EXPLANATION

The attached amendments represent the final fourteen (14) of a total of fifteen (15) amendments with a total combined price limitation of $12,032,600. On June 15, 2016 (Late Item #A1), Governor and Executive Council approved an amendment with Tri-County Community Action Program, Inc. to allow the Contractor to be reimbursed for services at increased rates, to modify the personnel supervision, and to provide planning activities for new construction or renovations for residential substance use disorder treatment services.

The current substance use disorders treatment workforce in New Hampshire is inadequate to meet the needs of individuals, families and communities across the state. Many factors contribute to this workforce shortage; two factors are low compensation and an insufficient pool of qualified supervisors.

Approval of these fourteen (14) Amendments will allow the Contractors to be reimbursed for services at increased rates and modify the personnel supervision requirements. The higher rates will increase the compensation for direct service staff providing substance use disorder treatment and recovery support services to clients. In addition, these Amendments allow the Contractor's qualified supervisors to provide clinical supervision to a larger number of clinicians to better leverage the available pool of qualified supervisors.

Approval of South Eastern New Hampshire Services' Amendment will allow the Contractor to expand the array of substance use disorder treatment services available in the greater Dover area. The Contractor will add partial hospitalization services, transitional living services, and withdrawal management to their scope of services. Historically, this array has been somewhat limited; however, changes within the organization have led to a request to expand the available service array to include services that are critically needed in the area.

The Department is not seeking an increase to the price limitations to these Agreements because the Contractors have been billing other public and private insurance sources as more and more New Hampshire citizens have health insurance that covers these services. The Contractors' seek reimbursement from the Department for only those services that are not covered by any public or private insurance. Not increasing the price limitation allows the Department to utilize available funding for other types of services such as substance misuse prevention, early intervention and recovery support services. The Department will monitor the utilization and spending of the Contractors. If needed, the Department will submit future amendments to increase the Agreements' price limitations to ensure services are available to citizens of New Hampshire.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 326 drug overdose

deaths in New Hampshire, in 2015 there were 431. This number is expected to increase as cases are still pending analysis.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the Vendors by reviewing monthly reports such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request; the additional critical components in the Department's workforce development to provide substance use disorder services would not be addressed, which could result in exacerbating workforce attrition and shortages.

Area served: Statewide.

Source of Funds: 64.50% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-15, and 21.5% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

INDEPENDENT AUDITORS' REPORT

The Board of Trustees
Concord Hospital, Inc.

We have audited the accompanying consolidated financial statements of Concord Hospital, Inc. and Subsidiaries (the System), which comprise the consolidated balance sheets as of September 30, 2015 and 2014, and the related consolidated statements of operations, changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the System as of September 30, 2015 and 2014, and the results of its operations, changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

1. Description of Organization and Summary of Significant Accounting Policies

Organization

Concord Hospital, Inc., (the Hospital) located in Concord, New Hampshire, is a not-for-profit acute care hospital. The Hospital provides inpatient, outpatient, emergency care and physician services for residents within its geographic region. Admitting physicians are primarily practitioners in the local area. The Hospital is controlled by Capital Regional Health Care Corporation (CRHC).

In 1985, the then Concord Hospital underwent a corporate reorganization in which it was renamed and became CRHC. At the same time, the Hospital was formed as a new entity. All assets and liabilities of the former hospital, now CRHC, with the exception of its endowments and restricted funds, were conveyed to the new Hospital. The endowments were held by CRHC for the benefit of the Hospital, which is the true party in interest. Effective October 1, 1999, CRHC transferred these funds to the Hospital.

In March 2009, Concord Hospital created The Concord Hospital Trust (the Trust), a separately incorporated, not-for-profit organization to serve as the Hospital's philanthropic arm. In establishing the Trust, the Hospital transferred philanthropic permanent and temporarily restricted funds, including board designated funds, endowments, indigent care funds and specific purpose funds, to the newly formed organization together with the stewardship responsibility to direct monies available to support the Hospital's charitable mission and reflect the specific intentions of the donors who made these gifts. Concord Hospital and the Trust constitute the Obligated Group at September 30, 2015 and 2014 to certain debt described in Note 6.

Subsidiaries of the Hospital include:

Capital Region Health Care Development Corporation (CRHCDC) is a not-for-profit real estate corporation that owns and operates medical office buildings and other properties.

Capital Region Health Ventures Corporation (CRHVC) is a not-for-profit corporation that engages in health care delivery partnerships and joint ventures. It operates ambulatory surgery and diagnostic facilities in cooperation with other entities.

CH/DHC, Inc. d/b/a Dartmouth-Hitchcock-Concord (CH/DHC) is a not-for-profit corporation that provides clinical medical services through a multi-specialty group practice. CH/DHC was formed under a joint agreement between the Hospital and DH-Concord. The joint agreement terminated effective September 30, 2015.

The Hospital, its subsidiaries and the Trust are collectively referred to as the System. The consolidated financial statements include the accounts of the Hospital, the Trust, CRHCDC, CRHVC and CH/DHC. All significant intercompany balances and transactions have been eliminated in consolidation.

1. **Description of Organization and Summary of Significant Accounting Policies (Continued)**

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk

Financial instruments which subject the Hospital to credit risk consist primarily of cash equivalents, accounts receivable and investments. The risk with respect to cash equivalents is minimized by the Hospital's policy of investing in financial instruments with short-term maturities issued by highly rated financial institutions. The Hospital's accounts receivable are primarily due from third-party payors and amounts are presented net of expected contractual allowances and uncollectible amounts, including estimated uncollectible amounts from uninsured patients. The Hospital's investment portfolio consists of diversified investments, which are subject to market risk, including estimated uncollectible amounts from uninsured parties. The Hospital's investment in one fund, the State Street S&P 500 CTF, exceeded 10% of total Hospital investments as of September 30, 2015 and 2014.

Cash and Cash Equivalents

Cash and cash equivalents include money market funds and secured repurchase agreements with original maturities of three months or less, excluding assets whose use is limited or restricted.

The Hospital maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Hospital has not experienced any losses on such accounts.

Supplies

Supplies are carried at the lower of cost, determined on a weighted-average method, or market.

Assets Whose Use is Limited or Restricted

Assets whose use is limited or restricted include assets held by trustees under workers' compensation reserves and self-insurance escrows, designated assets set aside by the Board of Trustees, over which the Board retains control and may, at its discretion, subsequently use for other purposes, and donor-restricted investments.

1. **Description of Organization and Summary of Significant Accounting Policies (Continued)**

Investments and Investment Income

Investments are carried at fair value in the accompanying consolidated balance sheets. Investment income (including realized gains and losses on investments, interest and dividends) is included in the excess of revenues and nonoperating income over expenses unless the income is restricted by donor or law. Gains and losses on investments are computed on a specific identification basis. Unrealized gains and losses on investments are excluded from the excess of revenues and nonoperating income over expenses unless the investments are classified as trading securities or losses are considered other-than-temporary. Periodically, management reviews investments for which the market value has fallen significantly below cost and recognizes impairment losses where they believe the declines are other-than-temporary.

Beneficial Interest in Perpetual Trusts

The System has an irrevocable right to receive income earned on certain trust assets established for its benefit. Distributions received by the System are unrestricted. The System's interest in the fair value of the trust assets is included in assets whose use is limited and as permanently restricted net assets. Changes in the fair value of beneficial trust assets are reported as increases or decreases to permanently restricted net assets.

Investment Policies

The System's investment policies provide guidance for the prudent and skillful management of invested assets with the objective of preserving capital and maximizing returns. The invested assets include endowment, specific purpose and board designated (unrestricted) funds.

Endowment funds are identified as permanent in nature, intended to provide support for current or future operations and other purposes identified by the donor. These funds are managed with disciplined longer-term investment objectives and strategies designed to accommodate relevant, reasonable, or probable events.

Temporarily restricted funds are temporary in nature, restricted as to time or purpose as identified by the donor or grantor. These funds have various intermediate/long-term time horizons associated with specific identified spending objectives.

Board designated funds have various intermediate/long-term time horizons associated with specific spending objectives as determined by the Board of Trustees.

Management of these assets is designed to increase, with minimum risk, the inflation adjusted principal and income of the endowment funds over the long term. The System targets a diversified asset allocation that places emphasis on achieving its long-term return objectives within prudent risk constraints.

1. **Description of Organization and Summary of Significant Accounting Policies (Continued)**

Spending Policy for Appropriation of Assets for Expenditure

In accordance with the *Uniform Prudent Management of Institutional Funds Act* (UPMIFA), the System considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (a) the duration and preservation of the fund; (b) the purpose of the organization and the donor-restricted endowment fund; (c) general economic conditions; (d) the possible effect of inflation and deflation; (e) the expected total return from income and the appreciation of investments; (f) other resources of the organization; and (g) the investment policies of the organization.

Spending policies may be adopted by the System, from time to time, to provide a stream of funding for the support of key programs. The spending policies are structured in a manner to ensure that the purchasing power of the assets is maintained while providing the desired level of annual funding to the programs. The System has a current spending policy on various funds currently equivalent to 5% of twelve-quarter moving average of the funds' total market value.

Accounts Receivable and the Allowance for Doubtful Accounts

Accounts receivable are reduced by an allowance for doubtful accounts. In evaluating the collectibility of accounts receivable, the System analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for doubtful accounts. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts. For receivables associated with services provided to patients who have third-party coverage, the System analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for doubtful accounts, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payor has not yet paid, or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely). For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the System records a provision for doubtful accounts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the standard rates (or the discounted rates if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts.

The System's allowance for doubtful accounts for self-pay patients represented 68% and 87% of self-pay accounts receivable at September 30, 2015 and 2014, respectively. The total provision for the allowance for doubtful accounts was $16,839 and $32,476 for the years ended September 30, 2015 and 2014, respectively. The System also allocates a portion of the allowance and provision for doubtful accounts to charity care, which is not recorded as revenue. The System's self-pay bad debt writeoffs decreased $10,978, from $32,496 in 2014 to $21,518 in 2015. The reduction in bad debt writeoffs between 2015 and 2014 was primarily a result of significantly improved collection trends and certain shifts in payor mix.

1. **Description of Organization and Summary of Significant Accounting Policies (Continued)**

Property and Equipment

Property and equipment is stated at cost at time of purchase, or at fair value at time of donation for assets contributed, less any reductions in carrying value for impairment and less accumulated depreciation. The System's policy is to capitalize expenditures for major improvements and charge maintenance and repairs currently for expenditures which do not extend the lives of the related assets. Depreciation is computed using the straight-line method in a manner intended to amortize the cost of the related assets over their estimated useful lives. For the years ended September 30, 2015 and 2014, depreciation expense was $24,437 and $25,336, respectively.

The System has also capitalized certain costs associated with property and equipment not yet in service. Construction in progress includes amounts incurred related to major construction projects, other renovations, and other capital equipment purchased but not yet placed in service. There was no interest capitalized during 2015 and 2014.

Gifts of long-lived assets such as land, buildings or equipment are reported as unrestricted support, and are excluded from the excess of revenues and nonoperating income over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used, and gifts of cash or other assets that must be used to acquire long-lived assets, are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Federal Grant Revenue and Expenditures

Revenues and expenses under federal grant programs are recognized as the grant expenditures are incurred.

Bond Issuance Costs/Original Issue Discount or Premium

Bond issuance costs incurred to obtain financing for construction and renovation projects and the original issue discount or premium are being amortized by the straight-line method, which approximates the effective interest method, over the life of the respective bonds. The original issue discount or premium is presented as a component of bonds payable.

Charity Care

The System provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates (Note 11). Because the System does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue. The System determines the costs associated with providing charity care by calculating a ratio of cost to gross charges, and then multiplying that ratio by the gross uncompensated charges associated with providing care to patients eligible for free care. Funds received from gifts and grants to subsidize charity services provided for the years ended September 30, 2015 and 2014 were approximately $473 and $349, respectively.

1. **Description of Organization and Summary of Significant Accounting Policies (Continued)**

Temporarily and Permanently Restricted Net Assets

Gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of donated assets. Temporarily restricted net assets are those whose use has been limited by donors to a specific time period or purpose. When a donor restriction expires (when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified as unrestricted net assets and reported as either net assets released from restrictions for operations (for noncapital related items) or as net assets released from restrictions used for purchases of property and equipment (capital related items). Permanently restricted net assets have been restricted by donors to be maintained in perpetuity.

Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

Net Patient Service Revenue

The System has agreements with third-party payors that provide for payments to the System at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, per diem payments and fee schedules. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Changes in these estimates are reflected in the financial statements in the year in which they occur. For the years ended September 30, 2015 and 2014, net patient service revenue in the accompanying consolidated statements of operations (decreased) increased by approximately $(3,106) and $2,914, respectively, due to actual settlements and changes in assumptions underlying estimated future third-party settlements.

Revenues from the Medicare and Medicaid programs accounted for approximately 31% and 4% and 27% and 3% of the System's net patient service revenue for the years ended September 30, 2015 and 2014, respectively. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation.

The Hospital recognizes patient service revenue associated with services provided to patients who have third-party payor coverage on the basis of contractual rates for the services rendered. For uninsured patients, the Hospital provides a discount approximately equal to that of its largest private insurance payors. On the basis of historical experience, a significant portion of the Hospital's uninsured patients will be unable or unwilling to pay for the services provided. Thus, the Hospital records a significant provision for doubtful accounts related to uninsured patients in the period the services are provided.

1. **Description of Organization and Summary of Significant Accounting Policies (Continued)**

Donor-Restricted Gifts

Unconditional promises to give cash and other assets to the System are reported at fair value at the date the promise is received. Conditional promises to give and intentions to give are reported at fair value at the date the condition is met. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of donated assets.

