#### EXPLANATION

On November 22, 2021, the Governor and Executive Council approved the funding for the Local Restaurant Infrastructure Investment Program (Item #60). Local restaurants continue to bear a heavy burden due to the COVID-19 pandemic. Challenges include finding and retaining workforce, supply chain disruptions, and changes in consumer behavior and expectations.

The State of New Hampshire sought to continue to provide opportunities for long-term investments among smaller/independently owned New Hampshire restaurants, as well as help with challenges created by workforce shortages, consumer behavior, and overall restaurant safety.

Some examples of potentially eligible expenses for reimbursement include purchases between November 1, 2021, and July 13, 2022, for technology hardware and software to improve or enable social distancing or to address workforce shortages, infrastructure to add or upgrade drive-up or take-out capacity, and new or additional HVAC equipment that will improve indoor air quality for staff and customers.

Application review occurs in monthly rounds for the Local Restaurant Infrastructure Investment Program. Requests for award authorizations for those over \$10,000 will continue to be submitted to the Governor and Executive Council on a rolling basis in batches, similar to the Locality Equipment Purchase Program. Such "batch" approval requests will occur from now through final review after the application deadline. The application period for the program closed on Wednesday, July 13, 2022.

Upon approval of this request, the terms and conditions signed by each applicant become the grant agreement under which an award is approved and subsequently issued or paid.

Some awardees did not yet have vendor codes set up at the time of this request or still needed to provide some supportive documentation. As a result, they may not have a vendor number listed in the table above or have been issued an award notice pending necessary documentation. To avoid delay in payments to these businesses after their application has been reviewed and approved, GOFERR, with the assistance of the Department of Administrative Services, is working with those restaurants to have a vendor code set up. However, even if authorized by Governor and Executive Council, actual payment will not be issued until a valid vendor code or necessary documentation is provided by the awardee.

Awards issued in third batch total \$203,440, leaving \$2,451,372.42 available for approval and allocation. Within the total awards issued by GOFERR in this third batch, awards equaling \$195,445 are being submitted for approval by Governor and Executive Council as part of this request because they exceed the \$10,000 per entity threshold. Attached you will find a cumulative list of awards issued, including those

awards issued to entities below that threshold and those approved at the July 12, 2022, and July 27, 2022, Governor & Executive Council meeting.

In the event that Federal Funds become no longer available, General Funds will not be requested to support this:program.

Respectfully submitted,

Taylor Caswell Executive Director, GOFERR
