His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Health and Human Services, Division of Medicaid Services, to enter into a **sole source**, amendment (Amendment 15) to an existing contract (Purchase Order #1065275) with NTT DATA State Health Consulting, (Vendor #272035), formerly Cognosante Consulting, LLC, at 31587 Elwood Street, Phoenix, Arizona, 85034, for continuation of quality assurance services in compliance with the requirements of the Centers for Medicare and Medicaid Services (CMS), by increasing the price limitation by \$8,808,840 from \$33,106,921 to a new amount not to exceed \$41,915,761. This amendment will be effective on July 1, 2019, upon approval of the Governor and Executive Council, through June 30, 2021. 75% Federal Funds and 25% General Funds.

The original agreement was approved by Governor and Executive Council on December 1, 2004 (Late Item #E) and subsequently amended on December 12, 2006 (Item#119A), on December 11, 2007 (Item#60), on December 18, 2008 (Item #57), on June 23, 2010 (Item#95), on April 18, 2012 (Item#57), on January 16, 2013 (Item#17), on August 14, 2013 (Item#32), on March 26, 2014 (Item#25-A), on July 16, 2014 (Item#3), on December 23, 2014 (Item#7), on December 2, 2015 (Item#12), on December 21, 2016 (Item#10) and on June 21, 2017 (Item#6A) and on November 14, 2018 (Item#8).

Funds are anticipated to be available in SFY 2020 and SFY 2021 with the ability to adjust encumbrances between State Fiscal Years without further approval of the Governor and Executive Council through the Budget Office, if needed and justified.

-------	--	--	--------------	-------------	--------------

EXPLANATION

This request is **sole source** due to the importance of extending services required to meet federal and state project timelines. Cognosante Consulting, LLC provides Quality Assurance services required by the Centers for Medicare and Medicaid Services for Medicaid Management Information System projects. Contract services are extended beyond the current expiration date of June 30, 2019 to June 30, 2021. The contract extension ensures the continuation of Quality Assurance Services for multiple projects. X

The Department has acquired approval from the federal Centers for Medicare and Medicaid Services (CMS) for funding at 75% federal financial participation (FFP) for the cost of major system changes to its eligibility determination system New HEIGHTS and to its Medicaid System MMIS. CMS requires that States acquire third party oversight through a quality assurance or independent validation and verification contractor to ensure that system projects progress according to plan, that the requirements and designs for system changes are well defined and documented, that project deliverables and system changes are verified and tested, and are delivered according to schedule, are accurate, and perform with reliability. CMS has approved funding for Quality Assurance at 75% FFP.

The quality assurance services included in this Amendment 15 are a continuation of the services procured under the original contract that was competitively bid. As required by CMS, Cognosante Consulting, LLC has been providing ongoing Quality Assurance Services over the MMIS since the onset of the original MMIS reprocurement project, initiated in State Fiscal Year 2004. Several of the projects on which the Contractor is working continue through State Fiscal Year 2021, with deliverables for both the New HEIGHTS Integrated Eligibility System and the MMIS.

The NH Medicaid Program and the automated systems that support it must be highly adaptable to keep pace with persistently evolving needs. System solutions are required to be implemented as rapidly as possible to deliver services sooner, to effectively manage costs, and to provide data for program analyses. The number of people served directly or indirectly under this Amendment includes over 180,000 NH Medicaid participants statewide receiving coverage under the Medicaid Care Management Program and Granite Advantage Programs. It also includes 90+ nursing home providers for whom nursing facility rates are calculated on the MMIS, and up to 30,000 other NH Medicaid providers who utilize the NH MMIS for member eligibility look-ups, access to correspondence and reports, and who rely on the MMIS for payment for services rendered to the Medicaid population.

With very little turnover in contractor staffing, Cognosante has developed an intricate knowledge of the NH MMIS and New HEIGHTS. Cognosante's experience with these DHHS systems enables quality assurance oversight over these changes to be initiated expeditiously and effectively, without the learning curve and ramp up time that would be required of a new vendor.

Cognosante is readily able to incorporate testing of new changes into regression and system integration testing, and will assist with early identification of issues and defects that need to be resolved to ensure a quality implementation. This work is performed for system enhancements that are funded by the CMS at an enhanced match rate and that require independent quality assurance oversight to comply with federal requirements.

This Amendment 15 will extend the Contractor's services for twenty-four (24) months through June 30, 2021 and in compliance with federal requirements will provide the following:

1. Extension of independent validation and verification supporting the New HEIGHTS eligibility system enhancements.
2. Extension of quality assurance oversight over MMIS system changes including:
 - a. Monitoring project planning, project status, and risks;
 - b. Participating in requirements analysis, design, deliverable review, and implementation readiness; and
 - c. Executing system and regression testing to verify and validate that the changes work as required and produce timely, accurate, and reliable results.

As the Department's MMIS reprourement strategy becomes more clearly defined and requests for proposals are issued to acquire system solutions to address identified needs, the Department intends to competitively procure the services of an Independent verification and validation contractor, and to initiate a new procurement for Quality Assurance contractor services to provide federally required independent oversight, extensive system testing, and readiness preparation for system enhancements associated with the MMIS reprourement.

Should the Governor and Executive Council determine to not approve this request, the Department of Health and Human Services would experience a gap in quality assurance service coverage. Implementation of critical system changes to the MMIS and New HEIGHTS Integrated Eligibility System would be at risk. Because the Centers for Medicare and Medicaid Services requires quality assurance and independent verification and validation oversight over system implementation projects approved at an enhanced federal match rate, a determination to not approve this request may result in the loss of federal funding.

Source of Funds: 75% Federal Funds, 25% General Funds. Catalog of Federal Domestic Assistance (CFDA): Number 93.778, U.S. Department of Health and Human Services, Centers for Medicare and Medicaid Services, Medicaid, Title XIX. Federal Award Identification Number (FAIN): 1905NH5ADM.

Area served: Statewide.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Jeffrey A. Meyers

Jeffrey A. Myers
Commissioner
Department of Health and Human Services
State of New Hampshire
129 Pleasant Street
Concord, NH 03301-3857

Dear Commissioner Meyers:

This letter represents formal notification that the Department of Information Technology (DoIT) has approved your agency's request to amend a contract with Cognosante Consulting, LLC, of Falls Church, VA, 22042, as described below and referenced as DoIT No. 2005-002O (Amendment 15).

The purpose of this sole source amendment is to extend the contract for continuation of quality assurance services for the New HEIGHTS and MMIS systems to maintain compliance with federal requirements as defined by the Centers for Medicare and Medicaid Services (CMS). This amendment will extend the contractors service for twenty four (24) months through June 30, 2021.

The funding amount for this amendment is \$8,808,840 increasing the current contract from \$33,106,921 to an amount not to exceed \$41,915,761, and shall become effective July 1, 2019 or upon the date of Governor and Executive Council approval, whichever is later, through June 30, 2021.

A copy of this letter should accompany the Department of Health and Human Services' submission to the Governor and Executive Council for approval.

Sincerely,

Denis Goulet

DG/ik/ck

State of New Hampshire
Department of Health and Human Services
Amendment 15 to the Cognosante Consulting, LLC (Contract #2005-002)

This 15th Amendment to the Cognosante Consulting, LLC (formerly Cognosante, LLC, FOX Systems, LLC and FOX Systems, Inc.) Contract (hereinafter referred to as "Amendment 15") dated this 29 day of May 2019, is by and between the State of New Hampshire, Department of Health and Human Services (hereinafter referred to as the "State" or "Department") and NTT DATA State Health Consulting, LLC, (hereinafter referred to as "Cognosante" or "the Contractor"), a limited liability company with a place of business at 3157 Elwood Street, Phoenix, Arizona, 85034.

Whereas FOX Systems, LLC, legally changed its legal name to Cognosante, LLC, effective August 4, 2011, Cognosante, LLC, assigned the Contract to Cognosante Consulting, LLC, effective April 1, 2016, and Cognosante Consulting, LLC, changed its legal name to NTT DATA State Health Consulting, LLC, all rights and obligations of the parties under the Contract referenced above are unaffected by the change in name, corporate structure or parent company.

WHEREAS, pursuant to an agreement (the "Contract") approved by the Governor and Executive Council on December 1, 2004 (Late Item #E) and as amended by Amendment 1 approved on December 12, 2006 (Item # 119A), Amendment 2 approved on December 11, 2007 (Item #60), Amendment 3 approved on December 18, 2008 (Item #57), Amendment 4 approved on June 23, 2010 (Item #95), Amendment 5 approved on April 18, 2012 (Item #57), Amendment 6 approved on January 16, 2013 (Item #17), Amendment 7 approved on August 14, 2013 (Item #32), Amendment 8 approved on March 26, 2014 (Item #25A), Amendment 9 approved on July 16, 2014 (Item #3), Amendment 10 approved on December 23, 2014 (Item #7), Amendment 11 approved on December 2, 2015, Amendment 12 approved on December 21, 2016 (Item #10), Amendment 13 approved on June 21, 2017 (Item #6A), and Amendment 14 approved on November 21, 2018 (Item #8), the Contractor agreed to perform certain services based upon the terms and conditions specified in the Contract and in consideration of certain sums specified; and

WHEREAS, the State and the Contractor have agreed to make changes to the scope of work, payment schedules, and terms and conditions of the Contract; and

NOW THEREFORE, in consideration of the foregoing and the mutual covenants and conditions contained in the Contract and set forth herein, the parties hereto agree as follows:

1. Except as specifically amended and modified by the terms and conditions in this Amendment 15, the obligations of the parties shall remain in full force and effect in accordance with the terms and conditions set forth in the Contract and all Exhibits, and its Amendments, Amendment 1, Amendment 2, Amendment 3, Amendment 4, Amendment 5, Amendment 6, Amendment 7, Amendment 8, Amendment 9, Amendment 10, Amendment 11, Amendment 12, Amendment 13, and Amendment 14, as referenced above.
2. The General Provisions Form P-37 is hereby amended as follows:
 - 2.1. Block 1.3, Contractor Name, is amended to read: NTT Data State Health Consulting, LLC.
 - 2.2. Block 1.4, Contractor Address, is amended to read: 7950 Legacy Drive, Suite 900, Plano, Texas, 75024.
 - 2.3. Block 1.7, Completion Date, is amended to read: June 30, 2021.

2.4. Block 1.8, Price Limitation, is increased by \$8,808,840, from \$33,106,921 to \$41,915,761.

2.5. Block 3.1, Effective Date, is amended by the addition of the following sentence:

Amendment 15 is effective on July 1, 2019, or the date of Governor and Executive Council approval, whichever is earlier.

3. The provisions of Exhibit A, Scope of Services, Section 4 (as amended by Amendment 14) are amended as follows: The Contract Period September 1, 2004 through June 30, 2021, includes the option for early termination of the Contract for convenience and reduction in Cognosante staff, both of which are exercisable at the sole discretion of the Commissioner of the Department of Health and Human Services at any time after June 30, 2019 after giving the Contractor thirty (30) days written notice.
4. The provisions of Exhibit A: Scope of Services, Section 4.1 Period of Performance, are amended as of the Effective Date as follows: The Contract shall only take effect after full execution of the parties and Governor and Executive Council approval. This Amendment 15 is effective on July 1, 2019 or the date of Governor and Executive Council approval, whichever is earlier. It shall remain in effect through June 30, 2021, unless otherwise amended or terminated in accordance with the terms of the Contract.
5. Exhibit B Methods and Conditions Precedent to Payment, B-1 Budget is amended to increase the Contract price by an amount not to exceed \$8,808,840 to a total Contract price not to exceed \$41,915,761.
6. Exhibit A Scope of Services, Amendment 14 Table 7.2.1: Project Staff, is deleted and replaced with the following Amendment 15 Table 7.2.1: Project Staff:

6. IES IVV Produce and distribute the deliverables		
6.1	Provide DHHS Project Management with monthly status reports clearly describing the state of the IV&V effort, and a monthly management report.	Monthly – starting within 1 month of IV&V work starting
6.1.1	Risk Assessment and Identification: Review existing Risk Management Plan and Risk Report. Evaluate the identified risks and mitigation strategies, identify other risks and create a Risk Assessment Report to include any new recommendations for risk mitigation strategies.	Monthly - include in Monthly Project Status report
6.1.2	IV&V Work Plan: Develop and maintain a work plan and schedule for all IV&V efforts.	Within 1 month after the start-up phase of the IV&V services and updated as necessary
6.1.3	Test Validation: Review and validate test results for mutually agreed-upon sub-projects within the DDI Contract to include at a minimum the FDSH Wave Testing with CMS.	As agreed after start-up of the IV&V service
6.1.4	CMS Gate Review Preparation and Response: Assist in the preparation for the various CMS Gate Reviews and participate in the Gate Review Meetings. This will consist of assistance with updating of the various artifacts already on file such as the Project Management Plan, Risk Management Plan, etc.	Periodic as needed
6.1.5	Quarterly Project Review: Schedule and participate in quarterly IV&V review meetings for the project. These are new meetings with the IV&V vendor and New HEIGHTS management; and provide the Quarterly IV&V Progress Report to CMS as required by the Medicaid Eligibility and Enrollment Toolkit (MEET)	Quarterly as requested
6.1.6	Other Project Support: Due to the nature of the verification and validation services to be provided, other specific responsibilities and attendant deliverables may be required within the scope of these services and time availability of the 1 FTE to be provided.	As mutually agreed as time permits
6.2	Third Party IES Security Assessment Review and Report	Completed
6.3	Optional Testing	Removed
7	MMIS Maintenance Testing	
7.1	Provide Medicaid Management Information System maintenance testing services and related duties..	As mutually agreed as time permits within contract value

8. The provisions relative to Exhibit B, Methods and Conditions Precedent to Payment, Funding of Contract, Paragraph C, as amended by Amendment 14 Section 8.1 are amended by replacing them with the following:

8.1. Amendment 15 Funding of Contract, Paragraph C: The total amount of all payments made to the Contractor for costs and expenses incurred in the performance of the Medicaid Management Information System Quality Assurance services during the period September 1, 2004 through June 30, 2021, shall not exceed \$41,915,761 in accordance with the project budget identified in Amendment 15 Exhibit B-1, Budget, as set forth in Section 11 of this Amendment 15. Notwithstanding anything in this Contract to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments under this Contract exceed \$41,915,761. The payment by the State of the Contract price shall be the only and the complete reimbursement to the Contractor for all fees and expenses, of whatever nature, incurred by the Contractor in performance hereof. In no event shall the State be liable for any payments hereunder in excess of

appropriated or available funds. In the event of a reduction, termination or modification of appropriated or available funds, the State shall have the right to withhold payment until such time funds become available, if ever. The State shall have the right to reduce, terminate or modify services under the Contract immediately upon giving the Contractor notice of such reduction, termination or modification. The State shall not be required to transfer funds from any other source or account into the Account(s) identified in Block 1.6 of the General Provisions, Account Number, or any other account, in the event funds are reduced or unavailable.

