PROVINCIAL PAPERS.

VOLUME IV.

[NOTE BY THE EDITOR.]

[The "Records of Council" which follow from June 21, 1722, to November 2, 1728, were copied from a MS. volume in the Secretary's office, labelled "Commissioners, &c., Council & Assembly Records, 1680 to 1740, Imperfect." The reader will perceive that these "Records" are exceedingly meagre and imperfect; but they are the only "Records of Council" that can be found relating to the above-named period, or until April 5, 1742. Probably a portion of the Records of Council were destroyed by a fire which consumed Secretary Waldron's house in 1736.* But though thus imperfect, it will be found that these Records contain some matters of great historical interest and value. Pages in the margin correspond with those in the MS. record.]

(1) Archibald MacPheadris, Esq., is among the tax-payers in Portsmouth in 1727. He built a splendid mansion at Portsmouth in 1718-1723, which cost £8000, and is still standing, at the corner of Daniel and Chapel streets, now known as the Warner house. This house is provided with a lightning-rod which was put up in 1763, under the personal inspection of Dr. Benjamin Franklin, and was probably the first put up in New Hampshire. Captain MacPheadris was a native of Scotland, an opulent merchant, and was a leading projector of the first iron-works in America. He was at the head of a small company which commenced the manufacture of iron from the ore at Lamprey river. In 1719 the General Court of Massachusetts granted to the Company a slip of land two miles wide, at the head of Dover line. This land was to furnish...

He was a native of Kittery, Me., born in 1681, and was the son of Major Charles Frost, who was slain by the Indians on the Sabbath, July 4th, 1691, as he was returning from meeting, and grandson of Nicholas Frost, an emigrant from England, born at Tiverton, about the year 1586, and settled at Sturgeon Creek, in Elliot, 1636, where he died in 1663. This grandson, Hon. John Frost, in 1702 married Mary Pepperill, sister of Sir William, the baronet. Established at New Castle, he soon rose to eminence. He was a member of his Majesty’s Council, at one time commanded a British ship-of-war, afterwards pursued the profession of a merchant, and was much distinguished and highly useful in civil life. His place of residence was on an eminence, westerly of the Prescott mansion (since the Almshouse), commanding a view of the spacious harbor, the river and its tidelands, with the lofty Agamenticus in the distance. His family was numerous and highly respectable. He died February 25, 1732, aged fifty-one years.—See Rambles about Portsmouth, p. 80, and Farm. Beik., p. 411.

It being reported to the Board that in Pursuance of a late vote of the Genl Assem' of the Province of Mass', sundry persons are going or gone to lay out, take possession of, & settle upon some of his Majesty's lands within the limits of this Province, at or near a Place called Pennecook, without the consent of this Govern't for so doing, which is not only unneighborly, but unjustifiable, and has a tendency to the destroying the Mast Trees fit for his Majesty's service that may be growing thereon, which the Lieut. (1) Saml Penhallow, Councilor, died December 2, 1728, aged sixty-one. He was born at St. Mabon, in the County of Cornwall, in England, July 2, 1665. Being bred a Puritan, he came to this country with the Rev. Charles Morton, of Charlestown, Mass., in 1686. Mr. Penhallow's intention was to devote himself to the ministry; but finding affairs in this country in a more unsettled state than he expected, he removed to Portsmouth and engaged in trade. He married the daughter of the late President John Cutt, and in her right inherited a large estate. He held many important offices in the Government; was distinguished as a magistrate; was deacon in the Congregational Church. He was appointed Councilor in 1702; was Recorder of Deeds, Judge of the Superior Court of Judicature, Chief Justice of the same, and Treasurer of the Province. Possessed of a strong mind, cultivated by education, and influenced by principles of religion, he discharged the duties of these several offices with integrity. He was the author of "The History of the Wars of New England with the Eastern Indians," from August 10, 1703, to July, 1713; & from the 25th of July, 1723, to December, 1725. He was exemplary, charitable to the poor and hospitable to strangers. Naturally of a warm and sanguine disposition, his firmness had the appearance of obstinacy; rigid in his principles, he was unwilling to make due allowances for those who differed from him in sentiment. [See Ad. Ann. Portsmouth, pp. 140, 150, and *Memoir* prefixed to the "Narrative of Indian Wars," Cincinnati, 1839.—Ed.]

Then those of the Council who were present, namely, the Hon'ble John Wentworth, Esq., Shad. Walton, Esq., George Jaffrey, Esq., Rich'd Wibird, Esq., Jotham Odiorne, Esq., and Henry Sherburne, Esq., took the oaths required by the sd Commission, by them to be taken, viz: The oaths appointed by the sd Act, Entituled an Act for ye further security of his Majesties Person and Goverm't and the succession of the Crown in the Heirs of ye late Princess Sophia, being Protestants; and for Ex- tinguishing the hopes of the pretended Prince of Wales and his open and secret abettors. They also made & subscribed the fore- mentioned Declaration, and took ye oaths for ye due Executions of their place and trust. Then his Excellency proposed the Issuing of a Proclamation for continuing all officers, &c., wth ye Coun't advised to.

Ordered, That a Proclamation be prepared accordingly and published on Monday next, by beat of Drum, which is as follows — vide on file.

His Excellency was pleased to communicate to ye board an Instruction agst striking & Emitting Bills of Credit, &c., as follows:

Note. The Council Records here abruptly end, and there remains a chasm till 1742.

The following is the form of Oaths taken by the Civil, Military and Ecclesiastical officers in New Hampshire, on the accession of George II., A. D. 1727.

I, ————, do sincerely promise and swear that I will be faithful and bear true allegiance to his Majesty King George the Second. So help me God.

I, ————, do swear that I do from my heart abhor, detest, abjure as impious and heretical, that damnable doctrine and position, that Princes excommunicated or deprived by the Pope or any authority of the See of Rome, may be deposed or murdered by their subjects, or any other whatsoever: and I do declare, that no foreign Prince, Person or Prelate, State or Potentate, hath or ought to have jurisdiction, power, superiority, pre-eminence or
authority, ecclesiastical or spiritual, within the realm of Great Britain. *So help me God.*

I ——— ———, do truly and sincerely acknowledge, profess, testify and declare in my conscience before God and the world, that our Sovereign Lord, King George the Second, is lawful and rightful King of the realm of Great Britain, and all other his Majesty's Dominions and countries thereunto belonging; and I do solemnly and sincerely declare, that I do believe in my conscience, that the person pretended to be Prince of Wales during the life of the late King James, and since his decease, pretending to be, and taking upon himself the style and title of King of England, by the name of James the Third, King of Great Britain, hath not any right or title whatsoever to the Crown of the realm of Great Britain, or any other of the dominions thereto belonging. And I do renounce, refuse and abjure any allegiance or obedience to him. And I do swear that I will bear faith and true allegiance to his Majesty, King George the Second, and him will defend to the utmost of my power, against all traitorous conspiracies and attempts whatsoever, which shall be made against his person, crown and dignity. And I will do my utmost endeavor to disclose and make known to his Majesty and his successors, all treasons and traitorous conspiracies which I shall know to be against him, or any of them; and I do faithfully promise to the utmost of my power, to support, maintain, and defend the succession of the Crown against him, the said James, and all other persons whatsoever; which succession by an Act entitled an Act for the further limitation of the Crown, and better securing the rights and liberties of the subject is, and stands limited to the Princess Sophia, Electress and Duchess Dowager of Hanover, and the heirs of her body being Protestants. And all these things I do plainly and sincerely acknowledge and swear, according to their express words by me spoken, and according to the plain and common sense and understanding of the same words, without any equivocation, mental evasion or secret reservation whatsoever. And I do make this recognition, acknowledgment, abjuration, renunciation and promise heartily, willingly and truly, upon the true faith of a christian. *So help me God.*

Ordered That the Clerk write to Mr. Agent Newman and acquaint him with the opinion of His Excellency and the Honourable board in relation to the divisional line between this province and the Mass. wh. was immediately done and delivered to His Excellency To be Sent him, a copy whereof is on file.

[From MS. Correspondence in Secretary’s Office p. 43.]

Mr. Newman—

Sir—I am commanded by his Excellency the Govt. and the Hon. the Council [of New Hampshire] to represent to you their sense of that paragraph in the Mass. Charter on which the determination of the Divisional line between this and the Mass. Gov. depends: The words are as follows. “all that part of New England in America lying and extending from the great river commonly called Merrimack on the north part, and from three miles nor-ward of the said river, &c.”

It is the last words of the paragraph which want explanation, viz—and from three miles nor-ward of the said river—wh. his Excellency and board understand to intend, That from the mouth of said Merrimack three miles directly north, and from the end of the second three miles, to run a west line to the western Ocean, and that to be the dividing line between the two Provinces; and that if it be otherwise as the Mass. would have it, that the said line shall run parallel to the river, This the King’s Prov. of N. Hamp. must necessarily be contracted within exceedingly narrow limits; the second River a little above towns running a great length on a north course, and to eastward of north, and for the most part northerly; which they desire you to lay before the Right Honourable, the Lords of Trade and Plantations, which they think sufficient wh. out any papers to be sent from hence.

Speech.

Gentlemen—

I had no thoughts of Seeing you untill His Excellency our Gov-
ernour came into this province which will be the latter end of
September, but a warr being declared agst the Indian Rebels of
the East and also receiving a letter from his Excellency That he
intended to see The Genl Assembly of the Mass* o'the 8th Instant
Augst in ord' to push on a vigorous Warr agst our Eastern Enemys
which letter I shall day before you.

I hope it will be for His Majesty's Service and the good of This
Governement That we [p. 246.] are now mett to consult of and soon
make such resolves as may push on This warr (that we are so forced into) with a hearty willing mind.

Judge there is none among us that scruples the Justice of This warr on our part since the Indians have so often violated Their most Solemn Treatys and Ingagements to us.

I suppose It's generally Thought That The Scout now on the frontiers of this province under y* Command of Maj* John Gillman is and has been of service, but in case our neighbours of the Mass* make an offensive warr and keep out a sufficient number of men to march to the Enemy's head Quart rs and also to scour the Sea-Coast at The same time, Then and in such case I hope we shall cheerfully come in to send our Quota of men and joyn with them to putt a Speedy end to this warr.

If such an army be kept moving in the Eastern parts, Then our Scout which I think it absolutely necessary there should be one may be reduced to a Much Small* number, Than what we now have and as we shall not at present enter upon any other busines but that of The warr, I hope you will Take it under your serious consideration and grant such Supplys as may carry on the warr cheerfully, and also that the Honour of the Government may be supported, for the accomplishing of which you are always sure of my best Endeavours.

Jno. Wentworth.

The Speak* prayed a Copy of the foregoing Speech who was answered by His Hon* that the Clerk should Serve him w* a Copy Thereof, Then the House w* drew to Their own Chamber.

[P. 249.] May it please your Honour.
In answer To your Honours speech,

Your Honour Having been pleased in your speech at The opening This Sessions To Inform us That a warr being declared ag^st
The Indian Rebels at the Eastw'd who have violated all Their Treatys and made an unjust warr upon us, That it would be necessary for us in Conjunction wth The Massa's to push on a vigorous warr to The utmost of our power and ability we are entirely of your honours opinion, and Therefore shall cheerfully concurr in raising such Sums of mony as shall be sufficient To carry on our proportionate part of The said warr. But whereas our Government lying much of it fronting up in y's Wilderness from whence The Indians make their fatal Inroads upon us, as this province has formerly felt by wofull Experience and may reasonably Expect The like again, and having lately discovered that some of Their headquarters are not much above a day's March above our Towns, So That whatsoever we can raise in This Government being employed on our frontiers would not only be a protection to us, but a very great annoyance To The Enemy, and Tend very much to The distressing Them and bringing the warr to a Speedy conclusion, and we are of opinion That our Good friends and neighbors of The Massa will Esteem it a proportionable part in carrying on The warr, and That His Excellency will direct his Commanding officers that may be posted near unto us, To Concert measures wth ours for suppressing and destroying The Enemy as opportunity & occasion may offer. And whereas you hon' was pleased To lay before us his Excellency's letter of y's 13th Curr wherein he directs To Send Seventy men To The Eastward To joyn The Army There we find our Selves utterly unable To Support That Charge and at The same Time To be able to Secure our frontiers and to oppose The Enemy in case of an attack.

A message to the house by the Clerk to require their attend at this board; the Speaker and House came accordingly, & then his Honl was pleased to make the following Speech:

Gentlemen—

I received a letter from his Excellency our Governour, bearing date the 5th instant, advising me that Coll Schiller, with seven Maquas were come to Boston to treat with the Massachusetts Government abt the Eastern Indian warr; which affair would not permit his Excellency's coming into the Province this Fall, for which reason, I purpose that our Sessions be short, & therefore pass on those things onely that are absolutely necessary for the support and honour of the Government.

