WILLIAM CASS, P.E.
ASSISTANT COMMISSIONER

Bureau of Highway Design
April 14, 2015

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

The Department of Transportation wishes to place item on the Consent Calendar.

Authorize the Department of Transportation to amend PO #500033, with Vanasse Hangen Brustlin, Inc., Bedford, NH, and Watertown, MA, Vendor #174584, for the final design for the widening of the Spaulding Turnpike in the Town of Newington and City of Dover, by extending the completion date from June 30, 2015 to March 31, 2016, effective upon Governor and Council approval. The original Agreement was approved by Governor and Council on December 18, 2008, Item #77. Time extension only, no new funding.

EXPLANATION

The purpose of this engineering and environmental consultant services Agreement is for the preparation of the final design, contract plans, specifications, estimates and right-of-way plans for the reconstruction and widening of an approximately 3.5-mile section of the Spaulding Turnpike, beginning just north of the Gosling Road/Pease Boulevard Interchange (Exit 1) in the Town of Newington and continuing across the Little Bay Bridges to just south of the Dover Toll Plaza in the City of Dover. This project is currently included in the State's Ten-Year Transportation Improvement Plan and Turnpike Capital Program (Newington-Dover 11238).

This amendment to the Agreement is to extend the contract's previously-amended (October 29, 2014, Consent Calendar Item #5A) completion date to allow the consultant sufficient time to complete the final design of the northern segment of the Spaulding Turnpike improvements in the City of Dover and to continue coordination for construction support services. This time extension will facilitate incorporation of City of Dover municipal sewer and water work, presently under design, into the final contract documents. Of the amended (December 5, 2012, Item #76) \$16,370,536.12 amount for this contract, there is a balance of approximately \$1,203,760 remaining (100% Turnpike Funds). The construction of northern segment of this project in Dover is funded in the Turnpike Capital Program, with a planned advertising date of July 2016.

This amended Agreement has been approved by the Attorney General as to form and execution. Copies of the fully-executed amended Agreement are on file at the Secretary of State's Office and the Department of Administrative Services, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

It is respectfully requested that authority be given to amend this Agreement for consulting services as outlined above.

Sincerely,

William Cass, P.E.
Assistant Commissioner

Bedford, NH 03110

Dear Mr. Ashworth:

This letter amends Article I, Section K (Date of Completion) for the above-noted Agreement.
The original and amended dates are as follows:

Original Completion Date December 31, 2013
Amended to December 31, 2014
Amended to June 30, 2015
By this letter, amended to March 31, 2016

This no-additional-cost change order for the extension is as requested by your letter dated March 30, 2015.

This amendment becomes effective upon approval by the Governor and Council.

Sincerely,

[Handwritten signature of Keith A. Cota]

ASSISTANT COMMISSIONER

Bureau of Highway Design
September 29, 2014

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

The Department of Transportation wishes to place item on the Consent Calendar.

Authorize the Department of Transportation to amend PO #500033, with Vanasse Hangen Brustlin, Inc., Bedford, NH, and Watertown, MA, Vendor #174584, for the final design for the widening of the Spaulding Turnpike in the Town of Newington and City of Dover, by extending the completion date from December 31, 2014 to June 30, 2015, effective upon Governor and Council approval. The original Agreement was approved by Governor and Council on December 18, 2008, Item #77. Time extension only, no new funding.

EXPLANATION

The purpose of this engineering and environmental consultant services Agreement is for the preparation of the final design, contract plans, specifications, estimates and right-of-way plans for the reconstruction and widening of an approximately 3.5-mile section of the Spaulding Turnpike, beginning just north of the Gosling Road/Pease Boulevard Interchange (Exit 1) in the Town of Newington and continuing across the Little Bay Bridges to just south of the Dover Toll Plaza in the City of Dover. This project is currently included in the State's Ten-Year Transportation Improvement Plan and Turnpike Capital Program (Newington-Dover 11238).

