## EXPLANATION

The Operation Stonegarden Grant allows the Division of Forests and Lands to provide Detail Patrol coverage under the direction of the Coos County Sheriff's Office for the Operation Stonegarden portion of the 2019 Homeland Security Grant Program. Detail Patrols will be provided by Division of Forests and Lands' Forest Rangers dressed in a recognizable department uniform.

Operation Stonegarden is a Homeland Security initiative that strives to engage local, state, and federal law enforcement agencies in border security. Homeland Security recognizes that law enforcement agencies in the area have local knowledge, skills, and abilities that can supplement and enhance the Nation's border security. Working in partnership with the Beecher Falls Border Patrol Station will raise our collective level of situational awareness in the border area of northern New Hampshire. Stonegarden provides compensation in the form of federal dollars for both manpower and equipment. Current New Hampshire Stonegarden participants include the Fish and Game Department, Forest Protection Bureau of DNR, Coos County Sheriff's Department, Pittsburg Police Department, Colebrook Police Department, and the Department of Safety's Division of State Police.

The following additional appropriation is requested for Fiscal 2021:

Class 018 – Overtime \$8,127, to pay current Forest Protection Bureau staff for patrol details;  
Class 030 – Equipment \$15,350, to purchase one (1) Ski-Doo Summit Snowmobile, Snowmobile Safety gear, and three (3) Handheld GPS;  
Class 060 – Benefits \$2,564, to pay associated fringe benefits on overtime hours; and  
Class 070 – In State Travel \$1,740, to pay mileage expenses for Operation Stonegarden details.

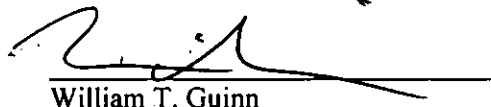

The current authorized budget for FY2021 is \$1,442,948. The requested additional amount of \$27,781 brings the revised FY2021 authorized budget to \$1,470,729.

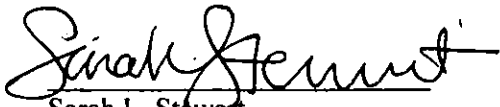

In the event that Federal Funds are no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Concurred,

(97)

**Article I - Summary Description of Award**

The purpose of the FY 2019 HSGP is to support state and local efforts to prevent terrorism and other catastrophic events and to prepare the Nation for the threats and hazards that pose the greatest risk to the security of the United States. The HSGP provides funding to implement investments that build, sustain, and deliver the 32 core capabilities essential to achieving the National Preparedness Goal of a secure and resilient Nation. Among the five basic homeland security missions noted in the DHS Quadrennial Homeland Security Review, HSGP supports the goal to Strengthen National Preparedness and Resilience. The building, sustainment, and delivery of these core capabilities are not exclusive to any single level of government, organization, or community, but rather, require the combined effort of the whole community. These grant programs fund a range of activities, including planning, organization, equipment purchase, training, exercises, and management and administration across all core capabilities and mission areas.

**Article II - Acceptance of Post Award Changes**

In the event FEMA determines that changes are necessary to the award document after an award has been made, including changes to period of performance or terms and conditions, recipients will be notified of the changes in writing. Once notification has been made, any subsequent request for funds will indicate recipient acceptance of the changes to the award.

**Article III - Prior Approval for Modification of Approved Budget**

In part this includes the following long term obligation (paraphrased here for outline purposes only but not meant to be a substitute for understanding and applying the 2 CFR 200.310-200.316): Management requirements. Procedures for managing equipment (including replacement equipment), whether acquired in whole or in part with grant funds, until disposition takes place will, as a minimum, meet the following requirements:
- (1) Property records must be maintained that include a description of the property, a serial number or other identification number, the source of property, who holds title, the acquisition date, and cost of the property, percentage of Federal participation in the cost of the property, the location, use and condition of the property, and any ultimate disposition data including the date of disposal and sale price of the property.

(2) A physical inventory of the property must be taken and the results reconciled with the property records at least once every two years.

(3) A control system must be developed to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft shall be investigated.

(4) Adequate maintenance procedures must be developed to keep the property in good condition.

(5) If the grantee or subrecipient is authorized or required to sell the property, proper sales procedures must be established to ensure the highest possible return.

**Disposition.** Must be reported to Grants Management and completed in accordance with 2 CFR 200. In cases where a grantee or subrecipient fails to take appropriate disposition actions, the awarding agency may direct the grantee or subrecipient to take excess and disposition actions.

**Federal equipment.** In the event a grantee or subrecipient is provided federally-owned equipment:

(1) Title will remain vested in the Federal Government.

