

Victoria F. Sheehan  
Commissioner

THE STATE OF NEW HAMPSHIRE  
DEPARTMENT OF TRANSPORTATION

William Cass, P.E.  
Assistant Commissioner

Bureau of Construction  
December 9, 2019

His Excellency, Governor Christopher T. Sununu  
and the Honorable Council  
State House  
Concord, New Hampshire 03301

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with R.M. Piper, Inc. of Plymouth, NH (Vendor 174180) on the basis of a low bid of \$539,848.70 for bridge preservation of Br. No. 194/146, NH 28 over inactive NHRR in the Town of Ossipee, from the date of Governor and Council approval through October 16, 2020, unless extended by the Department in accordance with the Standard Specifications. 100% Betterment Funds.

Funding is available in State Fiscal Years 2020 and 2021 as follows, with the ability to adjust encumbrances through the Budget Office between State Fiscal Years if needed and justified:

Funding is available as follows:	<u>FY 2020</u>	<u>FY 2021</u>
04-96-96-963015-3039		
Highway Betterment Aid		
400-500870 Highway Contract Payments	\$363,170.95	\$176,677.75

2. Further authorize that a contingency in the amount of \$53,984.87 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 10% of the contract amount.

Contingency Funding is available as follows:	<u>FY 2020</u>	<u>FY 2021</u>
04-96-96-963015-3039		
Highway Betterment Aid		
400-500870 Highway Contract Payments		\$53,984.87

EXPLANATION

This project is part of the State's Ten Year Transportation Improvement Plan under the Betterment Bridge Preservation Program. This project consists of bridge preservation on Br. No. 194/146, NH 28 over inactive NHRR in the Town of Ossipee. The work limits begin approximately 500 feet south of the bridge and continue approximately 1,075 feet to the north. The scope of work includes replacement of the deck pavement and membrane, partial and full depth deck repair, and installation of 6" crack control joints in both abutments.

Br. No. 194/146 was built in 1959 and has not been addressed by a preservation contract except for replacement of the bridge curbs and rail, and patching of the abutments and wings in 1999. The current condition rating of this bridge is 6 (Deck, satisfactory), 6 (Superstructure, satisfactory), and 7 (Substructure, good). The concrete deck is showing signs of deterioration. This preservation project will address and fix this to extend the life of this structure and keep it off the State's Red List.

The proposed contingency amount is 10% of the contract amount. This work preserves a bridge that has not received any preservation activities except for replacement of bridge curbs and rail and patching of the abutments and wings in 1999. The work includes partial and full depth deck repairs. The extent of the work has been estimated, but the full extent of the work will not be fully known until the existing asphalt and membrane are removed from the bridge. These factors increase the risk of overruns.

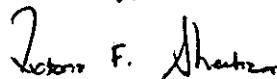

Although the bid costs exceeded the Department's estimate by 19.62% the low bid of 5 bids received is felt to be reasonable for the work involved. Five items contributed to the overage: temporary signals, maintenance of traffic, pavement, cold planing and mobilization. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested.

Sincerely,

Victoria F. Sheehan  
Commissioner

VFS/md

Department Estimate:	\$451,290.80
Contract Amount:	<u>\$539,848.70</u>
Over Estimate:	\$ 88,557.90

## **SUPPLEMENTAL PROJECT INFORMATION SHEET**

**DESCRIPTION:** This project consists of bridge preservation on Br. No.194/146, NH 28 over inactive NHRR in the Town of Ossipee. The work limits begin approximately 500 feet south of the bridge and continues approximately 1075 feet to the north. The scope of work includes replacement of the deck pavement and membrane, partial and full depth deck repair, and installation of 6" crack control joints at both abutments.

**FEDERAL FUNDING:** 0% (100% - BET-BMT-BD – Betterment Bridge Preservation)

**CONTINGENCY:** The contingency amount is proposed to be 10%. This work preserves a bridge that has not received any preservation activities except for replacement of the bridge curbs and rail, and patching of the abutments and wings in 1999. The work includes partial and full depth deck repairs. The extent of this work has been estimated, but the full extent of the work will not be fully known until the existing asphalt and membrane are removed from the bridge. These factors increase the risk of overruns.

