

THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

Victoria F. Sheehan
Commissioner

William Cass, P.E.
Assistant Commissioner

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

Bureau of Construction
January 7, 2020

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with R.M. Piper, Inc. of Plymouth, NH (Vendor 174180) on the basis of a low bid of \$1,729,083.50 for bridge preservation work on 3 bridges in Plymouth and Campton, New Hampshire, from the date of Governor and Council approval through October 16, 2020, unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available in State Fiscal Year 2020 and Fiscal Year 2021 as follows, with the ability to adjust encumbrances through the Budget Office between State Fiscal Years if needed and justified:

Funding is available as follows:	<u>FY 2020</u>	<u>FY 2021</u>
04-96-96-963515-3054 Consolidated Federal Aid 400-500870 Highway Contract Payments	\$1,163,201.58	\$565,881.92

2. Further authorize that a contingency in the amount of \$172,908.35 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 10% of the contract amount.

Funding is available as follows:	<u>FY 2020</u>	<u>FY 2021</u>
04-96-96-963515-3054 Consolidated Federal Aid 400-500870 Highway Contract Payments		\$172,908.35

EXPLANATION

This project is part of the State's Ten Year Transportation Improvement Plan, Bridge-T 1-2 Maintenance & Preservation Program. The project consists of bridge preservation work on three bridges in the Towns of Plymouth and Campton. The work limits for Plymouth Br. No. 142/145, US Route 3/NH Route 25 W over NH Route 3A (Exit 26) begin approximately 250 feet south of the bridge, continue approximately 650 feet north, and end approximately 250 feet north of the bridge. The work limits for Campton Br. No. 104/059, I-93 SB over Bog Brook, and Campton Br. No. 105/058, I-93 NB over Bog Brook begin approximately 600 feet prior to each bridge and continue approximately 850 feet and end approximately 100 feet past the bridge.

Br. No. 142/145 – US Route 3/NH Route 25 W over NH Route 3A – bridge preservation:

The existing bridge, built in 1965 and preserved in 1993, is a single span structure consisting of steel I-beam girders with a concrete deck and is approximately 122 feet long. The deck, superstructure, and substructure are rated 6, 7, and 6 respectively in the 2019 inspection. The 1993 preservation contract contained significant deck repairs and resulted in the deck being a bare deck. The bridge is #22 on the 2018 Preservation Priority List and is not currently on the Red List, preservation activities will extend the useful life of the bridge.

Br. No. 104/059 – I-93 SB over Bog Brook – bridge preservation:

The existing bridge, built in 1968 and preserved in 1992, is a three span structure consisting of steel I-beam girders with a concrete deck and is approximately 152 feet long. The deck, superstructure, and substructure are rated 6, 7, and 7 respectively in the 2019 inspection. The 1992 preservation contract contained significant deck repairs and included a 1.25" concrete deck overlay with pavement and membrane above. The bridge is #15 on the 2018 Preservation Priority List and is not currently on the Red List, preservation activities will extend the useful life of the bridge.

Br. No. 105/058 – I-93 NB over Bog Brook – bridge preservation:

The existing bridge, built in 1963 and preserved in 1992, is a three span structure consisting of steel I-beam girders with a concrete deck and is approximately 152 feet long. The deck, superstructure, and substructure are rated 7, 6, and 6 respectively in the 2019 inspection. The 1992 rehabilitation contract replaced the deck and expansion joints, and updated the bridge rail. The bridge is #219 on the 2018 Preservation Priority List and is not currently on the Red List, preservation activities will extend the useful life of the bridge.

The proposed contingency amount is 10% of the contract amount. This work preserves bridges built in the 1960s. The work includes partial and full depth deck repairs and expansion joint replacement. The extent of this work has been estimated, but the full extent of the work won't be fully known until the existing asphalt and membrane are removed from the bridge. These factors increase the risk of overruns.

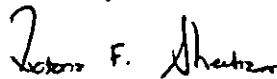

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is: 80% Federal Funds (Bridge-T 1-2 Maintenance & Preservation) with anticipated utilization of Turnpike Toll Credits for the State's 20% match, effectively using 100% Federal Funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested.

Sincerely,

Victoria F. Sheehan
Commissioner

VFS/pcj

Department Estimate: \$ 1,844,705.00

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project consists of bridge preservation work on three bridges in the Towns of Plymouth and Campton. The work limits for Plymouth Br. No. 142/145, US Route 3/NH Route 25 W over NH Route 3A (Exit 26) begin approximately 250 feet south of the bridge, continue approximately 650 feet north, and end approximately 250 feet north of the bridge. The work limits for Campton Br. No. 104/059, I-93 SB over Bog Brook, and Campton Br. No. 105/058, I-93 NB over Bog Brook begin approximately 600 feet prior to each bridge and continue approximately 850 feet and end approximately 100 feet past the bridge.

