Dept Environmental Services, DWGW Trust, Grants Non-Federal	\$300,000

EXPLANATION

The Drinking Water and Groundwater Trust Fund (Trust Fund) was created in 2016, using \$276 million of MtBE trial judgment funds, as authorized by RSA 485-F. The purpose of the Trust Fund is to provide sustainable, long-term funding for the protection, preservation, and enhancement of the drinking water and groundwater resources of the state. The Drinking Water and Groundwater Advisory Commission (Advisory Commission) was established to administer the Trust Fund and to provide guidance to the State on the use of the Trust Fund.

In November 2021, the Advisory Commission voted to authorize grants for eight drinking water source protection projects. SELT's request for \$300,000 was selected for grant funding from the Trust Fund. SELT will use the funds toward the purchase of a parcel in fee and acquisition of a conservation easement on approximately 154 acres of land in the wellhead protection area for the Portsmouth Pease Tradeport community water supply.

The total project cost for SELT towards the purchase and acquisition of conservation easements is \$5,136,000. The DWGTF will provide \$300,000 with \$4,836,000 in match provided by SELT. The purchase price of the property and value of conservation easements are based on a recent appraisal of fair market value.

Exhibit A contains any special conditions. Exhibit B describes the scope of the grant. Exhibit C contains the grant amount and payment terms. Attachment A contains a map of the land, which shows the land's relationship to the water supply source being protected. The Attorney General's office has approved the agreement as to form and substance.

We respectfully request your approval.