Excess of Revenues and Nonoperating Income Over Expenses

The System has deemed all activities as ongoing, major or central to the provision of health care services and, accordingly, they are reported as operating revenue and expenses, except for unrestricted contributions and pledges, the related philanthropy expenses and investment income which are recorded as nonoperating income.

The consolidated statements of operations also include excess of revenues and nonoperating income over expenses. Changes in unrestricted net assets which are excluded from excess of revenues and nonoperating income over expenses, consistent with industry practice, include the change in net unrealized gains and losses on investments other than trading securities or losses considered other than temporary, permanent transfers of assets to and from affiliates for other than goods and services, pension liability adjustments and contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets).

Estimated Workers' Compensation and Health Care Claims

The provision for estimated workers' compensation and health care claims includes estimates of the ultimate costs for both reported claims and claims incurred but not reported.

Income Taxes

The Hospital, CRHCDC, CRHVC, CH/DHC and the Trust are not-for-profit corporations as described in Section 501(c)(3) of the Internal Revenue Code, and are exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. Management evaluated the System's tax positions and concluded the System has maintained its tax-exempt status, does not have any significant unrelated business income and had taken no uncertain tax positions that require adjustment to or disclosure in the accompanying consolidated financial statements. With few exceptions, the System is no longer subject to income tax examination by the U.S. federal or state tax authorities for years before 2012.

Advertising Costs

The System expenses advertising costs as incurred, and such costs totaled approximately $214 and $215 for the years ended September 30, 2015 and 2014, respectively.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2015-07). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under ASC 820. ASU 2015-07 is effective for the System's fiscal year ending September 30, 2018 with early adoption permitted. The System has elected to implement ASU 2015-07 in its 2015 consolidated financial statements (with retroactive application to 2014 disclosures) which is allowed under the pronouncement. The adoption of this pronouncement did not materially affect the consolidated financial statements. See Notes 4 and 14.

In April 2015, the FASB issued ASU No. 2015-03, *Interest – Imputation of Interest: Simplifying the Presentation of Debt Issuance Costs* (ASU 2015-03). ASU 2015-03 simplifies the presentation of debt issuance costs and requires that the debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. ASU 2015-03 is effective for the System's fiscal year ending September 30, 2017 with early adoption permitted. The System is currently evaluating the impact of the pending adoption of ASU 2015-03 on the System's consolidated financial statements.

Subsequent Events

Management of the System evaluated events occurring between the end of the System's fiscal year and December 7, 2015, the date the consolidated financial statements were available to be issued.

2. Transactions With Affiliates

The System provides funds to CRHC and its affiliates which are used for a variety of purposes. The System records the transfer of funds to CRHC and the other affiliates as either receivables or directly against net assets, depending on the intended use and repayment requirements of the funds. Generally, funds transferred for start-up costs of new ventures or capital related expenditures are recorded as charges against net assets. For the years ended September 30, 2015 and 2014, transfers made to CRHC were $(77) and $(125), respectively, and transfers received from Capital Region Health Services Corporation (CRHSC) were $449 and $437, respectively.

A brief description of affiliated entities is as follows:

- CRHSC is a for-profit provider of health care services, including an eye surgery center and assisted living facility.
- Concord Regional Visiting Nurse Association, Inc. and Subsidiary (CRVNA) provides home health care services.
- Riverbend, Inc. provides behavioral health services.

2. Transactions With Affiliates (Continued)

Amounts due the System, primarily from joint ventures, totaled $2,326 and $2,866 at September 30, 2015 and 2014, respectively. Amounts have been classified as current or long-term depending on the intentions of the parties involved. Beginning in 1999, the Hospital began charging interest on a portion of the receivables ($892 and $931 at September 30, 2015 and 2014, respectively) with principal and interest (6.75% at September 30, 2015) payments due monthly. Interest income amounted to $62 and $64 for the years ended September 30, 2015 and 2014, respectively.

Contributions to affiliates and other community organizations from temporarily restricted net assets were $140 and $146 in 2015 and 2014, respectively.

In compliance with the System's spending policy, portions of investment income and related fees are recognized in other operating revenue on the accompanying consolidated statements of operations. Investment income reflected in other operating revenue was $1,709 and $1,693 in 2015 and 2014, respectively.

Investment management fees expensed and reflected in nonoperating income were $896 and $884 for the years ended September 30, 2015 and 2014, respectively.

3. **Investments and Assets Whose Use is Limited or Restricted (Continued)**

The following summarizes the Hospital's gross unrealized losses and fair values, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position at September 30, 2015 and 2014:

	Less Than 12 Months		12 Months or Longer		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
2015						
Marketable equity securities	$32,230	$ (3,745)	$28,960	$ (10,675)	$ 61,190	$ (14,420)

Fund-of-funds	17,772	(1,191)	16,417	(1,370)	34,189	(2,561)
	$18,960	$ (1,333)	$51,251	$ (3,057)	$ 70,211	$ (4,390)

In evaluating whether investments have suffered an other-than-temporary decline, based on input from outside investment advisors, management evaluated the amount of the decline compared to cost, the length of time and extent to which fair value has been less than cost, the underlying creditworthiness of the issuer, the fair values exhibited during the year, estimated future fair values and the System's intent and ability to hold the security until a recovery in fair value or maturity. Based on evaluations of the underlying issuers' financial condition, current trends and economic conditions, management believes there are no securities that have suffered an other-than-temporary decline in value at September 30, 2015 and 2014.

4. **Defined Benefit Pension Plan**

The System has a noncontributory defined benefit pension plan (the Plan), covering all eligible employees of the System and subsidiaries. The Plan is a cash balance plan that provides benefits based on an employee's years of service, age and the employee's compensation over those years. The System's funding policy is to contribute annually the amount needed to meet or exceed actuarially determined minimum funding requirements of the *Employee Retirement Income Security Act of 1974* (ERISA).

The System accounts for its defined benefit pension plan under ASC 715, *Compensation Retirement Benefits*. This Statement requires entities to recognize an asset or liability for the overfunded or underfunded status of their benefit plans in their financial statements.

4. **Defined Benefit Pension Plan (Continued)**

The following table summarizes the Plan's funded status at September 30, 2015 and 2014:

	2015	2014
Pension benefits:		
Fair value of plan assets	$ 165,053	$ 151,055
Projected benefit obligation	(229,888)	(199,121)
	$ (64,835)	$ (48,066)
Activities for the year consist of:		
Benefit payments and administrative expenses	$ 7,562	$ 7,556
Net periodic benefit cost	10,590	9,333

The table below presents details about the System's defined benefit pension plan, including its funded status, components of net periodic benefit cost, and certain assumptions used in determining the funded status and cost:

4. **Defined Benefit Pension Plan (Continued)**

Amounts recognized as a change in unrestricted net assets during the years ended September 30, 2015 and 2014 consist of:

	2015	2014

Prior service credit amortization	33	33
Plan amendment	(2,492)	–
Total amount recognized	$33,178	$16,378

In June 2015, the plan was amended effective January 1, 2016 to change the factors used to convert a cash balance account into a monthly annuity, expand eligibility for the lump payment option and modify eligibility for an annual cash balance pay credit. These changes are reflected within the projected benefit obligation at September 30, 2015. Also in 2015, the System began to use the RP-2015 mortality tables, which in general have longer life expectancies than the older tables used, which had an impact on the projected benefit obligation.

Pension Plan Assets

The fair values of the System's pension plan assets as of September 30, 2015 and 2014, by asset category are as follows (see Note 14 for level definitions). In accordance with ASU 2015-07, certain investments that are measured using the net value per share practical expedient have not been classified in the fair value hierarchy. See Note 1.

Hedge funds:		
Inflation hedge	6,040	6,091
Total investments at fair value	$165,053	$151,055

4. **Defined Benefit Pension Plan (Continued)**

The target allocation for the System's pension plan assets as of September 30, 2015 and 2014, by asset category are as follows:

	2015		2014	
	Target Allocation	Percentage of Plan Assets	Target Allocation	Percentage of Plan Assets
Short-term investments	0-20%	7%	0-20%	13%
Equity securities	40-80%	71	40-80%	64
Fixed income securities	5-80%	18	5-80%	19
Other	0-30%	4	0-30%	4

The funds-of-funds are invested with eight investment managers and have various restrictions on redemptions. Four of the managers holding amounts totaling approximately $28 million at September 30, 2015 allow for monthly redemptions, with notices ranging from 6 to 15 days. Three managers holding amounts totaling approximately $27 million at September 30, 2015 allow for quarterly redemptions, with a notice of 45 or 65 days. One of the managers holding amounts of approximately $5 million at September 30, 2015 allows for annual redemptions, with a notice of 90 days. Certain funds also may include a fee estimated to be equal to the cost the fund incurs in converting investments to cash (ranging from 0.5% to 1.5%).

The System considers various factors in estimating the expected long-term rate of return on plan assets. Among the factors considered include the historical long-term returns on plan assets, the current and expected allocation of plan assets, input from the System's actuaries and investment consultants, and long-term inflation assumptions. The System's expected allocation of plan assets is based on a diversified portfolio consisting of domestic and international equity securities, fixed income securities, and real estate.

The System's investment policy for its pension plan is to balance risk and returns using a diversified portfolio consisting primarily of high quality equity and fixed income securities. To accomplish this goal, plan assets are actively managed by outside investment managers with the objective of optimizing long-term return while maintaining a high standard of portfolio quality and proper diversification. The System monitors the maturities of fixed income securities so that there is sufficient liquidity to meet current benefit payment obligations. The System's Investment Committee provides oversight of the plan investments and the performance of the investment managers.

Amounts included in expense during fiscal 2015 and 2014 consist of:

	2015	2014

Expected return on plan assets	8.00	8.00
Cash balance credit rate	5.00	5.00
Rate of compensation increase	2.00	2.00

In selecting the long-term rate of return on plan assets, the System considered the average rate of earnings expected on the funds invested or to be invested to provide for the benefits of the plan. This included considering the plan's asset allocation and the expected returns likely to be earned over the life of the plan, as well as the historical returns on the types of assets held and the current economic environment.

The loss and prior service credit amount expected to be recognized in net periodic benefit cost in 2016 are as follows:

Actuarial loss	$ 6,156
Prior service credit	(276)
	$ 5,880

The System funds the pension plan and no contributions are made by employees. The System funds the plan annually by making a contribution of at least the minimum amount required by applicable regulations and as recommended by the System's actuary. However, the System may also fund the plan in excess of the minimum required amount.

Cash contributions in subsequent years will depend on a number of factors including performance of plan assets. However, the System expects to fund $16,000 in cash contributions to the plan for the 2016 plan year.

Benefit payments, which reflect expected future service, as appropriate, are expected to be paid as follows:

Year Ended September 30	Pension Benefits
2016	$ 9,556
2017	11,501
2018	12,368
2019	13,567
2020	14,830
2021 – 2025	87,166

5. Estimated Third-Party Payor Settlements

The System has agreements with third-party payors that provide for payments to the System at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

Medicare

Inpatient and outpatient services rendered to Medicare program beneficiaries are primarily paid at prospectively determined rates. These rates vary according to a patient classification system that is based on clinical diagnosis and other factors. In addition to this, the System is also reimbursed for medical education and other items which require cost settlement and retrospective review by the fiscal intermediary. Accordingly, the System files an annual cost report with the Medicare program after the completion of each fiscal year to report activity applicable to the Medicare program and to determine any final settlements.

The physician practices are reimbursed on a fee screen basis.

Disproportionate Share Payments and Medicaid Enhancement Tax

Under the State of New Hampshire's tax code, the State imposes a Medicaid Enhancement Tax (MET) equal to 5.5% of net patient service revenues, with certain exclusions. The amount of tax incurred by the System for fiscal 2015 and 2014 was $12,800 and $16,437, respectively.

In the fall of 2010, in order to remain in compliance with stated federal regulations, the State of New Hampshire adopted a new approach related to Medicaid disproportionate share funding (DSH) retroactive to July 1, 2010. Unlike the former funding method, the State's approach led to a payment that was not directly based on, and did not equate to, the level of tax imposed. As a result, the legislation created some level of losses at certain New Hampshire hospitals, while other hospitals realized gains. DSH payments from the State are recorded within unrestricted revenue and other support and amounted to $3,497 and $5,099 in 2015 and 2014, respectively.

The Centers for Medicare and Medicaid Services (CMS) has undertaken an audit of the State's program and the DSH payments made by the State in 2011, the first year that those payments reflected the amount of uncompensated care provided by New Hampshire hospitals. It is possible that subsequent years will also be audited by CMS. At the date of these consolidated financial statements, CMS's audit was substantially complete, and the System has recorded reserves to address its exposure based on the preliminary audit results. Due to the uncertainty related to any potential audit of the State program and DSH payments made for years after 2011, no amounts have been reflected in the accompanying consolidated financial statements related to these contingencies.

Medicaid

Inpatient services rendered to Medicaid program beneficiaries are paid at prospectively determined rates per discharge. Outpatient services rendered to Medicaid program beneficiaries are reimbursed under fee schedules and cost reimbursement methodologies subject to various limitations or discounts. The Hospital is reimbursed at a tentative rate with final settlement determined after submission of annual cost reports by the Hospital and audits thereof by the Medicaid program.

The physician practices are reimbursed on a fee screen basis.

5. Estimated Third-Party Payor Settlements (Continued)

Other

The System has also entered into payment agreements with certain commercial insurance carriers and health maintenance organizations. The basis for payment to the System under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined rates.

