INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America: this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

HEADREST, INC.
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2015 AND 2014

NOTE 1 – NATURE OF ORGANIZATION

Headrest, Inc. ("Headrest") is a New Hampshire nonprofit corporation that provides information and referral, crisis intervention and other related services through the use of a telephone hotline and office visitations. Headrest also provides counseling and emergency shelter to transients, and information to the community relating to drugs and alcohol.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

The summary of significant accounting policies of Headrest is presented to assist in understanding the Organization's financial statements. The financial statements and notes are representations of Headrest's management who is responsible for their integrity and objectivity. These accounting policies conform to U.S. generally accepted accounting principles and have been consistently applied in the preparation of the financial statements.

The financial statements of Headrest have been prepared on the accrual basis of accounting. The significant accounting policies followed are described below.

Financial statement presentation

Financial statement presentation follows the recommendations of the Financial Accounting Standards Board in its Statement of Financial Accounting Standards (SFAS) No. 117, "Financial Statements of Not-for-Profit Organizations". Under SFAS No. 117. Headrest is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted net assets are comprised of operating revenues and expenses and contributions pledged which are not subject to any donor-imposed restrictions. Headrest, Inc. currently has $174,663 and $275,781 unrestricted net assets as of June 30, 2015 and 2014, respectively.

Temporary restricted net assets are comprised of contributions and gifts for which donor-imposed restrictions will be met either by the passage of time or the actions of the Organization. Headrest, Inc. currently has no temporarily restricted net assets as of June 30, 2015 and 2014, respectively.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Permanently restricted net assets include those assets for which donor-imposed restrictions stipulate that the asset be permanently maintained by the Organization. Headrest, Inc. has no permanently restricted net assets as of June 30, 2015 and 2014.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash equivalents – For purposes of the statement of cash flows, Headrest considers all short-term investments with an original maturity of three months or less to be cash equivalents. At June 30, 2015 and 2014 there were no cash equivalents.

Assets limited as to USE

Assets Limited as to Use represent board-designated assets for capital expenditures and reserves amounting to $132,753 and $124,952 at June 30, 2015 and 2014. Assets limited to use consist of cash and cash .equivalents however these amounts have not been included in cash and cash equivalents for cash flow purposes.

Allowance for doubtful accounts – Headrest considers accounts receivable to be fully collectible, accordingly, no allowance for doubtful accounts is required.

Depreciation and fixed assets – Property and equipment are stated at cost if purchased and at fair market value on the date of the donations if donated. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted or temporarily restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, Headrest reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. Headrest reclassifies temporarily restricted net assets to unrestricted net assets at that time. Depreciation is computed using straight-line and accelerated methods based on the estimated useful life of each asset. Estimated useful lives used for building and improvements are ten to thirty- nine years and for furniture and fixtures three to seven years.

Public support and revenue – All contributions are considered to be available or unrestricted use unless specifically restricted by the donor.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income taxes – The Organization is a not-for-profit organization that is exempt from income taxes under Section 501©(3) of the Internal Revenue Code and classified by the Internal Revenue Service as other than a private foundation.

The Organization adopted the recognition requirements for uncertain income tax positions as required by generally accepted accounting principles, with no cumulative effect adjustment required. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more –likely-than-not be sustained upon examination by taxing authorities. The Organization has analyzed tax positions taken for filing with the Internal Revenue Service and the state jurisdiction where it operates. The Organization believes that income tax filing positions will be sustained upon examination and does not anticipate any adjustments that would result in a material adverse affect on the Organization's financial condition, results of operations or cash flows. Accordingly, the Organization has not recorded any reserves, or related accruals for interest and penalties for uncertain income tax positions at June 30, 2015.

Donated services and materials - Donated supplies and equipment are reflected as contributions in the accompanying financial statements at their estimated fair market values.

Functional expenses – Functional and administrative expenses have been allocated among program services based on an analysis of personnel time and space utilized for the activities.

NOTE 3 – LINE OF CREDIT

The Organization has a $50,000 line of credit with a local bank through January 30, 2016, collateralized by all assets, with interest at Wall Street Journal prime. There was no outstanding balance at June 30, 2015 or 2014.

More information can be found at: http://www.asam.org/

2.3. American Society of Addiction Medicine Criteria: ASAM's criteria, formerly known as the ASAM patient placement criteria, is the result of a collaboration that began in the 1980s to define one national set of criteria for providing outcome-orientated and results-based care in the treatment of addiction. Today the criteria have become the most widely used and comprehensive set of guidelines for placement, continued stay and transfer/discharge of patients with addiction and co-occurring conditions. ASAM's criteria are required in over 30 states. More information can be found at: http://www.asam.org/publications/the-asam-criteria

The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of Horizon Counseling Center, Inc.
Gilford, NH 03246

We have audited the accompanying financial statements of Horizon Counseling Center, Inc. (a nonprofit organization), which comprise the statements of financial position as of June 30, 2013 and 2012, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Horizon Counseling Center, Inc. as of June 30, 2013 and 2012, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Horizons Counseling Center, Inc.
Notes to Financial Statements
June 30, 2013 and 2012

Note 1: Organization

Horizons Counseling Center, Inc. is a New Hampshire non-profit organization incorporated March 2, 1990. The Organization is dedicated to providing quality mental health care services for the comprehensive prevention, assessment and treatment of substance abuse and dependence, and related behavioral matters. Services are provided to substance abusers, their families and others affected by the substance abuse. The Organization is dedicated to providing these services to those of limited financial ability, regardless of their ability to pay.

Note 2: Summary of Significant Accounting Policies

Accounting Method

The financial statements have been prepared using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when they are earned and expenses are recorded at the time liabilities are incurred.

Net Assets

The Organization reports its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted Net Assets include the portion of funds that are not restricted by donor or grantor and are available for support of the Organizations operation.

Temporarily Restricted Net Assets include the portion of funds for which donor or grantor restrictions have not yet been met and for which the ultimate purpose of the proceeds are not permanently restricted.

Permanently Restricted Net Assets include the portion of funds for which donor or grantor imposed restrictions require the funds to be maintained permanently by the Organization.

Cash and Cash Equivalents

For the purposes of the statement of cash flows, the Organization considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents.

Accounts Receivable

Accounts receivable is stated at net realizable value and consists of amounts due from clients for services rendered. Service fees are recorded in the year in which the service is performed. Uncollectible amounts, estimated by management based on historical data, are recorded in the period during which the services are provided even though the actual amounts may become known at a later date.