This amendment to the Agreement is to extend the contract's previously-amended (December 4, 2013, Item #90) completion date to allow the consultant sufficient time to complete the final design of the northern segment of the Spaulding Turnpike improvements in the City of Dover and to continue coordination for construction support services. Of the amended (December 5, 2012, Item #76) \$16,370,536.12 amount for this contract, there is a balance of approximately \$1,965,500 remaining (100% Turnpike Funds). The construction of northern segment of this project in Dover is not currently funded in the Turnpike Capital Program, however, the design work is being completed in anticipation being able to advertise the work.

This amended Agreement has been approved by the Attorney General as to form and execution. Copies of the fully-executed amended Agreement are on file at the Secretary of State's Office and the Department of Administrative Services, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

It is respectfully requested that authority be given to amend this Agreement for consulting services as outlined above.

Sincerely,

Christopher D. Clement, Sr.
Commissioner

REQUESTED ACTION

Authorize the Department of Transportation to amend PO #500033 with Vanasse Hangen Brustlin, Inc., Bedford, NH and Watertown, MA, Vendor #40332, for the final design for the widening of the Spaulding Turnpike in the Town of Newington and City of Dover, by increasing the total amount payable by \$1,408,409.12 (from \$14,962,127.00 to \$16,370,536.12) for additional design services that were not anticipated in the original Agreement, effective upon Governor and Council approval through the contract's current completion date of December 31, 2013. 100% Turnpike Funds.

Funding is available as follows:

04-96-96-961017-7513	<u>FY 2013</u>
Spaulding Turnpike Expansion	
400-500870 Highway Contract Payments	\$1,408,409.12

EXPLANATION

On December 18, 2008, the Governor and Council authorized the subject engineering consulting services Agreement (Item No. 77; copy attached) in the amount of \$14,962,127.00, for the preparation of the final design, contract plans, specifications, estimates and right-of-way plans for the reconstruction and widening of an approximately 3.5-mile section of the Spaulding Turnpike, beginning just north of the Gosling Road/Pease Boulevard Interchange (Exit 1) in the Town of Newington and continuing across the Little Bay Bridges to just south of the Dover Toll Plaza in the City of Dover. This project is currently included in the State's Ten-Year Transportation Improvement Plan and Turnpike Capital Program (Newington-Dover 11238).

This proposed amendment to the Agreement is for additional highway design, bridge design, and environmental services associated with additional work efforts and out-of-scope design services to complete the development of the Little Bay Bridge rehabilitation (11238O) contract plans and the design for the Dover approach (11238Q). These work efforts include hydrodynamic modeling, an independent analysis of superstructure design, and construction stormwater analysis and design to meet current environmental requirements and expectations. The work also includes preparation of supplementary erosion control plans; extension of work on Arboretum Drive; ITS corridor design and incorporation; late revisions to contract breakout and construction sequencing; subsurface utility engineering and coordination; design modifications at several locations (sound walls, retaining walls, Boston Harbor Rd. intersection, etc.) based on additional geotechnical information and ongoing public participation; and additional project management assistance. Also, additional inspection efforts and the remaining uncompleted design and construction services (approximately \$600,000) for the General Sullivan Bridge

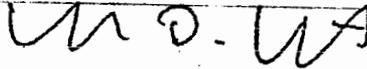

are being removed and reallocated to reduce the overall fee adjustment for the supplemental work (see attached summary). These design efforts for the rehabilitation of the General Sullivan Bridge will be pursued separately.

Vanasse Hangen Brustlin, Inc. has agreed to furnish the additional services for \$1,408,409.12. This amendment will increase the total amount payable under this Agreement from \$14,962,127.00 to \$16,370,536.12. The increase in fee as proposed is commensurate with the revised scope of work and the corresponding additional engineering and technical services to be furnished.

