REQUESTED ACTION

Authorize the Department of Health and Human Services, Division for Behavioral Health, Bureau of Drug and Alcohol Services, to amend a **sole source** agreement with Foundation for Healthy Communities (Vendor #154533-B001), 125 Airport Road, Concord, NH 03301, for the purpose of expanding the State's capacity to provide office-based Opiate Treatment, including the use of medications to New Hampshire residents experiencing opioid addiction by increasing the price limitation by \$1,056,000 from \$1,800,000 to an amount not to exceed \$2,856,000, and extending the completion date from June 30, 2018 to June 30, 2019, effective upon Governor and Council approval. The agreement was originally approved by the Governor and Executive Council on July 13, 2016 (Item#6B). The additional funding is 80% Federal Funds, 20% General Funds.

Funds are available in the following accounts for State Fiscal Years 2018 and 2019, with authority to adjust amounts between state fiscal years through the Budget Office, without further approval from Governor and Executive Council, if needed and justified.

EXPLANATION

The original agreement was **sole source** due to the quickly escalating opioid crisis and the need to develop treatment services within the medical community. This vendor was selected because of its established professional relationships with all hospitals in New Hampshire and its proven ability to work effectively with New Hampshire hospitals and physician practices to implement new programs. The agreement with Foundation for Healthy Communities was approved to achieve two objectives:

- 1) Expand Medication Assisted Treatment in physician practices by increasing the number of hospital-networked physician practices that provide Medication Assisted Treatment and,
- 2) Increase the State's capacity to address substance use disorders in hospital Emergency Departments (EDs) by recruiting and contracting with hospitals to develop this capacity and to initiate the provision of new practices in Emergency Departments.

At the time that the Emergency Department resources were allocated, funding for the Medicated Assisted Treatment services had not yet been identified. Medication Assisted Treatment contract deliverables regarding physician practices were identified for the duration of this contract but were subject to funds being available in the second year. This amendment provides additional funds to complete the development necessary to provide Medication Assisted Treatment in physician practices. Amending this contract allows for the development work to continue and allows services to be implemented so individuals with substance use disorders in many regions of the state will have access to these life-saving practices. By extending the contract through SYF19, both the Medication Assisted Treatment and the work in the Emergency Departments will be able to be fully integrated into their normal workflow, thus improving the sustainability of these vital services.

To address the growing opioid crisis, providers must rapidly develop and expand resources in addition to the current substance use disorder treatment infrastructure in order to meet the public's need for this important service. The Foundation for Healthy Communities will recruit, engage and provide training and other technical support to subcontracted physician practices participating in the program, and monitor their program compliance.

The Department is satisfied with the vendor's performance to date. In fact, the vendor exceeded the requirements of the original contract by working with more community providers. The contract required the vendor to work with a minimum of ten (10) physician practices increasing capacity to provide Medication Assisted Treatment. In the first year of this contract, Foundation for Healthy Communities has sub-contracted with eight (8) hospitals representing fifteen (15) initial practices that are expanding their capacity. The contract also required the vendor to subcontract with a minimum of four (4) hospitals to increase their capacity to address substance use disorders in their Emergency Departments and the vendor has subcontracted with seven (7) hospitals to date. If approved, this amendment will continue to support those community providers.

The original agreement includes the option to extend contracted services for three (3) years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and approval of the Governor and Executive Council. We are exercising the option to extend the agreement for one (1) year with this amendment, leaving two (2) additional years of renewal remaining.

Should the Governor and Executive Council not authorize this request, the infrastructure development initiated in State Fiscal Year 2017 will not be completed and residents may not receive appropriate treatment for their opioid addiction resulting in a heightened risk of death from overdose, financial and emotional strains on families, and related economic and resource challenges in communities as affected individuals continue to struggle with their addictions.

The geographic area to be served is statewide.

Source of Funds: 80% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number (FAIN) TI010035, and 20% General Funds.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

In the event that Federal Funds become no longer available, General Funds will not be requested to support this program.