Note 2: Summary of Significant Accounting Policies – continued

Accounts Receivable - continued

Under terms of the State grant the Organization receives, no patient may be denied services for an inability to pay, resulting in services that are provided but are never expected to result in cash flows. These services estimated at approximately 54% of billings, do not qualify for recognition as receivables or revenue.

Property and Equipment

Property and equipment are recorded at cost or, if donated, at their fair market value at the date of donation. Maintenance and repairs are charged to operations when incurred; major purchases and improvements are capitalized. Fixed assets, consisting of computer and telephone equipment are being depreciated over a five year period using the straight line method.

Grants

The State of New Hampshire in accordance with a grant contract with the Organization allows any surplus of revenues over expenses to be used on activities approved by the grant contract with the State of New Hampshire Department of Health and Human Services – Bureau of Drug and Alcohol Services (BDAS) to cover shortfalls or to be expended at HCC's discretion to increase or improve service delivery within the programs specified by the contract except that such expenditures shall not increase the annualized operating cost of such programs without the prior written approval of BDAS. (See Note 6)

Contributions

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor restrictions. When a restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. The Organization has chosen to record restricted contributions whose restrictions are met in the same reporting period as unrestricted contributions.

Schedules of Functional Expenses

The costs of providing various program and management services have been summarized on a functional basis in the Statement of Functional Expenses. Accordingly, certain costs have been allocated amongst the program services and management services benefited based on actual costs and analysis of personnel time.

Note 2: Summary of Significant Accounting Policies – continued

Use of Estimates

Preparation of the Organizations' financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could vary from these estimates.

In-Kind Contributions

In-kind contributions are recorded at fair market value and recognized as revenue in the accounting period in which they are received. During the years ended June 30, 2013 and 2012, donated professional services of $6,400 and $0 were received and recorded in the financial statements. Volunteers, mainly board members, donate time to the Organization's program services. These services have not been included in donated materials and services because their value has not been determined.

Federally Insured Limits

The Organization maintains its cash account at one financial institution, which is secured by the Federal Deposit Insurance Corporation (FDIC) up to $250,000 in aggregate. The Organization has not exceeded this limit for the years ending June 30, 2013 and 2012.

Tax Status

The Organization is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code and did not conduct unrelated business activities. Therefore, there is no provision for federal income taxes in the accompanying financial statements. In addition, the Organization has been determined by the IRS not to be a private foundation within the meaning of Section 590(a) of the Internal Revenue Code.

Uncertainty in Income Taxes

The Organization recognizes uncertain income tax positions as required by generally accepted accounting principles. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more-likely-than-not be sustained

Note 2: Summary of Significant Accounting Policies – continued

Uncertainty in Income Taxes - continued

upon examination by taxing authorities. The Organization has analyzed its tax positions taken for filing with the Internal Revenue Service and the State of New Hampshire. The Organization believes that the income tax filing positions will be sustained upon examination and does not anticipate any adjustments that would result in a material adverse affect on the Organization's financial condition, results of operations, or cash flows. Accordingly, the Organization has not recorded any reserves or related accruals for interest and penalties for uncertain tax positions at June 30, 2013.

The Organization is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations in progress for any tax period. The Organization believes it is no longer subject to income tax examinations for fiscal years ended prior to June 30, 2010.

Note 3: Leased Facilities and Related Party

The Organization rents the Gilford office from a related party, the spouse of the Executive Director. The rental agreement is unwritten, but annual rental payments are approved each year by the Board of Directors. For the years ended June 30, 2013 and 2012 the total rent paid to the related party was $13,400.

For the years ended June 30, 2013 and 2012, the Organization also rented space in Plymouth, New Hampshire. A 24 month lease agreement was entered into on January 1, 2012, which calls for monthly rent payments of $475. The total rent for the Plymouth office for the June 30, 2013 and 2012 was $5,550 and $5,700, respectively.

Effective August 6, 2012, the Organization rented space in Gilford, New Hampshire. The lease is for one year, which calls for monthly rent payments of $900. Total rent paid for the year ended June 30, 2013 was $9,900.

Note 4: Concentration of Risk

The Organization grants credit to its patients, most of whom are local residents and some of whom are insured under third-party payer agreements. Based upon factors surrounding the credit risk of specific patients, historical trends, and other information, the Organization has estimated the collectible balances for patient receivables. No collateral or other security to support patient receivables is required.

The Organization receives the majority of its support from the New Hampshire Department of Health and Human Services. In the event that this support were to be eliminated, it is likely that the Organization would need to reduce its current operations.

Note 5: Grant Revenue and Support

The Organization receives substantial funding in the form of grants from the New Hampshire Department of Health and Human Services - Bureau of Drug and Alcohol Services (BDAS). The Organization reports the grant funding as income for the period in which services are rendered and costs are incurred.

Under the terms of the grant, no patient may be denied services due to an inability to pay for such services. Consequently, all patients are billed on a sliding fee scale based upon their financial resources. The difference between the established rates and the amount collectible and the difference between the established rates and third-party payments are deducted from gross service revenue.

Note 6: Related Party

During the year ended June 30, 2013, the Organization received donations totaling $10,500 from relatives of the executive director.

Note 7: Subsequent Events

Management has evaluated subsequent events through November 6, 2014, which is the date the financial statements were available to be issued.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. 6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

    11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

The Board of Directors
Easter Seals New Hampshire, Inc. and Subsidiaries

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of Easter Seals New Hampshire, Inc. and Subsidiaries (Easter Seals NH), which comprise the consolidated statement of financial position as of August 31, 2015, and the related consolidated statements of activities and changes in net assets, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated December 10, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered Easter Seals NH's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of Easter Seals NH's internal control. Accordingly, we do not express an opinion on the effectiveness of Easter Seals NH's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The Board of Directors
Easter Seals New Hampshire, Inc. and Subsidiaries

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Easter Seals NH's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY OMB CIRCULAR A-133

The Board of Directors
Easter Seals New Hampshire, Inc. and Subsidiaries

Report on Compliance for Each Major Federal Program

We have audited Easter Seals New Hampshire, Inc. and Subsidiaries' (Easter Seals NH) compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Easter Seals NH's major federal programs for the year ended August 31, 2015. Easter Seals NH's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Easter Seals NH's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Easter Seals NH's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Easter Seals NH's compliance.

Opinion on Each Major Federal Program

In our opinion, Easter Seals NH complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2015.

