

THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

Victoria F. Sheehan
Commissioner

William Cass, P.E.
Assistant Commissioner

Bureau of Highway Design
August 6, 2021

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

The Department of Transportation requests placing this item on the Consent Calendar.

Authorize the Department of Transportation to amend Contract #4009780 with Stantec Consulting Services Inc., Vendor #174802, for environmental and preliminary design services for improvements to US Route 1 (Lafayette Road) from Ocean Road to Wilson Road in the City of Portsmouth, by extending the completion date from September 30, 2021 to March 31, 2023, effective upon Governor and Council approval. The original Agreement was approved by Governor and Council on February 6, 2019, Item #16. Time extension only, no new funding.

EXPLANATION

On February 6, 2019, the Governor and Council authorized the subject engineering and environmental services Agreement (Item #16; copy of Resolution attached) in the amount of \$870,949.02 for environmental and preliminary design services for improvements to US Route 1 (Lafayette Road) from Ocean Road to Wilson Road in the City of Portsmouth. The objective of this project is to develop an alternative that will improve the safety and mobility of all users with the essential goal of achieving an appropriate balance between the needs of motorized, non-motorized, and transit users of the corridor. This project is currently included in the State's Ten-Year Transportation Improvement Plan (Portsmouth 29640).

The purpose of this time extension amendment is to allow the consultant sufficient time to complete the public involvement process required to complete the preliminary design and environmental documentation. The public involvement process did not proceed as planned during the summer of 2020 and the winter of 2020-2021 due to the restrictions associated with in-person meetings. A formal public hearing for this project is expected during the fall/winter of 2022. The work is approximately 30% complete, and of the original \$870,949.02 amount for this contract; there is a balance of approximately \$591,000.00 remaining (100% Federal Funds).

This amended Agreement has been approved by the Attorney General as to form and execution. Copies of the fully-executed amended Agreement are on file at the Secretary of State's Office and the Department of Administrative Services, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

It is respectfully requested that authority be given to amend this Agreement for consulting services as outlined above.

Sincerely,

A handwritten signature in black ink, appearing to read "Victoria F. Sheehan". The signature is written in a cursive style with a large initial "V".

THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

Victoria F. Sheehan
Commissioner

G+C #16
Date 2-6-19

William Cass, P.E.
Assistant Commissioner
Bureau of Highway Design
December 13, 2018

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Transportation to enter into an Agreement with Stantec Consulting Services, Inc., Auburn, NH, Vendor #174802, for an amount not to exceed \$870,949.02, for preliminary design of improvements to US Route 1 in the City of Portsmouth, effective upon Governor and Council approval through September 30, 2021. 100% Federal Funds.

Funds to support this request are available in the following account in State FY 2019, and are contingent upon the availability and continued appropriation of funds in FY 2020, FY 2021, and FY 2022, with the ability to adjust encumbrances between State Fiscal Years through the Budget Office if needed and justified:

Table with 5 columns: Account Number, FY 2019, FY 2020, FY 2021, FY 2022. Row 1: 04-096-96-963515-3054 Consolidated Federal Aid. Row 2: 046-500464 Gen Consultants Non-Benefit. Values: \$137,500.00, \$330,000.00, \$330,000.00, \$73,449.02.

EXPLANATION

The Department requires on-call consulting engineering and environmental services for the preliminary design of improvements to two sections of US Route 1 (Lafayette Road) in the City of Portsmouth. The first extends approximately from Constitution Avenue to Wilson Road, and the second extends approximately between Ocean Road and White Cedar Drive. The combined length of the improvements is approximately 1.7 miles. The objective of the project is to develop an alternative that will improve the safety and mobility of all users by applying 'Complete Street' principles with the central goal of achieving an appropriate balance between the needs of motorized, non-motorized, and transit users of the corridor and provide safe and efficient access to abutting properties. As the development of improvement alternatives proceeds, it will be crucial to work closely with all other appropriate public or private stakeholders to gain consensus on design decisions. The Consultant's role will be to develop several alternatives and select an appropriate alternative that is supported by the community, technically feasible, environmentally permissible, and economical; develop an approved Environmental Document; and bring the proposed action to a Public Hearing for layout approval. This project will require both Part "A" (Preliminary Design) and Part "B" (Final Design) services. This agreement is for Part "A" only. Upon completion of Part "A" services, and assuming a successful Public Hearing, the Department reserves the right to either negotiate a scope and fee for Part "B", or terminate the contract. This project is included in the State's Ten-Year Transportation Improvement Plan (Portsmouth 29640).

The consultant selection process employed by the Department for this qualifications-based contract is in accordance with RSAs 21-I:22, 21-I:22-c, 21-I:22-d, 228:4 and 228:5-a, and all applicable Federal laws and the Department's "Policies and Procedures for Consultant Contract Procurement, Management, and Administration" dated August 25, 2017. The Department's Consultant Selection Committee is a standing committee that meets regularly to administer the process and make determinations. The Committee is comprised of the Assistant Director of Project Development (Chair), the Chief Project Manager, the Administrators of the Bureaus of Highway Design, Bridge Design, Environment, and Materials and Research, and the Municipal Highways Engineer.

The consultant selection process for this qualifications-based contract was initiated by a solicitation for consultant services for Portsmouth 29640; improvements to two sections of US Route 1. The assignment was listed as a

"Project Soliciting for Interest" on the Department's website on December 15, 2017 asking for letters of interest from qualified firms. From the list of firms that submitted letters of interest, the Committee prepared a long and then short list of Consultants on January 25, 2018 for consideration and approval by the Assistant Commissioner. Upon receipt of that approval, three shortlisted firms were notified on March 27, 2018 through a technical "Request for Proposal" (RFP). Committee members individually rated the firms on May 10, 2018 using a written ballot to score each firm on the basis of comprehension of the assignment, clarity of the proposal, capacity to perform in a timely manner, quality and experience of the project manager and the team, previous performance, and overall suitability for the assignment. (A compilation of the completed individual rating ballots and the ranking summary form is attached.) The individual rankings were then totaled to provide an overall ranking of the three firms, and the Committee's ranking was submitted to the Assistant Commissioner for consideration and approval. Upon receipt of that approval, the short listed firms were notified of the results and the highest-ranking firm was asked to submit a fee proposal for negotiations.