FEDERAL FUNDING: 80% (Bridge-T 1-2 Maintenance & Preservation) with anticipated utilization of Turnpike Toll Credits for the State's 20% match

CONTINGENCY: The contingency amount is proposed to be 10%. This work preserves bridges built in the 1960s. The work includes partial and full depth deck repairs and expansion joint replacement. The extent of this work has been estimated, but the full extent of the work won't be fully known until the existing asphalt and membrane are removed from the bridge. These factors increase the risk of overruns.

PROJECT INITIATED: 2018 M&P Priority List – BRDG-T1/2-M&P

PROJECT EXPLANATION:

Br. No. 142/145 – US Route 3/NH Route 25 W over NH Route 3A – bridge preservation:

The existing bridge, built in 1965 and preserved in 1993, is a single span structure consisting of steel I-beam girders with a concrete deck and is approximately 122 feet long. The deck, superstructure, and substructure are rated 6, 7, and 6 respectively in the 2019 inspection. The 1993 preservation contract contained significant deck repairs and resulted in the deck being a bare deck. The bridge is #22 on the 2018 Preservation Priority List and is not currently on the Red List, preservation activities will extend the useful life of the bridge.

Br. No. 104/059 – I-93 SB over Bog Brook – bridge preservation:

The existing bridge, built in 1968 and preserved in 1992, is a three span structure consisting of steel I-beam girders with a concrete deck and is approximately 152 feet long. The deck, superstructure, and substructure are rated 6, 7, and 7 respectively in the 2019 inspection. The 1992 preservation contract contained significant deck repairs and included a 1.25" concrete deck overlay with pavement and membrane above. The bridge is #15 on the 2018 Preservation Priority List and is not currently on the Red List, preservation activities will extend the useful life of the bridge.

