REQUESTED ACTION

Authorize the Department of Transportation to enter into a contract with Brox Industries, Inc. (Vendor 177569) of Dracut, MA on the basis of a low bid of \$3,539,442.62 for resurfacing of approximately 33.0 miles of mainline on the Blue Star and Spaulding Turnpike as well as the Seabrook Welcome Center, from the date of Governor and Council approval through September 29, 2017 unless extended by the Department in accordance with the Standard Specifications. 100% Turnpike funds.

Funding is available as follows:	<u>FY 2017</u>	<u>FY 2018</u>
04-96-96-961017-7025	\$250,000.00	\$3,289,442.62
Turnpike Renewal & Replacement

EXPLANATION

This project is included in the State's Ten Year Transportation Improvement Plan and involves annual turnpike resurfacing as part of the annual Turnpike Renewal and Replacement Program. This project involves pavement resurfacing of approximately 33.1 miles of the mainline on the Blue Star and the Spaulding Turnpike as well as the Seabrook Welcome Center. The resurfacing sections are as follows:

Section T-01: I-95 NB and SB in Seabrook to Hampton.

- I-95 NB& SB From mile marker 0.0 to mile marker 3.4 (southern limit of Taylor River 13408 project).

Section T-02: Seabrook Welcome Center.

- Resurfacing of the Seabrook Welcome Center front and rear parking areas and the on/off ramps.

Section T-03: Spaulding Turnpike Rochester.

- Repaving of the southbound middle travel lane from mile marker 19.2 to 18.3.

Section T-03A: Spaulding Turnpike Rochester.

- Repaving of the Exit 12 SB Off/On Ramps.

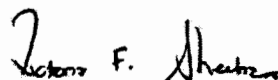

The Blue Star Turnpike section was last paved in 2007, Seabrook Welcome Center in 2000, and the Rochester sections in 2012. The Rochester sections have deteriorated quicker than anticipated due to the high amounts of truck traffic localized to those locations. The proposed resurfacing treatments will address the current deterioration and preserve pavements extending the life of this asset avoiding more costly repair in the future.

Although the bid costs exceeded the Department's estimate by 15%, the low bid is felt to be reasonable for the work involved as there were 2 bids submitted for this project that were within 0.6% of each other. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Victoria F. Sheehan
Commissioner
