REQUESTED ACTION

Authorize the Department of Health and Human Services, Office of Human Services, Bureau of Homeless and Housing Services to amend and extend an existing **sole source** agreement with Harbor Homes, Inc., 45 High Street Nashua, NH 03060 (Vendor Code 155358-B001) for the operation and maintenance of the New Hampshire Statewide Homeless Management Information System by increasing the contract amount by \$161,472 from \$387,418 to \$548,890, and extending the completion date from June 30, 2017 to July 31, 2017, effective July 1, 2016 or the date of Governor and Executive Council approval, whichever is later. The Governor and Executive Council approved the original agreement (the "Contract") on July 22, 2015 (Item #18). 100% Federal Funds.

Funds are available in the following accounts in State Fiscal Year 2016, and anticipated to be available in State Fiscal Years 2017 and 2018, with the ability to adjust encumbrances between State Fiscal Years through the Budget Office, without Governor and Executive Council approval, if needed and justified.

EXPLANATION

The purpose of this **sole source** request is to add funding to support the operation of the New Hampshire Homeless Information System through July 31, 2017. This program has proven to successfully meet the data entry and reporting needs of all New Hampshire programs engaged in Homelessness Prevention and Rapid Re-Housing actions as defined in the U.S. Department of Housing and Urban Development Emergency Solutions Grants Program and Consolidated Plan Conforming Amendments issued December 5, 2011.

The original agreement was **sole source** because the U.S. Department of Housing and Urban Development requires Homeless Management Information System grant funds to be utilized exclusively through a single, established, State Sponsor Agency capable of maintaining consistent statewide services. The knowledge, training, and licensing required to perform this role are so specialized that only this vendor is capable of serving as the Sponsor Agency.

The New Hampshire Department of Information Technology was contacted about this contract extension. A new Department of Information Technology Approval letter is not needed because there are no changes to the underlying contract terms aside from increasing the contract price limitation and extending the contract expiration date. The contract expiration date is extended by one month to ensure compatibility with multiple federal grant award schedules that fund this agreement.

The web-based Homeless Management Information System is regulated through policies and procedures that all participating shelters and programs are required to follow. The policies and procedures define responsibilities by all system users in actions that include system security, local system administration, and client confidentiality. This is the only Homeless Management Information System project funded by the U.S. Department of Housing and Urban Development in New Hampshire and is consistent with the centralized, statewide architecture developed and adopted by the New Hampshire Continuums in 2002 with the U.S. Department of Housing and Urban Development's technical assistance.

Alternatives to contracting these services could include utilizing funds from local community organizations such as emergency homeless shelters to support this system. The result of this kind of approach would be a decentralized data system that could only be supported in regions that can accrue the necessary local funds for software and services. Another option could be building a system such as this in-house using New Hampshire Department of Information Technology staff. When considered, it was determined that the New Hampshire Department of Information Technology lacked the resources to create such a system.

The web-based Homeless Management Information System provides value to the Department through improved capacity to measure the aspects of homelessness in New Hampshire, and improving the ability for local programs that assist people who are homeless to maintain eligibility for continued federal funding. Collateral project goals are to use Homeless Management Information System software to improve homeless shelter resource sharing, automated eligibility determinations, and linkages to mainstream assistance programs for New Hampshire homeless clients. An additional benefit is the improved coordination of essential services and supports that address and alleviate homelessness.

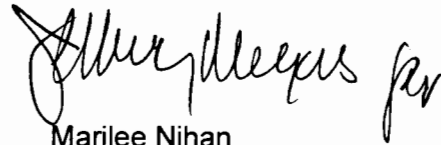

Should the Governor and Executive Council determine not to approve this request, New Hampshire homeless shelters and permanent and transitional supportive housing and outreach programs, which currently receive federal funding, will not be able to utilize the federally mandated Homeless Management Information System and, therefore, will no longer be eligible to receive that federal funding. This would eliminate the operational capacity of many community programs supporting homeless individuals and families. Using State Fiscal Year 2015 data on persons served, approximately 335 individuals would not receive transitional housing services; 816 individuals would not receive permanent housing services; 4,288 homeless individuals would not receive outreach services; 4,301 individuals, including 767 children, would have severely limited access to emergency shelter; and countless full time jobs would be eliminated.

