2. Further authorize that a contingency in the amount of \$89,190.96 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Funding is available as follows:	<u>FY 2015</u>
04-96-96-963015-8910	
SB 367 Capital Investment	
400-500870 Highway Contract Payments	\$89,190.96

EXPLANATION

This project is part of the additional funding through SB 367, Proposed Road Toll Increase. This project involves pavement rehabilitation of approximately 3.2 miles of NH 127 between Salisbury and Franklin in Maintenance District II. The rehabilitation involves sandwich and box cut treatments and 4.5 inch overlay. The pavement along this section is in poor conditions. The rehabilitation work will extend the life of the highway riding surface and protect the subsurface base course materials. All of the proposed work will remain within the right-of-way.

The contingency amount is proposed to be 5% of the contract amount for: a large quantity of paving to be performed during a time of unpredictable fuel and asphalt prices, and the fact that the project may extend over two construction seasons.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Christopher D. Clement, Sr.
Commissioner

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project includes construction in one location within District 2;

- **Salisbury - Franklin:** NH 127. This roadway segment is 3.2 miles in length, beginning at the intersection of US 4 and continuing northerly to the intersection of North Road. Work on this location will include a combination of box cut or sandwich pavement treatments and pave 4.5" HBP along with minimal drainage, slope and ditch work.

FEDERAL FUNDING: 0% - Construction funding is 100% funded through the SB367-4-CENT funding source.

