ASSISTANT COMMISSIONER

Bureau of Construction
March 16, 2016

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with Alvin J. Coleman & Son, Inc. of Conway, NH (Vendor 154411) on the basis of a low bid of \$398,497.00 for reconstructing and paving a 1/2 mile of gravel roadway on Intervale Road, beginning at Old Still Rd. and proceeding east to just west of Battis Crossing Road, from the date of Governor and Council approval through August 26, 2016 unless extended by the Department in accordance with the Standard Specifications. 100% Betterment Funds.

Table with 3 columns: Funding is available as follows, FY 2016, FY 2017. Rows include 04-96-96-963015-3039 Highway Betterment Aid and 400-500870 Highway Contract Payments.

2. Further authorize that a contingency in the amount of \$39,849.70 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 10% of the contract amount.

Table with 3 columns: Contingency Funding is available as follows, FY 2016, FY 2017. Rows include 04-96-96-963015-3039 Highway Betterment Aid and 400-500870 Highway Contract Payments.

EXPLANATION

This project is part of the State's Ten Year Plan, under the "parent" project Statewide BRSR - Rehabilitation of Secondary Routes. This project involves reconstructing the roadway with 12 inches of crushed gravel and 3 1/2 inches of pavement. Drainage work shall include a culvert installation, underdrain installation, construction of a small settling basin, and stone lining ditches. This 1/2-mile gravel section of roadway was designated state maintained many years ago. Since then, the town road sections to the east and west have been paved. In recent years school buses have gotten stuck operating on this section of road. The town is willing to take over future maintenance if the Department will provide a paved surface. The distance from the project to the nearest other state maintained roadway is 3 miles in either direction, causing disconnected travel to and from this section of road by the Department's maintenance crews.

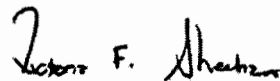

The contingency amount is proposed to be 10% of the contract amount and is required to address any cost overruns that could come from latent conditions to the roadway as well as potential fluctuation of fuel and pavement prices.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project is funded with 100% State Betterment Funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Victoria F. Sheehan
Commissioner

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project will reconstruct and pave a ½ mile of gravel roadway on Intervale Road, beginning at Old Still Rd. and proceeding east to just west of Battis Crossing Road. The roadway will be reconstructed with 12 inches of crushed gravel and 3 ½ inches of pavement. Drainage work shall include a culvert installation, underdrain installation, construction of a small settling basin, and stone lining ditches.

FEDERAL FUNDING: 0% (Betterment)

