounts Receivable (continued)

During 2017, the Center increased its estimated percentage in the allowance for doubtful accounts from 19% to 36% of the total patient receivables. The allowance for doubtful accounts increased to \$265,219 as of June 30, 2017 from \$155,441 as of June 30, 2016.

Property and Equipment

All property and equipment is recorded at cost, or estimated fair value at date of acquisition. The Center follows the policy of charging to costs and expenses annual amounts of depreciation, which allocates the cost of property and equipment over estimated useful lives. The Center has a policy of capitalizing assets with a cost in excess of \$1,000 and a life greater than one year. The Center uses the straight-line method for determining the annual charge for depreciation. Asset lives range from 2-40 years.

Expenditures for repairs and maintenance are expensed when incurred and betterments are capitalized.

The Center reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, as well as the effects of obsolescence, demand, competition and other economic factors.

Client Service Revenue

The Center recognizes client service revenue relating to services rendered to clients that have third-party payer coverage and are self-pay. The Center receives payment from Medicare, Medicaid and Insurance Companies at defined rates for services to clients covered by such third-party payer programs. The difference between the established billing rates and the actual rate of reimbursement is recorded as allowances when received. For services rendered to uninsured clients (i.e., self-pay clients), revenue is recognized on the basis of standard or negotiated discounted rates. At the time services are rendered to self-pay clients, a provision for bad debts is recorded based on experience and the effects of newly identified circumstances and trends in pay rates. Client service revenue (net of contractual allowances and discounts but before taking account of the provision for bad debts) recognized during the year ended June 30, 2017 totaled \$8,360,696, of which \$8,059,355 was revenue from third-party payers and \$301,341 was revenue from self-pay clients.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Third-Party Contractual Arrangements

A significant portion of patient revenue is derived from services to patients insured by third-party payers. The Center receives payment from Medicare, Medicaid, Blue Cross and other third-party payers at defined rates for services rendered to patients covered by these programs. The difference between the established billing rates and the actual rate of payment is recorded as allowances when received and/or billed. A provision for estimated contractual allowances is provided on outstanding patient receivables at the balance sheet date.

State Grants

The Center receives a number of grants from and has entered into various contracts with the State of New Hampshire related to the delivery of mental health services.

Functional Allocation of Expenses

The costs of providing the various programs and other activities has been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Vacation Pay and Fringe Benefits

Annual vacation allotments are granted in full to employees at the beginning of the fiscal year and are to be utilized by June 30th; unused time is forfeited. Fringe benefits are allocated to the appropriate program expense based on the percentage of actual time spent on the program.

Advertising

Advertising costs are expensed to operating expenses as incurred. Advertising expense for the years ended June 30, 2017 and 2016 was \$11,556 and \$9,704, respectively.

Concentration of Credit Risk

The Center maintains cash balances at several financial institutions. Accounts at financial institutions are insured by the Federal Deposit Insurance Corporation up to \$250,000. At times throughout the year, cash balances with these institutions exceed that amount. The Center has not incurred any losses related to uninsured cash.

NOTE 2 CLIENT SERVICE REVENUES FROM THIRD PARTY PAYORS

The Center has agreements with third-party payors that provide payments to the Center at established rates. These payments include:

New Hampshire and Managed Medicaid

The Center is reimbursed for services from the State of New Hampshire and Managed Care Organizations for services rendered to Medicaid clients on the basis of fixed fee for service rates.

West Central Services, Inc.
d/b/a West Central Behavioral Health
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 2 CLIENT SERVICE REVENUES FROM THIRD PARTY PAYORS (continued)

Approximately 85% of program service fees is from participation in the State and Managed Care Organization sponsored Medicaid programs for the year ended June 30, 2017. Laws and regulations governing the Medicaid programs are complex and subject to interpretation and change. As a result, it is reasonably possible that recorded estimates could change materially in the near term.

NOTE 6 FAIR VALUE MEASUREMENTS

Professional accounting standards established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurement

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.
- Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

All investments are categorized as Level 1 and recorded at fair value, as of June 30, 2017. As required by professional accounting standards, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement.