Notwithstanding Paragraph 17 of Form P-37, General Provisions, an amendment limited to transferring funds between budgets and budget line items contained in Exhibit B Methods and Conditions Precedent to Payment, within the price limitation, can be made by written agreement of both parties and may be made without obtaining the approval of the Governor and Executive Council.

9. The provisions relative to Amendment 14 Exhibit B, Budget by Phase Table B-1b are amended by replacing them with the following Amendment 15 Table B-1b: *Budget by Phase*:

Amendment 15 Table B-1b: *Budget by Phase*

Project Phase	Budget
Project Monitoring	\$6,131,871
Pre-DDI QA	\$407,036
DDI Phase through 3/31/13	\$5,029,930

NTT DATA

Secretary's Certificate

I, John M. Dick, Executive Vice President, General Counsel and Secretary of NTT DATA State Health Consulting, LLC (formerly known as Cognosante Consulting, LLC) and NTT DATA, Inc., do hereby certify that:

1. I am duly elected as Executive Vice President, General Counsel and Secretary of NTT DATA State Health Consulting, LLC (formerly known as Cognosante Consulting, LLC), a Delaware limited liability company (the "Company"), and the Company's parent NTT DATA, Inc., a Delaware corporation, pursuant to official actions taken by the Board of Directors of the Company and NTT DATA, Inc. each effective April 1, 2019.
2. In my role as Executive Vice President, General Counsel and Secretary of the Company and NTT DATA, Inc., I am familiar with the minute books and actions of the Company and NTT DATA, Inc.
3. Pursuant to official action taken by the Board of Directors of NTT DATA, Inc. on April 1, 2019, Sue Arthur is Group President, Strategic Business Units of NTT DATA, Inc. As Group President, Strategic Business Units of NTT DATA, Inc., Ms. Arthur is authorized to delegate her authority to execute and deliver instruments or documents and Ms. Arthur has effectively delegated such authority to Jim Joyce, Senior Vice President of the Company, to execute the State of New Hampshire Department of Health and Human Services amendment 15 to the Cognosante Consulting, LLC Contract, dated May 29, 2019.
4. As of the date hereof, the official actions taken by the Company and NTT DATA, Inc. as referenced herein have not been modified, amended and revoked in any way.

IN WITNESS WHEREOF, I have hereunto set my hand as Executive Vice President, General Counsel and Secretary this 29th day of May, 2019.

John M. Dick

ACKNOWLEDGMENT

A notary public or other officer completing this certificate verifies only the identity of the individual who signed the document to which this certificate is attached, and not the truthfulness, accuracy, or validity of that document.

State of California

County of Contra Costa

On 5/29/19 before me, Thomas Jeremy Herman, notary public
(insert name and title of the officer)

personally appeared John M. Dick
who proved to me on the basis of satisfactory evidence to be the person(s) whose name(s) is/are subscribed to the within instrument and acknowledged to me that he/she/they executed the same in his/her/their authorized capacity(ies), and that by his/her/their signature(s) on the instrument the person(s), or the entity upon behalf of which the person(s) acted, executed the instrument.

I certify under PENALTY OF PERJURY under the laws of the State of California that the foregoing paragraph is true and correct.

WITNESS my hand and official seal.

Signature

REQUESTED ACTION

Authorize the Department of Health and Human Services, Bureau of Information Services, to enter into a **retroactive, sole source**, amendment (Amendment 14) to an existing contract (Purchase Order #1049339) with Cognosante Consulting, LLC (Vendor #272035) at 3100 Fairview Park Drive, Suite 800, Falls Church, VA 22042, for continuation of quality assurance services in compliance with the requirements of the Centers for Medicare and Medicaid Services (CMS), by increasing the price limitation by \$3,145,795 from \$29,961,126 to a new amount not to exceed \$33,106,921, and extending the end date from September 30, 2018 to June 30, 2019. This amendment will be **retroactive** to October 1, 2018, effective upon approval of the Governor and Executive Council, through June 30, 2019. 75% Federal Funds and 25% General Funds.

The original agreement was approved by Governor and Executive Council on December 1, 2004 (Late Item #E) and subsequently amended on December 12, 2006 (Item #119A), on December 11, 2007 (Item #60), on December 18, 2008 (Item #57), on June 23, 2010 (Item #95), on April 18, 2012 (Item #57), on January 16, 2013 (Item #17), on August 14, 2013 (Item #32), on March 26, 2014 (Item #25-A), on July 16, 2014 (Item #3), on December 23, 2014 (Item #7), on December 2, 2015 (Item #12), on December 21, 2016 (Item #10) and on June 21, 2017 (Item #6A).

Funds are available in the following accounts in SFY 2019 with the ability to adjust encumbrances between State Fiscal Years without further approval of the Governor and Executive Council through the Budget Office, if needed and justified.

EXPLANATION

This request is **retroactive** because funding for Amendment 14 was identified by the Department of Health and Human Services after the deadline for approval by the Governor and Council before the current Contract Completion Date of September 30, 2018. The request to transfer surplus general funds in another appropriation and to accept additional federal funds is pending Fiscal Committee approval. **Retroactive** approval to October 1, 2018 will allow for un-interrupted quality assurance oversight over the New HEIGHTS and Medicaid Management Information System (MMIS) as required by the Centers for Medicare and Medicaid Services.

This request is **sole source** due to the importance of extending the services acquired under this contract beyond the current expiration date of September 30, 2018 for an additional nine months through to June 30, 2019, to allow for the continuance of quality assurance work in progress.

The Department has acquired approval from the federal Centers for Medicare and Medicaid Services (CMS) for funding at 90% federal financial participation (ffp) for the cost of major system changes to its eligibility determination system New HEIGHTS and to its Medicaid System MMIS. CMS requires that States acquire third party oversight through a quality assurance or independent validation and verification contractor to ensure that system projects progress according to plan, that the requirements and designs for system changes are well defined and documented, that project deliverables and system changes are verified and tested, and are delivered according to schedule, are accurate, and perform with reliability. CMS has approved funding for Quality Assurance at 90% FFP.

The quality assurance services included in this Amendment 14 are a continuation of the services procured under the original contract that was competitively bid. As required by CMS, Cognosante Consulting, LLC has been providing ongoing Quality Assurance Services over the MMIS since the onset of the original MMIS reprourement project, initiated in State Fiscal Year 2004. Several of the projects on which the Contractor is working continue through State Fiscal Year 2019, with deliverables for both the New HEIGHTS Integrated Eligibility System and the MMIS.

The NH Medicaid Program and the automated systems that support it must be highly adaptable to keep pace with persistently evolving needs. System solutions are required to be implemented as rapidly as possible to deliver services sooner, to effectively manage costs, and to provide data for program analyses.

With very little turnover in contractor staffing, Cognosante has developed an intricate knowledge of the NH MMIS and New HEIGHTS. Cognosante's experience with these DHHS systems enables quality assurance oversight over these changes to be initiated expeditiously and effectively, without the learning curve and ramp up time that would be required of a new vendor.

Cognosante is readily able to incorporate testing of new changes into regression and system integration testing, and will assist with early identification of issues and defects that need to be resolved to ensure a quality implementation. This work is performed for system enhancements that are funded by the CMS at an enhanced match rate and that require independent quality assurance oversight to comply with federal requirements.

This Amendment 14 will extend the contractor's services for nine (9) months through June 30, 2019 and in compliance with federal requirements will provide the following:

1. Extension of independent validation and verification supporting the New HEIGHTS eligibility system enhancements.
2. Extension of quality assurance oversight over MMIS system changes including:
 - a. Monitoring project planning, project status, and risks;
 - b. Participating in requirements analysis, design, deliverable review, and implementation readiness; and
 - c. Executing system and regression testing to verify and validate that the changes work as required and produce timely, accurate, and reliable results.

The Department has acquired the services of a consultant BerryDunn to help assess the existing MMIS and fiscal agent operations, to understand areas needing to be improved, what works well, what new system capabilities are needed to fully meet the needs of the Medicaid Program, and what technical advancements should be considered to enhance flexibility, processing efficiencies, data storage, and security. As the Department's MMIS reprourement strategy becomes more clearly defined and requests for proposals are issued to acquire system solutions to address identified needs, the Department intends to competitively procure the services of an Independent verification and validation contractor, and to initiate a new procurement for Quality Assurance contractor services to

provide federally required independent oversight, extensive system testing, and readiness preparation for system enhancements associated with the MMIS reprocurement.

Should the Governor and Executive Council determine to not approve this request, the Department of Health and Human Services would experience a gap in quality assurance service coverage. Implementation of critical system changes to the MMIS and New HEIGHTS Integrated Eligibility System would be at risk. Because the Centers for Medicare and Medicaid Services requires quality assurance and independent verification and validation oversight over system implementation projects approved at an enhanced federal match rate, a determination to not approve this request may result in the loss of federal funding.

Source of Funds: 75% Federal Funds, 25% General Funds.

Area served: Statewide.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

David E. Wieters

October 11, 2018

Jeffrey A. Myers
Commissioner
Department of Health and Human Services
State of New Hampshire
129 Pleasant Street
Concord, NH 03301-3857

Dear Commissioner Meyers:

This letter represents formal notification that the Department of Information Technology (DoIT) has approved your agency's request to amend a contract with Cognosante Consulting, LLC, at 3100 Fairview Park Drive, Suite 800, Falls Church, VA, 22042, as described below and referenced as DoIT No. 2005-002N (Amendment 14).

The purpose of this sole source amendment N is to extend the Cognosante Consulting, LLC (Vendor #272035) contract for continuation of quality assurance staff to support the New HEIGHTS eligibility system enhancements to maintain compliance with federal requirements and to test the Medicaid Management Information System enhancements. These enhancements are funded by the Centers for Medicare and Medicaid Services at a 90 percent match rate, and therefore require independent quality assurance oversight to comply with federal requirements.

The funding amount for this amendment is \$3,145,795 increasing the current contract from \$29,961,126 to \$33,106,921. This amendment will be retroactive to October 1, 2018, effective upon Governor and Council approval through June 30, 2019.

A copy of this letter should accompany the Department of Health and Human Services' submission to the Governor and Executive Council for approval.

Sincerely,

Denis Goulet

DG/ik/ck
2005-002N

State of New Hampshire
Department of Health and Human Services
Amendment 14 to the Cognosante Consulting, LLC Contract

This 14th Amendment to the Cognosante Consulting, LLC (formerly Cognosante, LLC, FOX Systems, LLC and FOX Systems, Inc.) Contract (hereinafter referred to as "Amendment 14") dated this 24th day of September 2018, is by and between the State of New Hampshire, Department of Health and Human Services (hereinafter referred to as the "State" or "Department") and Cognosante Consulting, LLC, (hereinafter referred to as "Cognosante" or "the Contractor"), a limited liability company with a place of business at 3100 Fairview Park Drive, Suite 800, Falls Church, VA 22042.

Whereas FOX Systems, LLC, legally changed its legal name to Cognosante, LLC, effective August 4, 2011, and Cognosante, LLC, assigned the Contract to Cognosante Consulting, LLC, effective April 1, 2016, all rights and obligations of the parties under the Contract referenced above are unaffected by the change in name, corporate structure or parent company.

WHEREAS, pursuant to an agreement (the "Contract") approved by the Governor and Executive Council on December 1, 2004 (Late Item #E), and as amended by Amendment 1 approved on December 12, 2006 (Item # 119A), Amendment 2 approved on December 11, 2007 (Item # 60), Amendment 3 approved on December 18, 2008 (Item # 57), Amendment 4 approved on June 23, 2010 (Item #95), Amendment 5 approved on April 18, 2012 (Item #57), Amendment 6 approved on January 16, 2013 (Item #17), Amendment 7 approved on August 14, 2013 (Item #32), Amendment 8 approved on March 26, 2014 (Item #25A), Amendment 9 approved on July 16, 2014 (Item #3), Amendment 10 approved on December 23, 2014 (Item #7), Amendment 11 approved on December 2, 2015 (Item #12), Amendment 12 approved on December 21, 2016 (Item #10), and Amendment 13 approved on June 21, 2017 (Item # 6A), the Contractor agreed to perform certain services based upon the terms and conditions specified in the Contract and in consideration of certain sums specified; and

WHEREAS, the State and the Contractor have agreed to make changes to the scope of work, payment schedules, and terms and conditions of the Contract; and

NOW THEREFORE, in consideration of the foregoing and the mutual covenants and conditions contained in the Contract and set forth herein, the parties hereto agree to amend as follows:

1. Except as specifically amended and modified by the terms and conditions in this Amendment 14, the obligations of the parties shall remain in full force and effect in accordance with the terms and conditions set forth in the Contract and all Exhibits, and its Amendments, Amendment 1, Amendment 2, Amendment 3, Amendment 4, Amendment 5, Amendment 6, Amendment 7, Amendment 8, Amendment 9, Amendment 10, Amendment 11, Amendment 12, and Amendment 13, as referenced above.
2. The General Provisions Form P-37 are hereby amended as follows:
 - 2.1. Block 1.6, Completion Date, to read: June 30, 2019.
 - 2.2. Block 1.8, Price Limitation, is increased by \$3,145,795, from \$29,961,126 to \$33,106,921.

