The purpose of this request is to ensure continuation of inspection, testing, preventative maintenance, and corrective and emergency repairs to life safety systems located within the New Hampshire Hospital acute psychiatric services building in order to maintain proper operations of those systems. The life safety systems include fire detection, security alarm, nurse call and duress call systems.

The New Hampshire Hospital is a psychiatric facility with 168 licensed beds which provides comprehensive psychiatric and rehabilitative services for children, adult and elderly populations. New Hampshire Hospital employs over 600 individuals that provide direct care, clinical, administrative and clerical support services. The proper maintenance and inspection of the life safety systems provide a high level of safety and protection to the patients, staff and visitors of the hospital.

Notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2019, and the Department shall not be liable for any payments for services provided after June 30, 2019, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the SFY 2020-2021 biennia.

This original Agreement was competitively bid and contains language that allows the Department the right to extend contract services for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of services, agreement of the parties and approval of the Governor and Executive Council.

Should the Governor and Executive Council not approve this request, New Hampshire Hospital may not be in compliance with Joint Commission requirements and the New Hampshire Life Safety Code as requested by the Bureau of Health Facilities. In addition, the patients and employees of the hospital lives could be at risk due to inadequately maintained life safety systems.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and