The Board of Directors
Easter Seals New Hampshire, Inc. and Subsidiaries

Report on Internal Control Over Compliance

Management of Easter Seals NH is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Easter Seals NH's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Easter Seals NH's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the consolidated financial statements of Easter Seals NH as of and for the year ended August 31, 2015, and have issued our report thereon dated December 10, 2015, which contained an unmodified opinion on those consolidated financial statements. Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Finding 2014-1: Debarment, Title XX Adult Day Program

Federal Program Information:

U.S. Department of Health and Human Services: Passed through the New Hampshire Bureau of Elderly and Adult Services: Social Services Block Grant: Title XX Adult Day Program: CFDA #93.667

Criteria or Specific Requirement:

Review of Vendors

Condition:

Easter Seals NH does not actively monitor activity with its vendors to ensure no debarred or suspended vendors are used for services.

Questioned Costs:

None

Context:

Compliance testing

Effect:

Lack of oversight of vendors used.

Cause:

No policy or procedure has been implemented to monitor vendors for suspension or debarment.

Recommendation:

Easter Seals NH should implement a procedure for reviewing vendors for possible debarment or suspension.

Corrective Action Taken:

A policy and procedure was developed and immediately implemented requiring the Accounts Payable staff to look up new vendors on the SAM website before setting them up or making any payments to them. The contract staff is also required to check the status before establishing or renewing any contract. Staff will document that they are checking the website by dating and initialing whatever documentation they received that prompted the check. The Purchasing Director or her designee will review and confirm in writing that these checks have been performed. Accounts Payable/Purchasing staff will prioritize the vendor list and review all vendors Easter Seals NH does business with that have volume greater than $25,000 to ensure none are on the Debarred/Suspended list, and will work with IT to develop a way to monitor the entire vendor file on a monthly or quarterly basis for changes in the status of established vendors, possibly subscribing to a third party service.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Serenity Place
National Council on Alcoholism and Drug Dependence Affiliate
Manchester, New Hampshire

We have audited the accompanying financial statements of Serenity Place, National Council on Alcoholism and Drug Dependence Affiliate (a nonprofit organization), which comprise the statements of financial position as of June 30, 2015 and 2014, and the related statements of activities and changes in net assets, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Serenity Place, National Council on Alcoholism and Drug Dependence Affiliate as of June 30, 2015 and 2014, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Restatement of Previously Issued Financial Statements

As discussed in Note 13 to the financial statements, an involuntary conversion resulting in understatement of amounts previously reported for net assets as of June 30, 2014, were discovered by management during the current year audit. Accordingly, amounts reported for net assets have been restated in the 2014 financial statements now presented, and an adjustment has been made to net assets as of June 30, 2014, to correct the misstatement. Our opinion is not modified with respect to that matter.

Nature of Organization:

Serenity Place, a National Council on Alcoholism and Drug Dependence Affiliate (the "Organization"), is a non-profit organization formed under the laws of the State of New Hampshire in 1979 for the purpose of providing opportunities for the chemically dependent person to become free of those chemical, to maintain that freedom and to return to the community as a contributing member.

Note 1 - Summary of Significant Accounting Principles:

A. Basis of Presentation

The Organization presents its financial statements on the accrual basis of accounting. The accrual basis recognizes income when earned and expenses when they occur.

B. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Organization considers all highly liquid deposits with maturity of three months or less to be cash and/or cash equivalents.

C. Use of Estimates in the Preparation of Financial Statements

Management uses estimates and assumptions in preparing these financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were used.

D. Accounting Principles

Under current accounting standards, the Organization is required to report information regarding its financial position and activities according to three classes of net assets. Those three classes are as follows:

Unrestricted Net Assets:
The portion of net assets of a not-for-profit Organization that is neither permanently restricted nor temporarily restricted by donor imposed stipulations.

-Continued on Next Page-

Note 1 - Summary of Significant Accounting Principles - Continued:

D. Accounting Principles - Continued

Temporarily Restricted Net Assets:
The portion of net assets of a not-for-profit Organization resulting (a) from contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Organization pursuant to those stipulations, (b) from other asset enhancements and diminishments subject to the same kinds of stipulations, and (c) for reclassifications to or from other classes of net assets as a consequence of donor-imposed stipulations, their expiration by passage of time, or their fulfillments and removal by actions of the Organization pursuant to those stipulations. Temporarily Restricted Net Assets at June 30, 2015 and 2014 were $21,711 and $28,556, respectively.

Permanently Restricted Net Assets:
The portion of net assets of a not-for-profit Organization resulting (a) from contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that neither expire by the passage of time nor can be fulfilled or otherwise removed by actions of the Organizations, (b) from other asset enhancements and diminishments subject to the same kinds of stipulations, and (c) from reclassifications from or to other classes of net assets as a consequence of donor-imposed stipulations. There are no Permanently Restricted Net Assets at June 30, 2015 and 2014.

E. Income Taxes

The Organization is exempt from Federal Income Tax under Section 501(c)(3) of the Internal Revenue Code. There are no state income taxes due to the fact that the State of New Hampshire recognizes Section 501(c)(3) for exemption of organizations that are organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes. The Organization's evaluation on June 30, 2015 and 2014 revealed no uncertain tax positions that would have a material impact of the financial statements.

The Organization's information returns are subject to possible examination by the taxing authorities. For federal purposes the returns essentially remain open for possible examination for a period of three years after the respective filing deadlines of those returns.

-Continued on Next Page-

Note 1 - Summary of Significant Accounting Principles - Continued:

F. Fixed Assets

Fixed assets are recorded at historical cost at the time of acquisition. Depreciation is calculated by the straight-line method over their estimated useful lives ranging from three to thirty-nine years. Repairs and maintenance are charged to operations as incurred, whereas major betterments are capitalized. The estimated useful lives of the assets are as follows:

Description	Method	Life
Furniture and Fixtures	Straight-Line	5-7 years
Equipment	Straight-Line	3-5 years
Vehicles	Straight-Line	5 years
Buildings and Improvements	Straight-Line	5-39 years

G. Accounts Receivable

Accounts receivable are reported at net realizable value. Net realizable value is equal to the gross amount of receivables less an estimated allowance for uncollectible accounts. Historically, the Organization has not experienced material write offs, and therefore has not established an allowance account.

H. Donor-Restricted Contributions

The Organization's policy is to report donor-restricted contributions whose restrictions are met in the same reporting period, as unrestricted support, as there is no effect to reported restricted net assets.

I. Investments

The Organization follows the FASB Accounting Standards Codification with respect to investments. Under this subtopic, investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets. See Note No. 9.

J. Fair Value of Financial Instruments

Current accounting standards require the Organization to disclose estimated fair value for its financial instruments. The carrying amounts of cash, other receivables, prepaid expenses, accounts payable, accrued expenses and refundable advances approximate fair value because of the short maturity of those instruments.