- 2.3. Block 1.9, Contracting Officer for State Agency, to read:
Nathan D. White, Director of Contracts and Procurement.
- 2.4. Block 1.10, State Agency Telephone Number, to read:
603-271-9631.
- 2.5. Block 3.1, Effective Date, is amended by the addition of the following sentence:
Amendment 14 is effective on October 1, 2018, or the date of Governor and Executive Council approval, whichever is earlier.
3. The provisions of Exhibit A, Scope of Services, Section 4 (as amended by Amendment 13) are amended as follows: The Contract Period September 1, 2004 through June 30, 2019, includes the option for early termination of the Contract for convenience and reduction in Cognosante staff, both of which are exercisable at the sole discretion of the Commissioner of the Department of Health and Human Services at any time after June 30, 2014 after giving the Contractor thirty (30) days written notice.
4. The provisions of Exhibit A: Scope of Services, Section 4.1 Period of Performance, are amended as of the Effective Date as follows: The Contract shall only take effect after full execution of the parties and Governor and Executive Council approval. This Amendment 14 is effective on October 1, 2018 or the date of Governor and Executive Council approval, whichever is earlier. It shall remain in effect through June 30, 2019, unless otherwise amended or terminated in accordance with the terms of the Contract.
5. Exhibit B Methods and Conditions Precedent to Payment, B-1 Budget is amended to increase the Contract price by an amount not to exceed \$3,145,795 to a total Contract price not to exceed \$33,106,921.
6. Exhibit A Scope of Services, Amendment 13 Table 7.2.1: Project Staff, is deleted and replaced with the following Amendment 14 Table 7.2.1: Project Staff:

6. IES IV&V Produce and distribute the deliverables:		
6.1	Provide DHHS Project Management with monthly status reports clearly describing the state of the IV&V effort, and a monthly management report.	Monthly – starting within 1 month of IV&V work starting
6.1.1	Risk Assessment and Identification: Review existing Risk Management Plan and Risk Report. Evaluate the identified risks and mitigation strategies. Identify other risks and create a Risk Assessment Report to include any new recommendations for risk mitigation strategies.	Monthly - Include In Monthly Project Status report
6.1.2	IV&V Work Plan: Develop and maintain a work plan and schedule for all IV&V efforts.	Within 1 month after the start-up phase of the IV&V services and updated as necessary
6.1.3	Test Validation: Review and validate test results for mutually agreed-upon sub-projects within the DDI Contract to include at a minimum the FOSH Wave Testing with CMS.	As agreed after start-up of the IV&V service
6.1.4	CMS Gate Review Preparation and Response: Assist in the preparation for the various CMS Gate Reviews and participate in the Gate Review Meetings. This will consist of assistance with updating of the various artifacts already on file such as the Project Management Plan, Risk Management Plan, etc.	Periodic as needed
6.1.5	Quarterly Project Review: Schedule and participate in quarterly IV&V review meetings for the project. These are new meetings with the IV&V vendor and New HEIGHTS management; and provide the Quarterly IV&V Progress Report to CMS as required by the Medicaid Eligibility and Enrollment Toolkit (MEET)	Quarterly as requested
6.1.6	Other Project Support: Due to the nature of the verification and validation services to be provided, other specific responsibilities and attendant deliverables may be required within the scope of these services and time availability of the 1 FTE to be provided.	As mutually agreed as time permits
6.2	Third Party IES Security Assessment Review and Report	Completed
6.3	Optional Testing	Removed
7	MMIS Maintenance Testing	
7.1	Provide Medicaid Management Information System maintenance testing services and related duties.	As mutually agreed as time permits within contract value

8. The provisions relative to Exhibit B, Methods and Conditions Precedent to Payment, Funding of Contract, Paragraph C, as amended by Amendment 13 8.1 are amended by replacing them with the following:

8.1. Amendment 14 Funding of Contract, Section C: The total amount of all payments made to the Contractor for costs and expenses incurred in the performance of the Medicaid Management Information System Quality Assurance services during the period September 1, 2004 through June 30, 2019, shall not exceed \$33,106,921 in accordance with the project budget identified in Amendment 14 Exhibit B-1, Budget, as set forth in Paragraph 11 of this Amendment 14. Notwithstanding anything in this Contract to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments under this Contract exceed \$33,106,921. The payment by the State of the Contract price shall be the only and the complete reimbursement to the Contractor for all fees and expenses, of whatever nature, incurred by the Contractor in performance hereof. In no event shall the State be liable for any payments hereunder in excess of appropriated or available funds. In the event of a reduction, termination

or modification of appropriated or available funds, the State shall have the right to withhold payment until such time funds become available, if ever. The State shall have the right to reduce, terminate or modify services under the Contract immediately upon giving the Contractor notice of such reduction, termination or modification. The State shall not be required to transfer funds from any other source or account into the Account(s) identified in Block 1.6 of the General Provisions, Account Number, or any other account, in the event funds are reduced or unavailable.

- 8.2. Notwithstanding Paragraph 17 of Form P-37, General Provisions, an amendment limited to transferring funds between budgets and budget line items contained in Exhibit B Methods and Conditions Precedent to Payment, within the price limitation, can be made by written agreement of both parties and may be made without obtaining the approval of the Governor and Executive Council.
9. The provisions relative to Amendment 13 Exhibit B, Budget by Phase Table B-1b are amended by replacing them with the following Amendment 14 Table B-1b: *Budget by Phase*:

Amendment 14 Table B-1b: Budget by Phase

Project Phase	Budget
Project Monitoring	\$5,266,827
Pre-DDI QA	\$407,036
DDI Phase through 3/31/13	\$5,029,930

Department of State

CERTIFICATE

I, William M. Gardner, Secretary of State of the State of New Hampshire, do hereby certify that COGNOSANTE CONSULTING, LLC is a Delaware Limited Liability Company registered to transact business in New Hampshire on March 03, 2016. I further certify that all fees and documents required by the Secretary of State's office have been received and is in good standing as far as this office is concerned.

Business ID: 739971

Certificate Number: 0004195284

IN TESTIMONY WHEREOF,

I hereto set my hand and cause to be affixed
the Seal of the State of New Hampshire,
this 9th day of October A.D. 2018.

A handwritten signature in black ink, appearing to read "William M. Gardner".

William M. Gardner
Secretary of State

Secretary's Certificate

I, Spiro Fotopoulos, General Counsel and Secretary of Cognosante Consulting, LLC, do hereby certify that:

1. I am duly elected as General Counsel and Secretary of Cognosante Consulting, LLC, a Delaware limited liability company (the "Company") pursuant to official action taken by the Board of Directors of Cognosante Holdings, LLC, the parent of the Company, on October 2, 2017.
2. In my role of General Counsel and Secretary of the Company, I am familiar with the minute books and actions of the Company.
3. I am duly authorized to provide a certificate naming the persons who are authorized to execute and deliver any instrument or document for or on behalf of the Company.
4. Pursuant to official action taken by the Board of Directors of Cognosante Holdings, LLC, the parent of the Company, on March 22, 2017, Jim Joyce is Executive Vice President, General Manager, Health Consulting Services of the Company. As Executive Vice President, General Manager of the Company, Mr. Joyce is authorized to delegate his authority to execute and deliver instruments or document for or on behalf of the Company. Mr. Joyce has effectively delegated such authority to Bruce Dunham, Program Director to execute the State of New Hampshire Department of Health and Human Services Amendment 14 to the Cognosante Consulting, LLC Contract dated October 9, 2018.
5. As of the date hereof, the official actions taken by Cognosante Holdings, LLC and the Company as referenced herein have not been modified, amended and revoked in any way.

IN WITNESS WHEREOF, I have hereunto set my hand as General Counsel and Secretary of the Company this 10th day of October, 2018.

Spiro Fotopoulos

The foregoing instrument was acknowledged before me this 10th day of October, 2018 by Spiro Fotopoulos, who acknowledged himself to be the General Counsel and Secretary of Cognosante Consulting, LLC, a Delaware limited liability company.

REQUESTED ACTION

Authorize the Department of Health and Human Services, Office of Information Services, to enter into a **sole source**, amendment (Amendment 13) to an existing contract (Purchase Order #1049339) with Cognosante Consulting, LLC (Vendor #272035) at 6263 North Scottsdale Road, Suite 200, Scottsdale, AZ 85250 for continuation of quality assurance services in compliance with the requirements of the Centers for Medicare and Medicaid Services (CMS) by increasing the price limitation by \$5,120,825 from \$24,840,301 to a new amount not to exceed \$29,961,126. This amendment will be effective upon the approval of the Governor and Executive Council through September 30, 2018. The source of funds is 90% Federal Funds and 10% General Funds.

The agreement was originally approved by Governor and Executive Council on December 1, 2004 (Late Item #E) and subsequently amended on December 12, 2006 (Item#119A), on December 11, 2007 (Item#60), on December 18, 2008 (Item#57), on June 23, 2010 (Item#95), on April 18, 2012 (Item#57), on January 16, 2013 (Item#17), on August 14, 2013 (Item#32), on March 26, 2014 (Item#25-A), on July 16, 2014 (Item#3), on December 23, 2014 (Item#7), on December 2, 2015 (Item#12), and on December 21, 2016 (Item#10).

Funds are available in the following accounts in SFY 2017 and are anticipated to be available in SFY 2018 and SFY 2019 upon the availability and continued appropriation of funds in the future operating budget with the ability to adjust encumbrances between State Fiscal Years without further approval of the Governor and Executive Council through the Budget Office, if needed and justified.

EXPLANATION

This request is **sole source** due to the importance of continuing the services obtained under this contract, which is scheduled to expire on September 30, 2018. Several of the projects on which the Contractor has been working continue through State Fiscal Years 2018 and 2019, with deliverables for both the New HEIGHTS Integrated Eligibility System and the Medicaid Management Information System. Given the rapid pace of program and system changes over the past year and understanding the new CMS Independent Verification and Validation (IV&V) requirements that were published in August 2016, there has not been time to initiate a competitive procurement which was our intention after Amendment 12. However, the quality assurance services included in this amendment are a continuation of the services procured under the original contract that was competitively bid. Cognosante Consulting, LLC has been providing ongoing Quality Assurance Services for the Medicaid Management Information System starting in State Fiscal Year 2004 as required by the Centers for Medicare and Medicaid Services (CMS). CMS has allowed time for states to align existing contracts

and projects to the new IV&V guidelines and this final amendment will allow for adequate time to prepare and execute a request for proposals and new contract for IV&V and Quality Assurance services to take effect on October 1, 2018.

This Amendment 13 will extend the contractor's services for fifteen (15) months through September 30, 2018 and will provide the following services:

- Extension of quality assurance staff supporting the New HEIGHTS eligibility system enhancements in compliance with federal requirements.
- Extension of quality assurance staff to test Medicaid Management Information System enhancements that are funded by the Centers for Medicare and Medicaid Services at a 90 percent match rate, and therefore require independent quality assurance oversight to comply with federal requirements.

The contractor has developed a detailed knowledge of both of these systems that are critical to the Department. With this understanding, it is able to execute its oversight, testing, and quality assurance role effectively and efficiently, thereby facilitating the Department's ability to implement quality system solutions as expeditiously as possible.

Should the Governor and Executive Council determine to not approve this Request, the Department of Health and Human Services would experience a gap in quality assurance services and increased risk to critical enhancements to the Medicaid Management Information System and New HEIGHTS Integrated Eligibility System. Because the Centers for Medicare and Medicaid Services requires a quality assurance vendor, a determination to not approve this Request may result in the loss of federal funding.

Source of Funds: 90% federal funds, 10% general funds.

Area served: Statewide.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

REQUESTED ACTION

Authorize the Department of Health and Human Services, Office of Information Services, to enter into a **sole source**, amendment (Amendment 12) to an existing contract (Purchase Order #1049339) with Cognosante Consulting, LLC (Vendor #272035) at 8200 Greensboro Drive, Suite 1200, McLean, Virginia, 22102 for continuation of quality assurance services in compliance with the requirements of the Centers for Medicare and Medicaid Services (CMS) by increasing the price limitation by \$1,694,582 from \$23,145,719 to a new amount not to exceed \$24,840,301. This amendment will be effective upon the approval of the Governor and Executive Council through June 30, 2017. The source of funds for the increase is 90% Federal Funds and 10% General Funds.

The Governor and Executive Council approved the original contract on December 1, 2004 (Late Item #E), Amendment 1 on December 12, 2006 (Item#119A), Amendment 2 on December 11, 2007 (Item#60), Amendment 3 on December 18, 2008 (Item#57), Amendment 4 on June 23, 2010 (Item#95), Amendment 5 on April 18, 2012 (Item#57), Amendment 6 on January 16, 2013 (Item#17), Amendment 7 on August 14, 2013 (Item#32), Amendment 8 on March 26, 2014 (Item#25-A), Amendment 9 on July 16, 2014 (Item#3), Amendment 10 on December 23, 2014 (Item#7) and Amendment 11 on December 2, 2015 (Item#12).

Funds are available in the following accounts in SFY 2017:

EXPLANATION

This amendment is identified as **sole source** given the importance of continuing the Quality Assurance Services provided by the present contractor, Cognosante Consulting, LLC, without interruption. The contract originally was bid in May 2004 and Cognosante was selected. Amendment 12 extends the end date for the services, which were competitively bid under the original contract, to June 30, 2017. Cognosante Consulting, LLC and its predecessors have provided Quality Assurance Services as required by CMS for the Medicaid Management Information System since the original contract was approved in 2004. Several of the projects on which the contractor has been working are in process and are anticipated to continue through this contract period. These projects affect both the New HEIGHTS Integrated Eligibility System and the Medicaid Management Information System. The contractor has developed detailed knowledge of both of these systems that are critical to the Department. With this knowledge, the contractor is able to execute its oversight, testing, and quality assurance role effectively and efficiently, thereby facilitating the Department's ability to implement quality system solutions as expeditiously as possible.

Amendment 12 will extend the contractor's services for an additional six (6) months through June 30, 2017, and will encompass the following services:

- Extension of quality assurance staff supporting the New HEIGHTS eligibility system enhancements in compliance with federal requirements.

- Extension of quality assurance staff to test Medicaid Management Information System enhancements that are funded by the Centers for Medicare and Medicaid Services at a 90 percent match rate, and therefore require independent quality assurance oversight to comply with federal requirements.

This will be the last sole source extension of the contract. A Request for Proposals (RFP) will be issued for work required after July 1, 2017.

Should the Governor and Executive Council determine to not approve this Request, the Department of Health and Human Services would experience a gap in quality assurance services and increased risk to critical enhancements to the Medicaid Management Information System. Because the Centers for Medicare and Medicaid Services requires a quality assurance vendor, a determination to not approve this Request may result in the loss of federal funding.

Source of Funds: 90% federal funds, 10% general funds.
Area served: Statewide.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

REQUESTED ACTION

Authorize the Department of Health and Human Services, Office of Information Services, to enter into a **sole source** amendment (Amendment 11) to an existing contract (Purchase Order #1018352) with Cognosante, LLC (Vendor #223062) at 6263 North Scottsdale Road, Suite 200, Scottsdale, AZ 85250, for continuation of quality assurance services in compliance with the requirements of the Centers for Medicare and Medicaid Services (CMS) by increasing the price limitation by \$3,957,408 from \$19,188,311 to a new amount not to exceed \$23,145,719. This amendment will be effective upon the approval of the Governor and Executive Council through December 31, 2016.

The Governor and Executive Council approved the original contract on December 1, 2004 (Late Item #E), Amendment 1 on December 12, 2006 (Item #119A), Amendment 2 on December 11, 2007 (Item #60), Amendment 3 on December 18, 2008 (Item#57), Amendment 4 on June 23, 2010 (Item#95), Amendment 5 on April 18, 2012 (Item#57), Amendment 6 on January 16, 2013 (Item#17), Amendment 7 on August 14, 2013 (Item#32), Amendment 8 on March 26, 2014 (Item#25-A), Amendment 9 on July 16, 2014 (Item#3), and Amendment 10 on December 23, 2014 (Item#7).

Funds are available in SFY 2016 and SFY 2017, with authority to adjust amounts between State Fiscal Years, if needed and justified.