Pursuant to a vote of Genl Assembly, I have caused a way to
be cut to Winnipishoky Pond, which I hope will give general satisfaction. It has been attended with a considerable expense; however it is well over, and that without any loss of men, for which favour God Almighty be praised.

The Block-house voted to be built at the Pond, I am of opinion it is best to suspend the building thereof for the present.

It is just that the soldiery & others that have been in the service of the Government should be paid of [off] this Fall. I would therefore recommend to you the raising two thousand pounds on a good fund, with I hope will more than pay off our just debts; & as we are contracting debts on ourselves, so I think it our interest to find out a way to be paying in what we can without laying too heavy a burden on the people. I would therefore recommend to ye the laying on a tax of one thousand pounds for this present year, to be paid into the Treasury in species, or Merchandable fish, boards and all sorts of Provisions, & ye a Committee be appointed to sett the prices.

[p. 260.] I am of opinion that the report of the Committee of Audit relating to the soldiers sent to Arowsick the last winter, under ye command of Capt John Penhallow, ought to be reconsidered; it appearing to me that the said Capt. & his men are sufferers by the said Committees report.

As I have the command of his Majestys Fort, Wm & Mary, so I think it my duty to lett you know the state of that garrison, what money you formerly voted for the repairing and rebuilding of it I do assure you has been faithfully applied to that use; what we have rebuilt for the two years past is laid with stone and lime and may stand ages. I hope you will still continue your yearly allowance of about one hundred pounds until it be finished. Our stock at the fort of all sorts runs low; the dropping of ye powder act was a very great loss to the Province; —for the redressing of which I think it reasonable & just that we make an additional clause to our Gunpowder act, passed in the year 1704; We then received one pound of powder for every ton the ship or vessel measured; and now but two-thirds of a pound p' ton, occasioned by the difference of mony; so that three shillings p' pound now bears the same proportion that two shillings did when the Act was made; and that all vessels (fishermen only excepted) should be obliged to pay powdr money once a year.

There are some of the Laws that want to be strengthened, when well deserves your consideration.

I have onely to add, that you will take effectual care to provide
for his Excellency our Govern^r usual allowance, and what else is necessary for the Hon^b support of this his Majesty's Government.

J. Wentworth.

Mr. Speaker prayed a copy of ye foregoing Speech, which was granted; and then he and the house wthdrew to their own Chamber.

Pro. New Hamp^r &c.

In answer to his Honour the Lieut. Gov^r speech of ye 17th current:

Whereas ye Hon^r is pleased to communicate to us the reason of his Excellency's not honoring us wth his presence this Fall's sessions, was his being taken up in a treaty wth the five Nations of Maquas at Boston: we should have looked upon it as a mark of the favour of the Mass^t Government, if the subject matter of the said treaty had been imparted unto us, our Interest being inseparable from theirs.

We shall take speedy care for the payment of the cutting the way up to Winnipishoky pond, and concurr wth ye^r Hon^r opinion that the building the block-house be suspended for the present.
We shall take care to erect a fund for the payment of all the just debts of the Province. As to the soldiery that went to Arowsick undr y^e command of Capt. Jno. Peenhallow, the report of the committe being reconsidered by y^e assembly and settled as well for others as those, cannot make any alterations.

As to the repairs of Fort Wm & Mary, we [p. 262.] think the season to farr spent for any further repair this fall, but shall not fail making provision in due season therefor.

As to the stock of the stores of the fort, we shall take it into consideration, and doubt not but to find some way to supply it.

We shall likewise consider what yo^e Hon^e mentions concerning his Excellency, and also what is necessary for the hon^b^e support of this Province.

Capt. John Peenhallow preferred a Petition to the board, Praying for a reconsideration of the last report of y^e Commitee of Audit, w^th respect to him, and a further allowance for his service at the Eastward: he also preferred another Petition subscribed by Jno. A Message to the house of Represent* by the Clerk to require their attend* at the Council board, the speaker and house came up accordingly & his Honour was pleased to make the following Speech.
Gent.

This being the first time I have seen you since his Excellency our Govern' Embarked for Great Brittain where I hope he is arrived in safety, and we may expect his return to us again some time in the months of September or October next which I thought proper to communicate to you.

I am sensible that his Excellencys suddain leaving us, had laid me under some difficulty and the more so since we have a warr upon us.

I promise myself that my Council will at all times and more especially at so critical a juncture as this give me their faithfull advice, and I have no less reason to believe but the house of Represen't will give me all aid & assistance for the better and more honourable support of yr' Govern't and so enable me to carry on our proportion of the Indian Warr, which we are now engaged in so as that our neighbours may have no just cause to censure us on that head.

It has been the practice of this Government on several occasions to address His Maj't, and I think it much so our duty now, since we have the certain advice of a wicked and bloody conspiracy formed agst His Majesty and His whole Royal Family,—the subversion [p. 282] of our happy constitution both in church and state, but by the good Providence of Almighty God it was timely discovered.

I would put you in mind that the Treasury is empty which is not for the honour or interest of the Government more especially in time of Warr and that there are some few debts due from the Province that ought to have been discharged the last fall and some now due, you may be assured I will take effectual care that the money which comes into the Treasury shall be applyed to the ends it was raised for and no other.

I hope a few days will finish what we have to do at present, the Time of our Spring sessions drawing near, by which time we may expect to hear from Great Brittain which may enable us the better to manage the affairs of the ensuing year.

You may be assured that whatever you offer to me that is in my power to grant for His Maj't service and the good of this Province you shall have my hearty concurrence thereto.

Geo. Jaffry Esq. Reported to the board a draught of an address to His Majesty wh was sent down by the clerk and being accepted by both houses was fairly drawn and Given to the Lient Gov't which is as follows:

To the King's most Excellent Majesty, The humble address of the Lient Gov't Council and representatives of your Maj'ty Province of New Hampshire in New England in America convened in General Assembly.

Most Gracious Sovereign:

We your Majestys most loyal & dutifull subjects do unanimously for our selves and in The name of all the people of this Government humbly take leave to prostrate ourselves at your Royal Feet and manifest to your [p. 287.] Majesty our unfeigned and boundless Gratulations for the late seasonable & mercyfull discovery of the blackest and most horrible Tragedy Hell itself could project; by which means your majesty's most sacred Person
and your Illustrious family were delivered from the danger of a bloody massacre and murderous conspiracy and even the happy constitution of your kingdoms and Dominions both in church and state with your subjects propertys and privileges preserved (from Popish chains and Romish slavery) which were all to be destroyed by the same fatal blow. We adore the Infinite Goodness of the Omniscient on this account, who hath brought to light this dark and deep design and we do unitedly and earnestly pray that the same tender regards of Heaven which hitherto have may ever yet surround your majesty and that the Almighty Arm of ye King of Kings may at all times be stretched out for ye defence of your Majesty against all secret attempts & open violences. That the Crown of Great Britain may sitt fast and flourish on your majestys head many years yet to come, and that after you shall change this for a Heavenly Crown, the Throne of those Kingdoms may be filled by a Protestant Prince of your most Illustrious family till time shall be no more; and we do also at this time with the Greatest humility beg leave to Testify to your Majesty the abhorrence and detestation we have conceived against a Popish Pretender and His Adherents, and more especially such of them as are your Majestys lawfull subjects, and tyed in subjection not by laws alone, but by the most mild and mercyfull administration that liberty itself could wish for and freedom desire, the Influences whereof have reached ye remotest regions in your Majestys Dominions even this little distant American Province which has rejoiced in ye felicity and Privilege of being your subjects.

And while we are yet addressing We the Council and Representatives [p. 288.] with utmost submission ask liberty To Tender to your Majesty our hearty thanksgiving for your gracious care concerning us in having the chair of this Government from time to time furnished with Governours of known loyalty worth and distinction and at this time by one whose administration has hitherto been and we promise ourselves will continue to be, meritorious of your Majestys smiles and of your peoples prayers for His continuance. A Message to the House by the Clerk to desire their attendance at the board the Speaker and House came accordingly and his Honour was pleased to make the following speech.

Gentlemen—

It is with Great Satisfaction that I meet you at this time, and hope with minds well prepared for the speedy going through what remained of y\(^e\) last years business, and then pass on those things that concern the Present year.

You may remember that I recommended to you the laying a Tax on the Inhabitants of a thousand pounds in order to lessen our Public Debts. I then told you that the Growing charge of the Province was such that if we did not find out some way for discharging our Debts as we went along, that in time it would bring the burthen to be very heavy which I hope you will Seasonably prevent by taking proper Methods for the lessening thereof.

I did in the Proper Season of y\(^e\) year provide plank Timber stone and lime at y\(^e\) cheapest rate I could for repairing His Majesty's Fort W\(\mathbb{R}\) & Mary at New Castle, and I hope you will take care to provide for that repair.

I have taken all proper measures to defend our frontier Towns from y\(^e\) Insults of the Indians by keeping out Small Scouts, which
by y* blessing of God has proved successfull hitherto So that not a man has fallen by the enemy in this Province Since the warr.

[r. 290.] I have with the advice of the field officers sent a small Party of men to Winnepishoky pond under Command of Capt John Gillman they are gone twelve days March to that part of the pond where their fishing ware is fixed in ord* to make what discovery they can of the enemy which I hope will have its desired effect.

I am to let you know that I have received a letter from His Excellency our Governor dated in London March y* 6th last past in which he advises me of His Safe arrival there, and that he intended to return to this Country in three or four months, and as he has promised to do everything in his Power to serve this Province, So I think I should be wanting in my Duty to him, If I did not recommend to your Consideration the usual allowance made him when present with us.

I would recommend to you that proper care may be taken for the discharging what debts remained due from the Province for the year past and also for y* Present year's expence as the Scout- ing and going to Winnepishoky pond &c. also that you will take proper care for the Hon* Support of this His Majesty's Govern* and if you have anything to offer that is for His Majesty's Service and the Good of this Province you are always sure of my hearty Concurrence.

Jn* Wentworth.

May it Please your Honour.

In your Honours Speech to this house of the twentieth Instant
you are pleased to manifest your satisfaction of meeting this house
at this time. We heartily rejoice to See your Honour in the Chair
of the Government of this His Majestys Province and shall be as
expeditions in any affair that may lay before us as possible.

The Raising one thousand pounds mentioned by your Honour
on the Inhabitants within the Province for defraying the charges
thereof is what we think very Reasonable and Shall take due
care therefor.
As to the Fort Wm & Mary we think a Committe to view what is necessary in order to its repair might be proper and shall readily come into anything thought reasonable on that head.

We are sensible of and very thankful to your Honour for your great care in defending our frontiers by scouts and are of opinion that yr scout under the Command of Cap[tain] John Gillman as well as those other smaller ones has been very serviceable and shall cheerfully defray any reasonable charge that has arose thereon.

We rejoice to hear of His Excellency's safe arrival in great Britain and shall not fail paying all due regard to his Person and Commission when he returns our Governour.

As to the other affairs such as defraying the Province Debts already contracted together with a suitable provision for the Hon'ble Support of the Governm't is what will not be forgotten by us.

A Message to the house by the Clerk to require their attendance at the board the Speaker and house came up
accordingly to whom his Honour made a Speech, a Copy of
which was (at y* desire of y* Speake) delivered unto him
& is as follows.

Gentlemen,

I have deferr'd y* Setting of y* fall Sessions for some time that
so I might lay before you the Muster Roles with y* whole Expence
of y* Summer past.

[p. 310.] The Charge in defending our frontiers has been con-
siderable and altho we have not had the wished for Success against
our Enemye yet we have in some measure answered our expecta-
tions in that the enemy has not made those breaches upon us
which we might have reasonably expected had we been careless
and secure.

I Promise myself that you will make the necessary provision
for Enabling Mr. Treasurer to pay of the just demands due from
the Province an account of which I have order'd to be laid before
you.

We are wel assured that our bills of Credit are Counterfeited,
and that our neighbouring Governments have detected some of
the offenders. I think it is a matter well worthy of our consid-
eration and wherein our Laws are deficients let us strengthen them
or Pass new laws for the Prevention of So great an Evil.

I have received several letters from His Excellency Govr. Shute
since our last sitting assuring me that he will do his Utmost en-
deavors and everything in his power to Serve this Province and
particularly in getting the lines Settled and His Majesty's bounty
to Fort William and Mary.

Mr. Agent Newman writes me much to the same purport with
this addition that he had just then made an Interest with Mr. De La
Fay Secretary to the Lords Justices for obtaining the more speedy
answer to his Memorial. the letter bears date Augst 29th last past
also that he had wrote to Mr. Speaker Wear by same conveyance
which Judge Mr. Speaker will communicate to your house.

We have not done what was design'd as to the stone work of
the Fort occasioned by y* war but the timber work is all finish'd
and in good order designing early in the Spring to proceed on the
stone work.

