Project No. 81178 - Contract B

May 27, 2022

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

- 1). Authorize the Division of Public Works Design and Construction to enter into a contract with Brookstone Builders, Inc. (VC #155834), Manchester, New Hampshire for a total price not to exceed \$673,726.90, for Concord Steam Phase 2, Concord, New Hampshire. This contract is effective upon Governor and Council approval through December 23, 2022 unless extended in accordance with the contract terms. **100% Capital - General Funds.**
- 2). Further authorize that a contingency in the amount of \$31,200.00 be approved for unanticipated site expenses for Concord Steam Phase 2, Concord, New Hampshire, bringing the total to \$704,926.90. **100% Capital - General Funds.**
- 3). Further authorize the amount of \$26,350.00 be approved for payment to the Department of Administrative Services, Division of Public Works Design and Construction (VC# 311152), for engineering services provided, bringing the total to \$731,276.90. **100% Capital - General Funds.**

Funding is available in account titled Department of Administrative Services as follows:

	<u>FY 2022</u>
03-14-14-140030-71880000 19-146:1IIC1 - Concord Steam Reno	
034-500161 - New Construction	\$ 731,276.90

EXPLANATION

The work of the project will fill the voids in the approximately 40,000 SF of concrete foundation and slab remaining after the demolition of the Concord Steam Plant. The area will then be graded to a level contour. The existing 20-foot high concrete retaining wall, running along the length of the original building and supporting Industrial Drive, will receive additional structural reinforcement.

After the Concord Steam Plant was razed, there was a need to fill trenches, tunnels and voids left over from the removal of the Steam Plant's underground substructure. These trenches, tunnels and voids pose a safety hazard and render the site unusable for any temporary or long term use. The existing retaining wall had been partially supported by interior building walls. Since those walls have been removed with the demolition of the Steam Plant, additional support is required.

The contractor has been pre-qualified by the Department of Transportation. The contract has been approved by the Attorney General as to form and execution; and the Department of Administrative Services has certified that the necessary funds are available. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Services, Division of Public Works Design and Construction.

Attached please find a copy of the tabulation of bids for this project along with the contract supplemental information sheet.

Respectfully submitted,

Charles M. Arlinghaus,
Commissioner

CONTRACT SUPPLEMENTAL INFORMATION SHEET

PROJECT: DPW Project No. 81178, Contract B
Concord Steam Phase 2, Concord NH

DESCRIPTION: This project will fill the voids in the approximately 40,000 SF of concrete foundation and slab remaining after the demolition of the Concord Steam Plant. The area will then be graded to a level contour. The existing 20-foot high concrete retaining wall, running along the length of the original building and supporting Industrial Drive, will receive additional structural reinforcement.

EXPLANATION: After the Concord Steam Plant was razed, there was a need to fill trenches, tunnels and voids left over from the removal of the Steam Plant's underground substructure. These trenches, tunnels and voids pose a safety hazard and render the site unusable for any temporary or long term use. The existing retaining wall had been partially supported by interior building walls. Since those walls have been removed with the demolition of the Steam Plant, additional support is required.

UNDER ESTIMATE

EXPLANATION: The low bid is approximately 2% below the Department's estimate and considered well within industry standards.