The accrual for estimated third-party payor settlements reflected on the accompanying consolidated balance sheets represents the estimated net amounts to be paid under reimbursement contracts with the Centers for Medicare and Medicaid Services (Medicare), the New Hampshire Department of Welfare (Medicaid) and any commercial payors with settlement provision. Settlements for the Hospital have been finalized through 2013 and 2012 for Medicare and Medicaid, respectively.

6. Long-Term Debt and Notes Payable

Long-term debt consists of the following at September 30, 2015 and 2014:

In February 2013, $48,631 (including an original issue premium of $3,631) of NHHEFA Revenue Bonds, Concord Hospital Issue, Series 2013A, were issued to assist in the funding of a significant facility improvement project and to advance refund the Series 2001 NHHEFA Hospital Revenue Bonds. The facility improvement project included enhancements to the System's power plant, renovation of certain nursing units, expansion of the parking capacity at the main campus and various other routine capital expenditures and miscellaneous construction, renovation and improvements of the System's facilities.

6. **Long-Term Debt and Notes Payable (Continued)**

In April 2013, $32,421 of NHHEFA Revenue Bonds, Concord Hospital Issues, Series 2013B, were issued to advance refund the Series 2004 NHHEFA Hospital Revenue Bonds. These were redeemed in full during 2014.

In March 2011, $49,795 of NHHEFA Revenue Bonds, Concord Hospital Issue, Series 2011, were issued to assist in the funding of a significant facility improvement project and pay off the Series 1996 Revenue Bonds. The project included expansion and renovation of various Hospital departments, infrastructure upgrades, and acquisition of capital equipment.

Substantially all the property and equipment relating to the aforementioned construction and renovation projects, as well as subsequent property and equipment additions thereto, and a mortgage lien on the facility, are pledged as collateral for the Series 2011 and 2013A and B Revenue Bonds. In addition, the gross receipts of the Hospital are pledged as collateral for the Series 2011 and 2013A and B Revenue Bonds. The most restrictive financial covenants require a 1.10 to 1.0 ratio of aggregate income available for debt service to total annual debt service and a day's cash on hand ratio of 75 days. The Hospital was in compliance with its debt covenants at September 30, 2015 and 2014.

The obligations of the Hospital under the Series 2013A and B and Series 2011 Revenue Bond Indentures are not guaranteed by any of the subsidiaries or affiliated entities.

Interest paid on long-term debt amounted to $3,934 and $4,138 for the years ended September 30, 2015 and 2014, respectively.

The aggregate principal payments on long-term debt for the next five fiscal years ending September 30 and thereafter are as follows:

2016	$ 8,337
2017	8,570
2018	8,822
2019	9,061
2020	7,385
Thereafter	57,659
	$99,834

7. Commitments and Contingencies

Malpractice Loss Contingencies

Prior to February 1, 2011, the System was insured against malpractice loss contingencies under claims-made insurance policies. A claims-made policy provides specific coverage for claims made during the policy period. The System maintained excess professional and general liability insurance policies to cover claims in excess of liability retention levels. The System has established reserves to cover professional liability exposures for incurred but unpaid or unreported claims. The amounts of the reserves total $2,033 and $3,908 at September 30, 2015 and 2014, respectively, and are reflected in the accompanying consolidated balance sheets within accrued pension and other long-term liabilities. The possibility exists, as a normal risk of doing business, that malpractice claims in excess of insurance coverage may be asserted against the System.

Effective February 1, 2011, the System insures its medical malpractice risks through a multiprovider captive insurance company under a claims-made insurance policy. Premiums paid are based upon actuarially determined amounts to adequately fund for expected losses. At September 30, 2015, there were no known malpractice claims outstanding for the System which, in the opinion of management, will be settled for amounts in excess of insurance coverage, nor were there any unasserted claims or incidents which required loss accruals. The captive retains and funds up to actuarial expected loss amounts, and obtains reinsurance at various attachment points for individual and aggregate claims in excess of funding in accordance with industry practices. The System's interest in the captive represents approximately 30% of the captive. Control of the captive is equally shared by participating hospitals. The System has recorded its interest in the captive's equity, totaling approximately $427 and $420 at September 30, 2015 and 2014, respectively, in other noncurrent assets on the accompanying consolidated balance sheets. Changes in the System's interest are included in nonoperating income on the accompanying consolidated statements of operations.

In accordance with ASU No. 2010-24, "*Health Care Entities*" (Topic 954): *Presentation of Insurance Claims and Related Insurance Recoveries*, at September 30, 2015 and 2014, the Hospital recorded a liability of approximately $7,700 and $19,750, respectively, related to estimated professional liability losses. At September 30, 2015 and 2014, the Hospital also recorded a receivable of $7,700 and $19,750, respectively, related to estimated recoveries under insurance coverage for recoveries of the potential losses. These amounts are included in accrued pension and other long-term liabilities, and bond issuance costs and other assets, respectively, on the consolidated balance sheets.

Workers' Compensation

The Hospital maintains workers' compensation insurance under a self-insurance plan. The plan offers, among other provisions, certain specific and aggregate stop-loss coverage to protect the Hospital against excessive losses. The Hospital has employed independent actuaries to estimate the ultimate costs, if any, of the settlement of such claims. Accrued workers' compensation losses of $2,202 and $2,526 at September 30, 2015 and 2014, respectively, have been discounted at 3% (both years) and, in management's opinion, provide an adequate reserve for loss contingencies. A trustee held fund has been established as a reserve under the plan.

7. Commitments and Contingencies (Continued)

Litigation

The System is involved in litigation and regulatory investigations arising in the ordinary course of business. After consultation with legal counsel, management estimates that these matters will be resolved without material adverse effect on the System's financial position, results of operations or cash flows.

Health Insurance

The System has a self-funded health insurance plan. The plan is administered by an insurance company which assists in determining the current funding requirements of participants under the terms of the plan and the liability for claims and assessments that would be payable at any given point in time. The System recognizes revenue for services provided to employees of the System during the year. The System is insured above a stop-loss amount of $440 on individual claims. Estimated unpaid claims, and those claims incurred but not reported at September 30, 2015 and 2014, have been recorded as a liability of $6,508 and $4,508, respectively, and are reflected in the accompanying consolidated balance sheets within accounts payable and accrued expenses.

Operating Leases

The System has various operating leases relative to its office and offsite locations. Future annual minimum lease payments under noncancellable lease agreements as of September 30, 2015 are as follows:

An estimated breakdown of patient service revenue, net of contractual allowances, discounts and provision for doubtful accounts recognized in 2015 and 2014 from these major payor sources, is as follows for the Hospital. The provision for doubtful accounts for subsidiaries of the Hospital was not significant in 2015 and 2014.

Electronic Health Records Incentive Payments

The CMS Electronic Health Records (EHR) incentive programs provide a financial incentive for the "meaningful use" of certified EHR technology to achieve health and efficiency goals. To qualify for incentive payments, eligible organizations must successfully demonstrate meaningful use of certified EHR technology through various stages defined by CMS. Revenue totaling $1,258 and $2,196 associated with these meaningful use attestations was recorded as other revenue for the years ended September 30, 2015 and 2014, respectively. In addition, a receivable amount of $526 and $674 was recorded within prepaid expenses and other current assets at September 30, 2015 and 2014, respectively.

10. Functional Expenses

The System provides general health care services to residents within its geographic location. Expenses related to providing these services are as follows for the years ended September 30:

	2015	2014
Health care services	$328,916	$313,042
General and administrative	65,640	62,305

Fundraising related expenses were $829 and $751 for the years ended September 30, 2015 and 2014, respectively.

11. Charity Care and Community Benefits (Unaudited)

The Hospital maintains records to identify and monitor the level of charity care it provides. The Hospital provides traditional charity care, as well as other forms of community benefits. The cost of all such benefits provided is as follows for the years ended September 30:

	2015	2014

In addition, the Hospital incurred costs for services to Medicare and Medicaid patients in excess of the payment from these programs of $80,268 and $70,152 in 2015 and 2014, respectively.

12. Concentration of Credit Risk

The Hospital grants credit without collateral to its patients, most of whom are local residents of southern New Hampshire and are insured under third-party payor agreements. The mix of gross receivables from patients and third-party payors as of September 30 is as follows:

	2015	2014

13. Volunteer Services (Unaudited)

Total volunteer service hours received by the Hospital were approximately 37,000 in 2015 and 37,300 in 2014. The volunteers provide various nonspecialized services to the Hospital, none of which has been recognized as revenue or expense in the accompanying consolidated statements of operations.

14. Fair Value Measurements

Fair value of a financial instrument is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the System uses various methods including market, income and cost approaches. Based on these approaches, the System often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The System utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the System is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 – Valuations for assets and liabilities traded in active exchange markets, such as the New York Stock Exchange. Level 1 also includes U.S. Treasury and federal agency securities and federal agency mortgage-backed securities, which are traded by dealers or brokers in active markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 – Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar assets or liabilities.

14. Fair Value Measurements (Continued)

Level 3 – Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

In determining the appropriate levels, the System performs a detailed analysis of the assets and liabilities. There have been no changes in the methodologies used at September 30, 2015 and 2014. In accordance with ASU 2015-07, certain investments that are measured using the net value per share practical expedient have not been classified in the fair value hierarchy, which is a change from the 2014 presentation. See Note 1.

The following presents the balances of assets measured at fair value on a recurring basis at September 30:

	Level 1	Level 2	Level 3	Total
2015				
Cash and cash equivalents	$ 19,441	$ –	$ –	$ 19,441

Inflation-protected securities and other				10,880
				$321,046

The System's Level 3 investments consist of funds administered by others. The fair value measurement is based on significant unobservable inputs.

14. Fair Value Measurements (Continued)

Investments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. As such, it is reasonably possible that changes in the fair value of investments will occur in the near term and that such changes could materially affect the amounts reported in the accompanying consolidated balance sheets and statements of operations.

A reconciliation of the fair value measurements using significant unobservable inputs (Level 3) is as follows for 2015 and 2014:

	Trust Funds Administered by Others
Balance at September 30, 2013	$10,678
Net realized and unrealized gains	392
Balance at September 30, 2014	11,070
Net realized and unrealized losses	(581)
Balance at September 30, 2015	$10,489

In accordance with ASU 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, the table below sets forth additional disclosures for investment funds (other than mutual funds) valued based on net asset value to further understand the nature and risk of the investments by category:

Investment Strategies

Fixed Income Securities

The primary purpose of fixed income investments is to provide a highly predictable and dependable source of income, preserve capital, and reduce the volatility of the total portfolio and hedge against the risk of deflation or protracted economic contraction.

14. Fair Value Measurements (Continued)

Marketable Equity and Other Securities

The primary purpose of marketable equity investments is to provide appreciation of principal and growth of income with the recognition that this requires the assumption of greater market volatility and risk of loss. The total marketable equity portion of the portfolio will be broadly diversified according to economic sector, industry, number of holdings and other characteristics including style and capitalization. The System may employ multiple equity investment managers, each of whom may have distinct investment styles. Accordingly, while each manager's portfolio may not be fully diversified, it is expected that the combined equity portfolio will be broadly diversified.

The System invests in other securities that are considered alternative investments that consist of limited partnership interests in investment funds, which, in turn, invest in diversified portfolios predominantly comprised of equity and fixed income securities, as well as options, futures contracts, and some other less liquid investments. Management has approved procedures pursuant to the methods in which the System values these investments at fair value, which ordinarily will be the amount equal to the pro-rata interest in the net assets of the limited partnership, as such value is supplied by, or on behalf of, each investment from time to time, usually monthly and/or quarterly by the investment manager.

System management is responsible for the fair value measurements of investments reported in the consolidated financial statements. Such amounts are generally determined using audited financial statements of the funds and/or recently settled transactions and is estimated using the net asset value per share of the fund. Because of inherent uncertainty of valuation of certain alternative investments, the estimate of the fund manager or general partner may differ from actual values, and differences could be significant. Management believes that reported fair values of its alternative investments at the balance sheet dates are reasonable.

Inflation-Protected Securities

The primary purpose of inflation-protected securities is to provide protection against the negative effects of inflation.

Fair Value of Other Financial Instruments

Other financial instruments consist of accounts and pledges receivable, accounts payable and accrued expenses, estimated third-party payor settlements, and long-term debt and notes payable. The fair value of all financial instruments other than long-term debt and notes payable approximates their relative book values as these financial instruments have short-term maturities or are recorded at amounts that approximate fair value. The fair value of the System's long-term debt and notes payable is estimated using discounted cash flow analyses, based on the System's current incremental borrowing rates for similar types of borrowing arrangements. The carrying value and fair value of the System's long-term debt and notes payable amounted to $103,355 and $121,963, respectively, at September 30, 2015, and $111,626 and $132,106, respectively, at September 30, 2014.

Program Director/SENHS Multiple Offender Program: Dover, New Hampshire

December 2009-November 2012

- I provided consultation to the Executive Director and Clinical Supervisor of SENHS while the Multiple Offender Program was in the developmental stages: I designed forms, trained staff, and developed checks and balances system to ensure efficiency, and adherence to all applicable agency and administrative rules.
- I supervised 4 full time and 5 part-time staff. I reprised the duties of my former position at the Laconia Multiple Offender Program, albeit with more direct interaction with clients: teaching segments of the 65 hour education component, running group sessions, and meeting with clients in individual sessions and for Exits.
- I became very familiar with the ATR care coordination system, and skilled at inputting client information, to include ASI and GPRA. I was responsible for monitoring all aspects of aftercare and ensuring compliance.

