VICTORIA F. SHEEHAN
COMMISSIONER

WILLIAM CASS, P.E.
ASSISTANT COMMISSIONER

Bureau of Construction
October 13, 2016

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with B.U.R. Construction, LLC (Vendor 165907) of Claremont, NH on the basis of a low bid of \$686,950.00 for installation of scour countermeasures on the Cresson Covered Bridge in Swanzey and the Ashuelot Covered Bridge in Winchester, from the date of Governor and Council approval through September 29, 2017 unless extended by the Department in accordance with the Standard Specifications. 80% Federal Funds, 20% Other Funds.

Table with 2 columns: Funding description and FY 2017 amount. Includes rows for Consolidated Federal Aid (400-500870 Highway Contract Payments) at \$549,560.00 and SB367 Capital Investment (073-500580 Grants to Local Government) at \$137,390.00.

2. Further authorize that a contingency in the amount of \$34,347.50 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Table with 2 columns: Funding description and FY 2017 amount. Includes row for Consolidated Federal Aid (400-500870 Highway Contract Payments) at \$34,347.50.

EXPLANATION

This project is part of the Federal National Historic Covered Bridge Program. This project involves installation of scour countermeasures on the Cresson Covered Bridge (Sawyers Crossing) in Swanzey, and the Ashuelot River Covered Bridge (Gunn Mountain Road) in Winchester. Rip rap will be placed around the abutments of the bridges, while precast concrete armoring units will be placed around the piers.

These bridges have been determined to be scour critical. Scour countermeasures were called for in the Plan of Action reports for the bridges, and this project will address that requirement.

The proposed contingency amount is 5% of the contract amount. There is a higher risk of quantity overruns as much of the work to be completed is underwater. Adjusting limits to offset quantity overruns is not practical.

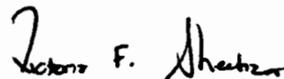

Although the bid costs exceeded the Department's estimate, the low bid is felt to be reasonable for the work involved. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is 80% (Federal National Historic Covered Bridge Program) with anticipated utilization of Capital Investment (state aid bridge) and Town funds for the 20% Other funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Victoria F. Sheehan
Commissioner

VFS/md

Department Estimate: \$646,522.00
Contract Amount: \$686,950.00
Over Estimate: \$ 40,428.00

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project involves installation of scour countermeasures on the Cesson Covered Bridge (Sawyers Crossing) in Swanzey, and the Ashuelot Covered Bridge (Gunn Mountain Road) in Winchester. Rip rap will be placed around the abutments of the bridges, while precast concrete armoring units will be placed around the piers.

FEDERAL FUNDING: 80% (Federal National Historic Covered Bridge Program) with anticipated utilization of State Aid Bridge and Town funds for the State's 20% match.

CONTINGENCY: The proposed contingency amount is 5% of the contract amount. Adjusting limits to offset quantity overruns is not practical.

