			Subtotal	\$3,475
			Total	\$6,950.00

EXPLANATION

The Association of Maternal & Child Health Programs' mission is to support state maternal and child health programs and provide national leadership on issues affecting women and children including those with special health care needs.

Listed below are answers to standard questions required for Governor and Council organization dues and membership approval submissions:

1. How long has this organization been in existence and how long has this agency been a member of this organization?
 - The Association of Maternal & Child Health Programs was incorporated in 1987 and New Hampshire was among its founding members, however the organization has its organizational roots firmly established with the very beginning of state Title V, Maternal and Child Health Programs over 75 years ago.
2. Is there any other organization which provides the same or similar benefits which your agency belongs to?
 - No
3. How many other states belong to this organization and is your agency the sole New Hampshire state agency that is a member?
 - All 50 states belong to the Association of Maternal & Child Health Programs. The Department of Health and Human Services is the only New Hampshire State agency that is a member. The Maternal and Child Health Section of the Division of Public Health Services and the Special Medical Services of the Division of Community Based Services share membership fees and participation.
4. How is the dues structure established? (Standard fee for all states, based on population, based on other criteria, etc)
 - The Association of Maternal & Child Health Programs dues are a standard fee based on State population. Membership dues have increased in the past year by \$350.
5. What benefit does the state receive from participating in this membership?
 - Association of Maternal & Child Health Programs 'members have the opportunity to share and learn about model practices with the Maternal and Child Health community from across the country. Members receive quality resources, tools and handbooks to help build successful programs and strengthen public health infrastructure, like the *MCH Navigator: Addressing the Professional Development Needs of the State Title V Workforce*. The Association of Maternal & Child Health Programs promotes access to technical assistance in Maternal and Child Health/Children with Special Health Care Needs by answering states' questions about issues ranging from adolescent health and developmental delays to data and Medicaid. The Association of Maternal & Child Health Programs also represents Maternal and Child Health interests before Congress and Federal agencies.

6. Are training or educational/ research materials included in the membership? If so, is the cost included? Explain in detail.
 - As a benefit of membership, Maternal and Child Health and Special Medical Services receive numerous educational and research materials on emerging trends and topics of interest. The Association of Maternal & Child Health Programs also provides increased opportunity for training and workforce development.
7. Is the membership required to receive any federal grants or required in order to receive or participate in licensing or certification exams? Explain.
 - No
8. Is there any travel included with this membership fee? Explain in detail any travel to include the number of employees involved, the number of trips, destination if known and purposes of membership supported trips.
 - No. Membership fees do not support travel for members at large, board members nor committee members. There are separate federal grant funds that support travel for board leadership meetings for board members.
9. Which state agency employees are directly involved with this organization? (Indicate if they are members, voting members, committee members, and/or officers of the organization).
 - Rhonda Siegel, Administrator, Maternal and Child Health Section - Voting Member and Family & Youth Leadership Committee Member.
 - Elizabeth Collins, Administrator, Special Medical Services – Voting Member.
 - Deirdre Dunn Tierney, Family Support Administrator, Special Medical Services - Voting Member.
 - Paulette Valliere, Program Planner III, Maternal and Child Health Section - Voting Member.
10. Explain in detail any negative impact to the State if the Agency did not belong to this organization.
 - Should Governor and Executive Council not authorize this Request, the Department could incur costs that exceed the cost of membership. Services currently covered by belonging to the Association of Maternal and Child Health Programs (i.e. training and technical assistance) would exceed the cost of membership if paid for directly.

•
Area served: statewide.

Source of Funds: Source of funds is 73% Federal Funds from the U.S. Department of Health and Human Services, Health Resources and Services Administration – Maternal and Child Health Block Grant and 27% General Funds.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lisa Morris
Director
Division of Public Health Services

Deborah Fournier
Medicaid Director
