His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Health and Human Services, Division for Behavioral Health, New Hampshire Hospital to enter into a **sole source** Agreement with Concord Hospital, Inc., (Vendor #177653) to provide radiology services to clients admitted to New Hampshire Hospital, in an amount not to exceed \$10,000, effective upon Governor and Executive Council approval through March 31, 2018. 34% General Funds, 46% Other Funds (Provider Fees) and 20% Federal Funds.

Funds are available in the following account in State Fiscal Year 2018.

**05-095-094-940010-8750 HEALTH AND SOCIAL SERVICES, DEPT OF HEALTH AND HUMAN SVS,
HHS: NEW HAMPSHIRE HOSPITAL, NEW HAMPSHIRE, HOSPITAL, ACUTE PSYCHIATRIC SVS**

State Fiscal Year	Class/Object	Class Title	Current Budget
2018	101-500729	Medical Payments to Providers	\$10,000

EXPLANATION

This Agreement is **sole source** because the Vendor is located in close proximity to the Acute Psychiatric Facility allowing for quick access to services on a 24/7 basis. In addition, this Vendor has been providing these services for over three years and the Department has been satisfied with the services. The Vendor has the necessary skills and demeanor to work successfully with behavioral health clients. This Agreement is being submitted for Governor and Executive Council approval because the combined dollar amounts of this Agreement and the Department's other Agreements with this Vendor exceeds the threshold amount in the Manual of Procedures, Part 150, Section IV.A.3.

This Agreement will allow the Department to continue to provide radiology services to New Hampshire Hospital patients. The Department will release a Request for Proposals for these services in the upcoming year with the intention of bundling the miscellaneous medical minor contracts into one major contract thus allowing for the use of needed services within the bundle without committing to specific services that may or may not be needed during the contract period.

The Contractor will provide radiology services that include mobile x-ray services, electrocardiograms, and interpretation of images for patients that are unable to leave the Acute Psychiatric Services facility.

Should Governor and Council determine not to approve this Request, the Department may not have access to radiology services to be able to determine the severity of patient conditions thus jeopardizing the wellbeing and recovery of patients while in the care of New Hampshire Hospital.

Area served: New Hampshire Hospital

Source of Funds: 34% General Funds, 46% Other Funds (Provider Fees) and 20% Federal Funds made available under the Social Security Act, Section 1923, Payment for Inpatient Hospital Services Furnished by Disproportionate Share Hospitals.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox
Director

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.
2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.
3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.
4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.
5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.
7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
 - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
 - 7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

- 7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

Prior to subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. **CERTIFICATION REGARDING DEBARMENT, SUSPENSION
AND OTHER RESPONSIBILITY MATTERS**

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
 - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
 - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

 - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I.  - 1.8. Comply with the New Hampshire Hospital's policy on professional/ workplace boundaries to provide a safe and therapeutic environment for patients. A boundary is a limit or margin that describes the way in which one interacts and/or communicates with patients. Professional boundaries are the spaces between staff power and patient vulnerability. Establishing boundaries allows staff to control this power differential providing a safe connection to meet patient needs. Failure to maintain a boundary by becoming overly involved in a manner that has potential to compromise patient care is a violation of this policy. Boundary violations may be emotional, physical, spiritual, financial or sexual in nature and may be brief extended intentional or accidental. Behaviors that can be considered boundary violations include, but are not limited to:
 - 1.8.1. disclosure of personal information i.e. phone number, details of marital status, family issues, job or disciplinary actions
 - 1.8.2. seeking of social relationships including after discharge
 - 1.8.3. giving or receiving personal gifts
 - 1.8.4. initiating personal correspondence

 - 1.9. Interact with patients with dignity and respect within a continuum of professional behavior having boundaries that support a return to health. Additionally, professionals are expected to maintain the necessary workplace behaviors and attitudes required by the ethical standards of their professional discipline.
 - 1.10. Provide each patient at New Hampshire Hospital a right to confidentiality and privacy of their clinical record. That right extends to the fact of their hospitalization. Information about a patient may be shared among Hospital staff members only insofar as it is necessary for the patient's treatment or in the course of professional education. Under no other circumstances may information be shared except with the informed consent of the patient or a person authorized to give consent in the patient's behalf. In accordance with the Hospital confidentiality policy, authorized volunteers, students and trainees and consultants are considered members of the Hospital staff.
 - 1.11. Under equal obligation to treat as confidential any information they may acquire, by any means, about a patient or former patient. Any breach of confidentiality is a serious offense and grounds termination of this agreement. I have read, understand, and agree to abide by the provisions and obligations contained in this Agreement and also understand that the policies on these matters are available from my immediate supervisor.

Title: Contracts and Expenditures: Approval Levels

Policy:

Concord Hospital limits the amount to which an employee can encumber the organization.

1. Purpose:

To provide a structure to ensure that hospital resources are managed properly

2. Abbreviations:

HEMM –Horizon Enterprise Materials Management

3. Definitions:

Approved Definitions for Use at Concord Hospital

Contract: Any written document (except documents identified in “Expenditures” below) that encumbers the organization. This includes, but is not limited to:

- Pricing Contracts
- Repair and maintenance agreements
- Service agreements
- Real estate leases
- Equipment leases
- Consultant agreements
- Staffing agreements
- Employee leases
- Contracts for services (with Concord Hospital as either the recipient or provider of said services)
- Application and Certificate of Payment
- Letters of commitment
- Grants
- Insurance contracts
- New contracts
- Renewal contracts

Contracts and Expenditures: Approval Levels

- Software licenses

Expenditures: Expenditures will be categorized as follows:

- Acquisitions utilizing Purchase Orders
- Acquisitions without utilizing Purchase Orders
- General Reimbursements
- Approvals for Recurring general expenses necessary to operate the Hospital
- Petty Cash
- Emergent purchases

Purchase Order: A Purchase order is considered an expenditure and not a contract.