I Promise myself that you will still take care for y* Honble sup-
port of this His Majesty's Government where you Shall find me
both ready and willing to serve my King and Country to the
Utmost of my Power.

His Honour The Lieut. Govr read ye Speech and house a Paragraph of a letter. (which he told them he had received from Govr Shute) acquainting him that Mr Penhallow had been at some [p. 311.] Expence in England for the Province service and ought to be Considered for it.

A Message to the house by the Clerk of the Council to require their attend at the board the Speaker & house came up accordingly To whom His Honour made the following speech
Gentleman,

My Intention was to have seen you Sooner but when I considered the backwardness of the Season occasion'd by the long rains we have had I determined to give you more time that you might finish the busyness of the Spring, and then be better prepared to dispatch what may now come before you.

I have by the last Ships from Great Britain received a letter from Govr Shute, and he still assures me he will Contribute every thing in his Power to Serve this Province, and the Present State of his affairs would not admit of his telling me when he Should Imbarque for New England.

I was in Expectation of Giving you the pleasing account of His Majestys bounty to Fort Wm & Mary whose Stores are well Exhausted and Stock very low but by my letters of the 27 of March last from Mr agent Newman I find the Memorial laid in by him to the Lords of Trade &c did not meet with the Expected Success, however he is advised to Petition His Majesty and is in hopes of obtaining.

I have Given Saml Penhallow Esq a Commission for Treasurer of this Province and hope you will take care to allow such Supplies of money as are necessary for ye Support of the Government.

Geo: Jaffrey Esq The late Treasurer will lay before you the Publick acct of the Province in order to be examined and adjusted.

[p. 329.] I have taken care to guard our frontiers with a Scout of thirty two men, eight men in a party, the better to secure our Exposed Inhabitants, a Greater Number may be raised as occasion offers but am willing to make the expense as Easy as Possible That so you may be encouraged the more liberally to raise mony for repairing and building Fort Wm and Mary. The Committee for that Service have provided Materials & agreed with workmen, but the Season has hitherto prevented them from beginning work.

The Thousand pound Tax To be raised on the Inhabitants this Present year you can Expect no benefit by for it must be burnt To ashes therefore you will Consider how to Provide for the accruing charge of this year that so His Maj's Governm't may be Supported with honour.

J. Wentworth.

The speak't in behalf of the house Pray'd His Honour to favour them with a Copy of His Speech, who were answer'd
that the Clerk should wait upon them with a copy thereof and then they withdrew to their own apartment.

Henry Newmann's Letter to Committee of both Houses.

[From Ms. Correspondence in Secretary's Office, p. 37.]

To Mr. Penhallow and ye Gent. of the Committee of both Houses in New Hampshire.

Gentlemen—

I received your Instructions dated the 10th of March last, signed by Mr. Penhallow in behalf of the committee of both Houses, and immediately applied myself to execute your Orders.

I went to the board of Trade with the Triennial Bill and acquainted Mr. See'sy Popple with the Directions I had received thereon; he told me they could receive no Bill there without the Province Seal to it: I told him I would leave the Copy I had received as an Authentick Copy signed by the See'sy of the Province, till a Copy with the Seal of the Province could come; he said, I might do so if I would, but the Board would consider it only as a Piece of Waste Paper, and give no opinion of it till it came in Form. I then suspended farther application in Hope the next Ship might bring a Copy in Form; but to this day none is come. In the mean time I have acquainted the Governor with the contents of the Bill, knowing the Board of Trade would consult him thereon, before they would recommend it to the King. The Govern'r said he thought it an improper juncture to offer a Bill for limiting the Prerogative, when the neighboring Province had incurred the Jealousie of the Court by several invasions of it; but if the Province of New Hampshire thought their Interest much concerned in it, he would not oppose it: if the Govern'r here should think fit to approve of it.

I have since asked some Gentlemen belonging to the office of Trade and Plantations what they thought would be the sentiments of the Board on such a Bill, when it came regularly before them; and they told me it is dubious what might be the success of it for these Reasons:

1st Because of the Incroachments of a neighboring Province.

2nd That as the Province was at this time Petitioning the Crown for a considerable Favour of stores, the offering such a Bill as should limit the Crown was not so well timed as might be wish'd.

3rd That the Commons of Great Britain did at an important juncture obtain such a Limitation on the Crown as that a New Parliament should be called once in 3 years, but Experience had shown that such a Limitation was prejudicial to ye subject by the Tumults and Expenion it occasioned to the Candidates for Election, and therefore they had since obtained an Enlargement of that Limitation from 3 to 7 years.

I mention these Things that you may, if you think proper, submit them to the Consideration of the assembly.

The Board of Trade have very kindly espoused and recommended to the Government the memorial for stores for Fort William and Mary, but the office of Ordnance have not done so, because the Stores sent by an order of Council in the late Queen's time are not paid for to this day, and they seem content it should remain as a desperate Debt, provided they may never have such orders again, without a Provision in Parliament.
I have seen at the office of ordnance their memorial to my Lord Cadogain, but have not yet been able, after frequent solicitations to get an Authentic Copy of it. They also lately refus'd giving any copy and told me I must go to the Secretary of State's office for it; Mr. Delafaye, who then acted as Secretary of State, assures me he never received it, and having since desired a copy of it, they sent him a copy, or rather an Extract of it without any name to it, and when Mr. Delafaye shew'd it to me, he told me he could only let me read it, because it did not come regularly to him. I told him that would do me no service without the liberty of copying it, and having ye names of those who signed it. He then desired I would write to him such a letter, as I had sent a copy of, dated the 7th of July last, and that he would try to get a copy on such a Letter. I have since been to wait on him at Windsor to know what effect this method of application had; my journey was in vain, for he plainly told me, unless I would give him his own time, he could not serve me.

I have again wrote to him the 17th curr, in the terms herewith sent, but have no answer. Nor can I take more steps in this affair with the ministry without a Copy of this memorial to prevent any further Reference to the Ordnance.

As to the affair of the Lines, I am attentive to any step the Agent of Massachusetts may take therein, and shall make the best use I can of the Instructions you have given to Defend your Interest when occasion offers.

The Board of Trade will not meddle with it, till it comes re-ferr'd to 'em by the Govern'ret, and to Petition the king, at this juncture to urge a Hearing before the Council, I am sure of a great Expence, but not so sure of serving the Province therein with success, as I desire to be when I make application about it.

Please to assure the Lieutenant Gov'r and both Houses of the Assembly of my humble service, and thankfull acceptance of their last Remittance, and to believe that I am,

Gentlemen,
Your most obedient
Humble servant
Henry Newman.

A Message to the house by Jotham Odiorne Esq and y° Clerk to require their attend° at the board the Speaker and house came up accordingly to whom His Hon° addressed himself in y° following speech.

Gentlemen,

I have at all times manifested my concern for the welfare of this Province & people and I now give you fresh Instances of my readiness to do anything that is in my power that may add to Its Peace and prosperity.

It will be very pleasing to me to See the business of this Sessions meet with dispatch yet not in a hurry but to give every thing its due consideration.

[p. 346.] I was in great expectation that our forces Eastward would have met with better success, but the Season of the year being so far advanced, and our men much fatigued by its long march with other concurring circumstances put an End to that Expedition.

The present expensive warr we are Engaged in dayly increases y° Charge of y° Province so I find there will be a necessity of Striking or emitting more bills of Credit in order to discharge y° extraordinary demands of the warr. I would put you in mind y° due care be taken that what bills of Credit are annually brought in by tax on y° Inhabitants be burnt to ashes according to act of Gen' assembly and not Issued out of the Treasury again on any pretence whatsoever.

It would be an honour to this Government to make suitable provision for changing such bills of Credit of this Province as are so defaced that they will not pass from man to man, and appoint a Person or Persons for the Same.

The expence of the Province for the year I have managed with
all possible frugality, and what mony you raised the last Session has been appli'd to ye Uses it was designed for.

I have ordered Mr Treasurer Penhallow to lay before you the Publick accounts, and the Master Rolls to be brought in, that so they may be Examin'd & Adjusted.

I doubt not but you will allow such Supplys of Money to the Treasury as may be wanting to discharge the Just debts of the Province, and also make Honourable Provision for the Support of this His Majesty's Government.

By The last Ships I Rec'd letters from His Excellency Govr Shute, who Intends here ye next Spring having a prospect of Composing his affairs by that time. His Excellency Thinks himself neglected (since he is there serveing ye Province at his own Expence) That the assembly dont make him Some hansome allowance. I am very well assured that he has and will do us any Service in his Power.

This Gentlemen you may remember I have frequently recommended to your Consideration.

Mr Agent Newman has also wrote me by some of the last Ships from Great [p. 347.] Brittain That he Is Still Soliciting about the line and Stores for Fort Wm & Mary but as yet not the desired Success but yet in expectation of bringing it to a good Issue.

A Message to the house by the Clerk to require their
attend at the board, the Speak'r and house came up ac-

 cordingly to whom His Hon'r the Lieut: Govr was pleas'd to
make ye following speech,

Gentlemen

I have lately rec'd letters from Gov'r Shute who advises me that
the Court is so taken up with affairs of Greater moment, that he
finds great difficulty in finishing his business & that he will return
to New England as soon as he has the Kings Commands

Mr agent Newman's Memorial to Mr Secretary Walpole for
Stores to Fort William and Mary I shall lay before you, as also his
letter about the lines, which hope you will take into consideration.
I have order'd a Small Scout of twenty men to range our fron-
tiers, but as yet made but little discovery, I suppose we shall
think it proper to make an addition of forty men to our Scouts.
We have often found by wofull Experience ye sending small
numbers into ye Country alcho the Charge be more yet we act
with greater Safety and in the end find our account in it by dis-
couraging our Enemies & also the preservation of the lives of our
People.*
I would recommend to you the further Encouraging Volunteers
by adding two Shillings & Sixpence pr day to the hundred pound
act for every day they are on Service.

There is in the Treasury one thousand & Seventy Six pounds
Sixteen Shillings which by act of Gen'l assembly is to be burnt to
ashes this present Sessions and a Tax is to be laid on the Inhabit-

*There may be an allusion in the above to the bloody and disastrous fight between
Capt. John Lovewell with his thirty-four men, and the Indians, at Pigwacket, on
the 5th of May, 1725; the latter numbering, it is believed, not less than
seventy. For detailed accounts of this terrible fight, see Penhallow's Indian Wars,
Farm. Belt., pp. 209-212; Farm, & Moore's Hist. Coll., Vol. 1, pp. 26-36; also a Pam-
phlet edition of Rev. Thomas Symmes' Memoir of the fight, with notes by Rev. N. Bou-
ton, Concord, 1861.
ants for one thousand & Seventy Six pounds Sixteen Shillings for this Present Year in order to be burnt. These Sums have been already postponed. Its the Honour of all Goverments to Execute their own acts Especially what relates to mony.

[p. 365.] I must recommend to your Consideration the Great difficulty the Ministers of the Gospel labour under by the sinking Credit of our paper mony whereby those that ten or twelve years past contracted for one hundred pounds pr year with their Parishes have by ye debasement of our paper Credit their Salaries are reduced to fifty or Sixty pounds which very greatly affects their families & must be a Great discouragement to them in their Ministry.

I again recommend to you that you'll think of some method that may put a stop to Counterfeiting paper bills of Credit. They have but a poor Credit at best & certainly they will yet be worse, in case the practice of Counterfeiting prevail.

I Rec'd an Express from 3d Govr Dummer giving an acct that Capt Lovel had met with a party of Indians at or near Pigwocket which broke Capt Lovel's Company in pieces. I have sent fifty two men under Command of Capt Jon Chesley and to make the best of his way to Ossaby and Pigwocket, and there make diligent Search for Capt Lovel's Fort &c & to relieve any wounded men they may meet in their way thither or Else where.

Mr Atkinson our Commissioner to Canada is returned and has brought a letter from the Govr of Canada which was ordered to be translated, and then Shall lay it before you, also what was transmitted by Mr Atkinson.

I hope you will Consider the Expence of the war upon us and make timely provision accordingly by enabling the Treasurer to discharge ye Expensive war that now lies on us as also for the Honourable Support of this His Majestys Goverment.

May 17; 1725
Jno Wentworth.