-Continued on Next Page-

Note 1 - Summary of Significant Accounting Principles - Continued:

K. Advertising

The Organization follows the policy of charging the costs of advertising to expense as they are incurred. Advertising expenses were $2,834 and $814 for the years ended June 30, 2015 and 2014, respectively.

L. Functional Allocation of Expenses

The costs of providing the various program services have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Note 2 - Receivables:

Receivables are as follows:

	2015	2014
Oxford House	$ 0	$ 7,500
US Probation Contract	1,442	17,981

Totals	**$**	**20,000**

Note 4 – State Loan Payable:

At June 30, 2014, the Organization had a State Loan Payable of $20,000. This loan was intended for the Organization to loan money to the clients of the Oxford House. At June 30, 2015, the State deemed the loan as a grant and as such, was recognized as revenue.

Note 5 – Temporarily Restricted Net Assets:

Temporarily Restricted Net Assets at June 30, 2015 consist of the following:

Bean Foundation – Building Repairs	$	8,155
Bishops Fund		5,000
Samuel Hunt Foundation – Building Repairs		8,556
	$	21,711

Note 6 – Concentration of Credit Risk – Cash in Bank:

The Organization maintains its bank accounts with commercial banks, which could at times exceed federally insured limits. Management considers this risk minimal.

Note 7 – Concentration of Revenue and Support Sources:

The Organization's primary source of revenues are Block Grants for Prevention and Treatment of Substance Abuse passed through by the State of New Hampshire. Revenue is recognized as earned under the terms of the grant contract. Other support originates from charges for private services and miscellaneous income and grants.

-Continued on Next Page-

Note 8 – Contributions:

Donated materials, equipment and essential services are reflected as contributions in the accompanying financial statements at fair market value, at the date of the donation. The Organization also adopted a policy to record an in-kind donation for food procured at a below market rate from another non-profit organization. These transactions have been recorded as follows.

	2015	2014
Donated services, materials, equipment and food	$ 57,286	$ 28,962

Note 9 – Investments:

The cost and fair market values of investment securities held are as follows:

Description	Cost	Fair Market Value	Accumulated Holding Gains Or (Losses)
Mutual Funds - 2015	$ 50,910	$ 85,863	$ 34,953
Mutual Funds – 2014	$ 45,862	$ 84,144	$ 38,282

Current year unrealized gains (losses) were $(3,329) and $11,436 for the years ended June 30, 2015 and 2014, respectively.

NOTE 10 – Fair Value Measurements:

The Organization utilizes all relevant and available information in measuring fair value of investment assets and liabilities in accordance with FASB ASC 820, *Fair Value Measurements and Disclosures*. The fair value hierarchy of ASC 820 prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 - Quoted prices in active markets for similar assets or markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement and may require the School to develop its own assumptions.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

-Continued on Next Page-

NOTE 10 – Fair Value Measurements: - Continued

Some of the Organization's financial assets are not measured on a recurring basis but nevertheless are recorded at amounts that approximate fair value due to their liquid or short term nature. Such financial assets and liabilities include cash and bank deposits, certificates of deposit, accounts receivable and accounts payable.

The following is a description of the valuation methodologies used for assets measured at fair value:

Money Market Fund, Mutual Funds and Equity Investments: Valued at the net asset value (NAV) of shares held by the Organization at year end as reported by the investment management firm.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values.

Furthermore, although the Organization believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Organization's investments at fair value as of June 30, 2015;

	Level 1	Level 2	Level 3	Total
Corporate Equity Mutual Funds	$85,863	0	0	$85,863

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
    - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;

    - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
    - 13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Board of Directors of
Phoenix Houses of New England, Inc.:

We have audited the accompanying financial statements of Phoenix Houses of New England, Inc. ("PH New England"), which comprise the statements of financial position as of June 30, 2015 and 2014, and the related statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform our audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to PH New England's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of PH New England's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material aspects, the financial position of Phoenix Houses of New England, Inc. as of June 30, 2015 and 2014, and the results of its operations and changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Supplementary Information

Our audits were conducted for the purposes of forming an opinion on the financial statements of PH New England as of and for the years ended June 30, 2015 and 2014, taken as a whole. The supplementary information included on pages 18 and 19 is presented for purposes of additional analysis and is not a required part of the financial statements. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling the information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

1. ORGANIZATION

Phoenix Houses of New England, Inc. ("PH New England") is a Section 501(c)(3) not-for-profit organization, exempt from federal income taxes under Section 501(a) of the Internal Revenue Code (the "Code"). PH New England is also exempt from state and local taxes under similar provisions. PH New England was established in order to operate therapeutic treatment centers for the rehabilitation of drug and substance abusers throughout New England.

Phoenix House Foundation, Inc. (the "Parent") is the sole member of PH New England and the following affiliated organizations: Phoenix Houses of New York, Inc. and Affiliates (which consists of Phoenix Houses of New York, Inc. and Phoenix Houses of Long Island, Inc.); Phoenix Houses of California, Inc. and Affiliates (which consists of Phoenix Houses of California, Inc.; Phoenix Houses of Los Angeles, Inc.; Phoenix House Orange County, Inc.; and Phoenix House San Diego, Inc.); Phoenix Houses of the Mid-Atlantic, Inc. and Affiliate (which consists of Phoenix Houses of the Mid-Atlantic, Inc. and Phoenix Houses of Mid-Atlantic Property Management, Inc.); Phoenix Programs of Florida, Inc.; Phoenix Houses of Texas, Inc.; American Council for Drug Education, Inc.; Center on Addiction and the Family, Inc.; and Phoenix Houses of New Jersey, Inc.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). Accordingly, the net assets of PH New England and changes therein are classified and reported based upon the existence or absence of donor-imposed restrictions as follows:

- Unrestricted net assets represent expendable resources that are used to carry out PH New England's operations and are not subject to donor-imposed stipulations.
- Temporarily restricted net assets represent resources that contain donor-imposed restrictions that permit PH New England to use or expend such resources only as or when specified. Restrictions are satisfied either by the passage of time or by actions of PH New England.
- Permanently restricted net assets contain donor-imposed restrictions that stipulate that such resources be maintained permanently. PH New England had no permanently restricted net assets at June 30, 2015 and 2014.

Cash and Cash Equivalents

PH New England considers all highly liquid financial instruments, which principally consist of money market funds, with original maturities of three months or less from the date of purchase to be cash equivalents.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The allowance for doubtful accounts on accounts receivable and the fair value of donated goods represent significant accounting estimates reflected in the accompanying financial statements. Actual results could differ from those estimates.