4. Procedure Elements:

4.1 Contract Approval Requirement for real estate leases (effective January 1, 2017)

- Where Concord Hospital is landlord and tenant the CFO will sign as tenant and the CEO will sign as landlord.
- Where Concord Hospital is tenant only, the CFO will sign as tenant.
- Where Concord Hospital is landlord only, the CEO will sign as landlord.
- In the absence of the CEO and/or CFO where timing is of the essence, the VP of Support Services can serve the role of either signatory.

4.2 Contract Approval Requirement for all but real estate leases

- A contract with a total value of \$100,000 or less requires only one member of Senior Management to sign. A contract over \$100,000 requires signatures from two members of Senior Management
- Senior Management members, with the exception of the Chief Executive Officer and Chief Financial Officer, shall have approval limits for any single contract of \$500,000 a year and \$1 million over the life of the contract.
- The Chief Financial Officer has approval limits for any single contract of \$3 million a year and \$9 million over the life of the contract.

Contracts and Expenditures: Approval Levels

- For contracts with values that exceed the limits provided to the Chief Financial Officer, the Chief Executive Officer will sign in addition to one other member of Senior Management
- The Senior Vice President of Finance/Chief Financial Officer or Chief Executive Officer will sign contracts with third party payers. Only one of these signatures is necessary.
- It is acknowledged that circumstances may arise whereby acquiring appropriate Senior Management signatures on a contract is not possible due to the geographical location of the signing of the contract. An example of this would be the signing of a real estate purchase and sale agreement at a bank or attorney's office. For these situations, only one Senior Management signature is necessary with the expressed verbal approval of the Chief Executive Officer prior to the consummation of the contract.

4.3 Acquisitions

- Purchase orders for products and services that have been negotiated as part of an umbrella contract or project, which is valid at the time of purchase, are assumed to be pre-approved purchases.
- Application and Certificate of Payment, which is linked to an existing contract, are assumed to be pre-approved purchases.
- Purchase orders for capital equipment items, approved through a motion of the hospital's Capital Equipment Committee, and with an actual purchase price below, or at the approved amount, are assumed to be approved purchases.
- HEMM software has an approval mechanism built into its electronic requisition module.
- All purchase requisitions using Purchase orders, Check Requests or Credit Cards will adhere to the following approval levels:

Amount	Level
○ \$2,500	Staff
○ \$5,000	Supervisor
○ \$10,000	Manager
○ \$10,000	O. R. Staff /Lab Medical Technologists
○ Unlimited	Director

Contracts and Expenditures: Approval Levels

- Unlimited OR Business Manager/ OR Nurse Manager/Facilities Manager
- A single Purchase Order over \$100,000 is considered a contract and would fall under the contract guidelines requiring two Senior Management signatures.

4.4 General Reimbursements- Individual

- This category includes reimbursement to an INDIVIDUAL of the organization for an expense previously incurred by said individual. Examples include tuition reimbursement, mileage, expense reimbursement, and license renewals.
- Two signatures are needed on all general reimbursement requests.
- General reimbursements must be supported with an itemized bill, statement, receipt, cancelled check, etc.
- If the general reimbursement request is initiated by a staff member at a level of the organization below Director level, the request must be co-signed by a member of said staff member's department who is higher than that employee on the department's organizational chart.
 - Example: A staff level employee would need a Supervisor, Manager or Director of his/her department to co-sign the request. A Supervisor would need a Manager or Director to co-sign and a Manager would need the Director to co-sign.
- If a department Director initiates the general reimbursement request, and the request is for less than \$1,000, the request is to be co-signed by another member of that department's leadership team, recognizing that the individual co-signing is below the Director on the department's organizational chart. If the Director is the only member of the department's leadership team, the request is to be co-signed by the Director's senior manager. If a department Director initiates the general reimbursement request, and the request is for more than \$1,000, the request is to be co-signed by said Director's Vice President.
- If a member of Senior Management initiates a general reimbursement request, it will be co-signed by another member of the Senior Management

Contracts and Expenditures: Approval Levels

team. An exception is that the Chief Executive Officer can have his or her executive assistant co-sign his or her requests.

4.5 Recurring General Expenses

- There are a significant number of recurring general expenses in the hospital that are assumed to be approved, based on historical precedent and are validated by leaders of the hospital, often, but not always, after the expense is incurred. These may or may not be part of an umbrella contract. Included as examples are: utilities, office supplies, medical waste, fuel and postage. The appropriate Director within the organization must approve invoices for these expenses. The Accounting Department staff will check expenses for “reasonableness” based on history. Department Directors will audit said expenses through the monthly Responsibility Summary.
- Staff members may purchase items on behalf of the hospital directly from a local vendor at the vendor location. These expenses are assumed to be normal operating expenses and therefore approval is assumed. Purchasing staff can issue purchase orders for said purchases even though acquisition costs may not be known prior to the purchase. If acquisition price is not known, Purchasing must be informed of the cost as soon as it is identified. These expenses may or may not be part of an umbrella contract or project. Included as examples are: hardware materials. The appropriate department Director will check expenses for “reasonableness” through the monthly Responsibility Summary.

4.6 Emergent Repairs

- The organization recognizes that there are times when individuals of the organization need to make decisions to incur expenses when it is improbable to follow the approval policies of the organization. Generally, these decisions would be made during “off normal work hours,” specifically nights, weekends and holidays. Any individual of the organization is empowered to make an emergency decision that said individual deems is in the best interest of the organization at the time the decision is made. In these instances, the Director of the department generating the expense would be alerted to the expense at the first opportunity and the approval policies as identified above would be followed retrospectively.

INDEPENDENT AUDITORS' REPORT

The Board of Trustees
Concord Hospital, Inc.