EXPLANATION

This amendment is identified as sole source due to importance of continuing the services obtained under this contract, which is scheduled to expire on December 31, 2015. Several of the projects on which the Contractor has been working continue through Calendar Year 2016, with deliverables for both the New HEIGHTS Integrated Eligibility System and the Medicaid Management Information System (MMIS). Given the rapid pace of program and system changes over the past year, there has been no time to initiate a competitive procurement. However, the quality assurance services included in this amendment are a continuation of the services procured under the original contract that was competitively bid. Cognosante, LLC has been providing ongoing Quality Assurance Services for the Medicaid Management Information System starting in State Fiscal Year 2005 as required by the Centers for Medicare and Medicaid Services (CMS).

This Amendment 11 will extend the contract by one year, through December 31, 2016, and will provide for the following services:

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
November 18, 2015
Page 3

- Extension of quality assurance staff supporting the New HEIGHTS eligibility system enhancements in compliance with federal requirements.
- Extension of quality assurance staff to test Medicaid Management Information System enhancements that are being funded by CMS at a 90 percent match rate and therefore require independent quality assurance oversight to comply with federal requirements.

Should the Governor and Executive Council determine to not approve this Request, the Department of Health and Human Services would experience a gap in quality assurance services and increased risk to critical enhancements to the Medicaid Management Information System. Because CMS requires a quality assurance vendor, a determination to not approve this Request may result in the loss of federal funding.

Source of Funds: Design, Development and Implementation phase: 90% federal funds,
10% general funds.

Geographic area to be served: Statewide.

In the event that the Federal funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Steven J. Kelleher
Acting Chief Information Officer/Director

REQUESTED ACTION

Authorize the Department of Health and Human Services, Office of Information Services, to enter into a sole source amendment (Amendment 10) to an existing contract (Purchase Order # 1018352) with Cognosante, LLC (Vendor #223062) 6263 North Scottsdale Road, Suite 200, Scottsdale, AZ 85250, for continuation of quality assurance services in compliance with the Centers for Medicare and Medicaid Services by increasing the price limitation by \$3,213,420 from \$15,974,891 to \$19,188,311 effective upon the approval of the Governor and Executive Council through December 31, 2015. 10% General, 90% Federal.

The Governor and Executive Council approved the original contract on December 1, 2004 (Late Item #E), Amendment 1 on December 12, 2006 (Item #119A), Amendment 2 on December 11, 2007 (Item #60, Amendment 3 on December 18, 2008 (Item#57, Amendment 4 on June 23, 2010 (Item#95), Amendment 5 on April 18, 2012 (Item#57), Amendment 6 on January 16, 2013 (Item#17), Amendment 7 on August 14, 2013 (Item#32), Amendment 8 on March 26, 2014 (Item#25-A) and Amendment 9 on July 16, 2014 (Item#3).

Funds are available in SFY 2015 and are anticipated to be available in SFY 2016 upon the availability and continued appropriation of funding in future operating budgets with authority to adjust amounts between State Fiscal Years, if needed and justified.

Total **\$15,974,891** **\$3,213,420** **\$19,188,311**

EXPLANATION

This sole source amendment provides for the continuation of quality assurance services procured under the original contract. The original contract was competitively bid. Cognosante, LLC has been providing ongoing Quality Assurance Services to the Medicaid Management Information System as required by the Centers for Medicare and Medicaid Services since 2005.

This amendment will provide for the following services in support of the Medicaid Management Information System:

- Extension of quality assurance staff supporting the effort to certify the Medicaid Management Information System in accordance with Centers for Medicare and Medicaid Services (CMS) requirements, which is a prerequisite to obtaining enhanced federal funding for maintenance and operation of the system
- Extension of quality assurance staff supporting the New HEIGHTS eligibility system interfaces necessary to determine Medicaid eligibility in compliance with federal requirements
- Extension of quality assurance staff to test Medicaid Management Information System enhancements that are required to meet State and federal mandates with 2015 deadlines.

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
December 2, 2014
Page 3

Should the Governor and Executive Council determine to not approve this Request, the Department of Health and Human Services would experience a gap in quality assurance services and increase risk to the Medicaid Management Information System Re-Procurement Project. Because the Centers for Medicare and Medicaid Services require a quality assurance vendor, a determination to not approve this Request would result in loss of federal funding.

Source of Funds: Design, Development and Implementation phase: 90% federal funds,
10% general funds.

Geographic area to be served: Statewide.

In the event that the Federal funds become no longer available, General Funds will not be requested to support this program.

EXPLANATION

This amendment is identified as sole source. The quality assurance services included in this amendment are a continuation of the services procured under the original contract that was competitively bid. Cognosante, LLC has been involved in the Medicaid Management Information System Reprocurement Project from its onset. The vendor continues to provide oversight of the Project in compliance with the Centers for Medicare and Medicaid Services' Quality Assurance requirements. Cognosante, LLC has developed an integral understanding of New Hampshire's Medicaid Management Information System and is in a unique position to continue their support of this effort. In addition, Cognosante, LLC is the most practical alternative for ensuring un-interrupted, informed support to the Medicaid Management Information System Reprocurement Project. See the Bid Summary that is attached.

Cognosante, LLC's quality assurance services in Amendment 9 are required for the Medicaid Management Information System Reprocurement Project to implement the New Hampshire Health Protection Program. The Centers for Medicaid and Medicaid Services requires these services as a condition of the enhanced 90% federal funding.

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
June 12, 2014
Page 3

The purpose of the Amendment 9 is to provide one additional full-time resource for a period of 6 months in support of the implementation of the New Hampshire Protection Program functionality within New Hampshire's Medicaid Management Information System.

A scanned copy of this item, including the G&C letters and accompanying documentation from the original agreement and subsequent amendments will be available online once posted to the meeting agenda for the Governor and Executive Council.

Should the Governor and Executive Council determine not to approve this Request, the New Hampshire Health Protection Program could be delayed.

Ninety percent (90%) federal funding for the Design, Development and Implementation effort in this Amendment 9 is pending approval by the Centers for Medicare and Medicaid Services. Approval is expected.

Source of Funds: Design, Development and Implementation effort is: 90% federal funds and 10% General Funds.

Area served: Statewide.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Item # 3517

REQUESTED ACTION

Authorize the Department of Health and Human Services, Office of Information Services, to enter into a sole source amendment (Amendment 8) to an existing contract (Purchase Order # 1018352) with Cognosante, LLC (Vendor #223062) (formerly FOX Systems, LLC) at 6263 North Scottsdale Road, Suite 200, Scottsdale, AZ 85250, for continuation of quality assurance services in compliance with the Centers for Medicare and Medicaid Services by increasing the price limitation by \$2,547,664 from \$13,256,875 to a new amount not to exceed \$15,804,539. The Governor and the Honorable Council approved the original contract on December 7, 2005 (Late Item #C), Amendment 1 on December 11, 2007 (Item #59), Amendment 2 on June 17, 2009 (Item #92), Amendment 3 on June 23, 2010 (Item#97), Amendment 4 on June 23, 2010 (Item #94), Amendment 5 on April 18, 2012 (Item#57), Amendment 6 on January 16, 2013 (Item#17) and Amendment 7 on August 14, 2013 (Item#32).

Funds are available in SFY 2014 through SFY 2015 as follows with the authority to adjust amounts within price limitation and amend the related terms of the contract without further approval from the Governor and Executive Council.

EXPLANATION

This amendment is identified as sole source. The quality assurance services included in this amendment are a continuation of the services procured under the original contract that was competitively bid. Cognosante, LLC has been involved in the Medicaid Management Information System Reprocurement Project from its onset. The vendor continues to provide oversight of the Project in compliance with Centers for Medicare and Medicaid Services Quality Assurance Requirements. Cognosante, LLC has developed an integral understanding of the New Hampshire Medicaid Management Information System and is in a unique position to continue their support of this effort and are the most practical alternative for ensuring un-interrupted, informed support to the Medicaid Management Information System Reprocurement Project. See the Bid Summary that is attached.

Cognosante, LLC's services in Amendment 8 are required for the Medicaid Management Information System Reprocurement Project to implement three (3) enhancements to the Medicaid Management Information System as required by the Centers for Medicaid and Medicare Services:

1. T-MSIS (Medicaid Statistical System)
2. Health Insurance Portability and Accountability Act Operating Rules
3. ICD-10(used for reporting of medical diagnoses and inpatient procedures).

This Amendment 8 will extend the following contract services:

- Contract Item 3.20, System Integration and Testing and User Acceptance Testing: Medicaid Management Information Systems and related Enhancements including T-MSIS (Medicaid Statistical System), Health Insurance Portability and Accountability Act Operating Rules and ICD-10(used for reporting of medical diagnoses and inpatient procedures)

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
March 14, 2014
Page 3

- Contract Item 3.2, Testing and Optional Support: additional quality assurance resources to the existing scope of services
- Contract Item 4.6: Medicaid Management Information System Certification Support
- Project Management Services for the Medicaid Management Information System

Should the Governor and Executive Council determine to not approve this Request, the Department of Health and Human Services would experience a gap in quality assurance services and increase risk to the Medicaid Management Information System Reprocurement Project, that would jeopardize the integrity of the Medicaid Management Information System. Because the Centers for Medicare and Medicaid Services require a quality assurance vendor, a determination to not approve this Request could result in loss of federal funding. In addition, failure to implement the Centers for Medicare and Medicaid Service required enhancements would result in a significant loss of federal revenue due to non-certification of the Medicaid Management Information System.

Funding for this Amendment is anticipated from the Centers for Medicare and Medicaid Services pending submission of federally required Implementation Advanced Planning Documents by the Department of Health and Human Services.

Source of Funds: Design, Development and Implementation phase: 90% federal funds,
10% general funds.

Geographic area to be served: Statewide.

In the event that the Federal funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

William L. Baggeroer

REQUESTED ACTION

Authorize the Department of Health and Human Services, Office of Information Services, to enter into a sole source amendment (Amendment 7) to an existing contract (Purchase Order # 1018352) with Cognosante, LLC (Vendor #223062) (formerly FOX Systems, LLC) at 6263 North Scottsdale Road, Suite 200, Scottsdale, AZ 85250, for continuation of quality assurance services and expansion of the scope of services in compliance with the Centers for Medicare and Medicaid Services by increasing the price limitation by \$986,400 from \$12,270,475 to a new amount not to exceed \$13,256,875 and by extending the completion date from December 31, 2014, to June 30, 2015, effective July 24, 2013, or upon Governor and Council approval, whichever is later. The Governor and Executive Council approved the original contract on December 7, 2005 (Late Item #C), Amendment 1 on December 11, 2007 (Item #59), Amendment 2 on June 17, 2009 (Item #92), Amendment 3 on June 23, 2010 (Item #97), Amendment 4 on June 23, 2010 (Item #94), Amendment 5 on April 18, 2012 (Item #57) and Amendment 6 on January 16, 2013 (Item #17).

Funds are available in SFY 2014 through SFY 2015 as follows with the authority to adjust amounts within price limitation and amend the related terms of the contract without further approval from the Governor and Executive Council.

EXPLANATION

This amendment is identified as sole source. The quality assurance services included in this amendment are an expansion of the services procured under the original contract that was competitively bid. Cognosante, LLC has been providing ongoing Quality Assurance Services to the Medicaid Management Information System starting in State Fiscal Year 2005 as required by the Centers for Medicare and Medicaid Services. The purpose of this Amendment is to expand the scope of services provided by Cognosante, LLC to include providing Quality Assurance Services to the New Heights Incremental Modernization project. A quality assurance vendor is required by the Centers for Medicare and Medicaid Services for States to receive 90% reimbursement for modernization of Medicaid Eligibility systems - in our case New HEIGHTS. The Department had intended to competitively procure this service as had been outlined to the Centers for Medicare and Medicaid Services in the Advance Planning Document Update approved August 10, 2012. However the timeline to complete this procurement had an anticipated start date of January 2014. The Centers for Medicare and Medicaid Services informed New Hampshire on April 24, 2013 of the mandate that New Hampshire would have to have this service in place no later than July of 2013 to be able to interface with the Federal Data Hub. Amending our existing Medicaid Management Information System Reprocurement quality assurance contract with Cognosante is our only viable option. Cognosante is very familiar with New Hampshire Medicaid systems having worked with us for several years (vender is qualified), their billing rates were already set and approved by the State of New Hampshire (fair cost), and an agreement to expand their quality assurance work to Medicaid eligibility is doable by the Centers for Medicare and Medicaid Services imposed deadline of July 2013 (timeliness).

The goal of the New Heights Incremental Modernization project is to further streamline the Department of Health and Human Services' operations and to enhance client services. Enhancements to New Heights system are expected to yield significant efficiencies to contain operating costs and improve productivity. The savings are based on improved worker productivity of an average 6% or 120 hours annually per DCA case worker. These efficiencies will contribute towards the Department of Health and Human Services' ability to maintain increased caseloads, including partial mitigation of the administrative expense which will be incurred if New Hampshire expands Medicaid under the Patient Protection and Affordable Care Act.

In addition to the quantitative benefits described above, these enhancements are critical to support the Department of Health and Human Service's strategic vision for improved service delivery, client-centric orientation with operational efficiencies. For example, a text reminder for appointments offers improved client service and improves the Division of Client Services case management efficiency by reducing the "no show" percentage and costs associated with lost productivity and rescheduling. In the long term, the Department of Health and Human Services will be in a stronger position to support ongoing evolution using a contemporary case management system which enhances customer service, contains administrative expense and provides infrastructure to manage benefits and policy.

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
July 12, 2013
Page 3

Should the Governor and Executive Council determine to not approve this Request, the Department of Health and Human Services would experience a gap in quality assurance services and increase risk to the New Heights Incremental Modernization project, that would jeopardize the integrity of the New Heights System. Because the Centers for Medicare and Medicaid Services require a quality assurance vendor, a determination to not approve this Request would result in loss of federal funding.

Funding for the New Heights Incremental Modernization project is provided through the Patient Protection and Affordable Care Act: Public Law 111-148. The Centers for Medicare and Medicaid Services has approved funding of \$500,000 for Quality Assurance Services and the remaining federal approval is anticipated based on additional Advanced Planning Documents scheduled for submission by the Department of Health and Human Services.

Source of Funds: Design, Development and Implementation phase: 90% federal funds,
10% general funds.

Geographic area to be served: Statewide.

In the event that the Federal funds become no longer available, General Funds will not be requested to support this program.

EXPLANATION

This amendment is identified as sole source. The quality assurance services included in this amendment are a continuation of the services procured under the original contract that was competitively bid. Cognosante, LLC has been involved in this major systems initiative from its onset. The vendor has provided oversight of the detailed system design and the current testing phase. They have developed an integral understanding of the New Hampshire Medicaid Management Information System and are in a unique position to continue in their support of this effort and are the most practical alternative for ensuring uninterrupted, informed support to the Medicaid Management Information System; including the expanded scope of services included in this amendment. See The Bid Summary is attached.