Donated Goods

Donated goods are recorded as revenues and assets (at fair value when received) and expenses (when used) on the statement of operations and changes in net assets. Food stamps are recorded at face amount, which is the same as fair value, as revenues and assets and are charged to resident sustenance when expended.

Property and Equipment

Property and equipment are stated at cost, if purchased, or if donated, at fair value at the date of gift, less accumulated depreciation and amortization. PH New England capitalizes assets acquired for greater than $1,000 and with useful lives greater than three years. Depreciation is computed on the straight-line basis over the estimated useful lives of the assets as follows:

Buildings and improvements	4 - 40 years
Furniture, fixtures and equipment	3 - 7 years
Computer equipment and vehicles	3 - 5 years

Furniture, fixtures and equipment acquired under capital lease arrangements are amortized on the straight-line method over the shorter of the lease term or the estimated useful life of the asset.

Statement of Operations and Changes in Net Assets

PH New England's operating income includes all unrestricted revenues and expenses. Other items include depreciation on non-operational assets and losses on disposals of capital assets. The statement of operations and changes in net assets also includes the caption "excess of (deficiency in) revenues over expenses," which is the performance indicator. Other changes in net assets, which are excluded from the performance indicator, consistent with industry practice, include restricted contributions (including assets acquired using contributions which by donor restriction are to be used for the purposes of acquiring such assets).

Revenue and Support

Contributions (including unconditional promises to give) are recorded at fair value when received. Revenues and expenses relative to special events are recognized upon occurrence of the respective event. Contributions received with donor stipulations that limit the use of the donated assets are reported as either temporarily or permanently restricted support. Unconditional promises to give, with payments due in future years, are reported as either temporarily restricted or permanently restricted support and discounted to present value. When a donor restriction expires, that is, when a time restriction ends or purpose restriction is fulfilled, temporarily restricted net assets are reclassified to unrestricted net assets and reported on the

statement of operations and changes in net assets as net assets released from restrictions. Contributions restricted by donors for the acquisition of property and equipment are released from their restrictions when the respective assets are acquired or constructed and placed into service. Such contributions and related releases are reported below the performance indicator, "excess of (deficiency in) revenues over expenses."

Special Events Revenue

Special events revenue consists of proceeds from fundraising events, reported net of direct donor benefits, if any. Revenue and related expenses are recognized upon occurrence of the respective event to which they pertain. For the years ended June 30, 2015 and 2014, direct benefits to donors totaled approximately $13,600 and $0, respectively.

Government Contract Revenue

PH New England's contracts and other program funding arrangements with government agencies are classified as part of operating activities within the unrestricted net asset category and revenue is recognized when earned. PH New England operates under various contracts with government agencies which generally cover a one-year period, subject to annual renewal. The terms of these contracts allow the grantors the right to audit the costs incurred thereunder and adjust contract funding based upon, among other things, the amount of program income received. Any costs disallowed by the grantor would be absorbed by PH New England and any adjustments by grantors would be recorded when amounts are known; however, it is the opinion of management that disallowances, if any, would not be material to the accompanying financial statements.

Client and Third Party Revenue

Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed based on pre-determined rates. Medicaid and managed Medicaid approximated 56% and 33% of total client and third-party revenue for the years ended June 30, 2015 and 2014, respectively. Contracts have been entered into with commercial insurance carriers and reimbursement is based on contracted rates.

Laws and regulations governing healthcare programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near-term. Noncompliance with such laws and regulations could result in fines, penalties, and exclusion from such programs. The federal government and many states have aggressively increased enforcement under Medicaid antifraud and abuse legislation. PH New England believes that it is in compliance, in all material respects, with all applicable laws and regulations and, is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no such regulatory inquires have been made, compliance with such laws and regulations can be subject to future government review and interpretation.

Noncompliance with such laws and regulations could result in repayments of amounts improperly reimbursed, substantial monetary fines, civil and criminal penalties and exclusion from the Medicaid program.

Concentration of Credit Risk

Financial instruments that potentially subject PH New England to concentrations of credit risk consist principally of cash and cash equivalents. PH New England maintains its cash and cash equivalents in various bank deposit accounts that, at times, may exceed federally insured limits. PH New England's cash and cash equivalents have been placed with high credit quality financial institutions at June 30, 2015 and 2014, and PH New England believes the risk of nonperformance by these financial institutions to be remote.

PH New England provides drug and alcohol rehabilitation services through its inpatient and outpatient care facilities. PH New England grants credit without collateral to clients, however, it routinely obtains assignment of (or is otherwise entitled to receive) clients' benefits payable under their respective health insurance programs, plans, or policies (e.g., Medicaid and commercial insurance providers).

Amounts due from government agencies and other receivables by financial class as a percentage of total accounts receivable at June 30, 2015 and 2014, are as follows:

Income Taxes

Guidance in the area of "*Accounting for Uncertainty in Income Taxes,*" under the Financial Accounting Standards Board ("FASB") Accounting Standard Codification, clarifies the accounting for uncertainty in tax positions taken or expected to be taken in a tax return, including issues relating to financial statement recognition and measurement. This standard provides that the tax effects from an uncertain tax position can be recognized in the financial statements only if the position is "more-likely-than-not" to be sustained if the position were to be challenged by a taxing authority. The standard also provides guidance on measurement, classification, interest and penalties, and disclosure. The adoption of this standard by PH New England did not have an impact on its financial statements. The tax years ended June 30, 2012, 2013, 2014 and 2015 are still open to audit for both federal and state purposes. PH New England has processes presently in place to ensure the maintenance of its tax-exempt status; to identify and report unrelated income; to determine its filing and tax obligations in jurisdictions for which it has nexus; and, to identify and evaluate other matters that may be considered tax positions. PH New England has determined that there are no material uncertain tax positions that require recognition or disclosure in the financial statements.

Subsequent Events

PH New England evaluated its subsequent events through November 16, 2015, the date these financial statements were available to be issued.

3. RELATED PARTY TRANSACTIONS

PH New England is charged for administrative services provided by its Parent based upon a cost allocation plan. The administrative expenses charged by the Parent approximate the federally approved indirect cost rate for the Parent and its affiliates on a consolidated basis, adjusted to reflect PH New England's own administrative expenses. For each of the years ended June 30, 2015 and 2014, such allocated charges totaled $519,000, and are included as part of administrative charges from Parent expense on the accompanying statements of operations and changes in net assets.

The Parent has adopted a cash management strategy with the principal goal of pooling its cash balances with those of its affiliates to maximize returns and reduce short-term borrowings. As a result of this strategy, certain affiliates participating in the cash management program will have corresponding amounts due to/(from) the Parent as of the reporting date. Amounts reflected as due to Parent on the accompanying statements of financial position of approximately $4,620,000 and $2,318,000 as of June 30, 2015 and 2014, respectively, relate to costs incurred by PH New England, but paid for by the Parent.