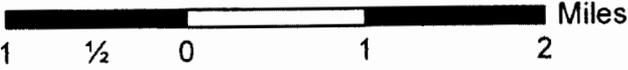

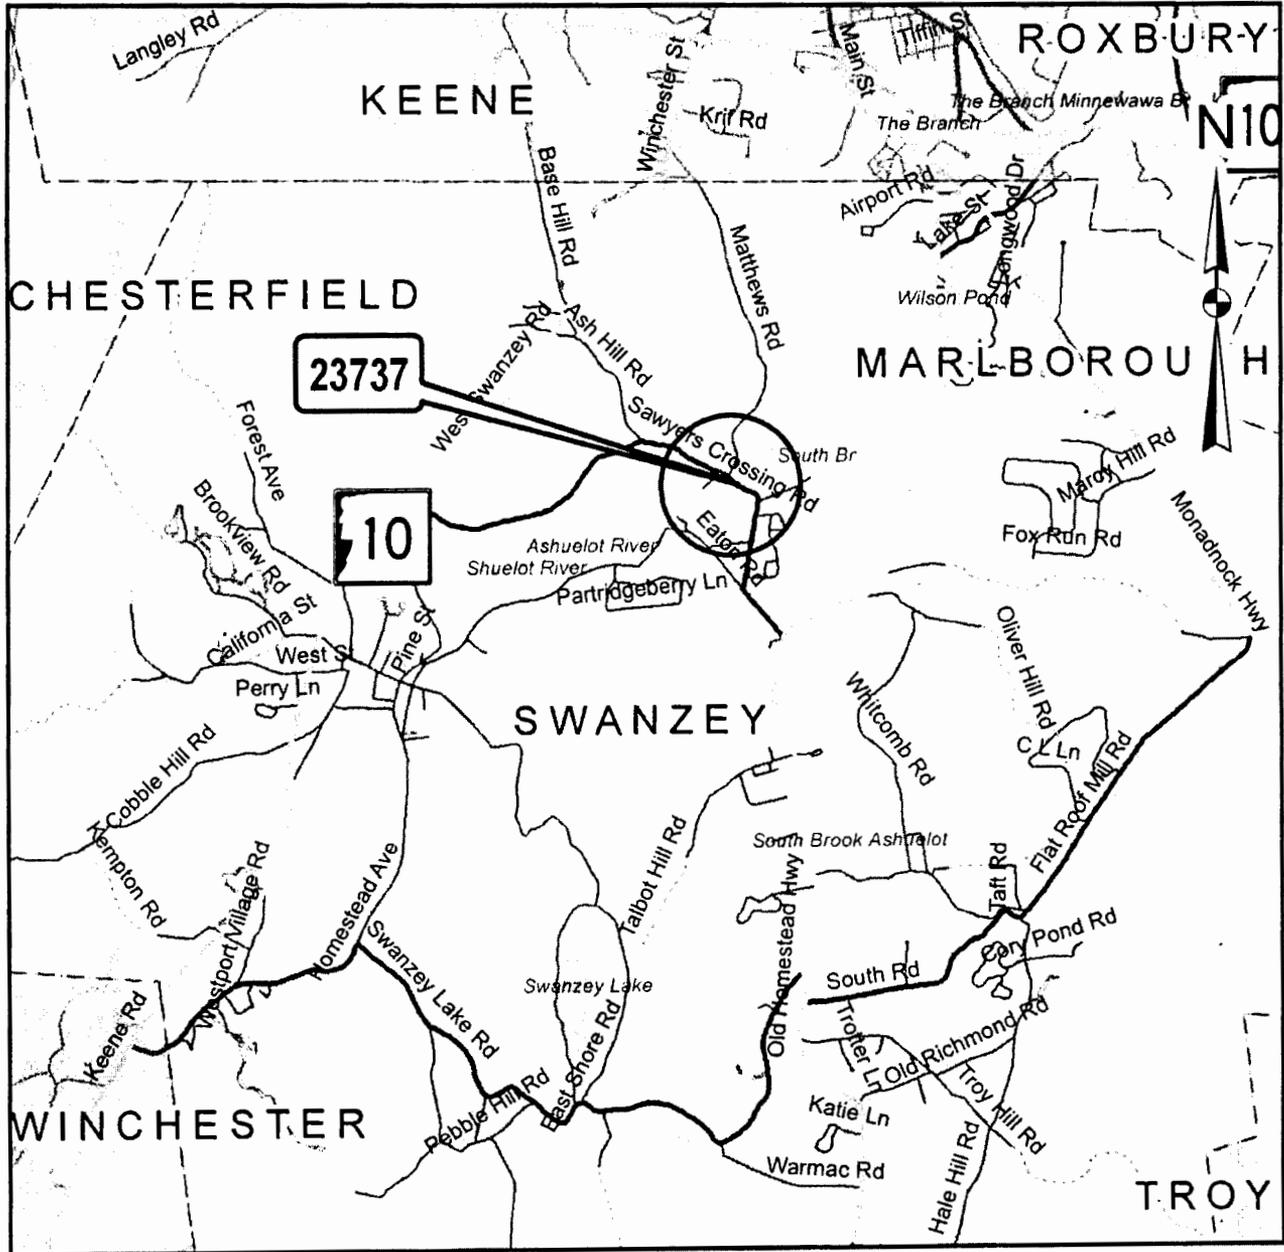

PROJECT INITIATED: This project was initiated through the Federal National Historic Covered Bridge Program.

PROJECT EXPLANATION: These bridges have been determined to be scour critical. Scour countermeasures were called for in the Plan of Action reports for the bridges, and this project will address that requirement.

TRAFFIC IMPLICATION: A majority of the construction activities will take place under the bridges. Traffic impacts will be limited to work vehicles gaining access to the work zones under the bridges.

FINAL COMPLETION DATE: September 29, 2017