We have audited the accompanying consolidated financial statements of Concord Hospital, Inc. and Subsidiaries (the System), which comprise the consolidated balance sheets as of September 30, 2016 and 2015, and the related consolidated statements of operations, changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the System as of September 30, 2016 and 2015, and the results of its operations, changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

1. Description of Organization and Summary of Significant Accounting Policies

Organization

Concord Hospital, Inc., (the Hospital) located in Concord, New Hampshire, is a not-for-profit acute care hospital. The Hospital provides inpatient, outpatient, emergency care and physician services for residents within its geographic region. Admitting physicians are primarily practitioners in the local area. The Hospital is controlled by Capital Region Health Care Corporation (CRHC).

In 1985, the then Concord Hospital underwent a corporate reorganization in which it was renamed and became CRHC. At the same time, the Hospital was formed as a new entity. All assets and liabilities of the former hospital, now CRHC, with the exception of its endowments and restricted funds, were conveyed to the new Hospital. The endowments were held by CRHC for the benefit of the Hospital, which is the true party in interest. Effective October 1, 1999, CRHC transferred these funds to the Hospital.

In March 2009, Concord Hospital created The Concord Hospital Trust (the Trust), a separately incorporated, not-for-profit organization to serve as the Hospital's philanthropic arm. In establishing the Trust, the Hospital transferred philanthropic permanent and temporarily restricted funds, including board designated funds, endowments, indigent care funds and specific purpose funds, to the newly formed organization together with the stewardship responsibility to direct monies available to support the Hospital's charitable mission and reflect the specific intentions of the donors who made these gifts. Concord Hospital and the Trust constitute the Obligated Group at September 30, 2016 and 2015 to certain debt described in Note 6.

Subsidiaries of the Hospital include:

Capital Region Health Care Development Corporation (CRHCDC) is a not-for-profit real estate corporation that owns and operates medical office buildings and other properties.

Capital Region Health Ventures Corporation (CRHVC) is a not-for-profit corporation that engages in health care delivery partnerships and joint ventures. It operates ambulatory surgery and diagnostic facilities in cooperation with other entities.

CH/DHC, Inc. d/b/a Dartmouth-Hitchcock-Concord (CH/DHC) is a not-for-profit corporation that provides clinical medical services through a multi-specialty group practice. CH/DHC was formed under a joint agreement between the Hospital and DH-Concord. The joint agreement terminated effective September 30, 2015.

The Hospital, its subsidiaries and the Trust are collectively referred to as the System. The consolidated financial statements include the accounts of the Hospital, the Trust, CRHCDC, CRHVC and CH/DHC. All significant intercompany balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk

Financial instruments which subject the Hospital to credit risk consist primarily of cash equivalents, accounts receivable and investments. The risk with respect to cash equivalents is minimized by the Hospital's policy of investing in financial instruments with short-term maturities issued by highly rated financial institutions. The Hospital's accounts receivable are primarily due from third-party payors and amounts are presented net of expected contractual allowances and uncollectible amounts, including estimated uncollectible amounts from uninsured patients. The Hospital's investment portfolio consists of diversified investments, which are subject to market risk. The Hospital's investment in one fund, the Vanguard Institutional Index Fund, exceeded 10% of total Hospital investments as of September 30, 2016. The Hospital's investment in one fund, the State Street S&P 500 CTF, exceeded 10% of total Hospital investments as of September 30, 2015.

Cash and Cash Equivalents

Cash and cash equivalents include money market funds and secured repurchase agreements with original maturities of three months or less, excluding assets whose use is limited or restricted.

The Hospital maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Hospital has not experienced any losses on such accounts.

Supplies

Supplies are carried at the lower of cost, determined on a weighted-average method, or net realizable value.

Assets Whose Use is Limited or Restricted

Assets whose use is limited or restricted include assets held by trustees under workers' compensation reserves and self-insurance escrows, designated assets set aside by the Board of Trustees, over which the Board retains control and may, at its discretion, subsequently use for other purposes, and donor-restricted investments.

Investments and Investment Income

Investments are carried at fair value in the accompanying consolidated balance sheets. Investment income (including realized gains and losses on investments, interest and dividends) is included in the excess of revenues and nonoperating income over expenses unless the income is restricted by donor or law. Gains and losses on investments are computed on a specific identification basis. Unrealized gains and losses on investments are excluded from the excess of revenues and nonoperating income over expenses unless the investments are classified as trading securities or losses are considered other-than-temporary. Periodically, management reviews investments for which the market value has fallen significantly below cost and recognizes impairment losses where they believe the declines are other-than-temporary.

Beneficial Interest in Perpetual Trusts

The System has an irrevocable right to receive income earned on certain trust assets established for its benefit. Distributions received by the System are unrestricted. The System's interest in the fair value of the trust assets is included in assets whose use is limited and as permanently restricted net assets. Changes in the fair value of beneficial trust assets are reported as increases or decreases to permanently restricted net assets.

Investment Policies

The System's investment policies provide guidance for the prudent and skillful management of invested assets with the objective of preserving capital and maximizing returns. The invested assets include endowment, specific purpose and board designated (unrestricted) funds.

Endowment funds are identified as permanent in nature, intended to provide support for current or future operations and other purposes identified by the donor. These funds are managed with disciplined longer-term investment objectives and strategies designed to accommodate relevant, reasonable, or probable events.

Temporarily restricted funds are temporary in nature, restricted as to time or purpose as identified by the donor or grantor. These funds have various intermediate/long-term time horizons associated with specific identified spending objectives.

Board designated funds have various intermediate/long-term time horizons associated with specific spending objectives as determined by the Board of Trustees.

Management of these assets is designed to increase, with minimum risk, the inflation adjusted principal and income of the endowment funds over the long term. The System targets a diversified asset allocation that places emphasis on achieving its long-term return objectives within prudent risk constraints.

