EXPLANATION

The purpose of this request is for the Contractor to continue to provide policy and technical consulting services for the Department's Disproportionate Share Hospital Program. In 2009, the New Hampshire Legislature enacted Chapter 144:212 (HB 2), which required the Department of Health and Human Services to redesign the Disproportionate Share Hospital Program within the parameters of State and federal law. Since the legislation was passed in 2009, New Hampshire's Disproportionate Share Hospital Program has undergone significant scrutiny, analysis, and modification in order to comply with State and federal law. House Bill 1817, Laws of 2018, codified the State's updated court-approved settlement agreement with New Hampshire hospitals for a five-year term of DSH payments. However, in July 2019, a federal appellate court overturned the invalidation of CMS rule, thereby changing the federal definition of Uncompensated Care.

The Contractor will continue to assist the Department in developing, updating, and issuing the Uncompensated Care Cost form. The Contractor will continue to collaborate with the Department on revising administrative rules, interpreting State and Federal law and court orders, writing State Plan Amendments notices and answering federal funding questions. The Contractor calculates Disproportionate Share Hospital payments and identifying deemed Disproportionate Share Hospitals. The Contractor is also responsible for managing the audit program for the Department's Disproportionate Share Hospital auditors. The Contractor supports the auditors by completing the Disproportionate Share Hospital exam in twenty-six (26) New Hampshire Hospitals, which includes writing the State response, and providing general advice and analysis of the Disproportionate Share Hospital program, when questions arise from the Department, Legislature, and Governor's Office of Department of Justice.

The Department will monitor the effectiveness of the Contractor by:

- Acknowledging the Department's phone calls and emails within 48 hours;
- Completing policy memos within two weeks from the date it is requested;
- Answering questions from CMS within an agreed timeframe and
- Notifying the Department within thirty (30) days if any State Law or Administrative Rule changes are necessary as result of a change in federal policy or court order.

As referenced in Exhibit C-1, the parties have the option to extend the agreement for up to five (5) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for two (2) of the five (5) years available.

Should the Governor and Council not authorize this request, the State risks not being in compliance with the legislative-approved Settlement Agreement with twenty six (26) New Hampshire hospitals for Disproportionate Share Hospital payments for uncompensated care to Medicaid and uninsured patients.

Area served: Statewide

Source of Federal Funds: Assistance Listing Number #93.778, FAIN #2205NH5ADM

In the event that the Federal or Other Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shibinette
Commissioner

EXPLANATION

The purpose of this request is to receive expert advice concerning New Hampshire and federal requirements for the DSH Program from the University of Massachusetts Medical School, Center for Health Law and Economics. In 2009, the New Hampshire Legislature enacted Chapter 133:212 (HB 2),

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 2 of 3

which required the Department of Health and Human Services to redesign the Disproportionate Share Hospital Program within the parameters of State and federal law.

The DSH program is a federal Medicaid program created in 1981 to compensate hospitals for their uncompensated care provided to Medicaid or uninsured patients. States are not obligated to participate in the DSH program. If States chose to participate, they are subject to numerous federal regulations and money distributed to hospitals is subject to recoupment upon audit. New Hampshire has chosen to participate, and has a signed agreement with New Hampshire hospitals structuring our State version of the program.

Since the legislation was passed in 2009, New Hampshire's Disproportionate Share Hospital Program has undergone significant scrutiny, analysis, and modification in order to comply with State and federal law. House Bill 1817, Laws of 2018, codified the State's updated court-approved settlement agreement with New Hampshire hospitals for a five-year term of DSH payments. However, in July 2019, a federal appellate court overturned the invalidation of CMS rule, thereby changing the federal definition of Uncompensated Care.

To accommodate the potential increased workload of interpreting and applying this policy change, the contract includes a State option to request and up to fifty (50) additional hours of services from the Contractor, in addition to the mutually agreed upon three hundred and forty nine (349) hours per fiscal year, per year. The Contractor will be providing these additional services at seventy percent (70%) of the negotiated hourly rate.

The University of Massachusetts Medical School will assist the State in developing, updating, and issuing the Uncompensated Care Cost (UCC) form. They will be revising administrative rules, interpreting State and Federal law and court orders, writing State Plan Amendments (SPAs) notices and answering federal funding questions. The contractor will be calculating DSH payments, calculate required recoupments or redistributions; reviewing and reporting supplement versus DSH payments; identifying deemed DSH hospitals. The Contractor is also responsible for managing the audit program for the State's DSH auditors (Myers and Stauffer) to complete the DSH exam of 26 New Hampshire Hospitals, to include writing the State response; and generally to provide advice and analysis of the DSH program whenever questions arise from the Department, Legislature, Governor's Office, or DOJ.

The Department will monitor the effectiveness of the Contractor and the delivery of services required under this agreement using the following performance measures:

- The Contractor will be acknowledging the Departments phone calls and emails within 48 hours;
- The Contractor will be completing policy memos within two weeks from the date is it requested;
- The Contractor will be answering questions from CMS within an agreed timeframe;
- The Contractor will notify the Department within thirty (30) days if any State Law or Administrative rule changes are necessary as a result of a change in federal policy or court order.

University of Massachusetts Medical School was selected for this project through a competitive bid process. A Request for Proposal was posted on the Department of Health and Human Services website from April 3, 2019 through July 8, 2019. The Department received two (2) proposals/applications. The proposals/applications were reviewed and scored by a team of individuals with program-specific knowledge. The Score Summary is attached.

As referenced in the Request for Proposal and in Exhibit C-1 of this contract, the parties have the option to extend contract services for up to five (5) additional years, contingent upon satisfactory delivery

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 3 of 3

of services, available funding, agreement of the parties, and approval of the Governor and Executive Council.

Should the Governor and Executive Council not authorize this request, the State risks not being in compliance with the court-approved Settlement Agreement with twenty-six New Hampshire hospitals for DSH payments for uncompensated care to Medicaid and uninsured patients.

Area served: Statewide

Source of Funds: 50% Other Funds, Medicaid Enhancement Tax funds and 50% Federal Funds, Medicaid Assistance Program, Catalog of Federal Domestic Assistance (CFDA) #93.778.

In the event that the Federal (or Other) Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Jeffrey A. Meyers

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and
