Her Excellency, Governor Margaret Wood Hassan
and the Honorable Executive Council
State House
Concord, NH 03301

REQUESTED ACTION

Authorize the Department of Health and Human Services to amend existing individual agreements with the state's two managed care health plans, Granite State Health Plan, d/b/a New Hampshire Healthy Families, 264 South River Road, Bedford, NH 03110 and Boston Medical Center HealthNet Plan, d/b/a Well Sense Health Plan, 2 Copley Place, Suite 600, Boston, MA 02116, in order to:

- (i) Limit the New Hampshire Health Protection Program population, that is currently covered in managed care medical services, to include only those individuals who are "Medically Frail" and choose to participate in the New Hampshire Health Protection Program Alternative Benefit Plan.
- (ii) Adjust rates to reflect the actuarially certified rate structure for the inclusion of the Medically Frail population, through June 30, 2016, as described in Exhibit B – Amendment #9. For convenience of reference, the actuarially certified rate structure for the balance of populations served through June 30, 2016, previously approved by the Governor and Council, is restated in Exhibit B; and
- (iii) Revise the targeted implementation date for phasing into the Care Management program Step II waiver services for those persons receiving nursing facility care services and for those persons on the Choices for Independence Waiver.

These agreements, if approved, would be effective January 1, 2016, upon approval of the Governor and Council, through June 30, 2017. These amendments decrease the SFY 2016 price limitation by \$12,370,652 from \$726,310,536 to \$713,939,884 for a cumulative contract value of \$1,616,939,884 for all Medicaid Care Management contracts, subject to the approval of the Governor and Executive Council and subject to the continued availability and continued appropriation of funds.

Governor and Executive Council approved the original agreements on May 9, 2012 (Item #54A) and then approved subsequent amendments on June 19, 2013 (Item #67A), February 12, 2014 (Item #25), April 9, 2014 (Item #44), June 18, 2014 (Item #65A), July 16, 2014 (Late Item "A"), December 23, 2014 (Item #11), June 24, 2015 (Item #30), and August 5, 2015 (Tabled Item #A). 100% Federal Funds for the New Hampshire Health Protection Program, 50% Federal and 50% General Funds for the currently eligible Medicaid population.

EXPLANATION

The purpose of these amendments with the two managed care health plans is to amend services through June 30, 2017, and to amend associated capitation rates through June 30, 2016, effective January 1, 2016. The original agreements were competitively bid.

The Department commenced the Medicaid Care Management Program in December 2013, providing acute care medical services primarily to low income children and adults, pregnant women, newborns, and those receiving breast and cervical cancer treatments. While not all Medicaid-eligible individuals are required to obtain their health care coverage through the Medicaid Care Management Program, at the present time, approximately 123,000 individuals do. Additionally, over 45,000 individuals receive coverage through the managed care health plans under the New Hampshire Health Protection Act at 100% federal cost through December 31, 2016.

Consistent with legislative intent under the New Hampshire Health Protection Act, New Hampshire Health Protection Program participants initially began receiving health care coverage and services through a bridge – the managed care health plans addressed in this request. This health care bridge is set to remain in place until alternative benefit plans are made available through commercial insurers in 2016. Beginning January 1, 2016, individuals receiving health care coverage pursuant to the New Hampshire Health Protection Act will instead receive coverage under the Marketplace Premium Assistance Program, effectively ending the need for a bridge to the managed care health plans. Accordingly, the managed care health plan agreements' scope carves these individuals out of the managed care contracts beginning January 1, 2016.

Similarly, legislative intent addressed the unique and complex health care needs of Medically Frail individuals eligible for participation in the New Hampshire Health Protection Program. These individuals are not required to receive their health care coverage through the managed care program. As such, many enrolled in the more traditional Medicaid fee-for-service model. However, with the New Hampshire Health Protection Program's population soon moving to commercial insurance coverage, the Department negotiated amendments to the managed care contracts to ensure that the Medically Frail still have access to the managed care health plans through an "opt in" provision. The Department anticipates that up to 5,000 Medically Frail individuals, within the New Hampshire Health Protection Program's eligible population, will choose to "opt in" to the managed care health plan.

In addition, these amendments revise the implementation date for including certain subsets of the Medicaid population in the Medicaid Care Management Program. Specifically, these amendments delay the inclusion of persons receiving nursing facility care services by eight months, from January 1, 2016 to September 1, 2016, and delays the inclusion of persons on the Choices for Independence Waiver by two months, from July 1, 2016 to September 1, 2016. These subsets are part of the Step 2 implementation of the program and were previously approved by Governor and Executive Council for inclusion in the program.

These agreements do not fully implement managed care services for those persons receiving waived services under the Developmental Disabled Services Waiver, the Acquired Brain Syndrome Waiver and the In Home Supports Waiver. The Department will establish implementation dates for those services at a later date and after further public input.

Exhibit A to the Agreement describes the obligations of the managed care health plans in providing services to the Medicaid population subsets that participate in the health plans. Although Exhibit A establishes the target date for incorporating nursing services into the Care Management Program, the detailed obligations of the managed care health plans for nursing services is not included and will be brought forth in a further amendment to the Governor and Council in advance of its scheduled start date.

Exhibit B to the Agreement reflects the adjusted capitated rate information through June 30, 2016. The rates are identified by subsets of the Medicaid population that participate in the health plan. These include: acute care medical services rates for ten subsets, such as low income children, children in foster care, elderly and disabled adults, and dual eligible individuals; rates specific to Behavioral Health services; the Medically Frail; and *Step I acute care medical services only* rates for four populations -- nursing home residents, community (Choices for Independence) residents, developmentally disabled persons, and persons with acquired brain disorders. Rate cell categories and their subsets are based on age and eligibility categories, and reflect the Department's emphasis on establishing rate categories determined on a whole person approach to health care.

Exhibit B reflects the extension of previously approved capitated rates, through June 30, 2016, for the subsets for *Step I acute care medical services only* rates for four populations -- nursing home residents, community (Choices for Independence) residents, developmentally disabled persons, and persons with acquired brain disorders. Due to the aforementioned delayed commencement of Step II services for Choices for Independence Waiver program, Exhibit B no longer includes previously projected capitated rates, that were inclusive of Step II services for these four populations, for the for the period of January 1, 2016 through June 30, 2016.

Exhibit O to the Agreement pertaining to quality measures has also been revised to ensure that the Department has in place the most appropriate quality metrics for all persons receiving services. The revised version of Exhibit O includes specific quality metrics for Medically Frail individuals. As the Department continues to phase in Step II services, Exhibit O, as well as other sections of the agreement, will continue to be revised to reflect best practices that ensure the protection and rights of New Hampshire's citizens receiving Medicaid services.

Area Served: Statewide

Source of funds: Federal financial participation rates for the currently eligible population will be 50% federal funds as appropriated by Congress for the entire period of this amendment. Federal financial participation rates for the New Hampshire Health Protection services be 100% federal funds as appropriated by Congress for the entire period of this Amendment.

In the event that Federal funds become no longer available or are decreased below the 100% FFP level for the New Hampshire Health Protection population, as provided under the New Hampshire Health Protection Act, General Funds will not be requested to support this program and the medical services for the new adult population would end within 90 days.

- 18.2.13. As clarified by Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination on the basis of Limited

The MCO shall instruct members to return the Accident Questionnaire to DHHS. The MCO shall provide the guidelines and procedures to DHHS for review and approval prior to the first readiness review.
- 27.4.3. Due to potential time constraints involving accident and trauma cases and due to the large dollar value of many claims which are potentially recoverable by DHHS, the MCO must identify these cases before a settlement has been negotiated. Should DHHS fail to identify and establish a claim prior to settlement due to the MCO's untimely submission of notice of legal involvement where the MCO has received such notice, the amount of the actual loss of recovery shall be assessed against the MCO. The actual loss of recovery shall not include the attorney's fees or other costs, which would not have been retained by DHHS.
- 27.4.4. The MCO has the latter of eighteen (18) months from the date of service or twelve (12) months from the date of payment of health-related insurance resources to initiate recovery and may keep any funds that it collects. The MCO must indicate its intent to recover on health-related insurance by providing to DHHS an electronic file of those cases that will be pursued. The cases must be identified and a file provided to DHHS by the MCO within thirty (30) days of the date of discovery of the resource.

27.4.5. The MCO is responsible for pursuing, collecting, and retaining recoveries of health-related insurance resources where the liable party has improperly denied payment based upon either lack of a Medically Necessary determination or lack of coverage. The MCO is encouraged to develop and implement cost-effective procedures to identify and pursue cases which are susceptible to collection through either legal action or traditional subrogation and collection procedures.

27.5. DHHS Post Payment Recovery Activity

27.5.1. DHHS retains the sole and exclusive right to investigate, pursue, collect and retain all Other Resources, including accident and trauma. DHHS is assigned the MCO's subrogation rights to collect the "Other Resources" covered by this provision. Any correspondence or Inquiry forwarded to the MCO (by an attorney, provider of service, insurance carrier, etc.) relating to a personal injury accident or trauma-related medical service, or which in any way indicates that there is, or may be, legal involvement regarding the Recipient and the services which were provided, must be immediately forward to DHHS.

27.5.2. The MCO may neither unreasonably delay payment nor deny payment of Claims because they involved an injury stemming from an accident such as a motor vehicle accident, where the services are otherwise covered. Those funds recovered by DHHS under the scope of these "Other Resources" shall be retained by DHHS.

27.5.3. DHHS may pursue, collect and retain recoveries of all health-related insurance cases; provided, however, that if the MCO has not notified DHHS of its intent to pursue a case identified for recovery before the latter of eighteen (18) months after the date of service or twelve (12) months after the date of payment, such cases not identified for recovery by the MCO will become the sole and exclusive right of DHHS to pursue, collect and retain. The MCO must notify DHHS through the prescribed electronic file process of all outcomes for those cases identified for pursuit by the MCO.

27.5.4. Should DHHS lose recovery rights to any Claim due to late or untimely filing of a Claim with the liable third party, and the untimeliness in billing that specific Claim is directly related to untimely submission of Encounter Data or additional records under special request, or inappropriate denial of Claims for accidents or emergency care in casualty related situations, the amount of the unrecoverable Claim shall be assessed against the MCO.

28.2. Non-Discrimination

28.2.1. The MCO shall require its providers and subcontractors to comply with the Civil Rights Act of 1964 (42 U.S.C. § 2000d), Title IX of the Education Amendments of 1972 (regarding education programs and activities), the Age Discrimination Act of 1975, the Rehabilitation Act of 1973, the regulations (45 C.F.R. Parts 80 & 84) pursuant to that Act, and the provisions of Executive Order 11246, Equal Opportunity, dated September 24, 1965, and all rules and regulations issued thereunder, and any other laws, regulations, or orders which prohibit discrimination on grounds of age, race, ethnicity, mental or physical disability, sexual or affection orientation or preference, marital status, genetic information, source of payment, sex, color, creed, religion, or national origin or ancestry.

28.2.2. ADA Compliance

28.2.2.1. The MCO shall require its providers or subcontractors to comply with the requirements of the Americans with Disabilities Act (ADA). In providing health care benefits, the MCO shall not directly or indirectly, through contractual, licensing, or other arrangements, discriminate against Medicaid beneficiaries who are qualified disabled individuals covered by the provisions of the ADA.

28.2.2.1.1. A "qualified individual with a disability" defined pursuant to 42 U.S.C. § 12131 is an individual with a disability who, with or without reasonable modifications to rules, policies, or practices, the removal of architectural, communication, or transportation barriers, or the provision of auxiliary aids and services, meets the essential eligibility requirements for the receipt of services or the participation in programs or activities provided by a public entity (42 U.S.C. § 12131).

28.2.2.2. The MCO shall submit to DHHS a written certification that it is conversant with the requirements of the ADA, that it is in compliance with the law, and that it has assessed its provider network and certifies that the providers meet ADA requirements to the best of the MCO's knowledge. The MCO shall survey its providers of their compliance with the ADA using a standard survey document that will be developed by the State. Survey attestation shall be kept on file by the MCO and shall be available for inspection by the

DHHS. The MCO warrants that it will hold the State harmless and indemnify the State from any liability which may be imposed upon the State as a result of any failure of the MCO to be in compliance with the ADA. Where applicable, the MCO shall abide by the provisions of Section 504 of the federal Rehabilitation Act of 1973, as amended, 29 U.S.C. § 794, regarding access to programs and facilities by people with disabilities.

28.2.2.3. The MCO shall have written policies and procedures that ensure compliance with requirements of the Americans with Disabilities Act of 1990, and a written plan to monitor compliance to determine the ADA requirements are being met. The compliance plan shall be sufficient to determine the specific actions that will be taken to remove existing barriers and/or to accommodate the needs of members who are qualified individuals with a disability. The compliance plan shall include the assurance of appropriate physical access to obtain included benefits for all members who are qualified individuals with a disability including, but not limited to, street level access or accessible ramp into facilities; access to lavatory; and access to examination rooms.

28.2.2.4. The MCO shall forward to DHHS copies of all grievances alleging discrimination against members because of race, color, creed, sex, religion, age, national origin, ancestry, marital status, sexual or affectional orientation, physical or mental disability for review and appropriate action within three (3) business days of receipt by the MCO.

28.2.3. Non-Discrimination in employment:

28.2.3.1. The MCO shall not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The MCO will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The MCO agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this nondiscrimination clause.

28.2.3.2. The MCO will, in all solicitations or advertisements for employees placed by or on behalf of the MCO, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex or national origin.

- 28.2.3.3. The MCO will send to each labor union or representative of workers with which he has a collective bargaining Agreement or other Agreement or understanding, a notice, to be provided by the agency contracting officer, advising the labor union or workers' representative of the MCO's commitments under Section 202 of Executive Order No. 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
- 28.2.3.4. The MCO will comply with all provisions of Executive Order No. 11246 of Sept. 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.
- 28.2.3.5. The MCO will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the contracting agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.
- 28.2.3.6. In the event of the MCO's noncompliance with the nondiscrimination clauses of this Agreement or with any of such rules, regulations, or orders, this Agreement may be cancelled, terminated or suspended in whole or in part and the MCO may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order No. 11246 of Sept. 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.
- 28.2.3.7. The MCO will include the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order No. 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The MCO will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions including sanctions for noncompliance: Provided, however, that in the event the MCO becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the MCO may request the United States to enter into such litigation to protect the interests of the United States.

28.2.4. Non-Discrimination in Enrollment

- 28.2.4.1. The MCO shall and shall require its providers and subcontractors to accept assignment of an member and not discriminate against eligible members

because of race, color, creed, religion, ancestry, marital status, sexual orientation, national origin, age, sex, physical or mental handicap in accordance with Title VI of the Civil Rights Act of 1964, 42 U.S.C. § 2000d, Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 794, the Americans with Disabilities Act of 1990 (ADA), 42 U.S.C. § 12131 and rules and regulations promulgated pursuant thereto, or as otherwise provided by law or regulation.

28.2.4.2. The MCO shall and shall require its providers and subcontractors to not discriminate against eligible persons or members on the basis of their health or mental health history, health or mental health status, their need for health care services, amount payable to the MCO on the basis of the eligible person's actuarial class, or pre-existing medical/health conditions.

28.2.5. Non-Discrimination with Respect to Providers

28.2.5.1. The MCO shall not discriminate with respect to participation, reimbursement, or indemnification as to any provider who is acting within the scope of the provider's license or certification under applicable State law, solely on the basis of such license or certification or against any provider that serves high-risk populations or specializes in conditions that require costly treatment. This paragraph shall not be construed to prohibit an organization from including providers only to the extent necessary to meet the needs of the organization's members, from establishing any measure designed to maintain quality and control costs consistent with the responsibilities of the organization, or use different reimbursement amounts for different specialties or for different practitioners in the same specialty. If the MCO declines to include individual or groups of providers in its network, it shall give the affected providers written notice of the reason for the decision.

28.3. Changes in Law

28.3.1. The MCO shall implement appropriate system changes, as required by changes to federal and state laws or regulations.

29. Administrative Quality Assurance Standards

29.1. Claims Payment Standards

29.1.1. The MCO shall pay or deny ninety-five percent (95%) of clean claims within thirty (30) days of receipt, or receipt of additional information [42 CFR 447.46; 42 CFR 447.45(d)(2), (d)(3), (d)(5), and (d)(6)].

29.1.2. The MCO shall pay interest on any clean claims that are not paid within thirty (30) days at the interest rate published in the Federal Register in January of each year for the Medicare program.

29.1.3. The MCO shall pay or deny all claims within sixty (60) days of receipt.

29.1.4. Additional information necessary to process incomplete claims shall be requested from the provider within thirty (30) days from the date of original claim receipt.

29.1.5. For purposes of this requirement, New Hampshire DHHS has adopted the claims definitions established by CMS under the Medicare program, which are as follows:

29.1.5.1. “clean” claim: a claim that does not have any defect, impropriety, lack of any required substantiating documentation, or particular circumstance requiring special treatment that prevents timely payment; and

29.1.5.2. “incomplete” claim: a claim that is denied for the purpose of obtaining additional information from the provider.

29.1.6. Claims payment timeliness shall be measured from the received date, which is the date a paper claim is received in the MCO’s mailroom or an electronic claim is submitted. The paid date is the date a payment check or electronic funds transfer is issued to the service provider. The denied date is the date at which the MCO determines that the submitted claim is not eligible for payment.

29.2. Quality Assurance Program

29.2.1. The MCO shall maintain an internal program to routinely measure the accuracy of claims processing for MCIS and report results to DHHS on a monthly basis.

29.2.2. Monthly reporting shall be based on a review of a statistically valid sample of paid and denied claims determined with a ninety-five percent (95%) confidence level, +/- three percent (3%), assuming an error rate of three percent (3%) in the population of managed care claims.

29.2.3. The MCO shall implement Corrective Action Plans to identify any issues and/or errors identified during claim reviews and report resolution to DHHS.

29.3. Claims Financial Accuracy

29.3.1. Claims financial accuracy measures the accuracy of dollars paid to providers. It is measured by evaluating dollars overpaid and underpaid in relation to total paid amounts taking into account the dollar stratification of claims. The MCO shall pay ninety-nine percent (99%) of dollars accurately.

29.4. Claims Payment Accuracy

29.4.1. Claims payment accuracy measures the percentage of claims paid or denied correctly. It is measured by dividing the number of claims paid/denied correctly by the total claims reviewed. The MCO shall pay ninety-seven percent (97%) of claims accurately.

29.5. Claims Processing Accuracy

29.5.1. Claims processing accuracy measures the percentage of claims that are accurately processed in their entirety from both a financial and non-financial perspective; i.e., claim was paid/denied correctly and all coding was correct, business procedures were followed, etc. It is measured by dividing the total number of claims processed correctly by the total number of claims reviewed. The MCO shall process ninety-five percent (95%) of all claims correctly.

30. Privacy and Security of Members

30.1. General Provisions

- 30.1.1. The MCO shall be in compliance with privacy policies established by governmental agencies or by State or federal law.
- 30.1.2. The MCO shall provide sufficient security to protect the State and DHHS data in network, transit, storage, and cache.
- 30.1.3. In addition to adhering to privacy and security requirements contained in other applicable laws and statutes, the MCO shall execute as part of this Agreement a Business Associates Agreement governing the permitted uses and disclosure and security of Protected Health Information.
- 30.1.4. The MCO shall ensure that it uses and discloses individually identifiable health information in accordance with HIPAA privacy requirements in 45 CFR parts 160 and 164, subparts A and E, to the extent that these requirements are applicable [42 CFR 438.224]; complies with federal statutes and regulations governing the privacy of drug and alcohol abuse patient records (42 CFR, Part 2), and all applicable state statutes and regulations, including but not limited to: R.S.A. 167:30: protects the confidentiality of all DHHS records with identifying medical information in them.
- 30.1.5. With the exception of submission to the Comprehensive Healthcare Information System or other requirements of State or federal law, claims and member data on New Hampshire Medicaid members may not be released to any party without the express written consent of DHHS.
- 30.1.6. The MCO shall ensure that in the process of coordinating care, each member's privacy is protected consistent with the confidentiality requirements in 45 CFR parts 160 and 164. 45 CFR Part 164 specifically describes the requirements regarding the privacy of individually identifiable health information [42 CFR 438.208(b)(1), (2), and (3)].

31. Finance

31.1. Financial Standards

- 31.1.1. In compliance with 42 CFR 438.116, the MCO shall maintain a minimum level of capital as determined in accordance with New Hampshire NHID regulations, and any other relevant laws and regulations.
- 31.1.2. The MCO shall maintain a risk-based capital (RBC) ratio to meet or exceed the NHID regulations, and any other relevant laws and regulations.
- 31.1.3. With the exception of payment of a claim for a medical product or service that was provided to a member, and that is in accordance with a written Agreement with the provider, the MCO may not pay money or transfer any assets for any reason to an affiliate without prior approval from DHHS, if any of the following criteria apply:
 - 31.1.3.1. RBC ratio was less than 2.0 for the most recent year filing, per R.S.A. 404-F:14 (III); and
 - 31.1.3.2. MCO was not in compliance with the NHID solvency requirement.
- 31.1.4. The MCO shall notify DHHS within ten (10) calendar days when its Agreement with an independent auditor or actuary has ended and seek approval of, and the name of the replacement auditor or actuary, if any from DHHS.
- 31.1.5. The MCO shall maintain current assets, plus long-term investments that can be converted to cash within seven (7) calendar days without incurring a penalty of more than twenty percent (20%) that equal or exceed current liabilities.
- 31.1.6. The MCO shall not be responsible for DSH/GME (IME/DME) payments to hospitals. DSH and GME amounts are not included in capitation payments.