Source of Funds: 100% Federal.

Area Served: Statewide.

In the event that federal funds become no longer available, general funds will not be requested to support this program.

Respectfully submitted,

Marilee Nihan
Deputy Commissioner

Report on the Financial Statements

We have audited the accompanying financial statements of Harbor Homes, Inc., which comprise the statement of financial position as of June 30, 2015, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Harbor Homes, Inc. as of June 30, 2015, and the changes in net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited Harbor Homes, Inc.'s fiscal year 2014 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated January 15, 2015. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2014 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2015 on our consideration of the Harbor Homes, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Harbor Homes Inc.'s internal control over financial reporting and compliance.

HARBOR HOMES, INC.

Notes to the Financial Statements

1. **Organization:**

Harbor Homes, Inc. (the Organization) is a nonprofit organization that creates and provides quality residential and supportive services for persons (and their families) challenged by mental illness and/or homelessness in the State of New Hampshire. Programs include mainstream housing, permanent housing, transitional housing, and emergency shelter, as well as comprehensive support services that include peer support programs, job training, a paid employment program, and social and educational activities.

In addition to housing and supportive services, the Organization runs a health care clinic that is a Federally Qualified Health Center (FQHC) offering primary medical services to the homeless and/or low-income individuals.

2. **Summary of Significant Accounting Policies:**

The following is a summary of significant accounting policies of the Organization used in preparing and presenting the accompanying financial statements.

Accounting for Contributions and Financial Statement Presentation

The Organization follows *Accounting for Contributions Received and Contributions Made* and *Financial Statements of Not-for-Profit Organizations* as required by the Financial Accounting Standards Board Accounting Standards Codification (FASB ASC). Under these guidelines, the Organization is required to distinguish between contributions that increase permanently restricted net assets, temporarily restricted net assets, and unrestricted net assets. It also requires recognition of contributions, including contributed services, meeting certain criteria at fair values. These reporting standards establish standards for financial statements of not-for-profit organizations and require a Statement of Financial Position, a Statement of Activities, a Statement of Functional Expenses, and a Statement of Cash Flows.

Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting. Under this basis, revenues, other than contributions, and expenses are reported when incurred, without regard to the date of receipt or payment of cash. Contributions are reported in accordance with FASB ASC *Accounting for Contributions Received and Contributions Made*.

Restricted and Unrestricted Revenue

Contributions that are restricted by the donor are reported as increases in unrestricted net assets if the restrictions expire (that is, when a stipulated time restriction ends or purpose restriction is accomplished) in the reporting period in which the revenue is recognized. All other donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets, depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the Statement of Activities as net assets released from restrictions.

Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the Organization considers all highly liquid investments with an initial maturity of three months or less to be cash equivalents.

Investments

The Organization carries investments in marketable securities with readily determinable fair values and all investments in debt securities at their fair values in the Statement of Financial Position. Unrealized gains and losses are included in the change in net assets in the accompanying Statement of Activities.

Allowance for Doubtful Accounts

The adequacy of the allowance for doubtful accounts for receivables is reviewed on an ongoing basis by the Organization's management and adjusted as required through the provision for doubtful accounts (bad debt expense). In determining the amount required in the allowance, management has taken into account a variety of factors.

Patient Services Receivable, Net

Patient services receivable result from the health care services provided by the Organization's federally qualified health care center. Additions to the allowance for doubtful accounts result from the provision for bad debts. Accounts written off as uncollectible are deducted from the allowance for doubtful accounts. The amount of the allowance for doubtful accounts is based upon management's assessment of historical and expected net collections, business and economic conditions, trends in Medicare and Medicaid health care coverage, and other indicators.

For receivables associated with services provided to patients who have third-party coverage, which includes patients with deductible and copayment balances due for which third-party coverage exists for part of the bill, the

Organization analyzes contractually due amounts and provides an allowance for doubtful collections and a provision for doubtful collections, if necessary. For receivables associated with self-pay patients, the Organization records a significant provision for doubtful collections in the period of service on the basis of its past experience, which indicates that many patients are unable to pay the portion of their bill for which they are financially responsible. The difference between the billed rates and the amounts actually collected after all reasonable collections efforts have been exhausted is charged off against the allowance for doubtful collections. The Organization has not changed its financial assistance policy in 2015. The Organization does not maintain a material allowance for doubtful collections from third-party payors, nor did it have significant write-offs from third-party payors.