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
December 14, 2012
Page 3

The purpose of this request is to continue the provision of quality assurance services provided by Cognosante, LLC through December 31, 2014, in support of the Department's implementation of a new Medicaid Management Information System and to expand the scope of services to include additional resources for user acceptance testing, dedicated support for preparation and review of the post-implementation federal certification requirements and for project monitoring and reporting.

The Medicaid Management Information System, including its Medicaid claims adjudication and payment functions, is a critical system for the Department of Health and Human Services. The Medicaid Management Information System processes over \$900 million in payments to over 5,000 actively billing and enrolled New Hampshire Medicaid providers annually. These services are provided to eligible recipients under the New Hampshire Medicaid program. The New Hampshire Medicaid Management Information System is the Department's primary system for administering and managing costs for the New Hampshire Medicaid program.

It is vitally important that the new Medicaid Management Information System is able to perform all of its required functions, and to perform them with integrity. The new Medicaid Management Information System must be secure, stable, accurate, and efficient. It must be able to store eligibility data for the current annual New Hampshire Medicaid population of approximately 130,000, enrolled provider data for approximately 19,000 providers, and 7 years of claims payment history. It must be able to receive over 6 million paper and electronic claims from providers, process those claims against the available data, execute applicable edits, and determine the appropriate payment. The System must be able to generate reliable reports, avoid costs where other insurance for a member exists, and identify potentially fraudulent provider billing practices for further investigation.

The new New Hampshire Medicaid Management Information System will replace the existing 18-year-old legacy Medicaid Management Information System. On April 18, 2012 (Item #57) the Governor and Executive Council approved Amendment #5 to extend the agreement for up to 18 months, through December 31, 2013. That Amendment also revised the project schedule for design, development and implementation of System and expanded the scope of services.

This amendment (Amendment 6):

- re-aligns the schedule of quality assurance services with a revised project schedule for design, development and implementation of the New Hampshire Medicaid Management Information System, including the extension of the contract completion date for up to 12 months, from December 31, 2013, to deployment on April 1, 2013, and through December 31, 2014, for post-deployment certification and the testing of both federal and state mandated enhancements;
- provides the Department, at its sole discretion, the option to terminate the contract as early as December 31, 2013, by providing the contractor with 30 calendar days advance written notice. It also allows the State to reduce the level of Cognosante staffing for testing and certification activities after December 31, 2013, by providing 30 calendar days advanced notice;
- expands the scope of services to provide for additional user acceptance and end-to-end testing services through the duration of design and development, and implementation of the System during which all system processes will be executed multiple times in a coordinated manner to replicate daily, weekly, monthly, quarterly, and annual cycle processing; and

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
December 14, 2012
Page 4

- expands the scope of services to provide for dedicated support for coordination of CMS Certification preparation activities including early collection of operations and system artifacts and readiness review. These activities must take place just prior to system go-live, during which time State project resources must focus on implementation and operations transition issues, and continue after implementation in preparation for actual CMS certification. These services will help support federal certification of the Medicaid Management Information System that will entitle the Department to an enhanced rate of Federal Financial Participation (FFP) for Medicaid Management Information System operations.

The significant progress realized to date on the New Hampshire Medicaid Management Information System Project is due in part to the consistent quality assurance support provided by Cognosante. This amendment will enable the Department to retain the expertise of those Cognosante's staff who have developed an in-depth understanding of the overall New Hampshire Medicaid Management Information System design, development and implementation effort. Along with the State project team, Cognosante staff will continue to monitor, verify, and validate implementation contractor deliverables and execute tests, to help ensure that the new system meets the requirements and processes claims payment with integrity.

Should the Governor and Executive Council determine to not approve this Request, the Department would experience a gap in quality assurance services and increased risk to the project, that would jeopardize the integrity of the new Medicaid Management Information System implementation. Because the Centers for Medicare and Medicaid Services requires a quality assurance vendor, a determination to not approve this Request would result in loss of federal funding for the new system.

Federal funding for this agreement is pending the Centers for Medicare and Medicaid Services approval of an upcoming amendment to the Department's Implementation Advanced Planning Document.

Source of Funds: 90% federal funds and 10% general funds.

Area served: Statewide.

In the event that the Federal funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

William L. Baggeroer

Page 2

EXPLANATION

This amendment is a fixed priced, sole source amendment. Services included in this Amendment were originally competitively bid, but were not re-bid because they are a continuation of the services procured under the original contract and because Cognosante, given its involvement in this major systems initiative from its onset through detailed system design to the current testing phase, has developed an integral understanding of the NH Medicaid Management Information System solution and is the most practical alternative for ensuring uninterrupted, informed support through to the Medicaid Management Information System implementation. See Attachment A Bidders List at the end of this document.

The purpose of the above requested action is to continue the provision of quality assurance services provided by Cognosante, LLC through December 31, 2013 in support of the Department's implementation of a new Medicaid Management Information System and to expand the scope of services in the Contract to include additional resources for end-to-end and user acceptance testing, dedicated support for preparation and review of the post-implementation certification requirements, and incremental quality assurance testing and reporting specifically focused on the new "5010" electronic transaction functionality recently approved and added to the System design strategy.

The NH Medicaid Management Information System project is a major information systems initiative underway with the Department of Health and Human Services and the Department of Information Technology (DoIT), to replace the existing 18 year old legacy Medicaid Management Information System with a new system that meets or exceeds the requirements of the NH Medicaid Management Information System Request For Proposals #RFP-DHHS-2005-002.

On March 7, 2012 (Item #22A) the Governor and Executive Council approved expanding the scope and extending schedule for the design, development and implementation of the MMIS currently underway with ACS State Healthcare LLC (ACS) to enable the new system to support electronic transactions in a 5010 format compatible with federal requirements mandated under the Health Insurance Portability and Accountability Act and 45 CFR 162. Consequently, these modifications create the need to extend and expand Cognosante's quality assurance support for testing, system go-live, and post-implementation certification. The Medicaid Management Information System implementation is currently anticipated to go live on or before December 31, 2012.

Specifically, Amendment 5 re-aligns the schedule of quality assurance services with the revised project schedule for design, development and implementation of the Medicaid Management Information System. It extends the Contract completion date for up to 18 months, through December 31, 2013, with the option for early termination by the State as soon as the Medicaid Management Information System is implemented and the post-implementation federal certification phase is complete. The Amendment provides the Department, at its sole discretion, the option to terminate the contract as early as July 31, 2013, or the last day of any month thereafter, by providing the contractor with 30 calendar days advance written notice.

Additionally, the Amendment expands the scope of services to provide for:

- Additional user acceptance and end-to-end testing services through the duration of design and development, and implementation of the System during which all system processes will be executed multiple times in a coordinated manner to replicate daily, weekly, monthly, quarterly, and annual cycle processing;
- Dedicated support for coordination of CMS Certification preparation activities including early collection of operations and system artifacts and readiness review. These activities must take place just prior to and immediately following system go-live, during which time State project

His Excellency, Governor John H. Lynch
and the Honorable Executive Council
March 21, 2012
Page 3

resources must focus on implementation and operations transition issues. These services will help support federal certification of the Medicaid Management Information System that will entitle the Department to an enhanced rate of Federal Financial Participation (FFP) for Medicaid Management Information System operations.

- Additional resources for testing and certification support to correspond with the new "5010" functional system requirements for electronic transaction processing added to the design of the Medicaid Management Information System. The breadth of the 5010 changes across the system necessitates that many system functions previously tested and validated during system integration testing must be retested in their entirety to ensure that 5010 related changes have not adversely impacted system processing capabilities or their integrity.

The Medicaid Management Information System, including its Medicaid claims adjudication and payment functions, is a mission critical system for the Department of Health and Human Services. The Medicaid Management Information System processes over \$900 million in payments to over 5,000 actively billing and enrolled New Hampshire Medicaid providers annually, for services provided to eligible recipients under the New Hampshire Medicaid program. It is the Department of Health and Human Services' primary system for administering and managing costs for the New Hampshire Medicaid program.

It is critically important that the new Medicaid Management Information System is able to perform all of its required functions, and to perform them with integrity. The new Medicaid Management Information System must be secure, stable, accurate, and efficient. It must be able to store eligibility data for the current annual New Hampshire Medicaid population of approximately 120,000, enrolled provider data for approximately 19,000 providers, and 7 years of claims payment history. It must be able to receive over 6 million paper and electronic claims from providers, process those claims against the available data, execute applicable edits, and determine the appropriate payment. The Medicaid Management Information System must be able to generate reliable reports, avoid costs where other insurance for a member exists, and to identify potentially fraudulent provider billing practices for further investigation.

The significant progress realized to date on the New Hampshire Medicaid Management Information System Project is due in part to the quality assurance support provided by Cognosante. This amendment will enable the Department to retain the expertise of those Cognosante staff who have developed an in-depth understanding of the overall NH Medicaid Management Information System DDI effort. Along with State project team staff, Cognosante staff will continue to monitor, verify, and validate implementation contractor deliverables and execute tests, to help ensure that the new MMIS meets the RFP requirements, and processes claims payment with integrity. Should the Governor and Executive Council determine to not approve this Request, the Department would experience a gap in quality assurance services and increased risk to the project which may jeopardize the integrity of the Medicaid Management Information System implementation.

Source of Funds: Design, Development and Implementation phase: 90% federal funds,
10% general funds.

Geographic area to be served: Statewide.

In the event that the Federal funds become no longer available, General Funds will not be requested to support this program.

His Excellency, Governor John H. Lynch
and the Honorable Executive Council

ITEM # 95

REQUESTED ACTION

Authorize the Department of Health and Human Services (DHHS), Office of Medicaid Business and Policy (OMBP) to enter into a sole source contract amendment (Amendment 4) to an existing contract (P.O. # 1002153 with FOX Systems, LLC (FOX or Contractor), Vendor #172138, 6263 North Scottsdale Road, Suite 200, Scottsdale, AZ 85250 (formerly FOX Systems, Inc.) to extend the completion date from June 30, 2010 to June 30, 2012, for continuation of quality assurance services related to the State's Medicaid Management Information System project and to increase the price limitation by \$1,811,579 from \$5,259,195 to \$7,070,774 effective June 23, 2010 or the date of Governor and Executive Council approval, whichever is later. The Governor and Executive Council approved the original contract on December 1, 2004 (Late Item #E), Amendment 1 on December 12, 2006 (Item #119A), Amendment 2 on December 11, 2007 (Item #60) and Amendment 3 on December 18, 2008 (Item #57).

Funds are anticipated to be available in SFY 2011 and SFY 2012 as identified below with authority to adjust amounts between fiscal years if needed and justified.

EXPLANATION

The purpose of the above requested action is to enable the continuation of quality assurance (QA) services provided by FOX Systems, LLC in support of the DHHS's Medicaid Management Information System (MMIS) implementation. The NH MMIS project is a major information systems initiative underway with the DHHS and the Department of Information Technology (DoIT), to replace the existing 16 year old legacy MMIS with a new system that meets or exceeds the requirements of the NH MMIS Request For Proposals (RFP).

Delays in the design, development and implementation (DDI) of the MMIS underway with ACS State Healthcare LLC (ACS), as previously acknowledged to the Governor and Executive Council, require extending FOX's QA support for testing, system go-live, and post-implementation certification. This Amendment 4 updates the deliverables timeframes to align with the current project schedule and adjusts deliverables to accommodate the system testing and implementation methodology adopted by the DDI vendor. The amendment will enable the DHHS to retain the expertise of those FOX Systems' staff who, to date, have developed an in-depth understanding of the overall NH MMIS DDI effort. Along with State project team staff, FOX QA staff will continue to monitor, verify, and validate implementation contractor deliverables and execute tests, to help ensure that the new MMIS meets the RFP requirements, and processes claims payment with integrity.

The Governor and Executive Council approved the original QA contract with FOX Systems, LLC on December 1, 2004 (Late Item #E), one year prior to finalizing the MMIS DDI contract. Pre-DDI services resulted in activities and deliverables that helped the State's MMIS project team and Medicaid program area staff organize historical information and prepare for the onset of the system development phase. Final execution and approval of the implementation contract with ACS was achieved a year after the QA contract was finalized. A no-cost amendment (Amendment 1) to the QA contract, necessary to accommodate the later than anticipated start-up of the system development phase of the contract, was approved by Governor and Executive Council on December 12, 2006 (Item # 119A) and extended the duration of the QA contract to December 31, 2007. Amendment 2, approved by Governor and Executive Council on December 11, 2007 (Item #60), extended the duration of the contract one additional year to December 31, 2008. Amendment 3 extended the contract period through June 30, 2010 (Item #57), with the option, at the State's sole discretion and with the approval of Governor and Executive Council, to extend the contract period through December 31, 2010. This Amendment 4 adds a minimum of 18 months and a maximum of two years to the contract period, from June 30, 2010 to June 30, 2012, a period of up to 18 months beyond the extension period approved in Amendment 3.

The MMIS implementation is currently anticipated to go live on or before October 1, 2011. Amendment 4 provides for QA service coverage to conclude work related to testing, implementation, and six months of post-implementation support. The post-implementation support is required to help support federal certification of the MMIS that will entitle the DHHS to an enhanced rate of Federal Financial Participation (FFP) for MMIS operations. In addition, this Amendment provides the DHHS with the option to terminate the contract early if possible, as soon as the MMIS is implemented and the post-implementation certification phase is complete. Specifically, the DHHS, at its sole option, may terminate the contract effective as early as December 31, 2011, or the last day of any month thereafter, by providing the contractor with 30 calendar days advance written notice.

This amendment is a fixed priced, sole source amendment. Services included in this Amendment were originally competitively bid, but were not re-bid because they are a continuation of the services procured under the original contract and because FOX, given its involvement in this major systems initiative from its onset through detailed system design to the current testing phase, has developed an integral understanding of the NH

His Excellency, Governor John H. Lynch
and the Honorable Executive Council
May 18, 2010
Page 3 of 6

MMIS solution and is the most practical alternative for ensuring uninterrupted, informed support through to the MMIS implementation.

