

The State of New Hampshire  
**DEPARTMENT OF ENVIRONMENTAL SERVICES**

**Thomas S. Burack, Commissioner**

February 26, 2016

Her Excellency, Governor Margaret Wood Hassan  
and the Honorable Council  
State House  
Concord, New Hampshire 03301

**REQUESTED ACTION**

Authorize the New Hampshire Department of Environmental Services (DES) to award an Aquatic Resource Mitigation (ARM) Fund grant to the Upper Valley Land Trust, Inc. (hereinafter "UVLT"), Hanover, NH (Vendor Code #155927) in the amount of \$362,385.00 to contribute to the acquisition of 995 acres of land known as the Smith Pond/Shaker Forest in Enfield, NH, effective upon G&C approval through July 1, 2017. 100% Aquatic Resource Mitigation Funds.

Funding is available in the account as follows:

	FY'16
03-44-44-442010-38710000-073-500581	\$362,385.00
Dept. Environmental Services, In-Lieu Wetland Mitigation, Grants – Non - Federal	

**EXPLANATION**

New Hampshire RSA 482-A:3 requires a wetland permit for any proposed project that involves dredging or filling of a wetland. Before a wetland permit is issued, applicants must show that the proposed project will avoid adverse impacts to wetlands and will minimize and provide compensation for those wetland impacts which are unavoidable.

The DES wetlands program adopted a set of mitigation rules that establish what is necessary for an applicant to provide for wetland compensation. The current department rules spell out ratios for wetland compensation that include creating a new wetland, restoring a former wetland site, or protecting a high-quality aquatic resource by preserving adjacent upland habitat. The mitigation option, referred to as the *in-lieu fee program*, is ideal for projects that have difficulty in locating an appropriate mitigation site. The Aquatic Resource Mitigation Fund (ARM) authorizes the collection of mitigation funds in lieu of other forms of wetland mitigation as part of a Wetlands Permit Application.

The Department issued the request for proposals for ARM Funds available in the Lower Connecticut River watershed in April, 2015. Two applications were received and on October 29, 2015, DES announced the decision to fund the UVLT project in the Lower Connecticut River Watershed. The project proposed by UVLT was recommended for funding by the ARM Fund Site Selection Committee. Attachment A lists the proposals received and Committee members involved in the decision. The review of the awards by the U.S. Army Corps of Engineers and the New Hampshire Wetland Council resulted in full support of the recommendations.

Her Excellency, Governor Margaret Wood Hassan  
And the Honorable Council  
Page 2 of 2

The Upper Valley Land Trust will use the funds for the purchase of the Smith Pond/Shaker Forest property in Enfield. The property contains 114.5 acres of wetlands, 16,900 feet of perennial stream and 13,100 feet of intermittent streams representing almost 6 miles of stream habitat. The remote 68 acre Smith Pond is the stunning wetland centerpiece of the property, and it is surrounded by other high quality wetlands and mature forest. Intact forested buffers will cover at least 370 acres of the property and should provide the highest quality context for all of the wetlands and streams, particularly as natural levels of coarse woody debris are added to the various ecosystems. Restoration opportunities exist in areas impacted by previous logging operations. Attachment B includes a map of the property.

In the event that other funds no longer become available, general funds will not be requested to support this program. This agreement has been approved as to form, content, and execution by the Attorney General's Office.

We respectfully request your approval.

  
Thomas S. Burack, Commissioner

**EXHIBIT A**  
**SCOPE OF SERVICES**

1. The State of New Hampshire, its successors and assigns, represented by the Department of Environmental Services (DES), agree to grant the Upper Valley Land Trust, Inc. the amount of \$362,385 for the purpose of acquiring land owned by the Paul and Melody Cavicchi Revocable Trust, a 995 acre parcel of land located on Smith Pond Road and 995 Route 4A in the Town of Enfield, County of Grafton, State of New Hampshire, identified on the Town of Enfield tax records as Map 7 Lots 5, 5A, and 5B and Map 3 Lot 10 (hereinafter: the "Property"). This agreement shall be performed in accordance with New Hampshire RSA 482-A; all applicable sections of the Administrative Rules, ENV-Wt 100-800, and all other pertinent New Hampshire laws.
2. The Upper Valley Land Trust shall use their grant funds to help the organization purchase the Fee Interest in the Property.
3. As Grantee of the Fee Interest in the Property, the Upper Valley Land Trust accepts the following conditions or restrictions:
  - a. Prior to disbursement of funds by the State of New Hampshire under this grant, Upper Valley Land Trust, Inc. shall take fee title to the Property by Warranty Deed from Paul J. Cavicchi and Melody M. Cavicchi as Co-Trustees of The Paul & Melody Cavicchi Revocable Trust.
  - b. To utilize the funds herein provided by the State of New Hampshire, acting through DES, for the first installment payment to purchase the Property, time being of the essence.
  - c. To protect the conservation interests of the State of New Hampshire, derived through grants from ARM and the Land & Community Investment Program (LCHIP) to support the Property's acquisition, by conveying the appropriate legal interest to the State of New Hampshire, acting through LCHIP, at the time that Upper Valley Land Trust receives the grant funds from LCHIP that will provide additional support for the acquisition of the Property.
  - d. While the ARM funds of the State of New Hampshire are not being allocated to the wetland restoration work on the Property, the Upper Valley Land Trust committed to that work as part of its grant application and agrees to use its best efforts to complete that work within 12 months of the notification of the award, but in no case later than July 1, 2017, provided the contracted cost is similar to the cost estimate received when the grant was prepared.
  - e. To limit the use of the Property as hereinafter defined to conservation purposes in perpetuity.
  - f. That the Property will be stewarded and monitored on an annual basis in accordance with the Land Trust Alliance's Standards and Practices for stewardship. The Upper Valley Land Trust agrees to submit a report of those activities annually to DES to document the actions taken.
  - g. The Upper Valley Land Trust agrees to place a sign, subject to its approval, to be provided by DES, at a prominent location on or near the Property. At a minimum, the sign shall contain the DES logo and the following statement: "This Smith Pond Shaker Forest Property has been protected with assistance from the New Hampshire Aquatic Resource Mitigation Fund." Should the DES sign be damaged or destroyed, the Upper Valley Land Trust agrees to work with the Department to repair or replace it with identical signage and to share any costs associated with that repair or replacement to the extent reasonably practicable. The Upper Valley Land Trust also agrees that where significant signage is placed at major access points, the ARM Fund program will be identified as a contributing partner to the acquisition and long-term protection of the Property.
  - h. To return to DES ARM Fund Program any funds herein provided to the extent of any loss due to any title that proves to be less than clear and marketable for all properties protected under this contract.
  - i. To return to DES ARM Fund Program any funds if the Upper Valley Land Trust fails to complete the Property acquisition.

j. That all public access provided for will be in accordance with all federal and state policies of non-discrimination in public accommodation.

4. The State of New Hampshire, acting through DES, acknowledges that Upper Valley Land Trust did not receive fully funded grant requests through the ARM Fund Program, that the Property provides massive leverage of wetland values beyond the losses represented by the ARM Fund grant, and that Upper Valley Land Trust has taken on significant risk to purchase the Property for conservation purposes without full funding in hand. Therefore, the State of New Hampshire, acting through DES, agrees that the Upper Valley Land Trust may receive additional direct dedicated mitigation funds from projects within the Lower Connecticut River watershed, under the DES Wetland Mitigation Program, to help cover more of the Property's acquisition costs. There will be no additional grant funding provided by the ARM Fund itself.