Property and Equipment

Property and equipment is recorded at cost or, if donated, at estimated fair market value at the date of donation. Major additions and improvements are capitalized, while ordinary maintenance and repairs are charged to expense. Depreciation is provided using the straight-line method over the estimated useful lives of the related assets. Assets not in service are not depreciated.

Patient Service Revenues, Net

Patient service revenues, net is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered. Self-pay revenue is recorded at published charges with charitable allowances deducted to arrive at net self-pay revenue. All other patient services revenue is recorded at published charges with contractual allowances deducted to arrive at patient services, net. Reimbursement rates are subject to revisions under the provisions of reimbursement regulations. Adjustments for such revisions are recognized in the fiscal year incurred. Included in third-party receivables are the outstanding uncompensated care pool payments.

Charity Care

The Organization provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Since the Organization does not pursue collection of amounts determined to qualify as charity care, these amounts are reported as deductions from revenue (see Note 23).

Functional Expenses

The costs of providing various programs and activities have been summarized on a functional basis in the Statement of Activities and in the Statement of Functional Expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Donated Services

The Organization receives donated services from a variety of unpaid volunteers assisting the Organization in its programs. No amounts have been recognized in the accompanying statement of activities because the criteria for recognition of such volunteer effort under generally accepted accounting principles have not been satisfied.

Contributions of donated services that create or enhance nonfinancial assets or that require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are recorded at their fair values in the period received.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual amounts could differ from those estimates.

Tax Status

Harbor Homes, Inc. is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3). The Organization has also been classified as an entity that is not a private foundation within the meaning of Section 509(a) and qualifies for deductible contributions.

The Organization follows FASB ASC 740-10, *Accounting for Uncertainty in Income Taxes*, which clarifies the accounting for uncertainty in income taxes and prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. FASB ASC 740-10 did not have a material impact on the Organization's financial statements.

The Organization's Federal Form 990 (Return of Organization Exempt From Income Tax) is subject to examination by the IRS, generally for three years after they were filed.

The Organization recognizes interest related to unrecognized tax benefits in interest expense and penalties that are included within reported expenses. During the year ended June 30, 2015, the Organization had no interest or penalties accrued related to unrecognized tax benefits.

These services are billed to the related organizations and reported as revenues in the accompanying financial statements.

The Organization currently has several contracts with Healthy at Home, Inc. to receive various skilled nursing services, CNA services and companion services for its clients. All of the contracts are based on per diem fees, ranging from \$16 per hour for companion services to \$100 per visit for skilled nursing services.

20. Deferred Compensation Plans:

The Organization maintains a 403(b) retirement plan. Upon meeting the eligibility criteria, employees can contribute a portion of their wages to the plan. The Organization matches a percentage of the employee contribution based on years of service. Total matching contributions paid by the Organization for the year ended June 30, 2015 were \$192,367.

The Organization maintains a deferred compensation plan for certain employees and directors (the "SA Plan"). The deferred compensation liability under the SA Plan was \$91,937 as of June 30, 2015 and was recorded as a long-term liability. This liability is offset by a corresponding long-term asset in the same amount.

21. Concentration of Risk:

The Organization receives 34%, 19%, 16% and 10% of its revenue from the Department of Health and Human Services, the Department of Housing and Urban Development, the Department of Veterans Affairs, and Medicaid, respectively.

22. Fair Value Measurements:

FASB ASC, *Fair Value Measurements*, provides guidance for using fair value to measure assets and liabilities. *Fair Value Measurements* applies whenever other standards require or permit assets or liabilities to be

measured at their fair market value. The standard does not expand the use of fair value in any new circumstances. Under *Fair Value Measurements*, fair value refers to the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. *Fair Value Measurements* clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions.