May it Please Your Hon'r

In Your Speech to this house you gave us advice of a letter from Governour Shute of his return to New England as soon as he has the Kings Command. We are glad to hear of his health and when he returns to New England our Gov'r as such we Shall receive him, and as for Mr' Newmans letter which informs us of y's difficulty he meets w'm in attaining stores for the Fort Will'm & Mary and settling the line between the two Provinces, We are sorry for our Mistfortune in that affair We thank your Hon'r for your care and Conduct in sending a Scout of twenty men to guard our frontiers & think proper to add to their number. As for the Encouragem't of Volunteers we shall take it into our consideration. As for y's Mony which is in y's Treasury to be burn'd, and what is to come in for that end we shall take Effectual care to Execute all our Acts
relating to that affair according to the Intent of them. As for the Great Difficulty the Ministers of the Gospell labour under by reason of the Sinking Credit of our paper bills we shall take all the care that we can to recover ye Currency of our bills and raise their Value and hope that in the mean time all the Parishes within this Province will Manifest that respect to their faithful Ministers as to afford them a sufficient Support as being obliged thereto by the laws already made for that end. As for the misfortune of Capt Lovel and his men We desire to be humble before God for so great a frown of His Providence and [p. 370.] thank You Honour for Sending a Company for ye relief of any that may be yet alive.

We rejoice to see Mr Atkinson safe return'd from Canada, and as for the letter he has brought from the Governour, we shall know better how to answer when we know the Contents thereof, and Shall take care to raise money for the war and the Honble Support of the Govenment.

A Message to the house by the Clerk to require their attendance at the Council board. The Speaker & house came up accordingly to whom His Hon' made the following Speech.

Gentlemen

You have on all occasions to my great Satisfaction shown your readiness to dispatch the publick affairs of the Government so that I have not the least room to suspect it at this Sessions.

The treaty with the Indian Delegates at Boston lasted beyond our Expectation which has put off this Sessions longer than usual however the prospect we have of a lasting peace will over ballance that and I hope prove advantageous to this Province.

The articles of Peace agreed upon I shall lay before you for your perusall which are to be further ratify'd and Confirmed at Falmouth in Casco bay some time in ye month of May next.

Mr Newman our agent at ye Court of Great Brittain advises me since our May Sessions that he takes all oppurtunities to Solicit Sr Robert Walpole for the running of the lines and for the Stores for Fort William & Mary in all which he Expects Success.
I would put you in mind of making Mr. agent Newman a Present for we have scarce allow’d him enough to pay his Coach hire.

The five hundred pounds raised for the Supply of the Treasury will go but a little way in discharging the Muster Rolls & Mr. Treasurers Victualling bill w’d doubt not but you will take effectual care of & for the more honourable Support of this His Majestys Govern’t.

J. WENTWORTH.

[p. 382.] Mr. Speaker desired a Copy of the foregoing Speech & then he and the house withdrew to their Own Chamber.

His Honour the Lieut. Gov’ laid before the Council a Copy of the articles of Pacification agreed on with the Indians at Boston which being read, the Same together with a Copy of His Honr Speech was sent down to the House by Geo: Jaffrey & Joth Odiorne Esqr.

[From Penhallow’s Indian War.]

The submission and agreement of the delegates of the Eastern Indians.

Whereas the several tribes of Eastern Indians, viz. the Penobscot, Norridgwock, St. John’s, Cape Sables, and other tribes inhabiting within his Majesty’s territories of New England and Nova Scotia, who have been engaged in the present war, from whom we, Sauquarum alias Sonum Arucus, Francois-Xavier, and Meganumba, are delegated and fully empowered to enter into articles of pacification with his Majesty’s governments of the Massachusetts Bay, New Hampshire and Nova Scotia; have, contrary to the several treaties they have solemnly entered into with the said governments, made an open rupture, and have continued some years in acts of hostility against the subjects of his Majesty King George, within the said governments: they, being now sensible of the miseries and troubles they have involved themselves in, and being desirous to be restored to his Majesty’s grace and favor, and to live in peace with all his Majesty’s subjects of the said three governments and the province of New York and colonies of Connecticut and Rhode Island, and that all former acts of injury be forgotten; have concluded to make, and we do, by these presents in the name and behalf of the said tribes, make our submission unto his most excellent Majesty George, by the grace of God of Great Britain, France and Ireland, King, defender of the faith, &c., in as full and ample manner as any of our predecessors have heretofore done.

And we do hereby promise and engage with the Hon. William Dummer, Esqr. as he is Lieut. Governor and commander-in-chief of his majesty’s province of the Massachusetts Bay, and with the Governors or commanders in chief of the said province for the time being: that is to say—
We, the said delegates, for and in behalf of the several tribes aforesaid, do promise and engage—That at all times, forever, from and after the date of these presents, we and they will cease and forbear all acts of hostility, injuries and discord towards all the subjects of the crown of Great Britain, and not offer the least hurt, violence or molestation to them or any of them in their persons or estates, but will henceforward hold and maintain a firm and constant amity and friendship with all the English, and will never confederate or combine with any other nation to their prejudice.

That all the captives taken in this present war, shall, at or before the time of the further ratification of this treaty, be restored, without any ransom or payment to be made for them or any of them.

That his Majesty's subjects the English, shall and may peaceably and quietly, enter upon, improve and forever enjoy all and singular their rights of land and former settlements, properties and possessions, within the eastern parts of the said province of the Massachusetts Bay, together with all Islands, inlets, shores, beaches and fishery within the same, without any molestation or claims by us or any other Indians, and be in no ways molested, interrupted or disturbed therein.

Saving into the Penobscot, Norridgwock, and other tribes within his Majesty's province aforesaid, and their natural descendants respectively, all their lands, liberties and properties not by them conveyed or sold to or possessed by any of the English subjects as aforesaid; as also the privilege of fishing, hunting and fowling, as formerly.

That all trade and commerce which may hereafter be allowed betwixt the English and the Indians, shall be under such management and regulation, as the government of the Massachusetts province shall direct.

If any controversy or difference at any time hereafter happen to arise between any of the English and Indians, for any real or supposed wrong or injury done on either side, no private revenge shall be taken for the same, but proper application shall be made to his Majesty's government upon the place for remedy or redress thereof, in a due course of justice. We submitting ourselves to be ruled and governed by his Majesty's laws, and desiring to have the benefit of the same.

We also, the said delegates, in behalf of the tribes of Indians inhabiting within the French territories, (who have assisted in this war) for whom we are fully empowered to Act in this present treaty, do hereby promise and engage, that they and every of them shall henceforth, cease and forbear all acts of hostility, force and violence, towards all and every, the subjects of his Majesty, the King of Great Britain.

We do further in the behalf of the Penobscot Indians promise and engage, that if any of the other tribes intended to be included in this treaty, shall notwithstanding, refuse to confirm and ratify this present treaty entered into on their behalf; and continue or renew acts of hostility against the English, in such case, the said Penobscot tribe shall join their young men with the English in reducing them to reason.

In the next place, we the afore-named delegates do promise and
ingage with the Honorable John Wentworth, Esq. as he is Lieut. Governor and commander-in-chief of his Majesty's province of New Hampshire, and with the governors and commanders-in-chief of the said province for the time being, that we and the tribes we are deputed from, will henceforth cease and forbear all acts of hostility, injuries and discords, towards all the subjects of his Majesty King George, within the said Province; and we do understand and take it, that the said government of New Hampshire, is also included and comprehended in all and every of the articles foregoing, excepting that article respecting the regulating the trade with us.

And further, we the aforesaid delegates do promise and engage with the Hon. Lawrence Armstrong, Esq. Lieut. Governor and commander-in-chief of his Majesty's province of Nova Scotia or Accadia, to live in peace with his Majesty's good subjects and their dependents in that government, according to the articles agreed on with Major Paul Mascarene, commissioned for that purpose; and further to be ratified as mentioned in the said articles.

That this present treaty shall be accepted, ratified and confirmed, in a public and solemn manner, by the chiefs of the several eastern tribes of Indians included therein at Falmouth in Casco Bay, sometime in the month of May next. In testimony whereof, we have signed these presents, and affixed our seals.

A Message to the house by the Clerk to require their attendance at the board the Speak* and house Came up accordingly to whom His Hon* was pleased to make the following Speech

Gentle.

Being sensible that at this Time of ye year ye concerns at home do in a more particular manner require you there, and for that reason I have determin'd to make this session as Short as our publick affairs will admit of.

One design I had in calling you together was that we might appoint Suitable Persons from both houses to Joyn the Mass* in ratifying and confirming the Peace at Casco bay in May next the Time that was fix'd on at our treaty with the Indians at Boston.

L* Gov* Dummer Signifies to me That he rec'd a letter from Loron a Principal Sagamore at Penobscot which is supposed to be wrote by the Jesuit dated ye 27 of March by which he finds the french are endeavouring to overthrow the Treaty we had at Boston. but this is no more than I Expected from the french, and I am persuaded that all their Measures will prove ineffectual.
I would Urge it as a Matter of the last importance to this Province that we give directions to Our Agent to make the Closest application at ye Court of Great Britain to obtain a Settlement of the lines between the Two Provinces & It will be very much for Our honour and Interest to make a larger allowance for Our agent if we expect Success, for in Soliciting on all occasions it must be expensive, and what has been hitherto allowed you can’t reasonably think Sufficient to Carry on our busyness.

[F. 397.] The Mass arise daily inclining on us a late Instance we have in Voting a Township should be Erected and Settled at Pennycook which will certainly be in the very bowels of this Province & will take in the most valuable of Our lands.

I would therefore recommend this Matter to ye mature Consideration and am persuaded that you will Consult Such measures that may be not only Serviceable but for the Honour of His Majesty’s Province with I assure ye I shall cheerfully imbrace.

I have lately represented this affair to the Lords Commissioners for Trade and Plantations & have transmitted the best & Exactest draught of this Province Merrimack river and the Situtation of Pennecook to their Lordships praying their favour in obtaining a Settlement of the lines giving Instances wherein it highly Concerns ye Interest of ye Crown.

It is with a Great Deal of Pleasure that I now tell you of His Majesty’s Safe return to His Kingdom the Success of his Negotiations abroad ye firm & Strong alliances he has made for ye Security of ye Nation demands our thankful acknowledgm, and on this Occasion It is Our Duty to address His Majesty, I would recommend it to you that a Committee of both houses be Chosen and appointed for that end. That an address be drawn up and humbly presented to the King by Our agent.

You will take Care that what bills of Credit are to be burnt to ashes at this Sessions by act of Genl assem. must be Comply’d with and that Proper care be taken for ye Calling in one thousand and Seventy Six pounds 16s bills of Credit for this Present year 1796, and if you can think of any thing that may be for the Interest of ye Crown and the Service of the Province I once more assure you that I am ready to do everything in my power.

J. Wentworth.

The Speak’s desired a Copy of ye foregoing Speech & then he and the House withdrew to their own room.

Dear Sr:

This accompanies a Copy of my last of 29th July, by Dr. Boylston in Letherhead, and acknowledges the Rec’d of yr favour of the 9th of March, since which I have received yr letter of the 17th of June signifying that you had wrote to me of the 12th of April, which I don’t find ever came to hand.

In obedience to the order of the Committee of both Houses, I immediately put in a memorial to the Board of trade,—copy of which is here inclosed, with my letter to the said Committee thereupon, to which I beg leave to refer you, and for other particulars therein mentioned.

I have since obtained a Reference of my memorial to the King, on the subject of the Lines, to the Lords Commission of Trade, and the same is now lodg’d at the Board of Trade for a day to give Mr. Dummer and me the Hearing.

How far Mr. Dummer may draw me into a contest about this matter must be left to time; I can only say that if the Province will support me, nothing shall be wanting on my part to defend their interests.

I immediately waited on the D. of New Castle with the address of the Province to his Majesty, but his grace being at his Country Seat at Claremont where he expects his Majesty, I was advised to delay presenting it, till his return.

I beg leave to refer you for the rest to the print herewith sent, and assure you that I am, Dear Sr,

Yr most humble servant,

HENRY NEWMAN

Lieut. Govr Wentworth.

The Govr (1) is well, being gone into Derbyshire to make my Ld. President a visit upon invitation. I told him you had wrote several letters without receiving any answer; but he assured me he had acknowledged them all, by letters, wth I hope you have rec’d ere this.

Governor's Speech, 3d May, 1727.
[Copied from Ms. Governor's Messages, in Secretary's office.]

Gentlemen,
Knowing that a long Session at this Season will not be agreeable, I shall not detain you longer than is necessary to Dispatch the business that may come before us.

The Committe appointed to Examin the late Treasurer's Acco' I conclude have made preparation to lay them before us at the opening of the Session in order to have them fully adjusted.
The State of her Majesties Fort William & Mary I have frequently laid before you. The war that our Nation is now Engaged in with Spaine &c. tho' it does not so nearly affect us, yet we cant Determin where it may end; I would therefore recomend to you, That you make some Provision, at least Two hundred pounds for the repaireing the Wheels & Carriages of the Guns, and the Stone work which is alredly begun.

Mr. Agent Newman advises me that he hopes in a short time to give me a good acc' of the settle'mnt of the lines, and that he has a faire prospect of obtaining Stores for the Fort; and Govr Shute Assures me that nothing shall be wanting in him to forward the affaire.

It is highly necessary That an Act of General Assembly be made & fourthwith put in Execution obligeing all vessels to pay there powder money in powder only, and not in money, since the rise of gunpowder is so greate, for instead of a pound of Powder pr Tun it amounts to but half a pound pr Tun.