The key drivers behind this sole source request to amend and extend the FOX Systems, LLC contract for quality assurance Services for the MMIS Reprocurement Project, in addition to the services to be acquired, are:

- This amendment allows the State to retain the services of the contractor that, since 12/01/2004 has developed a strong knowledge base of NH Medicaid Business rules, as well as a detailed understanding of the State's MMIS requirements as documented in the NH MMIS RFP, and has been engaged effectively with State staff in the requirements validation and general system design phases of the NH MMIS Project over the past year.
- This extension builds on the effort of the contractor to date, and is the most efficient and cost-effective approach. The information that FOX has gained over the course of the project can be applied directly, without disruption of service, to future testing, implementation, and certification phases, without the lost time and effort that would be necessary to assist a new vendor with overcoming a significant learning curve.
- Each of the lifecycle phases of MMIS DDI effort builds on the last, placing significant value on resources who have had prior exposure and understanding of the new MMIS requirements to date, thereby enhancing efforts to maintain project progress and sustain productive momentum.
- This amendment correctly aligns the DDI services of the quality assurance vendor with the iterative development methodology of the implementation contractor's approach, as well as with the deliverables and project timeline of the MMIS implementation effort, and restructures the QA deliverables to provide for additional support during testing.
- This project is guided by the parameters defined in the State's MMIS Reprocurement Project's Implementation Advanced Planning Document (IAPD). Upon determination that the DDI Phase of the MMIS required additional time for completion, the DHHS and ACS executives and key program leaders met with Regional Directors from the federal Centers for Medicare and Medicaid Services (CMS) to review the project status and future strategy. CMS concurred with the DHHS on the direction of the project and verbally extended continued support. The DHHS is now preparing Amendment 7 to the IAPD, which will be formally reviewed by the federal Centers for Medicare and Medicaid Services (CMS). Amendment 7 to the IAPD will include modification of the FOX contract, with scope of services and pricing consistent with and as described in this amendment. A copy of the contract itself will be submitted to CMS for review along with IAPD Amendment 7. DHHS fully anticipates that the CMS will approve the DHHS's requested changes to the IAPD and the MMIS project, thereby approving 90% Federal Financial Participation (FFP) for the continuation of FOX's quality assurance contractor services to support the extended MMIS implementation timeline.

The implementation of the new MMIS is a complex and challenging endeavor that involves extensive data migration, expansion of internal and external data interfaces, a new web-based systems architecture, rules-based processing, and enhanced business operations to support real-time claims adjudication and claims

His Excellency, Governor John H. Lynch
and the Honorable Executive Council
May 18, 2010
Page 4 of 6

payment capabilities. Given the expansiveness of the NH MMIS project's scope and the complex nature of the MMIS implementation, with its myriad of claims processing and payment functions, it is critical that the efforts of dedicated State staff from the DHHS and the Department of Information Technology (DoIT, formerly known as the "Office of Information Technology" or "OIT") are reinforced with the continued services of the quality assurance contractor.

BACKGROUND

The role of the quality assurance (QA) contractor was described in the State's Implementation Advanced Planning Document (IAPD) for the NH MMIS Project, which was approved by the federal Centers for Medicare and Medicaid Services (CMS) in May 2004. A Request for Proposal (RFP) was issued in June 2004 and FOX Systems, Inc. was selected as the MMIS QA contractor through a competitive bid process. Email notification of the intent to publish a new RFP was sent to a comprehensive vendor list on May 13, 2004. Notification of the RFP publication was issued using standard DoIT procedures. The RFP was issued on May 14, 2004 and published on the Department of Administrative Services (DAS) website. Links to this website were also posted on the Department of Health and Human Services (DHHS) website and the DoIT website. A mandatory bidder's conference was held on May 21, 2004. Formal responses by the DHHS and DoIT to vendor questions were issued on June 2, 2004.

The DHHS received and evaluated three (3) proposals in response to the RFP. These proposals were evaluated based on the vendor's approach, qualifications, price, and technical/service/project management, to determine the best solution at the best value to the State. The evaluations also included vendor on-site team presentations by each of the three vendors. FOX Systems, Inc. was selected as the winning proposal following the evaluation process. FOX received the highest total score overall, and the evaluation team concluded that the FOX proposal best met the objectives set forth in the RFP. The Governor and Executive Council approved the original contract with FOX Systems on December 1, 2004.

Under the contract, FOX agreed to provide a variety of quality assurance services, including services to review and analyze NH Medicaid business rules in preparation for the onset of the development effort for the new NH MMIS. Between December 2004 and December 2005, prior to the start-up of the MMIS DDI effort, FOX Systems staff worked with DHHS and DoIT staff to complete the Business Rules analysis and other pre-development MMIS-related preparatory activities.

The State awarded a contract to ACS State Healthcare on December 7, 2005, to design, develop, and implement the new NH MMIS, and also to provide on-going maintenance and fiscal agent operations services. The MMIS project kick-off meeting was held in December 2005, with "Joint Application Design Requirement Validation Sessions" commencing in January 2006. Since that January, FOX Systems staff has participated along with State staff in all requirement validation and general system and detailed system design sessions, and have been engaged in the review and comment of all implementation contractor deliverables.

FOX, the quality assurance contractor, has partnered with the State to monitor that the functional requirements stipulated by the State, and approved by the Federal Centers for Medicare and Medicaid Services (CMS), are addressed adequately by the implementation contractor. FOX assists the State during the system design and development effort, to ensure that all aspects of the functional, technical, and operational components of the MMIS are verified and validated, and to monitor the project's progress according to plan.

His Excellency, Governor John H. Lynch
and the Honorable Executive Council
May 18, 2010
Page 5 of 6

Continuity of the FOX quality assurance effort throughout the duration of this project is essential to helping the State ensure that its objectives for the implementation of the new MMIS are met at each phase of the project's activity. As the overall duration of the project has increased, FOX has remained committed to its success and has worked with the State to ensure the retention of the same key resources throughout the project lifecycle. Over the course of their daily participation on the MMIS implementation project, the FOX team has developed a more in-depth understanding of the functionality supported by the new NH MMIS, and will apply that understanding to future system testing and validation to ensure that the new MMIS functions and performs as expected.

The expansiveness and complexity of the NH MMIS implementation presents a significant number of challenges and risks that need to be managed and mitigated. To support critical changes in Medicaid regulations and policy, New Hampshire added new functions and required the integration of new technology into the solution. The development and construction effort took longer than planned, and the current effort to comprehensively test the full functionality will require additional time, as well. The DHHS is committed to implementing a solution that is fully tested to ensure delivery of the requisite functionality and performance standards that support operational requirements. Continuation of the quality assurance contractor services is essential to the State in ensuring that the MMIS meets the State's objectives.

This Amendment is necessary to align the FOX contract with the revised MMIS system implementation timeline and continue QA contractor services through to the projected system implementation date and the post-implementation certification of the new MMIS.

REQUESTED ACTION

ITEM # 57

Authorize the Department of Health and Human Services (DHHS), Office of Medicaid Business and Policy (OMBP), to enter into a sole source contract amendment (Amendment 3) to an existing contract (Contract #971134) with FOX Systems, Inc. (FOX), (Vendor #122726), Scottsdale, AZ 85250, to increase the price limitation by \$787,725 from \$4,471,470 to \$5,259,195, for quality assurance services for the State's Medicaid Management Information System (MMIS), and to extend the completion date from December 31, 2008 to June 30, 2010, effective upon approval of the Governor and Council through June 30, 2010. The Governor and Executive Council approved the original contract on December 1, 2004 (Late Item #E), Amendment 1 on December 12, 2006 (Item # 119A), and Amendment 2 on December 11, 2007 (Item # 60).

Funds to support this agreement are available in the following accounts according to State Fiscal Year, and are anticipated to be available in SFY 2010 upon the availability and continued appropriation of funds in the future operating budgets. Funds are available with authority to adjust amounts, if needed and justified, between fiscal years:

SFY	Account Number	Account Title	Current Modified Budget	Increase/ (Decrease) Amount	Revised Modified Budget
2005	010-095-5691-031-0285	Computer Equipment	\$426,820	0	\$426,820
2006	010-095-6126-097-0285	Medicaid Contracts	\$818,733	0	\$818,733
2007	010-095-6126-102-0731	Medicaid Contracts	\$527,267	0	\$527,267
2008	010-095-6126-102-0731	Medicaid Contracts	\$1,750,691	(\$991,528)	\$759,163
2009	010-095-6134-102-0731	Medicaid Contracts	\$947,959	\$325,129	\$1,273,088
2010	010-095-6134-102-0731	Medicaid Contracts	0	\$1,454,124	\$1,454,124
	Total		\$4,471,470	\$ 787,725	\$5,259,195

His Excellency, Governor John H. Lynch
and the Honorable Executive Council
November 25, 2008
Page 2 of 6

EXPLANATION

The purpose of the above requested action is to enable the continuation of Quality Assurance services provided by FOX Systems, Inc. in support of the implementation of the new NH Medicaid Management Information System (MMIS). The NH MMIS Project is a major information systems initiative underway with the Department and the Department of Information Technology (DIT), to replace the existing 14 year old legacy MMIS with a new system that meets or exceeds the requirements of the NH MMIS Request For Proposals (RFP).

This Amendment extends the duration of the current Quality Assurance (QA) contract, updates the deliverables timeframes to align with the current project schedule, adjusts deliverables to accommodate the system testing and implementation methodology adopted by the DDI vendor, and adds post-implementation services and support for completing requirements necessary to obtain federal certification of the new system. This Amendment will enable the Department to retain the expertise of those FOX Systems' staff who to-date have developed an in-depth understanding of the overall NH MMIS design, development, and implementation (DDI) effort. Along with State project team staff, FOX QA staff will continue to monitor, verify, and validate implementation contractor deliverables and execute tests, to help ensure that the new MMIS meets the RFP requirements, and processes claims payment with integrity.

The implementation of the new MMIS is a complex and challenging endeavor that involves extensive data migration, expansion of internal and external data interfaces, a new web-based systems architecture, rules-based processing, and enhanced business operations to support real-time claims adjudication and claims payment capabilities. Given the expansiveness of the NH MMIS project's scope and the complex nature of the MMIS implementation, with its myriad of claims processing and payment functions, it is critical that the efforts of dedicated State staff from the Department and DIT are reinforced with the services of the Quality Assurance contractor.

FOX, the Quality Assurance contractor, has partnered with the State to monitor that the functional requirements stipulated by the State, and approved by the Federal Centers for Medicare and Medicaid Services (CMS), are addressed adequately by the implementation contractor. FOX assists the State during the system design and development effort, to ensure that all aspects of the functional, technical, and operational components of the MMIS are verified and validated, and to monitor the project's progress according to plan.

The Governor and Executive Council approved the original Quality Assurance contract with FOX Systems, Inc. on December 1, 2004 (Late Item #E), one year prior to finalizing the MMIS DDI contract. Prior to the start up of the implementation contract, FOX provided "Pre-DDI" services to the State. Pre-DDI services resulted in activities and deliverables that helped the State's MMIS project team and Medicaid program area staff organize historical information and prepare for the onset of the system development phase.

With the execution of the MMIS implementation contract with ACS State Healthcare, LLC (ACS) in December 2005, the DDI phase of the Quality Assurance project effort began. Under Amendment 1 to the QA contract, Quality Assurance services outlined in the original contract for the DDI phase were restructured to meet project objectives in coordination with the system Design, Development, and Implementation activities of the implementation contractor. Amendment 2 realigned and extended the Quality Assurance (QA) project timelines, deliverable schedule, and subsequent payment schedule with the extended project timelines and deliverable schedule of the MMIS implementation project. This Amendment 3 serves to maintain the critical QA services through to project completion.

His Excellency, Governor John H. Lynch
and the Honorable Executive Council
November 25, 2008
Page 3 of 6

Dates, deliverables, and payment schedules incorporated in the original QA contract were based on projected estimates for the implementation contractor's schedule of activity. Final execution and approval of the implementation contract with ACS was achieved a year after the QA contract was finalized. To accommodate the later than anticipated start-up of the system development phase of the contract, a no-cost amendment (Amendment 1) to the QA contract was requested and approved by Governor and Executive Council on December 12, 2006 (Item # 119A). Amendment 1 extended the duration of the QA contract to December 31, 2007 and Amendment 2, approved by Governor and Executive Council on December 11, 2007, extended the duration of the contract one additional year to December 31, 2008.

Section 5 of Amendment 1 included a provision to allow the State, at its sole discretion (with the approval of Governor and Council) to further extend the contract through June 30, 2009. By way of relevant background, due to administrative oversight, a reference to this added provision was omitted inadvertently from the Amendment 1 Governor and Council letter. A copy of Section 5 of Amendment 1 is attached. This omission was previously disclosed in the Governor and Council letter submitted on November 6, 2007 with Amendment 2 to this contract.

This requested Amendment 3 extends the QA contract period through June 30, 2010, with the option, at the State's sole discretion and with the approval of Governor and Council, to extend the contract period through December 31, 2010. The optional additional six months from June 30, 2010 to December 31, 2010 has been identified as a period that may be necessary to conclude work related to testing and implementation. The requested Amendment 3 extends the current period from December 31, 2008 to and past June 30, 2009.

This Amendment aligns the FOX contract with the revised MMIS system implementation timeline, and continuing QA contractor services through to the projected system implementation date. Additionally, under Amendment 3, post-implementation services are included, and the distribution of payment is adjusted to cover the costs for the additional deliverables and the schedule of delivery. Project deliverable holdback amounts will continue to be withheld based on the total deliverable cost as was originally agreed upon with the contractor. However, this Amendment allows for the costs associated with certain QA deliverables, including but not limited to holdback amounts, to be divided and distributed across completed components of those deliverables.

This contract amendment is a fixed priced, sole source amendment. Services included in this Amendment were not competitively re-bid since they are a continuation of the services intended under the original contract and because FOX, given its involvement in this major systems initiative from its onset through the detailed system design to-date, has developed an integral understanding of the NH MMIS solution and is the most practical alternative for ensuring uninterrupted, informed support through to the MMIS implementation.

The key drivers behind this sole source request to amend and extend the FOX Systems, Inc. contract for Quality Assurance Services for the MMIS Repro curement Project, in addition to the services to be acquired, are:

- This amendment allows the State to retain the services of the contractor that, since 12/01/2004 has developed a strong knowledge base of NH Medicaid Business rules, as well as a detailed understanding of the State's MMIS requirements as documented in the NH MMIS RFP, and has been engaged effectively with State staff in the requirements validation and general system design phases of the NH MMIS Project over the past year.

His Excellency, Governor John H. Lynch
and the Honorable Executive Council
November 25, 2008
Page 4 of 6

- This extension builds on the effort of the contractor to date, and is the most efficient and cost-effective approach. The information that FOX has gained over the course of the past
- two years can be applied directly, without disruption of service, to future development phases, without the lost time and effort that would be necessary to assist a new vendor with overcoming a significant learning curve.
- Each of the lifecycle phases of MMIS design, development, and implementation effort builds on the last, placing significant value on resources who have had prior exposure and understanding of the new MMIS requirements to date, thereby enhancing efforts to maintain project progress and sustain productive momentum.
- This amendment correctly aligns the DDI services of the Quality Assurance vendor with the iterative development methodology of the implementation contractor's approach, as well as with the deliverables and project timeline of the MMIS implementation effort, and restructures the QA deliverables to provide for additional support during testing.
- This project is guided by the parameters defined in the State's MMIS Reprocurement Project's Implementation Advanced Planning Document (IAPD). The State has submitted Amendment 5 to the IAPD, which is under review by the federal Centers for Medicare and Medicaid Services (CMS). Amendment 5 to the IAPD includes modification of the FOX contracted services, consistent with and as described in this amendment. DHHS anticipates that the CMS will approve the State's requested changes to the IAPD and MMIS project, thereby approving 90% Federal Financial Participation (FFP) for the continuation of FOX System's Quality Assurance contractor services to support the extended MMIS implementation timeline.