Less: Discount to present value (at a rate of 4.01%)	(1,400)	(1,400)
	$ 57,500	$ 105,500

Multi-year pledges received are recorded at the present value of their expected future cash flows using a credit adjusted discount rate which articulates with the collection period of the respective pledge. Discount rates assigned to multi-year pledges in the year of origination are not subsequently adjusted.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

More information can be found at: http://www.asam.org/

2.3. American Society of Addiction Medicine Criteria: ASAM's criteria, formerly known as the ASAM patient placement criteria, is the result of a collaboration that began in the 1980s to define one national set of criteria for providing outcome-orientated and results-based care in the treatment of addiction. Today the criteria have become the most widely used and comprehensive set of guidelines for placement, continued stay and transfer/discharge of patients with addiction and co-occurring conditions. ASAM's criteria are required in over 30 states. More information can be found at: http://www.asam.org/publications/the-asam-criteria

2.4. Charitable Choice: Charitable Choice is Public Law 102-321, 102d Congress and amended in 1992 and again in 2000 (Children's Health Services Act). Charitable Choice is a federal legislative provision designed to remove barriers to faith-based organizations receiving certain Federal funds. States may allocate Block Grant funds to faith-based treatment and recovery support services programs that maintain their religious character and hire people of their same faith, who also meet state requirements for licensing or certification of substance abuse treatment and recovery support services programs and staff. The Charitable Choice final rules were published in the Federal Register on September 30, 2003.

    14.3. The Contractor agrees to the Charitable Choice federal statutory provisions as follows:

        14.3.1. Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse

funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

INDEPENDENT AUDITORS' REPORT

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Southeastern New Hampshire Alcohol & Drug Abuse Services and Affiliate (New Hampshire nonprofit organizations), which comprise the consolidated statements of financial position as of June 30, 2015 and 2014, and the related consolidated statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Southeastern New Hampshire Alcohol & Drug Abuse Services and Affiliate as of June 30, 2015 and 2014, and the consolidated changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such

information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 28, 2015 on our consideration of Southeastern New Hampshire Alcohol & Drug Abuse Services' and Affiliate's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Southeastern New Hampshire Alcohol & Drug Abuse Services' and Affiliate's internal control over financial reporting and compliance.

SOUTHEASTERN NEW HAMPSHIRE ALCOHOL & DRUG ABUSE SERVICES AND AFFILIATE

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2015 AND 2014

NOTE 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

Southeastern New Hampshire Alcohol & Drug Abuse Services (the Organization) is a New Hampshire nonprofit organization providing treatment, rehabilitation and intervention services to alcoholics, narcotic addicts, and alcohol and drug abusers, substantially all of whom are residents of New Hampshire. A majority of revenue is derived from contracts with the State of New Hampshire.

Southeastern New Hampshire Alcohol & Drug Abuse Services Foundation (the Affiliate) is also a New Hampshire nonprofit organization that was established to raise funds for the Organization. A majority of the revenue is derived from direct public support.

Basis of Accounting

The consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles general accepted in the United States of America, as promulgated by the Financial Accounting Standards (FASB) Accounting Standards Codification (ASC).

Principles of Consolidation

The accompanying consolidated financial statements have been prepared for the Organization and the Affiliate due to the Organization being the sole beneficiary of the Affiliate. All material intercompany transactions have been eliminated.

Basis of Presentation

Financial statement presentation follows the recommendations of the FASB ASC No. 958-210 *Financial Statements of Not-for-Profit Organizations.* Under FASB ASC 958-210, the Organization and the Affiliate (as consolidated) are required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. The classes of net assets are determined by the presence or absence of donor restrictions. As of June 30, 2015 and 2014, the Organization had no permanently or temporarily restricted net assets.

Use of Estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Cash Equivalents
Cash equivalents include all highly liquid investments with an original maturity date of three months or less. There were no cash equivalents at June 30, 2015 and 2014.

Accounts Receivable
Accounts receivable is stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a provision for bad debt expense and an adjustment to a valuation allowance based on its assessment of the current status of individual receivables from grants, contracts, and others. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to the applicable accounts receivable. At June 30, 2015 and 2014, no allowance was deemed necessary.

Property and Equipment
Purchases of property and equipment are recorded at cost. Donations of property and equipment are recorded as support at their estimated fair value at the date of donation. Costs for repairs and maintenance are charged against operations. Renewals and betterments, which materially extend the life of the assets, are capitalized. Depreciation is provided for using the straight line method in amounts designed to amortize the cost of the assets over their estimated useful lives as follows:

Leasehold improvements	15 - 39 years
Vehicles, equipment and furniture	3 - 7 years

Property and equipment at June 30, 2015 and 2014 consisted of the following:

	2015	2014
Leasehold improvements	$ 407,730	$ 407,730
Vehicles	-	45,703
Equipment and furniture	228,259	228,259
	635,989	681,692
Less accumulated depreciation	544,191	561,496
	$ 91,798	$ 120,196

Costs Incurred – Future Leasehold Improvements
Certain costs have been incurred relative to future leasehold improvements to the premises currently utilized by the Organization and totaled $22,454 at June 30, 2015. The primary nature of the costs represent architectural fees.

Accrued Vacation
The Organization has accrued liabilities for future compensated leave time that its employees have earned and which is vested with the employees. The amounts totaled $28,306 and $37,045, at June 30, 2015 and 2014, respectively.

Refundable Advances
Revenues received in advance are recorded as refundable advances and recognized as revenue in the period in which the related services are provided or costs are incurred.

Contributed Support
Contributed support is reported as unrestricted or as restricted depending on the existence of donor or time stipulations that limit the use of the support. The Organization records donor-restricted contributions whose restrictions are met in the same reporting period as unrestricted support.

Income Taxes
The Organization and the Affiliate are exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Internal Revenue Service (IRS) has determined them to be other than private foundations.

Management has reviewed the tax positions for the Organization under ASC No. 740, *"Accounting for Income Taxes"* and determined that the application of FASB ASC No. 740 did not have a material impact on the consolidated financial statements. FASB ASC No. 740 establishes financial accounting and disclosure requirements for recognition and measurement of uncertain tax positions taken or expected to be taken on a U.S. information return. There were no uncertain tax positions as of June 30, 2015 and 2014, and all tax years from 2012 forward are open and subject to IRS examination.

Functional Allocation of Expenses
The costs of providing the various programs and other activities have been summarized in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Advertising
Advertising costs are expensed as incurred.