The long list of twelve (12) consultant firms that were considered for this assignment, with the three (3) short-listed firms shown in bold, is as follows:

Manchester, NH

The firm of Stantec Consulting Services, Inc. was recommended for this contract. This firm has an excellent reputation and has demonstrated their capability to perform the required services. Background information on this firm is attached.

Stantec Consulting Services, Inc. has agreed to furnish the professional engineering services for an amount not to exceed \$870,949.02. This is a reasonable fee and is commensurate with the complexity of the project and the scope of the engineering and technical services to be furnished. This project funding is 80% Federal Funds with 20% State match. Turnpike toll credit is being utilized for New Hampshire's match requirement, effectively using 100% Federal Funds.

This Agreement has been approved by the Attorney General as to form and execution. The Department has verified that the necessary funds are available. Copies of the fully-executed Agreement are on file at the Secretary of State's Office and the Department of Administrative Services, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

It is respectfully requested that authority be given to enter into an Agreement for consulting services as outlined above.

Sincerely,

Victoria F. Sheehan
Commissioner

PROJECT: Portsmouth 29640

DESCRIPTION: Preliminary engineering, environmental services, public involvement services, and final design are needed for improvements to two sections of US 1 in the City of Portsmouth to include possible widening, intersection modifications and/or bicycle and pedestrian facilities. The first section extends approximately from Constitution Drive to Wilson Road, and the second extends approximately between Ocean Road and White Cedar Drive. The scope of work may include: Traffic analysis; Preliminary design to develop and evaluate alternatives Environmental investigations to prepare and complete all appropriate environmental documentation and all necessary permitting; Public Involvement support services, including a Public Hearing; ROW layout and plan development, including any necessary survey work, for reestablishing and documenting the existing highway right-of-way in a manner suitable for recording at the Registry of Deeds; Roadway final design associated with the preferred alternative; Drainage design, including appropriate water quality evaluations; Construction traffic control design; and Construction support services. Environmental efforts are needed to prepare and complete all appropriate environmental documentation and permitting, to satisfy NEPA, State, and Federal requirements. The Consultant will also be required to assist the Department in the public involvement process, including a formal Public Hearing for the preferred alternative. This work will require Professional Engineer and Land Surveyor licensure in the State of New Hampshire. This multi-phase project requires Part "A" (Preliminary Design) and Part "B" (Final Design) services. This solicitation is for Part "A" only. At the conclusion of Part "A", the Department reserves the right to either negotiate a scope and fee for Part "B", or terminate the contract. Consultants submitting a Letter of Interest will be assessed on their capability to perform the above-mentioned services, other relevant project experience with references noted, and their current workload with the Department. The compensation format for the Part "A" agreement will be cost-plus-fixed-fee

Services Required: STRC, RDWY, ENV, HAZ, HIST, ARCY, AIR, NOIS, WET, HYD, SURV, ROW, TRAF, PINV

a. SIGNATURE 	b. DATE October 23, 2016
---	------------------------------------

c. NAME AND TITLE
Joseph T. Geller FASLA, Vice President, Regional Leader, New England

David
McNamara
PE
Project Manager

David McNamara, PE, is a civil engineer with considerable experience on roadway design, reconstruction, and site development projects.

Education

- Bachelor of Science, Civil Engineering, University of New Hampshire, Durham, New Hampshire, 1999

Registrations

- Professional Engineer #11241, State of New Hampshire
- Local Public Agency Certification Training - Federal Aid, Part 1 and 2 Certified, Exp 12/31/2018, Certification #1310

Relevant Experience

Broad Street Parkway, Nashua, New Hampshire

Project Engineer for design of new two mile long parkway involving two bridges over the Pan Am railroad and a bridge over the Nashua River. David is responsible for roadway design, as well as coordinating numerous design elements, including, new bridge construction, traffic signalization, high retaining walls, bioretention stormwater treatment, lighting, utility relocations, geotechnical investigations, and environmental permitting.

Mechanic Street, Lebanon, New Hampshire

Project Manager for ongoing project involving roadway and accessibility improvements to 1.5 miles of two lane urban roadway. David is managing the conceptual design and environmental documentation of the planned corridor improvements, utilizing Complete Streets methodology. Design efforts include typical section studies of the corridor, as well as major reconstruction of two intersections.

NH101 EB Off Ramp/NH101A, Amherst, New Hampshire

Project Manager for the final design of improvements to the NH Route 101 and NH Route 101A EB off-ramp. David led the design to construct a new slip ramp for eastbound traffic coming off NH Route 101. The design required compliance with new MS4 regulations, which require the treatment of stormwater runoff from all impervious surfaces within the project area, ledge removal, and traffic management planning. The fast tracked project was completed on time by Stantec in order to meet funding deadlines.

Slayton Hill Road, Lebanon, New Hampshire

Project Manager for emergency roadway reconstruction project in Lebanon. David managed and design and construction phases of the repairs to a 2-mile section of rural roadway that had been heavily damaged by back to back rain events in 2013. Design elements included roadway reconstruction, drainage and resiliency upgrades, and two retaining walls, as well as permitting. The design process included significant public involvement, with David leading 3 Public Informational Meetings, as well as 8 site walks and 4 days of individual abutter meetings.