Program Director/Multiple Offender Program: Laconia, New Hampshire
September 9, 2008-October 29, 2009

- Devised and implemented workflow methods for more efficient management of the program, while working to balance the needs of all stakeholders. This included, but was not limited to: revising forms, rewriting policies, streamlining procedures, hiring key staff, and improving communication amongst staff, and with other agencies and providers.

Worked closely with treatment providers; with both Department of Motor Vehicles and Department of Safety (NH DMV)staff; and with representatives of the Courts. Restructured the aftercare component of the program in order to maximize efficiency, professionalism, and customer service.

- Supervised 30 full and part-time staff. Assessed strengths, delegated work, and provided feedback for continual process improvement for staff development. Facilitated monthly staff meetings. Provided clinical supervision for clinical staff. I supervised treatment team on a monthly basis as part of ongoing supervision for clinical staff.
- Collected and analyzed data to improve Driving While Impaired (DWI) recidivism outcomes.
- Provided input while putting together Administrative Rules for MOP; familiar with process.

March 2005-September 2008: Clinical Supervisor: State of New Hampshire,M.O.P.

March 2000-March 2005: Substance Abuse Counselor: State of New Hampshire, M.O.P.

2004-Taught IDIP classes on a part-time basis at SENHS, teaching the PRI curriculum.
1996-2000 - full time wait staff in Alton Bay, New Hampshire, while attending NHTI.
1980-1996-full time Assistant Manager for Star Market Corporation in Massachusetts, and Bake Shop Manager for a Star Market Agency store in New Hampshire.

Treatment at a qualitatively different level of care or type of service, or discharge from treatment, is therefore indicated; or

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Families First of the Greater Seacoast

We have audited the accompanying financial statements of Families First of the Greater Seacoast, which comprise the balance sheet as of June 30, 2015, and the related statements of operations, changes in net assets, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Families First of the Greater Seacoast as of June 30, 2015, and the results of its operations, changes in its net assets and its cash flows for the year then ended, in accordance with U.S. generally accepted accounting principles.

Prior Period Financial Statements

The financial statements as of June 30, 2014, were audited by other auditors whose report dated December 9, 2014, expressed an unmodified opinion on those statements.

1. Summary of Significant Accounting Policies

Organization

Families First of the Greater Seacoast (Organization) is a non-stock, not-for-profit corporation organized in New Hampshire. The Organization is a Federally Qualified Health Center (FQHC) which provides comprehensive medical and family support services, including primary care, dental, well child care, substance abuse counseling, parenting education, and home visitation programs to residents of the Seacoast (New Hampshire and Maine).

Income Taxes

The Organization is a public charity under Section 501(c)(3) of the Internal Revenue Code. As a public charity, the Organization is exempt from state and federal income taxes on income earned in accordance with its tax exempt purpose. Unrelated business income is subject to state and federal income tax. Management has evaluated the Organization's tax positions and concluded that the Organization has no unrelated business income or uncertain tax positions that require adjustment to the financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents consist of demand deposits and petty cash funds and exclude amounts whose use is limited by Board designation.

Patient Accounts Receivable

Patient accounts receivable are stated at the amount management expects to collect from outstanding balances. Patient accounts receivable are reduced by an allowance for uncollectible accounts. In evaluating the collectability of patient accounts receivable, the Organization analyzes its past history and identifies trends for each funding source. Management regularly reviews data about revenue in evaluating the sufficiency of the allowance for uncollectible accounts. Amounts not collected after all reasonable collection efforts have been exhausted are applied against the allowance for uncollectible accounts. The Organization has not changed its methodology for estimating the allowance for uncollectible accounts.

A reconciliation of the allowance for uncollectible accounts at June 30 is as follows:

	2015	2014
Balance, beginning of year	$ 51,984	$ 52,289
Provision	37,705	37,860
Write-offs	(35,200)	(38,165)
Balance, end of year	$ 54,489	$ 51,984

Investments

The Organization reports investments at fair value, and has elected to report all gains and losses in the excess (deficiency) of revenues over expenses to simplify the presentation of these amounts in the statement of operations. Investments include donor endowment funds and board designated assets. Accordingly, investments have been classified as non-current assets on the accompanying balance sheet regardless of maturity or liquidity. The Organization has established policies governing long-term investments, which are held within several investment accounts, based on the purposes for those investment accounts and their earnings.

Investment income and the recognized change in fair value are included in the excess (deficiency) of revenues over expenses unless otherwise stipulated by the donor or State Law.

Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. As such, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the balance sheets.

Assets Limited As To Use

Assets limited as to use include assets designated by the Board of Directors for future use and donor-restricted contributions to be held in perpetuity.

Property and Equipment

Property and equipment acquisitions are recorded at cost. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed on the straight-line method.

Gifts of long-lived assets such as land, buildings, or equipment are reported as unrestricted net assets, and excluded from the excess of revenues over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as temporarily restricted net assets. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets include contributions and grants for which donor-imposed restrictions have not been met. Assets are released from restrictions as expenditures are made in line with restrictions called for under the terms of the donor.

Permanently restricted net assets have been restricted by donors to be maintained by the Organization in perpetuity, the income of which is primarily available for operations..

Patient Service Revenue

Patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Charity Care

The Organization provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Organization does not pursue collection of amounts determined to qualify as charity care, they are not reported as net patient service revenue.

Donated Goods and Services

Various program help and support for the daily operations of the Organization's programs were provided by the general public of the communities served by the Organization. Donated supplies and services are recorded at their estimated fair values on the date of receipt. Donated supplies and services amounted to $147,044 and $265,395 for the years ended June 30, 2015 and 2014, respectively.

Donor-Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statements of operations as "net assets released from restrictions." Donor-restricted contributions whose restrictions are met in the same year as received are reflected as unrestricted contributions in the accompanying financial statements.

Promises to Give

Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated future cash flows. Given the short term nature of the pledges, they are not discounted and no reserve for uncollectible pledges has been established. Conditional promises to give are not included as support until the conditions are substantially met.

Functional Expenses

The Organization provides various services to residents within its geographic location. Expenses related to providing these services are as follows:

	2015	2014
Program services	$ 4,706,160	$ 4,511,400
Administrative and general	574,957	527,250
Fundraising	139,268	178,317
Total	$ 5,420,385	$ 5,216,967

Excess (Deficiency) of Revenues Over Expenses

The statements of operations reflect the excess (deficiency) of revenues over expenses. Changes in unrestricted net assets which are excluded from the excess (deficiency) of revenues over expenses, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions which, by donor restriction, were to be used for the purposes of acquiring such assets).

Reclassification

Certain amounts in the 2014 financial statements have been reclassified to conform to the current year's presentation.

Subsequent Events

For purposes of the preparation of these financial statements, management has considered transactions or events occurring through November 11, 2015, the date that the financial statements were available to be issued. Management has not evaluated subsequent events after that date for inclusion in the financial statements.

2. Investments

Investments, stated at fair value, are as follows:

	2015	2014
Money market funds	$ 18,248	$ 152,451
Mutual funds	1,623,371	1,385,344
Total investments	$ 1,641,619	$ 1,537,795

Total investments	$ 1,641,619	$ 1,537,795

Fair Value of Financial Instruments

Financial Accounting Standards Board Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants and also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The fair value hierarchy within ASC Topic 820 distinguishes three levels of inputs that may be utilized when measuring fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The fair value measurement for all of the Organization's investments is based on Level 1 inputs at June 30, 2015 and 2014.

Investment income and gains (losses) for cash equivalents and investments consist of the following:

	2015	2014
Unrestricted net assets		
Investment income	$ 2,452	$ 899
Recognized change in fair value of investments	(3,756)	4,545
Restricted net assets

Thereafter	-	370,000
Total	$ 275,467	$ 607,990

Pledges receivable have not been discounted as the amount is not material to the financial statements as a whole. The Organization believes all pledges are fully collectible.

5. Property and Equipment

Property and equipment consisted of the following:

	2015	2014
Leasehold improvements	$ 179,031	$ 179,031
Furniture, fixtures, and equipment	799,559	766,505

Less accumulated depreciation	(559,807)	(662,686)
Property and equipment, net	$ 418,783	$ 282,850

6. Line of Credit

The Organization has a $250,000 line of credit with a local bank through May 1, 2016. The line of credit is collateralized by accounts receivable. The interest rate at June 30, 2015 was 3.25%. There was no outstanding balance at June 30, 2015. There was an outstanding balance of $243,849 at June 30, 2014.

7. Temporarily and Permanently Restricted Net Assets

Total temporarily restricted	$ 631,425	$ 1,276,902
Permanently restricted: Endowment	$ 1,200,687	$ 1,200,687

8. Endowments

Interpretation of Relevant Law

There were no board designated endowments. The Organization's endowments primarily consist of an investment portfolio managed by the Investment Sub-Committee. As required by U.S. GAAP, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

The Organization has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as a donor-restricted endowment (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent donor-restricted endowment gifts and (c) accumulations to the donor-restricted endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund, if any, is classified as temporarily restricted net assets until those amounts are appropriated for expenditure in a manner consistent with the standard of prudence prescribed by UPMIFA.

In accordance with UPMIFA, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

(1) The duration and preservation of the fund
(2) The purposes of the Organization and the donor-restricted endowment fund
(3) General economic conditions
(4) The possible effect of inflation and deflation
(5) The expected total return from income and the appreciation of investments
(6) Other resources of the Organization
(7) The investment policies of the Organization

Spending Policy

The Organization has a policy of appropriating for expenditure an amount equal to 5% of the endowment fund's average fair market value over the prior 20 quarters.

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires the Organization to retain as a fund of perpetual duration. There were no such deficiencies as of June 30, 2015 and 2014.

Return Objectives and Risk Parameters

The Organization has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Organization must hold in perpetuity. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that exceed or meet designated benchmarks while incurring a reasonable and prudent level of investment risk.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the Organization relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Organization targets a diversified asset allocation that places a balanced emphasis on equity-based and income-based investments to achieve its long-term return objectives within prudent risk constraints.

Endowment Net Asset Composition by Type of Fund

The endowment net asset composition by type of fund is as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
2015				
Donor-restricted endowment funds	$ -	$ 267,234	$ 1,200,687	$ 1,467,921
2014				
Donor-restricted endowment funds	$ -	$ 336,328	$ 1,200,687	$ 1,537,015

The Organization had the following endowment related activities for the years ended June 30, 2015 and 2014, respectively.

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets, June 30, 2014	$ -	$ 336,328	$ 1,200,687	$ 1,537,015

Endowment net assets, June 30, 2014	$ -	$ 336,328	$ 1,200,687	$ 1,537,015

9. Patient Service Revenue

Patient service revenue follows:

	2015	2014
Medicare	$ 215,538	$ 200,204
Medicaid	1,307,387	927,295
Third party payers and private pay	629,423	495,972
Total patient service revenue	$ 2,152,348	$ 1,623,471

The Organization has agreements with the Centers for Medicare and Medicaid Services (Medicare) and New Hampshire and Maine Medicaid. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The Organization believes that it is in compliance with all laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medicaid programs. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in patient service revenue in the year that such amounts become known.

A summary of the payment arrangements with major third-party payers follows:

Medicare

As an FQHC, the Organization is reimbursed for the care of qualified patients at specified interim contractual rates during the year. Differences between the Medicare interim contractual rate and the cost of care as defined by the Principles of Reimbursement governing the program are determined and settled on a retrospective basis. Overall, reimbursement is subject to a maximum allowable rate per visit. The Organization's Medicare cost reports have been audited by the Medicare administrative contractor through June 30, 2013.

Other Payers

The Organization also has entered into payment agreements with Medicaid and certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the Organization under these agreements includes prospectively determined rates per visit, discounts from established charges and capitated arrangements for primary care services on a per member, per month basis.

The Organization provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. The Organization estimates the costs associated with providing charity care by calculating the ratio of total cost to total charges, and then multiplying that ratio by the gross uncompensated charges associated with providing care to patients eligible for free care. The estimated cost of providing services to patients under the Organization charity care policy amounted to $1,661,000 and $1,971,000 for the years ended June 30, 2015 and 2014, respectively.

The Organization is able to provide these services with a component of funds received through local community support and federal and state grants.

10. Retirement Plan

The Organization has a defined contribution plan under Internal Revenue Code Section 401(k) that cover substantially all employees. Employer discretionary contributions are funded at a percentage of eligible employees' salaries. The Organization did not incur expenses under the plan for the years ended June 30, 2015 and 2014.

11. Concentration of Risk

The Organization has cash deposits in major financial institutions in excess of federal depository insurance limits. The financial institutions have a strong credit rating and management believes the credit risk related to these deposits is minimal.

The Organization grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payer agreements. The mix of medical patient service revenue receivables from patients and third-party payers was as follows as of June 30:

	2015	2014
Medicare	11 %	12 %
Medicaid	42 %	38 %
Other	47 %	50 %
	100 %	100 %

12. Commitments and Contingencies

Medical Malpractice Insurance

The Organization is protected from medical malpractice risk as an FQHC under the Federal Tort Claims Act (FTCA). The Organization has additional medical malpractice insurance, on a claims-made basis, for coverage outside the scope of the protection of the FTCA. As of the year ended June 30, 2015, there were no known malpractice claims outstanding which in the opinion of management, will be settled for amounts in excess of both FTCA and additional medical malpractice insurance coverage, nor are there any unasserted claims or incidents which require loss accrual. The Organization intends to renew the additional medical malpractice insurance coverage on a claims-made basis and anticipates that such coverage will be available.

Leases

The Organization leases office space and certain other office equipment under noncancelable operating leases. Future minimum lease payments under these leases are:

2016	$ 61,513
2017	11,479
2018	11,479
2019	11,479
2020	7,848
Total	$ 103,798

Leases that do not meet the criteria for capitalization are classified as operating leases with related rental charged to operations as incurred.