1. Description of Organization and Summary of Significant Accounting Policies (Continued)

Spending Policy for Appropriation of Assets for Expenditure

In accordance with the *Uniform Prudent Management of Institutional Funds Act* (UPMIFA), the System considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (a) the duration and preservation of the fund; (b) the purpose of the organization and the donor-restricted endowment fund; (c) general economic conditions; (d) the possible effect of inflation and deflation; (e) the expected total return from income and the appreciation of investments; (f) other resources of the organization; and (g) the investment policies of the organization.

Spending policies may be adopted by the System, from time to time, to provide a stream of funding for the support of key programs. The spending policies are structured in a manner to ensure that the purchasing power of the assets is maintained while providing the desired level of annual funding to the programs. The System has a current spending policy on various funds currently equivalent to 5% of twelve-quarter moving average of the funds' total market value.

Accounts Receivable and the Allowance for Doubtful Accounts

Accounts receivable are reduced by an allowance for doubtful accounts. In evaluating the collectibility of accounts receivable, the System analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for doubtful accounts. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts. For receivables associated with services provided to patients who have third-party coverage, the System analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for doubtful accounts, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payor has not yet paid, or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely). For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the System records a provision for doubtful accounts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the standard rates (or the discounted rates if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts.

The System's allowance for doubtful accounts for self-pay patients represented 70% and 68% of self-pay accounts receivable at September 30, 2016 and 2015, respectively. The total provision for the allowance for doubtful accounts was \$17,251 and \$16,839 for the years ended September 30, 2016 and 2015, respectively. The System also allocates a portion of the allowance and provision for doubtful accounts to charity care, which is not recorded as revenue. The System's self-pay bad debt writeoffs increased \$614, from \$21,518 in 2015 to \$22,132 in 2016. The increase in bad debt writeoffs between 2016 and 2015 was primarily a result of certain shifts in payor mix.

1. Description of Organization and Summary of Significant Accounting Policies (Continued)

Property and Equipment

Property and equipment is stated at cost at time of purchase, or at fair value at time of donation for assets contributed, less any reductions in carrying value for impairment and less accumulated depreciation. The System's policy is to capitalize expenditures for major improvements and charge maintenance and repairs currently for expenditures which do not extend the lives of the related assets. Depreciation is computed using the straight-line method in a manner intended to amortize the cost of the related assets over their estimated useful lives. For the years ended September 30, 2016 and 2015, depreciation expense was \$24,535 and \$24,437, respectively.

The System has also capitalized certain costs associated with property and equipment not yet in service. Construction in progress includes amounts incurred related to major construction projects, other renovations, and other capital equipment purchased but not yet placed in service. During 2016, the Hospital entered into various construction contracts totaling approximately \$9,600 for the construction of a new parking garage. Construction began in September 2016 and is expected to be completed in the spring of 2017. There was no interest capitalized during 2016 and 2015.

Gifts of long-lived assets such as land, buildings or equipment are reported as unrestricted support, and are excluded from the excess of revenues and nonoperating income over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used, and gifts of cash or other assets that must be used to acquire long-lived assets, are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Federal Grant Revenue and Expenditures

Revenues and expenses under federal grant programs are recognized as the grant expenditures are incurred.

Bond Issuance Costs/Original Issue Discount or Premium

Bond issuance costs incurred to obtain financing for construction and renovation projects and the original issue discount or premium are amortized to interest expense using the straight-line method, which approximates the effective interest method, over the life of the respective bonds. The original issue discount or premium and bond issuance costs are presented as a component of bonds payable.

Charity Care

The System provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates (Note 11). Because the System does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue. The System determines the costs associated with providing charity care by calculating a ratio of cost to gross charges, and then multiplying that ratio by the gross uncompensated charges associated with providing care to patients eligible for free care. Funds received from gifts and grants to subsidize charity services provided for the years ended September 30, 2016 and 2015 were approximately \$330 and \$473, respectively.

Temporarily and Permanently Restricted Net Assets

Gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of donated assets. Temporarily restricted net assets are those whose use has been limited by donors to a specific time period or purpose. When a donor restriction expires (when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified as unrestricted net assets and reported as either net assets released from restrictions for operations (for noncapital related items) or as net assets released from restrictions used for purchases of property and equipment (capital related items). Permanently restricted net assets have been restricted by donors to be maintained in perpetuity.

Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

Net Patient Service Revenue

The System has agreements with third-party payors that provide for payments to the System at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, per diem payments and fee schedules. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Changes in these estimates are reflected in the financial statements in the year in which they occur. For the years ended September 30, 2016 and 2015, net patient service revenue in the accompanying consolidated statements of operations decreased by approximately \$500 and \$3,106, respectively, due to actual settlements and changes in assumptions underlying estimated future third-party settlements.

Revenues from the Medicare and Medicaid programs accounted for approximately 31% and 6% and 31% and 4% of the Hospital's net patient service revenue for the years ended September 30, 2016 and 2015, respectively. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation.

The Hospital recognizes patient service revenue associated with services provided to patients who have third-party payor coverage on the basis of contractual rates for the services rendered. For uninsured patients, the Hospital provides a discount approximately equal to that of its largest private insurance payors. On the basis of historical experience, a significant portion of the Hospital's uninsured patients will be unable or unwilling to pay for the services provided. Thus, the Hospital records a significant provision for doubtful accounts related to uninsured patients in the period the services are provided.

Donor-Restricted Gifts

Unconditional promises to give cash and other assets to the System are reported at fair value at the date the promise is received. Conditional promises to give and intentions to give are reported at fair value at the date the condition is met. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of donated assets.

Excess of Revenues and Nonoperating Income Over Expenses

The System has deemed all activities as ongoing, major or central to the provision of health care services and, accordingly, they are reported as operating revenue and expenses, except for unrestricted contributions and pledges, the related philanthropy expenses and investment income which are recorded as nonoperating income.

