		<u>FY 2013</u>
100-500726	Pharmacy Drug Expense	\$ 3,898.00

Explanation

This invoice is retroactive due to an Administrative oversight. The Business Office at the Home did not realize that this was a separate invoice from prior billings. The Home was in the process of changing the Pharmacy Consultants, when the now current vendor did not have their pharmacy software completely integrated with the resident's pharmaceutical needs. The Home needed to be able to provide the pharmaceutical to the residents in a safe and effective manner. The Home used this software during the time that the current vendor was vetting their software as a precaution to make sure that the residents at the Home were never in jeopardy of not receiving the correct medication and that the medications were checked for drug inter-action. PharmaSource Healthcare Inc. had been the vendor at the Home for many years and provided the access to the software to protect the health and safety of our residents. The Home now requests Governor and Council approval to pay this invoice.

Your favorable action on this request would be appreciated

Respectfully Submitted,
