EXPLANATION

College for America at Southern New Hampshire University has partnered with the State of New Hampshire to provide state employees with low-cost, competency based associate and bachelor degree programs. The program offered by College for America, entitled Bachelor in Arts in Management with a Concentration in Public Administration, enhances student job skills through mastery of competencies with career-specific goals. The student is expected to complete 120 advanced competencies – twenty (20) goals. Each goal is matched to a specific course offered by Southern NH University, creating a very comprehensive program. The competency-based goals allow working adults to complete college degrees through practical, skill based school work.

The student will demonstrate mastery in competency areas through the course criteria set within each goal. These goals will provide the employee with real life experience through situations geared toward their current business practices and job expectations.

As part of this agency's workforce planning strategy, the State Treasury is committed to expanding the knowledge base of its employees in order to strengthen the financial expertise of Treasury staff and increase opportunities for advancement within the agency and in state government. Ms. Desmond is currently a Business Administrator II and has worked for Treasury for seven years and the state for nineteen years. This employee has worked through College for America and obtained her Associates and a portion of the Bachelor's Degree Program to date, on her own. The College for America course will improve Linda's continued growth and performance in her current position as a Business Administrator II at the State Treasury. The employee will be completing projects on her own personal time.

Respectfully requested,

William F. Dwyer,
State Treasurer