31.2. Capitation Payments

- 31.2.1. Preliminary capitation rates for non NHHPP members for the agreement period through June 30, 2016 are shown in Exhibit B. These capitation rates shall be reassessed and updated by DHHS to reflect MCOs' recent cost experience in accordance with the process described in Section 31.2.7. For each of the subsequent years of the Agreement actuarially sound per member, per month capitated rates will be calculated and certified by the DHHS's actuary.
- 31.2.2. Capitation rates for NHHPP members are shown in Exhibit B and were determined as part of Agreement negotiations, any best and final offer process, and the DHHS actuary's soundness certification.

- 31.2.3. Capitation rate cell is determined as of the first day of the capitation month and does not change during the entire month regardless of member changes (e.g., age).
- 31.2.4. For claims incurred after September 1, 2015, all hepatitis C drugs and other specialty drugs, including orphan drugs, shall be paid for by the MCO, except for the individuals enrolled in the New Hampshire Health Protection Program for which DHHS shall make a pass through payment.
- 31.2.5. The MCO shall process and pay claims related to Mental Health Case Management Services and Rehabilitative Mental Health Services on an administrative services only basis, except for NHHPP, and will be reimbursed by DHHS in a retrospective manner. Claims shall be paid by the MCO according to fee-for-service rates established by DHHS; except that NHHPP claims shall be at the rates prescribed according to Section 21.2.9.4. DHHS will implement a pass-through program with payments to be made no later than 45 days after the last day of the month the claims were paid by the MCO.
- 31.2.6. DHHS will make a monthly payment to the MCO for each member enrolled in the MCO's plan. The capitation rates, as set forth in Exhibit B, will be risk adjusted in an actuarially sound manner as follows:
- 31.2.6.1. The Chronic Illness and Disability Payment System and/or Medicaid Rx risk adjuster (CDPS + Rx, Medicaid Rx) will be used to risk adjust MCO capitation payments based on MCO encounter data availability. Until complete and validated MCO encounter data is available, the Medicaid Rx risk adjustment model will be used. Once complete and validated MCO encounter data becomes available, the risk adjustment process will transition to the CDPS+Rx model. The risk adjustment process will use prospective risk weights.
- 31.2.7. DHHS shall reassess the preliminary capitation rates for non NHHPP members set forth in Exhibit B for actuarial soundness by considering recent MCO encounter data, specific MCO formulary data, and other relevant factors that support MCO's cost experience for non NHHPP members. DHHS shall conclude such reassessment and share the updated rates with MCO by no later than February 10, 2016, in order to allow MCO sufficient time to review the rates and offer DHHS feedback. If DHHS and MCO agree on the proposed rates, the parties shall execute an amendment to this Agreement prior to March 1, 2016, with such rates to be made retroactive to January 1, 2016. If DHHS and MCO do not agree on the proposed rates, MCO shall have all rights available under Section 32.5.2.
- 31.2.8. A risk score will be developed for members with six (6) months or more months of Medicaid eligibility (either FFS or managed care) inclusive of three (3) months of claims run out in the base experience period. For members with less than six

(6) months of eligibility, a score equal to the average of those scored beneficiaries in each cohort will be used.

- 31.2.9. The MCO risk score for a particular rate cell will equal the average risk factor across all beneficiaries that the MCO enrolls divided by the average risk factor for the entire population enrolled in the Care Management program. For rate cells with an opt-out provision, the MCO risk score will equal the average risk factor across all beneficiaries that the MCO enrolls divided by the average risk factor for the entire population that is eligible to enroll in the Care Management program (FFS eligibles + MCO members).
- 31.2.10. While Supplemental Behavioral Health payments are made, members eligible for enhanced behavioral health services will be assigned a 1.000 risk factor and will be included in the MCO risk score calculation. The resulting MCO risk scores by rate cell will apply to the base capitation rates only. Effective September 1, 2015, behavioral health rate cells will be risk adjusted.
- 31.2.11. DHHS reserves the right to terminate or implement the use of a risk adjustment process for specific eligibility categories or services if it is determined to be necessary to do so to maintain actuarially sound rates. For example, the risk adjustment process may need to be modified when Long Term Services and Supports (LTSS) are added to the capitation rates.
- 31.2.12. The capitation payment for Medicaid Managed Care members will be made retrospectively with a two (2) month delay. For example, a payment will be made within five (5) business days of the first day in October 2012 for services provided in July 2012.
- 31.2.13. Section 31.2.7 notwithstanding, capitation payments for NHHPP members will be paid in the month of service.
- 31.2.14. Capitation payment settlements will be made at three (3) month intervals. DHHS will recover capitation payments made for deceased members, or members who were later determined to be ineligible for Medicaid and/or for Medicaid managed care or need rate cell or kick payment corrections. DHHS will pay MCO for retroactive member assignments, corrections to kick payments, behavioral health certification level correction or other rate assignment corrections.
- 31.2.15. Capitation payments for members who became ineligible for services in the middle of the month will be prorated based on the number of days eligible in the month.
- 31.2.16. For each live birth, DHHS will make a one-time maternity kick payment to the MCO with whom the mother is enrolled on the date of birth. This payment is a global fee to cover all maternity expenses, including all delivery and postpartum
-

care. In the event of a multiple birth DHHS will only make only one maternity kick payment. A live birth is defined in accordance with NH Vital Records reporting requirements for live births as specified in RSA 5-C.

- 31.2.17. For each live birth, DHHS will make a one-time newborn kick payment to the MCO with whom the mother is enrolled on the date of birth. This payment is a global fee to cover all newborn expenses incurred in the first two (2) full or partial calendar months of life, including all hospital, professional, pharmacy, and other services. For example, the newborn kick payment will cover all services provided in July 2012 and August 2012 for a baby born any time in July 2012. Enrolled babies will be covered under the MCO capitated rates thereafter.
- 31.2.18. The MCO shall submit information on maternity and newborn events to DHHS. The MCO shall follow written policies and procedures, as developed by DHHS, for receiving, processing and reconciling maternity and newborn payments.
- 31.2.19. Beginning July 1, 2016, one percent (1.0%) of each member's capitation payment to the MCO will be withheld annually to support DHHS's payment reform incentive program. Details of the Incentive Program are described in Section 9.
- 31.2.20. DHHS will inform the MCO of any required program revisions or additions in a timely manner. DHHS may adjust the rates to reflect these changes as necessary to maintain actuarial soundness.
- 31.2.21. In the event an enrolled Medicaid member was previously admitted as a hospital inpatient and is receiving continued inpatient hospital services on the first day of coverage with the MCO, the MCO shall receive full capitation payment for that member. The entity responsible for coverage of the member at the time of admission as an inpatient, i.e. either DHHS or another MCO, shall be fully responsible for all inpatient care services and all related services authorized while the member was an inpatient until the day of discharge from the hospital.
- 31.2.22. Payment for behavioral health rate cells shall be determined based on a member's CMHC behavioral certification level and a member having had an encounter at a CMHC in the last 6 months. Changes in the certification level for a member shall be reflected as of the first of each month and does not change during the month.
- 31.2.23. For Applied Behavioral Analysis (ABA) services incurred on or after September 1, 2015 the MCO shall not be financially responsible for claims for ABA services provided that the MCO obtained prior approval from DHHS of prior authorizations for the services. DHHS shall make pass through payments to the MCO for those ABA services approved by DHHS.

31.2.24. Unless MCOs are exempted, through legislation or otherwise, from having to make payments to the New Hampshire Insurance Administrative Fund (Fund) pursuant to R.S.A. 400-A:39, DHHS shall reimburse MCO for MCO's annual payment to the Fund on a pass through basis within 30 days following receipt of invoice from the MCO and verification of payment by the NH Insurance Department.

31.2.25. For any member with claims exceeding five hundred thousand dollars (\$500,000) for the fiscal year, DHHS will reimburse fifty percent (50%) of the amount over five hundred thousand dollars (\$500,000) after all claims have been recalculated based on the DHHS fee schedule for the services. For a member whose services may be projected to exceed five hundred thousand dollars (\$500,000) in MCO claims, the MCO shall advise DHHS. Prior authorization from DHHS is required for subsequent services provided to the member.

31.3. NHHPP Risk Protection Structure

31.3.1. DHHS will implement risk adjustment and risk corridors for NHHPP. There will be two parts to the risk adjustment component. Part 1 will increase or decrease the total amount of MCO revenue for the actual opt out percentage and relative acuity level of the medically frail population compared to the rate setting assumptions. Part 2 will reallocate revenue between the MCOs based on the relative acuity level of their enrolled populations. Risk corridors will be applied after the Part 1 and Part 2 risk adjustment calculations.

31.3.1.1. Risk adjustment – Part 1 (Medically Frail Opt-Out Adjustment) – the NHHPP capitation rates are based on assumptions regarding the percentage of the NHHPP population opting out of the ABP due to self-reported medically frail status and their relative acuity level. As part of the contract settlement process, DHHS will measure the size based on member months and relative acuity level based on risk scores of the actual opt-out population and adjust NHHPP capitation rates appropriately. Part 1 of risk adjustment will increase (or decrease) the total amount of MCO revenue. If a lower percentage of the population opts out and/or the opt-out acuity level is lower than expected based on the opt-out and acuity assumptions in the capitation rate development, MCO capitation rates will increase. If a larger percentage of the population opts out and/or the opt-out acuity level is higher than expected based on the opt-out and acuity assumptions in the capitation rate development, MCO capitation rates will decrease.

31.3.1.2. Risk adjustment – Part 2 (MCO Revenue Reallocation) – Similar to the risk adjustment process for the current Medicaid Step 1 population under the MCM program, risk adjustment will shift revenue from MCOs with lower acuity populations to MCOs with higher acuity populations. This portion of the risk adjustment process is revenue neutral.

31.3.2. Risk adjustment – Methodology – Acuity will be measured using the CDPS+Rx, a diagnosis and pharmacy based risk adjuster that will also be used for the current Medicaid population. Key differences in the risk adjustment process for the NHHPP population include:

31.3.2.1. DHHS will use concurrent risk adjustment for the NHHPP population. Since the NHHPP population will not have a Medicaid claims history with diagnosis and pharmacy data, it will take six months or more to get a credible picture of the acuity level of the enrolled population. DHHS will use September 2014 – December 2015 claims to estimate September 2014 – December 2015 acuity (as opposed to prospective models that use a prior year’s claims to estimate current acuity).

31.3.2.2. Risk adjustment transfer payments will be made as part of the contract period settlement, not as prospective payments.

31.3.2.3. DHHS will use a pharmacy-only risk adjuster to monitor the actual population acuity of the population receiving the ABP compared to the rate setting assumptions and make corrections during the rate period if necessary. DHHS is committed to transparency of risk adjustment results and will issue quarterly reporting on a timely basis to MCO to facilitate evaluation of financial performance under risk adjustment.

31.3.3. Risk corridors – The private market risk corridor program for calendar years 2014 – 2016 will protect against uncertainty in annual profit or loss results for qualified health plans in and out of the individual and small group exchanges. DHHS will use a similar risk corridor structure for NHHPP. DHHS will establish a target medical loss ratio (MLR) of 89.0% based on NHHPP pricing assumptions:

31.3.3.1. Administrative allowance of 9.0% of the capitation rate prior to state premium tax

31.3.3.2. New Hampshire state premium tax of 2%

31.3.3.3. DHHS and each MCO will share the financial risk of actual results that are above or below the MLR target as shown in the table below:

New Hampshire Department of Health and Human Services New Hampshire Health Protection Program Population Risk Corridor Program		
Actual MLR Compared to Target MLR	MCO Share	DHHS Share

>3% below	10%	90%
1% - 3% below	50%	50%
1% below - 1% above	100%	0%
1% - 3% above	50%	50%
>3% above	10%	90%

31.3.3.4. Risk corridors will be applied after the Part 1 and Part 2 risk adjustment calculations.

31.3.4. Risk protection settlement will occur after the September 2014 – December 2015 NHHPP contract period has ended and enough time has passed to collect and validate MCO encounter data and financial data. DHHS will implement the following schedule for the final risk protection settlement:

31.3.4.1. December 31, 2015: end of NHHPP contract period

31.3.4.2. March 31, 2016: Cutoff date for encounter data to be used in the risk protection settlement calculations (September 2014 – December 2015 dates of service paid through March 31, 2016)

31.3.4.3. May 15, 2016: DHHS releases settlement payment report to MCOs

31.3.4.4. June 15, 2016: DHHS makes/receives final settlement payments to/from MCOs

31.3.4.5. An interim calculation will be performed with data through December 31, 2015. DHHS shall provide quarterly reports to MCO of estimated risk adjustment impact utilizing pharmacy data to facilitate MCOs evaluation of the impact of risk adjustment on capitation revenue.

31.4. Financial Responsibility for Dual-Eligibles

31.4.1. The MCO shall pay any Medicare coinsurance and deductible amount up to what New Hampshire Medicaid would have paid for that service, whether or not the Medicare provider is included in the MCO’s provider network. These payments are included in the calculated capitation payment.

31.5. Premium Payments

31.5.1. DHHS is responsible for collection of any premium payments from members. If the MCO inadvertently receives premium payments from members, it shall inform the member and forward the payment to DHHS.

31.6. Sanctions

31.6.1. If the MCO fails to comply with the financial requirements in Section 31, DHHS may take any or all of the following actions:

31.6.1.1. Require the MCO to submit and implement a Corrective Action Plan

31.6.1.2. Suspend enrollment of members to the MCO after the effective date of sanction

31.6.1.3. Terminate the Agreement upon forty-five (45) days written notice

31.6.1.4. Apply liquidated damages according to Section 34

31.7. Medical Cost Accruals

31.7.1. The MCO shall establish and maintain an actuarially sound process to estimate Incurred But Not Reported (IBNR) claims.

Therefore, the parties agree that the liquidated damages as specified in the sections below are reasonable.

DHHS's decision to assess liquidated damages must be reasonable, based in fact and made in good faith.

- 34.2.7. Liquidated damages may be assessed for each day, incidence or occurrence, as applicable, of a violation or failure.

“Care coordination” is the deliberate organization of patient care activities between two or more participants (including the individual) involved in an individual’s services and supports to facilitate the appropriate delivery of medical, behavioral, psychosocial, and long term services

and supports. Organizing care involves the marshalling of personnel and other resources needed to carry out all required services and supports, and requires the exchange of information among participants responsible for different aspects of care. (42 CFR 438.208).

Effective care coordination includes the following:

- Actively assists patients to acquire self-care skills to improve functioning and health outcomes, and slow the progression of disease or disability;
- Employs evidence-based clinical practices;
- Coordinates care across health care settings and providers, including tracking referrals;
- Actively assists patients to take personal responsibility for their health care;

Confidential Information

“Confidential Information” means information that is exempt from disclosure to the public or other unauthorized persons under federal or state law. Confidential Information includes, but is not limited to, Personal Information.

Conflict Free Care Coordination

“Conflict Free Care Coordination” separates clinical or non-financial eligibility determination from direct service provision. Care Coordinators and evaluators of the beneficiary’s need for services are not related by blood or marriage to the individual, their paid caregivers or to anyone financially responsible for the individual; robust monitoring and oversight are in place to promote consumer-direction and beneficiaries are clearly informed about their right to appeal or submit a grievance decisions about plans of care, eligibility determination and service delivery. 27.4. MCO Post Payment Activities

27.4.1. The MCO is responsible for pursuing, collecting, and retaining recoveries of health-related insurance resources, including a claim involving Workers' Compensation or where the liable party has improperly denied payment based upon either lack of a medically necessary determination or lack of coverage. The MCO is encouraged to develop and implement cost-effective procedures to identify and pursue cases that are susceptible or collection through either legal action or traditional subrogation and collection procedures.

The MCO shall instruct members to return the Accident Questionnaire to DHHS. The MCO shall provide the guidelines and procedures to DHHS for review and approval prior to the first readiness review.

27.4.3. Due to potential time constraints involving accident and trauma cases and due to the large dollar value of many claims which are potentially recoverable by DHHS, the MCO must identify these cases before a settlement has been negotiated. Should DHHS fail to identify and establish a claim prior to settlement due to the MCO's untimely submission of notice of legal involvement where the MCO has received such notice, the amount of the actual loss of recovery shall be assessed against the MCO. The actual loss of recovery shall not include the attorney's fees or other costs, which would not have been retained by DHHS.

27.4.4. The MCO has the latter of eighteen (18) months from the date of service or twelve (12) months from the date of payment of health-related insurance resources to initiate recovery and may keep any funds that it collects. The MCO must indicate its intent to recover on health-related insurance by providing to DHHS an electronic file of those cases that will be pursued. The cases must be identified and a file provided to DHHS by the MCO within thirty (30) days of the date of discovery of the resource.

27.4.5. The MCO is responsible for pursuing, collecting, and retaining recoveries of health-related insurance resources where the liable party has improperly denied payment based upon either lack of a Medically Necessary determination or lack of coverage. The MCO is encouraged to develop and implement cost-effective procedures to identify and pursue cases which are susceptible to collection through either legal action or traditional subrogation and collection procedures.

27.5. DHHS Post Payment Recovery Activity

27.5.1. DHHS retains the sole and exclusive right to investigate, pursue, collect and retain all Other Resources, including accident and trauma. DHHS is assigned the MCO's subrogation rights to collect the "Other Resources" covered by this provision. Any correspondence or Inquiry forwarded to the MCO (by an attorney, provider of service, insurance carrier, etc.) relating to a personal injury accident or trauma-related medical service, or which in any way indicates that there is, or may be, legal involvement regarding the Recipient and the services which were provided, must be immediately forward to DHHS.

27.5.2. The MCO may neither unreasonably delay payment nor deny payment of Claims because they involved an injury stemming from an accident such as a motor vehicle accident, where the services are otherwise covered. Those funds recovered by DHHS under the scope of these "Other Resources" shall be retained by DHHS.

27.5.3. DHHS may pursue, collect and retain recoveries of all health-related insurance cases; provided, however, that if the MCO has not notified DHHS of its intent to pursue a case identified for recovery before the latter of eighteen (18) months after the date of service or twelve (12) months after the date of payment, such cases not identified for recovery by the MCO will become the sole and exclusive right of DHHS to pursue, collect and retain. The MCO must notify DHHS through the prescribed electronic file process of all outcomes for those cases identified for pursuit by the MCO.

27.5.4. Should DHHS lose recovery rights to any Claim due to late or untimely filing of a Claim with the liable third party, and the untimeliness in billing that specific Claim is directly related to untimely submission of Encounter Data or additional records under special request, or inappropriate denial of Claims for accidents or emergency care in casualty related situations, the amount of the unrecoverable Claim shall be assessed against the MCO.

28. Compliance with State and Federal Laws

28.2.3.7. The MCO will include the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order No. 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The MCO will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions including sanctions for noncompliance: Provided, however, that in the event the MCO becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the MCO may request the United States to enter into such litigation to protect the interests of the United States.

28.2.4. Non-Discrimination in Enrollment

28.2.4.1. The MCO shall and shall require its providers and subcontractors to accept assignment of an member and not discriminate against eligible members

because of race, color, creed, religion, ancestry, marital status, sexual orientation, national origin, age, sex, physical or mental handicap in accordance with Title VI of the Civil Rights Act of 1964, 42 U.S.C. § 2000d, Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 794, the Americans with Disabilities Act of 1990 (ADA), 42 U.S.C. § 12131 and rules and regulations promulgated pursuant thereto, or as otherwise provided by law or regulation.

28.2.4.2. The MCO shall and shall require its providers and subcontractors to not discriminate against eligible persons or members on the basis of their health or mental health history, health or mental health status, their need for health care services, amount payable to the MCO on the basis of the eligible person's actuarial class, or pre-existing medical/health conditions.

28.2.5. Non-Discrimination with Respect to Providers

28.2.5.1. The MCO shall not discriminate with respect to participation, reimbursement, or indemnification as to any provider who is acting within the scope of the provider's license or certification under applicable State law, solely on the basis of such license or certification or against any provider that serves high-risk populations or specializes in conditions that require costly treatment. This paragraph shall not be construed to prohibit an organization from including providers only to the extent necessary to meet the needs of the organization's members, from establishing any measure designed to maintain quality and control costs consistent with the responsibilities of the organization, or use different reimbursement amounts for different specialties or for different practitioners in the same specialty. If the MCO declines to include individual or groups of providers in its network, it shall give the affected providers written notice of the reason for the decision.

