

THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

VICTORIA F. SHEEHAN
COMMISSIONER

WILLIAM CASS, P.E.
ASSISTANT COMMISSIONER

Bureau of Construction
October 20, 2015

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with Winterset, Inc. (Vendor 160408) of Belmont, NH on the basis of a low bid of \$1,173,473.50 for bridge rehabilitation on the bridge carrying US 2 over Israel River in the Town of Jefferson, from the date of Governor and Council approval through November 18, 2016 unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funds to support this request are anticipated to be available in the following accounts in State FY 2016 and FY 2017 upon the availability and continued appropriation of funds in the future operating budget:

Table with 3 columns: Funding is available as follows, FY 2016, FY 2017. Row 1: 04-96-96-963515-3054 Consolidated Federal Aid. Row 2: 400-500870 Highway Contract Payments \$750,000.00 \$423,473.50

2. Further authorize that a contingency in the amount of \$117,347.35 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 10% of the contract amount.

Table with 3 columns: Funding is available as follows, FY 2016, FY 2017. Row 1: 04-96-96-963515-3054 Consolidated Federal Aid. Row 2: 400-500870 Highway Contract Payments \$75,000.00 \$42,347.35

EXPLANATION

This project is part of the State's 10-Year Transportation Improvement Plan. This bridge was built in 1974. The proposed bridge deck replacement and related reconstruction will extend the life of the structure. The scope of the work includes replacement of the concrete bridge deck, new pavement and membrane, replacement of the bridge joints, and reconstruction of portions of the abutments.

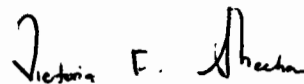

The contingency amount is proposed to be 10% of the contract amount. The nature of bridge work and the inability to see areas of the bridge that will become exposed when the deck is removed will increase the risks of cost overruns. The abutment work has potential for increases when the extent of the undermined areas are fully investigated. Phased construction also increases the risk of overruns for traffic control operations.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and that the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is 80% federal funds with 20% state match. Turnpike toll credit is being utilized for match requirements, effectively using 100% federal funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Victoria F. Sheehan
Commissioner

VFS/md

Department Estimate: \$1,314,709.12
Contract Amount: \$1,173,473.50
Under Estimate: \$ 141,235.62

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project consists of bridge rehabilitation work on the bridge carrying US 2 over Israel River in the Town of Jefferson (Br. No. 046/178). The work begins approximately 1000 feet south of the bridge, and continues 2000 feet across the bridge to the north. The scope of work includes replacement of the concrete bridge deck, new pavement and membrane, replacement of the bridge joints, and reconstruction of portions of the abutments.

FEDERAL FUNDING: 80% Federal Funding utilizing Turnpike Toll Credits as the State's 20% match.

CONTINGENCY: The contingency amount is proposed to be 10% of the contract. The nature of bridge work and the inability to see areas of the bridge that will become exposed when the deck is removed will increase the risks of cost overruns. The abutment work has potential for increases when the extent of the undermined areas is fully investigated. Phased construction also increases the risk of overruns for traffic control operations.

PROJECT INITIATED: State's 10-Year Transportation Improvement Plan

PROJECT EXPLANATION: This bridge was built in 1974. The proposed bridge deck replacement and related reconstruction will extend the life of the structure.

TRAFFIC IMPLICATIONS: Traffic will be regulated by temporary traffic signals to allow for one-lane, alternating two-way traffic on minimum 13' lanes with 2' shoulders.

COMPLETION DATE: November 18, 2016

**State of New Hampshire
Department of Transportation**

16153.01

Project: JEFFERSON X-A001(157) 16153