There has not a pound of powder nor a shilling in money paide nor to pay since November last; neither is there one ship or vessell in the Port to pay, and unless you make an Act to oblige the Sloops that use the River to pay powder money once in a season, which can't be tho' a hardship, it will lye verrry heavy on the Govrn't to supply his Majesties Fort upon any Emergent Ocation.

I recomend to you unanimity & good agreem', and make no doubt but you will take effectual care for the Honourable support of this His Majestys Governm't

J. Wentworth.

Province of N. Hamps'hire.

Of the Treaty at Casco, 1727.

"Prov. of New Hampshire.
"Tuesday, June the 27th, 1727. The House met by an especial order from the Liu't Gov'r, &c.
A message from the Board that it was his Hon'rs pleasure yt the house attend him at the Board. The House went up, and the Liu't Governor made a speech which was: yt he had rec'd a letter from Liu't Gov'r Dumer that came from the three Indian tribes that had not come into the former peace made with the Penobscot Tribe: and that he intended to meet them ye 10th July at Falmouth and desired his company: a copy of the Letter and Mr. Dumer's Letter was sent down.
Eod'm die. In the House of Representatives.
The question being put whether this Government shall send to ratifie the Peace with those three tribes that hath now sent and are waiting at Tirionet, it passed in the affirmative.
Voted, that this Province send to Casco to ratify the peace with the three Tribes of Indians now on Kennebeck river in the manner as don with the Penobscut."

Wednesday, June the 28th. In the House of Representatives.
"Voted, that his Hon'r the Liu't Governor be desired to commissionate one peon or more, as his hon'r shall think convenient, to goe to Casco to treat with the Indians there, with power to ratifie the Peace already made with the Penobscot tribe and to make peace with any other Tribe with whom we are at warr.
Eod'm die. A message was sent down with the above voat by Geo Jaffrey, Esq'r to be reconsidered."
"An addition to the Governor's Speech was sent down, viz.
"Gent. The vote you sent up desiring me to appoint Comiss'rs
to represent this Governement for the making peace with the three Tribes now waiting at the Eastward for our answer, I can by no means adhere to; It being inconsistent with the hon’r of this his Maj’lies Govern’t so to do; therefore I advise you to reconsider your vote: We have now an op’tunity to make an hon’ble and lasting peace with those Indians that have so often laid wast our dwelling places and cruelly murdered many of our friends and neighbors; which I think cannot be forgotten by us: more especially you that live on our frontiers. It lies entirely with you Gent. of the house of Represent. this Board being all of opinion that it’s highly reasonable and necessary that wee imbrace the season. Let us prefer ye peace, quiet, good settlement of our country and lives of our friends before money; for I find there the matter sticks.

J. WENTWORTH.”

"Eod’m die. In the House of Representatives.

Voted, that it is our advice that his Hon’r take two of the Coun-cill and one of the House (as shall be by them appointed) with him to Casco Bay or elsewhere; there to ratify and make any peace he shall think fit; and that the Treasurer supply him with what money or necessaries he shall think fit for that affair, and that he make a present to Indians of 26l. and that his Hon’r be desired to be as frugall as may be consistent with the hon’r of the Govern’t in this affair.

Eod’m die. A message from the Board p. Geo. Jaffrey, Esq’r that the above vote was approved off: only that the psent to the Indians of 26l. was too little: In the House it was amended and made about 25l. and sent up by the same messenger.

Voted, that Mr. Theo. Atkinson be appointed from this House to goe with his Hon’r the Li’ut Governor to Casco or elsewhere to ratify and make peace with the Indians.

Eod’m die. A message from the Board yt ye above votes was concur’d and yt Sha. Walton, Geo. Jaffrey and R. Wibird, Esq’rs were appointed at ye Board.

Eod’m die. In the House.

Voted, that there be two hundred pounds of the money in the Committees hands now sign’d off and put into the Treasury for the defraying the psent charges in going to Casco to meet the Indians.

A messa. from the Board p. Sha. Walton, arm. and the Clerk that the above vot was concurred with.”

Gent

It is with Great pleasure and Satisfaction that I meet you here at this time and I hope with Minds well prepared to pass on what may lye before you & reassemble those things that were Voted in both Houses, and might then been finish’d had not some designing men prevented it, who I have reason to think had their own Private views at heart more than the good of the people they represented. Yet they Cry’d up Liberty and Property that being onely an amusement that so Some Private designs might the better Succeed which not onely tended to the dishonour of His Majesty but also to alienate the minds and [p. 461] affections of His Majestys good subjects from me and his Council of this Province and Still persisting on things that was not in my power to grant being absolutely against His Majestys Instructions for these and such like reasons I dissolved that Assembly. I hope we are now furnish’d with better Principles and will Consider the Common Good of the
Province Setting aside all Self Interests and in our Several Stations use our utmost endeavours to cultivate Principles of loyalty and obedience to His Sacred Majesty King George the Second and his royal Issue undr whose happy Influence our most Valuable Privileges both in Church and State under God depends.

I design this Sessions Short therefore hope you will apply yourselves to the busyness that may ly before you particularly that you make Suitable Provision for His Excellcy Govr Burnet's reception who may be Expected here in a little time. I recommend to you that Mr Treasurer may be Enabled to provide for the repairing the Platform & Gun Carriages at Fort Wm & Mary wh was Survey'd and I suppose reported in our last Decr Session, materials being provided therefor. If anything Else occurs that's for His Majestys Service and the good of this Province you are always Sure of my best endeavours to promote if in my power. I am Comanded by His Majesty to recond to you the Honoble Support of this His Government and I take this opportunity to recommend it to your Consideration.

A Message to the Board by Messrs. Gerrish and Thing with the following Vote,

Whereas The act requiring all Coasting Vessels to pay three Shillings per ton as powder money hath been very detrimental to His Majestys good Subjects that are concerned in the Coasting trade in that it hath hindered Sundry transient Sloops that usually brought money into the Government they being obliged to pay for ye first trip as much as if they traded one whole year and that it hath raised three Shillings per thousand upon the freight of all Boards and Lumber that the Inhabitants of this province Send to other Ports in the neighboring Governments upon their own accounts by which the burden of that act lies upon those Particular men. For Remedy whereof

The House of Represent most humbly request that that part of the act relating to the Sloops payment of powder money be suspended, and that Instead thereof there be paid out of the publick Treasury a Sum not Exceeding two hundred pounds for two years to be drawn out as there is occasion for the Supply of Fort Wm. & Mary.

I Design This Session as Short as may be by reason His Excellency Gov' Burnet may be Expected at Boston every day, and then soon with us in this Province.

The most material thing that will ly before us at present is the settling the proportion on the polls Stock and rateable Estates of the Inhabitants of ye Several Towns in The Province which will take up some [p. 469] time to weigh and maturely consider the several circumstances of Each Town so as that equal Justice may be administer'd to that end I recommend that a Suitable Committee be forthwith chosen. I would put you in mind that Mr Treat's acct' may be called for that so a Settlement may be made, this being the proper season therefor.

As to what other affairs now lying on the anvil I am of opinion they may be suspended until His Excellency's arrival here however I shall receive and hear anything else you have to offer that's for His Maj's Service and the good of the Province which I have always at heart I have many times mentioned the State of our affairs relating to our Agent at the Court of Great Britain and am thot-full whether our delay may not prove prejudicial to us in the end I again recommend it as a Matter very well worthy of your consideration and hope you will now think so.

Anno Domini 1728
ADMINISTRATION
of
GOVERNOR WILLIAM BURNET.
1729.

Journal of the House from April 22nd, 1729, to
August 1, 1730.

NOTE BY THE EDITOR.
The "Journal of the House of Representatives," during the admin-
istration of Gov. BURNET, and until the arrival of Gov. JONATHAN
BELCHER, is found in a bound MS volume, labeled "Journal of the
House, 1724-1743." The portion of said Journal here included, is con-
tained between MS pages 143-174. The Governor's Speeches referred
to will be found in the "Journal of the General Assembly," during
the same period—in this printed volume. Pages in the margin cor-
respond with the paging in the manuscript Journal.

[p. 143.] Tuesday April 22d 1729. The house met accord-
ing to proclamation

By his Excellency Wm BURNET Esq. (†) Dated the 4th 9th
1728, a copy whereof is on file. Present

(†) Governor WILLIAM BURNET was the oldest son of the celebrated
Rev. Gilbert Burnet, Bishop of Sarum, Eng. He was born in 1688,
and was named after William, the Prince of Orange, who stood his god-
father. Previously to his coming to this country, he possessed a con-
siderable fortune; but it had been wrecked in the South sea scheme or
"bubble," which reduced many opulent families to indigence. In 1720
he was appointed Governor of New-York and New-Jersey, which office
he held till 1728. Receiving the appointment of Governor of Massa-
chusetts and New-Hampshire, he reached Boston, July 13, 1728, and
New-Hampshire, April —, 1729. His administration in both Provinces
was attended with many difficulties, arising chiefly from his insisting
on a fixed salary. Dr. Belknap says, "Mr. Burnet was a man of good
understanding and polite literature; fond of books and of the conver-
sation of literary men; but an enemy to ostentation and parade." He
died suddenly, at Cambridge, Ma., Sept. 7, 1729. Ed.

Answers to the Queries sent from the Right Hon'ble the Lords of Trade and Plantations, Jan. 29, 1730.

1. The situation of ye Province of New Hampshire is between the Province of the Massachusetts Bay and the late Province of Maine, bordering about fifteen miles in width upon the Atlantic sea or Western Ocean. The nature of the Country as to the ground, is rough, uneven and hilly, but for the most part a good soil, being a mixture of clay land and loam, well watered and suitably adapted for hemp and flax, and having considerable meadows in it. As to the climate, 'tis cold. Portsmouth, the Capital of the Province, is in forty three degrees and twenty minutes north latitude, and sixty eight degrees west from London, settled by good observation.

2. The Province has no other boundaries than what are expressed in the Kings Commission to the Governor and they are from three miles to the northward of Merrimack river on ye one side, to Piscataqua river on the other, and no other bounds are mentioned in the 5th Commission, and both of them are in dispute with the Government of the Massachusetts Bay.

3. As to the Constitution of the Government, the Suprem Power here is vested in the Governor and Council (appointed by the King) and a house of Representatives, (chosen by the People) who make Laws, &c.

4th. The trade of the Province is lumber and fish. The number of shipping belonging to the Province are five consisting of about five hundred tons, and there are about three or four hundred tons of other shipping that trade here (annually) not belonging to the Province. The seafaring men are about forty. The Trade is much the same as it hath been for ten years past.

5th. The Province makes use of all sorts of British manufactures, amounting to about five thousand pounds sterling per annum in value, which are had principally from Boston.

6th. The Trade of this Province to other Plantations is to the Caribbee Islands, whither we send lumber and fish, and receive for it rum, sugar, molasses and Cotton: and as to the trade from hence to Europe, it is to Spain or Portugal, from whence our vessels bring home salt.

7th. The method to prevent illegal trade is by a Collector appointed at home.

8th. The natural Produce of the Province is timber (of various kinds) viz. (principally) oak, pine, hemlock, ash, beach & birch; and fish, and they are the only commodity of the Place. The Timber is generally manufactur'd into beams, plank, knees, clap-boards, shingle & staves, and sometimes into house-frames, and the value of those commodities annually Exported from hence to Europe and the West-India Islands, is about a thousand pounds sterling. Memorandum. besides what is above mentioned, the Coasting sloops from Boston, carry from hence thither in fish and Timber about five thousand pounds, pr annum.

9th. No mines are yet discovered, except a small quantity of Iron ore in two or three places.

10th. The number of Inhabitants, men, women and children, are about ten thousand whites and two hundred blacks.
11th. The Inhabitants are increased about four thousand within this ten years last past, a thousand of which (at least) are People from Ireland[(1)] lately come into and settled within the Province. Another reason of the Increase of late more than formerly, is a peace with the Indians the four last years.

12. The Militia are about Eighteen hundred consisting of two regiments of foot, with a Troop of horse in each.

13th. There is one Fort or Place of Defence, called Fort William and Mary, situate on the Great Island in New Castle, which commands the Entrance of Piscataqua river, but is in poor low circumstances, much out of repair, and greatly wanting of stores of war, there not being one barrel of gun-powder at this time in or belonging to that Garrison.

14th. There are no Indians in this Province now in time of Peace that we know of.

15th. There are no Indians in the neighborhood of this Province that we know of, Except in the Eastern parts of the Province of the Massachusetts Bay, and what their number or strength is, we are not acquainted.

16. We have no neighboring Spaniards or other Europeans, except French, who according to the best intelligence we can get, are extremely numerous and strong both at Canada & Cape Briton.

