February 20, 2020

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, NH 03301

REQUESTED ACTION

Authorize the Department of Health and Human Services, New Hampshire Hospital to make a one-time **retroactive** payment to the National Association of State Mental Health Program Directors Research Institute, Inc., 3141 Fairview Park Drive, Ste 650, Falls Church, Virginia 22042, vendor number 177758 for continued participation in the Research Institute's Behavioral Healthcare Performance Measurement System in the amount of \$7,498.00, effective March 1, 2020 upon Governor and Council approval through February 28, 2021. Source of Funds: 83% General Funds and 17% Other.

Funds are available in the following account:

05-95-94-940010-8400 HEALTH AND SOCIAL SERVICES, DEPT OF HEALTH AND HUMAN SVCS, HHS: NEW HAMPSHIRE HOSPITAL, NEW HAMPSHIRE HOSPITAL, ADMINISTRATION

Fiscal Year	Class/Object	Class Title	Job Number	Amount
SFY 2021	026-500251	Other Medical Services	94012700	\$7,498.00

EXPLANATION

This request is retroactive because the documents were received by New Hampshire Hospital at the end of January; coupled with the time required to prepare the G&C letter put the submission to the Department of Administrative Services beyond the deadline for the February G&C meeting. The purpose of this request is to fund New Hampshire Hospital's continued participation in the National Association of State Mental Health Program Directors Research Institute's Behavioral Healthcare Performance Measurement System for the time period of March 1, 2020 through February 28, 2021, which also helps NHH comply with federal quality reporting requirements. The National Association of State Mental Health Program Directors is a not-for-profit organization representing the viewpoints and concerns of state mental health agencies to Congress, federal agencies and other national organizations by tracking legislation, leading collaborative efforts, initiating proposals to streamline and simplify federal mental health programs and regulations, and educating members of Congress about issues facing state mental health agencies.

In meeting requirements for accreditation, participation in the System uniquely provides New Hampshire Hospital the opportunity to compare its performance with other state-operated inpatient psychiatric facilities. By doing so, New Hampshire Hospital has the potential to identify more efficient methods, areas for cost savings and ways to improve the quality of its services.

Listed below are answers to standard questions required for Governor and Council organization dues and membership approval submissions:

1. How long has this organization been in existence and how long has this agency been a member of this organization?

The NRI Behavioral Healthcare Performance Measurement System was developed in 1998. New Hampshire Hospital has had a contractual relationship since 1999.

2. Is there any other organization, which provides the same or similar benefits, which your agency belongs to?

No

3. How many other states' belonging to this organization and is your agency the sole New Hampshire state agency that is a member?

New Hampshire Hospital is the sole NH state agency contracting with the System. Similarly involved are over 200 other hospitals and providers across 48 states and territories.

4. How is the dues structure established? (Standard fee for all states, based on population, based on other criteria, etc.)

The Measurement System has a contracted service fee that is standard for all participants.

5. What benefit does the state receive from participating in this membership?

The contract provides assistance in information management, access to nationally comparative data, education related to performance measures and an avenue for reporting measures as a requirement for Hospital accreditation which allows for Medicare/Medicaid billing.

6. Are training or educational/ research materials included in the membership? If so, is the cost included? Explain in detail.

Included in the contract fee are monthly educational calls, special reports, publications, and a suite of monthly measurement reports with Hospital specific and nationally comparative information.

7. Is the membership required to receive any federal grants or required in order to receive or participate in licensing or certification exams? Explain.

An approved contracted vendor is required to report hospital measures to The Joint Commission, the national accrediting body. The Hospital's accreditation allows for Medicare/Medicaid certification and billing.

8. Is there any travel included with this membership fee? Explain in detail any travel to include the number of employees involved, the number of trips, destination if known and purposes of membership-supported trips.

No

9. Which state agency employees are directly involved with this organization? (Indicate if they are members, voting members, committee members, and/or officers of the organization.)

None

10. Explain in detail any negative impact to the State if the Agency did not belong to this organization.

Without this contract, New Hampshire would lose assistance in information management, access to nationally comparative data, education related to performance measures and an avenue for reporting Hospital performance measures as required for Hospital accreditation and related CMS certification.

Should Governor and Council determine to deny this request, New Hampshire Hospital would be non-compliant with The Joint Commission's requirement for measurements and the Hospital may have less opportunity to identify and implement cost saving methods.

Area served: statewide.

Source of funds: 83% general funds and 17% other funds from agency fees and inter-departmental transfers.

In the event that other funds become no longer available, additional general funds will not be requested to support this contract.

Respectfully submitted,

Lori A. Shibinette
Commissioner