BACKGROUND

The role of the Quality Assurance (QA) Contractor was described in the State's Implementation Advanced Planning Document for the NH MMIS Project, which was approved by the federal Centers for Medicare and Medicaid Services (CMS) in May 2004. A Request for Proposal (RFP) was issued in June 2004 and FOX Systems, Inc. was selected as the MMIS QA contractor through a competitive bid process. Email notification of the intent to publish a new RFP was sent to a comprehensive vendor list on May 13, 2004. Notification of the RFP publication was issued using standard DIT (formerly known as the "Office of Information Technology" or "OIT") procedures. The RFP was issued on May 14, 2004 and published on the Department of Administrative Services (DAS) website. Links to this website were also posted on the Department of Health and Human Services (DHHS) website and the DIT (formerly OIT) website. A mandatory bidder's conference was held on May 21, 2004. Formal responses by the Department and DIT (formerly OIT) to vendor questions were issued on June 2, 2004.

The Department received and evaluated three (3) proposals in response to the RFP. (Please see attached bidders list). These proposals were evaluated based on the vendor's approach, qualifications, price, and technical/service/project management, to determine the best solution at the best value to the State. The evaluations also included vendor on-site team presentations by each of the three vendors. FOX Systems, Inc. was selected as the winning proposal following the evaluation process. FOX received the highest total score overall,

His Excellency, Governor John H. Lynch
and the Honorable Executive Council
November 25, 2008
Page 5 of 6

and the evaluation team concluded that the FOX proposal best met the objectives set forth in the RFP. The Governor and Executive Council approved the original contract with FOX Systems on December 1, 2004.

Under the contract, FOX agreed to provide a variety of quality assurance services, including services to review and analyze NH Medicaid business rules in preparation for the onset of the development effort for the new NH MMIS. Between December 2004 and December 2005, prior to the start-up of the MMIS Design, Development and Implementation effort, FOX Systems staff worked with Department and DIT staff to complete the Business Rules analysis and other pre-development MMIS-related preparatory activities.

The State awarded a contract to ACS State Healthcare on December 7, 2005, to design, develop, and implement the new NH MMIS, and also to provide on-going maintenance and fiscal agent operations services. The MMIS Project kick-off meeting was held in December 2005, with Joint Application Design Requirement Validation Sessions commencing in January 2006. Since that January, FOX Systems staff has participated along with State staff in all requirement validation and general system and detailed system design sessions, and have been engaged in the review and comment of all implementation contractor deliverables.

Continuity of the FOX Quality Assurance effort throughout the duration of this project is essential to helping the State ensure that its objectives for the implementation of the new MMIS are met at each phase of the project's activity. As the overall duration of the project has increased, FOX has remained committed to its success and has worked with the State to ensure the retention of the same key resources throughout the project lifecycle.

Prior to the start-up of the MMIS implementation effort, State staff invested a significant amount of effort into providing the FOX team with a strong knowledge base of the NH Medicaid Program and MMIS-RFP requirements. Over the course of their daily participation on the MMIS implementation project, the FOX team has developed a more in-depth understanding of the functionality supported by the new NH MMIS, and will apply that understanding to future system testing and validation to ensure that the new MMIS functions and performs as expected.

The expansiveness and complexity of the NH MMIS implementation presents a significant number of challenges and risks that need to be managed and mitigated. Continuation of the Quality Assurance contractor services is essential to the State in ensuring that the MMIS meets the State's objectives.

ITEM # 60

REQUESTED ACTION

Authorize the Department of Health and Human Services (DHHS), Office of Medicaid Business and Policy (OMB), to enter into a sole source contract amendment (Amendment 2) to an existing contract (Contract #971134) with FOX Systems, Inc. (FOX), (Vendor #122726), Scottsdale, AZ 85250, to increase the price limitation by \$1,493,475 from \$2,977,995 to \$4,471,470, for quality assurance services for the State's Medicaid Management Information System (MMIS), and to extend the completion date from December 31, 2007 to December 31, 2008, effective upon approval of the Governor and Council through December 31, 2008. The Governor and Executive Council approved the original contract on December 1, 2004 (Late Item #E) and Amendment 1 on December 12, 2006 (Item # 119A).

Funds to support this agreement are available in the following accounts according to State Fiscal Year, with authority to adjust amounts, if needed and justified, between fiscal years:

SFY	Account Number	Account Title	Current Modified Budget	Increase / (Decrease) Amount	Revised Modified Budget
2005	010-095-5691-031-0285	Computer Equipment	\$426,820	0	\$426,820
2006	010-095-6126-097-0285	Medicaid Contracts	\$818,733	0	\$818,733
2007	010-095-6126-097-0285	Medicaid Contracts	\$921,776	(\$394,509)	\$527,267
2008	010-095-6126-097-0285	Medicaid Contracts	\$810,666	\$940,025	\$1,750,691
2009	010-095-6126-097-0285	Medicaid Contracts	\$0	\$947,959	\$947,959
	Total		\$2,977,995	\$1,493,475	\$4,471,470

EXPLANATION

The purpose of the above requested action is to enable the continuation of Quality Assurance services provided by FOX Systems, Inc. in support of the implementation of the new NH Medicaid Management Information System (MMIS). The NH MMIS Project is a major information systems initiative underway with the Department and the Office of Information Technology (OIT), to replace the existing 13 year old legacy MMIS with a new system that meets or exceeds the requirements of the NH MMIS Request For Proposals (RFP).

This Amendment extends the duration of the current Quality Assurance (QA) contract, and adjusts the deliverables and schedule to align with the extended MMIS implementation date of January 1, 2009. This Amendment will enable the Department to retain the expertise of those FOX Systems' staff who have developed to date an in-depth understanding of the overall NH MMIS design, development, and implementation (DDI) effort. Along with State project team staff, FOX QA staff will continue to monitor, verify, and validate implementation contractor deliverables and execute tests, to help ensure that the new MMIS meets the RFP requirements, and processes claims payment with integrity.

The implementation of the new MMIS is a complex and challenging endeavor that involves extensive data migration, expansion of internal and external data interfaces, a new web-based systems architecture, rules-based processing, and enhanced business operations to support real-time claims adjudication and claims payment capabilities. Given the expansiveness of the NH MMIS project's scope and the complex nature of the MMIS implementation, with its myriad of claims processing and payment functions, it is critical that the efforts of dedicated State staff from the Department and OIT are reinforced with the services of the Quality Assurance contractor.

FOX, the Quality Assurance contractor, has partnered with the State to monitor that the functional requirements stipulated by the State, and approved by the Federal Centers for Medicare and Medicaid Services (CMS), are addressed adequately by the implementation contractor. FOX assists the State during the system design and development effort, to ensure that all aspects of the functional, technical, and operational components of the MMIS are verified and validated, and to monitor the project's progress according to plan.

The Governor and Executive Council approved the original Quality Assurance contract with FOX Systems, Inc. on December 1, 2004 (Late Item #E), one year prior to finalizing the MMIS DDI contract. Prior to the start up of the implementation contract, FOX provided "Pre-DDI" services to the State. Pre-DDI services resulted in activities and deliverables that helped the State's MMIS project team and Medicaid program area staff organize historical information and prepare for the onset of the system development phase.

With the execution of the MMIS implementation contract with ACS State Healthcare, LLC (ACS) in December 2005, the DDI phase of the Quality Assurance project effort began. Under Amendment 1 to the QA contract, Quality Assurance services outlined in the original contract for the DDI phase were restructured to meet project objectives in coordination with the system Design, Development, and Implementation activities of the implementation contractor.

His Excellency, Governor John H. Lynch
and the Honorable Executive Council
November 6, 2007
Page 3

This Amendment 2 realigns and extends the Quality Assurance project timelines, deliverable schedule, and subsequent payment schedule with the extended project timelines and deliverable schedule of the MMIS implementation project.

Dates, deliverables, and payment schedules incorporated in the original QA contract were based on projected estimates for the implementation contractor's schedule of activity. Final execution and approval of the implementation contract with ACS was achieved a year after the QA contract was finalized. To accommodate the later than anticipated start-up of the system development phase of the contract, a no-cost amendment (Amendment 1) to the QA contract was requested and approved by Governor and Executive Council on December 12, 2006 (Item # 119A). Amendment 1 extended the duration of the QA contract to December 31, 2007. Section 5 of Amendment 1 also included a provision to allow the State at its sole discretion to further extend the contract to June 30, 2009. Due to administrative oversight, a reference to this added provision was omitted inadvertently from the Amendment 1 Governor and Council letter. A copy of Section 5 of Amendment 1 is attached.

This requested Amendment 2 extends the QA contract period through December 31, 2008, thereby aligning this contract with the revised system implementation timeline, and continuing QA contractor services through to the projected system implementation date. Additionally, under Amendment 2, the number of QA deliverables is increased, the schedule for QA deliverable reviews is aligned with the development effort, and the distribution of payment is adjusted to cover the costs for the additional deliverables and the schedule of delivery. This Amendment allows for the costs associated with certain QA deliverables to be divided and distributed across completed components of those deliverables. Project deliverable holdback amounts will continue to be withheld based on the total deliverable cost as was originally agreed upon with the contractor.

This contract amendment is a fixed priced, sole source amendment. Services included in this Amendment were not competitively rebid since they are a continuation of the services intended under the original contract and because FOX, given its involvement in this major systems initiative from its onset through the detailed system design to-date, has developed an integral understanding of the NH MMIS solution and is the most practical alternative for ensuring uninterrupted, informed support through to the MMIS implementation.

The key drivers behind this sole source request to amend and extend the FOX Systems, Inc. contract for Quality Assurance Services for the MMIS Reprocurement Project, in addition to the services to be acquired, are:

- This amendment allows the State to retain the services of the contractor that, since 12/01/2004 has developed a strong knowledge base of NH Medicaid Business rules, as well as a detailed understanding of the State's MMIS requirements as documented in the NH MMIS RFP, and has been engaged effectively with State staff in the requirements validation and general system design phases of the NH MMIS Project over the past year.
- This extension builds on the effort of the contractor to date, and is the most efficient and cost-effective approach. The information that FOX has gained

over the course of the past two years can be applied directly, without disruption of service, to future development phases, without the lost time and effort that would be necessary to assist a new vendor with overcoming a significant learning curve.

- Each of the lifecycle phases of MMIS design, development, and implementation effort builds on the last, placing significant value on resources who have had prior exposure and understanding of the new MMIS requirements to date, thereby enhancing efforts to maintain project progress and sustain productive momentum.
- The original quality assurance contract was approved prior to the approval of the contract for the MMIS implementation contractor. Quality assurance deliverables, deliverable due dates, and project timelines were estimated based on the projected MMIS implementation timeline. This amendment correctly aligns the DDI services of the Quality Assurance vendor with the iterative development methodology of the implementation contractor's approach, as well as with the deliverables and project timeline of the MMIS implementation effort.
- The Federal Centers for Medicare and Medicaid Services (CMS) has approved Amendment 4 to the State's MMIS Reprocurement Project's Implementation Advanced Planning Document (IAPD), thereby approving 90% Federal Financial Participation (FFP) for the continuation of FOX System's Quality Assurance contractor services to support the extended MMIS implementation timeline.

BACKGROUND

The role of the Quality Assurance (QA) Contractor was described in the State's Implementation Advanced Planning Document for the NH MMIS Project, which was approved by the federal Centers for Medicare and Medicaid Services (CMS) in May 2004. A Request for Proposal (RFP) was issued in June 2004 and FOX Systems, Inc. was selected as the MMIS QA contractor through a competitive bid process. Email notification of the intent to publish a new RFP was sent to a comprehensive vendor list on May 13, 2004. Notification of the RFP publication was issued using standard Office of Technology (OIT) procedures. The RFP was issued on May 14, 2004 and published on the Department of Administrative Services (DAS) website. Links to this website were also posted on the Department of Health and Human Services (DHHS) website and the OIT website. A mandatory bidder's conference was held on May 21, 2004. Formal responses by the Department and OIT to vendor questions were issued on June 2, 2004.

The Department received and evaluated three (3) proposals in response to the RFP. (Please see attached bidders list). These proposals were evaluated based on the vendor's approach, qualifications, price, and technical/service/project management, to determine the best solution at the best value to the State. The evaluations also included vendor on-site team presentations by each of the three vendors. FOX Systems, Inc. was selected as the winning

His Excellency, Governor John H. Lynch
and the Honorable Executive Council
November 6, 2007
Page 5

proposal following the evaluation process. FOX received the highest total score overall and that the FOX proposal best met the objectives set forth in the RFP. The Governor and Executive Council approved the original contract with FOX Systems on December 1, 2004.

Under the contract, FOX agreed to provide a variety of quality assurance services, including services to review and analyze NH Medicaid business rules in preparation for the onset of the development effort for the new NH MMIS. Between December 2004 and December 2005, prior to the start-up of the MMIS Design, Development and Implementation effort, FOX Systems staff worked with Department and OIT staff to complete the Business Rules analysis and other pre-development MMIS-related preparatory activities.

The State awarded a contract to ACS State Healthcare on December 7, 2005, to design, develop, and implement the new NH MMIS, and also to provide on-going maintenance and fiscal agent operations services. The MMIS Project kick-off meeting was held in December 2005, with Joint Application Design Requirement Validation Sessions commencing in January 2006. Since that January, FOX Systems staff has participated along with State staff in all requirement validation and general system and detailed system design sessions, and have been engaged in the review and comment of all implementation contractor deliverables.

Continuity of the FOX Quality Assurance effort throughout the duration of this project is essential to helping the State ensure that its objectives for the implementation of the new MMIS are met at each phase of the project's activity. As the overall duration of the project has increased, FOX has remained committed to its success and has worked with the State to ensure the retention of the same key resources throughout the project lifecycle.

Prior to the start-up of the MMIS implementation effort, State staff invested a significant amount of effort into providing the FOX team with a strong knowledge base of the NH Medicaid Program and MMIS-RFP requirements. Over the course of their daily participation on the MMIS implementation project, the FOX team has developed a more in-depth understanding of the functionality supported by the new NH MMIS, and will apply that understanding to future system testing and validation to ensure that the new MMIS functions and performs as expected.

The expansiveness and complexity of the NH MMIS implementation presents a significant number of challenges and risks that need to be managed and mitigated. Continuation of the Quality Assurance contractor services is essential to the State in ensuring that the MMIS meets the State's objectives.