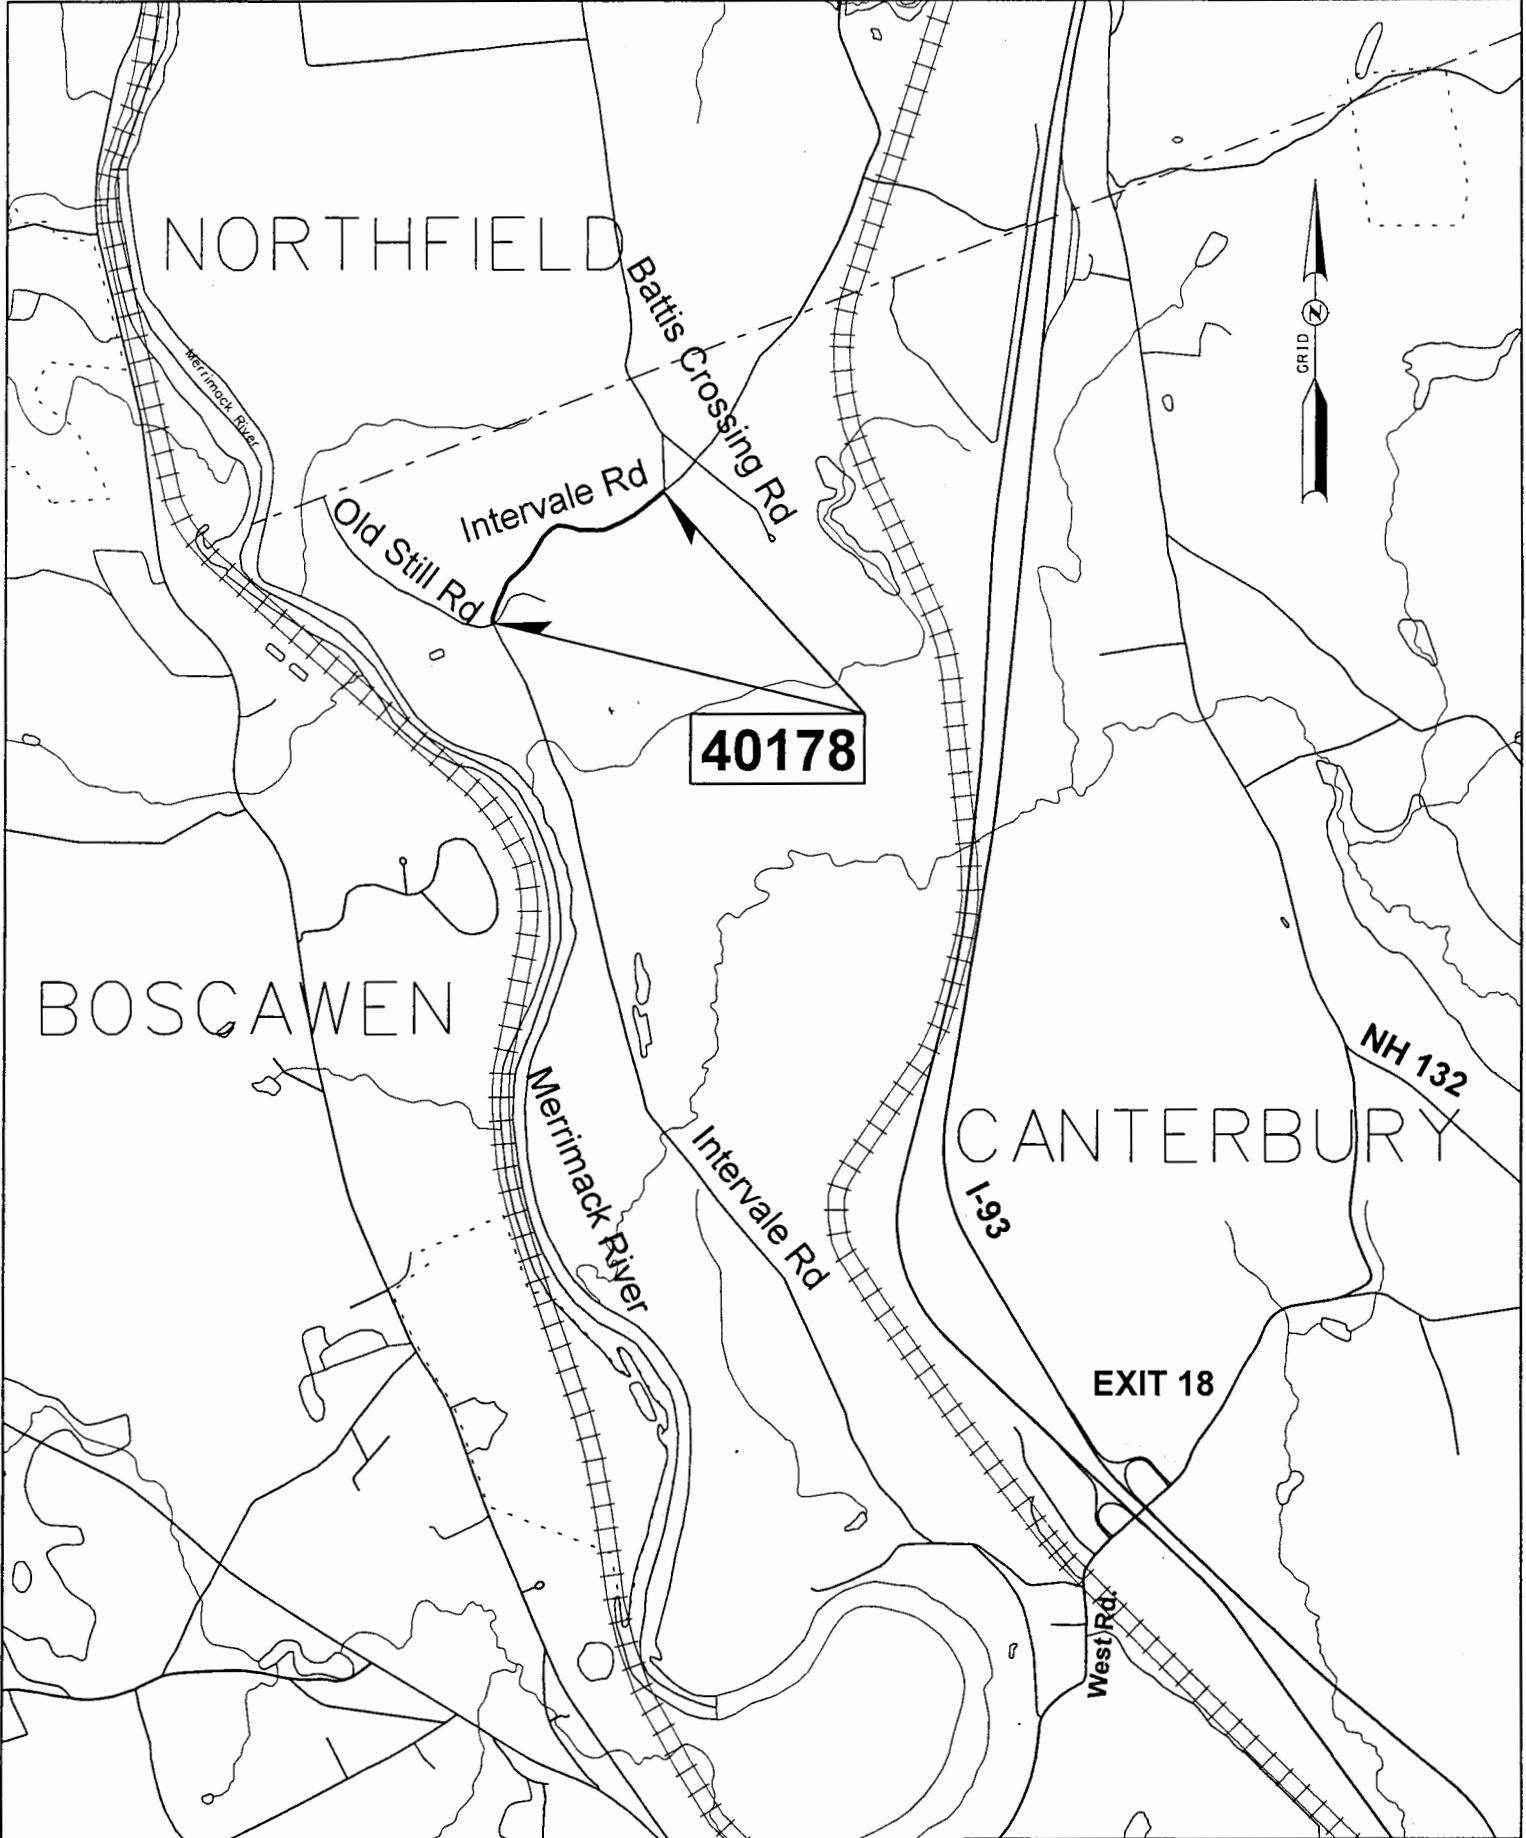

CONTINGENCY: Further authorize that a contingency in the amount of 10% be approved and is in accordance with Department guidelines. Cost overruns could come from fluctuation of fuel and pavement prices.

PROJECT INITIATED: State's 10-Year Transportation Improvement Program under the "parent" project Statewide BRSR – Rehabilitation of Secondary Routes

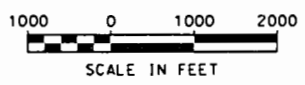

PROJECT EXPLANATION: This ½ mile gravel section of roadway was designated state maintained many years ago. Since then, the town road sections to the east and west have been paved. In recent years school buses have gotten stuck running route on this section of road. The town is willing to take over future maintenance if the Department will provide a paved surface. The distance from the project to the nearest other state maintained roadway is 3 miles in either direction, causing travel to and from by maintenance crews.

TRAFFIC IMPLICATIONS: This is a narrow roadway that will be closed to through traffic during work hours due to width restrictions. Local traffic will be allowed, but may see some delay.

COMPLETION DATE: August 26, 2016.