Rental expense amounted to $133,381 and $123,868 for the years ended June 30, 2015 and 2014, respectively. Rent expense includes a charge per square foot for utilities and housekeeping services.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

    11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

Board of Directors
Families in Transition, Inc. and Subsidiaries

We have audited the accompanying consolidated financial statements of Families in Transition, Inc. and Subsidiaries (the Organization), which comprise the consolidated statement of financial position as of December 31, 2014 and the related consolidated statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Organization as of December 31, 2014, and the consolidated changes in its net assets and its consolidated cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Report on Summarized Comparative Information

We have previously audited the Organization's 2013 consolidated financial statements and, in our report dated March 28, 2014, expressed an unmodified opinion on those audited consolidated financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2013, is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived, adjusted as described in the following paragraph.

Adjustment to Prior Period Summarized Comparative Information

As disclosed in Note 11, the Organization has restated its beginning 2013 consolidated net assets to include a previously unrecognized contribution of property to Housing Benefits, Inc.'s Dover Housing Project.

As part of our audit of the 2014 consolidated financial statements, we audited the adjustment described in Note 11 that was applied to restate beginning 2013 consolidated net assets. In our opinion, such adjustment is appropriate and has been properly applied.

Other Matter

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying supplementary information, which consists of the consolidating statement of financial position as of December 31, 2014, and the related consolidating statements of activities and functional expenses for the year then ended, is presented for purposes of additional analysis, rather than to present the financial position and changes in net assets of the individual entities, and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Organization

Families in Transition, Inc. (FIT or the Organization) is a New Hampshire nonprofit, incorporated on May 13, 1994, to provide housing and comprehensive social services to individuals and families who are homeless or at risk of becoming homeless in certain areas of southern New Hampshire, including Manchester, Concord and Dover.

The Organization directly owns and operates housing programs in facilities located on Amherst Street, Spruce Street and Douglas Street in Manchester, New Hampshire. Additional housing facilities are owned and operated by several limited partnerships of which the Organization is the sole general partner. These limited partnerships include Millyard Families II Limited Partnership (Millyard II), located on Market Street in Manchester, New Hampshire; Bicentennial Families Concord Limited Partnership (Bicentennial), located at Bicentennial Square in Concord, New Hampshire; Family Bridge Limited Partnership (Family Bridge), located on Second Street in Manchester, New Hampshire; and Family Willows Limited Partnership (Family Willows), located on South Beech Street in Manchester, New Hampshire (collectively referred to as the Limited Partnerships).

In 2008, the Organization created a Community Development Housing Organization, Housing Benefits, Inc. (Housing Benefits). Housing Benefits identifies and develops new housing units and refurbishes existing units to meet the persistent need of combating homelessness. Completed housing units are located on School & Third Streets, Lowell Street, Belmont Street, and Market Street (Millyard Families I), in Manchester, New Hampshire as well as an additional housing unit located on Central Avenue in Dover, New Hampshire. An additional housing unit became operational in 2014, located on Hayward Street in Manchester, New Hampshire.

In 2012, the Organization became the sole member of Manchester Emergency Housing, Inc. (MEH), a New Hampshire nonprofit corporation providing immediate shelter to homeless families in the Manchester, New Hampshire area. MEH is the only family shelter in Manchester, New Hampshire.

The Organization also owns 100% of Family OutFITters, LLC (OutFITters), a limited liability corporation. OutFITters operates independent thrift stores in Concord and Manchester, New Hampshire with the sole purpose of generating an alternate funding stream for the Organization.

The Limited Partnerships, Housing Benefits, MEH and OutFITters constitute the subsidiaries of the Organization.

In 2012, the Organization became the sole member of The New Hampshire Coalition to End Homelessness, a statewide entity, whose mission is to "eliminate the causes for homelessness through research, education and advocacy". The activity of this entity is not deemed material and has not been included in the consolidated financial statements.

1. Summary of Significant Accounting Policies

Principles of Consolidation

The Organization has several wholly-owned corporations which include Brick Mill House Families II, Inc. (Brick Mill), Bicentennial Families Concord, Inc. (Bicentennial Families), Second Street Family Mill, Inc. (Family Mill), and Big Shady Tree, Inc. (Big Shady Tree) (collectively referred to as the General Partners), all of which are New Hampshire corporations. These wholly-owned corporations represent the .01% sole general partners in the Limited Partnerships, whereby Brick Mill is general partner of Millyard II, Bicentennial Families is general partner of Bicentennial, Family Mill is general partner of Family Bridge and Big Shady Tree is general partner of Family Willows.

Since the General Partners have control in the Limited Partnerships, in accordance with Financial Accounting Standards Board *Accounting Standards Codification* Topic 810-20-25, *Consolidation*, each of the Limited Partnerships' financial statements are required to be consolidated with the Organization's consolidated financial statements. The limited partners' ownership interest is reported in the consolidated statements of financial position as noncontrolling interest.

The consolidated financial statements include the net assets of the Organization, the Limited Partnerships, the General Partners, Housing Benefits, MEH and OutFITters. All significant inter-entity balances and transactions are eliminated in the accompanying consolidated financial statements.

Comparative Information

The consolidated financial statements include certain prior year summarized comparative information in total, but not by net asset classification. Such information does not include sufficient detail to constitute a presentation in conformity with U.S. generally accepted accounting principles (U.S. GAAP). Accordingly, such information should be read in conjunction with the Organization's December 31, 2013 consolidated financial statements, from which the summarized information was derived.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Basis of Presentation

Net assets and revenues, expenses, gains, and losses are classified as follows based on the existence or absence of donor imposed restrictions.

Unrestricted net assets - Net assets that are not subject to donor-imposed stipulations.

Temporarily restricted net assets - Net assets subject to donor-imposed stipulations that may or will be met by actions of the Organization and/or the passage of time. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Permanently restricted net assets - Net assets subject to donor imposed stipulations that they be maintained permanently by the Organization. The donors of these assets permit the Organization to use all or part of the income earned on related contributions for general or specific purposes. The Organization had no permanently restricted net assets as of December 31, 2014 and 2013.

All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are designated for future periods or restricted by the donor for specific purposes are reported as temporarily restricted or permanently restricted support that increases those net asset classes. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. The Organization records donor-restricted contributions whose restrictions are met in the same reporting period as unrestricted support in the year of the gift.

The Organization reports contributions of land, buildings or equipment as unrestricted support, unless a donor places explicit restriction on their use. Contributions of cash or other assets that must be used to acquire long-lived assets are reported as temporarily restricted support and reclassified to unrestricted net assets when the assets are acquired and placed in service.

Cash and Cash Equivalents

The Organization considers all highly liquid investments with an initial maturity of three months or less to be cash equivalents. The Organization maintains its cash in bank deposit accounts which, at times, may exceed the federally insured limits. Management regularly monitors the financial institutions, together with their respective cash balances, and attempts to maintain the potential risk at a minimum. The Organization has not experienced any losses in such accounts and management believes it is not exposed to any significant risk on these accounts.

Restricted deposits are those deposits of cash and cash equivalents not generally available for operating costs, but restricted to particular uses including operating and replacement reserves for rental properties as well as certain other social services and programs.

Property and Equipment

Property and equipment are recorded at cost or, if donated, at estimated fair market value at the date of donation less accumulated depreciation. The Organization's capitalization policy requires the capitalization of capital expenditures greater than $1,000, while ordinary maintenance and repairs are charged to expense. Depreciation is provided using the straight-line method over the estimated useful lives of the related assets, ranging from 5 to 30 years. Assets not in service are not depreciated.

Volunteer Services (unaudited)

A number of volunteers have donated their time to the Organization's various programs and administrative services. The value of these services has not been included in the accompanying consolidated financial statements since the volunteers' time does not meet criteria for recognition. The estimated value of donated time for the years ended December 31, 2014 and 2013, is approximately $810,000 and $780,000, respectively.

Functional Expense Allocation

The costs of providing various programs and activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Income Taxes

The Organization is a tax-exempt Section 170(b)(1)(A)(vi) public charity as described in Section 501(c)(3) of the Internal Revenue Code (the Code) and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. Accordingly, no provision for income taxes has been reflected in these financial statements.

The standards for accounting for uncertainty in income taxes require the Organization to report any uncertain tax positions and to adjust its financial statements for the impact thereof. As of December 31, 2014 and 2013, the Organization determined that it had no tax positions that did not meet the more-likely-than-not threshold of being sustained by the applicable tax authority. The Organization files an informational return in the United States. This return is generally subject to examination by the federal government for up to three years.

No provision for taxes on income is made in the Limited Partnerships' financial statements since, as a partnership, all taxable income and losses are allocated to the partners for inclusion in their respective tax returns.

Reclassification

Certain amounts in the 2013 financial statements have been reclassified to conform to the current year's presentation.

2. Property and Equipment

Property and equipment consisted of the following:

	2014	2013
Land	$ 3,112,699	$ 2,304,135
Land improvements	595,300	502,948

Less: accumulated depreciation	6,386,721	5,575,556
Property and equipment, net	$ 26,111,906	$ 24,356,363

During 2012, the Organization began the development of the Hayward Street Permanent Supportive Housing Program (Hayward St. Program) through funding received by Housing Benefits from the U.S. Department of Housing and Urban Development, passed through the City of Manchester, New Hampshire, known as Neighborhood Stabilization Program grants. The funds were used to purchase a vacant lot in Manchester, New Hampshire and to construct a building used to provide housing and supportive services to individuals and families who are homeless. The facility contains four 2-bedroom apartments and two 1-bedroom apartments. In addition, tenants receive comprehensive supportive services designed to ensure long-term stability and wellness. At December 31, 2013, the Organization had incurred costs of approximately $1.1 million presented in the Organization's consolidated statement of financial position as development in process.

At December 31, 2014, the Organization had invested approximately $1.5 million in the Hayward St. Program. INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

b. Business Associate may use or disclose PHI:

If Covered Entity objects to such disclosure, the Business

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

c. The Business Associate shall comply with all sections of the Privacy, Security, and Breach Notification Rule.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

We have audited the accompanying consolidated financial statements of Goodwin Community Health and Subsidiary (the Organization), which comprise the consolidated balance sheet as of June 30, 2015, and the related consolidated statements of operations and changes in net assets and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Goodwin Community Health and Subsidiary as of June 30, 2015, and the results of their operations, changes in their net assets and their cash flows for the year then ended, in accordance with U.S. generally accepted accounting principles.

Auditor's Updated Opinion on 2015 Consolidated Financial Statements

In our report dated October 15, 2015, we expressed an unmodified opinion that the 2015 consolidated financial statements. The 2015 consolidated financial statements have been revised to correct the amount of cash used by investing activities on the consolidated statement of cash flows. The auditor's opinion is not modified with respect to that matter.

Adjustments to Prior Period Summarized Comparative Information

The consolidated financial statements of the Organization as of June 30, 2014 were audited by another auditor whose opinion dated November 25, 2014, on those statements was unmodified. As disclosed in Note 1, the Organization has restated its 2014 consolidated financial statements during 2015 to change the classification of grants received for capital acquisition previously placed in service and released over the life of the related assets from temporarily restricted net assets to unrestricted net assets, to establish a contractual allowance reserve for the differences between amounts billed to third-party payers and amounts expected to be paid, and to record additional grant funds receivable, in accordance with U.S. generally accepted accounting principles. The other auditor reported on the 2014 consolidated financial statements before the restatement.

As part of our audit of the 2015 consolidated financial statements, we also audited adjustments described in Note 1 that were applied to restate the accompanying 2014 consolidated financial statements. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review or apply any procedures to the 2014 consolidated financial statements of the Organization other than with respect to the adjustments and, accordingly, we do not express an opinion or any form of assurance on the 2014 consolidated financial statements as a whole.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying supplementary information, which consists of the consolidating statement of financial position as of June 30, 2015, and the related consolidating statements of operations and changes in net assets for the year then ended, is presented for purposes of additional analysis rather than to present the financial position and changes in net assets of the individual entities, and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Organization

Goodwin Community Health (GCH) is a non-stock, not-for-profit corporation organized in New Hampshire. GCH is a Federally Qualified Health Center (FQHC) which provides prenatal care, social support, and public health services to low-income persons.

Subsidiary

Great Bay Mental Health Associates, Inc. (GBMHA), a wholly-owned for-profit subsidiary, engaged in providing mental health services in the Strafford County, New Hampshire community through its employees and independent contractors who are qualified and licensed to practice in the State of New Hampshire.

1. Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of GCH and its subsidiary, GBMHA (collectively, the Organization). All significant intercompany balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes

GCH is a public charity under Section 501(c)(3) of the Internal Revenue Code. As a public charity, GCH is exempt from state and federal income taxes on income earned in accordance with its tax exempt purpose. Unrelated business income is subject to state and federal income tax. GBMHA is a nonexempt organization and files applicable Form 1120 (corporate return). No provision for income taxes was necessary for the years ended June 30, 2015 and 2014.

Management has evaluated the Organization's tax positions and concluded that the Organization has no unrelated business income or uncertain tax positions that require adjustment to the consolidated financial statements. The Organization is subject to U.S. federal and state examinations by tax authorities for years ended June 30, 2012 through June 30, 2015.

Cash and Cash Equivalents

Cash and cash equivalents consist of demand deposits and petty cash funds.

Investments

Investments consist of certificates of deposit with a maturity in excess of one year.