#119A

November 30, 2006

His Excellency, Governor John H. Lynch
and the Honorable Executive Council
State House
Concord, N.H. 03301

REQUESTED ACTION

Authorize the Department of Health and Human Services (DHHS), Office of Medicaid Business and Policy (OMBP), to amend (Amendment 1) an existing Agreement (971134) with FOX Systems, Inc. ("FOX"), Scottsdale, AZ 85250, (Vendor #122726), to provide quality assurance services for the State's Medicaid Management Information System (MMIS) and the Medicaid Program. The Governor and Executive Council approved the original contract on December 1, 2004 (Late Item #E). This Amendment 1 extends the contract termination date from December 31, 2006 to December 31, 2007, effective January 1, 2007 or date of Governor and Council approval, whichever is later, with no increase to the total original purchase value of \$2,997,995.

The existing contract with FOX is due to expire on December 31, 2006. This Amendment 1 extends the term of the MMIS Quality Assurance service contract with FOX for a 12-month period from December 31, 2006 through December 31, 2007 and provides for a redistribution of contract deliverables and expenditures across fiscal years to align with changes in the MMIS implementation project schedule. This Amendment does not change the total value of the contract.

Funds to support this agreement are available in the following accounts according to State Fiscal Year, with authority to adjust amounts, if needed and justified, between fiscal years:

SFY	Appropriation	Description	Original Contract	Change to Contract	Amended Contract
2005	010-095-5691-031-0285	Computer Equipment	\$986,127	(\$559,307)	\$426,820
2006	010-095-6126-097-0285	Medicaid Contracts	\$817,437	\$1,296	\$818,733
2007	010-095-6126-097-0285	Medicaid Contracts	\$1,174,431	(\$252,655)	\$921,776
2008	010-095-6126-097-0285	Medicaid Contracts	-	\$810,666	\$810,666
	Total Contract		\$2,977,995	0	\$2,977,995

EXPLANATION

The purpose of the above requested action is to enable the continuation of Quality Assurance services of FOX Systems, Inc. in support of the major information systems initiative underway within the Department, in conjunction with the Office of Information Technology (OIT), to replace the existing Medicaid Management Information System and to implement a new MMIS. The amendment will extend the duration of the original contract and adjust the deliverables schedule to accommodate the later than anticipated start of the system development phase of the overall MMIS project. The extension will enable the Department to retain the expertise of those FOX Systems' staff who have developed to date an in-depth understanding of the NH MMIS design, development, and implementation effort, and who will continue to monitor, verify, and validate deliverables and execute tests, to help ensure that the new replacement MMIS meets the requirements of the NH Medicaid program and processes payment with integrity.

Given the expansiveness of the NH MMIS project's scope and the complex nature of the MMIS implementation with its myriad of claims processing and payment functions, it is critical that the efforts of dedicated staff from the Department and OIT are reinforced with the services designated to be provided by the Quality Assurance contractor under the original agreement. The deliverables provided by FOX support the need to manage costs associated with the implementation, stay on schedule with the aggressive project timeline, and help ensure that the integrity of the system and that project objectives are met.

The Quality Assurance services outlined in the original contract were structured to meet project objectives during two major phases of the MMIS implementation, in coordination with system Design, Development, and Implementation (DDI) project activities of the implementation vendor. The QA services include:

- Pre-DDI Services – Services provided in advance of the start of system development to assist with Project Management and Organization and to enhance the Department's readiness for providing business rules criteria to support development of the systems rules logic. At this juncture, all services in support of the Pre-DDI project phase have been satisfactorily delivered as defined in the original contract.
- DDI Quality Assurance Services – Services provided throughout the systems development process through to implementation to monitor, verify, and validate the deliverables produced by the implementation contractor, to conduct all aspects of system testing, and to verify and validate operational readiness. Deliverables required to support DDI project phase are in progress with ongoing activity extending into the first half of SFY08, aligning with the overall MMIS project schedule.

This amendment aligns the Quality Assurance project timelines, deliverable schedule, and subsequent payment schedule with the project timelines and deliverable schedule of the

His Excellency, Governor John H. Lynch
And the Honorable Executive Council
November 30, 2006
Page 3

MMIS implementation project. The original Quality Assurance contract with FOX Systems, Inc. was approved and became effective on December 1, 2004, one year prior to finalizing the MMIS implementation contract. Dates, deliverables, and payment schedules incorporated in the original QA contract were based on estimates and projections for the implementation contractor schedule. The number of actual deliverables within this amendment has increased, given the iterative development methodology employed by the implementation contractor, the schedule for deliverable reviews has been modified to flow with the development effort, and the distribution of payment has been adjusted to cover the costs for the additional deliverables and the schedule of delivery.

The contract period is extended for one-year. The list of deliverables covered under the scope of services was expanded to reflect the actual delivery schedule of the implementation contractor deliverables. Although the total cost of the contract remains the same, dollars not expended to date due to the later start-up of the MMIS development effort have been redistributed to cover the actual deliverables for the period of this amendment. The payment schedule was adjusted to accommodate the overall deliverable schedule.

The implementation of the new MMIS is a complex and challenging endeavor that requires a detailed translation of business rules logic, extensive data migration, expansion of interfaces, new systems architecture, and expanded business operations support and claims adjudication and payment capabilities. FOX, the Quality Assurance contractor, has partnered with the State to monitor that the functional requirements stipulated by the State, and approved by the Federal Government, are addressed adequately by the implementation vendor during the system design and development, that all aspects of the functional, technical, and operational components of the MMIS are verified and validated, and to monitor the project's progress according to plan.

The key drivers behind this request to amend and extend the FOX Systems, Inc. contract for Quality Assurance Services for the MMIS Reprourement Project, in addition to the services to be acquired, are:

- This amendment allows the State to retain the services of the contractor that, since 12/01/2004 has developed a strong knowledge base of NH Medicaid Business rules, as well as a detailed understanding of the State's MMIS requirements as documented in the NH MMIS RFP, and has been engaged effectively with State staff in the requirements validation and general system design phases of the NH MMIS Project over the past year.
- This extension builds on the effort of the contractor to date, and is the most efficient and cost-effective approach since the information that has been gained over the course of the past two years can be applied directly, without disruption of service, to future development phases, without the lost time and effort that would be necessary to assist a new vendor with overcoming a significant learning curve.
- Each of the lifecycle phases of MMIS design, development, and implementation effort builds on the last, placing significant value on

His Excellency, Governor John H. Lynch
And the Honorable Executive Council
November 30, 2006

Page 4

resources who have had prior exposure and understanding of the new MMIS requirements to date, thereby enhancing efforts to maintain project progress and sustain productive momentum.

- The original quality assurance contract was approved prior to the approval of the contract for the MMIS implementation contractor. Quality assurance deliverables, deliverable due dates, and project timelines were estimated based on the projected MMIS implementation timeline. This amendment correctly aligns the DDI services of the Quality Assurance vendor with the iterative development methodology of the implementation contractor's approach, as well as with the deliverables and project timeline of the implementation effort.
- The Federal Centers for Medicare and Medicaid Services (CMS) Regional Office has approved the State's MMIS Reprocurement Project's Implementation Advanced Planning Document (IAPD), which includes the procurement of Quality Assurance contractor services to support the MMIS implementation initiative.
- CMS approval will result in 90% Federal Financial Participation (FFP) and the remaining 10% using State General Funds to cover the costs of the Quality Assurance contractor.

Services included in this Amendment were not competitively re-bid since they are a continuation of the original contract deliverables and FOX is in the best position to continue uninterrupted support of the QA services for the MMIS project through implementation. The contract amendment is fixed price at the original purchase value and is not subject to re-approval from the federal Centers for Medicare and Medicaid Services.

BACKGROUND

The role of the Quality Assurance Contractor was described in the State's Implementation Advanced Planning Document for the NH MMIS Project, which was approved by the federal Centers for Medicare and Medicaid Services in May 2004. FOX Systems, Inc. was selected as the MMIS QA contractor through a competitive bid process. The Governor and Executive Council approved the original contract with FOX Systems on December 1, 2004.

Under the contract, FOX agreed to provide a variety of quality assurance services, including services to review and analyze NH Medicaid business rules in preparation for the onset of the development effort for the new NH MMIS. Between December 2004 and December 2005, FOX Systems staff worked with Department and OIT staff to complete Business Rules analysis and other pre-development analytical activities prior to the start-up of the MMIS Design, Development and Implementation effort.

Following a competitive bid, on December 7, 2005 the State awarded a contract to ACS State Healthcare to design, develop, and implement the new NH MMIS, and to provide on-going maintenance and fiscal agent operations services. The MMIS Project kick-off meeting was held in December 2005, with Joint Application Design Requirement Validation Sessions

His Excellency, Governor John H. Lynch

And the Honorable Executive Council

November 30, 2006

Page 5

commencing in January 2006. Since January, FOX Systems staff has participated along with State staff in all requirement validation and general systems design sessions, and have been engaged in the review and comment of all implementation contractor deliverables.

Given the complex and comprehensive nature of the MMIS implementation, the aggressive project implementation timeline, and the considerable cost investment of over \$26 million in the overall implementation effort, this extension of Quality Assurance contractor services to assist the State in ensuring that the MMIS meets the State's objectives is essential.

interfaces, new systems architecture, and expanded business operations support and claims adjudication and payment capabilities. The Quality Assurance Contractor will partner with the State to monitor that the functional requirements stipulated by the State, and approved by the Federal Government, are addressed adequately by the implementation contractor during the system design and development, that all aspects of the functional, technical, and operational components of the MMIS are verified and validated, and to monitor the project's progress according to plan.

The key drivers behind this request to contract for Quality Assurance Services for the MMIS Reprourement Project, in addition to the services to be acquired, are:

- The Federal Centers for Medicare and Medicaid Services (CMS) Regional Office has approved the State's MMIS Reprourement Project's Implementation Advanced Planning Document (IAPD), which includes the procurement of Quality Assurance contractor services to support the MMIS implementation initiative;
- CMS approval will result in 90% Federal Financial Participation (FFP) and the remaining 10% using State General Funds to cover the costs of the Quality Assurance contractor;
- The MMIS will process over 6 million Medicaid and other related claims totaling \$770 million a year and will issue payment to over 7,000 active providers for services provided on behalf of approximately 94,000 eligible recipients statewide; and the Quality Assurance services will help to ensure the integrity of claims and payment processing; and
- The pre-development business rules analysis to be conducted by the Quality Assurance vendor will enhance the Department's ability to confirm and document the business processing requirements for provider reimbursement methodologies in advance of requirements validation, thereby helping to keep the project moving forward from the onset.

FOX Systems, Inc. was selected for the MMIS QA contract through a competitive bid process. E-mail notification of the intent to publish a new RFP was sent to a comprehensive vendor list on May 13, 2004. Notification of the RFP publication was issued using standard Office of Information Technology (OIT) procedures. The Request for Proposals (RFP) was issued on May 14, 2004 and published on the Department of Administrative Services (DAS) website. Links to this website were also posted on the Department of Health and Human Services (DHHS) website and the OIT website. A mandatory bidder's conference was held on May 21, 2004. Formal responses by the Department and OIT to vendor questions were issued on June 2, 2004.

The Department received and evaluated three (3) proposals in response to the RFP - (Please see attached bidders list). These proposals were evaluated based on the vendor's approach, qualifications, price, and technical/service/project management, to determine the best solution at the best value to the State. The evaluations also included vendor on-site team presentations by each of the three vendors. FOX Systems, Inc. was selected as the winning

BACKGROUND

New Hampshire's current MMIS is a component-based system. It is comprised of three (3) distinct systems, each operated by a different vendor. The MMIS processes Medicaid payments for covered services provided to New Hampshire Medicaid-eligible persons in both its fee for service and pharmacy benefit management programs. The MMIS processed approximately 6.5 million claims, in excess of \$770 million in State Fiscal Year 2003 (SFY03). In addition, the MMIS performs various review, audit, and reporting functions to assess and evaluate the provision of Medicaid services and associated payment. The current MMIS meets all certification requirements as set forth by the Centers for Medicare and Medicaid Services (CMS) in the State Medicaid Manual Part 11 - Medicaid Management Information System.

The New Hampshire AIM (NH AIM) Fee for Service (FFS) system is the core component of the MMIS. It is the primary tool used by the Department of Health and Human Services (DHHS) to manage its Medicaid program and is operated by the State's fiscal agent, Electronic Data Systems (EDS). EDS implemented the NH AIM system in April 1994. The State owns the NH AIM hardware and software.

The FFS component is the traditional MMIS that processes all Medicaid claims, except for pharmacy, and issues payment to providers. Approximately 2.6 million claims for \$662 million were processed to payment through NH AIM in State Fiscal Year 2003. Recipient eligibility information is passed nightly to NH AIM from the eligibility determination system, New HEIGHTS.

A second component of the New Hampshire MMIS is the Pharmacy Benefits Management System (PBM). The State has contracted with First Health Services Corporation (FHSC) as its Pharmacy Benefits Manager for system and operations support. The PBM component was implemented in November 2001 and processes pharmacy point of sale (POS) claims and issues payments, via checks, to pharmacy providers. Functions supported through the PBM system include pharmacy claims processing and payment, preferred drug list, pharmacy audits, as well as drug rebate, drug utilization, and other clinical pharmacy initiatives. It also supports the supplemental and the Omnibus Budget Reconciliation Act (OBRA) drug rebate and drug utilization programs, auditing, and various other clinical initiatives. Approximately 4 million claims for \$112 million were processed to payment through the PBM system in State Fiscal Year 2003 (SFY03).

The third component, the Medicaid Decision Support System (MDSS), developed using The Medstat Group Inc.'s proprietary reporting tools, Advantage Suite, supports the State's Management and Administrative Reporting System (MARS), Surveillance and Utilization Review System (SURS) and federal reporting requirements of MMIS. It also provides statistical and Medicaid trend analysis and reporting support and additional federal reporting functionality. MDSS receives a weekly data file from the NH AIM source system, including the data received from PBM.

His Excellency, Governor Craig R. Benson
And the Honorable Executive Council
November 1, 2004

- Deliverables are produced at the cost outlined.

Additionally, the Department will review specific performance measures during the three (3) major phases of the project:

1. Pre-DDI Services:

- Completed a Critical Report Analysis that was useful to the MMIS Project;
- Defined and confirmed the business processing rules in a way that it was useful to the new MMIS; and
- Proposed a logical conversion strategy that was effective during the implementation phase of the project.

2. DDI Quality Assurance Services:

- Understood the State's requirement for the MMIS and ensured the new MMIS addressed the functional, technical, and operational requirements;
- Assisted the State in Joint Application Design Sessions (JAD) and deliverables review;
- Provided sufficient project monitoring;
- Identified risk and proposed risk mitigation strategies;
- Planned, prepared, and conducted requisite auditing and testing of the systems functionality and operations environment; and
- Provided Independent Validation and Verification (IV&V) for the project.

3. Post-DDI Services:

- Verifying that the requisite documentation is compiled and preparing the State for the CMS on-site MMIS certification review process; and
- Helped prepare the State prepare for the CMS on-site visit.

Source of Funds: 90% Federal Funds, 10% State General Funds

Geographic area to be served: Statewide

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.
