EXPLANATION

A Federal Aviation Administration (FAA) grant has been awarded for \$263,250.00 (copy attached), which represents 90% of funding for the design of the relocation of an airport interior road outside of the OFA at the Manchester-Boston Regional Airport.

This grant will fund the design of the relocation of Ammon Drive, portions of the airport service road and some parking lots outside of the runway OFA. The construction of this relocation will be funded by a second FAA grant. An OFA is an area on the ground centered on the runway or taxiway centerline that is provided to enhance safety of aircraft operations by having the area free of objects, except for objects that need to be located in the OFA for air navigation or aircraft ground maneuvering purposes. Per FAA rules and regulations, airport roads and parking lots are not allowed within the OFA.

The Department of Transportation accepts the Federal Funds for this project as a pass through to the City of Manchester in accordance with RSA 422:15. State participation in the amount of \$14,625.00 (5% of this project) is also requested. The City of Manchester will participate in the amount of \$14,625.00 (5% of this project). The total cost of this airport improvement project is \$292,500.00.

In the event that the federal funds are no longer available, General Funds will not be requested to support this program. Funds are available immediately and the encumbrance will be fully posted in the first year of the contract.

Please note that the state funds are from the General Fund and have been previously approved in HB25, 2011 253:1 XIV-A and 2009, 145:1, XII-A, and Capital Budget.

Sincerely,