28.3. Changes in Law

28.3.1. The MCO shall implement appropriate system changes, as required by changes to federal and state laws or regulations.

29. Administrative Quality Assurance Standards

29.1. Claims Payment Standards

29.1.1. The MCO shall pay or deny ninety-five percent (95%) of clean claims within thirty (30) days of receipt, or receipt of additional information [42 CFR 447.46; 42 CFR 447.45(d)(2), (d)(3), (d)(5), and (d)(6)].

29.1.2. The MCO shall pay interest on any clean claims that are not paid within thirty (30) days at the interest rate published in the Federal Register in January of each year for the Medicare program.

29.1.3. The MCO shall pay or deny all claims within sixty (60) days of receipt.

29.1.4. Additional information necessary to process incomplete claims shall be requested from the provider within thirty (30) days from the date of original claim receipt.

29.1.5. For purposes of this requirement, New Hampshire DHHS has adopted the claims definitions established by CMS under the Medicare program, which are as follows:

29.1.5.1. “clean” claim: a claim that does not have any defect, impropriety, lack of any required substantiating documentation, or particular circumstance requiring special treatment that prevents timely payment; and

29.1.5.2. “incomplete” claim: a claim that is denied for the purpose of obtaining additional information from the provider.

29.1.6. Claims payment timeliness shall be measured from the received date, which is the date a paper claim is received in the MCO’s mailroom or an electronic claim is submitted. The paid date is the date a payment check or electronic funds transfer is issued to the service provider. The denied date is the date at which the MCO determines that the submitted claim is not eligible for payment.

29.2. Quality Assurance Program

29.2.1. The MCO shall maintain an internal program to routinely measure the accuracy of claims processing for MCIS and report results to DHHS on a monthly basis.

29.2.2. Monthly reporting shall be based on a review of a statistically valid sample of paid and denied claims determined with a ninety-five percent (95%) confidence level, +/- three percent (3%), assuming an error rate of three percent (3%) in the population of managed care claims.

29.2.3. The MCO shall implement Corrective Action Plans to identify any issues and/or errors identified during claim reviews and report resolution to DHHS.

29.3. Claims Financial Accuracy

29.3.1. Claims financial accuracy measures the accuracy of dollars paid to providers. It is measured by evaluating dollars overpaid and underpaid in relation to total paid amounts taking into account the dollar stratification of claims. The MCO shall pay ninety-nine percent (99%) of dollars accurately.

29.4. Claims Payment Accuracy

29.4.1. Claims payment accuracy measures the percentage of claims paid or denied correctly. It is measured by dividing the number of claims paid/denied correctly by the total claims reviewed. The MCO shall pay ninety-seven percent (97%) of claims accurately.

29.5. Claims Processing Accuracy

29.5.1. Claims processing accuracy measures the percentage of claims that are accurately processed in their entirety from both a financial and non-financial perspective; i.e., claim was paid/denied correctly and all coding was correct, business procedures were followed, etc. It is measured by dividing the total number of claims processed correctly by the total number of claims reviewed. The MCO shall process ninety-five percent (95%) of all claims correctly.

30. Privacy and Security of Members

30.1. General Provisions

- 30.1.1. The MCO shall be in compliance with privacy policies established by governmental agencies or by State or federal law.
- 30.1.2. The MCO shall provide sufficient security to protect the State and DHHS data in network, transit, storage, and cache.
- 30.1.3. In addition to adhering to privacy and security requirements contained in other applicable laws and statutes, the MCO shall execute as part of this Agreement a Business Associates Agreement governing the permitted uses and disclosure and security of Protected Health Information.
- 30.1.4. The MCO shall ensure that it uses and discloses individually identifiable health information in accordance with HIPAA privacy requirements in 45 CFR parts 160 and 164, subparts A and E, to the extent that these requirements are applicable [42 CFR 438.224]; complies with federal statutes and regulations governing the privacy of drug and alcohol abuse patient records (42 CFR, Part 2), and all applicable state statutes and regulations, including but not limited to: R.S.A. 167:30: protects the confidentiality of all DHHS records with identifying medical information in them.
- 30.1.5. With the exception of submission to the Comprehensive Healthcare Information System or other requirements of State or federal law, claims and member data on New Hampshire Medicaid members may not be released to any party without the express written consent of DHHS.
- 30.1.6. The MCO shall ensure that in the process of coordinating care, each member's privacy is protected consistent with the confidentiality requirements in 45 CFR parts 160 and 164. 45 CFR Part 164 specifically describes the requirements regarding the privacy of individually identifiable health information [42 CFR 438.208(b)(1), (2), and (3)].

31. Finance

31.1. Financial Standards

- 31.1.1. In compliance with 42 CFR 438.116, the MCO shall maintain a minimum level of capital as determined in accordance with New Hampshire NHID regulations, and any other relevant laws and regulations.
- 31.1.2. The MCO shall maintain a risk-based capital (RBC) ratio to meet or exceed the NHID regulations, and any other relevant laws and regulations.
- 31.1.3. With the exception of payment of a claim for a medical product or service that was provided to a member, and that is in accordance with a written Agreement with the provider, the MCO may not pay money or transfer any assets for any reason to an affiliate without prior approval from DHHS, if any of the following criteria apply:
 - 31.1.3.1. RBC ratio was less than 2.0 for the most recent year filing, per R.S.A. 404-F:14 (III); and
 - 31.1.3.2. MCO was not in compliance with the NHID solvency requirement.
- 31.1.4. The MCO shall notify DHHS within ten (10) calendar days when its Agreement with an independent auditor or actuary has ended and seek approval of, and the name of the replacement auditor or actuary, if any from DHHS.
- 31.1.5. The MCO shall maintain current assets, plus long-term investments that can be converted to cash within seven (7) calendar days without incurring a penalty of more than twenty percent (20%) that equal or exceed current liabilities.
- 31.1.6. The MCO shall not be responsible for DSH/GME (IME/DME) payments to hospitals. DSH and GME amounts are not included in capitation payments.

31.2. Capitation Payments

- 31.2.1. Preliminary capitation rates for non NHHPP members for the agreement period through June 30, 2016 are shown in Exhibit B. These capitation rates shall be reassessed and updated by DHHS to reflect MCOs' recent cost experience in accordance with the process described in Section 31.2.7. For each of the subsequent years of the Agreement actuarially sound per member, per month capitated rates will be calculated and certified by the DHHS's actuary.
- 31.2.2. Capitation rates for NHHPP members are shown in Exhibit B and were determined as part of Agreement negotiations, any best and final offer process, and the DHHS actuary's soundness certification.

- 31.2.3. Capitation rate cell is determined as of the first day of the capitation month and does not change during the entire month regardless of member changes (e.g., age).
- 31.2.4. For claims incurred after September 1, 2015, all hepatitis C drugs and other specialty drugs, including orphan drugs, shall be paid for by the MCO, except for the individuals enrolled in the New Hampshire Health Protection Program for which DHHS shall make a pass through payment.
- 31.2.5. The MCO shall process and pay claims related to Mental Health Case Management Services and Rehabilitative Mental Health Services on an administrative services only basis, except for NHHPP, and will be reimbursed by DHHS in a retrospective manner. Claims shall be paid by the MCO according to fee-for-service rates established by DHHS; except that NHHPP claims shall be at the rates prescribed according to Section 21.2.9.4. DHHS will implement a pass-through program with payments to be made no later than 45 days after the last day of the month the claims were paid by the MCO.
- 31.2.6. DHHS will make a monthly payment to the MCO for each member enrolled in the MCO's plan. The capitation rates, as set forth in Exhibit B, will be risk adjusted in an actuarially sound manner as follows:
- 31.2.6.1. The Chronic Illness and Disability Payment System and/or Medicaid Rx risk adjuster (CDPS + Rx, Medicaid Rx) will be used to risk adjust MCO capitation payments based on MCO encounter data availability. Until complete and validated MCO encounter data is available, the Medicaid Rx risk adjustment model will be used. Once complete and validated MCO encounter data becomes available, the risk adjustment process will transition to the CDPS+Rx model. The risk adjustment process will use prospective risk weights.
- 31.2.7. DHHS shall reassess the preliminary capitation rates for non NHHPP members set forth in Exhibit B for actuarial soundness by considering recent MCO encounter data, specific MCO formulary data, and other relevant factors that support MCO's cost experience for non NHHPP members. DHHS shall conclude such reassessment and share the updated rates with MCO by no later than February 10, 2016, in order to allow MCO sufficient time to review the rates and offer DHHS feedback. If DHHS and MCO agree on the proposed rates, the parties shall execute an amendment to this Agreement prior to March 1, 2016, with such rates to be made retroactive to January 1, 2016. If DHHS and MCO do not agree on the proposed rates, MCO shall have all rights available under Section 32.5.2.
- 31.2.8. A risk score will be developed for members with six (6) months or more months of Medicaid eligibility (either FFS or managed care) inclusive of three (3) months of claims run out in the base experience period. For members with less than six
-

(6) months of eligibility, a score equal to the average of those scored beneficiaries in each cohort will be used.

- 31.2.9. The MCO risk score for a particular rate cell will equal the average risk factor across all beneficiaries that the MCO enrolls divided by the average risk factor for the entire population enrolled in the Care Management program. For rate cells with an opt-out provision, the MCO risk score will equal the average risk factor across all beneficiaries that the MCO enrolls divided by the average risk factor for the entire population that is eligible to enroll in the Care Management program (FFS eligibles + MCO members).
- 31.2.10. While Supplemental Behavioral Health payments are made, members eligible for enhanced behavioral health services will be assigned a 1.000 risk factor and will be included in the MCO risk score calculation. The resulting MCO risk scores by rate cell will apply to the base capitation rates only. Effective September 1, 2015, behavioral health rate cells will be risk adjusted.
- 31.2.11. DHHS reserves the right to terminate or implement the use of a risk adjustment process for specific eligibility categories or services if it is determined to be necessary to do so to maintain actuarially sound rates. For example, the risk adjustment process may need to be modified when Long Term Services and Supports (LTSS) are added to the capitation rates.
- 31.2.12. The capitation payment for Medicaid Managed Care members will be made retrospectively with a two (2) month delay. For example, a payment will be made within five (5) business days of the first day in October 2012 for services provided in July 2012.
- 31.2.13. Section 31.2.7 notwithstanding, capitation payments for NHHPP members will be paid in the month of service.
- 31.2.14. Capitation payment settlements will be made at three (3) month intervals. DHHS will recover capitation payments made for deceased members, or members who were later determined to be ineligible for Medicaid and/or for Medicaid managed care or need rate cell or kick payment corrections. DHHS will pay MCO for retroactive member assignments, corrections to kick payments, behavioral health certification level correction or other rate assignment corrections.
- 31.2.15. Capitation payments for members who became ineligible for services in the middle of the month will be prorated based on the number of days eligible in the month.
- 31.2.16. For each live birth, DHHS will make a one-time maternity kick payment to the MCO with whom the mother is enrolled on the date of birth. This payment is a global fee to cover all maternity expenses, including all delivery and postpartum

care. In the event of a multiple birth DHHS will only make only one maternity kick payment. A live birth is defined in accordance with NH Vital Records reporting requirements for live births as specified in RSA 5-C.

- 31.2.17. For each live birth, DHHS will make a one-time newborn kick payment to the MCO with whom the mother is enrolled on the date of birth. This payment is a global fee to cover all newborn expenses incurred in the first two (2) full or partial calendar months of life, including all hospital, professional, pharmacy, and other services. For example, the newborn kick payment will cover all services provided in July 2012 and August 2012 for a baby born any time in July 2012. Enrolled babies will be covered under the MCO capitated rates thereafter.
- 31.2.18. The MCO shall submit information on maternity and newborn events to DHHS. The MCO shall follow written policies and procedures, as developed by DHHS, for receiving, processing and reconciling maternity and newborn payments.
- 31.2.19. Beginning July 1, 2016, one percent (1.0%) of each member's capitation payment to the MCO will be withheld annually to support DHHS's payment reform incentive program. Details of the Incentive Program are described in Section 9.
- 31.2.20. DHHS will inform the MCO of any required program revisions or additions in a timely manner. DHHS may adjust the rates to reflect these changes as necessary to maintain actuarial soundness.
- 31.2.21. In the event an enrolled Medicaid member was previously admitted as a hospital inpatient and is receiving continued inpatient hospital services on the first day of coverage with the MCO, the MCO shall receive full capitation payment for that member. The entity responsible for coverage of the member at the time of admission as an inpatient, i.e. either DHHS or another MCO, shall be fully responsible for all inpatient care services and all related services authorized while the member was an inpatient until the day of discharge from the hospital.
- 31.2.22. Payment for behavioral health rate cells shall be determined based on a member's CMHC behavioral certification level and a member having had an encounter at a CMHC in the last 6 months. Changes in the certification level for a member shall be reflected as of the first of each month and does not change during the month.
- 31.2.23. For Applied Behavioral Analysis (ABA) services incurred on or after September 1, 2015 the MCO shall not be financially responsible for claims for ABA services provided that the MCO obtained prior approval from DHHS of prior authorizations for the services. DHHS shall make pass through payments to the MCO for those ABA services approved by DHHS.

31.2.24. Unless MCOs are exempted, through legislation or otherwise, from having to make payments to the New Hampshire Insurance Administrative Fund (Fund) pursuant to R.S.A. 400-A:39, DHHS shall reimburse MCO for MCO's annual payment to the Fund on a pass through basis within 30 days following receipt of invoice from the MCO and verification of payment by the NH Insurance Department.

31.2.25. For any member with claims exceeding five hundred thousand dollars (\$500,000) for the fiscal year, DHHS will reimburse fifty percent (50%) of the amount over five hundred thousand dollars (\$500,000) after all claims have been recalculated based on the DHHS fee schedule for the services. For a member whose services may be projected to exceed five hundred thousand dollars (\$500,000) in MCO claims, the MCO shall advise DHHS. Prior authorization from DHHS is required for subsequent services provided to the member.

31.3. NHHPP Risk Protection Structure

31.3.1. DHHS will implement risk adjustment and risk corridors for NHHPP. There will be two parts to the risk adjustment component. Part 1 will increase or decrease the total amount of MCO revenue for the actual opt out percentage and relative acuity level of the medically frail population compared to the rate setting assumptions. Part 2 will reallocate revenue between the MCOs based on the relative acuity level of their enrolled populations. Risk corridors will be applied after the Part 1 and Part 2 risk adjustment calculations.

31.3.1.1. Risk adjustment – Part 1 (Medically Frail Opt-Out Adjustment) – the NHHPP capitation rates are based on assumptions regarding the percentage of the NHHPP population opting out of the ABP due to self-reported medically frail status and their relative acuity level. As part of the contract settlement process, DHHS will measure the size based on member months and relative acuity level based on risk scores of the actual opt-out population and adjust NHHPP capitation rates appropriately. Part I of risk adjustment will increase (or decrease) the total amount of MCO revenue. If a lower percentage of the population opts out and/or the opt-out acuity level is lower than expected based on the opt-out and acuity assumptions in the capitation rate development, MCO capitation rates will increase. If a larger percentage of the population opts out and/or the opt-out acuity level is higher than expected based on the opt-out and acuity assumptions in the capitation rate development, MCO capitation rates will decrease.

31.3.1.2. Risk adjustment – Part 2 (MCO Revenue Reallocation) – Similar to the risk adjustment process for the current Medicaid Step 1 population under the MCM program, risk adjustment will shift revenue from MCOs with lower acuity populations to MCOs with higher acuity populations. This portion of the risk adjustment process is revenue neutral.

31.3.2. Risk adjustment – Methodology – Acuity will be measured using the CDPS+Rx, a diagnosis and pharmacy based risk adjuster that will also be used for the current Medicaid population. Key differences in the risk adjustment process for the NHHPP population include:

31.3.2.1. DHHS will use concurrent risk adjustment for the NHHPP population. Since the NHHPP population will not have a Medicaid claims history with diagnosis and pharmacy data, it will take six months or more to get a credible picture of the acuity level of the enrolled population. DHHS will use September 2014 – December 2015 claims to estimate September 2014 – December 2015 acuity (as opposed to prospective models that use a prior year’s claims to estimate current acuity).

31.3.2.2. Risk adjustment transfer payments will be made as part of the contract period settlement, not as prospective payments.

31.3.2.3. DHHS will use a pharmacy-only risk adjuster to monitor the actual population acuity of the population receiving the ABP compared to the rate setting assumptions and make corrections during the rate period if necessary. DHHS is committed to transparency of risk adjustment results and will issue quarterly reporting on a timely basis to MCO to facilitate evaluation of financial performance under risk adjustment.

31.3.3. Risk corridors – The private market risk corridor program for calendar years 2014 – 2016 will protect against uncertainty in annual profit or loss results for qualified health plans in and out of the individual and small group exchanges. DHHS will use a similar risk corridor structure for NHHPP. DHHS will establish a target medical loss ratio (MLR) of 89.0% based on NHHPP pricing assumptions:

31.3.3.1. Administrative allowance of 9.0% of the capitation rate prior to state premium tax

31.3.3.2. New Hampshire state premium tax of 2%

31.3.3.3. DHHS and each MCO will share the financial risk of actual results that are above or below the MLR target as shown in the table below:

New Hampshire Department of Health and Human Services New Hampshire Health Protection Program Population Risk Corridor Program		
Actual MLR Compared to Target MLR	MCO Share	DHHS Share

>3% below	10%	90%
1% - 3% below	50%	50%
1% below - 1% above	100%	0%
1% - 3% above	50%	50%
>3% above	10%	90%

31.3.3.4. Risk corridors will be applied after the Part 1 and Part 2 risk adjustment calculations.

31.3.4. Risk protection settlement will occur after the September 2014 – December 2015 NHHPP contract period has ended and enough time has passed to collect and validate MCO encounter data and financial data. DHHS will implement the following schedule for the final risk protection settlement:

31.3.4.1. December 31, 2015: end of NHHPP contract period

31.3.4.2. March 31, 2016: Cutoff date for encounter data to be used in the risk protection settlement calculations (September 2014 – December 2015 dates of service paid through March 31, 2016)

31.3.4.3. May 15, 2016: DHHS releases settlement payment report to MCOs

31.3.4.4. June 15, 2016: DHHS makes/receives final settlement payments to/from MCOs

31.3.4.5. An interim calculation will be performed with data through December 31, 2015. DHHS shall provide quarterly reports to MCO of estimated risk adjustment impact utilizing pharmacy data to facilitate MCOs evaluation of the impact of risk adjustment on capitation revenue.

31.4. Financial Responsibility for Dual-Eligibles

31.4.1. The MCO shall pay any Medicare coinsurance and deductible amount up to what New Hampshire Medicaid would have paid for that service, whether or not the Medicare provider is included in the MCO’s provider network. These payments are included in the calculated capitation payment.

31.5. Premium Payments

31.5.1. DHHS is responsible for collection of any premium payments from members. If the MCO inadvertently receives premium payments from members, it shall inform the member and forward the payment to DHHS.

31.6. Sanctions

31.6.1. If the MCO fails to comply with the financial requirements in Section 31, DHHS may take any or all of the following actions:

31.6.1.1. Require the MCO to submit and implement a Corrective Action Plan

31.6.1.2. Suspend enrollment of members to the MCO after the effective date of sanction

31.6.1.3. Terminate the Agreement upon forty-five (45) days written notice

31.6.1.4. Apply liquidated damages according to Section 34

31.7. Medical Cost Accruals

31.7.1. The MCO shall establish and maintain an actuarially sound process to estimate Incurred But Not Reported (IBNR) claims.

31.8. Audits

31.8.1. The MCO shall allow DHHS and/or the NHID to inspect and audit any of the financial records of the MCO and its subcontractors. There shall be no restrictions on the right of the State or federal government to conduct whatever inspections and audits are necessary to assure quality, appropriateness or timeliness of services and reasonableness of their costs [42 CFR 438.6(g), SMM 2087.7; 42 CFR 434.6(a)(5)].

31.8.2. The MCO shall file annual and interim financial statements in accordance with the standards set forth below. This Section 30.7.3 will supersede any conflicting requirements in Exhibit C of this Agreement.

31.8.3. Within one hundred and eighty (180) calendar days or other mutually agreed upon date following the end of each calendar year during this Agreement, the MCO shall file, in the form and content prescribed by the National Association of Insurance Commissioners (“NAIC”), annual audited financial statements that have been audited by an independent Certified Public Accountant. Financial statements shall be submitted in either paper format or electronic format, provided that all electronic submissions shall be in PDF format or another read-only format that maintains the documents’ security and integrity.

31.8.4. The MCO shall also file, within seventy-five (75) days following the end of each calendar year, certified copies of the annual statement and reports as prescribed and adopted by the Insurance Department.

31.8.5. The MCO shall file within sixty (60) days following the end of each calendar quarter, quarterly financial reports in form and content as prescribed by the NAIC.