DHHS INFORMATION SECURITY REQUIREMENTS

1. Confidential Information: In addition to Paragraph #9 of the General Provisions (P-37) for the purpose of this SOW, the Department's Confidential information includes any and all information owned or managed by the State of NH - created, received from or on behalf of the Department of Health and Human Services (DHHS) or accessed in the course of performing contracted services - of which collection, disclosure, protection, and disposition is governed by state or federal law or regulation. This information includes, but is not limited to Personal Health Information (PHI), Personally Identifiable Information (PII), Federal Tax Information (FTI), Social Security Numbers (SSN), Payment Card Industry (PCI), and or other sensitive and confidential information.
2. The vendor will maintain proper security controls to protect Department confidential information collected, processed, managed, and/or stored in the delivery of contracted services. Minimum expectations include:
 - 2.1. Contractor shall not store or transfer data collected in connection with the services rendered under this Agreement outside of the United States. This includes backup data and Disaster Recovery locations.
 - 2.2. Maintain policies and procedures to protect Department confidential information throughout the information lifecycle, where applicable, (from creation, transformation, use, storage and secure destruction) regardless of the media used to store the data (i.e., tape, disk, paper, etc.).
 - 2.3. Maintain appropriate authentication and access controls to contractor systems that collect, transmit, or store Department confidential information where applicable.
 - 2.4. Encrypt, at a minimum, any Department confidential data stored on portable media, e.g., laptops, USB drives, as well as when transmitted over public networks like the Internet using current industry standards and best practices for strong encryption.
 - 2.5. Ensure proper security monitoring capabilities are in place to detect potential security events that can impact State of NH systems and/or Department confidential information for contractor provided systems.
 - 2.6. Provide security awareness and education for its employees, contractors and sub-contractors in support of protecting Department confidential information
 - 2.7. Maintain a documented breach notification and incident response process. The vendor will contact the Department within twenty-four 24 hours to the Department's contract manager, and additional email addresses provided in this section, of a confidential information breach, computer security incident, or suspected breach which affects or includes any State of New Hampshire systems that connect to the State of New Hampshire network.
 - 2.7.1. "Breach" shall have the same meaning as the term "Breach" in section 164.402 of Title 45, Code of Federal Regulations. "Computer Security Incident" shall have the same meaning "Computer Security Incident" in section two (2) of NIST Publication 800-61, Computer Security Incident Handling Guide, National Institute of Standards and Technology, U.S. Department of Commerce.

Breach notifications will be sent to the following email addresses:

 - 2.7.1.1. DHHSChiefInformationOfficer@dhhs.nh.gov
 - 2.7.1.2. DHHSInformationSecurityOffice@dhhs.nh.gov
 - 2.8. If the vendor will maintain any Confidential Information on its systems (or its sub-contractor systems), the vendor will maintain a documented process for securely disposing of such data upon request or contract termination; and will obtain written certification for any State of New Hampshire data destroyed

by the vendor or any subcontractors as a part of ongoing, emergency, and or disaster recovery operations. When no longer in use, electronic media containing State of New Hampshire data shall be rendered unrecoverable via a secure wipe program in accordance with industry-accepted standards for secure deletion, or otherwise physically destroying the media (for example, degaussing). The vendor will document and certify in writing at time of the data destruction, and will provide written certification to the Department upon request. The written certification will include all details necessary to demonstrate data has been properly destroyed and validated. Where applicable, regulatory and professional standards for retention requirements will be jointly evaluated by the State and the vendor prior to destruction.

