Fax: 603-271-5845 TDD Access: 1-800-735-2964

May 21, 2013

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, NH 03301

REQUESTED ACTION

Authorize the Department of Health and Human Services, New Hampshire Hospital to enter into agreements with the attached list of Consultants at an estimated cost not to exceed \$361,650.00, effective July 1, 2013, or date of Governor and Council approval, whichever is later, through June 30, 2015. Funds are anticipated to be available in the accounts as listed below for State Fiscal Years 2014 and 2015, upon the availability and continued appropriation of funds in the future operating budget, with the authority to adjust amounts between state fiscal years if needed and justified:

EXPLANATION

New Hampshire Hospital seeks approval of the attached Consultant List that represents two categories of patient assessment and evaluation; 1) local medical/professional personnel and, 2) specialized training and practice of evaluating and assessing sexually violent predators.

The first category includes medical/professional personnel who contribute to the care of patients and occasional staff needs at New Hampshire Hospital. These consultants are essential to support services that New Hampshire Hospital provides. These services are generally provided by means of clinics, that the consultants hold when they are at New Hampshire Hospital. New Hampshire Hospital has developed specific procedures to ensure that the patient services are documented and required for appropriate patient care. The majority of these individuals have been employed in this capacity for many years and are essential for the continued provision of quality care. New Hampshire Hospital has been submitting a list of consultants to Governor and Council for approval since 1984.

New Hampshire Hospital has been satisfied with the quality of care provided and has determined the fees charged are in line with those generally accepted within each discipline. The consultant list consists of qualified professionals who are available to New Hampshire Hospital and there is no guarantee that any services will be used from these professionals during the contract period. An advertisement seeking qualified professionals was placed in the New Hampshire Union Leader newspaper for three (3) days, April 28, April 29, and April 30, 2013. New Hampshire Hospital will add qualified professionals to the various listed disciplines on the consultant list should such professionals express an interest in being included. Copies of curriculum vitae and credentials are on file in the office of the New Hampshire Hospital Financial Services.

Should Governor and Executive Council determine to deny this Request, patients would be unable to access various physical, emotional and educational benefits, negatively impacting their rehabilitation and successful re-entry into society. Staff of the Department of Health and Human Services and New Hampshire Hospital lacks the specialized training and expertise to provide these services.

The second category includes specialized professionals who assess and evaluate persons [inmates] to determine if they meet the definition of sexually violent predators pursuant to RSA 135-E. Only specialized professionals who have been properly trained and experienced in this area can provide these services. A Request for Proposals for sexually violent predator assessment and evaluation services was posted on the New Hampshire Department of Health and Human Services website from February 15, 2013 through March 15, 2013. In addition, advertisements were placed in the New Hampshire Union Leader February 15, February 17, and February 18, 2013 and the Boston Globe February 15, February 16, and February 17, 2013. Twenty-nine (29) RFP's were also mailed to known vendors who provide this service (see attached list).

A total of three (3) proposals were received by the closing date as a result of this RFP: 1) New England Forensic Associates, Arlington, MA, 2) Eric Jensen, Ph.D., Swanton, VT, and 3) Rebecca Jackson, Ph.D., Arcadia, FL. A team of three (3) reviewers, representing New Hampshire Hospital evaluated the three proposals. These individuals were chosen for participation on this team based on their background, their many years of experience, and credentials in the field of sexual offender treatment programs. Proposals were evaluated strictly according to the following criteria as defined in the Request for Proposal: a) meet minimum qualifications as described; b) references; c) technical proposal; d) management, experience and qualifications; and, e) cost. Proposals were scored as either pass/fail; all three proposals that were received met the required criteria and received a passing score. All three vendors are included on the list for approval by Governor and Council.

Should Governor and Executive Council determine to deny this Request, evaluations of those who are eligible for release from total confinement who have committed a sexually violent offense and may be determined to be a sexually violent predator would not be evaluated as defined in RSA 135-E, "Involuntary Civil

Commitment of Sexually Violent Predators". Staff of the Department of Health and Human Services and New Hampshire Hospital lack the specialized training and expertise to provide the evaluations.

The performance measurement for this agreement will be the timely response to requests for services.

Additionally, an advertisement was placed in the Union Leader on April 9, April 10, and April 11, 2013, for a consultant to be available on an as-need basis to provide training and consultation for the Multidisciplinary Team responsible for evaluation of persons to determine if they meet the definition as a sexually violent predator. Dr. Amy Phenix was the sole response to the advertisement and has been an active consultant with the Multidisciplinary Team. The training Dr. Phenix will focus on is use of the Static-99R and the Static-2002R, use of dynamic factors, and a revised multidisciplinary team report template given the three court orders resulting from Daubert Hearings.

Area served: statewide.

Source of funds: The source of funds for account numbers 010-094-8750-102-500731 and 010-094-8750-020-500271 is 30% federal and 70% general; source of funds for 010-094-8753-102-500731 is 100% general.

In the event that federal or other funds become no longer available, general funds will not be requested to support this contract.

Respectfully submitted,

Robert J. MacLeod, DHA, FACHE
Chief Executive Officer

Nancy L. Rollins
Associate Commissioner