31.9. Member Liability

31.9.1. The MCO shall not hold its Medicaid members liable for:

31.9.1.1. The MCO's debts, in the event of the MCO's insolvency [42 CFR 438.116(a); SMM 2086.6];

31.9.1.2. The covered services provided to the member, for which the State does not pay the MCO;

31.9.1.3. The covered services provided to the member, for which the State, or the MCO does not pay the individual or health care provider that furnishes the services under a contractual, referral, or other arrangement; or

31.9.1.4. Payments for covered services furnished under an Agreement, referral, or other arrangement, to the extent that those payments are in excess of the amount that the member would owe if the MCO provided those services directly [§1932(b)(6) of the SSA; 42 CFR 438.106(a), (b) and (c); 42 CFR 438.6(l); 42 CFR 438.230; 42 CFR 438.204(a); SMD letter 12/30/97].

31.9.2. Subcontractors and referral providers may not bill members any amount greater than would be owed if the entity provided the services directly [§1932(b)(6) of the SSA; 42 CFR 438.106(c); 42 CFR 438.6(l); 42 CFR 438.230; 42 CFR 438.204(a); SMD letter 12/30/97].

31.9.3. The MCO shall cover continuation of services to members for duration of period for which payment has been made, as well as for inpatient admissions up until discharge during insolvency [SMM 2086.6B].

31.10. Denial of Payment

31.10.1. Payments provided for under the Agreement will be denied for new members when, and for so long as, payment for those members is denied by CMS in accordance with the requirements in [§1903(m)(5)(B)(ii) of the SSA; 42 CFR 438.726(b); 42 CFR 438.730(e)].

31.11. Federal Matching Funds

31.11.1. Federal matching funds are not available for amounts expended for providers excluded by Medicare, Medicaid, or Children's Health Insurance Program (CHIP), except for emergency services [42 CFR 431.55(h) and 42 CFR 438.808; 1128(b)(8) and §1903(i)(2) of the SSA; SMD letter 12/30/97]. Payments made to such providers are subject to recoupment from the MCO by DHHS.

31.12. Health Insurance Providers Fee

- 31.12.1. Section 9010 of the Patient Protection and Affordable Care Act Pub. L. No. 111-148 (124 Stat. 119 (2010)), as amended by Section 10905 of PPACA, and as further amended by Section 1406 of the Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152 (124 Stat. 1029 (2010)) imposes an annual fee on health insurance providers beginning in 2014 (“Annual Fee”). Contractor is responsible for a percentage of the Annual Fee for all health insurance providers as determined by the ratio of Contractor’s net written premiums for the preceding year compared to the total net written premiums of all entities subject to the Annual Fee for the same year.
- 31.12.2. The State shall reimburse the Contractor for the amount of the Annual Fee specifically allocable to the premiums paid during this Contract Term for each calendar year or part thereof, including an adjustment for the full impact of the non-deductibility of the Annual Fee for Federal and state tax purposes, including income and excise taxes (“Contractor’s Adjusted Fee”). The Contractor’s Adjusted Fee shall be determined based on the final notification of the Annual Fee amount Contractor or Contractor’s parent receives from the United States Internal Revenue Service. The State will provide reimbursement ~~within 30 days~~ following its review and acceptance of the Contractor’s Adjusted Fee.
- 31.12.3. To claim reimbursement for the Contractor’s Adjusted Fee, the Contractor must submit a certified copy of its full Annual Fee assessment within 60 days of receipt, together with the allocation of the Annual Fee attributable specifically to its premiums under this Contract. The Contractor must also submit the calculated adjustment for the impact of non-deductibility of the Annual Fee attributable specifically to its premiums, and any other data deemed necessary by the State to validate the reimbursement amount. If no resolution is reached in the above thirty (30) day period, then the contract will terminate ninety (90) days thereafter, or at the time that all members have been disenrolled from the MCO's plan, whichever date is earlier. In the event of such termination, the MCO shall accept the lesser of the most recently agreed to capitation rates or the new annual capitation rate for each rating category as payment in full for Covered Services and all other services required under this Agreement delivered to Members until all Members have been disenrolled from the MCO's plan consistent with any mutually agreed upon transition plans to protect Members.

34.1.1. A material default or breach in this Agreement will cause irreparable injury to DHHS. In the event of any claim for default or breach of this Agreement, no provision of this Agreement shall be construed, expressly or by implication, as a waiver by the State of New Hampshire to any existing or future right or remedy available by law. Failure of the State of New Hampshire to insist upon the strict performance of any term or condition of this Agreement or to exercise or delay the exercise of any right or remedy provided in the Agreement or by law, or the acceptance of (or payment for) materials, equipment or services, shall not release the MCO from any responsibilities or obligations imposed by this Agreement or by law, and shall not be deemed a waiver of any right of the State of New Hampshire to insist upon the strict performance of this Agreement. In addition to any other remedies that may be available for default or breach of the Agreement, in equity or otherwise, DHHS may seek injunctive relief against any threatened or actual breach of this Agreement without the necessity of proving actual damages. Therefore, the parties agree that the liquidated damages as specified in the sections below are reasonable.

Except and to the extent expressly provided herein, DHHS shall be entitled to recover liquidated damages cumulatively under each section applicable to any given incident.

The MCO agrees to abide by the Performance Standards and Liquidated Damages specified, provided that DHHS has given the MCO data required to meet performance standards in a timely manner. DHHS's decision to assess liquidated damages must be reasonable, based in fact and made in good faith.

- 34.2.7. Liquidated damages may be assessed for each day, incidence or occurrence, as applicable, of a violation or failure.
- 34.2.8. The amount of liquidated damages assessed by DHHS to the MCO shall not exceed three percent (3%) of total expected yearly capitated payments, based on average annual membership from start date, for the MCO.

REQUESTED ACTION

Authorize the Department of Health and Human Services to amend existing individual agreements with the state's two managed care health plans, Granite State Health Plan, d/b/a New Hampshire Healthy Families, 264 South River Road, Bedford, NH 03110 and Boston Medical Center HealthNet Plan, d/b/a Well Sense Health Plan, 2 Copley Place, Suite 600, Boston, MA 02116, in order to:

- (i) Extend the agreements for the remainder of the two-year extension period through June 30, 2017 as contemplated by Section 1.3 of the original agreement;
- (ii) Expand the population covered in Step 1 managed care medical services to include those persons who previously were permitted to "opt out," the so-called "mandatory population."
- (iii) Expand the services covered to include Step 2 Phase 2 waiver services provided to those persons on the Choices for Independence Waiver with a targeted implementation date of January 1, 2016.
- (iv) Adjust rates to reflect the actuarially certified rate structure for the current Medicaid population and for those persons receiving Step II services under the Choices for Independence Waiver through June 30, 2016 as described in Exhibit B. For convenience of reference, the actuarially certified rate structure for the New Hampshire Health Protection Program population through December 31, 2015, previously approved by the Governor and Executive Council, is restated in Exhibit B, and
- (v) Identify the targeted implementation date for phasing into the Care Management program Step II waiver services for those persons receiving nursing care services.

This agreement, if approved, would, effective September 1, 2015, replace the extension approved by the Governor and Council on June 24, 2015 and authorize managed care services to the two managed care organizations through June 30, 2017. This amendment increases the price SFY 2016 price limitation by \$314,265,536 from \$412,045,000 to 726,310,536 for a cumulative contract value of \$1,629,310,536 for all Medicaid Care Management contracts, subject to the approval of the Governor and Executive Council and subject to the continued availability and continued appropriation of funds.

Governor and Executive Council approved the original agreement on May 9, 2012 (Item #54A) and then approved subsequent amendments on June 19, 2013 (Item #67A), February 12, 2014 (Item #25), April 9, 2014 (Item #44), June 18, 2014 (Item #65A), July 16, 2014 (Late Item "A"), December 23, 2014 (Item #11), and June 24, 2015 (Item #30). 100% Federal Funds for the New Hampshire Health Protection Program, 50% federal and 50% General Funds for the currently eligible Medicaid population.

EXPLANATION

The purpose of this amendment with the two managed care health plans is to replace, effective September 1, 2015, the extension approved by the Governor and Council on June 24, 2015 and extend the agreement for the remainder of the 24-month extension through June 30, 2017, as provided for by the original agreements; to expand the Care Management Program to cover the remaining eligible population; to begin providing Step II waiver services within the program, and to amend capitation rates for the program through June 30, 2016. The original agreements were competitively bid.

The department commenced the Medicaid Care Management Program in December 2013 providing acute care medical services primarily to low income children and adults, pregnant women, newborns, and those receiving breast and cervical cancer treatments. Several population groups were eligible to "opt out" of Step 1 managed care services until the program was made mandatory. The populations that could voluntarily opt out include: persons in foster care, children with severe disabilities (Katy Beckett kids), and those who are eligible for both Medicare and Medicaid (dual eligible). A few populations are and remain exempt under federal law for managed care. These populations are: persons with Veterans benefits, persons who exceed the Medicaid threshold based on income only (spend downs), persons receiving family planning benefits only; and those new adults enrolled in the Health Insurance Premium Program accessing benefits through employer sponsored insurance. At the present time, there are approximately 137,000 persons in New Hampshire accessing benefits in the

traditional Medicaid program. Additionally, just over 40,000 are now receiving coverage under the New Hampshire Health Protection Act at 100% federal cost through December 31, 2016.

In addition to extending the agreement by two years and establishing the actuarially certified rates for managed care services through SFY 2016, the amendment also expands the delivery of managed care services to cover those persons who had previously "opted out" and expands the program to provide managed care waiver services to persons receiving services under the Choices for Independence waiver program.

Specifically, the amendment establishes a target date of September 1, 2015 for the commencement of services for all persons now mandated into Care Management; a target date of January 1, 2016 for the commencement of managed care services for the Choices for Independence waiver population and a target date of July 1, 2016 for the incorporation of nursing services into managed care.

The timing of the enrollment of the mandatory population will depend on the timing of federal approval (by the Centers for Medicare and Medicaid Services "CMS") of the waiver required for that action.

The department is separately formulating and will submit to CMS later this year after a public review and comment process an application for an additional federal waiver necessary to provide services under the Choices for Independence Waiver in managed care.

This agreement does not implement managed care services for those persons receiving waived services under the Developmental Disabled Services Waiver, the Acquired Brain Syndrome Waiver and the In Home Supports Waiver. The Department will establish implementation dates for those services in managed care at a later date and after further public input.

Exhibit A to the Agreement describes the obligations of the managed care health plans in providing services to the existing Medicaid population, the new mandatory population and the Choices For Independence population. Although Exhibit A establishes the target date for the incorporation of nursing services into the Care Management Program on July 1, 2016, the detailed obligations of the managed care health plans for nursing services is not included and will be brought forth in a further amendment to the Governor and Council in advance of that date.

Exhibit B to the Agreement reflects the adjusted rate information for SFY 2016. Exhibit B is comprised of two pages. The first page identifies the capitated rates for medical care and behavioral health services for the existing Medicaid population through June 30, 2016. As noted above, this page also restates for convenience the capitated rates for the New Hampshire Health Protection population through December 31, 2015. Services for the New Hampshire Health Protection program are paid with 100% federal funds through December 31, 2016.

The second page of Exhibit B identifies the capitated rates for complex enrollees for Step 1 acute care medical services for the period through December 31, 2015 and for the following period of January 1 through June 30, 2016.

The rate cell categories have been changed from prior amendments. The capitated rates for the period of July 1, 2015 through December 31, 2015 on page two reflect rates for *Step I acute care medical services only* for four populations -- nursing home residents; community (CFI) residents; developmentally disabled persons and persons with acquired brain disorders. These four population categories and their subgroups based on age and eligibility categories reflect the department's emphasis on establishing rate categories determined on a whole person approach to health care. The rates for a particular group or subgroup on page one for July 1, 2015 through December 31, 2015 reflect the acute care medical services being provided to those populations.

The rate cells on page two for the period of January 1 through June 30, 2016 reflect the Step I medical services for nursing residents, developmentally disabled and those with acquired brain disorder. However, the rate cells for the Community (CFI) residents reflect *both* the Step I services *and* the Step II services provided under the Care Management Program beginning in January 2016. This is reflected in the higher capitated rate numbers for Community residents in the January 1 through June 30, 2016 period over the 2015 period.

For example, the capitated rate for Community residents – Medicaid Only- Under 65 for the period September 1, 2015 through December 31, 2015 is \$3,075.09. But for the time period of January 1, 2016 through June 30, 2016, after the commencement of Step II services for CFI, the capitated rate for that same population increases to \$4,835.44. The increase reflects the incorporation of Step II CFI waiver services for that population.

Exhibit A has been significantly revised and updated to ensure the continuity of services and care for persons transitioning into managed care, as well as those transitioning to Step II services. For example:

- Medicaid state plan services in place at the time a member transitions to an MCO will be honored for a 60 day period
- Prescribed medications for a member transitioning to an MCO will also be continued for 60 days from enrollment or until completion of a medical necessity review
- For CFI participants enrolled prior to January 1, 2016, the existing care plan will remain in effect until expiration or until a new plan has been developed and signed by the member
- Persons in a nursing facility who will start receiving medical care from an MCO will be visited personally by a care coordinator for a personal assessment of needs
- MCOs must honor member relationships with Service Link providers to support the members successful integration into the community
- MCOs must provide continuity of care for current members after transition by the MCOs to their own preferred drug lists (PDLs)
- Compliance metrics have been established for substance use disorder services, including time frames for providers response to member inquiries and completion of screenings for services within established times
- Specific procedures for continuation of benefits during appeals have been established

Exhibit O to the Agreement pertaining to quality measures has also been significantly revised to ensure that the department has in place the most appropriate quality metrics for all persons receiving services. The revised version of Exhibit O includes specific quality metrics for the persons receiving CFI waiver services through Care Management. As the department continues to phase in Step II services, Exhibit O, as well as other sections of the agreement, will continue to be revised to reflect best practices that ensure the protection and rights of New Hampshire's citizens receiving Medicaid services.

The department looks forward to briefing the Governor and Executive Council on the important provisions of these agreements.

Source of funds: Federal financial participation rates for the currently eligible population will be 50% federal funds as appropriated by Congress for the entire period of this amendment. Federal financial participation rates for the New Hampshire Health Protection services be 100% federal funds as appropriated by Congress for the entire period of this Amendment.

In the event that Federal funds become no longer available or are decreased below the 100% FFP level for the New Hampshire Health Protection population, as provided under the New Hampshire Health Protection Act, General Funds will not be requested to support this program and the medical services for the new adult population would end within 90 days.

REQUESTED ACTION

Authorize the Department of Health and Human Services to amend the existing individual agreement with the managed care health plan listed below in order to:

- (i) Extend the agreement for the remainder of the two-year extension period through June 30, 2017 as contemplated by Section 1.3 of the original agreement;
- (ii) Expand the population covered in Step 1 managed care medical services to include those persons who previously were permitted to "opt out," the so-called "mandatory population."
- (iii) Expand the services covered to include Step 2 Phase 2 waiver services provided to those persons on the Choices for Independence Waiver with a targeted implementation date of January 1, 2016.
- (iv) Adjust rates to reflect the actuarially certified rate structure for the current Medicaid population and for those persons receiving Step II services under the Choices for Independence Waiver through June 30, 2016 as described in Exhibit B. For convenience of reference, the actuarially certified rate structure for the New Hampshire Health Protection Program population through December 31, 2015, previously approved by the Governor and Council, is restated in Exhibit B, and
- (v) Identify the targeted implementation date for phasing into the Care Management program Step II waiver services for those persons receiving nursing care services.

This agreement, if approved, would, effective September 1, 2015, replace the extension approved by the Governor and Executive Council on June 24, 2015 and authorize managed care services through the managed care organization through June 30, 2017. This amendment increases the price limitation by \$314,265,535 from \$412,045,000 to \$1,629,310,536 for all Medicaid Care Management contracts, subject to the approval of the Governor and Executive Council and subject to the continued availability and continued appropriation of funds.

Governor and Executive Council approved the original agreement on May 9, 2012 (Item #54A) and then approved subsequent amendments on June 19, 2013 (Item #67A), February 12, 2014 (Item #25), April 9, 2014 (Item #44), June 18, 2014 (Item #65A), July 16, 2014 (Late Item "A"), December 23, 2014 (Item #11), and June 24, 2015 (Item #30). 100% Federal Funds for the New Hampshire Health Protection Program, 50% federal and 50% General Funds for the currently eligible Medicaid population.

EXPLANATION

The purpose of this amendment with this managed care health plan is to replace, effective September 1, 2015, the extension approved by the Governor and Executive Council on June 24, 2015 and extend the agreement for the remainder of the 24-month extension through June 30, 2017, as provided for by the original agreements; to expand the Care Management Program to cover the remaining eligible population; to begin providing Step II waiver services within the program, and to amend capitation rates for the program through June 30, 2016. The original agreements were competitively bid.

The department commenced the Medicaid Care Management Program in December 2013 providing acute care medical services primarily to low income children and adults, pregnant women, newborns, and those receiving breast and cervical cancer treatments. Several population groups were eligible to "opt out" of Step 1 managed care services until the program was made mandatory. The populations that could voluntarily opt out include: persons in foster care, children with severe disabilities (Katy Beckett kids), and those who are eligible for both Medicare and Medicaid (dual eligible). A few populations are and remain exempt under federal law for managed care. These populations are: persons with Veterans benefits, persons who exceed the Medicaid threshold based on income only (spend downs), persons receiving family planning benefits only; and those new adults enrolled in the Health Insurance Premium Program accessing benefits through employer sponsored insurance. At the present

time, there are approximately 137,000 persons in New Hampshire accessing benefits in the traditional Medicaid program. Additionally, just over 40,000 are now receiving coverage under the New Hampshire Health Protection Act at 100% federal cost through December 31, 2016.

In addition to extending the agreement by two years and establishing the actuarially certified rates for managed care services through SFY 2016, the amendment also expands the delivery of managed care services to cover those persons who had previously "opted out" and expands the program to provide managed care waiver services to persons receiving services under the Choices for Independence waiver program.

Specifications for the MCO Managed Care Information System remain unchanged.

In the event that Federal funds become no longer available or are decreased below the 100% FFP level for the New Hampshire Health Protection population, as provided under the New Hampshire Health Protection Act, General Funds will not be requested to support this program and the medical services for the new adult population would end within 90 days.

1. Introduction

1.1. Purpose

1.2. Type of Agreement

1.2.1. This is a comprehensive full risk prepaid capitated contract. The MCO is responsible for the timely provision of all medically necessary services as defined under this Agreement. In the event the MCO incurs costs that exceed the capitation payments, the State of New Hampshire and its agencies are not responsible for those costs and will not provide additional payments to cover such costs.

1.3. Agreement Period

1.3.1. The initial term of this Agreement has been thirty-six (36) months. The New Hampshire Department of Health and Human Services (DHHS) is exercising its sole discretion to extend the Agreement for the remainder of the option period of twenty-four (24) months, for a total Agreement term of five (5) years.

The MCO is responsible for pursuing, collecting, and retaining recoveries of health-related insurance resources, including a claim involving Workers' Compensation or where the liable party has improperly denied payment based upon either lack of a medically necessary determination or lack of coverage. The MCO is encouraged to develop and implement cost-effective procedures to identify and pursue cases that are susceptible or collection through either legal action or traditional subrogation and collection procedures.

The MCO shall instruct members to return the Accident Questionnaire to DHHS. The MCO shall provide the guidelines and procedures to DHHS for review and approval prior to the first readiness review.

27.4.3. Due to potential time constraints involving accident and trauma cases and due to the large dollar value of many claims which are potentially recoverable by DHHS, the MCO must identify these cases before a settlement has been negotiated. Should DHHS fail to identify and establish a claim prior to settlement due to the MCO's untimely submission of notice of legal involvement where the MCO has received such notice, the amount of the actual loss of recovery shall be assessed against the MCO. The actual loss of recovery shall not include the attorney's fees or other costs, which would not have been retained by DHHS.

27.4.4. The MCO has the latter of eighteen (18) months from the date of service or twelve (12) months from the date of payment of health-related insurance resources to initiate recovery and may keep any funds that it collects. The MCO must indicate its intent to recover on health-related insurance by providing to DHHS an electronic file of those cases that will be pursued. The cases must be identified and a file provided to DHHS by the MCO within thirty (30) days of the date of discovery of the resource.

27.4.5. The MCO is responsible for pursuing, collecting, and retaining recoveries of health-related insurance resources where the liable party has improperly denied payment based upon either lack of a Medically Necessary determination or lack of coverage. The MCO is encouraged to develop and implement cost-effective procedures to identify and pursue cases which are susceptible to collection through either legal action or traditional subrogation and collection procedures.

27.5.DHHS Post Payment Recovery Activity

27.5.1.DHHS retains the sole and exclusive right to investigate, pursue, collect and retain all Other Resources, including accident and trauma. DHHS is assigned the MCO's subrogation rights to collect the "Other Resources" covered by this provision. Any correspondence or Inquiry forwarded to the MCO (by an attorney, provider of service, insurance carrier, etc.) relating to a personal injury accident or trauma-related medical service, or which in any way indicates that there is, or may be, legal involvement regarding the Recipient and the services which were provided, must be immediately forward to DHHS.