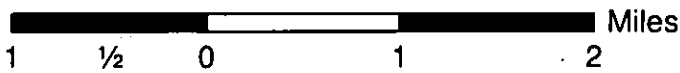

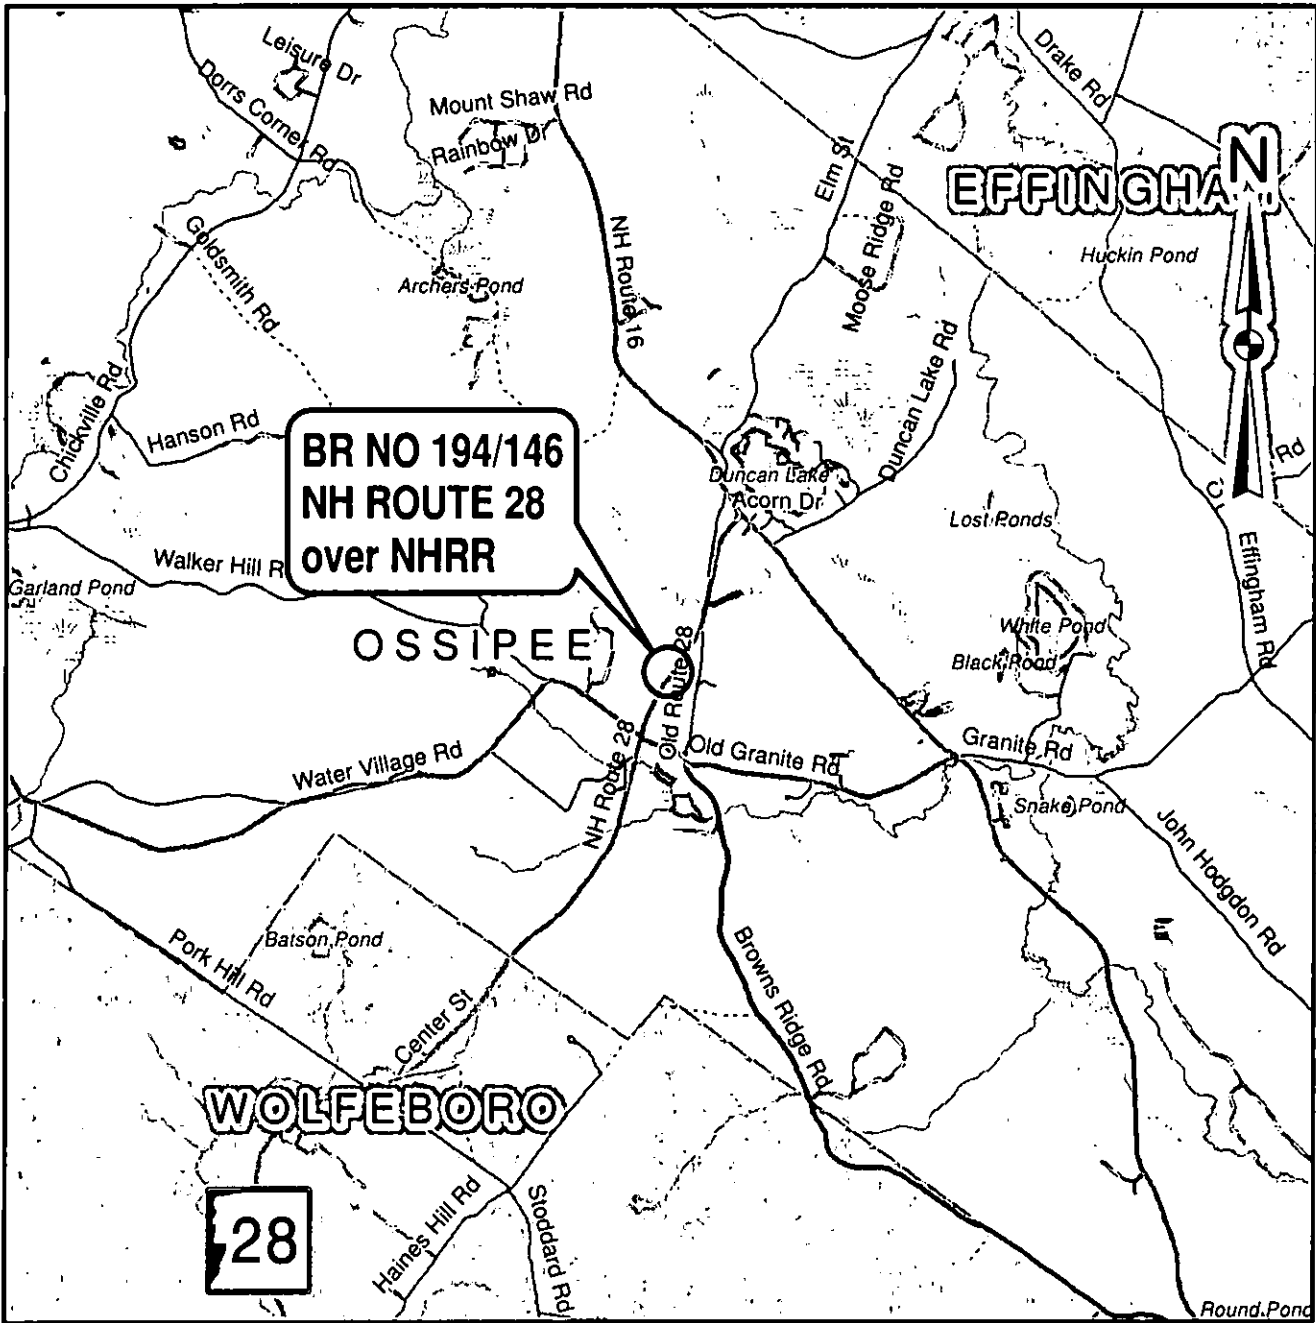

**PROJECT INITIATED:** 2018 Bridge Tier 1&2 Maintenance (M&P Priority) List

**PROJECT EXPLANATION:** Br. No. 194/146 was built in 1959 and has not been addressed by a preservation contract except for replacement of the bridge curbs and rail, and patching of the abutments and wings in 1999. The current condition rating of this bridge is 6 (Deck, satisfactory), 6 (Superstructure, satisfactory), and 7 (Substructure, good). The concrete deck is showing signs of deterioration. This preservation project will address and fix this to extend the life of this structure and keep it off the State's Red List.

**TRAFFIC IMPLICATION:** Beginning in the spring of 2020, the road width for Br. No. 097/089 will be reduced to one 14'-0" lane of alternating two-way traffic controlled by signals for two phases, requiring a wide load restriction.

**FINAL COMPLETION DATE:** October 16, 2020.