Concentrations of Risk
The Organization maintains its cash balances at one financial institution. The balances are insured by the Federal Deposit Insurance Corporation (FDIC) up to $250,000. As of June 30, 2015 and 2014, the uninsured balances were $464,082 and $525,823, respectively.

A majority of the Organization's services are derived from services performed for New Hampshire citizens. The main source of revenue for the Organization is derived from contracts with the State of New Hampshire. These contracts represent 73% and 79%, respectively, of the Organization's public support and revenue for the fiscal years ended June 30, 2015 and 2014. The accounts receivable related to these contracts totaled $195,644 and $98,064 at June 30, 2015 and 2014, respectively. The Organization does not require collateral or other security to support these financial instruments.

Fair Value of Financial Instruments

Unless otherwise indicated, fair values of all reported assets and liabilities that are financial instruments approximate the carrying values of such amounts.

NOTE 2. BOARD DESIGNATED UNRESTRICTED NET ASSETS

The Board of Directors designated $25,000 and $37,721, respectively, of unrestricted net assets for the fiscal years ended June 30, 2015 and 2014. The designation was established to provide for pension contributions for the fiscal years ending June 30, 2016 and 2015, respectively.

NOTE 3. LEASE COMMITMENTS

The Organization leases office and temporary boarding facilities under the terms of a noncancelable operating lease agreement which expires on December 31, 2015, with no renewal options available at this time. Future minimum rental payments as of June 30, 2015 are $26,613 for the year ending June 30, 2016.

Total rent expense was $57,721 and $56,955 for the years ended June 30, 2015 and 2014, respectively.

NOTE 4. CONTINGENCIES

The Organization receives funds from various funding sources. Under the terms of the agreements, the Organization is required to use the funds for purposes specified by the governing laws and regulations. If expenditures were found not to have been made in compliance with the laws and regulations, the Organization might be required to repay the funds. No provisions have been made for this contingency because specific amounts, if any, have not been determined or assessed by government audits as of June 30, 2015 and 2014.

NOTE 5. RETIREMENT PLAN

The Organization maintains a tax sheltered annuity plan qualified under Section 403(b) of the Internal Revenue Code. The plan covers full-time employees of the Organization. The Organization makes matching contributions up to 3% of gross salaries for qualified employees. Employees may make contributions to the plan up to the maximum amount allowed by the Internal Revenue Code. Plan expenses were approximately $21,588 and $22,712 for the years ended June 30, 2015 and 2014, respectively.

NOTE 6. NONCASH TRANSACTIONS/IN-KIND DONATION

The Organization receives a discount for the rental of certain real estate. For the years ended June 30, 2015 and 2014, the total value of this contribution was $6,000 for each year.

NOTE 7. LINE OF CREDIT

The Organization has a revolving line of credit agreement with a bank in the amount of $50,000 for the years ended June 30, 2015 and 2014. The line requires monthly interest payments on the unpaid principal balance at the rate of 1.50% over the bank's stated index. The rate charged was 4.75% during the fiscal years ended June 30, 2015 and 2014. The line of credit is secured by a security interest in all business assets. The Organization is required to annually observe thirty consecutive days without an outstanding balance. At June 30, 2015 and 2014, there was no outstanding balance on the line.

NOTE 8. RECLASSIFICATIONS

Certain items from the June 30, 2014 consolidated financial statements have been reclassified in order to enhance the comparability to the June 30, 2015 consolidated financial statements.

NOTE 9. SUBSEQUENT EVENTS

Subsequent events have been evaluated through October 28, 2015 the date when the consolidated financial statements were available to be issued.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors
Southeastern New Hampshire Alcohol & Drug Abuse Services and Affiliate
Dover, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of Southeastern New Hampshire Alcohol & Drug Abuse Services and Affiliate (New Hampshire nonprofit organizations), which comprise the consolidated statements of financial position as of June 30, 2015 and 2014, and the related consolidated statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated October 28, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered Southeastern New Hampshire Alcohol & Drug Abuse Services' and Affiliate's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of Southeastern New Hampshire Alcohol & Drug Abuse Services' and Affiliate's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's and Affiliate's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entities' financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Southeastern New Hampshire Alcohol & Drug Abuse Services' and Affiliate's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entities' internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entities' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SOUTHEASTERN NEW HAMPSHIRE ALCOHOL & DRUG ABUSE SERVICES

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Board of Directors
Southeastern New Hampshire Alcohol & Drug Abuse Services
Dover, New Hampshire

Report on Compliance for Each Major Federal Program

We have audited Southeastern New Hampshire Alcohol & Drug Abuse Services' compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Southeastern New Hampshire Alcohol & Drug Abuse Services' major federal programs for the year ended June 30, 2015. Southeastern New Hampshire Alcohol & Drug Abuse Services' major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Southeastern New Hampshire Alcohol & Drug Abuse Services' major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Southeastern New Hampshire Alcohol & Drug Abuse Services' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Southeastern New Hampshire Alcohol & Drug Abuse Services' compliance.

Opinion on Each Major Federal Program

In our opinion, Southeastern New Hampshire Alcohol & Drug Abuse Services complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of Southeastern New Hampshire Alcohol & Drug Abuse Services is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Southeastern New Hampshire Alcohol & Drug Abuse Services' internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Southeastern New Hampshire Alcohol & Drug Abuse Services' internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

Independent Auditors' Report

To The Board of Directors
The Youth Council, Inc.
Nashua, New Hampshire

We have audited the accompanying financial statements of The Youth Council, Inc., which comprise the statement of financial position as of June 30, 2015 and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

The Agency provides counseling, diversion programs, and onsite services designed to strengthen families, improve decision-making skills, and reduce involvement with the legal system for children, teens, and families struggling with abuse, neglect, substance abuse, behavioral difficulties, and parenting stress. Additional services provided to third parties relating to drug programs and counseling to various schools and organizations.

Accounting Method

Support, revenue and expenses are recorded on the accrual basis of accounting. Contract revenue is recognized when services are rendered. Donations are recorded when unconditionally pledged. Expenses are recorded when the obligation has been incurred.

Contributions of donated non-cash assets are recorded at their fair value in the period received. Contributions of donated services that create or enhance non-financial assets or that require specialized skills, which are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are recorded at their fair values in the period received.

Promises to Give

Contributions are recognized when the donor makes a promise to give to the Agency that is, in substance, unconditional. Contributions that are restricted by the donor are reported as increases in unrestricted net assets if the restrictions expire in the fiscal year in which the contributions are recognized. All other donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets.