27.5.2.The MCO may neither unreasonably delay payment nor deny payment of Claims because they involved an injury stemming from an accident such as a motor vehicle accident, where the services are otherwise covered. Those funds recovered by DHHS under the scope of these "Other Resources" shall be retained by DHHS.

27.5.3.DHHS may pursue, collect and retain recoveries of all health-related insurance cases; provided, however, that if the MCO has not notified DHHS of its intent to pursue a case identified for recovery before the latter of eighteen (18) months after the date of service or twelve (12) months after the date of payment, such cases not identified for recovery by the MCO will become the sole and exclusive right of DHHS to pursue, collect and retain. The MCO must notify DHHS through the prescribed electronic file process of all outcomes for those cases identified for pursuit by the MCO.

27.5.4.Should DHHS lose recovery rights to any Claim due to late or untimely filing of a Claim with the liable third party, and the untimeliness in billing that specific Claim is directly related to untimely submission of Encounter Data or additional records under special request, or inappropriate denial of Claims for accidents or emergency care in casualty related situations, the amount of the unrecoverable Claim shall be assessed against the MCO.

28. Compliance with State and Federal Laws

The MCO shall submit to DHHS a written certification that it is conversant with the requirements of the ADA, that it is in compliance with the law, and that it has assessed its provider network and certifies that the providers meet ADA requirements to the best of the MCO's knowledge. The MCO shall

survey its providers of their compliance with the ADA using a standard survey document that will be developed by the State. Survey attestation shall be kept on file by the MCO and shall be available for inspection by the DHHS. The MCO warrants that it will hold the State harmless and indemnify the State from any liability which may be imposed upon the State as a result of any failure of the MCO to be in compliance with the ADA. Where applicable, the MCO shall abide by the provisions of Section 504 of the federal Rehabilitation Act of 1973, as amended, 29 U.S.C. § 794, regarding access to programs and facilities by people with disabilities.

28.2.2.3. The MCO shall have written policies and procedures that ensure compliance with requirements of the Americans with Disabilities Act of 1990, and a written plan to monitor compliance to determine the ADA requirements are being met. The compliance plan shall be sufficient to determine the specific actions that will be taken to remove existing barriers and/or to accommodate the needs of members who are qualified individuals with a disability. The compliance plan shall include the assurance of appropriate physical access to obtain included benefits for all members who are qualified individuals with a disability including, but not limited to, street level access or accessible ramp into facilities; access to lavatory; and access to examination rooms.

28.2.2.4. The MCO shall forward to DHHS copies of all grievances alleging discrimination against members because of race, color, creed, sex, religion, age, national origin, ancestry, marital status, sexual or affectional orientation, physical or mental disability for review and appropriate action within three (3) business days of receipt by the MCO.

28.2.3. Non-Discrimination in employment:

28.2.3.1. The MCO shall not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The MCO will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The MCO agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this nondiscrimination clause.

28.2.3.2. The MCO will, in all solicitations or advertisements for employees placed by or on behalf of the MCO, state that all qualified applicants will receive

consideration for employment without regard to race, color, religion, sex or national origin.

- 28.2.3.3. The MCO will send to each labor union or representative of workers with which he has a collective bargaining Agreement or other Agreement or understanding, a notice, to be provided by the agency contracting officer, advising the labor union or workers' representative of the MCO's commitments under Section 202 of Executive Order No. 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
- 28.2.3.4. The MCO will comply with all provisions of Executive Order No. 11246 of Sept. 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.
- 28.2.3.5. The MCO will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the contracting agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.
- 28.2.3.6. In the event of the MCO's noncompliance with the nondiscrimination clauses of this Agreement or with any of such rules, regulations, or orders, this Agreement may be cancelled, terminated or suspended in whole or in part and the MCO may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order No. 11246 of Sept. 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.
- 28.2.3.7. The MCO will include the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order No. 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The MCO will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions including sanctions for noncompliance: Provided, however, that in the event the MCO becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the MCO may request the United States to enter into such litigation to protect the interests of the United States.

28.2.4. Non-Discrimination in Enrollment

28.2.4.1. The MCO shall and shall require its providers and subcontractors to accept assignment of an member and not discriminate against eligible members because of race, color, creed, religion, ancestry, marital status, sexual orientation, national origin, age, sex, physical or mental handicap in accordance with Title VI of the Civil Rights Act of 1964, 42 U.S.C. § 2000d, Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 794, the Americans with Disabilities Act of 1990 (ADA), 42 U.S.C. § 12131 and rules and regulations promulgated pursuant thereto, or as otherwise provided by law or regulation.

28.2.4.2. The MCO shall and shall require its providers and subcontractors to not discriminate against eligible persons or members on the basis of their health or mental health history, health or mental health status, their need for health care services, amount payable to the MCO on the basis of the eligible person's actuarial class, or pre-existing medical/health conditions.

28.2.5. Non-Discrimination with Respect to Providers

28.2.5.1. The MCO shall not discriminate with respect to participation, reimbursement, or indemnification as to any provider who is acting within the scope of the provider's license or certification under applicable State law, solely on the basis of such license or certification or against any provider that serves high-risk populations or specializes in conditions that require costly treatment. This paragraph shall not be construed to prohibit an organization from including providers only to the extent necessary to meet the needs of the organization's members, from establishing any measure designed to maintain quality and control costs consistent with the responsibilities of the organization, or use different reimbursement amounts for different specialties or for different practitioners in the same specialty. If the MCO declines to include individual or groups of providers in its network, it shall give the affected providers written notice of the reason for the decision.

28.3. Changes in Law

28.3.1. The MCO shall implement appropriate system changes, as required by changes to federal and state laws or regulations.

29. Administrative Quality Assurance Standards

29.1. Claims Payment Standards

29.1.1. The MCO shall pay or deny ninety-five percent (95%) of clean claims within thirty (30) days of receipt, or receipt of additional information [42 CFR 447.46; 42 CFR 447.45(d)(2), (d)(3), (d)(5), and (d)(6)].

29.1.2. The MCO shall pay interest on any clean claims that are not paid within thirty (30) days at the interest rate published in the Federal Register in January of each year for the Medicare program.

29.1.3. The MCO shall pay or deny all claims within sixty (60) days of receipt.

29.1.4. Additional information necessary to process incomplete claims shall be requested from the provider within thirty (30) days from the date of original claim receipt.

29.1.5. For purposes of this requirement, New Hampshire DHHS has adopted the claims definitions established by CMS under the Medicare program, which are as follows:

29.1.5.1. “clean” claim: a claim that does not have any defect, impropriety, lack of any required substantiating documentation, or particular circumstance requiring special treatment that prevents timely payment; and

29.1.5.2. “incomplete” claim: a claim that is denied for the purpose of obtaining additional information from the provider.

29.1.6. Claims payment timeliness shall be measured from the received date, which is the date a paper claim is received in the MCO’s mailroom or an electronic claim is submitted. The paid date is the date a payment check or electronic funds transfer is issued to the service provider. The denied date is the date at which the MCO determines that the submitted claim is not eligible for payment.

29.2. Quality Assurance Program

29.2.1. The MCO shall maintain an internal program to routinely measure the accuracy of claims processing for MCIS and report results to DHHS on a monthly basis.

29.2.2. Monthly reporting shall be based on a review of a statistically valid sample of paid and denied claims determined with a ninety-five percent (95%) confidence level, +/- three percent (3%), assuming an error rate of three percent (3%) in the population of managed care claims.

29.2.3. The MCO shall implement Corrective Action Plans to identify any issues and/or errors identified during claim reviews and report resolution to DHHS.

29.3. Claims Financial Accuracy

29.3.1. Claims financial accuracy measures the accuracy of dollars paid to providers. It is measured by evaluating dollars overpaid and underpaid in relation to total paid amounts taking into account the dollar stratification of claims. The MCO shall pay ninety-nine percent (99%) of dollars accurately.

29.4. Claims Payment Accuracy

29.4.1. Claims payment accuracy measures the percentage of claims paid or denied correctly. It is measured by dividing the number of claims paid/denied correctly by the total claims reviewed. The MCO shall pay ninety-seven percent (97%) of claims accurately.

29.5. Claims Processing Accuracy

29.5.1. Claims processing accuracy measures the percentage of claims that are accurately processed in their entirety from both a financial and non-financial perspective; i.e., claim was paid/denied correctly and all coding was correct, business procedures were followed, etc. It is measured by dividing the total number of claims processed correctly by the total number of claims reviewed. The MCO shall process ninety-five percent (95%) of all claims correctly.

30. Privacy and Security of Members

30.1. General Provisions

- 30.1.1. The MCO shall be in compliance with privacy policies established by governmental agencies or by State or federal law.
- 30.1.2. The MCO shall provide sufficient security to protect the State and DHHS data in network, transit, storage, and cache.
- 30.1.3. In addition to adhering to privacy and security requirements contained in other applicable laws and statutes, the MCO shall execute as part of this Agreement a Business Associates Agreement governing the permitted uses and disclosure and security of Protected Health Information.
- 30.1.4. The MCO shall ensure that it uses and discloses individually identifiable health information in accordance with HIPAA privacy requirements in 45 CFR parts 160 and 164, subparts A and E, to the extent that these requirements are applicable [42 CFR 438.224]; complies with federal statutes and regulations governing the privacy of drug and alcohol abuse patient records (42 CFR, Part 2), and all applicable state statutes and regulations, including but not limited to: R.S.A. 167:30: protects the confidentiality of all DHHS records with identifying medical information in them.
- 30.1.5. With the exception of submission to the Comprehensive Healthcare Information System or other requirements of State or federal law, claims and member data on New Hampshire Medicaid members may not be released to any party without the express written consent of DHHS.
- 30.1.6. The MCO shall ensure that in the process of coordinating care, each member's privacy is protected consistent with the confidentiality requirements in 45 CFR parts 160 and 164. 45 CFR Part 164 specifically describes the requirements regarding the privacy of individually identifiable health information [42 CFR 438.208(b)(1), (2), and (3)].

31. Finance

31.1. Financial Standards

31.1.1. In compliance with 42 CFR 438.116, the MCO shall maintain a minimum level of capital as determined in accordance with New Hampshire NHID regulations, and any other relevant laws and regulations.

31.1.2. The MCO shall maintain a risk-based capital (RBC) ratio to meet or exceed the NHID regulations, and any other relevant laws and regulations.

31.1.3. With the exception of payment of a claim for a medical product or service that was provided to a member, and that is in accordance with a written Agreement with the provider, the MCO may not pay money or transfer any assets for any reason to an affiliate without prior approval from DHHS, if any of the following criteria apply:

31.1.3.1. RBC ratio was less than 2.0 for the most recent year filing, per R.S.A. 404-F:14 (III); and

31.1.3.2. MCO was not in compliance with the NHID solvency requirement.

31.1.4. The MCO shall notify DHHS within ten (10) calendar days when its Agreement with an independent auditor or actuary has ended and seek approval of, and the name of the replacement auditor or actuary, if any from DHHS.

31.1.5. The MCO shall maintain current assets, plus long-term investments that can be converted to cash within seven (7) calendar days without incurring a penalty of more than twenty percent (20%) that equal or exceed current liabilities.

31.1.6. The MCO shall not be responsible for DSH/GME (IME/DME) payments to hospitals. DSH and GME amounts are not included in capitation payments.

31.2. Capitation Payments

31.2.1. Capitation rates for non NHHPP members for the agreement period through June 30, 2016 are shown in Exhibit B and were determined as part of Agreement negotiations, any best and final offer process, and the DHHS actuary's soundness certification. For each of the subsequent years of the Agreement actuarially sound per member, per month capitated rates will be calculated and certified by the DHHS's actuary.

31.2.2. Capitation rates for NHHPP members are shown in Exhibit B and were determined as part of Agreement negotiations, any best and final offer process, and the DHHS actuary's soundness certification.

- 31.2.3. Capitation rate cell is determined as of the first day of the capitation month and does not change during the entire month regardless of member changes (e.g., age).
- 31.2.4. For claims incurred after September 1, 2015, all hepatitis C drugs and other specialty drugs, including orphan drugs, shall be paid for by the MCO, except for the individuals enrolled in the New Hampshire Health Protection Program for which DHHS shall make a pass through payment.
- 31.2.5. The MCO shall process and pay claims related to Mental Health Case Management Services and Rehabilitative Mental Health Services on an administrative services only basis, except for NHHPP and will be reimbursed by DHHS in a retrospective manner. Claims shall be paid by the MCO according to fee-for-service rates established by DHHS; except that NHHPP claims shall be at the rates prescribed according to Section 21.2.9.4. DHHS will implement a pass-through program with payments to be made no later than 45 days after the last day of the month the claims were paid by the MCO.
- 31.2.6. DHHS will make a monthly payment to the MCO for each member enrolled in the MCO's plan. The capitation rates, as set forth in Exhibit B, will be risk adjusted in an actuarially sound manner as follows:
- 31.2.6.1. The Chronic Illness and Disability Payment System and/or Medicaid Rx risk adjuster (CDPS + Rx, Medicaid Rx) will be used to risk adjust MCO capitation payments based on MCO encounter data availability. Until complete and validated MCO encounter data is available, the Medicaid Rx risk adjustment model will be used. Once complete and validated MCO encounter data becomes available, the risk adjustment process will transition to the CDPS+Rx model. The risk adjustment process will use prospective risk weights.
- 31.2.7. DHHS intends to instruct its actuaries to reassess rates from January 1, 2016 – June 30, 2016 for actuarial soundness and consider the inclusion of MCO encounter data, specific MCO formulary data, and other factors at DHHS discretion.
- 31.2.8. A risk score will be developed for members with six (6) months or more months of Medicaid eligibility (either FFS or managed care) inclusive of three (3) months of claims run out in the base experience period. For members with less than six (6) months of eligibility, a score equal to the average of those scored beneficiaries in each cohort will be used.
- 31.2.9. The MCO risk score for a particular rate cell will equal the average risk factor across all beneficiaries that the MCO enrolls divided by the average risk factor for the entire population enrolled in the Care Management program. For rate cells
-

with an opt-out provision, the MCO risk score will equal the average risk factor across all beneficiaries that the MCO enrolls divided by the average risk factor for the entire population that is eligible to enroll in the Care Management program (FFS eligibles + MCO members).

31.2.10. While Supplemental Behavioral Health payments are made, members eligible for enhanced behavioral health services will be assigned a 1.000 risk factor and will be included in the MCO risk score calculation. The resulting MCO risk scores by rate cell will apply to the base capitation rates only. Effective September 1, 2015, behavioral health rate cells will be risk adjusted.

31.2.11. DHHS reserves the right to terminate or implement the use of a risk adjustment process for specific eligibility categories or services if it is determined to be necessary to do so to maintain actuarially sound rates. For example, the risk adjustment process may need to be modified when Long Term Services and Supports (LTSS) are added to the capitation rates.

31.2.12. The capitation payment for Medicaid Managed Care members will be made retrospectively with a two (2) month delay. For example, a payment will be made within five (5) business days of the first day in October 2012 for services provided in July 2012.

31.2.13. Section 31.2.7 notwithstanding, capitation payments for NHHPP members will be paid in the month of service.

31.2.14. Capitation payment settlements will be made at three (3) month intervals. DHHS will recover capitation payments made for deceased members, or members who were later determined to be ineligible for Medicaid and/or for Medicaid managed care or need rate cell or kick payment corrections. DHHS will pay MCO for retroactive member assignments, corrections to kick payments, behavioral health certification level correction or other rate assignment corrections.

31.2.15. Capitation payments for members who became ineligible for services in the middle of the month will be prorated based on the number of days eligible in the month.

31.2.16. For each live birth, DHHS will make a one-time maternity kick payment to the MCO with whom the mother is enrolled on the date of birth. This payment is a global fee to cover all maternity expenses, including all delivery and postpartum care. In the event of a multiple birth DHHS will only make only one maternity kick payment. A live birth is defined in accordance with NH Vital Records reporting requirements for live births as specified in RSA 5-C.

31.2.17. For each live birth, DHHS will make a one-time newborn kick payment to the MCO with whom the mother is enrolled on the date of birth. This payment is a

global fee to cover all newborn expenses incurred in the first two (2) full or partial calendar months of life, including all hospital, professional, pharmacy, and other services. For example, the newborn kick payment will cover all services provided in July 2012 and August 2012 for a baby born any time in July 2012. Enrolled babies will be covered under the MCO capitated rates thereafter.

31.2.18. The MCO shall submit information on maternity and newborn events to DHHS. The MCO shall follow written policies and procedures, as developed by DHHS, for receiving, processing and reconciling maternity and newborn payments.

31.2.19. Beginning July 1, 2016, one percent (1.0%) of each member's capitation payment to the MCO will be withheld annually to support DHHS's payment reform incentive program. Details of the Incentive Program are described in Section 9.

31.2.20. DHHS will inform the MCO of any required program revisions or additions in a timely manner. DHHS may adjust the rates to reflect these changes as necessary to maintain actuarial soundness.

31.2.21. In the event an enrolled Medicaid member was previously admitted as a hospital inpatient and is receiving continued inpatient hospital services on the first day of coverage with the MCO, the MCO shall receive full capitation payment for that member. The entity responsible for coverage of the member at the time of admission as an inpatient, i.e. either DHHS or another MCO, shall be fully responsible for all inpatient care services and all related services authorized while the member was an inpatient until the day of discharge from the hospital.

31.2.22. Payment for behavioral health rate cells shall be determined based on a member's CMHC behavioral certification level and a member having had an encounter at a CMHC in the last 6 months. Changes in the certification level for a member shall be reflected as of the first of each month and does not change during the month.

31.2.23. For Applied Behavioral Analysis (ABA) services incurred on or after September 1, 2015 the MCO shall not be financially responsible for claims for ABA services provided that the MCO obtained prior approval from DHHS of prior authorizations for the services. DHHS shall make pass through payments to the MCO for those ABA services approved by DHHS.

31.2.24. Unless MCOs are exempted, through legislation or otherwise, from having to make payments to the New Hampshire Insurance Administrative Fund (Fund) pursuant to R.S.A. 400-A:39, DHHS shall reimburse MCO for MCO's annual payment to the Fund on a pass through basis within 30 days following receipt of invoice from the MCO and verification of payment by the NH Insurance Department.

31.2.25. For any member with claims exceeding five hundred thousand dollars (\$500,000) for the fiscal year, DHHS will reimburse fifty percent (50%) of the amount over five hundred thousand dollars (\$500,000) after all claims have been recalculated based on the DHHS fee schedule for the services. For a member whose services may be projected to exceed five hundred thousand dollars (\$500,000) in MCO claims, the MCO shall advise DHHS. Prior authorization from DHHS is required for subsequent services provided to the member.

31.3.NHHPP Risk Protection Structure

31.3.1.DHHS will implement risk adjustment and risk corridors for NHHPP. There will be two parts to the risk adjustment component. Part 1 will increase or decrease the total amount of MCO revenue for the actual opt out percentage and relative acuity level of the medically frail population compared to the rate setting assumptions. Part 2 will reallocate revenue between the MCOs based on the relative acuity level of their enrolled populations. Risk corridors will be applied after the Part 1 and Part 2 risk adjustment calculations.

31.3.1.1. Risk adjustment – Part 1 (Medically Frail Opt-Out Adjustment) – the NHHPP capitation rates are based on assumptions regarding the percentage of the NHHPP population opting out of the ABP due to self-reported medically frail status and their relative acuity level. As part of the contract settlement process, DHHS will measure the size based on member months and relative acuity level based on risk scores of the actual opt-out population and adjust NHHPP capitation rates appropriately. Part 1 of risk adjustment will increase (or decrease) the total amount of MCO revenue. If a lower percentage of the population opts out and/or the opt-out acuity level is lower than expected based on the opt-out and acuity assumptions in the capitation rate development, MCO capitation rates will increase. If a larger percentage of the population opts out and/or the opt-out acuity level is higher than expected based on the opt-out and acuity assumptions in the capitation rate development, MCO capitation rates will decrease.

31.3.1.2. Risk adjustment – Part 2 (MCO Revenue Reallocation) – Similar to the risk adjustment process for the current Medicaid Step 1 population under the MCM program, risk adjustment will shift revenue from MCOs with lower acuity populations to MCOs with higher acuity populations. This portion of the risk adjustment process is revenue neutral.

31.3.2.Risk adjustment – Methodology – Acuity will be measured using the CDPS+Rx, a diagnosis and pharmacy based risk adjuster that will also be used for the current Medicaid population. Key differences in the risk adjustment process for the NHHPP population include:

31.3.2.1. DHHS will use concurrent risk adjustment for the NHHPP population. Since the NHHPP population will not have a Medicaid claims history with diagnosis and pharmacy data, it will take six months or more to get a credible picture of the acuity level of the enrolled population. DHHS will use September 2014 – December 2015 claims to estimate September 2014 – December 2015 acuity (as opposed to prospective models that use a prior year’s claims to estimate current acuity).

31.3.2.2. Risk adjustment transfer payments will be made as part of the contract period settlement, not as prospective payments.