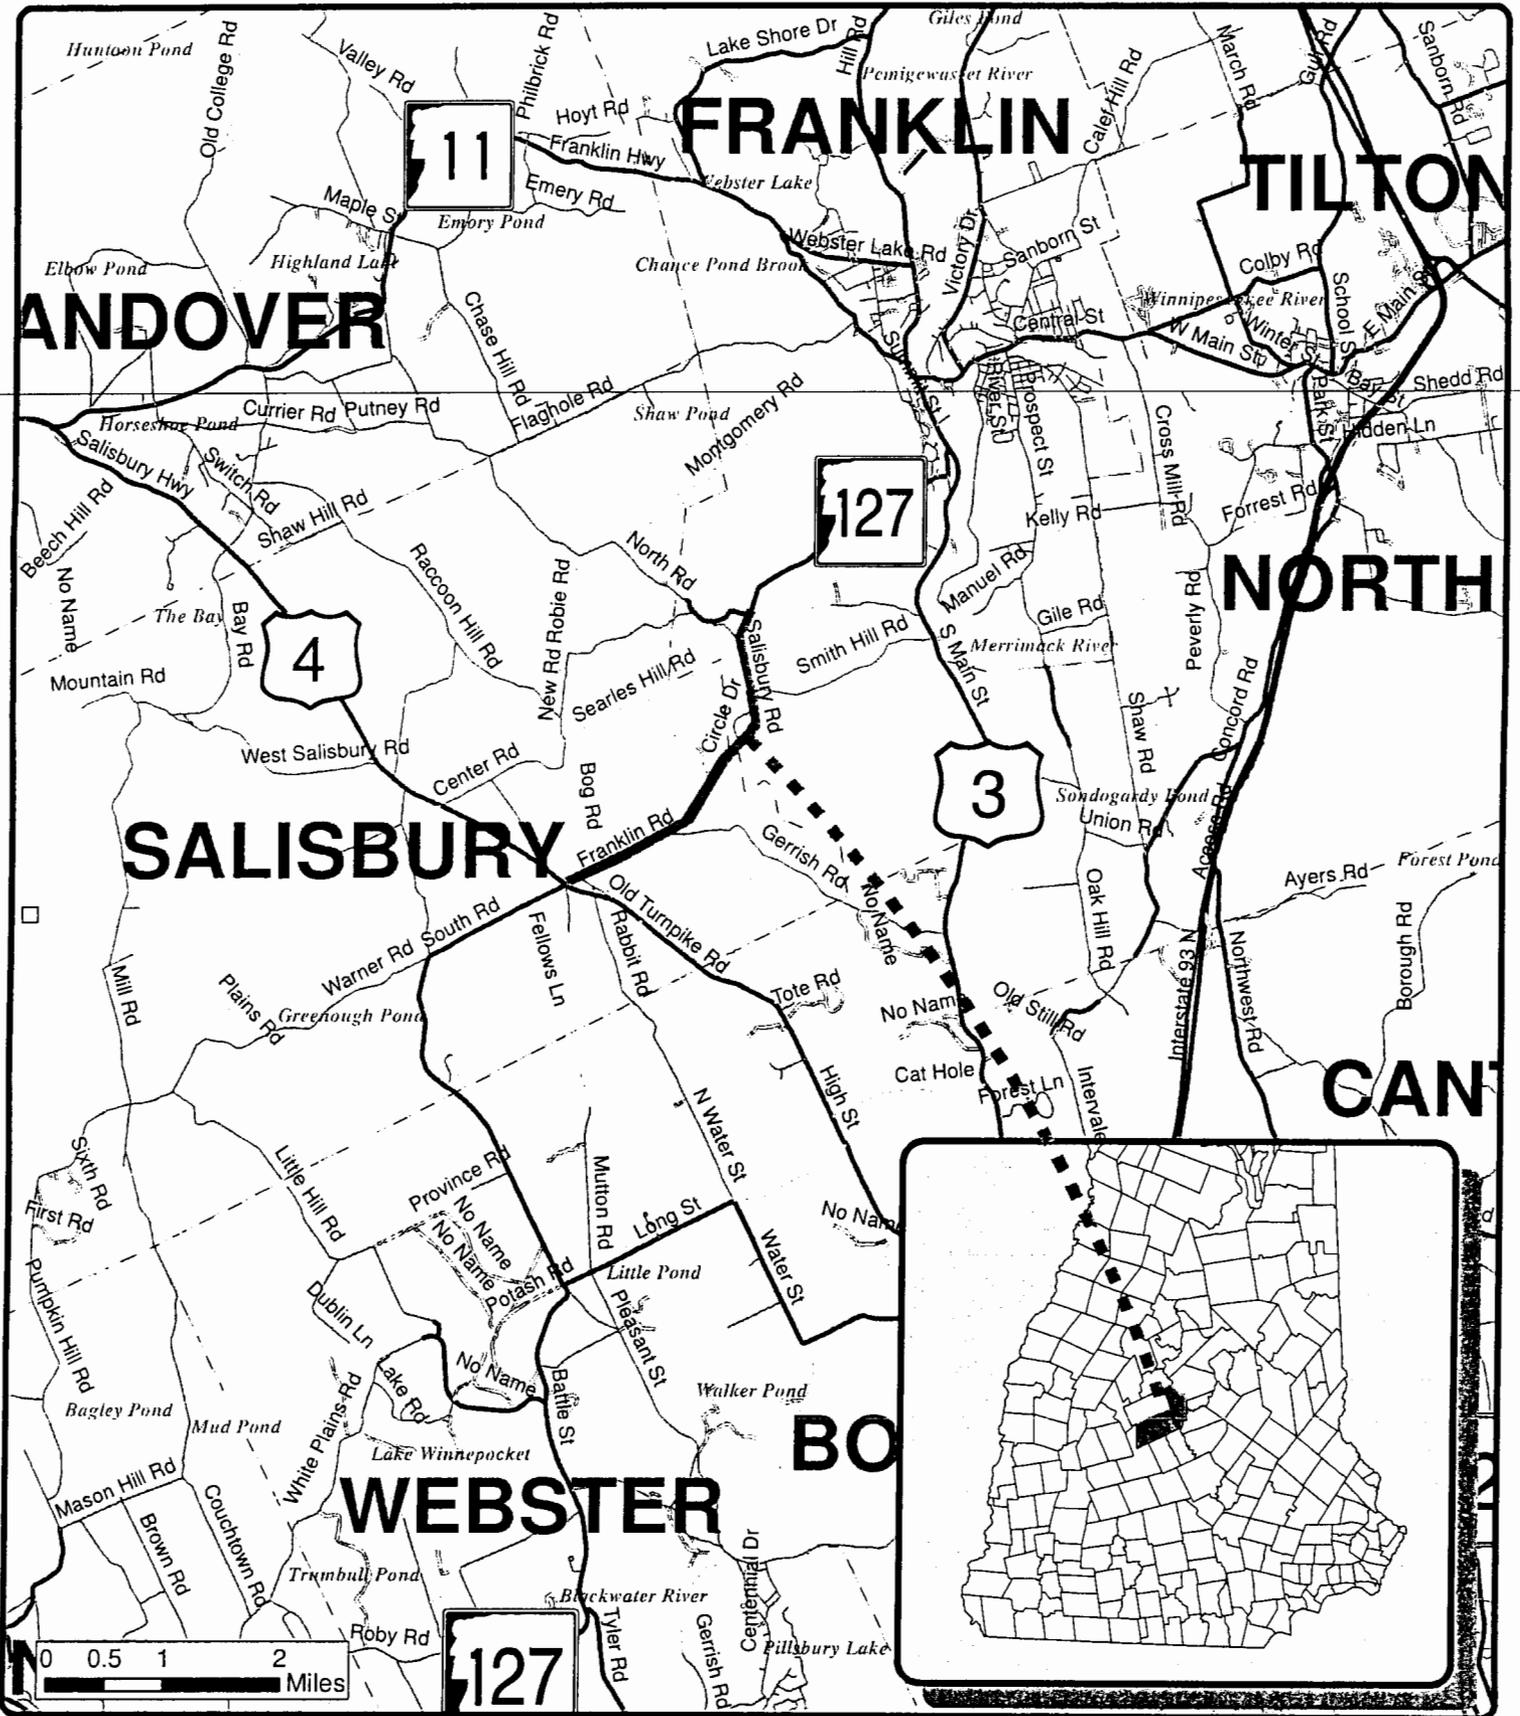

CONTINGENCY: A contingency amount of 5% of the contract amount is proposed to account for: a large quantity of paving to be performed during a time of unpredictable fuel and asphalt prices, and the fact that the project may extend over two construction seasons.

PROJECT INITIATED: Senate Bill 367.

PROJECT EXPLANATION: This roadway is located in District 2. The pavement is in poor condition. The intent of this project is to maintain and improve the riding surface and to extend the life of the existing roadway. Work on this location will include a combination of box cut and sandwich pavement treatments along with minimal drainage, slope and ditch work. All of the proposed work will remain within the right-of-way.

TRAFFIC IMPLICATIONS: Minimal traffic implications are anticipated. One-lane, alternating two-way traffic will be utilized during work hours with traffic being restored to two lanes during non-work hours. Traffic will utilize an 11' minimum width with the use of flaggers when restricted to one lane. If this work cannot be handled without excessive backup, the work will be discontinued and normal traffic patterns will be restored.

COMPLETION DATE: Friday, June 26, 2015.