The consolidated statements of operations also include excess of revenues and nonoperating income over expenses. Changes in unrestricted net assets which are excluded from excess of revenues and nonoperating income over expenses, consistent with industry practice, include the change in net unrealized gains and losses on investments other than trading securities or losses considered other than temporary, permanent transfers of assets to and from affiliates for other than goods and services, pension liability adjustments and contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets).

Estimated Workers' Compensation and Health Care Claims

The provision for estimated workers' compensation and health care claims includes estimates of the ultimate costs for both reported claims and claims incurred but not reported.

Income Taxes

The Hospital, CRHCDC, CRHVC, CH/DHC and the Trust are not-for-profit corporations as described in Section 501(c)(3) of the Internal Revenue Code, and are exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. Management evaluated the System's tax positions and concluded the System has maintained its tax-exempt status, does not have any significant unrelated business income and had taken no uncertain tax positions that require adjustment to or disclosure in the accompanying consolidated financial statements.

Advertising Costs

The System expenses advertising costs as incurred, and such costs totaled approximately \$200 and \$214 for the years ended September 30, 2016 and 2015, respectively.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued ASU No. 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09), which requires revenue to be recognized when promised goods or services are transferred to customers in amounts that reflect the consideration to which the System expects to be entitled in exchange for those goods and services. ASU 2014-09 will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. ASU 2014-09 is effective for the System on October 1, 2018. ASU 2014-09 permits the use of either the retrospective or cumulative effect transition method. The System is evaluating the impact that ASU 2014-09 will have on its consolidated financial statements and related disclosures.

In April 2015, the FASB issued ASU No. 2015-03, *Interest – Imputation of Interest: Simplifying the Presentation of Debt Issuance Costs* (ASU 2015-03). ASU 2015-03 simplifies the presentation of debt issuance costs and requires that the debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. ASU 2015-03 is effective for the System's fiscal year ending September 30, 2017 with early adoption permitted. The System has elected to implement ASU 2015-03 in its 2016 consolidated financial statements (with retroactive application to 2015) which is allowed under the pronouncement. The adoption of this pronouncement did not materially affect the consolidated financial statements. See Note 6.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)* (ASU 2016-02). Under ASU 2016-02, at the commencement of a long-term lease, lessees will recognize a liability equivalent to the discounted payments due under the lease agreement, as well as an offsetting right-of-use asset. ASU 2016-02 is effective for the System on October 1, 2019, with early adoption permitted. Lessees (for capital and operating leases) must apply a modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. The modified retrospective approach would not require any transition accounting for leases that expired before the earliest comparative period presented. Lessees may not apply a full retrospective transition approach. The System is currently evaluating the impact of the pending adoption of ASU 2016-02 on the System's consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-14, *Presentation of Financial Statements for Not-for-Profit Entities (Topic 958)* (ASU 2016-14). Under ASU 2016-14, the existing three-category classification of net assets (i.e., unrestricted, temporarily restricted and permanently restricted) will be replaced with a simplified model that combines temporarily restricted and permanently restricted into a single category called "net assets with donor restrictions". ASU 2016-14 also enhances certain disclosures regarding board designations, donor restrictions and qualitative information regarding management of liquid resources. In addition to reporting expenses by functional classifications, ASU 2016-14 will also require the financial statements to provide information about expenses by their nature, along with enhanced disclosures about the methods used to allocate costs among program and support functions. ASU 2016-14 is effective for the System's fiscal year ending September 30, 2019, with early adoption permitted. The System is currently evaluating the impact of the pending adoption of ASU 2016-14 on the System's consolidated financial statements.

Subsequent Events

Management of the System evaluated events occurring between the end of the System's fiscal year and January 6, 2017, the date the consolidated financial statements were available to be issued.

2. Transactions With Affiliates

The System provides funds to CRHC and its affiliates which are used for a variety of purposes. The System records the transfer of funds to CRHC and the other affiliates as either receivables or directly against net assets, depending on the intended use and repayment requirements of the funds. Generally, funds transferred for start-up costs of new ventures or capital related expenditures are recorded as charges against net assets. For the years ended September 30, 2016 and 2015, transfers made to CRHC were \$(129) and \$(77), respectively, and transfers received from Capital Region Health Services Corporation (CRHSC) were \$318 and \$449, respectively.

A brief description of affiliated entities is as follows:

- CRHSC is a for-profit provider of health care services, including an eye surgery center and assisted living facility.
- Concord Regional Visiting Nurse Association, Inc. and Subsidiary (CRVNA) provides home health care services.
- Riverbend, Inc. provides behavioral health services.

Amounts due the System, primarily from joint ventures, totaled \$1,885 and \$2,326 at September 30, 2016 and 2015, respectively. Amounts have been classified as current or long-term depending on the intentions of the parties involved. Beginning in 1999, the Hospital began charging interest on a portion of the receivables (\$851 and \$892 at September 30, 2016 and 2015, respectively) with principal and interest (6.75% at September 30, 2016) payments due monthly. Interest income amounted to \$59 and \$62 for the years ended September 30, 2016 and 2015, respectively.

Contributions to affiliates and other community organizations from temporarily restricted net assets were \$184 and \$140 in 2016 and 2015, respectively.

In evaluating whether investments have suffered an other-than-temporary decline, based on input from outside investment advisors, management evaluated the amount of the decline compared to cost, the length of time and extent to which fair value has been less than cost, the underlying creditworthiness of the issuer, the fair values exhibited during the year, estimated future fair values and the System's intent and ability to hold the security until a recovery in fair value or maturity. Based on evaluations of the underlying issuers' financial condition, current trends and economic conditions, management believes there are no securities that have suffered an other-than-temporary decline in value at September 30, 2016 and 2015.

4. Defined Benefit Pension Plan

The System has a noncontributory defined benefit pension plan (the Plan), covering all eligible employees of the System and subsidiaries. The Plan provides benefits based on an employee's years of service, age and the employee's compensation over those years. The System's funding policy is to contribute annually the amount needed to meet or exceed actuarially determined minimum funding requirements of the *Employee Retirement Income Security Act of 1974* (ERISA).

