### Explanation

This contract provides for the replacement of the end-of-life heating and cooling unit at the Department of Safety Warehouse located at 41 Hazen Drive in Concord. The contract includes the demolition and removal of the existing end-of-life furnace and condensing unit along with the purchase and installation of a York 60,000 BTU high efficiency furnace with a 2.5-ton cased coil and condensing unit. The Department of Safety Division of Administration requested quotes from four HVAC vendors. ENE Systems of New Hampshire submitted the lowest compliant bid.

This contract replaces a previously approved contract with ENE Systems (Item #79 approved on September 23, 2020) that expired before installation could be completed due to unexpected HVAC equipment supply chain disruptions caused by COVID-19. A revised contract expiration date was needed. All other terms and conditions, including cost, remain unchanged from the original agreement.

Respectfully submitted,

  
Robert L. Quinn  
Commissioner Safety