31.3.2.3. DHHS will use a pharmacy-only risk adjuster to monitor the actual population acuity of the population receiving the ABP compared to the rate setting assumptions and make corrections during the rate period if necessary. DHHS is committed to transparency of risk adjustment results and will issue quarterly reporting on a timely basis to MCO to facilitate evaluation of financial performance under risk adjustment.

31.3.3. Risk corridors – The private market risk corridor program for calendar years 2014 – 2016 will protect against uncertainty in annual profit or loss results for qualified health plans in and out of the individual and small group exchanges. DHHS will use a similar risk corridor structure for NHHPP. DHHS will establish a target medical loss ratio (MLR) of 89.0% based on NHHPP pricing assumptions:

31.3.3.1. Administrative allowance of 9.0% of the capitation rate prior to state premium tax

31.3.3.2. New Hampshire state premium tax of 2%

31.3.3.3. DHHS and each MCO will share the financial risk of actual results that are above or below the MLR target as shown in the table below:

New Hampshire Department of Health and Human Services New Hampshire Health Protection Program Population Risk Corridor Program		
Actual MLR Compared to Target MLR	MCO Share	DHHS Share
>3% below	10%	90%
1% - 3% below	50%	50%
1% below - 1% above	100%	0%
1% - 3% above	50%	50%

>3% above	10%	90%
-----------	-----	-----

31.3.3.4. Risk corridors will be applied after the Part 1 and Part 2 risk adjustment calculations.

31.3.4. Risk protection settlement will occur after the September 2014 – December 2015 NHHPP contract period has ended and enough time has passed to collect and validate MCO encounter data and financial data. DHHS will implement the following schedule for the final risk protection settlement:

31.3.4.1. December 31, 2015: end of NHHPP contract period

31.3.4.2. March 31, 2016: Cutoff date for encounter data to be used in the risk protection settlement calculations (September 2014 – December 2015 dates of service paid through March 31, 2016)

31.3.4.3. May 15, 2016: DHHS releases settlement payment report to MCOs

31.3.4.4. June 15, 2016: DHHS makes/receives final settlement payments to/from MCOs

31.3.4.5. An interim calculation will be performed with data through December 31, 2015. DHHS shall provide quarterly reports to MCO of estimated risk adjustment impact utilizing pharmacy data to facilitate MCOs evaluation of the impact of risk adjustment on capitation revenue.

31.4. Financial Responsibility for Dual-Eligibles

31.4.1. The MCO shall pay any Medicare coinsurance and deductible amount up to what New Hampshire Medicaid would have paid for that service, whether or not the Medicare provider is included in the MCO's provider network. These payments are included in the calculated capitation payment.

31.5. Premium Payments

31.5.1. DHHS is responsible for collection of any premium payments from members. If the MCO inadvertently receives premium payments from members, it shall inform the member and forward the payment to DHHS.

31.6. Sanctions

31.6.1. If the MCO fails to comply with the financial requirements in Section 31, DHHS may take any or all of the following actions:

31.6.1.1. Require the MCO to submit and implement a Corrective Action Plan

31.6.1.2. Suspend enrollment of members to the MCO after the effective date of sanction

31.6.1.3. Terminate the Agreement upon forty-five (45) days written notice

31.6.1.4. Apply liquidated damages according to Section 34

31.7. Medical Cost Accruals

31.7.1. The MCO shall establish and maintain an actuarially sound process to estimate Incurred But Not Reported (IBNR) claims.

31.8. Audits

31.8.1. The MCO shall allow DHHS and/or the NHID to inspect and audit any of the financial records of the MCO and its subcontractors. There shall be no restrictions on the right of the State or federal government to conduct whatever inspections and audits are necessary to assure quality, appropriateness or timeliness of services and reasonableness of their costs [42 CFR 438.6(g), SMM 2087.7; 42 CFR 434.6(a)(5)].

31.8.2. The MCO shall file annual and interim financial statements in accordance with the standards set forth below. This Section 30.7.3 will supersede any conflicting requirements in Exhibit C of this Agreement.

31.8.3. Within one hundred and eighty (180) calendar days or other mutually agreed upon date following the end of each calendar year during this Agreement, the MCO shall file, in the form and content prescribed by the National Association of Insurance Commissioners (“NAIC”), annual audited financial statements that have been audited by an independent Certified Public Accountant. Financial statements shall be submitted in either paper format or electronic format, provided that all electronic submissions shall be in PDF format or another read-only format that maintains the documents’ security and integrity.

31.8.4. The MCO shall also file, within seventy-five (75) days following the end of each calendar year, certified copies of the annual statement and reports as prescribed and adopted by the Insurance Department.

31.8.5. The MCO shall file within sixty (60) days following the end of each calendar quarter, quarterly financial reports in form and content as prescribed by the NAIC.

31.9. Member Liability

31.9.1. The MCO shall not hold its Medicaid members liable for:

31.9.1.1. The MCO’s debts, in the event of the MCO’s insolvency [42 CFR 438.116(a); SMM 2086.6];

31.9.1.2. The covered services provided to the member, for which the State does not pay the MCO;

31.9.1.3. The covered services provided to the member, for which the State, or the MCO does not pay the individual or health care provider that furnishes the services under a contractual, referral, or other arrangement; or

31.9.1.4. 1.3. Agreement Period

1.3.1. The initial term of this Agreement has been thirty-six (36) months. The New Hampshire Department of Health and Human Services (DHHS) is exercising its sole discretion to extend the Agreement for the remainder of the option period of twenty-four (24) months, for a total Agreement term of five (5) years.

and supports. Organizing care involves the marshalling of personnel and other resources needed to carry out all required services and supports, and requires the exchange of information among participants responsible for different aspects of care. (42 CFR 438.208).

Effective care coordination includes the following:

- Actively assists patients to acquire self-care skills to improve functioning and health outcomes, and slow the progression of disease or disability;
- Employs evidence-based clinical practices;

- Actively assists patients to take personal responsibility for their health care;

“Confidential Information” means information that is exempt from disclosure to the public or other unauthorized persons under federal or state law. Confidential Information includes, but is not limited to, Personal Information.

Conflict Free Care Coordination

“Conflict Free Care Coordination” separates clinical or non-financial eligibility determination from direct service provision. 27.3.3. Other resources with regard to Third Party Liability include but are not limited to: recoveries from personal injury claims, liability insurance, first party automobile medical insurance, and accident indemnity insurance.

27.4. MCO Post Payment Activities

27.4.1. The MCO is responsible for pursuing, collecting, and retaining recoveries of health-related insurance resources, including a claim involving Workers' Compensation or where the liable party has improperly denied payment based upon either lack of a medically necessary determination or lack of coverage. The MCO is encouraged to develop and implement cost-effective procedures to identify and pursue cases that are susceptible to collection through either legal action or traditional subrogation and collection procedures.

27.4.2. The MCO shall be responsible for Reviewing claims for accident and trauma codes as required under 42 C.F.R. §433.138 (e). The MCO shall specify the guideline used in determining accident and trauma claims and establish a procedure to send the DHHS Accident Questionnaire to Medicaid members, postage pre-paid, when such potential claim is identified. The MCO shall instruct members to return the Accident Questionnaire to DHHS. The MCO shall provide the guidelines and procedures to DHHS for review and approval prior to the first readiness review.

27.4.3. Due to potential time constraints involving accident and trauma cases and due to the large dollar value of many claims which are potentially recoverable by DHHS, the MCO must identify these cases before a settlement has been negotiated. Should DHHS fail to identify and establish a claim prior to settlement due to the MCO's untimely submission of notice of legal involvement where the MCO has received such notice, the amount of the actual loss of recovery shall be assessed against the MCO. The actual loss of recovery shall not include the attorney's fees or other costs, which would not have been retained by DHHS.

27.4.4. The MCO has the latter of eighteen (18) months from the date of service or twelve (12) months from the date of payment of health-related insurance resources to initiate recovery and may keep any funds that it collects. The MCO must indicate its intent to recover on health-related insurance by providing to DHHS an electronic file of those cases that will be pursued. The cases must be identified and a file provided to DHHS by the MCO within thirty (30) days of the date of discovery of the resource.

27.4.5. The MCO is responsible for pursuing, collecting, and retaining recoveries of health-related insurance resources where the liable party has improperly denied payment based upon either lack of a Medically Necessary determination or lack of coverage. The MCO is encouraged to develop and implement cost-effective procedures to identify and pursue cases which are susceptible to collection through either legal action or traditional subrogation and collection procedures.

27.5.DHHS Post Payment Recovery Activity

27.5.1.DHHS retains the sole and exclusive right to investigate, pursue, collect and retain all Other Resources, including accident and trauma. DHHS is assigned the MCO's subrogation rights to collect the "Other Resources" covered by this provision. Any correspondence or Inquiry forwarded to the MCO (by an attorney, provider of service, insurance carrier, etc.) relating to a personal injury accident or trauma-related medical service, or which in any way indicates that there is, or may be, legal involvement regarding the Recipient and the services which were provided, must be immediately forward to DHHS.

27.5.2.The MCO may neither unreasonably delay payment nor deny payment of Claims because they involved an injury stemming from an accident such as a motor vehicle accident, where the services are otherwise covered. Those funds recovered by DHHS under the scope of these "Other Resources" shall be retained by DHHS.

27.5.3.DHHS may pursue, collect and retain recoveries of all health-related insurance cases; provided, however, that if the MCO has not notified DHHS of its intent to pursue a case identified for recovery before the latter of eighteen (18) months after the date of service or twelve (12) months after the date of payment, such cases not identified for recovery by the MCO will become the sole and exclusive right of DHHS to pursue, collect and retain. The MCO must notify DHHS through the prescribed electronic file process of all outcomes for those cases identified for pursuit by the MCO.

27.5.4.Should DHHS lose recovery rights to any Claim due to late or untimely filing of a Claim with the liable third party, and the untimeliness in billing that specific Claim is directly related to untimely submission of Encounter Data or additional records under special request, or inappropriate denial of Claims for accidents or emergency care in casualty related situations, the amount of the unrecoverable Claim shall be assessed against the MCO.

28. Compliance with State and Federal Laws

28.2.4. Non-Discrimination in Enrollment

28.2.4.1. The MCO shall and shall require its providers and subcontractors to accept assignment of an member and not discriminate against eligible members because of race, color, creed, religion, ancestry, marital status, sexual orientation, national origin, age, sex, physical or mental handicap in accordance with Title VI of the Civil Rights Act of 1964, 42 U.S.C. § 2000d, Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 794, the Americans with Disabilities Act of 1990 (ADA), 42 U.S.C. § 12131 and rules and regulations promulgated pursuant thereto, or as otherwise provided by law or regulation.

28.2.4.2. The MCO shall and shall require its providers and subcontractors to not discriminate against eligible persons or members on the basis of their health or mental health history, health or mental health status, their need for health care services, amount payable to the MCO on the basis of the eligible person's actuarial class, or pre-existing medical/health conditions.

28.2.5. Non-Discrimination with Respect to Providers

28.2.5.1. The MCO shall not discriminate with respect to participation, reimbursement, or indemnification as to any provider who is acting within the scope of the provider's license or certification under applicable State law, solely on the basis of such license or certification or against any provider that serves high-risk populations or specializes in conditions that require costly treatment. This paragraph shall not be construed to prohibit an organization from including providers only to the extent necessary to meet the needs of the organization's members, from establishing any measure designed to maintain quality and control costs consistent with the responsibilities of the organization, or use different reimbursement amounts for different specialties or for different practitioners in the same specialty. If the MCO declines to include individual or groups of providers in its network, it shall give the affected providers written notice of the reason for the decision.

28.3. Changes in Law

28.3.1. The MCO shall implement appropriate system changes, as required by changes to federal and state laws or regulations.

29. Administrative Quality Assurance Standards

29.1. Claims Payment Standards

29.1.1. The MCO shall pay or deny ninety-five percent (95%) of clean claims within thirty (30) days of receipt, or receipt of additional information [42 CFR 447.46; 42 CFR 447.45(d)(2), (d)(3), (d)(5), and (d)(6)].

29.1.2. The MCO shall pay interest on any clean claims that are not paid within thirty (30) days at the interest rate published in the Federal Register in January of each year for the Medicare program.

29.1.3. The MCO shall pay or deny all claims within sixty (60) days of receipt.

29.1.4. Additional information necessary to process incomplete claims shall be requested from the provider within thirty (30) days from the date of original claim receipt.

29.1.5. For purposes of this requirement, New Hampshire DHHS has adopted the claims definitions established by CMS under the Medicare program, which are as follows:

29.1.5.1. “clean” claim: a claim that does not have any defect, impropriety, lack of any required substantiating documentation, or particular circumstance requiring special treatment that prevents timely payment; and

29.1.5.2. “incomplete” claim: a claim that is denied for the purpose of obtaining additional information from the provider.

29.1.6. Claims payment timeliness shall be measured from the received date, which is the date a paper claim is received in the MCO’s mailroom or an electronic claim is submitted. The paid date is the date a payment check or electronic funds transfer is issued to the service provider. The denied date is the date at which the MCO determines that the submitted claim is not eligible for payment.

29.2. Quality Assurance Program

29.2.1. The MCO shall maintain an internal program to routinely measure the accuracy of claims processing for MCIS and report results to DHHS on a monthly basis.

29.2.2. Monthly reporting shall be based on a review of a statistically valid sample of paid and denied claims determined with a ninety-five percent (95%) confidence level, +/- three percent (3%), assuming an error rate of three percent (3%) in the population of managed care claims.

29.2.3. The MCO shall implement Corrective Action Plans to identify any issues and/or errors identified during claim reviews and report resolution to DHHS.

29.3. Claims Financial Accuracy

29.3.1. Claims financial accuracy measures the accuracy of dollars paid to providers. It is measured by evaluating dollars overpaid and underpaid in relation to total paid amounts taking into account the dollar stratification of claims. The MCO shall pay ninety-nine percent (99%) of dollars accurately.

29.4. Claims Payment Accuracy

29.4.1. Claims payment accuracy measures the percentage of claims paid or denied correctly. It is measured by dividing the number of claims paid/denied correctly by the total claims reviewed. The MCO shall pay ninety-seven percent (97%) of claims accurately.

29.5. Claims Processing Accuracy

29.5.1. Claims processing accuracy measures the percentage of claims that are accurately processed in their entirety from both a financial and non-financial perspective; i.e., claim was paid/denied correctly and all coding was correct, business procedures were followed, etc. It is measured by dividing the total number of claims processed correctly by the total number of claims reviewed. The MCO shall process ninety-five percent (95%) of all claims correctly.

30. Privacy and Security of Members

30.1. General Provisions

- 30.1.1. The MCO shall be in compliance with privacy policies established by governmental agencies or by State or federal law.
- 30.1.2. The MCO shall provide sufficient security to protect the State and DHHS data in network, transit, storage, and cache.
- 30.1.3. In addition to adhering to privacy and security requirements contained in other applicable laws and statutes, the MCO shall execute as part of this Agreement a Business Associates Agreement governing the permitted uses and disclosure and security of Protected Health Information.
- 30.1.4. The MCO shall ensure that it uses and discloses individually identifiable health information in accordance with HIPAA privacy requirements in 45 CFR parts 160 and 164, subparts A and E, to the extent that these requirements are applicable [42 CFR 438.224]; complies with federal statutes and regulations governing the privacy of drug and alcohol abuse patient records (42 CFR, Part 2), and all applicable state statutes and regulations, including but not limited to: R.S.A. 167:30: protects the confidentiality of all DHHS records with identifying medical information in them.
- 30.1.5. With the exception of submission to the Comprehensive Healthcare Information System or other requirements of State or federal law, claims and member data on New Hampshire Medicaid members may not be released to any party without the express written consent of DHHS.
- 30.1.6. The MCO shall ensure that in the process of coordinating care, each member's privacy is protected consistent with the confidentiality requirements in 45 CFR parts 160 and 164. 45 CFR Part 164 specifically describes the requirements regarding the privacy of individually identifiable health information [42 CFR 438.208(b)(1), (2), and (3)].

31. Finance

31.1. Financial Standards

31.1.1. In compliance with 42 CFR 438.116, the MCO shall maintain a minimum level of capital as determined in accordance with New Hampshire NHID regulations, and any other relevant laws and regulations.

31.1.2. The MCO shall maintain a risk-based capital (RBC) ratio to meet or exceed the NHID regulations, and any other relevant laws and regulations.

31.1.3. With the exception of payment of a claim for a medical product or service that was provided to a member, and that is in accordance with a written Agreement with the provider, the MCO may not pay money or transfer any assets for any reason to an affiliate without prior approval from DHHS, if any of the following criteria apply:

31.1.3.1. RBC ratio was less than 2.0 for the most recent year filing, per R.S.A. 404-F:14 (III); and

31.1.3.2. MCO was not in compliance with the NHID solvency requirement.

31.1.4. The MCO shall notify DHHS within ten (10) calendar days when its Agreement with an independent auditor or actuary has ended and seek approval of, and the name of the replacement auditor or actuary, if any from DHHS.

31.1.5. The MCO shall maintain current assets, plus long-term investments that can be converted to cash within seven (7) calendar days without incurring a penalty of more than twenty percent (20%) that equal or exceed current liabilities.

31.1.6. The MCO shall not be responsible for DSH/GME (IME/DME) payments to hospitals. DSH and GME amounts are not included in capitation payments.

31.2. Capitation Payments

31.2.1. Capitation rates for non NHHPP members for the agreement period through June 30, 2016 are shown in Exhibit B and were determined as part of Agreement negotiations, any best and final offer process, and the DHHS actuary's soundness certification. For each of the subsequent years of the Agreement actuarially sound per member, per month capitated rates will be calculated and certified by the DHHS's actuary.

31.2.2. Capitation rates for NHHPP members are shown in Exhibit B and were determined as part of Agreement negotiations, any best and final offer process, and the DHHS actuary's soundness certification.

- 31.2.3. Capitation rate cell is determined as of the first day of the capitation month and does not change during the entire month regardless of member changes (e.g., age).
- 31.2.4. For claims incurred after September 1, 2015, all hepatitis C drugs and other specialty drugs, including orphan drugs, shall be paid for by the MCO, except for the individuals enrolled in the New Hampshire Health Protection Program for which DHHS shall make a pass through payment.
- 31.2.5. The MCO shall process and pay claims related to Mental Health Case Management Services and Rehabilitative Mental Health Services on an administrative services only basis, except for NHHPP and will be reimbursed by DHHS in a retrospective manner. Claims shall be paid by the MCO according to fee-for-service rates established by DHHS; except that NHHPP claims shall be at the rates prescribed according to Section 21.2.9.4. DHHS will implement a pass-through program with payments to be made no later than 45 days after the last day of the month the claims were paid by the MCO.
- 31.2.6. DHHS will make a monthly payment to the MCO for each member enrolled in the MCO's plan. The capitation rates, as set forth in Exhibit B, will be risk adjusted in an actuarially sound manner as follows:
- 31.2.6.1. The Chronic Illness and Disability Payment System and/or Medicaid Rx risk adjuster (CDPS + Rx, Medicaid Rx) will be used to risk adjust MCO capitation payments based on MCO encounter data availability. Until complete and validated MCO encounter data is available, the Medicaid Rx risk adjustment model will be used. Once complete and validated MCO encounter data becomes available, the risk adjustment process will transition to the CDPS+Rx model. The risk adjustment process will use prospective risk weights.
- 31.2.7. DHHS intends to instruct its actuaries to reassess rates from January 1, 2016 – June 30, 2016 for actuarial soundness and consider the inclusion of MCO encounter data, specific MCO formulary data, and other factors at DHHS discretion.
- 31.2.8. A risk score will be developed for members with six (6) months or more months of Medicaid eligibility (either FFS or managed care) inclusive of three (3) months of claims run out in the base experience period. For members with less than six (6) months of eligibility, a score equal to the average of those scored beneficiaries in each cohort will be used.
- 31.2.9. The MCO risk score for a particular rate cell will equal the average risk factor across all beneficiaries that the MCO enrolls divided by the average risk factor for the entire population enrolled in the Care Management program. For rate cells
-

with an opt-out provision, the MCO risk score will equal the average risk factor across all beneficiaries that the MCO enrolls divided by the average risk factor for the entire population that is eligible to enroll in the Care Management program (FFS eligibles + MCO members).

31.2.10. While Supplemental Behavioral Health payments are made, members eligible for enhanced behavioral health services will be assigned a 1.000 risk factor and will be included in the MCO risk score calculation. The resulting MCO risk scores by rate cell will apply to the base capitation rates only. Effective September 1, 2015, behavioral health rate cells will be risk adjusted.

31.2.11. DHHS reserves the right to terminate or implement the use of a risk adjustment process for specific eligibility categories or services if it is determined to be necessary to do so to maintain actuarially sound rates. For example, the risk adjustment process may need to be modified when Long Term Services and Supports (LTSS) are added to the capitation rates.

31.2.12. The capitation payment for Medicaid Managed Care members will be made retrospectively with a two (2) month delay. For example, a payment will be made within five (5) business days of the first day in October 2012 for services provided in July 2012.