- 2.9. If the vendor will be sub-contracting any core functions of the engagement supporting the services for State of New Hampshire, the vendor will maintain a program of an internal process or processes that defines specific security expectations, and monitoring compliance to security requirements that at a minimum match those for the vendor, including breach notification requirements.
3. The vendor will work with the Department to sign and comply with all applicable State of New Hampshire and Department system access and authorization policies and procedures, systems access forms, and computer use agreements as part of obtaining and maintaining access to any Department system(s). Agreements will be completed and signed by the vendor and any applicable sub-contractors prior to system access being authorized.
4. If the Department determines the vendor is a Business Associate pursuant to 45 CFR 160.103, the vendor will work with the Department to sign and execute a HIPAA Business Associate Agreement (BAA) with the Department and is responsible for maintaining compliance with the agreement.
5. The vendor will work with the Department at its request to complete a survey. The purpose of the survey is to enable the Department and vendor to monitor for any changes in risks, threats, and vulnerabilities that may occur over the life of the vendor engagement. The survey will be completed annually, or an alternate time frame at the Department's discretion with agreement by the vendor, or the Department may request the survey be completed when the scope of the engagement between the Department and the vendor changes. The vendor will not store, knowingly or unknowingly, any State of New Hampshire or Department data offshore or outside the boundaries of the United States unless prior express written consent is obtained from the appropriate authorized data owner or leadership member within the Department.
6. Data Security Breach Liability. In the event of any security breach Contractor shall make efforts to investigate the causes of the breach, promptly take measures to prevent future breach and minimize any damage or loss resulting from the breach. The State shall recover from the Contractor all costs of response and recovery from the breach, including but not limited to: credit monitoring services, mailing costs and costs associated with website and telephone call center services necessary due to the breach.

FINANCIAL STATEMENTS

December 31, 2015 and 2014

With Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Foundation for Healthy Communities

We have audited the accompanying financial statements of Foundation for Healthy Communities (the Foundation), which comprise the statements of financial position as of December 31, 2015 and 2014, and the related statements of activities, changes in net assets, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Foundation's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Foundation as of December 31, 2015 and 2014, and the changes in its net assets and its cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

FOUNDATION FOR HEALTHY COMMUNITIES

Notes to Financial Statements

December 31, 2015 and 2014

Organization

Foundation for Healthy Communities (the Foundation) was organized to conduct various activities relating to healthcare delivery process improvement, health policy, and the creation of healthy communities. The Foundation is controlled by New Hampshire Hospital Association (the Association) whose purpose is to assist its members in improving the health status of the people receiving healthcare in New Hampshire.

1. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of reporting in the statements of cash flows, the Foundation considers all bank deposits with an original maturity of three months or less to be cash equivalents.

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to earnings and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. Management believes all accounts receivable are collectible. Credit is extended without collateral.

Investments

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the statements of financial position. Interest and dividends are included in the excess of revenues over expenses unless they are restricted by donor or law.

Investments, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. As such, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of financial position.

FOUNDATION FOR HEALTHY COMMUNITIES

Notes to Financial Statements

December 31, 2015 and 2014

Property and Equipment

Property and equipment acquisitions are recorded at cost. Depreciation is provided over the estimated useful lives of each class of depreciable asset and is computed using the straight-line method.

Employee Fringe Benefits

The Foundation has an "earned time" plan under which each employee earns paid leave for each period worked. These hours of paid leave may be used for vacation or illnesses. Hours earned but not used are vested with the employee and may not exceed 30 days at year end. The Foundation accrues a liability for such paid leave as it is earned.

Revenue Recognition

Grants awarded in advance of expenditures are reported as temporarily restricted support if they are received with stipulations that limit the use of the grant funds. When a grant restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statements of activities as "net assets released from restriction."

Grant funds conditional upon submission of documentation of qualifying expenditures or matching requirements are deemed to be earned and reported as revenues when the Foundation has met the grant conditions.

The amount of such funds the Foundation will ultimately receive depends on the actual scope of each program, as well as the availability of funds and, accordingly, is not reasonably determinable. The ultimate disposition of grant funds is subject to audit by the awarding agencies.

Resources received from service beneficiaries for specific projects, programs, or activities that have not yet taken place are recognized as deferred revenue to the extent that the earnings process has not been completed.

Contributions of long-lived assets are reported as unrestricted support unless donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long these long-lived assets must be maintained, the Foundation reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

FOUNDATION FOR HEALTHY COMMUNITIES

Notes to Financial Statements

December 31, 2015 and 2014

Excess of Revenues over Expenses

The statements of activities include excess of revenues over expenses. Changes in unrestricted net assets that are excluded from this measure include realized and unrealized gains and losses on investments.