(2) Grantees or subrecipients will manage the equipment in accordance with Federal agency rules and procedures, and submit an annual inventory listing.

(3) When the equipment is no longer needed, the grantee or subrecipient will request disposition instructions from the Federal agency.

**Right to transfer title.** The Federal awarding agency may reserve the right to transfer title to the Federal Government or a third part named by the awarding agency when such a third party is otherwise eligible under existing statutes. Such transfers shall be subject to the following standards:

(1) The property shall be identified in the grant or otherwise made known to the grantee in writing.

(2) The Federal awarding agency shall issue disposition instruction within 120 calendar days after the end of the Federal support of the project for which it was acquired. If the Federal awarding agency fails to issue disposition instructions within the 120 calendar-day period the grantee shall follow 2 CFR 200.

(3) When title to equipment is transferred, the grantee shall be paid an amount calculated by applying the percentage of participation in the purchase to the current fair market value of the property.

**Right to transfer title.** The Federal awarding agency may reserve the right to transfer title to the Federal Government or a third part named by the awarding agency when such a third party is otherwise eligible under existing statutes. Such transfers shall be subject to the following standards:

(1) The property shall be identified in the grant or otherwise made known to the grantee in writing.

(2) The Federal awarding agency shall issue disposition instruction within 120 calendar days after the end of the Federal support of the project for which it was acquired. If the Federal awarding agency fails to issue disposition instructions within the 120 calendar-day period the grantee shall follow 2 CFR 200

- (3) When title to equipment is transferred, the grantee shall be paid an amount calculated by applying the percentage of participation in the purchase to the current fair market value of the property.
24. **Records:** The applicant will give the grantor agency or the DHS or the Office of the Inspector General, through any authorized representative, the access to and the right to examine all records, books, papers or documents related to the grant.
25. **Recording and Documentation of Receipts and Expenditures:** Subrecipient's accounting procedures must provide for accurate and timely recording of receipt of funds by source of expenditures made from such funds and unexpended balances. These records must contain information pertaining to grant awards, obligations, unobligated balances, assets, liabilities, expenditures and program income. Controls must be established which are adequate to ensure that expenditures charged to the sub grant activities are for allowable purposes. Additionally, effective control and accountability must be maintained for all grant cash, real and personal property and other assets. Accounting records must be supported by such source documentation as cancelled checks, paid bills, payrolls, time and attendance records, contract documents, grant award documents, etc.
26. **Reports:** The subrecipient shall submit, at such times and in such form as may be prescribed, such reports as DOS may reasonably require, including financial reports, progress reports, final financial reports and evaluation reports.
27. **Final and fiscal close-out Report:** The report is in addition to the cumulative progress reports and is also due 30 days after the end of the grant period.
28. **Retention of Records:** Records for non-expendable property purchased totally or partially with grantor funds must be retained for three years after its final disposition. All other pertinent grant records including financial records, supporting documents and statistical records shall be retained for a minimum of three years after the final expenditure report. However, if any litigation, claim or audit is started before the expiration of the three year period, then records must be retained for three years after the litigation, claim or audit is resolved. Re: Property records see as previously noted in this section: Subrecipients agree to follow the terms of 2 CFR 200.317 - 200.326. In part this includes the following long term obligation (paraphrased here for outline purposes only but not meant to be a substitute for understanding and applying the 2 CFR 200.310-200.316):
29. **Suspension or Termination of Funding:** DOS may suspend, in whole or in part, and/or terminate funding for or impose another sanction on a subrecipient for any of the following reasons:
- Failure to comply substantially with requirements or statutory objectives of the 2003 Omnibus Appropriations Act issued there under, or other provisions of Federal Law;
  - Failure to adhere to the requirements, standard conditions or special conditions;
  - Proposing or implementing substantial program changes to the extent that, if originally submitted, the application would not have been approved for funding;
  - Failure to submit reports;
  - Filing a false certification in this application or other report or document;
  - Other good cause shown.
30. **Utilization and Payment of Grant Funds:** Funds awarded are to be expended only for purposes and activities covered by the subrecipient's approved project plan and budget. Items must be in the subrecipient's approved grant budget in order to be eligible for reimbursement.
31. **Utilization of Minority Businesses:** Subrecipients are encouraged to utilize qualified minority firms where cost and performance of major contract work will not conflict with funding or time schedules.
32. **Written Approval of Changes:** Any mutually agreed upon changes to this sub grant must be approved, in writing, by DOS prior to implementation or obligation and shall be incorporated in written amendments to this grant. This procedure for changes to the approved sub grant is not limited to budgetary changes, but also includes changes of substance in project activities and changes in the project director or key professional personnel identified in the approved application.