Under *Fair Value Measurements*, the Organization categorizes its fair value estimates based on a hierarchical framework associated with three levels of price transparency utilized in measuring financial instruments at fair value. Classification is based on the lowest level of input that is significant to the fair value of the instrument. The three levels are as follows:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. The types of financial instruments included in Level 1 are highly liquid instruments with quoted prices;
- Level 2 - Inputs from active markets, other than quoted prices for identical instruments, are used to model fair value. Significant inputs are directly observable from active markets for substantially the full term of the asset or liability being valued; and
- Level 3 - Pricing inputs significant to the valuation are unobservable. Inputs are developed based on the best information available; however, significant judgment is required by management in developing the inputs.

The estimated fair value of the Organization's financial instruments is presented in the following table:

	<u>Carrying Value</u>	<u>Fair Value</u>	<u>Level One</u>	<u>Level Two</u>	<u>Level Three</u>
Investments	\$ 10,299	\$ 10,299	\$ 10,299	\$ -	\$ -

23. Patient Service Revenue, Net:

The Organization recognizes patient services revenue associated with services provided to patients who have Medicaid, Medicare, third-party payor, and managed care plans coverage on the basis of contractual rates for services rendered. For uninsured self-pay patients that do not qualify for charity care, the Organization recognizes revenue on the basis of its standard rates for services provided or on the basis of discounted rates if negotiated or provided by the Organization's policy. Charity care services are computed using a sliding fee scale based on patient income and family size. On the basis of historical experience, a significant portion of the Organization's uninsured patients will be unable or unwilling to pay for the services provided. Thus, the Organization records a provision for bad debts related to uninsured patients in the period the services are provided.

The Organization accepts patients regardless of their ability to pay. A patient is classified as a charity patient by reference to certain established policies, which define charity services as those costs for which no payment is antici-

pated. The Organization uses federally established poverty guidelines to assess the level of discount provided to the patient. The Organization is required to provide a full discount to patients with annual incomes at or below 100% of the poverty guidelines but may charge a nominal copay. If the patient is unable to pay the copay, the amount is written off to charity care. All patients are charged in accordance with a sliding fee discount program based on household size and household income. No discounts may be provided to patients with incomes over 200% of federal poverty guidelines.

Patient services revenue, net of provision for bad debts and contractual allowances and discounts, consists of the following:

	2015			2014	
	Gross Charges	Contractual Allowances	Charitable Care Allowances	Net Patient Service Revenue	Net Patient Service Revenue

Provision for bad debts				(187,064)	(166,783)
Total				\$ 893,197	\$ 227,575

24. Rent Expense:

The Organization has multiple grants requiring the payment of rents on behalf of the consumer. Rent expense totaling approximately \$3.8m is comprised of leases held in the Organization's name and the responsibility of the Organization, leases in consumers' names, or rents paid as client assistance.

25. Contingencies:

The health care industry is subject to numerous laws and regulations of federal, state, and local governments. Compliance with these laws and regulations is subject to future government review and interpretation, as well as regulatory actions unknown or unasserted at this time. Government activity continues to increase with respect to investigations and allegations concerning possible violations by healthcare providers of fraud and abuse statutes and regulations, which could result in the imposition of significant fines and penalties, as well as significant repayments for patient service previously billed. Management is not aware of any material incidents of noncompliance; however, the possible future financial effects of this matter on the Organization, if any, are not presently determinable.

26. Subsequent Events:

In accordance with the provisions set forth by FASB ASC, *Subsequent Events*, events and transactions from July 1, 2015 through December 10, 2015, the date the financial statements were available to be issued, have been evaluated by management for disclosure.

Explanation

This request is **sole source** because the U.S. Department of Housing and Urban Development requires Homeless Management Information System grant funds to be utilized through a single Sponsor Agency capable of maintaining consistent statewide services. The knowledge, training, and licensing required to perform this role are so specialized that only this vendor is capable of serving as the Sponsor Agency.

This request is **retroactive** because of a delay associated with the inclusion of three additional funding streams in this agreement with the State's Homeless Management Information System Sponsor Agency. This contract was previously supported by a single funding source, and now contains four separate funding streams.

The purpose of this request is to operate and maintain the New Hampshire Statewide Homeless Management Information System where specialized data is entered from various agencies regarding the homeless individuals and families served statewide.