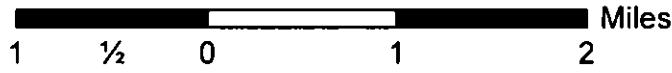

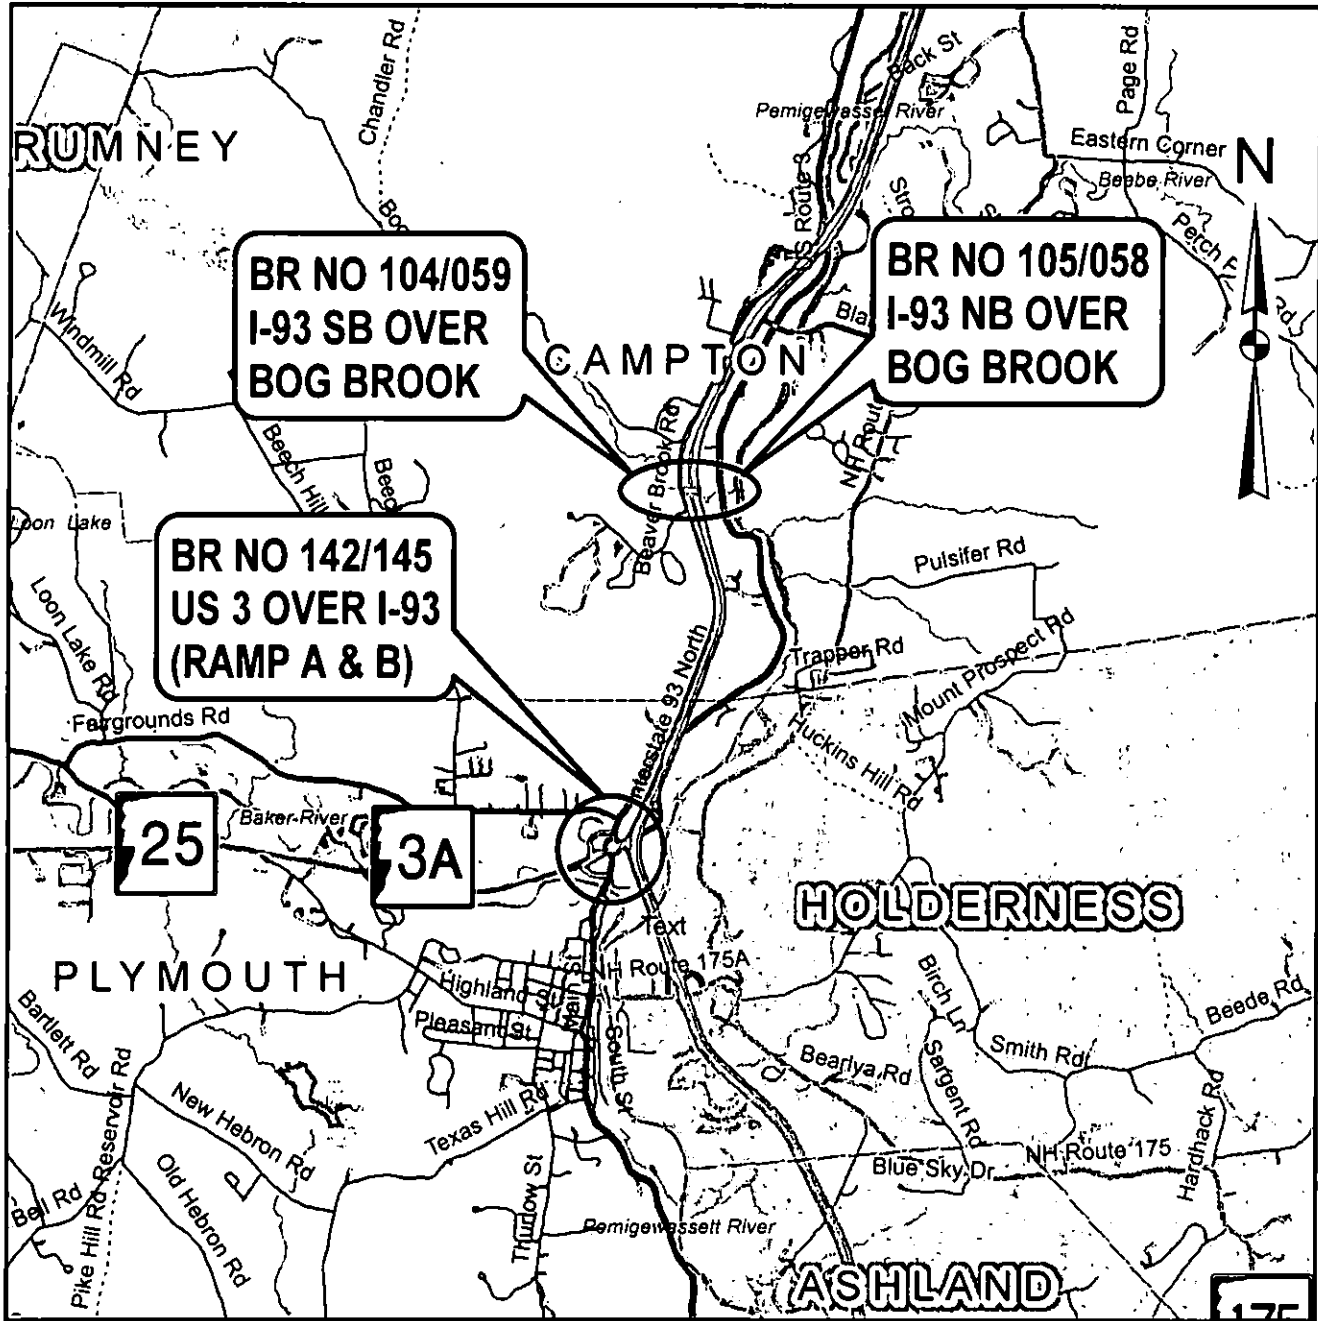

Br. No. 105/058 – I-93 NB over Bog Brook – bridge preservation:

The existing bridge, built in 1963 and preserved in 1992, is a three span structure consisting of steel I-beam girders with a concrete deck and is approximately 152 feet long. The deck, superstructure, and substructure are rated 7, 6, and 6 respectively in the 2019 inspection. The 1992 rehabilitation contract replaced the deck and expansion joints, and updated the bridge rail. The bridge is #219 on the 2018 Preservation Priority List and is not currently on the Red List, preservation activities will extend the useful life of the bridge.

TRAFFIC IMPLICATION: The project will be completed in one construction season utilizing phased construction for all three bridges. Plymouth Br. No. 142/145 will use one lane of alternating two-way traffic with temporary signals. Campton Br. No. 104/059 and 105/058 will utilize phased construction and lane shifts to reduce I-93 NB and SB to one lane during construction. There are no sidewalks on the project, therefore, no pedestrian access will be maintained on the Plymouth 142/045 Bridge.

FINAL COMPLETION DATE: October 16, 2020

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY)
12/23/2019

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).