The System accounts for its defined benefit pension plan under ASC 715, *Compensation Retirement Benefits*. This Statement requires entities to recognize an asset or liability for the overfunded or underfunded status of their benefit plans in their financial statements.

The following table summarizes the Plan's funded status at September 30, 2016 and 2015:

	<u>2016</u>	<u>2015</u>
Funded status:		
Fair value of plan assets	\$ 185,404	\$ 165,053

In June 2015, the plan was amended effective January 1, 2016 to change the factors used to convert a cash balance account into a monthly annuity, expand eligibility for the lump payment option and modify eligibility for an annual cash balance pay credit. These changes were reflected within the projected benefit obligation at September 30, 2015. Also in 2015, the System began to use the RP-2015 mortality tables, which in general have longer life expectancies than the older tables used, which had an impact on the projected benefit obligation.

The funds-of-funds are invested with twelve investment managers and have various restrictions on redemptions. Five of the managers holding amounts totaling approximately \$38 million at September 30, 2016 allow for monthly redemptions, with notices ranging from 6 to 15 days. Five managers holding amounts totaling approximately \$33 million at September 30, 2016 allow for quarterly redemptions, with notices ranging from 45 to 65 days. One of the managers holding amounts of approximately \$5 million at September 30, 2016 allows for annual redemptions, with a notice of 90 days. One of the managers holding amounts of approximately \$4 million at September 30, 2016 allows for redemptions on a three year rolling basis, with a notice of 60 days. There is also a special redemption provision that allows 10% of the investment to be redeemed annually on March 1, with a notice of 30 days. Certain funds also may include a fee estimated to be equal to the cost the fund incurs in converting investments to cash (ranging from 0.5% to 1.5%) or are subject to certain lock periods.

The System considers various factors in estimating the expected long-term rate of return on plan assets. Among the factors considered include the historical long-term returns on plan assets, the current and expected allocation of plan assets, input from the System's actuaries and investment consultants, and long-term inflation assumptions. The System's expected allocation of plan assets is based on a diversified portfolio consisting of domestic and international equity securities, fixed income securities, and real estate.

The System's investment policy for its pension plan is to balance risk and returns using a diversified portfolio consisting primarily of high quality equity and fixed income securities. To accomplish this goal, plan assets are actively managed by outside investment managers with the objective of optimizing long-term return while maintaining a high standard of portfolio quality and proper diversification. The System monitors the maturities of fixed income securities so that there is sufficient liquidity to meet current benefit payment obligations. The System's Investment Committee provides oversight of the plan investments and the performance of the investment managers.

Amounts included in expense during fiscal 2016 and 2015 consist of:

4. Defined Benefit Pension Plan (Continued)

The accumulated benefit obligations for the plan at September 30, 2016 and 2015 were \$259,477 and \$217,825, respectively.

	<u>2016</u>	<u>2015</u>
Weighted average assumptions to determine benefit obligation:		
Discount rate	4.03%	4.78%

Discount rate	4.78%	4.78%
Expected return on plan assets	7.75	8.00
Cash balance credit rate	5.00	5.00
Rate of compensation increase	2.00	2.00

In selecting the long-term rate of return on plan assets, the System considered the average rate of earnings expected on the funds invested or to be invested to provide for the benefits of the plan. This included considering the plan's asset allocation and the expected returns likely to be earned over the life of the plan, as well as the historical returns on the types of assets held and the current economic environment.

The loss and prior service credit amount expected to be recognized in net periodic benefit cost in 2017 are as follows:

Actuarial loss	\$ 8,457	
Prior service credit	(276)	
		<u>\$ 8,181</u>

The System funds the pension plan and no contributions are made by employees. The System funds the plan annually by making a contribution of at least the minimum amount required by applicable regulations and as recommended by the System's actuary. However, the System may also fund the plan in excess of the minimum required amount.

Cash contributions in subsequent years will depend on a number of factors including performance of plan assets. However, the System expects to fund \$16,000 in cash contributions to the plan for the 2017 plan year.

Benefit payments, which reflect expected future service, as appropriate, are expected to be paid as follows:

<u>Year Ended September 30</u>	<u>Pension Benefits</u>
2017	\$ 11,924
2018	12,703

5. Estimated Third-Party Payor Settlements

The System has agreements with third-party payors that provide for payments to the System at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

Medicare

Inpatient and outpatient services rendered to Medicare program beneficiaries are primarily paid at prospectively determined rates. These rates vary according to a patient classification system that is based on clinical diagnosis and other factors. In addition to this, the System is also reimbursed for medical education and other items which require cost settlement and retrospective review by the fiscal intermediary. Accordingly, the System files an annual cost report with the Medicare program after the completion of each fiscal year to report activity applicable to the Medicare program and to determine any final settlements.

The physician practices are reimbursed on a fee screen basis.

Medicaid Enhancement Tax and Disproportionate Share Payment

Under the State of New Hampshire's (the State) tax code, the State imposes a Medicaid Enhancement Tax (MET) equal to 5.45% of net patient service revenues in State fiscal year 2016 and 5.5% of net patient service revenues in State fiscal year 2015, with certain exclusions. The amount of tax incurred by the System for 2016 and 2015 was \$19,679 and \$12,800, respectively.

In the fall of 2010, in order to remain in compliance with stated federal regulations, the State of New Hampshire adopted a new approach related to Medicaid disproportionate share funding (DSH) retroactive to July 1, 2010. Unlike the former funding method, the State's approach led to a payment that was not directly based on, and did not equate to, the level of tax imposed. As a result, the legislation created some level of losses at certain New Hampshire hospitals, while other hospitals realized gains. DSH payments from the State are recorded within unrestricted revenue and other support and amounted to \$7,800 in 2016 and \$3,497 in 2015, net of reserves referenced below.

