EXPLANATION

Lamprey Suburban Septic will perform septic pumping and disposal services at 8 state park facilities and 2 welcome information centers in order to prevent damage to wastewater systems. Inspections of the systems will also be performed at the time of pumping to foresee and/or prevent any long term problems. The Department is seeking an additional 20% over the contract amount as a contingency should any unforeseen septic issue be found once the septic pumping is performed.

In February 2017, an invitation to submit bids for septic pumping and disposal services at 5 historic sites, 44 state park facilities, 8 welcome information centers and 1 warehouse facility located across the State of New Hampshire was advertised on the Department of Administrative Services' website. Seven (7) companies submitted bid proposals of which Lamprey Suburban Septic was the low bid for 7 state park

facilities and 2 welcome information centers. The Department did not receive any bids for the Miller State Park location so it was removed from the master bid tabulation. A Request for Quotes (RFQ) was then posted for this location in which Lamprey Suburban Septic was the sole bidder. Attached for your information is the entire bid tabulation for the services as well as a copy of Lamprey Suburban Septic's quote for septic pumping services at Miller State Park.

The Attorney General's Office has approved this contract as to form, substance, and execution.

Respectfully submitted,

Jeffrey J. Rose
