EXPLANATION

The Department of Environmental Services issued a request for proposals for 2012/2013 Asset Management and Financial Planning Grants. These grants are funded by set-asides under the Drinking Water State Revolving Loan Fund. They can be used to develop and implement asset management plans for public water systems. Twenty proposals were received, then evaluated and ranked based on criteria included in the request for proposals, such as whether the project completes a condition assessment on all assets, that a financial plan is developed and addresses investment priorities, and that the plan is communicated to customers and decision-makers. Based on the available federal funding, the Department determined that it could offer grants to twelve of the twenty applicants. See attachment A for the project rankings and list of reviewers.

The North Conway Water Precinct will use the grant funds to develop and prepare an asset inventory, condition assessment and financial and communications plans.

In the event that federal funds no longer become available, general funds will not be requested to support this program. This agreement has been approved by the Attorney General's Office as to form, substance and execution.

We respectfully request your approval.

Thomas S. Burack, Commissioner

Subject: North Conway Water Precinct

11.2.3 set off against any other obligation the State may owe to the Grantee any damages the State suffers by reason of any Event of Default; and

11.2.4 treat the Agreement as breached and pursue any of its remedies at law or in equity, or both.
