

Victoria F. Sheehan
Commissioner

THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

William Cass, P.E.
Assistant Commissioner

SEP 30 '21 PM 1:01 RCVD

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

Bureau of Construction
August 31, 2021

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with R.S. Audley, Inc. (Vendor 154222) of Bow, NH on the basis of a low bid of \$23,286,281.15 for placement of tollbooth plaza conversion to All Electronic Tolling (AET) along the Turnpike system in Dover and Rochester, from the date of Governor and Council approval through June 7, 2024, unless extended by the Department in accordance with the Standard Specifications. 100% Turnpike Funds.

Funding is available in State Fiscal Years 2022 and 2023, and is contingent upon the availability and continued appropriation of funds in Fiscal Year 2024 as follows, with the ability to adjust encumbrances through the Budget Office between State Fiscal Years if needed and justified:

Funding is available as follows:	<u>FY 2022</u>	<u>FY 2023</u>	<u>FY 2024</u>
04-96-96-961017-7511			
Toll Collection Equipment			
400-500870 Highway Contract Payments	\$8,915,319.10	\$7,185,481.08	\$7,185,480.97

2. Further authorize that a contingency in the amount of \$1,164,314.06 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Funding is available as follows:	<u>FY 2024</u>
04-96-96-961017-7511	
Toll Collection Equipment	
400-500870 Highway Contract Payments	\$1,164,314.06

EXPLANATION

This project is part of the Turnpike's Capital Program. The project consists of the conversion of the two Spaulding Turnpike (NH 16) traditional tollbooth plazas to All Electronic Tolling (AET) facilities in the Cities of Dover and Rochester. All Electronic Tolling will allow for a continuous stream of vehicles at highway speeds, capturing the fee from an overhead gantry system. The existing Dover plaza is just to the north of the Exit 6 interchange and the Rochester plaza is located just to the south of the Exit 11/12 interchange. The two plazas are approximately 12 miles apart.

The project will convert the two existing traditional tollbooth plazas to All Electronic Tolling by erecting an overhead gantry 600 feet north of the existing tollbooths. The Dover location will introduce a third Southbound travel lane while the Northbound travel lane from the I1238Q contract will extend through the gantry and taper to two lanes 2300 feet north of the gantry. The Rochester final layout will be two travel lanes in each direction with the gantry constructed to allow for a future third lane in each direction. The two existing tollbooth plazas, as well as the administration buildings, will be removed after the successful launch of AET at both locations. The Rochester location will construct two soundwalls for noise abatement.

The proposed contingency amount is 5% of the contract amount. This is to account for unforeseen issues during the construction operation.

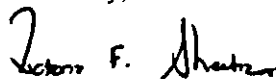

Although the bid costs exceeded the Department's estimate by 9.66%, the low bid of 3 bids received is felt to be reasonable for the work involved. There were 10 items of significance that contributed to 100% of the overage. They include Maintenance of Traffic, drilled shaft, rock socket excavation, embankment in place, traffic control barrier, toll utility shelter (2), AET toll gantry (2) and sand. Readvertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is: 0% Federal (100% Turnpike Funded from the Capital Program).

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Victoria F. Sheehan
Commissioner

VFS/pcj

Department Estimate: \$21,234,749.63

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: The project consists of the conversion of the two Spaulding Turnpike (NH 16) traditional tollbooth plazas to All Electronic Tolling (AET) facilities in the Cities of Dover and Rochester. All Electronic Tolling will allow for a continuous stream of vehicles at highway speeds, capturing the fee from an overhead gantry system. The existing Dover plaza is just to the north of the Exit 6 interchange and the Rochester plaza is located just to the south of the Exit 11/12 interchange. The two plazas are approximately 12 miles apart.

FEDERAL FUNDING: 0% (100% Turnpike Funded from the Capital Program)

CONTINGENCY: 5% contingency of the approved contract amount is requested for this project due to unforeseen issues during the construction operation.

PROJECT INITIATED: Bureau of Turnpikes' Capital Program

EXPLANATION: The project will convert the two existing traditional tollbooth plazas to All Electronic Tolling by erecting an overhead gantry 600 feet north of the existing tollbooths. The Dover location will introduce a third Southbound travel lane while the Northbound travel lane from the 11238Q contract will extend through the gantry and taper to two lanes 2300 feet north of the gantry. The Rochester final layout will be two travel lanes in each direction with the gantry constructed to allow for a future third lane in each direction. The two existing tollbooth plazas, as well as the administration buildings, will be removed after the successful launch of AET at both locations. The Rochester location will construct two soundwalls for noise abatement.