17. The Effect which the French settlements have on this Province is, that the Indians are frequently instigated and influenced by them to disturb the Peace and quiet of this Province, we having been often put to a vast expense both of blood & treasure to defend ourselves against their cruel outrages.

18. The Revenue arising within this Province is three hundred ninety and six pounds by Excise, which is appropriated towards the Governor's Salary, and about three or four barrels of Gun-powder from the shipping which is spent at the Fort. There is no other revenue but by tax on Poids & Estates.

19. The ordinary Expense of the Government is about fifteen hundred pounds pr annum, now in time of peace. The extraordinary & Contingent charges, as Repairs of the Fort, powder, &c. are about five hundred pounds more.

20th. The Establishments are six hundred pounds pr Annum Salary on the Governor, Eight shillings pr diem on each Councillor, & six shillings pr diem on each Representative during the Session of General Assembly, and a hundred and fifty pounds pr annum on the officers and bulldiers at the Fort. There is no other Establishment Civil or Military with the Government, but the General Assembly make allowances from time to time as they see meet, to the Treasurer, Secretary, &c. The Judges, Justices, Sheriffs, Clerks, & all other officers' fees, are fixed by a law to be paid by the party & persons whom they serve; but they have nothing out of the Treasury. All the officers Civil & Military hold their Places by Commission from the Gov't, except ye Council appointed by the King, the Recorder of Deeds chosen by the Genl Assembly, the Clerks of Courts nominated by the Judges of the &c Courts respectively, and selectmen, assessors, constables, tithing men & other Town Officers chosen by ye Towns at their respective Town meetings.

A message from his Excellency to the House by the clerk to require their attenda at the Council Board the Speaker and House came up accordingly to whom his Excellency was pleased to make the following Speech.

Gentlemen

I should have met you sooner if I had followed my inclinations, but the difficulties I have been struggling with in my other Government would not permit to leave it, till I had used all possible means to bring them to an issue. I have now obtained a full approbation from the Lords Commissioners for Trade and Plantations of my conduct there in declining to accept of money from on the Assembly on any terms different from those in my Instructions, which their Ldships do me the honour to call prudence and integrity in me. I have an Instruction of the like nature to lay before you for settling a salary on the Governor
and commander-in-chief for the time being and as you may believe it
will be a sacred rule to me, especially after such a justification so I
hope it will be cheerfully comply'd with on your part, since it will un-
doubtedly entitle you to his Majesty's favour; And indeed the sum de-
manded of you is but a fifth of that mentioned in my Instructions for
the Mass* bay which is the proportion you have usually made your
choice; and when this is done the amount of all your Publick charges
(p. 2) will not be above a tenth part of those sustained by them. I
have done what lay in me to prevent the mischief that might arise
from disputes about the bounds of the two Provinces, and shall be very
ready to Contribute my endeavours to bring that matter to a happy
conclusion and to join with you in every thing that may conduce to
the welfare of the Inhabitants as far as it is in my power. I shall be
 glad to see it appear by your proceedings, as it may with reason be Ex-
pected, that the nearer a form of Government approaches to the good
old Constitution of England and the less it is incumbent'd wth singulari-
ty and innovations the better are the publick affairs managed, and the
liberty and property of ye Subject secured.

The Speak* obtained a copy of the foregoing speech from
his Excellency and then the House withdrew.

[Copied from Journal of the House, App., p. 600.]

WHEREAS it has been represented unto us that the Council and As-
sembly of our Province of New Hampsh^e have not hitherto settled any
certain salary upon our Gov'r thereof suitable to the dignity of that Post, notwithstanding copies of our Instructions for that purpose have been laid before them: and whereas the Lords of the Committee of our Privy Council and likewise our Commissioners for trade and Plantations have reported that the salary payable to our Gov'r hath never been settled according to the Instruction given to our former Governors notwithstanding it has been earnestly recommended to the said Council & assembly in our name to pass acts for that purpose, but that instead thereof they have from time to time made them such allowances and in such proportions as they themselves have thought our Governors have deserved in order thereby to make our said Governor the more dependent upon them, which proceedings of the said council and assembly of our said Province in not paying a due regard to the Royal Pleasure of the crown so often signified to them, we cannot but look upon as a neglect of their Duty to us in that behalf, and as we judge it highly reasonable & necessary That a due provision should be made for the support of our Gov'r of our said Province as hath been made for our other governors of our Plantation in America, which have been much less able to grant the same than our Province of New-Hampshire: our will and pleasure therefore is, and wee do hereby direct and require you to acquaint the Councill & Assembly of our said Province of New Hampshire that as they hope to recommend themselves to the continuance of our Royal grace and favor they must manifest the same by an immediate compliance with what hath been so often recommended to them in forthwith passing acts to establish a fix'd and hon'd salary for the supporting and maintaining the Dignity of our Gov'r or commander in chief for the time being: and wee deem a competent sum for that purpose to be at least two hundred pounds sterling pr annum from our said Province of New Hampshire and in case the said Council and Assembly shall not pay a due & immediate regard to our Royal will & pleasure hereby signified, wee shall look upon it as a manifest mark of their undutiful behavior to us and such as may require the consideration of the Legislature in what manner the honour & Dignity of our Government ought to be supported in our said Province for the future.

As relating to the affaire betwixt my son and
Capt. Walker, I am bold to say that in justice to Capt Walker and out
of the respect which the family bears him, my son Wm. Vaughan my-
self nor any of the Family will oppose the Entail being taken of the

the five youngest children, according to Col. Vaughan D* his will; and
if he’ll be satisfied therewith the whole family will concur with him in

ADMINISTRATION

OF

GOVERNOR JONATHAN BELCHER.

Journal of the House from 25 August, 1730, to October 20, 1737.

NOTE BY THE EDITOR.

The Records which relate to the Administration of Governor Jonathan Belcher are contained in the "Journal of the Council and Assembly," in the Secretary's office, from August 25th, 1730, to March 18, 1741; also in the "Journal of the House" from August 25th, 1730, to February 25th, 1740. It will be noted that after the first year of Gov. Belcher's administration, the records of the Council and Assembly are comparatively scanty and imperfect, while on the other hand the records of the House of Representatives are full and complete. The reason of this seems to be that so long as the controversy was pending respecting the Boundary Lines between the Provinces of New Hampshire and Massachusetts, the House was obliged to take the lead in all active measures in relation to that end. The Governor and Council, though professedly desirous of settling the boundaries, yet did not often concur in the measures proposed by the House: consequently the latter body was obliged to act in many cases independently, and at last gained their object, only by appeal to his Majesty in Council. In presenting therefore the Records of this period, 1730-1741, the Editor has thought best first to print the "Journal of the House" entire, with the Governor's Speeches and the Answers thereto; and to annex the "Journal of the Council and Assembly," containing all matters not included in the Journal of the House. By adopting this method, we avoid repeating in print the matter which is common to both Journals.

The Editor would also note that in the bound MS. volume containing the "Journal of the House, 1724-1743," there is a duplicate record of the proceedings of the House during a portion of Gov. Belcher's administration: the first extends from p. 175 to p. 504: the second from
p. 305 to p. 528. The latter is a copy mostly in the hand writing of the late John Farmer, Esq., who was employed to collect, arrange and copy the original records and files in the Secretary's office. In commencing a copy of the Journal of the House, in Gov. Belcher's time, 1737, Mr. Farmer says, in a note, "A portion of the following Records is contained in the last 120 pages [i.e. of the MS. vol.], but it will be perceived that many things are omitted in the preceding pages from 25 Aug. 1730, particularly the Messages and Speeches of Gov. Belcher, and the Answers of the House to them, which will be found in the following new transcript—faithfully copied from a Record of large folio size, of 110 pages in sheets unbound." The Editor has followed the transcript made by Mr. Farmer.

His Excell'y came to the Council Chamber.

A Mess of his Excell'y pr the Clerk of the Council (2) viz. That his Excell'y required the attendance of Mr. Speaker

(1) Gov. Jonathan Belcher was the son of the Hon. Andrew Belcher, one of his Majesty's council in the province of Massachusetts; born January, 1651, and inherited a large paternal estate. He was educated at Harvard College, where he was graduated in 1699. Not long after, he visited Europe, where he spent six years, and was treated with distinguished notice. He was twice at the Court of Hanover, Germ., before the Protestant succession took place in the family of Brunswick, and received from the princess Sophia a gold medal. He was graceful in his person, elegant in his manners, and aspiring in his disposition. On the death of Governor Burnet, he succeeded to the Government of Massachusetts and New-Hampshire in 1730. In that eminent station he was indulged the exercise of that power to which he had aspired. "The council never enjoyed less freedom than in his time. He proposed matters for their sanction, rather than advice, rarely failing of a majority to approve of his sentiments." The records which follow will show that Gov. Belcher was not only arbitrary in many of his proceedings, but partial to Massachusetts, and unfriendly to New Hampshire interests: while his professions were fair, his intentions and acts were often one-sided and unjust. The opposition he met with from a part of the council and from a majority of the Representatives in the House was, for the most part, well founded. His conduct in relation to the settlement of the boundary lines between the Provinces, was the chief cause of the troubles that rendered his administration unhappy, and that led to his removal from office. His private correspondence with Secretary Waldron—specimens of which are given in this volume—must be regarded as discreditable to him. After his dismission from office he resided for some time in Milton, Mass., but visited England and so far gained the royal favor that in 1747 he was appointed Governor of New-Jersey. There he spent the remainder of his life in tranquility and honor. He died at Elizabethtown, N. J., Aug. 31, 1757, aged 76 years. His remains were brought to Cambridge, Mass. and entombed. & the House in the Council Chamber. Mr. Speaker and the House went up accordingly. His Excellency made a speech. Mr. Speaker obtained a copy thereof. The clerk of the council also gave Mr. Speaker a copy of his Excellencies 32 & 77th Instruction (refer'd to in the Speech) Then Mr. Speaker & the House returned
Both the said Instructions read in the House.

Post Meridiem.

His Excellency's Speech read as follows, viz.

Gentlemen of the Council and House of Represents: I am in the first place to give thanks to Almighty God for my safe return to my Native Country, after a long absence & escaping the common hazards of the Seas.

And in the next place, it is with a great deal of satisfaction that I now meet you in general assembly (I doubt not) to concert those ways and means which may most of all advance his Majesty's service & honour, and the weal and prosperity of yo' country. It is the present happiness of every Englishman to live under the reign of the best of Kings, who makes the laws the rule of his Government; and the protection of the liberties of his People, his delight: These things ravish from all his subjects the affection so justly due to a tender father, and which he esteems the greatest support of his power. Altho' it is our lot to be placed at such a distance from the immediate benign influences of his Majesty's care, yet his great mind and perspicuous wisdom is continually extended and employ'd for the [p. 309] happiness of his remotest Dominions, and when I have said this I am sure I need not fill my mouth wth arguments to persuade you to all the duty, loyalty, obedience and gratitude due to so gracious a soveraign.

I have it in command from the King my Mast' to communicate to you His 324 Instruction to me, whereby he expects you [to] settle a Sallary on me and my successors, or at least on me during the whole time of my Government: an authentic copy of this Instruction, shall be delivered you by the Clerk of y's Council, and as you have already distinguish'd yo'selves by your loyalty and obedience to the King on this head, It leaves me no room to doubt of your wisdom and care still to secure a stronger interest in the King's favour, by a chearful compliance wth what in his royal wisdom he thinks so just and reasonable.

I am also commanded by his Majesty not only to take care that there be a strict execution of all the Laws now in force in this Province agst vice and immorality, but that I commend to your consideration the enacting what others may be necessary, for promoting and encouraging Virtue, & true religion; and as nothing can be a firmer basis for y's happiness of a people, I hope this will always lye near our hearts.

Gent.

I need not tell you this Province is in a fine situation for trade, where nature has done her part in commodious rivers and a good soil. It should then be your care to reap the benefits of these Blessings from God Almighty, by your greatest industry & prudence in your hus-
bandry, fishery and foreign Trade, and you may be always sure of my countenance and encouragement for these good ends. To see your trade revive and flourish under my administration, will give me a peculiar pleasure.

The unhappy dispute so long subsisting betwixt this Province and the Mass. with respect to the dividing line betwixt you, has produced from his Majesty (who has the most tend[2] regard for all his subjects) an Instruction to me so wisely projected, that being put in Execution will terminate the difference [p. 310] and give the opportunity of Establishing quiet & good neighborhood between the two Provinces for the future, and this Instruction shall be laid before you.