This amended Agreement has been approved by the Attorney General as to form and execution. Copies of the fully-executed amended Agreement are on file at the Secretary of State's Office and the Department of Administrative Services, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

It is respectfully requested that authority be given to amend this Agreement for consulting services as outlined above.

Sincerely,

A handwritten signature in black ink, appearing to read "C. D. Clement, Sr.", written over a horizontal dashed line.

Christopher D. Clement, Sr.
Commissioner

THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION
Bureau of Highway Design

GEORGE N. CAMPBELL, JR.
COMMISSIONER

JEFF BRILLHART, P.E.
ASSISTANT COMMISSIONER

November 4, 2008

His Excellency, Governor John H. Lynch
and the Honorable Council
State House
Concord, New Hampshire 03301

Requested Action

Authorize the Department of Transportation to enter into an Agreement with Vanasse Hangen Brustlin, Inc., Bedford, NH and Watertown, MA, Vendor #40332, in the amount of \$14,962,127.00, for the final design for the widening of the Spaulding Turnpike in the Town of Newington and City of Dover, effective upon Governor and Council approval, through December 31, 2013. 100% Turnpike Funds.

Funding is available in account, Spaulding Turnpike Expansion, as follows with the authority to adjust encumbrances in each of the State fiscal years through the Budget Office if needed and justified:

Table with 4 columns: Account Number, Description, FY 2009, FY 2010, FY 2011, FY 2012, FY 2013. Row 1: 017-096-7513-400-0104 Spaulding Tpk. Exp. \$3,100,000.00 \$3,400,000.00. Row 2: \$3,400,000.00 \$3,400,000.00. Row 3: \$1,662,127.00

EXPLANATION

The Department requires engineering and environmental consultant services for the preparation of the final design, contract plans, specifications, estimates and right-of-way plans for the reconstruction and widening of an approximately 3.5-mile section of the Spaulding Turnpike, beginning just north of the Gosling Road/Pease Boulevard Interchange (Exit 1) in the Town of Newington and continuing across the Little Bay Bridges to just south of the Dover Toll Plaza in the City of Dover. This project is currently included in the State's Ten-Year Transportation Improvement Plan and Turnpike Capital Program (Newington-Dover 11238).

The project design effort involves reconstructing this section of the Spaulding Turnpike from the existing four-lane facility to eight lanes (three general purpose lanes plus an auxiliary lane in each direction between Exits 3 and 6); reconstructing and widening the Little Bay Bridges on new alignment to an eight-lane facility; rehabilitating the General Sullivan Bridge to function as a pedestrian/bicycle/recreational facility; discontinuing the Exit 2 ramps (Fox Run Road); reconstructing Exit 3 (Woodbury Avenue) to a full service interchange that includes a new northern access into the Pease International Tradeport; modifying the Exit 4 ramps to maintain full access at Nimble Hill Road and Shattuck Way; discontinuing the Exit 5 ramps (Hilton Drive) and constructing a new local two-way Connector Road from Wentworth Terrace and Hilton Park under the Turnpike to connect with Dover Point Road; and reconstructing Exit 6 (US 4 and Dover Point Road) to a full service modified diamond-type interchange.

The final design will also include seismic retrofit and design of all bridges except the General Sullivan Bridge; utility coordination; environmental design elements including wetland mitigation, stream restoration, archaeological investigations, hazardous material investigations, pollutant loading analysis, and stormwater treatment and management; Incident Management and Intelligent Transportation Systems integration; traffic modeling and traffic signal coordination; soundwall design; aesthetic and landscaping considerations; constructability and traffic management considerations; provisions for future elevated rail into Pease Tradeport; coordination and support for a value engineering study; continued project website development and management; and construction support services.