31.2.13. Section 31.2.7 notwithstanding, capitation payments for NHHPP members will be paid in the month of service.

31.2.14. Capitation payment settlements will be made at three (3) month intervals. DHHS will recover capitation payments made for deceased members, or members who were later determined to be ineligible for Medicaid and/or for Medicaid managed care or need rate cell or kick payment corrections. DHHS will pay MCO for retroactive member assignments, corrections to kick payments, behavioral health certification level correction or other rate assignment corrections.

31.2.15. Capitation payments for members who became ineligible for services in the middle of the month will be prorated based on the number of days eligible in the month.

31.2.16. For each live birth, DHHS will make a one-time maternity kick payment to the MCO with whom the mother is enrolled on the date of birth. This payment is a global fee to cover all maternity expenses, including all delivery and postpartum care. In the event of a multiple birth DHHS will only make only one maternity kick payment. A live birth is defined in accordance with NH Vital Records reporting requirements for live births as specified in RSA 5-C.

31.2.17. For each live birth, DHHS will make a one-time newborn kick payment to the MCO with whom the mother is enrolled on the date of birth. This payment is a

global fee to cover all newborn expenses incurred in the first two (2) full or partial calendar months of life, including all hospital, professional, pharmacy, and other services. For example, the newborn kick payment will cover all services provided in July 2012 and August 2012 for a baby born any time in July 2012. Enrolled babies will be covered under the MCO capitated rates thereafter.

31.2.18. The MCO shall submit information on maternity and newborn events to DHHS. The MCO shall follow written policies and procedures, as developed by DHHS, for receiving, processing and reconciling maternity and newborn payments.

31.2.19. Beginning July 1, 2016, one percent (1.0%) of each member's capitation payment to the MCO will be withheld annually to support DHHS's payment reform incentive program. Details of the Incentive Program are described in Section 9.

31.2.20. DHHS will inform the MCO of any required program revisions or additions in a timely manner. DHHS may adjust the rates to reflect these changes as necessary to maintain actuarial soundness.

31.2.21. In the event an enrolled Medicaid member was previously admitted as a hospital inpatient and is receiving continued inpatient hospital services on the first day of coverage with the MCO, the MCO shall receive full capitation payment for that member. The entity responsible for coverage of the member at the time of admission as an inpatient, i.e. either DHHS or another MCO, shall be fully responsible for all inpatient care services and all related services authorized while the member was an inpatient until the day of discharge from the hospital.

31.2.22. Payment for behavioral health rate cells shall be determined based on a member's CMHC behavioral certification level and a member having had an encounter at a CMHC in the last 6 months. Changes in the certification level for a member shall be reflected as of the first of each month and does not change during the month.

31.2.23. For Applied Behavioral Analysis (ABA) services incurred on or after September 1, 2015 the MCO shall not be financially responsible for claims for ABA services provided that the MCO obtained prior approval from DHHS of prior authorizations for the services. DHHS shall make pass through payments to the MCO for those ABA services approved by DHHS.

31.2.24. Unless MCOs are exempted, through legislation or otherwise, from having to make payments to the New Hampshire Insurance Administrative Fund (Fund) pursuant to R.S.A. 400-A:39, DHHS shall reimburse MCO for MCO's annual payment to the Fund on a pass through basis within 30 days following receipt of invoice from the MCO and verification of payment by the NH Insurance Department.

31.2.25. For any member with claims exceeding five hundred thousand dollars (\$500,000) for the fiscal year, DHHS will reimburse fifty percent (50%) of the amount over five hundred thousand dollars (\$500,000) after all claims have been recalculated based on the DHHS fee schedule for the services. For a member whose services may be projected to exceed five hundred thousand dollars (\$500,000) in MCO claims, the MCO shall advise DHHS. Prior authorization from DHHS is required for subsequent services provided to the member.

31.3. NHHPP Risk Protection Structure

31.3.1. DHHS will implement risk adjustment and risk corridors for NHHPP. There will be two parts to the risk adjustment component. Part 1 will increase or decrease the total amount of MCO revenue for the actual opt out percentage and relative acuity level of the medically frail population compared to the rate setting assumptions. Part 2 will reallocate revenue between the MCOs based on the relative acuity level of their enrolled populations. Risk corridors will be applied after the Part 1 and Part 2 risk adjustment calculations.

31.3.1.1. Risk adjustment – Part 1 (Medically Frail Opt-Out Adjustment) – the NHHPP capitation rates are based on assumptions regarding the percentage of the NHHPP population opting out of the ABP due to self-reported medically frail status and their relative acuity level. As part of the contract settlement process, DHHS will measure the size based on member months and relative acuity level based on risk scores of the actual opt-out population and adjust NHHPP capitation rates appropriately. Part 1 of risk adjustment will increase (or decrease) the total amount of MCO revenue. If a lower percentage of the population opts out and/or the opt-out acuity level is lower than expected based on the opt-out and acuity assumptions in the capitation rate development, MCO capitation rates will increase. If a larger percentage of the population opts out and/or the opt-out acuity level is higher than expected based on the opt-out and acuity assumptions in the capitation rate development, MCO capitation rates will decrease.

31.3.1.2. Risk adjustment – Part 2 (MCO Revenue Reallocation) – Similar to the risk adjustment process for the current Medicaid Step 1 population under the MCM program, risk adjustment will shift revenue from MCOs with lower acuity populations to MCOs with higher acuity populations. This portion of the risk adjustment process is revenue neutral.

31.3.2. Risk adjustment – Methodology – Acuity will be measured using the CDPS+Rx, a diagnosis and pharmacy based risk adjuster that will also be used for the current Medicaid population. Key differences in the risk adjustment process for the NHHPP population include:

- 31.3.2.1. DHHS will use concurrent risk adjustment for the NHHPP population. Since the NHHPP population will not have a Medicaid claims history with diagnosis and pharmacy data, it will take six months or more to get a credible picture of the acuity level of the enrolled population. DHHS will use September 2014 – December 2015 claims to estimate September 2014 – December 2015 acuity (as opposed to prospective models that use a prior year’s claims to estimate current acuity).
- 31.3.2.2. Risk adjustment transfer payments will be made as part of the contract period settlement, not as prospective payments.
- 31.3.2.3. DHHS will use a pharmacy-only risk adjuster to monitor the actual population acuity of the population receiving the ABP compared to the rate setting assumptions and make corrections during the rate period if necessary. DHHS is committed to transparency of risk adjustment results and will issue quarterly reporting on a timely basis to MCO to facilitate evaluation of financial performance under risk adjustment.
- 31.3.3. Risk corridors – The private market risk corridor program for calendar years 2014 – 2016 will protect against uncertainty in annual profit or loss results for qualified health plans in and out of the individual and small group exchanges. DHHS will use a similar risk corridor structure for NHHPP. DHHS will establish a target medical loss ratio (MLR) of 89.0% based on NHHPP pricing assumptions:
 - 31.3.3.1. Administrative allowance of 9.0% of the capitation rate prior to state premium tax
 - 31.3.3.2. New Hampshire state premium tax of 2%
 - 31.3.3.3. DHHS and each MCO will share the financial risk of actual results that are above or below the MLR target as shown in the table below:

New Hampshire Department of Health and Human Services New Hampshire Health Protection Program Population Risk Corridor Program		
Actual MLR Compared to Target MLR	MCO Share	DHHS Share
>3% below	10%	90%
1% - 3% below	50%	50%
1% below - 1% above	100%	0%
1% - 3% above	50%	50%

>3% above	10%	90%
-----------	-----	-----

31.3.3.4. Risk corridors will be applied after the Part 1 and Part 2 risk adjustment calculations.

31.3.4. Risk protection settlement will occur after the September 2014 – December 2015 NHHPP contract period has ended and enough time has passed to collect and validate MCO encounter data and financial data. DHHS will implement the following schedule for the final risk protection settlement:

31.3.4.1. December 31, 2015: end of NHHPP contract period

31.3.4.2. March 31, 2016: Cutoff date for encounter data to be used in the risk protection settlement calculations (September 2014 – December 2015 dates of service paid through March 31, 2016)

31.3.4.3. May 15, 2016: DHHS releases settlement payment report to MCOs

31.3.4.4. June 15, 2016: DHHS makes/receives final settlement payments to/from MCOs

31.3.4.5. An interim calculation will be performed with data through December 31, 2015. DHHS shall provide quarterly reports to MCO of estimated risk adjustment impact utilizing pharmacy data to facilitate MCOs evaluation of the impact of risk adjustment on capitation revenue.

31.4. Financial Responsibility for Dual-Eligibles

31.4.1. The MCO shall pay any Medicare coinsurance and deductible amount up to what New Hampshire Medicaid would have paid for that service, whether or not the Medicare provider is included in the MCO's provider network. These payments are included in the calculated capitation payment.

31.5. Premium Payments

31.5.1. DHHS is responsible for collection of any premium payments from members. If the MCO inadvertently receives premium payments from members, it shall inform the member and forward the payment to DHHS.

31.6. Sanctions

31.6.1. If the MCO fails to comply with the financial requirements in Section 31, DHHS may take any or all of the following actions:

31.6.1.1. Require the MCO to submit and implement a Corrective Action Plan

31.6.1.2. Suspend enrollment of members to the MCO after the effective date of sanction

31.6.1.3. Terminate the Agreement upon forty-five (45) days written notice

31.6.1.4. Apply liquidated damages according to Section 34

31.7. Medical Cost Accruals

31.7.1. The MCO shall establish and maintain an actuarially sound process to estimate Incurred But Not Reported (IBNR) claims.

31.8. Audits

31.8.1. The MCO shall allow DHHS and/or the NHID to inspect and audit any of the financial records of the MCO and its subcontractors. There shall be no restrictions on the right of the State or federal government to conduct whatever inspections and audits are necessary to assure quality, appropriateness or timeliness of services and reasonableness of their costs [42 CFR 438.6(g), SMM 2087.7; 42 CFR 434.6(a)(5)].

31.8.2. The MCO shall file annual and interim financial statements in accordance with the standards set forth below. This Section 30.7.3 will supersede any conflicting requirements in Exhibit C of this Agreement.

31.8.3. Within one hundred and eighty (180) calendar days or other mutually agreed upon date following the end of each calendar year during this Agreement, the MCO shall file, in the form and content prescribed by the National Association of Insurance Commissioners (“NAIC”), annual audited financial statements that have been audited by an independent Certified Public Accountant. Financial statements shall be submitted in either paper format or electronic format, provided that all electronic submissions shall be in PDF format or another read-only format that maintains the documents’ security and integrity.

31.8.4. The MCO shall also file, within seventy-five (75) days following the end of each calendar year, certified copies of the annual statement and reports as prescribed and adopted by the Insurance Department.

31.8.5. The MCO shall file within sixty (60) days following the end of each calendar quarter, quarterly financial reports in form and content as prescribed by the NAIC.

31.9. Member Liability

31.9.1. The MCO shall not hold its Medicaid members liable for:

31.9.1.1. The MCO’s debts, in the event of the MCO’s insolvency [42 CFR 438.116(a); SMM 2086.6];

31.9.1.2. The covered services provided to the member, for which the State does not pay the MCO;

31.9.1.3. The covered services provided to the member, for which the State, or the MCO does not pay the individual or health care provider that furnishes the services under a contractual, referral, or other arrangement; or

31.9.1.4. Payments for covered services furnished under an Agreement, referral, or other arrangement, to the extent that those payments are in excess of the amount that the member would owe if the MCO provided those services directly [§1932(b)(6) of the SSA; 42 CFR 438.106(a), (b) and (c); 42 CFR 438.6(l); 42 CFR 438.230; 42 CFR 438.204(a); SMD letter 12/30/97].

31.9.2. Subcontractors and referral providers may not bill members any amount greater than would be owed if the entity provided the services directly [§1932(b)(6) of the SSA; 42 CFR 438.106(c); 42 CFR 438.6(l); 42 CFR 438.230; 42 CFR 438.204(a); SMD letter 12/30/97].

31.9.3. The MCO shall cover continuation of services to members for duration of period for which payment has been made, as well as for inpatient admissions up until discharge during insolvency [SMM 2086.6B].

31.10. Denial of Payment

31.10.1. Payments provided for under the Agreement will be denied for new members when, and for so long as, payment for those members is denied by CMS in accordance with the requirements in [§1903(m)(5)(B)(ii) of the SSA; 42 CFR 438.726(b); 42 CFR 438.730(e)].

31.11. Federal Matching Funds

31.11.1. Federal matching funds are not available for amounts expended for providers excluded by Medicare, Medicaid, or Children's Health Insurance Program (CHIP), except for emergency services [42 CFR 431.55(h) and 42 CFR 438.808; 1128(b)(8) and §1903(i)(2) of the SSA; SMD letter 12/30/97]. Payments made to such providers are subject to recoupment from the MCO by DHHS.

31.12. Health Insurance Providers Fee

31.12.1. Section 9010 of the Patient Protection and Affordable Care Act Pub. L. No. 111-148 (124 Stat. 119 (2010)), as amended by Section 10905 of PPACA, and as further amended by Section 1406 of the Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152 (124 Stat. 1029 (2010)) imposes an annual fee on health insurance providers beginning in 2014 ("Annual Fee"). Contractor is responsible for a percentage of the Annual Fee for all health insurance providers as determined by the ratio of Contractor's net written premiums for the preceding year

compared to the total net written premiums of all entities subject to the Annual Fee for the same year.

31.12.2. The State shall reimburse the Contractor for the amount of the Annual Fee specifically allocable to the premiums paid during this Contract Term for each calendar year or part thereof, including an adjustment for the full impact of the non-deductibility of the Annual Fee for Federal and state tax purposes, including income and excise taxes (“Contractor’s Adjusted Fee”). The Contractor’s Adjusted Fee shall be determined based on the final notification of the Annual Fee amount Contractor or Contractor’s parent receives from the United States Internal Revenue Service. The State will provide reimbursement ~~within 30 days~~ following its review and acceptance of the Contractor’s Adjusted Fee.

31.12.3. To claim reimbursement for the Contractor’s Adjusted Fee, the Contractor must submit a certified copy of its full Annual Fee assessment within 60 days of receipt, together with the allocation of the Annual Fee attributable specifically to its premiums under this Contract. The Contractor must also submit the calculated adjustment for the impact of non-deductibility of the Annual Fee attributable specifically to its premiums, and any other data deemed necessary by the State to validate the reimbursement amount. These materials shall be submitted under the signatures of either its Financial Officer or Executive leadership (e.g., President, Chief Executive Officer, Executive Director), certifying the accuracy, truthfulness and completeness of the data provided.

Questions regarding payment(s) should be addressed to:

32. Termination

32.1. Transition Assistance

32.1.1. Upon receipt of notice of termination of this Agreement by DHHS, the MCO shall provide any transition assistance reasonably necessary to enable DHHS or its designee to effectively close out this Agreement and move the work to another vendor or to perform the work itself.

32.1.1.1. Transition Plan

32.1.1.1.1. MCO must prepare a Transition Plan which is acceptable to and approved by DHHS to be implemented between receipt of notice and the termination date.

32.1.1.2. Data

32.1.1.2.1. The MCO shall be responsible for the provision of necessary information and records, whether a part of the MCIS or compiled and/or stored elsewhere, including, but not limited to, encounter data, to DHHS and/or its designee during the closeout period to ensure a smooth transition of responsibility. DHHS and/or its designee shall define the information required during this period and the time frames for submission.

34.1.1. A material default or breach in this Agreement will cause irreparable injury to DHHS. In the event of any claim for default or breach of this Agreement, no provision of this Agreement shall be construed, expressly or by implication, as a waiver by the State of New Hampshire to any existing or future right or remedy available by law. Failure of the State of New Hampshire to insist upon the strict performance of any term or condition of this Agreement or to exercise or delay the exercise of any right or remedy provided in the Agreement or by law, or the acceptance of (or payment for) materials, equipment or services, shall not release the MCO from any responsibilities or obligations imposed by this Agreement or by law, and shall not be deemed a waiver of any right of the State of New Hampshire to insist upon the strict performance of this Agreement. In addition to any other remedies that may be available for default or breach of the Agreement, in equity or otherwise, DHHS may seek injunctive relief against any threatened or actual breach of this Agreement without the necessity of proving actual damages. Therefore, the parties agree that the liquidated damages as specified in the sections below are reasonable.

Except and to the extent expressly provided herein, DHHS shall be entitled to recover liquidated damages cumulatively under each section applicable to any given incident.

The MCO agrees to abide by the Performance Standards and Liquidated Damages specified, provided that DHHS has given the MCO data required to meet performance standards in a timely manner. DHHS's decision to assess liquidated damages must be reasonable, based in fact and made in good faith.

34.2.6. The remedies specified in this Section shall apply until the failure is cured or a resulting dispute is resolved in the MCO's favor.

34.2.7. Liquidated damages may be assessed for each day, incidence or occurrence, as applicable, of a violation or failure.

34.2.8. The amount of liquidated damages assessed by DHHS to the MCO shall not exceed three percent (3%) of total expected yearly capitated payments, based on average annual membership from start date, for the MCO.

**Exhibit O- Amendment #3
NH Medicaid Care Management Quality and Oversight Reporting – SFY 2016**

The Exhibit O items shall be submitted according to the schedule and method specified and as modified in the NH DHHS's New Hampshire Medicaid Care Management Quality Oversight Reporting Specifications document, related templates, and as specified by the Medicaid Quality Information System specifications using the specifications relevant for each items data period.

HEDIS measures that have DHHS subpopulation breakdowns or CMS age breakdowns are to be submitted both as standard audited HEDIS measures using the NCOA IDSS template and through the Medicaid Quality Information System specification as non-NCOA audited data without additional sampling for hybrid measures. The first due date for existing measures CMS_A_CDF and CMS_C_BHRA is now September 30, 2016. Existing measure CMS_C_DEV shall be reported using administrative data only. Items specific to the NHPPP program (prefixed "HPP") will be retired after the final submission of the last measure period of the program. To meet the CMS Core Set requirements of Exhibit A, only the following HEDIS measures require the added CMS age breakout: AMM, BCS, CBP, CCS, CDC, MPM, and PPC.

Table Notes:

"Change for 2016 Program Year" column indicates whether the item is Unchanged, New, Changed, or Retired after final submission.

"Supports LTSS Monitoring" column is for reference to indicate items that are specifically tied to monitoring the new LTSS benefit.

"Requires New Subgroup Breakout" column indicates measures where reporting will be required by a new population subgrouping system as defined by DHHS. The system will group members into subgroups based on member age, complexity, LTSS use, and whether Medicaid is a secondary payer for the member.

EXPLANATION

The purpose of this amendment is to extend the current agreements to allow for a 4-month extension of healthcare coverage to the traditional Medicaid population at the current rates and continues authorization of services to the New Hampshire Health Protection population through December 31, 2015. This amendment identifies the Department's publically targeted dates for the enrollment and coverage of the additional 10,000 persons who previously opted out of Step 1 services and the targeted dates for the commencement of coverage for CFI and nursing services. Changes to the agreements that would implement these changes and establish rates for the Step II services will be incorporated into a further amendment for the remaining 20-month extension.

This extension enables the Department to advance waiver applications with the Centers for Medicare and Medicaid Services (CMS) that are required for the mandatory coverage of Step I medical services for those persons who were previously allowed to "opt-out" of the Medicaid Care Management Program and for the implementation of Step II waiver services to persons receiving nursing home services and persons receiving in-home long-term care services under the Choices for Independence Waiver. This brief extension period will also enable the Department and the managed care plans to review proposed new federal managed care regulations just released by the federal Centers for Medicare and Medicaid Services (CMS) and to review additional information that may inform the determination of capitated rates for Step 1 medical services for the balance of the agreement extension period.

This amendment also provides that in the absence of concluding an agreement for the additional 20 months of services by July 31, 2015 with either or both of the managed care plans, the Department may invoke the termination provisions of the agreement to ensure a 90-day transition plan for the plan enrollees.

Section 1.3 of the current agreements with the managed care plans specify a term of 36 months with the option of the Department to extend the agreements for an additional 24 months with the approval of the Governor and Council. The initial 36-month period expires on June 30, 2015.

The purpose of this amendment is to (i) amend Section 1.3 of the existing agreements to allow for more than one extension of the agreement, provided that the total period of extensions remains unchanged at 24 months and (ii) enable the Department to extend the current agreement at the current capitated rates for an additional four (4) months for the traditional Medicaid population in order to allow the Department to advance waiver applications with CMS that are required to expand the Care Management Program to cover an additional 10,000 persons who were previously allowed to "opt-out" of the Step 1 medical services, as well as to advance waivers needed to begin the phase-in of Step II services for persons receiving home and community based services under the Choices for Independence Waiver and those receiving nursing home services.

This amendment also authorizes the continuation of medical services provided by the managed care plans to the New Hampshire Health Protection population through December

31, 2015, which is funded at 100% of federal financial participation. The New Hampshire Health Protection population will be transitioned into Qualified Health Plans on the federal marketplace beginning on January 1, 2016.