Patient Accounts Receivable

Patient accounts receivable are stated at the amount management expects to collect from outstanding balances. Patient accounts receivable are reduced by an allowance for uncollectible accounts. In evaluating the collectability of patient accounts receivable, the Organization analyzes its past history and identifies trends for each funding source. Management regularly reviews data about revenue in evaluating the sufficiency of the allowance for uncollectible accounts. Amounts not collected after all reasonable collection efforts have been exhausted are applied against the allowance for uncollectible accounts. The Organization has not changed its methodology for estimating the allowance for uncollectible accounts during 2015 or 2014.

A reconciliation of the allowance for uncollectible accounts at June 30 is as follows:

	2015	2014
Balance, beginning of year	$ 88,420	$ 137,852
Provision	255,044	304,004
Write-offs	(262,086)	(353,436)
Balance, end of year	$ 81,378	$ 88,420

Property and Equipment

Property and equipment acquisitions are recorded at cost. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed on the straight-line method.

Gifts of long-lived assets such as land, buildings, or equipment are reported as unrestricted net assets, and excluded from the excess of revenues over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as temporarily restricted net assets. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the Organization has been limited by grantors or donors to a specific time-period or purpose. There were no temporarily restricted net assets at June 30, 2015 and 2014.

Permanently restricted net assets have been restricted by donors to be maintained by the Organization in perpetuity. There were no permanently restricted net assets at June 30, 2015 or 2014.

Patient Service Revenue

Patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

340B Drug Pricing Program

The Organization, as an FQHC, is eligible to participate in the 340B Drug Pricing Program. The program requires drug manufacturers to provide outpatient drugs to FQHC's and other identified entities at a reduced price. The Organization contracts with local pharmacies under this program. The local pharmacies dispense drugs to eligible patients of the Organization and bill Medicare and commercial insurances on behalf of the Organization. Reimbursement received by the pharmacies is remitted to the Organization, less dispensing and administrative fees. Gross revenue generated from the program is included in patient service revenue. Contracted expenses incurred related to the program are included in other operating expenses.

Charity Care

The Organization provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Organization does not pursue collection of amounts determined to qualify as charity care, they are not reported as net patient service revenue.

Donor-Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statements of operations as "net assets released from restrictions." Donor-restricted contributions whose restrictions are met in the same year as received are reflected as unrestricted contributions in the accompanying consolidated financial statements.

Functional Expenses

The Organization provides various services to residents within its geographic location. Expenses related to providing these services are as follows:

	2015	2014
Program services	$ 6,330,133	$ 5,727,499
Administrative and general	1,154,848	1,050,293
Fundraising	180,836	137,934
Total	$ 7,665,817	$ 6,915,726

Excess of Revenues Over Expenses

The consolidated statements of operations reflect the excess of revenues over expenses. Changes in unrestricted net assets which are excluded from the excess of revenues over expenses, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions which, by donor restriction, were to be used for the purposes of acquiring such assets).

Prior Period Adjustments

Grants and contributions received for capital acquisition previously placed in service and released over the life of the related assets from temporarily restricted net assets to unrestricted net assets were reclassified to unrestricted net assets as of the beginning of the year ended June 30, 2014. A contractual allowance reserve was established for the difference between amounts billed to third-party payers and expected payments for accounts receivable balances at June 30, 2014. Grants receivable and related revenue were increased for Outreach and Enrollment grant expenses incurred in June 2014. As a result of these adjustments, the following amounts previously reported have been restated as of June 30, 2014:

	Unrestricted Net Assets	Temporarily Restricted Net Assets
Balance as of June 30, 2014, as previously reported	$ 354,851	$ 5,419,981
Reverse net assets released from restriction for the year ended June 30, 2014	(210,011)	210,011
Reclassification of remaining balance of grants received for capital acquisition to unrestricted net assets	5,629,992	(5,629,992)
Record contractual allowance reserve	(47,857)	-
Record grant receivable	16,670	-
Total prior period adjustments	5,388,794	(5,419,981)
Balance as of June 30, 2014, as restated	$ 5,743,645	$ -

Subsequent Events

For purposes of the preparation of these financial statements, management has considered transactions or events occurring through December 11, 2015, the date that the financial statements were issued. Management has not evaluated subsequent events after that date for inclusion in the financial statements.

In September 2015, the Organization's Board of Directors voted to sell GBMHA to a local not-for-profit with an expected closing date of December 31, 2015.

The Organization has also received a commitment from Frisbie Memorial Hospital (holder of the Organization's line of credit) that the remaining balance on the line of credit will be forgiven in October 2015.

2. Fair Value of Financial Instruments

The following methods and assumptions were used by the Organization in estimating the fair value of certain financial instruments:

Cash and cash equivalents – The carrying amount reported in the consolidated balance sheet approximates fair value because of the short maturity of those instruments.

Investments - The carrying amount reported in the consolidated balance sheet approximates fair value because of the liquidity of the certificates of deposit.

Notes payable – The carrying amount reported in the consolidated balance sheets approximates fair value because the Organization can obtain similar loans at the same terms.

3. Property and Equipment

Property and equipment consisted of the following:

	2015	2014
Land	$ 718,427	$ 718,427
Building and improvements	5,670,162	5,670,162
Furniture, fixtures, and equipment	1,364,376	1,331,701
Total cost	7,752,965	7,720,290
Less accumulated depreciation	1,698,003	1,444,257
Total cost, less accumulated depreciation	6,054,962	6,276,033
Construction in progress	92,721	-
Property and equipment, net	$ 6,147,683	$ 6,276,033

The Organization's building was constructed with Federal grant funding under the American Recovery and Reinvestment Act (ARRA) – Facilities Improvement Program. In accordance with the grant agreements, a Notice of Federal Interest (NFI) is required to be filed in the appropriate official records of the jurisdiction in which the property is located. The NFI is designed to notify any prospective buyer or creditor that the Federal Government has a financial interest in the real property acquired under the aforementioned grant; that the property may not be used for any purpose inconsistent with that authorized by the grant program statute and applicable regulations; that the property may not be mortgaged or otherwise used as collateral without the written permission of the Associate Administrator of the Office of Federal Assistance Management, Health Resources and Services Administration (OFAM, HRSA); and that the property may not be sold or transferred to another party without the written permission of the Associate Administrator of OFAM, HRSA.

4. Line of Credit

The Organization has a $200,000 line of credit with Frisbie Memorial Hospital. The line of credit is interest free, unsecured, and due on demand. The outstanding balances on the line of credit at June 30, 2015 and 2014 were $56,500 and $193,500, respectively.

5. Long-term Debt

Long-term debt consists of the following:

	2015	2014
Variable rate note payable to a local bank, payable in monthly installments of $4,464, including interest at 4.75%, through December 2018, at which time the interest will be adjusted to the Federal Home Loan Bank of Boston Rate plus 2.5% and every five years thereafter through December 2029, collateralized by real estate which is subject to a Notice of Federal Interest (see Note 3).	$ 556,504	$ 584,049
Note payable to a not-for-profit corporation, payable in monthly installments of $8,069, including interest at 5.25%, through September 2017, collateralized by real estate which is subject to a Notice of Federal Interest (see Note 3) and all other assets.	205,217	288,858
Note payable to a local bank, payable in monthly installments of $1,860, including interest at 4.75%, through January 2019, collateralized by all assets.	73,251	90,112
Note payable, New Hampshire Health and Education Facilities Authority, payable in monthly installments of $1,709, including interest at 1.00%, through July 2016. The note is unsecured.	22,093	42,275

	2015	2014
Variable rate note payable to a local bank, payable in monthly installments of $596, including interest at Prime plus 1.5% with a 4% floor, currently at 4.75%, through June 2017, collateralized by all assets of GBMHA and an unlimited corporate guaranty of GCH.	12,956	19,307
Total long-term debt	870,021	1,024,601
Less current maturities	161,740	154,716
Long-term debt, less current maturities	$ 708,281	$ 869,885

The Organization is required to meet certain administrative and financial covenants under various loan agreements included above. The Organization is in compliance with all loan covenants at June 30, 2015.

Maturities of long-term debt for the next five years follows:

2016	$ 161,740
2017	150,098
2018	75,377
2019	42,728
2020	33,120

Cash paid for interest approximates interest expense.

6. Patient Service Revenue

Patient service revenue is as follows:

	2015	2014
Medicare	$ 638,547	$ 503,327
Medicaid	3,131,251	2,344,536
Third-party payers and private pay	2,131,634	1,902,460
Medical and dental patient service revenue	5,901,432	4,750,323
340B pharmacy revenue	244,614	-
Total patient service revenue	$ 6,146,046	$ 4,750,323

The Organization has agreements with the Centers for Medicare and Medicaid Services (Medicare) and New Hampshire Medicaid. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The management believes that the Organization is in compliance with all laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medicaid programs. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in patient service revenue in the year that such amounts become known.

A summary of the payment arrangements with major third-party payers follows:

Medicare

As an FQHC, the Organization is reimbursed for the care of qualified patients at specified interim contractual rates during the year. Differences between the Medicare interim contractual rate and the cost of care as defined by the Principles of Reimbursement governing the program are determined and settled on a retrospective basis. Overall, reimbursement is subject to a maximum allowable rate per visit. The Organization's Medicare cost reports have been audited by the Medicare administrative contractor through June 30, 2013.

Other Payers

The Organization also has entered into payment agreements with Medicaid and certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the Organization under these agreements includes prospectively determined rates per visit, discounts from established charges and capitated arrangements for primary care services on a per member, per month basis.

The Organization provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. The Organization estimates the costs associated with providing charity care by calculating the ratio of total cost to total charges, and then multiplying that ratio by the gross uncompensated charges associated with providing care to patients eligible for free care. The estimated cost of providing services to patients under the Organization charity care policy amounted to approximately $486,000 and $680,000 for the years ended June 30, 2015 and 2014, respectively.

The Organization is able to provide these services with a component of funds received through local community support and federal and state grants.

7. Retirement Plan

The Organization has a defined contribution plan under Internal Revenue Code Section 401(k) that cover substantially all employees. In 2011, the Organization temporarily suspended the employer match.

8. WIC Food Vouchers

The Organization acts as a conduit for the State of New Hampshire's Special Supplemental Food Program for Women, Infants and Children (WIC). This program is funded by the U.S. Department of Agriculture (CFDA #10.565). The value of food vouchers distributed by the Organization was $1,570,536 and $1,572,910 for the years ended June 30, 2015 and 2014, respectively. These amounts are not included in the accompanying consolidated financial statements as they are not part of the contract the Organization has with the State of New Hampshire for the WIC program.

9. Concentration of Risk

The Organization has cash deposits in major financial institutions which exceed federal depository insurance limits. The financial institutions have a strong credit rating and management believes the credit risk related to these deposits is minimal.

The Organization grants credit without collateral to its patients, most of who are local residents and are insured under third-party payer agreements. At June 30, 2015 and 2014, Medicaid represented 31% and 30%, respectively, of gross accounts receivable. No other individual payer source exceeded 10% of the gross accounts receivable balance.

10. Commitments and Contingencies

Medical Malpractice Insurance

The Organization is protected from medical malpractice risk as an FQHC under the Federal Tort Claims Act (FTCA). As of June 30, 2015, there were no known malpractice claims outstanding which in the opinion of management, will be settled for amounts outside of FTCA coverage, nor are there any unasserted claims or incidents which require loss accrual.

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Goodwin Community Health and Subsidiary

Report on Financial Statements

We have audited the accompanying consolidated financial statements of Goodwin Community Health and Subsidiary (the Organization), which comprise the consolidated balance sheet as of June 30, 2015, and the related consolidated statements of operations and changes in net assets and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Goodwin Community Health and Subsidiary as of June 30, 2015, and the results of their operations, changes in their net assets and their cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Auditor's Updated Opinion on 2015 Consolidated Financial Statements

In our report dated October 15, 2015, we expressed an unmodified opinion that the 2015 consolidated financial statements. The 2015 consolidated financial statements have been revised to correct the amount of cash used by investing activities on the consolidated statement of cash flows. The auditor's opinion is not modified with respect to that matter.

Adjustments to Prior Period Summarized Comparative Information

The consolidated financial statements of the Organization as of June 30, 2014 were audited by another auditor whose opinion dated November 25, 2014, on those statements was unmodified. As disclosed in Note 1, the Organization has restated its 2014 consolidated financial statements during 2015 to change the classification of grants received for capital acquisition previously placed in service and released over the life of the related assets from temporarily restricted net assets to unrestricted net assets, to establish a contractual allowance reserve for the differences between amounts billed to third-party payers and amounts expected to be paid and to record additional grant funds receivable, in accordance with U.S. generally accepted accounting principles. The other auditor reported on the 2014 consolidated financial statements before the restatement.

As part of our audit of the 2015 consolidated financial statements, we also audited adjustments described in Note 1 that were applied to restate the accompanying 2014 consolidated financial statements. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review or apply any procedures to the 2014consolidated financial statements of the Organization other than with respect to the adjustments and, accordingly, we do not express an opinion or any form of assurance on the 2014 consolidated financial statements as a whole.

Other Matters

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying supplementary consolidating statement of financial position as of June 30, 2015, and the related consolidating statements of operations and changes in net assets for the year then ended, is presented for purposes of additional analysis rather than to present the financial position and changes in net assets of the individual entities, and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2015 on our consideration of Goodwin Community Health and Subsidiary's internal control over financial reporting and on our tests of their compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Goodwin Community Health and Subsidiary's internal control over financial reporting and compliance.

Organization

Goodwin Community Health (GCH) is a non-stock, not-for-profit corporation organized in New Hampshire. GCH is a Federally Qualified Health Center (FQHC) which provides prenatal care, social support, and public health services to low-income persons.