The consultant selection process employed by the Department for this qualifications-based contract is in accordance with RSAs 21-I:22, 21-I:22-c and 21-I:22-d, all applicable Federal laws and the Department's "Consultant Selection and Service Agreement Procedures" dated December 1999. The Department's Consultant Selection Committee is a standing committee that meets regularly to administer the process and make determinations. The Committee is comprised of the Assistant Director of Project Development (chair), the Chief Project Manager, the Administrators of the Bureaus of Highway Design, Bridge Design, Environment, and Materials and Research, and the Municipal Highways Engineer.

The consultant selection process for this qualifications-based contract was initiated by a solicitation for consultant services for the final design for the Newington-Dover 11238 project. The assignment was listed as a "Possible Action Project" on the Department's website on October 12, 2007, asking for letters of interest from qualified firms. From the list of firms that submitted letters of interest, the Committee prepared a long and then short list of Consultants on December 13, 2007 for consideration and approval by the Assistant Commissioner. Upon receipt of that approval, three shortlisted firms were notified on January 4, 2008 through a technical "Request For Proposal" (RFP). Interviews with the three shortlisted firms were conducted on March 12, 2008. Committee members individually rated the firms on March 13, 2008 using a written ballot to score each firm/team on the basis of comprehension of the assignment, clarity of the proposal and interview, capacity to perform in a timely manner, quality and experience of the project manager and the team, and overall suitability for the assignment. The individual rankings were then totaled to provide an overall ranking of the three firms, and the Committee's ranking was submitted to the Assistant Commissioner for consideration and approval. Upon receipt of that approval, short listed firms were notified of the results and the highest-ranking firm was asked to submit a fee proposal for negotiations.

The long list of five (5) consultant firms/teams that were considered for this assignment, with the three (3) short-listed firms/teams shown in bold, is as follows:

<u>Consultant Firm/Team</u>	<u>Office Location</u>
Fay, Spofford & Thorndike LLC/ T.Y. Lin International	Bedford, NH
Maguire Group Inc./PB Americas, Inc./ CLD Consulting Engineers, Inc./DMJM Harris	Portsmouth, NH
McFarland-Johnson, Inc./HNTB Corporation/ Carol R. Johnson Associates	Concord, NH
Parsons Transportation Group/ Jacobs Edwards & Kelcey/GM2 Associates Inc./ The Smart Associates Inc./ Public Archaeology Laboratory, Inc.	Concord, NH
Vanasse Hangen Brustlin, Inc./ Clough Harbour & Associates LLP/Ammann & Whitney	Bedford, NH

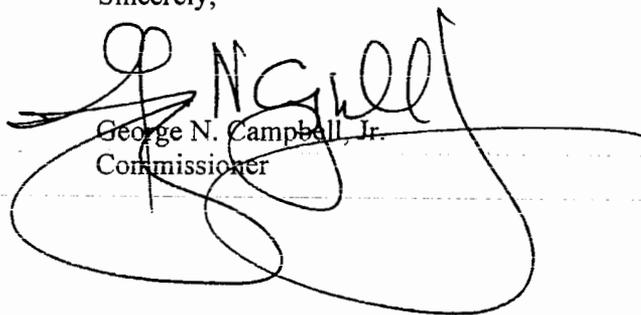

The firm of Vanasse Hangen Brustlin, Inc. has been recommended for this contract. This firm has an excellent reputation and has demonstrated their capability to perform the necessary engineering and technical services for this assignment, having satisfactorily completed both the feasibility study for future transportation improvements and the preliminary design services for this project. Background information on this firm is attached.

Vanasse Hangen Brustlin, Inc. has agreed to furnish the required services for a total fee not to exceed \$14,962,127.00. This is a reasonable fee and is commensurate with the complexity of the project and the scope of engineering and technical services to be furnished.

This Agreement has been approved by the Attorney General as to form and execution. The Department has verified that the necessary funds are available. Copies of the fully-executed Agreement are on file at the Secretary of State's Office and the Department of Administrative Services, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

It is respectfully requested that authority be given to enter into an Agreement for consulting services as outlined above.

Sincerely,

George N. Campbell, Jr.
Commissioner