The Centers for Medicare and Medicaid Services (CMS) has completed audits of the State's program and the disproportionate share payments made by the State in 2011 and 2012, the first years that those payments reflected the amount of uncompensated care provided by New Hampshire hospitals. It is possible that subsequent years will also be audited by CMS. The System has recorded reserves to address its potential exposure based on the audit results to date.

Medicaid

Inpatient services rendered to Medicaid program beneficiaries are paid at prospectively determined rates per discharge. Outpatient services rendered to Medicaid program beneficiaries are reimbursed under fee schedules and cost reimbursement methodologies subject to various limitations or discounts. The Hospital is reimbursed at a tentative rate with final settlement determined after submission of annual cost reports by the Hospital and audits thereof by the Medicaid program.

The physician practices are reimbursed on a fee screen basis.

5. Estimated Third-Party Payor Settlements (Continued)

Other

The System has also entered into payment agreements with certain commercial insurance carriers and health maintenance organizations. The basis for payment to the System under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined rates.

The accrual for estimated third-party payor settlements reflected on the accompanying consolidated balance sheets represents the estimated net amounts to be paid under reimbursement contracts with the Centers for Medicare and Medicaid Services (Medicare), the New Hampshire Department of Welfare (Medicaid) and any commercial payors with settlement provision. Settlements for the Hospital have been finalized through 2013 for Medicare and Medicaid.

6. Long-Term Debt and Notes Payable (Continued)

In March 2011, \$49,795 of NHHEFA Revenue Bonds, Concord Hospital Issue, Series 2011, were issued to assist in the funding of a significant facility improvement project and pay off the Series 1996 Revenue Bonds. The project included expansion and renovation of various Hospital departments, infrastructure upgrades, and acquisition of capital equipment.

Substantially all the property and equipment relating to the aforementioned construction and renovation projects, as well as subsequent property and equipment additions thereto, and a mortgage lien on the facility, are pledged as collateral for the Series 2011 and 2013A and B Revenue Bonds. In addition, the gross receipts of the Hospital are pledged as collateral for the Series 2011 and 2013A and B Revenue Bonds. The most restrictive financial covenants require a 1.10 to 1.0 ratio of aggregate income available for debt service to total annual debt service and a day's cash on hand ratio of 75 days. The Hospital was in compliance with its debt covenants at September 30, 2016 and 2015.

The obligations of the Hospital under the Series 2013A and B and Series 2011 Revenue Bond Indentures are not guaranteed by any of the subsidiaries or affiliated entities.

Interest paid on long-term debt amounted to \$3,731 and \$3,934 for the years ended September 30, 2016 and 2015, respectively.

The aggregate principal payments on long-term debt for the next five fiscal years ending September 30 and thereafter are as follows:

7. Commitments and Contingencies

Malpractice Loss Contingencies

Prior to February 1, 2011, the System was insured against malpractice loss contingencies under claims-made insurance policies. A claims-made policy provides specific coverage for claims made during the policy period. The System maintained excess professional and general liability insurance policies to cover claims in excess of liability retention levels. The System has established reserves to cover professional liability exposures for incurred but unpaid or unreported claims. The amounts of the reserves total \$1,911 and \$2,033 at September 30, 2016 and 2015, respectively, and are reflected in the accompanying consolidated balance sheets within accrued pension and other long-term liabilities. The possibility exists, as a normal risk of doing business, that malpractice claims in excess of insurance coverage may be asserted against the System.

7. Commitments and Contingencies (Continued)

Effective February 1, 2011, the System insures its medical malpractice risks through a multiprovider captive insurance company under a claims-made insurance policy. Premiums paid are based upon actuarially determined amounts to adequately fund for expected losses. At September 30, 2016, there were no known malpractice claims outstanding for the System which, in the opinion of management, will be settled for amounts in excess of insurance coverage, nor were there any unasserted claims or incidents which required loss accruals. The captive retains and funds up to actuarial expected loss amounts, and obtains reinsurance at various attachment points for individual and aggregate claims in excess of funding in accordance with industry practices. At September 30, 2016, the System's interest in the captive represents approximately 58% of the captive. The System accounts for its investments in the captive under the equity method since control of the captive is shared equally between the participating hospitals. The System has recorded its interest in the captive's equity, totaling approximately \$3,100 and \$427 at September 30, 2016 and 2015, respectively, in other noncurrent assets on the accompanying consolidated balance sheets. Changes in the System's interest are included in nonoperating income on the accompanying consolidated statements of operations.

In accordance with ASU No. 2010-24, "Health Care Entities" (Topic 954): *Presentation of Insurance Claims and Related Insurance Recoveries*, at September 30, 2016 and 2015, the Hospital recorded a liability of approximately \$3,100 and \$7,700, respectively, related to estimated professional liability losses. At September 30, 2016 and 2015, the Hospital also recorded a receivable of \$3,100 and \$7,700, respectively, related to estimated recoveries under insurance coverage for recoveries of the potential losses. These amounts are included in accrued pension and other long-term liabilities and other assets, respectively, on the consolidated balance sheets.

Workers' Compensation

The Hospital maintains workers' compensation insurance under a self-insurance plan. The plan offers, among other provisions, certain specific and aggregate stop-loss coverage to protect the Hospital against excessive losses. The Hospital has employed independent actuaries to estimate the ultimate costs, if any, of the settlement of such claims. Accrued workers' compensation losses of \$2,447 and \$2,202 at September 30, 2016 and 2015, respectively, have been discounted at 3% (both years) and, in management's opinion, provide an adequate reserve for loss contingencies. A trustee held fund has been established as a reserve under the plan. Assets held in trust totaled \$4,024 and \$3,803 at September 30, 2016 and 2015, respectively, and is included in assets whose use is limited or restricted in the accompanying consolidated balance sheets.