Subsidiary

Great Bay Mental Health Associates, Inc. (GBMHA), a wholly-owned for-profit subsidiary, engaged in providing mental health services in the Strafford County, New Hampshire community through its employees and independent contractors who are qualified and licensed to practice in the State of New Hampshire.

1. Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of GCH and its subsidiary, GBMHA (collectively, the Organization). All significant intercompany balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes

GCH is a public charity under Section 501(c)(3) of the Internal Revenue Code. As a public charity, GCH is exempt from state and federal income taxes on income earned in accordance with its tax exempt purpose. Unrelated business income is subject to state and federal income tax. GBMHA is a nonexempt organization and files applicable Form 1120 (corporate return). No provision for income taxes was necessary for the years ended June 30, 2015 and 2014.

Management has evaluated the Organization's tax positions and concluded that the Organization has no unrelated business income or uncertain tax positions that require adjustment to the consolidated financial statements. The Organization is subject to U.S. federal and state examinations by tax authorities for years ended June 30, 2012 through June 30, 2015.

Cash and Cash Equivalents

Cash and cash equivalents consist of demand deposits and petty cash funds.

Investments

Investments consist of certificates of deposit with a maturity in excess of one year.

Patient Accounts Receivable

Patient accounts receivable are stated at the amount management expects to collect from outstanding balances. Patient accounts receivable are reduced by an allowance for uncollectible accounts. In evaluating the collectability of patient accounts receivable, the Organization analyzes its past history and identifies trends for each funding source. Management regularly reviews data about revenue in evaluating the sufficiency of the allowance for uncollectible accounts. Amounts not collected after all reasonable collection efforts have been exhausted are applied against the allowance for uncollectible accounts. The Organization has not changed its methodology for estimating the allowance for uncollectible accounts during 2015 or 2014.

A reconciliation of the allowance for uncollectible accounts at June 30 is as follows:

	2015	2014
Balance, beginning of year	$ 88,420	$ 137,852
Provision	255,044	304,004
Write-offs	(262,086)	(353,436)
Balance, end of year	$ 81,378	$ 88,420

Property and Equipment

Property and equipment acquisitions are recorded at cost. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed on the straight-line method.

Gifts of long-lived assets such as land, buildings, or equipment are reported as unrestricted net assets, and excluded from the excess of revenues over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as temporarily restricted net assets. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the Organization has been limited by grantors or donors to a specific time-period or purpose. There were no temporarily restricted net assets at June 30, 2015 and 2014.

Permanently restricted net assets have been restricted by donors to be maintained by the Organization in perpetuity. There were no permanently restricted net assets at June 30, 2015 or 2014.

Patient Service Revenue

Patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

340B Drug Pricing Program

The Organization, as an FQHC, is eligible to participate in the 340B Drug Pricing Program. The program requires drug manufacturers to provide outpatient drugs to FQHC's and other identified entities at a reduced price. The Organization contracts with local pharmacies under this program. The local pharmacies dispense drugs to eligible patients of the Organization and bill Medicare and commercial insurances on behalf of the Organization. Reimbursement received by the pharmacies is remitted to the Organization, less dispensing and administrative fees. Gross revenue generated from the program is included in patient service revenue. Contracted expenses incurred related to the program are included in other operating expenses.

Charity Care

The Organization provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Organization does not pursue collection of amounts determined to qualify as charity care, they are not reported as net patient service revenue.

Donor-Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statements of operations as "net assets released from restrictions." Donor-restricted contributions whose restrictions are met in the same year as received are reflected as unrestricted contributions in the accompanying consolidated financial statements.

Functional Expenses

The Organization provides various services to residents within its geographic location. Expenses related to providing these services are as follows:

	2015	2014
Program services	$ 6,330,133	$ 5,727,499
Administrative and general	1,154,848	1,050,293
Fundraising	180,836	137,934
Total	$ 7,665,817	$ 6,915,726

Excess of Revenues Over Expenses

The consolidated statements of operations reflect the excess of revenues over expenses. Changes in unrestricted net assets which are excluded from the excess of revenues over expenses, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions which, by donor restriction, were to be used for the purposes of acquiring such assets).

Prior Period Adjustments

Grants and contributions received for capital acquisition previously placed in service and released over the life of the related assets from temporarily restricted net assets to unrestricted net assets were reclassified to unrestricted net assets as of the beginning of the year ended June 30, 2014. A contractual allowance reserve was established for the difference between amounts billed to third-party payers and expected payments for accounts receivable balances at June 30, 2014. Grants receivable and related revenue were increased for Outreach and Enrollment grant expenses incurred in June 2014. As a result of these adjustments, the following amounts previously reported have been restated as of June 30, 2014:

	Unrestricted Net Assets	Temporarily Restricted Net Assets
Balance as of June 30, 2014, as previously reported	$ 354,851	$ 5,419,981
Reverse net assets released from restriction for the year ended June 30, 2014	(210,011)	210,011
Reclassification of remaining balance of grants received for capital acquisition to unrestricted net assets	5,629,992	(5,629,992)
Record contractual allowance reserve	(47,857)	-
Record grant receivable	16,670	-
Total prior period adjustments	5,388,794	(5,419,981)
Balance as of June 30, 2014, as restated	$ 5,743,645	$ -

Subsequent Events

For purposes of the preparation of these financial statements, management has considered transactions or events occurring through December 11, 2015, the date that the financial statements were issued. Management has not evaluated subsequent events after that date for inclusion in the financial statements.

In September 2015, the Organization's Board of Directors voted to sell GBMHA to a local not-for-profit with an expected closing date of December 31, 2015.

The Organization has also received a commitment from Frisbie Memorial Hospital (holder of the Organization's line of credit) that the remaining balance on the line of credit will be forgiven in October 2015.

2. Fair Value of Financial Instruments

The following methods and assumptions were used by the Organization in estimating the fair value of certain financial instruments:

Cash and cash equivalents – The carrying amount reported in the consolidated balance sheet approximates fair value because of the short maturity of those instruments.

Investments - The carrying amount reported in the consolidated balance sheet approximates fair value because of the liquidity of the certificates of deposit.

Notes payable – The carrying amount reported in the consolidated balance sheets approximates fair value because the Organization can obtain similar loans at the same terms.

3. Property and Equipment

Property and equipment consisted of the following:

	2015	2014
Land	$ 718,427	$ 718,427
Building and improvements	5,670,162	5,670,162
Furniture, fixtures, and equipment	1,364,376	1,331,701
Total cost	7,752,965	7,720,290
Less accumulated depreciation	1,698,003	1,444,257
Total cost, less accumulated depreciation	6,054,962	6,276,033
Construction in progress	92,721	-
Property and equipment, net	$ 6,147,683	$ 6,276,033

The Organization's building was constructed with Federal grant funding under the American Recovery and Reinvestment Act (ARRA) – Facilities Improvement Program. In accordance with the grant agreements, a Notice of Federal Interest (NFI) is required to be filed in the appropriate official records of the jurisdiction in which the property is located. The NFI is designed to notify any prospective buyer or creditor that the Federal Government has a financial interest in the real property acquired under the aforementioned grant; that the property may not be used for any purpose inconsistent with that authorized by the grant program statute and applicable regulations; that the property may not be mortgaged or otherwise used as collateral without the written permission of the Associate Administrator of the Office of Federal Assistance Management, Health Resources and Services Administration (OFAM, HRSA); and that the property may not be sold or transferred to another party without the written permission of the Associate Administrator of OFAM, HRSA.

4. Line of Credit

The Organization has a $200,000 line of credit with Frisbie Memorial Hospital. The line of credit is interest free, unsecured, and due on demand. The outstanding balances on the line of credit at June 30, 2015 and 2014 were $56,500 and $193,500, respectively.

5. Long-term Debt

Long-term debt consists of the following:

	2015	2014
Variable rate note payable to a local bank, payable in monthly installments of $4,464, including interest at 4.75%, through December 2018, at which time the interest will be adjusted to the Federal Home Loan Bank of Boston Rate plus 2.5% and every five years thereafter through December 2029, collateralized by real estate which is subject to a Notice of Federal Interest (see Note 3).	$ 556,504	$ 584,049
Note payable to a not-for-profit corporation, payable in monthly installments of $8,069, including interest at 5.25%, through September 2017, collateralized by real estate which is subject to a Notice of Federal Interest (see Note 3) and all other assets.	205,217	288,858

	2015	2014
Variable rate note payable to a local bank, payable in monthly installments of $596, including interest at Prime plus 1.5% with a 4% floor, currently at 4.75%, through June 2017, collateralized by all assets of GBMHA and an unlimited corporate guaranty of GCH.	12,956	19,307
Total long-term debt	870,021	1,024,601
Less current maturities	161,740	154,716
Long-term debt, less current maturities	$ 708,281	$ 869,885

The Organization is required to meet certain administrative and financial covenants under various loan agreements included above. The Organization is in compliance with all loan covenants at June 30, 2015.

Maturities of long-term debt for the next five years follows:

2016	$ 161,740
2017	150,098
2018	75,377
2019	42,728
2020	33,120

Cash paid for interest approximates interest expense.

6. Patient Service Revenue

Patient service revenue is as follows:

	2015	2014
Medicare	$ 638,547	$ 503,327
Medicaid	3,131,251	2,344,536
Third-party payers and private pay	2,131,634	1,902,460
Medical and dental patient service revenue	5,901,432	4,750,323
340B pharmacy revenue	244,614	-
Total patient service revenue	$ 6,146,046	$ 4,750,323

The Organization has agreements with the Centers for Medicare and Medicaid Services (Medicare) and New Hampshire Medicaid. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The management believes that the Organization is in compliance with all laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medicaid programs. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in patient service revenue in the year that such amounts become known.

A summary of the payment arrangements with major third-party payers follows:

Medicare

As an FQHC, the Organization is reimbursed for the care of qualified patients at specified interim contractual rates during the year. Differences between the Medicare interim contractual rate and the cost of care as defined by the Principles of Reimbursement governing the program are determined and settled on a retrospective basis. Overall, reimbursement is subject to a maximum allowable rate per visit. The Organization's Medicare cost reports have been audited by the Medicare administrative contractor through June 30, 2013.

Other Payers

The Organization also has entered into payment agreements with Medicaid and certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the Organization under these agreements includes prospectively determined rates per visit, discounts from established charges and capitated arrangements for primary care services on a per member, per month basis.

The Organization provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. The Organization estimates the costs associated with providing charity care by calculating the ratio of total cost to total charges, and then multiplying that ratio by the gross uncompensated charges associated with providing care to patients eligible for free care. The estimated cost of providing services to patients under the Organization charity care policy amounted to approximately $486,000 and $680,000 for the years ended June 30, 2015 and 2014, respectively.

The Organization is able to provide these services with a component of funds received through local community support and federal and state grants.

7. Retirement Plan

The Organization has a defined contribution plan under Internal Revenue Code Section 401(k) that cover substantially all employees. In 2011, the Organization temporarily suspended the employer match.

8. WIC Food Vouchers

The Organization acts as a conduit for the State of New Hampshire's Special Supplemental Food Program for Women, Infants and Children (WIC). This program is funded by the U.S. Department of Agriculture (CFDA #10.565). The value of food vouchers distributed by the Organization was $1,570,536 and $1,572,910 for the years ended June 30, 2015 and 2014, respectively. These amounts are not included in the accompanying consolidated financial statements as they are not part of the contract the Organization has with the State of New Hampshire for the WIC program.

9. Concentration of Risk

The Organization has cash deposits in major financial institutions which exceed federal depository insurance limits. The financial institutions have a strong credit rating and management believes the credit risk related to these deposits is minimal.

The Organization grants credit without collateral to its patients, most of who are local residents and are insured under third-party payer agreements. At June 30, 2015 and 2014, Medicaid represented 31% and 30%, respectively, of gross accounts receivable. No other individual payer source exceeded 10% of the gross accounts receivable balance.

10. Commitments and Contingencies

Medical Malpractice Insurance

The Organization is protected from medical malpractice risk as an FQHC under the Federal Tort Claims Act (FTCA). As of June 30, 2015, there were no known malpractice claims outstanding which in the opinion of management, will be settled for amounts outside of FTCA coverage, nor are there any unasserted claims or incidents which require loss accrual.

Notes to Schedule of Expenditures of Federal Awards

Year Ended June 30, 2015

1. **Basis of Presentation**

The schedule of expenditures of federal awards includes the federal grant activity of Goodwin Community Health and Subsidiary. The information in this Schedule is presented in accordance with the requirements of U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the schedule presents only a selected portion of the operations of the Association, it is not intended to, and does not present, the consolidated financial position, changes in net assets, or cash flows of Goodwin Community Health and Subsidiary.

2. **Summary of Significant Accounting Policies**

Expenditures reported on the schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-122, *Cost Principles for Nonprofit Organizations*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Negative amounts shown on the schedule, if applicable, represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Directors
Goodwin Community Health and Subsidiary

We have audited, in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Goodwin Community Health and Subsidiary, which comprise the consolidated balance sheet as of June 30, 2015, and the related consolidated statements of operations and changes in net assets and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated December 11, 2015.

Internal Control over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered the Organization's internal control over financial reporting (internal control) to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's consolidated financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Board of Directors
Goodwin Community Health and Subsidiary

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Organization's consolidated financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR THE MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Board of Directors
Goodwin Community Health and Subsidiary

Report on Compliance for the Major Federal Program

We have audited Goodwin Community Health and Subsidiary's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on its major federal program for the year ended June 30, 2015. The Organization's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the Organization's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Organization's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the Organization's compliance.

Opinion on the Major Federal Program

In our opinion, the Organization complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2015.