**Reporting Requirement: Typing of Equipment and Training:**

Ongoing HSGP Guidance, FOA, and NOFAs require that all where applicable grantees report equipment purchases and the typed capability the equipment supports (where such typing guidance exists); the number of people trained in a given capability to support a reported number of defined resource typed teams (e.g., 63 responders were trained in structural collapse to support 23 Type 2 USAR Teams); and the total number of a defined type of resource and capabilities built utilizing the resources of this grant. Grantees will specify the number of resources, capability supported, whether it is a NIMS or State/local typed resource, the cost, and whether the resource sustains current capabilities or adds new capabilities. The resources should be reported only after equipment is delivered or after training has occurred and the corresponding grant funds have been expended. GMU will advise further on format for reporting upon grant award.

**As a condition of the receipt of these funds:**

*Funding may be suspended or terminated for filing a false certification in this application or other reports or document as part of this program.*

**Tracking of Equipment:**

*Upkeep, maintenance, and training of and for equipment procured as part of the Homeland Security grant program is a local and/or grantee responsibility. The inventory of this equipment is a local responsibility and the recipient of such understands that inspections, auditing, and inventory accounting of this equipment may occur as a condition of this grant either from Federal, State or other appropriate level agency and agent.*

**Equipment valued over \$5,000:**

*To comply with OMB 2 CFR 200 equipment valued at this level must inventoried and tracked locally and be reported to the State Department of Safety (DOS) - Grants Management Unit for 2 years or until the item carries a depreciated value of less than \$250. The disposition of the equipment must be reported. DOS recommends consulting with local auditor's compliance and disposition rules governing equipment procured with Federal funds.*

**Certification by Official Authorized to Sign**

I certify that I understand and agree to comply with the general and fiscal provisions of this grant application including the terms and conditions; to comply with provisions of the regulations governing these funds and all other federal and state laws; that all information presented is correct; that there has been appropriate coordination with affected agencies; that I am duly authorized by the Applicant to perform the tasks of the Official Authorized to Sign as they relate to the requirements of this grant application; that costs incurred prior to Grantee approval may result in the expenditures being absorbed by the subrecipient; and, that the receipt of these grant funds through the Grantee will not supplant state or local funds. **CERTIFICATION: I CERTIFY THAT I AM DULY AUTHORIZED UNDER THE STATUTES OF THE STATE OF NH TO APPLY FOR, AUTHORIZE, OR ACCEPT THE HOMELAND SECURITY GRANT FUNDS / EQUIPMENT HEREIN. \*\*\*THE AUTHORIZING OFFICIAL MUST BE STATUTORILY ALLOWED TO SIGN A CONTRACT FOR THE MUNICIPALITY (i.e. Mayor, City Manager, Town Manager, Chairperson BOS, etc.) PER RSA 31:95b or RSA 37:6**

**Non-Supplanting Certification:** This certification, which is a required component of the New Hampshire application, affirms that federal Homeland Security grant funds will be used to supplement (add to) existing funds, and will not supplant (replace) funds that have been locally appropriated for the same purpose. Potential supplanting will be addressed in the application review as well as in the pre-award review, post

award monitoring, and the audit. DHS/FEMA L.B. 379 allows as well as FP-205-402-125-1 which apply to maintenance and sustainment of grant or in some cases non-grant acquired capabilities with specific definitions. Applicants and/or grantees will be/may be required to supply documentation certifying that a reduction in non-federal resources occurred for reasons OTHER than the receipt or expected receipt of federal Homeland Security grant funds. Supplanting funds is loosely defined (for these purposes) as using federal grant money to "replace" or "take the place of" existing local funding for equipment or programs. The funds are intended to provide local entities with increased or in 2019 sustained capabilities or to build capacity to address CBRNE/WMD terrorist incidents.

**National Incident Management System (NIMS) Implementation** Prior to allocation of any Federal preparedness awards in FY 2019, recipients must ensure and maintain adoption and implementation of NIMS. FEMA describes the specific activities involved in NIMS implementation in the NIMS Implementation Objectives (<https://www.fema.gov/implementation-guidance-and-reporting>). Incident management activities require carefully managed resources (personnel, teams, facilities, equipment and/or supplies). Utilization of the standardized resource management concepts such as typing, credentialing and inventorying promote a strong national mutual aid capability needed to support delivery of core capabilities. Recipients should manage resources purchased or supported with FEMA grant funding according to NIMS resource management guidance. Additional information on resource management and NIMS resource typing definitions and job titles/position qualifications is on DHS/FEMA's website under <http://www.fema.gov/resource-management-mutual-aid>.