TRAFFIC IMPLICATIONS: Traffic Control Plans have been developed to allow for a minimum of two lane traffic in both directions at both locations. Tight constraints at the Dover location may cause delays during heavy northbound weekend volume.

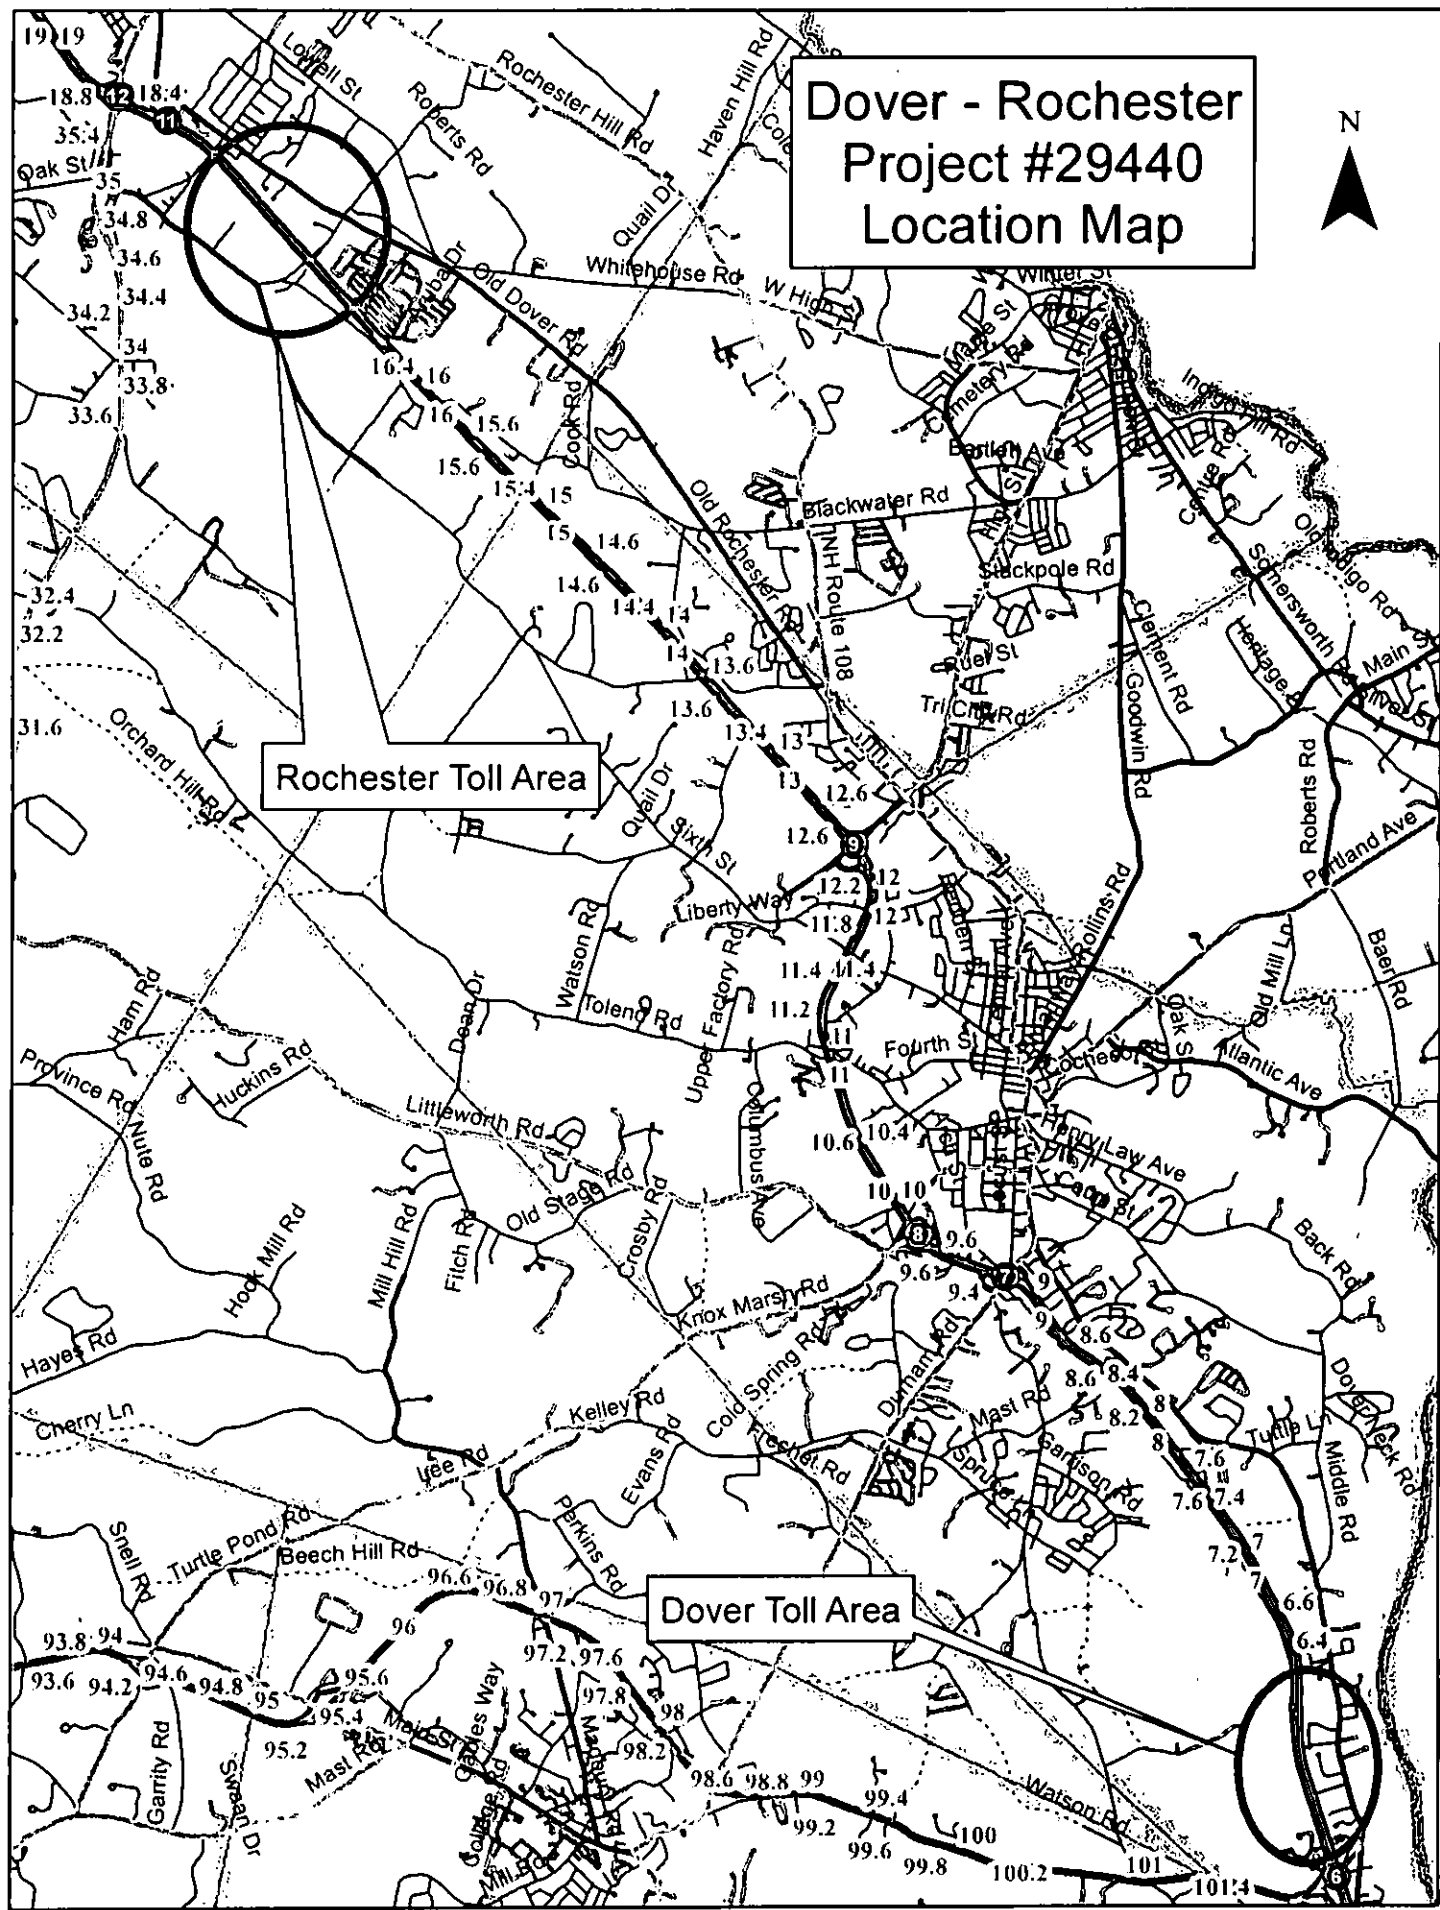

COMPLETION DATE: June 7, 2024

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY)
08/26/2021

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must have ADDITIONAL INSURED provisions or be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).
