### The State of New Hampshire

### **Department of Environmental Services**

### Robert R. Scott, Commissioner

November 2, 2020

His Excellency, Governor Christopher T. Sununu and the Honorable Council State House Concord, New Hampshire 03301

### REQUESTED ACTION

Authorize the Department of Environmental Services to amend a Drinking Water and Groundwater Trust Fund grant (PO # 1066943) to the City of Lebanon (VC# 177422-B002), Lebanon, NH, by extending the completion date from December 1, 2020 to September 1, 2021. No additional funding is involved in this time extension. The original grant was approved by Governor and Council on April 17, 2019, Item #103. 100% Drinking Water and Groundwater Trust Fund.

#### **EXPLANATION**

This grant was awarded to finance improvements to the City's water treatment plant. We are requesting this extension because commencement of the work was delayed. The contractor's most recent schedule shows substantial completion in February 2021. To avoid any further delays, the City plans to have another contractor complete the installation using the original budget and extending the completion date to September 1, 2021, which should provide ample time to complete the project. To date, \$267,391 of the \$688,000 Drinking Water and Groundwater Trust Fund grant has been spent.

In the event that other funds become no longer available, General funds will not be requested to support this program. This amendment has been approved by the Attorney General's Office as to form, substance and execution.

We respectfully request your approval of this item.

Robert R. Scott Commissioner

#### EXPLANATION

The Drinking Water and Ground Water Trust Fund was created in 2016, using \$276 million of MtBE trial judgement funds, as authorized by RSA 485-F. The purpose of the Trust Fund is to provide sustainable, long-term funding for the protection, preservation, and enhancement of the drinking water and groundwater resources of the state. The Drinking Water and Groundwater Advisory Commission was established to administer the Trust Fund and to provide guidance to the State on the use of the Trust Fund.

On August 30, 2018, the Advisory Commission voted to authorize grants and loans for nineteen drinking water improvement projects. The City of Lebanon's Water Treatment Plant Upgrades Project request for \$3,400,000 was selected for grant and loan funding from the Drinking Water and Groundwater Trust Fund. The City will use the funds to complete upgrades to the Water Treatment Plant. The Project will upgrade and improve plant process efficiency and replace equipment reaching the end of its useful life. This agreement has been approved by the Attorney General's Office as to form, substance and execution.

Respectfully submitted

Commissioner