Board of Directors
Goodwin Community Health and Subsidiary

Report on Internal Control over Compliance

Management of the Organization is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit, we considered the Organization's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

b. Business Associate may use or disclose PHI:
   I. For the proper management and administration of the Business Associate;
   II. As required by law, pursuant to the terms set forth in paragraph d. below; or
   III. For data aggregation purposes for the health care operations of Covered Entity.

c. To the extent Business Associate is permitted under the Agreement to disclose PHI to a third party, Business Associate must obtain, prior to making any such disclosure, (i) reasonable assurances from the third party that such PHI will be held confidentially and used or further disclosed only as required by law or for the purpose for which it was disclosed to the third party; and (ii) an agreement from such third party to notify Business Associate, in accordance with the HIPAA Privacy, Security, and Breach Notification Rules of any breaches of the confidentiality of the PHI, to the extent it has obtained knowledge of such breach.

If Covered Entity objects to such disclosure, the Business

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Greater Nashua Council on Alcoholism

Report on the Financial Statements

We have audited the accompanying financial statements of Greater Nashua Council on Alcoholism, which comprise the statement of financial position as of June 30, 2015, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Greater Nashua Council on Alcoholism, Inc. as of June 30, 2015, and the changes in net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited Greater Nashua Council on Alcoholism, Inc.'s fiscal year June 30, 2014 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated January 15, 2015. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2014 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2015 on our consideration of the Greater Nashua Council on Alcoholism's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Greater Nashua Council on Alcoholism's internal control over financial reporting and compliance.

GREATER NASHUA COUNCIL ON ALCOHOLISM

Notes to the Financial Statements

1. Organization:

Greater Nashua Council on Alcoholism (the Organization) is a nonprofit organization providing recovery support services which are evidence-based, gender-specific, and culturally competent. The programs include residential, transitional housing, outpatient, intensive outpatient, family-based substance abuse services, pregnant and parenting women and children, and offender re-entry services initiative.

2. Summary of Significant Accounting Policies:

The following is a summary of significant accounting policies of the Organization used in preparing and presenting the accompanying financial statements.

Accounting for Contributions and Financial Statement Presentation

The Organization follows *Accounting for Contributions Received and Contributions Made* and *Financial Statements of Not-for-Profit Organizations* as required by the Financial Accounting Standards Board Accounting Standards Codification (FASB ASC). Under these guidelines, the Organization is required to distinguish between contributions that increase permanently restricted net assets, temporarily restricted net assets, and unrestricted net assets. It also requires recognition of contributions, including contributed services, meeting certain criteria at fair values. These reporting standards establish standards for financial statements of not-for-profit organizations and require a Statement of Financial Position, a Statement of Activities, a Statement of Functional Expenses, and a Statement of Cash Flows.

Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting. Under this basis, revenues, other than contributions, and expenses are reported when incurred, without regard to the date of receipt or payment of cash. Contributions are reported in accordance with FASB ASC *Accounting for Contributions Received and Contributions Made.*

Restricted and Unrestricted Revenue

Contributions that are restricted by the donor are reported as increases in unrestricted net assets if the restrictions expire (that is, when a stipulated time restriction ends or purpose restriction is accomplished) in the reporting period in which the revenue is recognized. All other donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets, depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the Statement of Activities as net assets released from restrictions.

Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the Organization considers all highly liquid investments with an initial maturity of three months or less to be cash equivalents.

Allowance for Doubtful Accounts

The adequacy of the allowance for doubtful accounts for receivables is reviewed on an ongoing basis by the Organization's management and adjusted as required through the provision for doubtful accounts (bad debt expense). In determining the amount required in the allowance account for the year ended June 30, 2015, management has taken into account a variety of factors.

Property, Equipment and Depreciation

Property and equipment is recorded at cost or, if donated, at estimated fair market value at the date of donation. Major additions and improvements are capitalized, while ordinary maintenance and repairs are charged to expense. Depreciation is provided using the straight-line method over the estimated useful lives of the related assets. Assets not in service are not depreciated.

Functional Expenses

The costs of providing various programs and activities have been summarized on a functional basis in the Statement of Activities and in the Statement of Functional Expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Donated Services

The Organization receives donated services from a variety of unpaid volunteers assisting the Organization in its programs. No amounts have been recognized in the accompanying Statement of Activities because the criteria for recognition of such volunteer effort under generally accepted accounting principles have not been satisfied.

Contributions of donated services that create or enhance nonfinancial assets or that require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are recorded at their fair values in the period received.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual amounts could differ from those estimates.

Tax Status

Greater Nashua Council on Alcoholism is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3). The Organization has also been classified as an entity that is not a private foundation within the meaning of Section 509(a) and qualifies for deductible contributions.

The Organization follows FASB ASC 740-10, *Accounting for Uncertainty in Income Taxes*, which clarifies the accounting for uncertainty in income taxes and prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. FASB ASC 740-10 did not have a material impact on the Organization's financial statements.

The Organization's Federal Form 990 (Return of Organization Exempt From Income Tax) is subject to examination by the IRS, generally for three years after they were filed.

The Organization recognizes interest related to unrecognized tax benefits in interest expense and penalties that are included within reported expenses. During the year ended June 30, 2015, the Organization had no interest or penalties accrued related to unrecognized tax benefits.

Reclassifications

Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform with the presentation in the current-year financial statements.

The carrying amount of the Organization's deposits with financial institutions was $246,336 and $97,004 at June 30, 2015 and 2014, respectively. These notes are interest free for thirty years with principal payments calculated annually at the discretion of the lender. Certain covenants apply related to eligibility and use of the mortgaged property. The balance of these notes at June 30, 2015 is as follows:

- Federal Home Loan Bank of Boston – Affordable Housing Program $385,000
- New Hampshire Housing Finance Authority $1,500,000

11. Transactions with Related Parties:

The Organization offers counseling services to the clients of related organizations. These services are provided whenever requested.

The Organization receives janitorial and maintenance services performed by clients of Harbor Homes, Inc., a related organization. The Organization also receives payroll services from the related organization.

The Organization rents space from Harbor Homes, Inc., a related organization. Rent expense for the year under this agreement was approximately $17,000.

The Organization is considered a commonly controlled organization with several related entities by way of its common board of directors. However, management feels that the principal prerequisites for preparing combined financial statements are not met, and therefore more meaningful separate statements have been prepared.

12. Net Assets Released from Restriction:

There were no restricted net assets during the year ended June 30, 2015 and, as a result, no net assets were released from restrictions.

13. Retirement Plan:

After one year of continuous service with the Organization, employees may contribute a portion of their wages to a Section 403(b) retirement plan. The Organization matches a percentage of the employee contribution based on years of service. Total matching contributions paid by the Organization for the years ended June 30, 2015 and 2014 were $39,674 and $26,267, respectively.

14. Concentration of Risk:

A material part of the Organization's revenue is dependent upon support from the State of New Hampshire and Medicaid, the loss of which would have a materially adverse effect on the Organization. During the year ended June 30, 2015, the State of New Hampshire accounted for 50% and Medicaid accounted for 35% of total revenues.

15. Fair Value Measurements:

FASB ASC, *Fair Value Measurements*, provides guidance for using fair value to measure assets and liabilities. *Fair Value Measurements* applies whenever other standards require or permit assets or liabilities to be measured at their fair market value. The standard does not expand the use of fair value in any new circumstances. Under *Fair Value Measurements*, fair value refers to the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. *Fair Value Measurements* clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions.

Under *Fair Value Measurements*, the Organization categorizes its fair value estimates based on a hierarchical framework associated with three levels of price transparency utilized in measuring financial instruments at fair value. Classification is based on the lowest level of input that is significant to the fair value of the instrument. The three levels are as follows:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at

the measurement date. The types of financial instruments included in Level 1 are highly liquid instruments with quoted prices;

- Level 2 - Inputs from active markets, other than quoted prices for identical instruments, are used to model fair value. Significant inputs are directly observable from active markets for substantially the full term of the asset or liability being valued; and

- Level 3 - Pricing inputs significant to the valuation are unobservable. Inputs are developed based on the best information available; however, significant judgment is required by management in developing the inputs.

The estimated fair value of the Organization's financial instruments is presented in the following table:

	Carrying Value	Fair Value	Level One	Level Two	Level Three
Bonds payable	$ 3,905,364	$ 3,905,364	$ -	$ 3,905,364	$ -
Mortgages payable, deferred	1,885,000	1,885,000	-	1,885,000	-
Due to related organizations	183,625	183,625	-	-	183,625
Total liabilities	$ 5,973,989	$ 5,973,989	$ -	$ 5,790,364	$ 183,625

The carrying amounts of cash and cash equivalents approximate fair value because of the short maturity of those financial instruments.

	Fair Value Measurements Using Significant Unobservable Inputs Level Three
	Due to related
Beginning balance June 30, 2014	$ 177,744
Advances	163,654
Reductions	(157,773)
Ending balance June 30, 2015	$ 183,625

16. Subsequent Events:

In accordance with the provisions set forth by FASB ASC, Subsequent Events, events and transactions from July 1, 2015 through December 10, 2015, the date the financial statements were available to be issued, have been evaluated by management for disclosure. Management has determined that there were no material events that would require disclosure in the Organization's financial statements through this date.

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

CERTIFICATION REGARDING DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
    11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
    11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
    11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (l)(b) of this certification; and
    11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
    13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
    13.2. where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal (contract).

b. Business Associate may use or disclose PHI:
   I. For the proper management and administration of the Business Associate;
   II. As required by law, pursuant to the terms set forth in paragraph d. below; or

If Covered Entity objects to such disclosure, the Business

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

f. j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

Resume of Dr. Michael Krause

Michael D. Krause, Ph.D

Dr. Michael Krause is soldier, leader, educator and trainer.

In his recent capacity as dean of Valley Forge Military College, he instituted a Leadership Development program for the entire College. The program consisted three interactive forums: College Formations held monthly with the entire cadet corps and staff and faculty; Senior Leadership Forum conducted quarterly with invited Senior Leaders from government, military and private industry to discuss integrity and character building issues; and, Leadership Staff Rides to Gettysburg and Valley Forge battlefields and encampments; all to utilize the past, guide understanding of the present and create vision for future leaders by on site application of decision making under stress. The action mantra was: To build leaders of character for the future.

At the National War College and Industrial College of the Armed Forces in Washington, DC, Professor Krause taught the Art of War and Commanders and Campaigns for future senior leaders. He integrated use of such applicatory techniques as simulation, staff rides and practicum to improve understanding of leadership traits. Each medium held to requirements for decision making from leaders of the past, for leaders of the present and future. Both Colleges are still using these programs today.

In industry Dr. Krause innovated the use of experiential based education and training using simulation technology for leaders in the energy and power generation fields. Working with industry leaders he formulated university based development programs using simulation based education and training for mid-level managers and leaders. In partnership with industry, he established "education through simulation" centers at various academic institutions; notably the Emirates Simulation Academy, Higher Colleges of Technology, Abu Dhabi, UAE; Strathclyde University, Glasgow Scotland, UK; and Georgia Institute of Technology, Atlanta, GA. These centers assist in educating engineers to fully comprehend the requirements of each team member's sector of responsibility.

Acting as an agent for change for the Defense Department, Dr. Krause organized a series of leadership programs – dubbed "Wise Person" seminars. This three-day senior leader development program brought together leaders of industry, government and the military focused upon specific issues. Normally these seminars were conducted at the Army's Center for Strategic Leadership, Carlisle Barracks, PA. Additionally, Dr. Krause conducted a series of leader development seminars for the Department of the Army major commands. These leadership seminars focused upon the conduct of recent joint operations. He instituted a "whole-of-government" organizational approach to deal with a crisis environment. He developed a leader's framework for utilization by participants to aid their understanding of crisis decision-making in recent past humanitarian or military crisis.

For the last thirty years, Dr. Krause taught at every level from undergraduate school to graduate level. At the United States Military Academy, West Point, NY, he mentored and counseled cadets for over four years. As teacher in civilian universities, University of Kentucky, at Fort Knox; University of Maryland, at Frankfurt, Germany; Saigon, Vietnam; and, Chapman College, Fort Ord, CA; he individually counseled and mentored students; at graduate level he advised, mentored and taught senior level students at the National War College, Washington, DC; the Naval War College Continuing Education Program, Newport, RI; and the American Military University; in all institution he continued to advise, educate and mentor students.

In military service, then Colonel Krause instituted leadership mentoring and counseling programs for members of his various commands. In Germany this included leadership responsibilities for military communities that included over 22 military units with a 5,000 civilian dependent population. Inherently, community leadership development in security, safety, maintenance, sports and community action programs were paramount. He innovated leadership programs that sought to increase prevention of alcohol and drug abuse to save community members' and soldiers' lives. He institutionalized programs, which improved unit cohesion and morale of the military community. In Colonel Krause's command, leadership programs were instituted through integrated physical, psychological and professional programs. These programs included physical training and preparation, professional development subject at all levels; and emotional and psychological preparation for higher-level leadership responsibilities. All programs focused on increased readiness for combat.

Within the Washington, DC area the American Civil War -- Gettysburg Campaign -- served as the centerpiece for understanding the experience of leaders' decision-making and motivation. Technological, organizational and leadership capability were highlighted. After action reviews – what happened – what was supposed to occur and what could be learned from the experience – were conducted.

- Conducted a series of operational campaign analysis of recent historical events, including the Panama operation, Mogadishu, Rwanda, first Gulf war, Hurricane Andrew and other recent commitment of US and Allied military forces for government agencies. These series of analytic seminars were chaired by the operational military and civilian (ambassadorial) commanders – usually at four/three star and civilian equivalent level - Constructed a framework of analysis and requested seminar participants to present specific elements of this framework.