Income Taxes

The Foundation is a not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code (the Code) and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Code.

Subsequent Events

For purposes of the preparation of these financial statements in conformity with U.S. GAAP, the Foundation has considered transactions or events occurring through June 9, 2016, which was the date that the financial statements were available to be issued.

2. **Investments**

The composition of investments as of December 31, 2015 and 2014 is set forth in the following table. Investments are stated at fair value.

	<u>2015</u>	<u>2014</u>
Marketable equity securities	\$ 152,612	\$ 268,307
Mutual funds	<u>480,676</u>	<u>379,749</u>
	<u>\$ 633,288</u>	<u>\$ 648,056</u>

3. **Temporarily Restricted Net Assets**

Temporarily restricted net assets of \$1,274,378 and \$1,239,659 consisted of specific grant programs as of December 31, 2015 and 2014, respectively. The grant programs relate to improvements to access and the delivery of healthcare services as well as the support for the production and distribution of educational materials.

Notes to Financial Statements

4. Related Party Transactions

The Foundation leases space from the Association. Rental expense under this lease for the years ended December 31, 2015 and 2014 was \$55,833 and \$46,662, respectively.

The Association provides various accounting, public relation and janitorial services to the Foundation. The amount expensed for these services in 2015 and 2014 was \$86,252 and \$111,180, respectively. In addition, the Association bills the Foundation for its allocation of shared costs. As of December 31, 2015 and 2014, the Foundation owed the Association \$47,313 and \$49,190, respectively, for services and products provided by the Association.

The Association owed the Foundation \$60,520 and \$90,780 as of December 31, 2015 and 2014, respectively, for support allocated to the Foundation. For the years ended December 31, 2015 and 2014, the Foundation received support from the Association in the amount of \$363,120.

5. Retirement Plan

The Foundation participates in the Association's 401(k) profit-sharing plan, which covers substantially all employees and allows for employee contributions of up to the maximum allowed under Internal Revenue Service regulations. Employer contributions are discretionary and are determined annually by the Foundation. Retirement plan expense for 2015 and 2014 was \$47,796 and \$43,351, respectively.

6. Functional Expenses

Expenses related to services provided for the public interest are as follows:

	<u>2015</u>	<u>2014</u>
Program services	\$ 3,777,072	\$ 3,222,693
General and administrative	<u>124,133</u>	<u>124,491</u>
	<u>\$ 3,901,205</u>	<u>\$ 3,347,184</u>

7. Concentrations of Credit Risk

From time-to-time, the Foundation's total cash deposits exceed the federally insured limit. The Foundation has not incurred any losses and does not expect any in the future.

8. Fair Value Measurement

Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) Topic 820, *Fair Value Measurement*, defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP, and expands disclosures about fair value measurements.

FOUNDATION FOR HEALTHY COMMUNITIES

Notes to Financial Statements

December 31, 2015 and 2014

FASB ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. FASB ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.
- Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Foundation's investments are measured at fair value on a recurring basis and are considered Level 1.

EXPLANATION

This request is submitted as a **SOLE SOURCE** request due to the urgent nature of the opioid crisis in New Hampshire and the impact and benefit of engaging physician practices in effectively addressing Substance Use Disorders (SUDs). The Medication Assisted Treatment (MAT) and Hospital Emergency Department (ED) programs supported by this Agreement are two of several addiction

identification, overdose prevention and treatment activities proposed to expand New Hampshire's infrastructure capacity to treat affected residents. The Foundation for Healthy Communities will also facilitate expansion of community-based MAT programs statewide by recruiting and contracting with physician practices interested in developing or enhancing their capacity to deliver MAT services in their communities. The vendor will also address SUDs in Hospital EDs by recruiting and engaging hospitals in geographic regions with high rates of opioid overdoses to increase their capacity to address substance use disorders. This vendor was selected because of its established professional relationships with all hospitals in New Hampshire, and its proven ability to work effectively with New Hampshire hospitals and physician practices to implement new programs..