The Department and the managed care plans have been negotiating a contract amendment that would extend the agreements for the remaining 24-month period; establish new capitated rates for SFY 16 for Step 1 medical services; incorporate all remaining eligible Medicaid populations into managed care, and establish capitated rates for and implement Step II waiver services for persons under the Choices for Independence waiver. Implementing mandatory enrollment for Step 1 medical services and providing Step II waiver services for CFI require approval of waivers by CMS. The Department and the managed care plans need additional time to advance the waiver applications with CMS and to continue work on establishing capitated rates for the balance of the 24-month extension period. Should the Department and either or both of the plans be unable to agree upon the terms for the remaining 20-months of the program for the traditional Medicaid population, the 4-month period would also allow for a transition of the Medicaid enrollees.

The targeted dates for the inclusion of the mandatory population and phase-in of Step II services, as reflected in Exhibit A to the agreement, are as follows:

Phase 1. Mandatory Enrollment of "opt-out" population-
Program target start date: September 1, 2015;

Phase 2. Choices For Independence Waiver ("CFI")-
Program target start date: January 1, 2016;

Phase 3. Nursing Facility services ("NF") and DCYF services-
Program target start date: July 1, 2016;

Phase 4. Developmental Disabilities, Acquired Brain Disorder and In Home Supports for Children with Developmental Disabilities waivers ("Waiver Services") will commence on a date to be determined by DHHS in consultation with the MCOs.

Exhibit A to the Agreement describes the obligations of the managed care health plans in providing services to the existing Medicaid population. This exhibit remains unchanged in the 4-month extension, except that it identifies the targeting phase-in of Step II CFI and nursing services as noted above.

Exhibit B to the Agreement reflects the capitated rate information for the four month period of SFY 2016 and for the continuation of services for the New Hampshire Health Protection population through December 31, 2015.

Area Served: Statewide

Source of funds: Federal financial participation rates for the currently eligible population will be 50% federal funds as appropriated by Congress for the entire period of this amendment. Federal financial participation rates for the New Hampshire Health Protection services be 100% federal funds as appropriated by Congress for the entire period of this Amendment.

In the event that Federal Funds become no longer available or are decreased below the 100% FFP level for the New Hampshire Health Protection population, as provided under the New Hampshire Health Protection Act, General Funds will not be requested to support this program and the medical services for the new adult population would end within 90 days.

EXPLANATION

The purpose of this amendment is to amend the existing agreements with the two health plans to amend capitation rates for the currently eligible population, effective January 1, 2015. The original agreements with Granite State Health Plan and Boston Medical Center Health-Net Plan approved by the Governor and Executive Council on May 9, 2012, allow for such amendments. The original agreements were competitively bid.

These amendments reflect adjusted rate information for SFY 2015 in Exhibit B.

Similar to contract Amendment 5, which was approved by the Governor and Council on July 16, 2014, specialty services for the long term care population, including nursing home services and services for the developmentally disabled are not incorporated into the scope of services provided by these vendors, pending the stakeholder engagement process. Future amendments to this contract are anticipated to incorporate the long term care services.

The first amendment approved by Governor and Executive Council on June 19, 2013 was a zero cost amendment that updated and adjusted rate information as well as made clarifications and adjustments to Exhibit A and Exhibit O.

The original price limitation for SFY 2014 of \$900,000,000 was reduced in the second amendment approved by the Governor and Executive Council on February 12, 2014 to reflect seven months of coverage (December 1, 2013 through June 30, 2014).

The third amendment approved by the Governor and Executive Council on April 9, 2014 increased the SFY 2014 price limitation by \$10,363,689 to \$250,000,000 to assure contract resources were adequate to cover the remainder of the contract period.

The fourth amendment approved by the Governor and Executive Council on June 18, 2014, reduced the SFY 2015 price limitation by \$485,000,000 to \$460,000,000 to reflect the annual actuarially certified rate structure and adjustments to the scope of services.

The fifth amendment approved by the Governor and Executive Council on July 16, 2014 increased the SFY 2015 price limitation by \$115,477,500 to reflect the addition of the new population and substance use disorder services to the new adult group.

A scanned copy of this item, including the G&C letters and accompanying documentation from the original agreement and subsequent amendments will be available online once posted to the meeting agenda for the Governor and Executive Council.

Should Governor and Council determine to not approve this request, the new adult population up to 138% of the federal poverty level would not be provided health coverage under the New Hampshire Health Protection Program.

Performance measures, including but not limited to the following, will be used to evaluate these agreements.

- Access Standards, including, but not limited to: provider network, geographic distance, timely access to services and access to special services;

EXPLANATION

The purpose of this amendment is to amend the existing agreements with the two health plans to amend capitation rates for the currently eligible population, effective January 1, 2015. The original agreements with Granite State Health Plan and Boston Medical Center Health-Net Plan approved by the Governor and Executive Council on May 9, 2012, allow for such amendments. The original agreements were competitively bid.

These amendments reflect adjusted rate information for SFY 2015 in Exhibit B.

Similar to contract Amendment 5, which was approved by the Governor and Council on July 16, 2014, specialty services for the long term care population, including nursing home services and services for the developmentally disabled are not incorporated into the scope of services provided by these vendors, pending the stakeholder engagement process. Future amendments to this contract are anticipated to incorporate the long term care services.

The first amendment approved by Governor and Executive Council on June 19, 2013 was a zero cost amendment that updated and adjusted rate information as well as made clarifications and adjustments to Exhibit A and Exhibit O.

The original price limitation for SFY 2014 of \$900,000,000 was reduced in the second amendment approved by the Governor and Executive Council on February 12, 2014 to reflect seven months of coverage (December 1, 2013 through June 30, 2014).

The third amendment approved by the Governor and Executive Council on April 9, 2014 increased the SFY 2014 price limitation by \$10,363,689 to \$250,000,000 to assure contract resources were adequate to cover the remainder of the contract period.

The fourth amendment approved by the Governor and Executive Council on June 18, 2014, reduced the SFY 2015 price limitation by \$485,000,000 to \$460,000,000 to reflect the annual actuarially certified rate structure and adjustments to the scope of services.

The fifth amendment approved by the Governor and Executive Council on July 16, 2014 increased the SFY 2015 price limitation by \$115,477,500 to reflect the addition of the new population and substance use disorder services to the new adult group.

A scanned copy of this item, including the G&C letters and accompanying documentation from the original agreement and subsequent amendments will be available online once posted to the meeting agenda for the Governor and Executive Council.

Should Governor and Council determine to not approve this request, the new adult population up to 138% of the federal poverty level would not be provided health coverage under the New Hampshire Health Protection Program.

Performance measures, including but not limited to the following, will be used to evaluate these agreements.

- Access Standards, including, but not limited to: provider network, geographic distance, timely access to services and access to special services;
- Quality Performance Incentives focused on four areas: Timeliness of Prenatal Care, Follow-Up After Hospitalization for Mental Illness, Parental Satisfaction With Children Getting Appointments for Care and Satisfaction with Getting Appointments for Care; and
- Claims Payment and Processing Accuracy.

Federal financial participation rates for the New Hampshire Health Protection services are will be 100% federal funds as appropriated by Congress for the entire period of this Amendment.

In the event that Federal funds become no longer available or are decreased below the 100% FFP level, as provided under the New Hampshire Health Protection Act, General Funds will not be requested to support this program and the medical services for the new adult population would end within 90 days.

The purpose of these amendments is to amend the existing agreements with the three Managed Care Organizations specifically as they relate to the Centers of Medicare and Medicaid Services requirements that rates be updated annually and subject to actuarial certification. The original agreements approved by Governor and Executive Council on May 9, 2012 allow for such amendments. The original agreements were competitively bid.

These amendments reflect updated and adjusted rate information for SFY 2015 for services provided under the agreements, clarifications and adjustments to Exhibit A, Scope of Work, and an updated Exhibit O, which outlines quality and oversight reporting requirements. Because a program of specialty services for the long term care population, including nursing home services and services for the developmentally disabled has yet to be incorporated into the scope of services provided by these vendors, there has been a reduction in the price limitation for SFY 2015.

The Department intends to incorporate services for the long term care population into future amendments to these contracts.

The first amendment approved by Governor and Executive Council on June 19, 2013 was a zero cost amendment that updated and adjusted rate information as well as made clarifications and adjustments to Exhibit A and Exhibit O.

The original price limitation for SFY 2014 of \$900,000,000 was reduced in the second amendment approved by the Governor and Executive Council on February 12, 2014 to reflect seven months of coverage (December 1, 2013 through June 30, 2014).

The third amendment approved by the Governor and Executive Council on April 9, 2014 increased the SFY 2014 price limitation by \$10,363,689 to \$250,000,000 to assure contract resources were adequate to cover the remainder of the contract period.

A scanned copy of this item, including the G&C letters and accompanying documentation from the original agreement and subsequent amendments will be available online once posted to the meeting agenda for the Governor and Executive Council.

Should Governor and Council determine to not approve this request New Hampshire citizens will not benefit from improved and cost efficient medical care available to them under the Managed Care Program.

Performance Measures, including but not limited to the following will be used to evaluate these agreements.

- Access Standards, including, but not limited to: provider network, geographic distance, timely access to services and access to special services;
- Quality Performance Incentives focused on four areas: Timeliness of Prenatal Care, Follow-Up After Hospitalization for Mental Illness, Parental Satisfaction With Children

REQUESTED ACTION

Authorize the Department of Health and Human Services to amend existing individual agreements with the Managed Care Organizations listed below to correct a scrivener's error in Table 1 of the October 23, 2013 actuarial report provided by Milliman, Inc. and increase the SFY 2014 price limitation by \$10,363,689 to \$250,000,000 to assure contract resources are adequate to cover the remainder of the contract period, effective upon Governor and Executive Council Approval through June 30, 2014, based upon the availability and continued appropriation of funds, with authority to adjust encumbrances between fiscal years if needed and justified through the Budget Office. Governor and Council approved the original agreement on May 9, 2012 and then approved subsequent amendments on June 19, 2013 and February 12, 2014.

A second transfer is being planned to sweep funds from various Medicaid related accounts to Care Management Account #7948 to adequately fund the Medicaid Care Management contract expenses. This transfer is planned for May Fiscal and Governor and Council submission.

EXPLANATION

The purpose of this amendment with the three Managed Care Organizations is to correct a scrivener's error in Table 1 of the actuarial report provided by Milliman, Inc. (State of New Hampshire Department of Health and Human Services, December 2013- June 2014 Capitation Rate Development for Medicaid Care Management Program, dated October 23, 2013). The figures inserted in Table 1 should have reflected the base rate of each Base Rate Capitation Rate cell, but instead were amounts that included both the base rate and the supplemental behavioral health rate. This error is corrected with this amendment.

After careful review of current and projected member months, the Department is requesting to increase that price limitation by \$10,363,689 to \$250,000,000 to assure contract resources are adequate to cover the remainder of the contract period.

Should Governor and Council determine to not approve this request New Hampshire citizens will not benefit from improved and cost efficient medical care available to them under the Managed Care Program.

These are zero cost amendments, specific to the rate structure update for SFY14 and do not have an impact on the contract period.

EXPLANATION

The purpose of this amendment with the three Managed Care Organizations is to adjust the payments rates to incorporate changes that have occurred in the Medicaid program since the current rates were set in July 2013. The original contract envisioned \$900,000,000 for SFY 2014. However, due to a delayed start, the price limitation is adjusted to \$239,636,311 to represent the partial year of SFY14, December 1, 2013 through June 30, 2014, and does not include the contract amount for SFY15. The Department is planning to bring a new amendment for G&C approval for SFY15.

and the Honorable Executive Council
January 16, 2014

These amendments reflect an adjustment to the per member per month rates paid to the managed care organizations to incorporate additional capacity and rate increase for designated receiving facility beds (involuntary psychiatric treatment beds located in private hospitals) in the State, update to DRG and FQHC rates, as well as an adjustment to reflect the start date of Care Management as December 1, 2013. The original agreements approved by Governor and Executive Council on May 9, 2012 allow for such amendments. These original agreements were competitively bid.

EXPLANATION

The purpose of these amendments is to amend the existing agreements with the three Managed Care Organizations specifically as they relate the Centers of Medicare and Medicaid Services requirement that rates be updated annually and subject to actuarial certification. The original agreements approved by Governor and Executive Council on May 9, 2012 allow for such amendments. The original agreements were competitively bid.

These amendments reflect updated and adjusted rate information for SFY 2014 for services provided under the agreements, clarifications and adjustments to Exhibit A, and an updated Exhibit O.

The new rate structure provides supplemental capitation payment rates for Behavioral Health Services, reflecting the cost above the base rates for all covered services (not only for enhanced behavioral health services), including hospital inpatient, hospital outpatient, professional, pharmacy, and other covered services. The SFY2014 update also allows for improved reimbursement to the providers by the MCOs. The updated rate information used within the amendments was derived using the professional assistance of an actuarial firm to analyze cost details and verify actuarial certification, just as it had been done prior to the approval of the original agreements. to Governor and Council approval, implementation of the amended agreements is contingent upon approval by Centers for Medicare & Medicaid Services.

Changes to Exhibits A and O coordinate performance and quality measures in the agreement with the goals and requirements of the NH Quality Strategy.

Components of the Quality Strategy in Exhibit A include:

Performance Measures such as:

- Access Standards, including, but not limited to: provider network, geographic distance, timely access to services and access to special services;

Quality Performance Incentives focused on four areas:

- Timeliness of Prenatal Care,
- Follow-Up After Hospitalization for Mental Illness,

EXPLANATION

The purpose of these agreements is to provide improved and cost efficient medical and long-term care services to New Hampshire Medicaid clients through the implementation of a Managed Care Program beginning July 1, 2012, through June 30, 2015. These agreements provide for a one two-year extension pending the successful performance of the vendor and approval by Governor and Council.

Total spending for all three agreements in State Fiscal Year 2013 will not exceed \$381,923,030 and contracts are executed with this not-to-exceed amount. As rates are negotiated for State Fiscal Years 2014 and 2015, contracts will be renegotiated increasing the not-to-exceed amounts, but the total spending for all three agreements from July 1, 2012, through June 30, 2015, will not exceed \$2,226,923,030 as requested. The reason these amounts are stated as "not to exceed" is that the Managed Care Program permits clients to self-select the vendor of their choice, which in turn will determine the amount expended on any one contract. Clients' selections will not be known until after implementation of the Program. In any event, actual spending on all approved contracts will not exceed \$2,226,923,030 in the aggregate over the three-year term of the agreements. For purposes of encumbering funds by Managed Care Organizations, the allocation described in the Request For Proposals for auto-enrollment was used. If a client fails to select a Managed Care Organization, the process for auto-assignment if the client's provider is under contract with more than one Managed Care Organization or no usual source of primary care can be determined, will be that the Managed Care Organization with the highest technical score will be assigned 50% of the auto-assigned members and the other two Managed Care Organizations receiving 25% of the remaining auto-assignments. Costs for State Fiscal Years 2014 and 2015 were derived by adjusting previous years estimates upward by five percent to account for inflation.

Pursuant to Chapter 125, Laws of 2011 (Senate Bill 147), the Department is required to develop a managed care model for administering the Medicaid program to provide medical and long-term care services for all Medicaid populations throughout New Hampshire consistent with the provisions of Federal Regulation 42 U.S.C. 1396u-2. It also requires the Department to submit final contracts to Governor and Council no later than March 15, 2012, unless the date is extended by the Fiscal Committee. On March 9, 2012, FIS12-094, Fiscal Committee extended the date to March 28, 2012. The law also requires that the capitated rates set by the Department be approved by the Fiscal Committee. The Fiscal Committee approved the rates on March 9, 2012, FIS12-094 as amended. The Department's State Fiscal Years 2012-2013 budget approved in June 2011 includes anticipated savings in the Medicaid Program of thirty million dollars following the implementation of a Managed Care Program.

Pursuant to the language of Chapter 125, Laws of 2011 (Senate Bill 147), the Department developed a three-phased approach to implementing a Managed Care Program:

- Step 1 includes the July 1, 2012, implementation of a program for all Medicaid State Plan medical, pharmacy and mental health services for most populations.
- Step 2 includes the July 1, 2013, implementation of a program for specialty services for the long-term care populations, including nursing home services and services for the developmentally disabled. It includes the State's option to manage financing for specialty services for those dually eligible for Medicaid and Medicare.
- Step 3 includes the January 2014 Medicaid expansion population under the Affordable Care Act.

The "public process" used for development and procurement of a managed care model included the following process:

- The Department of Health and Human Services conducted a Request For Information released July 28, 2010, report published January 14, 2011;
- Public legislative process regarding SB 147 (2011);
- Regional stakeholder forums and focus groups conducted by Louis Karno & Associates and Pontifax; Stakeholder forums were held: 9/13/11 in Keene, NH; 9/14 in Nashua, NH; 9/21 in Littleton, NH with remote sites from Lebanon and Berlin participating; 9/22 in Somersworth, NH; 9/23 in Manchester, NH; 9/29 in Concord, NH.
- Focus groups were held in the fall of 2011 in Littleton, Berlin, Dover, Concord, Claremont, Somersworth, Portsmouth, Salem and Nashua, NH. Participants in the focus groups included consumers with physical disabilities, severe mental health issues, substance abuse issues, developmental disabilities, elderly needing long-term care assistance, low-income who receive public assistance and consumers with limited English proficiency or other cultural barriers to health access;
- Monthly updates of Medical Care Advisory Committee commencing in 2011;
- Newspaper public notices February 3, 2012; and
- Public engagement of long-term care populations will continue by Louis Karno throughout the development of Step II.

These agreements were competitively bid. A Request For Proposals was posted on the Department of Health and Human Services website on October 17, 2011, through December 16, 2011. Eighteen vendors submitted Letters of Intent. A Bidders' Technical Proposal Conference was held on November 3, 2011, and a Cost Proposal Conference on November 17, 2011. Six vendors submitted proposals by the December 14, 2011, deadline specified in the Request For Proposals. The Requests for Proposals stated that members shall have a choice between two or three Managed Care Organizations operating in the State.

Eight high-level Department of Health and Human Services staff and one from the New Hampshire Department of Justice were assigned to the Technical Evaluation Team. Team members reviewed the proposals individually and then met as a group to collectively score the proposals, using a consensus model. The technical merits of each proposal were reviewed and scored consistent with the criteria for evaluation of Technical Proposals as specified in the Request For Proposals. Technical Proposals were evaluated in each of the following areas: Services and Populations; Pharmacy Management; Member Enrollment; Member Services and Cultural Considerations; Access and Network Management; Payment Reform; Behavioral Health; Care Management; Quality Management; Early Periodic Screening, Diagnosis, and Treatment (EPSDT); Utilization Management; and Administrative Functions. Technical Proposals were awarded a maximum of 70 points out of a possible total evaluation score of 100.

The Cost Evaluation Team consisted of four high-level Department of Health and Human Services staff. Following professional assistance of an actuarial firm to analyze cost details and verify actuarial certification, the Team scored the cost proposals by consensus consistent with the criteria for evaluation as specified in the Request For Proposals. Cost Proposals were awarded a maximum of 30 points out of a possible total evaluation score of 100. Attached is a bid summary including the bidders' scores and participants on the evaluation teams.

The contract negotiation process was started with the three bidders receiving the highest evaluation scores. Contract negotiations were conducted by the Contract Negotiation Team, consisting of four high ranking Department of Health and Human Services employees and two Department of Justice employees, individually with each of the bidders so that the terms and conditions in each of the agreements for which approval is requested are identical. Rate structure was negotiated by the Department and approved by the Fiscal Committee on March 9, 2012, FIS12-094 as amended. The Department of Information Technology has approved that the Department of Health and Human Services enter into these agreements. Their approval is attached. As a result of this process the Department requests Governor and Council approval to enter into agreements with the Medicaid Managed Care Organizations named in the Requested Action. Subsequent to Governor and Council approval, implementation of the agreements is contingent upon approval by Centers for Medicare & Medicaid Services.

Should Governor and Council determine to not approve this request New Hampshire citizens will not benefit from improved and cost efficient medical care available to them under the Managed Care Program. They will face uncertainty over which Medicaid services are available due to the likelihood of the elimination or reduction to services that will be necessitated by the reduced State Fiscal Years 2012-2013 appropriated budget amounts that anticipate savings resulting from the implementation of the Managed Care Program. Additionally, the Department will be in violation of Senate Bill 147 that mandates implementation of a Managed Care Program.

The following Performance Measures, including but not limited to the following, will be used to evaluate these agreements.

- Access Standards, including, but not limited to: provider network, geographic distance, timely access to services and access to special services;
- Quality Performance Incentives focused on four areas: Adolescent Well Care visits, Re-admissions to New Hampshire Hospital, Getting Needed Care Composite (member satisfaction) and Maternal Smoking Cessation; and
- Claims Payment and Processing Accuracy.

Area served: Statewide.

Source of funds: Federal financial participation rates range from 50% to 75%. Average funding sources are estimated to be as follows:

- State Fiscal Year 2013: 50.5% Federal Funds and 49.5% General Funds; and
- State Fiscal Years 2014 and 2015: 50.2% Federal Funds, 38.4% General Funds and 11.4% Other Funds (County).

In the event that Federal or other funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Nicholas A. Toumpas
Commissioner
