Her Excellency, Governor Margaret Wood Hassan
and The Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Environmental Services to award a **SOLE SOURCE** agreement to the Strafford Regional Planning Commission (VC #155570), Rochester, NH, in the amount of \$13,300.00 to provide planning technical assistance to member coastal communities, effective as of July 1, 2013 through June 30, 2014 upon approval of Governor and Council. 100% Federal Funds.

Funding is available in the account as follows. Funding for FY 2014 is contingent upon continuing appropriation and availability of funds.

	<u>FY14</u>
03-44-44-442010-3642-102-500731	\$13,300.00
Dept. Environmental Services, Coastal Zone Management, Contracts for Program Services	

EXPLANATION

This grant award is **SOLE SOURCE** because the Strafford Regional Planning Commission is the only entity that provides municipal planning services to its five member coastal communities. The New Hampshire Coastal Program (NHCP) annual program budget includes local technical planning assistance funds for the Natural Resources Outreach Coalition (NROC) and the two Regional Planning Agencies – Rockingham Planning Commission (RPC) and Strafford Regional Planning Commission (SRPC) – that serve communities located in the coastal zone. These funds were specifically targeted for technical assistance grants to support partnerships with NROC, RPC and SRPC on environmental issues of common concern where the planning agencies can broaden the NHCP's expertise and outreach to communities throughout the coastal region. The NHCP Technical Assistance grants have been part of the overall NOAA approved program and annual work plans for the past twenty years. NHCP staff meets annually with the directors and staff of the three organizations to develop program priorities and annual work programs for inclusion in the annual NHCP budget. All three agencies provide professional planning assistance to municipal planning boards and staff including master plan updates, zoning and subdivision ordinance revisions, open space plans, build-out analyses, GIS-based natural resource assessments, identification of natural resource protection priorities, and other services.

The purpose of this agreement is to support the SRPC in its provision of technical planning assistance to its member coastal communities. Grant funds will be used to 1) produce flood risk maps for the Town of Lee for land use planning and to aid in emergency response activities; 2) provide education and outreach assistance to the Town of Newmarket on stormwater impacts and best management practices, including low impact development, to alleviate harmful pollutants discharging to the Lamprey River; 3) coordinate with NROC to guide the Town of Durham through the NOAA Roadmap for coastal adaptation planning by holding a series of local workshops to engage Durham residents in seeking ways to reduce the impacts of climate change and sea level rise; 4) provide technical assistance to communities in the areas of land use planning and hazard mitigation planning in coordination with the Coastal Adaptation Workgroup (CAW); and 5) collect municipal data from a variety of land use documents in order to assist the Piscataqua Region Estuaries Partnership in updating the Piscataqua Region Environmental Planning Assessment (PREPA), which documents the current status of environmental planning efforts and land use regulations for the communities in the Piscataqua River watershed.

Total project costs are budgeted at \$26,600.00. DES will provide \$13,300.00 of the project costs through this federal grant. The SRPC will provide \$13,300.00 in matching funds. In the event that Federal Funds become no longer available, General Funds will not be requested to support the project. A budget breakdown is provided in Attachment A.

This agreement has been approved by the Office of the Attorney General as to form, execution and content.

We respectfully request your approval.

Thomas S. Burack, Commissioner

This covenant shall survive the termination of this agreement.

Each policy shall contain a clause prohibiting cancellation or modification of the policy earlier than ten (10) days after written notice has been received by the State.

18. WAIVER OF BREACH. No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event, or any subsequent Event. No express waiver of any Event of Default shall be deemed a waiver of any provisions hereof. No such failure or waiver shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other default on the part of the Grantee.

Exhibit A

Scope of Services

The Strafford Regional Planning Commission (SRPC) will perform the following tasks as described in the detailed proposal titled *Regional Planning Assistance to Coastal Communities*, which was submitted by SRPC and dated February 7, 2013:

1. Activity 1: Produce Flood Risk Maps for the Town of Lee. SRPC will work with the Lee Conservation Commission, Emergency Management Director and the Planning and Zoning Department to produce a series of maps with the new floodplain data produced for the Lamprey River Watershed. The maps will be used for land use planning and to aid in emergency response activities. Deliverable: Final Report summarizing this activity.
2. Activity 2: Town of Newmarket Stormwater Education and Outreach. SRPC will provide education and outreach assistance on stormwater impacts and best management practices, including low impact development, to alleviate harmful pollutants discharging to the Lamprey River. These outreach efforts will target businesses, local decision-makers, public works staff and town residents. Deliverable: Final Report summarizing this activity.
3. Activity 3: Coordinate with the Natural Resources Outreach Coalition (NROC) to bring the NOAA Roadmap for Coastal Adaptation Planning to the Town of Durham. This activity involves SRPC staff time to coordinate with NROC to guide the Town of Durham through the NOAA Roadmap for coastal adaptation planning. SRPC staff will work with NROC to plan a series of local workshops to engage Durham residents in seeking ways to reduce the impacts of climate change and sea level rise. Deliverable: Final Report summarizing this activity.
4. Activity 4: SRPC Staff Participation in the Coastal Adaptation Workgroup (CAW) and other local watershed committees. The Coastal Adaptation Workgroup plays a central role in the SRPC region in coordinating efforts to assist communities to respond to climate change risk. Both through the development of CAW sponsored projects as well as through the coordination of efforts of other partners such as New Hampshire Homeland Security and Emergency Management and Granite State Future, CAW coordinates the work of multiple agencies in educating and assisting communities to address these issues. The SRPC's role as one of the CAW partners is important for its success, especially with respect to the delivery of technical assistance to communities in the areas of land use planning and hazard mitigation planning. SRPC staff will provide support to CAW and other groups, and will document the assistance provided. Deliverable: Final Report summarizing this activity.
5. Activity 5: PREPA Assessment. SRPC will gather municipal data from a variety of land use documents including the master plan, zoning ordinance, site plan and subdivision regulations, and other planning documents and studies in order to complete the Indicator Form and update the Piscataqua Region Environmental Planning Assessment (PREPA), which will now have a climate change component. SRPC staff will collect municipal data and fill out and update the PREPA Indicator Form. Deliverable: Final Report summarizing this activity.

6. Outreach: SRPC shall work with the New Hampshire Coastal Program (NHCP) Outreach Coordinator to develop at least one outreach product describing various components of the project. Examples of outreach products include press releases, newsletter articles, website updates and links to new website content distributed through social media channels. All outreach materials shall include the NOAA, NHCP and DES logos. All press releases and articles shall state that "The project was funded by NOAA'S Office of Ocean and Coastal Resource Management under the Coastal Zone Management Act in conjunction with the NH Department of Environmental Services and the New Hampshire Coastal Program."
7. Progress Report: SRPC shall prepare a semi-annual progress report that summarizes work completed for items 1 through 6 above during the period July 1, 2013 through December 31, 2013. The report shall be due no later than January 6, 2014.
8. Final Report: SRPC shall prepare and submit a final report that summarizes all activity in items 1 through 6 above at the close of the project. One print copy and an electronic version, preferably in .pdf format, shall be submitted. The final report shall summarize the project and shall include a financial summary of project costs. A funding credit statement identical to the quotation in 6 above shall appear on all final work products intended for public distribution. Logos of sponsoring agencies (NHDES, NHCP & NOAA) shall also appear on publications and reports. The final report shall be due no later than July 7, 2014.

Exhibit B
Method of Payment and Contract Price

The State shall pay to the Grantee the total reimbursable program costs in accordance with the following requirements:

Reimbursement requests for program costs shall be made by the Grantee using a payment request form as supplied by the State, which shall be completed and signed by the Grantee. The payment request form shall be accompanied by proper supporting documentation in the amount of each requested disbursement and required matching funds. Documentation of reimbursable and matching costs may include invoices for supplies, equipment, services, contractual services, and a report of personnel, travel and indirect costs. For projects that demonstrate progress solely through the submission of interim progress reports, payments shall be made upon receipt, review and approval of the interim progress report and accompanying payment request form. Pre-agreement costs may be reimbursed or counted as matching funds as long as those costs were incurred within the effective period of the federal grant and after State approval of the project. The Grantee must request prior written approval from the State to incur pre-agreement costs. Payments shall be made to the Grantee no more frequently than monthly.

The total reimbursement shall not exceed the grant award of \$13,300. Matching funds provided by the Grantee shall total at least \$13,300 of non-federal cash and in-kind services.

Exhibit C
Special Provisions

I. Subparagraph 1.7 of the General Provisions, Audit Date, shall not apply to this Agreement.

II. This Agreement is funded under a grant to the NHDES from NOAA, Award # NA12NOS4190085, with the source of funds identified under CFDA #11.419. The Federal Grant Provisions (Standard, General, Special and/or Administrative Conditions) which are applicable to this Agreement are on file at NHDES, and are incorporated herein by reference to the same extent as if provided in full text.