Financial Statement Presentation

The Agency reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, and temporarily and permanently restricted net assets.

Unrestricted net assets – Net assets that are not subject to donor-imposed stipulations. All contributions are considered to be available for unrestricted use unless specifically restricted by donor.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Statement Presentation (Continued)

Temporarily and permanently restricted net assets – Net assets subject to donor-imposed stipulations that may or will be met, either by actions of the Agency or the passage of time, or are permanent in nature. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Accounts Receivable

The Agency utilizes the reserve method of accounting for bad debts. Management determines the allowance based on its historical information and a review of the individual balances. A reserve of $500 was required as of June 30, 2015.

Property, Equipment and Depreciation

Property and equipment is recorded at cost (or fair market value if donated) and is depreciated using the straight-line method over estimated useful lives as follows:

Description	Life
Building	30 years
Furniture & fixtures	3-7 years
Building improvements	7-31.5 years

Other Assets

Loan fees are being amortized on the straight line basis over ten years. Amortization expense for the year ended June 30, 2015, was $478.

Cash Flows

For purposes of the statement of cash flows, the Agency considers all short-term securities purchased with a maturity of three months or less to be cash equivalents.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes

The Youth Council, Inc. is generally exempt from income taxes pursuant to the Internal Revenue Code Section 501(c)(3). However, income from certain activities not directly related to the Organization's tax-exempt purpose is subject to taxation as unrelated business income.

The current year unrelated business income tax is zero.

The Agency's income tax filings are subject to audit by various taxing authorities. As of June 30, 2015, the Agency's open audit periods included years ending June 30, 2012 through 2015. The Agency believes it has met all the requirements to maintain its not-for-profit status.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis. Accordingly, costs have been allocated among the programs and supporting services benefited.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

NOTE B. NOTE PAYABLE

The Youth Council, Inc. was obligated on the following note at June 30, 2015:

The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
    - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
    - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
    - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (l)(b) of this certification; and
    - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
    - 13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
    - 13.2. where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal (contract).

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

EXPLANATION

This Amendment is a late item on the agenda because the Contractor needs to begin, as soon as possible, the planning activities for new construction or renovation to an existing building owned by the contractor. The resulting new construction or renovations will allow the Contractor to expand their capacity to provide more residential treatment services in the North Country. The Contractor will also seek and apply for other federal and state funding sources to support the costs for the actual new construction or renovation. The Department supports this request because while residential services are inadequate on a statewide level; this is particularly salient in the North Country. This amendment provides funding for a critical first step in addressing the shortage.

The attached amendment represents one (1) of a total of fifteen (15) amendments with a price limitation of $460,400 of a total combined price limitation of $12,032,600. The other fourteen amendments will be presented to the Governor and Executive council at an upcoming meeting.

The current substance use disorders treatment workforce in New Hampshire is inadequate to meet the needs of individuals, families and communities across the state. Many factors contribute to this workforce shortage; two factors are low compensation and an insufficient pool of qualified supervisors.

Approval of this Amendment will allow the Contractor to be reimbursed for services at increased rates and modify the personnel supervision requirements. The higher rates will increase the compensation for direct service staff who provide substance use disorder treatment and recovery support services to clients. In addition, these Amendments allow the Contractor's qualified supervisors to provide clinical supervision to a larger number of clinicians to better leverage the available pool of qualified supervisors.

The Agreement with Tri-County Community Action Program is part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families and communities as well as to respond to other types of substance use disorders. In 2014 there were 326 drug overdose deaths in New Hampshire with the death toll for 2015 at 431 as of March 28, 2016; however, the 2015 statistics are expected to increase as cases are still pending analysis.

This Contractor was originally selected through a competitive bid process.

The Department will monitor the performance of the Vendor by reviewing monthly reports such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the

Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The attached Contract includes language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request; the additional critical components in the Department's workforce development to provide substance use disorder services would not be addressed, which could result in exacerbating workforce attrition and shortages. In addition, the opportunity to expand capacity of residential treatment capacity in the North Country could be compromised.

Area served: Statewide.

EXPLANATION

This Agreement represents the last of fifteen (15) agreements with a combined price limitation of $11,940,600. On March 23, 2016 (Item #6), Governor and Executive Council approved 14 Agreements with a combined price limitation of $11,451,100.

This Agreement will allow Contractor to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. (See attached Summary of Contracted Services by Vendor). Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluations based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria.

This Agreement is part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 325 drug overdose deaths in New Hampshire with the death toll for 2015 at 431 as of March 28, 2016; however, the 2015 statistics are expected to increase as cases are still pending analysis.

The Department published a Request for Proposals for Substance Use Disorder Treatment and Recovery Support Services (RFP #16-DHHS-DCBCS-BDAS-03) on the Department of Health and Humans Services website November 3, 2015 to December 15, 2015. The Department received fifteen proposals. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected all the Vendors to provide these services (See attached Summary Score Sheet).

Some of the Vendors' proposals scored lower than anticipated; however, it was determined that losing substance use disorder treatment and recovery support services in the midst of an Opioid Crisis would be detrimental to the individuals, families, and communities of New Hampshire. In order to ensure effective delivery of services, the Department has strengthened language in the Vendors' contracts.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist, to ensure clients have faster access to services by maintaining and monitoring a waitlist on an agency and statewide level, to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis, and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of this Vendor by monitoring monthly reports, quarterly utilization, completing site visits, and reviewing client records. In addition, the Department is developing a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The attached Contract includes language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request, the Contractor would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders, the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment services could result in the loss of Federal Block Grant funds made available for these services.

Area served: Statewide.

Source of Funds: 56.1% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 29.4% General Funds and 14.5% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

EXPLANATION

The attached agreements represent fourteen (14) of a total fifteen (15) agreements with a combined price limitation of $11,451,100 of a total $11,940,600 that will allow the Contractors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. (See attached Summary of Contracted Services by Vendor). Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluations based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. The final contract will be presented to the Governor and Executive Council at an upcoming meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 325 drug overdose deaths in New Hampshire with the death toll for 2015 at 385 as of January 8, 2016; however, the 2015 statistics are expected to increase as cases are still pending analysis.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The Contract for National Council on Alcoholism and Drug Dependency/Greater Manchester includes language in Exhibit A, Section 25, for the use of the Tirrell House, a State owned building, for residential substance use disorder treatment services for up to 14 individuals. The Contract includes up to $286,000 for repairs/replacement of the fire alarm system, fire suppression system, upgrade the kitchen, and other miscellaneous repairs as required by the joint inspection of the State of New Hampshire Fire Marshall, City of Manchester, and the Department's Health Facilities Administration.