Litigation

The System is involved in litigation and regulatory investigations arising in the ordinary course of business. After consultation with legal counsel, management estimates that these matters will be resolved without material adverse effect on the System's financial position, results of operations or cash flows.

Health Insurance

The System has a self-funded health insurance plan. The plan is administered by an insurance company which assists in determining the current funding requirements of participants under the terms of the plan and the liability for claims and assessments that would be payable at any given point in time. The System recognizes revenue for services provided to employees of the System during the year. The System is insured above a stop-loss amount of \$440 on individual claims. Estimated unpaid claims, and those claims incurred but not reported at September 30, 2016 and 2015, have been recorded as a liability of \$8,174 and \$6,508, respectively, and are reflected in the accompanying consolidated balance sheets within accounts payable and accrued expenses.

The System has various operating leases relative to its office and offsite locations. Future annual minimum lease payments under noncancellable lease agreements as of September 30, 2016 are as follows:

Electronic Health Records Incentive Payments

The CMS Electronic Health Records (EHR) incentive programs provide a financial incentive for the "meaningful use" of certified EHR technology to achieve health and efficiency goals. To qualify for incentive payments, eligible organizations must successfully demonstrate meaningful use of certified EHR technology through various stages defined by CMS. Revenue totaling \$99 and \$1,258 associated with these meaningful use attestations was recorded as other revenue for the years ended September 30, 2016 and 2015, respectively. In addition, a receivable amount of \$526 was recorded within prepaid expenses and other current assets at September 30, 2015. There were no outstanding receivables at September 30, 2016.

14. Fair Value Measurements

Fair value of a financial instrument is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the System uses various methods including market, income and cost approaches. Based on these approaches, the System often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The System utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the System is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 – Valuations for assets and liabilities traded in active exchange markets, such as the New York Stock Exchange. Level 1 also includes U.S. Treasury and federal agency securities and federal agency mortgage-backed securities, which are traded by dealers or brokers in active markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 – Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar assets or liabilities.

14. Fair Value Measurements (Continued)

Level 3 – Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

In determining the appropriate levels, the System performs a detailed analysis of the assets and liabilities. There have been no changes in the methodologies used at September 30, 2016 and 2015. In accordance with ASU 2015-07, certain investments that are measured using the net value per share practical expedient have not been classified in the fair value hierarchy.

The following presents the balances of assets measured at fair value on a recurring basis at September 30:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

14. Fair Value Measurements (Continued)

Investments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. As such, it is reasonably possible that changes in the fair value of investments will occur in the near term and that such changes could materially affect the amounts reported in the accompanying consolidated balance sheets and statements of operations.

A reconciliation of the fair value measurements using significant unobservable inputs (Level 3) is as follows for 2016 and 2015:

	<u>Trust Funds Administered by Others</u>
Balance at September 30, 2014	\$ 11,070
Net realized and unrealized losses	<u>(581)</u>
Balance at September 30, 2015	10,489
Net realized and unrealized gains	<u>118</u>
Balance at September 30, 2016	<u>\$ 10,607</u>

The table below sets forth additional disclosures for investment funds (other than mutual funds) valued based on net asset value to further understand the nature and risk of the investments by category:

Funds-of-funds	9,221	—	Annual	90 days

* Certain funds are subject to a 1 year lock period before quarterly redemption can occur.

** Subject to a 3 year rolling lock. This fund also has a special redemption right that allows the Hospital to liquidate 10% of the investment on March 1 of each year, with 30 days' notice.

Investment Strategies

Fixed Income Securities

The primary purpose of fixed income investments is to provide a highly predictable and dependable source of income, preserve capital, and reduce the volatility of the total portfolio and hedge against the risk of deflation or protracted economic contraction.

Marketable Equity and Other Securities

The primary purpose of marketable equity investments is to provide appreciation of principal and growth of income with the recognition that this requires the assumption of greater market volatility and risk of loss. The total marketable equity portion of the portfolio will be broadly diversified according to economic sector, industry, number of holdings and other characteristics including style and capitalization. The System may employ multiple equity investment managers, each of whom may have distinct investment styles. Accordingly, while each manager's portfolio may not be fully diversified, it is expected that the combined equity portfolio will be broadly diversified.

The System invests in other securities that are considered alternative investments that consist of limited partnership interests in investment funds, which, in turn, invest in diversified portfolios predominantly comprised of equity and fixed income securities, as well as options, futures contracts, and some other less liquid investments. Management has approved procedures pursuant to the methods in which the System values these investments at fair value, which ordinarily will be the amount equal to the pro-rata interest in the net assets of the limited partnership, as such value is supplied by, or on behalf of, each investment from time to time, usually monthly and/or quarterly by the investment manager.

System management is responsible for the fair value measurements of investments reported in the consolidated financial statements. Such amounts are generally determined using audited financial statements of the funds and/or recently settled transactions and is estimated using the net asset value per share of the fund. Because of inherent uncertainty of valuation of certain alternative investments, the estimate of the fund manager or general partner may differ from actual values, and differences could be significant. Management believes that reported fair values of its alternative investments at the balance sheet dates are reasonable.

Inflation-Protected Securities

The primary purpose of inflation-protected securities is to provide protection against the negative effects of inflation.

Fair Value of Other Financial Instruments

Other financial instruments consist of accounts and pledges receivable, accounts payable and accrued expenses, estimated third-party payor settlements, and long-term debt and notes payable. The fair value of all financial instruments other than long-term debt and notes payable approximates their relative book values as these financial instruments have short-term maturities or are recorded at amounts that approximate fair value. The fair value of the System's long-term debt and notes payable is estimated using discounted cash flow analyses, based on the System's current incremental borrowing rates for similar types of borrowing arrangements. The carrying value and fair value of the System's long-term debt and notes payable amounted to \$94,877 and \$112,762, respectively, at September 30, 2016, and \$103,355 and \$121,963, respectively, at September 30, 2015.
