EXPLANATION

Per Chapter 228:1, II, D, 4, Laws of 2017 for the Supreme Court Building – New Roof, Insulation, and Dome Repair, and Chapter 228:1, II, A, 2 Laws of 2017 for the Statewide Energy Efficiency Improvements Projects. This project will install insulation in attics within the State Supreme Court building, including insulation repair for some existing ductwork. Included is the removal and disposal of existing asbestos imitation slate roof surface. Work also includes installation of new ventilated deck system, new imitation slate roof surface, repair to the cupola, and re-gilding of the cupola dome.

The contractor has been pre-qualified by the Department of Transportation. The contract has been approved by the Attorney General as to form and execution, and the Department of Administrative Services has certified that the necessary funds are available. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Services, Division of Public Works Design and Construction.

Attached please find a copy of the tabulation of bids for this project along with the contract supplemental information sheet.

Respectfully submitted,

Charles M. Arlinghaus
Commissioner

CONTRACT SUPPLEMENTAL INFORMATION SHEET

PROJECT: DPW Project No. 81004, Contract B – Supreme Court Roof, Concord, New Hampshire

DESCRIPTION: This project includes:

1. Insulation per the drawings in attics within the State Supreme Court building, including insulation repair for some existing ductwork.
2. Removal and disposal of existing asbestos imitation slate roof surface.
3. Installation of new ventilated deck system.
4. Installation of new imitation slate roof surface.
5. Repair of cupola
6. Re-gilding of cupola dome.

EXPLANATION: This project is intended to resolve the ice damming issues at the State Supreme Court Building based on the most recent study recommendations. Those recommendations include use of a ventilated deck system and spray foam insulation to create warm attics. To install the ventilated decking, the existing out of warranty, greatly degraded asbestos imitation slate roofing must be removed and replaced. The result is that the roofs, cupola, dome and icing issues will finally be resolved at the State Supreme Court Building.

OVER ESTIMATE
EXPLANATION:

This project has special considerations for: Security, Time Constraints, Limited access to the work. All of these factors have increased the price of the work.

Security: Requirements for security clearances to work on Supreme Court premises take additional time and limit the labor pool.

Time constraints: Schedule is shortened because of Court schedule. Schedule is also limited because spray

foam work must occur off hours for safety (fumes) reasons.

Work Access: Attics are tight and space is restricted making work difficult. Access to attics is also limited making access difficult for materials and labor.

In addition, we only had two bidders and the bids were inconsistent and high. We believe that this is because the construction market is extremely busy currently and because this is a more complicated and difficult job (due to schedule and limited access, construction complexity) it is less desirable. The pricing is therefore inflated to make the project worth their while.