Gent. I am sorry to have the occasion to inform you that since my arrival from Great Britain, the Surveyor General of his Majesty's Woods, has made large complaints to me of the difficulties he meets with in the Province in the execution of his duty according to the King's Instructions. I am commanded by the King to take effectual care that the several Acts of Parliament, relating to the Royal woods, be strictly observed, and to aid and assist his Maj't's surveyor by myself and all officers under me, to prevent as much as possible the destruction of the King's woods; & that all offenders therein be bro't to condign Punish't. I therefore entirely depend on your readiness to discourage every thing that may have a tendency to prejudice his Majesty's service & interest, in an affair of which he is so tender, and is of such importance to his Royal Navy. And I do assure you the enacting such laws as may be further necessary for the better security and preservation of the nursery of Royal masts, will be taken as an instance of your respect & duty to the King.

It is with much satisfaction that I tell you, his Majesty by his unparalleled steadiness and consummate wisdom, has obtain'd a peace with Spain, to the honour of his Crown and advantage of his subjects, the happy influence whereof you will feel from time to time in this Province, yet it must not lull us into such a security as may betray the King's honour and hazard our own safety, by neglecting our fortifications; but they ought to be put into the best order to prevent any surprise, if an unexpected change should happen in the affairs of Europe.

I am glad to see the good agreement and amity subsisting with the several tribes of Indians on our Frontiers, and you may depend, from the great honour and duty I owe to my royal master, and the affection I bear to my native Country, nothing will be more my care than to fall into every reasonable way of cementing [p. 311] our reciprocal friendship; and I hope you'll heartily joyn with me in warding off any thing that may border upon unkindness or give disquiet to those jealous People.

Gent. of the House of Represent.

As it is more immediately your Province to look into the state of the Publick revenue, I shall order all the accounts, from the last time you had them, to be laid before you, with Proper Estimates of what may be the growing charge of the current year, that you may grant the necessary supply's in support of the honour & dignity of his Majesty's Govern't & of the Ease and welfare of his People.

Gent. of the Council and
House of Represent.

If my long absence and the little acquaintance I have at present
with the affairs of this Province, has prevented my mentioning any thing you still judge for his Majesty's service and the good of his people, I shall be full of attention to any suggestions you may have to make of that nature; and I have now only to recommend to you a Perfect unanimity in all your proceedings, which will be for the Honour of the King's Governm't and for the lasting peace and tranquillity of his good subjects.  

J. Belcher.

32d Instruction.

[From Journal of the House, App., p. 602.]

Whereas the Counciell and Assembly of our Province of New Hamp-shire, Did in obedience to our thirtyeth Instruction to Mr. Burnet our late Governor thereof settle a Salary of two hundred pounds sterling upon him during his Government; It is our Will and pleasure, That you recomend it to our said Counciell and Assembly to settle the same Salary on you & your successors, or at least on you, During the whole time of your Government.

The above is a True Copy of his Maj'ty's 32d Instruction to his Excellencie Governor Belcher, transcribed from the Body of Instructions.

In the House of Representatives
Voted, That Nathaniel Weare, Joshua Pierce & Theodore Atkinson Esqrs. be a Committee of this House to draw an answer to his Excell' Speech and present it to the House for approbation. Then the House adjourned to the 27th A. M.

August 27th A. D. 1730.

A Petition of the Inhabitants of Londonderry bro't in and read.

p. m. The answer to his Excell' Speech bro't in and read & ordered to be drawn out faire. Then the house ad- jounerd to the 28th A. M.

August 28. A. Dom. 1730, The House met The answer to his Excell'm Speech read, voted, accepted & sent up. The answer of the House of Representatives of the Province of New Hampshire to his Excell'm Speech.

[p. 312.] May it please your Excellency:

We sincerely joyn in giving thanks to Almighty God for your preservation from the common hazards and safe return, in particular that we have the happiness to meet you as our Gov't, and we assure your Excell. that we are met at this time with Hearts fully inclined to
do all things that in us lies that may be for the Hon' and service of the 
King and good of his subjects; and we are well assured that we live 
under the reign of the best of Kings; it raised our affections to the 
highest degree, & we hope, as we ever have, so we shall continue to 
manifest it by our Loyalty and obedience.

And having so gracious a sovereign, who in his wisdom is continu-
ally taking care of us his subjects, tho' in these remote Parts of his Do-
minions, still move as we have opportunity to show our Loyalty and 
obedience by doing our duty in all things we are able. We received a 
copy of your Excell's 82nd Instruction, and as we ever exerted our-
24 selves to the utmost of our abilities and often beyond, what has been 
the Honble for other governments in order to afford an Honble support 
to his Majestys govern't so hope we still shall distinguish ourselves in our 
Loyalty and obedience to all his Majestys comands. As to the settlem't 
of Sallary, according to his Majesties instruction, We have to say 
that the sum therein mentioned is extraordinary, we being a small, 
and generally poor People; and especially considering the encroach-
ments of our Neighbours, and the stagnation of our Trade, for want 
of a medium to carry it on. However, we hope his Majestys (who being 
unacquainted with our circumstances, hath given your Excell this ex-
traordinary Instruction,) hath not enjoyned it on your Excell as an 
order not to receive such sums as this House shall from time to time 
vote, which we assure yo' Excell' shall rather exceed than fall short of 
our Abilities.

And we shall take care to consider of all things which may encourage 
virtue and true Religion among us, & discomtenance vice and Immo-
rality, and look at it [as] our [p. 313] greatest happiness that your 
Excell' has so great a regard for true Religion. We desier at all times 
to be thankful to Almighty God that he has planted us in a place where 
nature has done her part, and thank your Excell' that you encourage 
us in Improving of these Blessings, and hope on our part to make Im-
provem't with care and Industry.

We take it as a great mark of his Majestys Favor in taking care for the 
settlem't of the Lines between the Provinces, and shall be ready to do 
our part according to your Excell's 77th Instruction, as soon as we can 
have knowledge of Men which may be qualified according to said In-
struction: We being at present altogether strangers to gentlemen in 
other Provinces. And for the preservation of his Majestys Woods, as we 
always were ready, so we still remaine ready and willing to do any 
thing that we can, which may contribute to the preservation thereof, 
according to the several Acts of Parliament made for that end; and if 
there be any acts that may be made for the preservation of a nursery 
of Timber, which may be fitt for the Royal Navy, we shall be ready to 
do any thing that we can for the preservation thereof.

We assure your Excell' we shall always be glad to cultivate a good 
agreement with the Indians, and shall neglect no opportunity to engage 
them to Peace. And as tis more immediately the business of this 
House, so we shall take care to supply the Treasury with what shall be 
sufficient to defray the charges of the current yeare, and shall be dil-
gent in passing such Acts and votes as shall at any time be thought for 
his Majestys service or the good of his subjects.

Andrew Wiggin, Speaker.
Londonderry Petition read againe and their agents call’d in and heard, and the house had some debates thereon.

Voted that Joshua Pierce and Theodore Atkinson Esqs. be a Committee of this House to joyne with a Committee of the upper House to examine the accounts relating to the Province and make return to the Genl assm for approbation. [p. 314.] Mr. Clark Waldron bro’t down an Act for adjournment of the Quarter sessions which was read. P. M. The act for adjourning the Qua’r Sessions read a 2d time Then the House adjourned for an Hour. The act for adjourning the Quarter Sessions read a third time & pass’d to be Enact’d Engross’d and Sent up

A message from his Excell’t to the House pr Mr. Clerk Waldron in writing as follows viz.

Gentlemen—

I thank you verry kindly for the answer to my Speech in its several paragraphs, and your heartily joyning with me in what I have recommended will (I doubt not) with the blessing of Almighty God render you a happy & flourishing People. I would againe press you to put forward the settlemt of the Line between this Province and the Mass according to the King’s Order as soon as you conveniently can, and you may assure yourselves of all my weight and interest with his Maj’t and the two Govcrns under my care, that the matter may be done with the greatest Justice and Impartiality. I’me sorry to find you can tell me the Trade of the Province labours with difficulties, and shall be glad of any proposals from you to revive and increase it, and as the charge of the Province will be growing, I have a liberty to emit from time to time what Bills of Credit may be necessary to defray the Expense thereof.

Gentlemen—As to his Maj’t 32d Instruction for settling a Sallary on me during my Adm I do assure you I should with pleasure and satisfaction have received the Kings Royal leave for my support as has been usual in this Province, nor was I wanting to solicit that it might be done in that way, yet his Maj’t has finally ordered it should be done in the manner I have laid before you & has further comanded & enjoyed me in the following words—"It is our express Will and pleasure that you do not give your assent to any Act in our said Province of New-Hampshire under your Govemr for granting of money to you our Governour or Comander-in-chief the Sallary of two hundred pound pr annum as directed in our 32d Instruction." [p. 315.] This being the case, Gent, I neither must nor dare receive any support from you, so as to deviate from its being settled on me during the whole time of my Govemr. As you are my breathren, and my interest is blended with yours, I hope we shall conspire together for establishing ourselves still more firmly in his Maj’ts grace and favor by a cheerful obedience to what in his Royal Wisdom he thinks so reasonable, and this will be the way to lengthen out your tranquillity, to promote which I shall gladly employ every opportunity may fall in my power.

J. Belcher.
Ordered That those persons concerned in the Rye Petition appeare the 3d day of the next sessions. Then the House adjourned to the 29th curr\t.

[On the same day] the Governor sent another message to the House in writing by Messrs. Jeffry, Wibird and Odiorne, as follows:

[From Journal of General Assembly.]

Gent.
The ready obedience and duty you have paid to his Majesty's Instruction in settling a Salary on me during the whole time of my Government, you may assure yourselves shall be followed by me with the fullest representations in your favour, so as we may constantly feel the love and affection of the King, who delights to be the common father of all his People.

I think it my duty to observe to you before the act passes relating to my salary, that ye Instruction Extends only to me as the King's Governor, & that therefore the mention you have made of the Lt. Governor seems an impropriety, and the act of settlement ought to be confined as near as you can to the King's Instruction; but let that be as it will, I am determined always to act with you an open upright part, and therefore think it proper to say to you what I have to the Leiut. Gov\t and several members of the Court (before the passing the vote you have made) That the six hundred pounds you have settled on me was what the King had required for his Governor, & I should by no means allow any part of my own support to any other officer in the Government.

I must further observe to you that it has always been the Practice of the Mass\a and commonly of ye New Hampshire Assembly, to pay the Gov\t before hand, so as to enable and support him [in the] management of the affairs of Government: and as the Treasury is supply\'d with money, I can't see that it will be any detriment, but a service to this Province rather to have the money emitted and circulating than to let it lie dead in the Treasury; nor can it be thought reasonable I should live at my own Expence, till the Periods you have set in the act arrive: These things being duly considered I doubt not but that they will induce you to fall into the amendments the Council have made on the act you have sent up.

As to the affair of the line btwixt the two Provinces, wh I have once and again so earnestly recomended to you, I heartily wish you would be satisfied in the five gentlemen last proposed, who are all of them men of great honour and integrity, & being voted by this Assembly, I have no doubt of the other Province concurring with you in the choice, & which I should think would give us great hopes of a successful Issue of this long unhappy controversy.

I have now only to assure you that I am come full of benevolence, and to do every good and kind thing in my power for this Province.

I am to acquaint you, Gent. that the Assem: of the neighboring Province is to meet the next week, so I must be going homeward to-morrow, and desire you to consider what time will be most commodious to your private affairs to be prorogued to in which I shall be willing to gratify you.

J. Belcher.

(*) The names are in the original Minutes. Ed.
Gent. of the Council and House of Representatives

The Lev't Governor having in conformity to my order adjourn'd you to this day, I am now come to meet you in Genl Assembly, for the necessary dispatch of the affairs of this Province. It is our happiness to live under the protection of a Prince who is the best of Kings and an indulgent father, and we are continually reaping great advantage from the trade [p. 321] with our mother Kingdom. When we consider therefore these things, I hope this Province will never be wanting in their loyalty and obedience to his Majesty, & upon all occasions to show their dutiful dependance on the Crown of Great Britain. This will be the best means to Establish you still more in the King's favour, and thereby most effectually promote the prosperity of your country.

Altho' when I was last here my stay was but short, your private affairs urging for a recess, yet if you will have recourse to what I then recommended to your consideration, it may produce happy consequences for the people under your care. The affair of the line between this Province and the Mass* I think ought to be our first and especial care. The hardships and crueltys the Poor People suffer on each side, methinks should move both Govern'd and every good man in them with compassion. Pray let us then be in earnest to put in Execution the King's commands so kindly and so wisely calculated for establishing the ease and peace of his subjects, & as the assembly of the Mass* in their late session have shown a chearful inclination to comply therewith, I hope there will be no stop or delay on your part, and I do assure you it shall not be my fault if it be not done as soon as possible, and that with all imaginable justice and impartiality.

Any thing you can do for the Encouragement of Naval Stores in this Province will greatly recommend you to the favour of the Crown and serve your own trade and Interest. I would mention to you particularly the laying a good bounty for raising hemp which your soil and climate are well adapted to.