This agreement provides General Funds from the State Grant in Aid Program and from the New Hampshire Bureau of Behavioral Health which administers the Projects for Assistance in Transition from Homelessness Grant Program. On May 27, 2015, the Substance Abuse and Mental Health Services Administration outlined expectations in a letter to the Department requiring Statewide Homeless Management Information System tracking of individuals and families served by the Projects for Assistance in Transition from Homelessness Program. A one-time expenditure of General Funds from the Bureau of Behavioral Health is being used to support this requirement which must be fully implemented by June 30, 2016. This includes all agency licenses, database development, and training of all Projects for Assistance in Transition from Homelessness outreach workers. The Bureau of Homeless and Housing Services anticipates this work will require the current Sponsor Agency, Harbor Homes, Inc., approximately one year to complete.

Federal Funding is provided by the U.S. Department of Housing and Urban Development, Continuum of Care and Emergency Solutions Grant Programs to the New Hampshire Department of Health and Human Services, Bureau of Homeless and Housing Services. The prioritization of housing

and service needs for New Hampshire's homeless population is coordinated through New Hampshire's Continuum of Care Program which is comprised of three Continua (Manchester, Nashua, and Balance of State), and which includes broad participation of community stakeholders.

These grant funds will improve the operational capacity of the New Hampshire Homeless Information System and meet the data entry and reporting needs of all New Hampshire Homeless Service programs engaged in Homeless Assistance activities as defined in the U.S. Department of Housing and Urban Development Emergency Solutions Grants Program and Consolidated Plan Conforming Amendments 24 CFR parts 91 and 576 and Homeless Assistance and Rapid Transition to Housing: Continuum of Care Program 24 CFR Part 578.

The Homeless Management Information System program is a Federal mandate set forth in the Conference Report (H.R. Report 106-988) in the Federal Fiscal Year 2001 U.S. Department of Housing and Urban Development Appropriations Act and is described in the July 30, 2004 Federal Register (Homeless Management Information Systems; Data and Technical Standards Final Notice). The grants fund the acquisition, implementation, training, and operation of a web-based Homeless Management Information System by Harbor Homes, Inc., a nonprofit organization.

This system is regulated through policies and procedures that all participating shelters and programs are required to follow. The policies and procedures define responsibilities by all system users in actions that include system security, local system administration, and client confidentiality. This is the only Homeless Management Information System project funded by the U.S. Department of Housing and Urban Development in New Hampshire and is consistent with the centralized, statewide architecture developed and adopted by the New Hampshire Continuums in 2002 with the U.S. Department of Housing and Urban Development's technical assistance.

Alternatives and Benefits

Alternatives to contracting these services include utilizing funds from local community organizations such as emergency homeless shelters to support this system. This would result in a decentralized data system that could only be supported in regions that can accrue the necessary local funds for software and services. In addition, an option to build this system in-house using New Hampshire Department of Information Technology staff was considered, however, it was determined that the New Hampshire Department of Information Technology lacked the resources for this project.

Benefits to the Department include improved capacity to measure the aspects of homelessness in New Hampshire, and improving the ability for local programs that assist people who are homeless to maintain eligibility for continued federal funding. Collateral project goals are to use Homeless Management Information System software to improve homeless shelter resource sharing, automated eligibility determinations, and linkages to mainstream assistance programs for New Hampshire homeless clients. An additional benefit is the improved coordination of essential services and supports that address and alleviate homelessness.

Should the Governor and Executive Council determine not to approve this request, New Hampshire homeless shelters and permanent and transitional supportive housing and outreach programs, which currently receive federal funding, will not be able to utilize the federally mandated Homeless Management Information System and, therefore, will no longer be eligible to receive that federal funding. This would eliminate the operational capacity of many community programs supporting homeless individuals and families. Using State Fiscal Year 2014 data on persons served, approximately 549 individuals would not receive transitional housing services; 886 individuals would not receive permanent housing services; 3,573 homeless individuals would not receive outreach services; 4,760 individuals, including 855 children, would have severely limited access to emergency shelter; and countless full time jobs would be eliminated.

Area Served: Statewide.

In the event that federal funds become no longer available, general funds will not be requested to support this program.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.