The need for both expanded MAT and increased capacity to address SUDs in the EDs is evident by the high rates of opioid use reflected in the sharp increase in emergency room visits, ambulance calls related to opioids, and by the 437 overdose deaths in 2015 (up from 325 in 2014).

In an effort to support MAT expansion, the Department convened a panel of practitioners from health care, behavioral health, substance use disorder (SUD) specialty treatment services, and the New Hampshire Medical Society to review existing practices in New Hampshire and other states. The panel identified key components and best practices from the American Society of Addiction Medicine (ASAM) and other nationally-recognized resources. Through this work a compendium of best practice recommendations and resources for implementing and delivering effective MAT was developed to support a variety of service settings to promote and assist with proper integration of MAT services.

Three core objectives were identified to expand MAT services in New Hampshire. They include:

1. Increase the number of waived buprenorphine prescribers;
2. Increase awareness of and access to extended-release injectable (depot) naltrexone and other medications by prescription; and
3. Increase office-based access to MAT programs through multiple settings, including primary care offices and clinics, specialty office-based (stand-alone) MAT programs, and traditional addiction treatment programs offering medication assistance.

To address the growing crisis, it is critical that providers rapidly develop and expand resources in addition to the current SUD treatment infrastructure in order to meet the public's need for this important service. It is the expectation of the Department that by issuing infrastructure expansion grants to facilitating organizations, like Foundation for Healthy Communities, the Department's core objectives will be achieved and result in a decreased number of overdose deaths, and reduced economic costs to the State. Through these community-based MAT infrastructure expansion programs, the Foundation for Healthy Communities will recruit, engage and provide training and other technical support to subcontracted physician practices participating in the program, and monitor their program compliance.

The performance of the MAT program will be measured by:

1. The contractor's submission of a work plan within 45 days of contract approval;
2. The contractor's submission of a proposed list of physician practices to the Department for subcontracting approval;
3. The contractor's submission of quarterly status reports based on work plan progress, including but not limited to:
 - Number and credentials of staff retained to support MAT

- Number of physicians waived to prescribe buprenorphine
 - Policies and practices established
 - Changes made to the initial work plan
 - Training and technical assistance provided
 - Other progress to date
4. The contractor's submission of a final report, documenting the following:
- Minimum of 10 practices have increased capacity to provide MAT services
 - Minimum of 20 physicians became waived to prescribe buprenorphine
 - Minimum of 10 other providers are available to support MAT (e.g., clinicians, nurse practitioners)
 - Minimum of 10 practices have policies and procedures for providing MAT according to the Guidelines.
 - Minimum of 5 practices display accurate documentation of MAT in client records according to the Guidelines.
 - Number of trainings and technical assistance provided related to best practice implementation of MAT for Opiate Use Disorders.

People experiencing SUD emergencies may be more open to initiating treatment. Hospital EDs need to be prepared to address not only the medical sequelae of overdoses, but also to provide or refer for treatment of the SUD. To that end, the Foundation for Healthy Communities will also contract with identified hospitals to increase the ability of current staff to effectively connect patients with SUD emergencies to appropriate resources to comprehensively address their SUDs and to develop and implement long-term plans for effective care of patients with SUDs who come into the ED.

The performance of the ED program will be measured by increases to the baseline numbers determined at the beginning of the contract period, as follows:

- Minimum of four (4) hospitals increasing their capacity to address SUDs in their EDs.
- Minimum of four (4) hospitals implementing improved protocols in their EDs.
- Increased number (from baseline) of ED patients with SUDs accessing comprehensive services to address their SUDs post-discharge from ED.

If the contract is not granted, residents seeking recovery may not receive appropriate treatment for their opioid addiction, resulting in a heightened risk of death from accidental overdose, financial and emotional strains on families, and related economic and resource challenges in communities as affected individuals continue to struggle with their addictions.

As referenced in Exhibit C-1, Revisions to General Provisions, the Agreement has the option to extend for three (3) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and approval of the Governor and Executive Council.

The geographic area to be served is statewide.

Source of Funds: 75% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-15, and 25% General Funds.

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.