I must acquaint you, gentlemen, that I have his Majesty's Commands that no fees be taken in my Governments but what are according to law: I would therefore have you look into the State of the fees of this Province, that what are necessary for the King's service in the dispatch of the affairs of this Governent, and are not yet established by law, may now be done to prevent any injustice or oppression of the King's good People of this Province, and [p. 322] you may depend on my chearful concurrence in what may be reasonable on this head as well as in every thing else which may best of all advance the King's honor and the happiness of his good subjects in this Governent.

J. Belcher.

May it please your Excellency

We esteem it our great Happiness that we have an opportunity to meet your Excellency at this time in General Assembly, & hope we are all come fully disposed to dispatch the affairs of the Publick as soon as possible. And we are highly sensible of ye great Blessings we enjoy by living under the Reign of our Gracious Sovereign, who is the best of Kings; and we hope we shall never be wanting in ye expressions of our Loyalty and obedience towards so tender a Father, and we'd acknowledge how much we are obliged to our mother Kingdom for the Benefits we receive by ye great Trade we have there.

As for the dividing Lines between this Province & the Massa, we shall with all diligence apply ourselves to ye business, by making choice of discreet and indifferent Persons that may make a final determination thereof according to his Majesty's Instructions.

As to Naval Stores, we assure your Excellency we shall at all times be ready to do as far as we are able towards the Encouragement of the Hemp Manufacture; but at present, by reason of the long War with ye [p. 305] Indians, which has been upon us, with has hindered the clearing and cultivating of our Land, we have not been in a capacity to do much that way. The substance of which was That his Excellency (as a common Father to both Provinces) might appoint a Seventh man to joyn the Comrs about the Lines. Whereas his Excellency our Governor has been pleased to lay before this House, his Majesty's 77th Instruction in relation to the Boundaries of this Province and the Province of the Massa Bay, wherein 'tis recommended that each Governor choose Discreet & Indifferent Persons, out of the neighboring Collonies under his immediate Government, with sufficient Powers to draw the said Boundary Lines, & finally to determine the Dispute between the two Provinces, whose proceedings therein are to be laide before his Majesty and be of none effect till his Majesty pleasure be known thereon:

Now in compliance with his Majesty said Instruction, and that the ends therein propos'd may be answered, being so
wisely projected; and whereas the Province of the Mass* has
chosen three men to be a Comittee for them on that affair, we
conceive if we should choose three men also to joyn with them there might many inconveniences arise:

Therefore, we humbly presume that three Gen° of sinceri-
ity & Wisdome may be sufficient to determine the same—and as the Honble Adolph Phillips of New York, Esq. was pro-
posed by this Province at the last sessions to be chosen, and
since that the [p. 326] Province of the Mass° has made
choice of him, and he being a man so agreeable to his Maj°s
Instruction, and so desireable by us of New Hampshire,—
We likewise make choice of him: and as the Province of the
Mass° has already chose the Honble Joseph Talcut, Gov° of
Connecticut, Esq. for one, We do make Choice of the Honble
Joseph Jenks, of Rhoad Island, Esq. and these three Gen° to be Comiss° to come upon the spot, and so settle the Lines
to all intents and purposes according to the Intent of said
Instruction, and that they are fully impowered to determine
the same, so far as this Province is concerned; and also,
Voted, That there be a Comittee appointed from this Pro-
vince, to joyn with as many of the Mass° Govern° to signify
to the above Gentlemen that they are so chosen, for the pur-
poses & ends aforesaid, and pray their acceptance; and if
any of the aforesaid three Gen° shall not accept, or thro'
some unforeseen accident shall not be able to come then the
Gen° chosen by this Govern° are fully impowered to make
choice of a Proper Person in the room & stead of Gov.
Jenks, in case he does not accept or cannot accept; and the
Gen° chosen by the Mass° to do the like in the like case if it
shall so happen wth Gov° Talcut: and if the Honble Adolph
Phillips do not accept, or should be prevented coming, that
then both the Comittees appointed by the Govern° to make
choice of a proper person in his stead, and then the Com-
mittee to have all the full Power as the persons first chosen
to all intents and purposes—Provided, always that the Mass°
govern° agree to the above choice in the manner above, &
that as well the line of the Northern Boundary between the
Province of New Hampshire & the late Province of Maine,
be settled by the same Comiss° as the Southern Boundary
next the Mass°.

His Excellency made a Speech, gave Mr. Speaker a copy of it. Then Mr. Speaker & the House return’d. The Speech was read in the House and is as followeth, viz.

\textit{Gent’n of the Council & House of Represents}

Since his most Excellent Maj’\textsuperscript{e} has been pleased by his Royal Commission to commit his good subjects of this Province to my care and Government, I shall not only in discharge of my duty to the King, but from my own sincere & cheerful inclination, rejoice in every opportunity may fall in my power to advance his Majesty’s service & honor, togetherness with the best prosperity of this Province; and this puts me upon a constant thoughtfulness and solicitude how to do you good.

\textsuperscript{(1)} This answer not found. Ed.
Let me then, Gen'm desire you to study and seek the welfare of your Country, in which you will find me heartily engaged with you.

Your love [p. 329] to your country and to one another, is not only very consistent with the strictest Duty & Loyalty to the King, but one of the best means to make that Loyalty universal among you: and for my own part I am determin'd (as much as in me lyes) not to know (if there be) any party's among you; but I shall always think men of capacity, substance, and the greatest virtue and integrity, have the best claim to my favour or respect I can show. I take this opportunity, Gen'm to remind and further recommend to you, what I think may be for the honor and interest of his Majesty and this Province, That there be a strict execution of all the laws in force ag' immorality & prophaneness, and for the Encouragem't of virtue & true religion; and that you be heartily concern'd for Enacting such other laws as may be necessary for those excellent ends. This will be one of the best ways to Establish you in the favour of God and the King, and which from his Majesty's pious concern for this Province he has strictly commanded me to press upon you.

Let your next care be to endeavour the reviving of your trade and encouraging your husbandry, & Manufactures. To this End, I should think a liberal bounty for raising hemp and making Canvas & fine linen would be money well expended.

The William and Mary Fort I observe begins to run to dispair. I have therefore Directed the Lt. Gov't, w't some Gentlemen of his Majesty's Council, & of the House of Represen't to make a careful survey of it and report to me in the recess of this Court, what repairs or additions may be necessary to be made, as well for his Majesty's Honor and service, as for the safety of this Province, and their return shall be laid before you, when I shall not doubt of your readiness in granting what money may be wanting on such an important service; and while I am on the Defence of the Province, I would earnestly recommend to you the enacting of a law for the better regulating and supporting the Militia, w't indeed is the main strength of this Government & what (under God) we must depend on in Case of any rupture and an attack from an Enemy; [p. 330] and this time of Peace is certainly the proper season for your consideration of this affair. I am informed that your Grants, deeds & other papers of the Greatest consequence to the good People of this Province, ly's Present in a rude and undigested manner, and that there is a great necessity of a revise of your laws: Let me then desire you, as you value the ease, peace and welfare of yourselves & your posterity, to chuse without any longer delay some suitable person or persons to reduce your papers to good order and method, and to revise your laws; and to induce those that may be capable to undertake these difficult affairs, you must handsomely proportion their reward; & methinks the settlement of the line now coming forward, should quicken you in this matter of your papers, since by such an Examination those may come to hand that may be of great service in the adjustment of the boundaries between the two Provinces.

I think it would be not only for the Honor of his Majesty and this Government, but for the great Convenience in the dispatch of the Pub'ck affairs, That a handsome Court house be built in the Town of Portsmouth (the Capital of this Province) for holding the General Court, and Courts of Justice below, and for the better security of all the
Public records. This you will please to consider, and do in it, as may be judg'd wise & prudent.

Gent'm Since you have in conformity to his Majesty's commands to me gone on to settle what fees were not before Established by Law, I shall issue a Proclamation as well for the Government of all officers as for the Information of the People, that there may be no Injustice or oppression by Extorting Exorbitant fees, and that the people may duly comply with the laws; and while I have the honor to represent his Majesty's Person at the head of this Government, I hope always to be able to appeal to God and the world, and say, Whose ox have I taken? or whose ass have I taken? or at whose hands have I received a bribe? But as you have dutifully complied with his Majesty's orders in fixing my support, I am content and thank you; and as I will at no time [p. 331] take any money but what is my due, & that in the most laudable way and manner, so it shall be my care to discountenance every officer under me that shall allow himself an unlawful liberty on this head.

Altho I am here at a Distance from my stated home, yet it is a great pleasure to me to be here in the discharge of my duty to the King (the best of Masters) by doing every thing in my power for the happiness of his good subjects of this Province; I hope you will therefore give all proper attention to what I have now suggested to you, and if you are desirous to lengthen out this session (since there will be no other till the spring) I shall patiently wait on your deliberations, and gladly consent to such results as may have the best tendency to his Majesty's service and your own welfare.

J. Belcher.

To the King's Most Excellent Majesty.

The humble Address of the Council & Representatives of your Majesty's Province of New Hampshire, in New England, in America, Convened in General Assembly:

Most Gracious Majesty:

We your Majesty's most Loyal and Dutiful subjects, the Council & Representatives of your Majesty's Province of New Hampshire, in New England, in America, should lay ourselves open to the imputation of the highest ingratitude, did we not take hold of the first opportunity to place ourselves at your Majesty's feet in humble acknowledgment and hearty thanksgiving for your loyal beneficence in appointing Govern'r Belcher to represent your Majesty's Person at the head of this Government, who is so equal to the trust, and acceptable to the People.

It is inexpressible how the first intelligence we had from White-hall of your Majesty's Grace and favour to New England on that Score, elevated our hopes, and if we are disappointed it is in this:—that his wise, just & unbiased Administration has exceeded our Expectations & equalled our very wishes.

The first part he acted here was laying your Majesty's Instruction before us for settling a Salary; and our first part under him was a dutiful and ready compliance therewith; since which his sedulous and constant application to the Publick affairs of the Governm' for your Majesty's honour & service and the benefit and advantage of your good subjects of this Province, afford us the most pleasing views.

His great care and solicitude for the Preservation of the Pine trees by his Proclamations and strict inquiry after transgressors, will in all probability, effectually secure them for your Majesty's use, according to the Acts of Parliament provided in that behalf.

His steady Conduct hitherto gives us the best ground to hope for a serene day & Calm season.

His frequent Exhortations for putting our laws against vice and immorality in Strict Execution, back'd and Enfor'd by his own most virtuous Example, we have great reason to hope will be a good means to reclaim the vicious, and make virtue & religion flourish amongst us.

And while he is Exerciting his powers as a kind father to this Province, his loyalty, duty & fidelity to your majesty are not a little conspicuous in the strictest Execution of your Majesty's Commission, and his utmost regard for the royal Prerogative, well knowing there is no inconsistency in being a faithful servant to your Majesty, and a faithful friend to your loyal subjects. Upon the whole,

May it please your Majesty,

Our Experience of the Governour's eminent Powers for your Majesty's service and our good (he being a person much versed in the affairs of Governm' and perfectly acquainted with our constitution) and the constant good disposition he has express'd towards both, oblige us with the greatest humility to beg your Majesty's grace and favour in
Continuing this poor little loyal plantation under the present most happy and desirable administration.

We are,—May it please your Majesty—
Your Majesty's most loyal, dutiful & obedient subjects & servants,
R. Waldron, Sec'y In Presence of & by order of Council.

[The following is a copy of the Law appointing Commissioners to settle the Boundaries, &c.]

[Copied from Record of Acts, 1692–1742, in Sec'y Office, p. 318]

Anno Quarto Regni Regis Georgii Secundi:

An Act appointing Commissioners to settle the Boundaries between his Majesty's Provinces of New-Hampshire and the Massachusetts Bay.

Whereas there has been a Controversy of long standing between His Majesty's Provinces of New Hampshire and the Massachusetts Bay, concerning the divisional Lines of the said Provinces, and frequent attempts have been made by Commissioners chosen on each side to compromise the same, but all to no purpose;—And whereas the affair has once and again at a very considerable expense to this Province been laid before his Majesty in Council, in order to obtain his Royal determination on the matter,—yet so it is notwithstanding the several remonstrances made to his Majesty in that behalf, the difference remains yet open and unsettled; Tho' his Majesty in his great goodness and tender regard for his good subjects even at this great distance, has been graciously pleased to project and recommend by his Seventy Seventh Instruction to his Excellency the Governor, the most probable scheme for putting a final issue to the said difference (as far as in this Province lies)

Be it enacted by his Excellency the Gov*, Council and Representatives conven'd in General Assembly, and by the Authority of the same, that three persons be chosen Commissioners to repair to the places where the controversy arises, and to hear what may be offered on each
side, and then to conclude and finally determine the difference according to the said instructions, and as fully and amply to all intents and purposes as this Govern[r] can give them power to act. And whereas the Honourable Adolph Phillips of New York, Esq[r] was nominated & proposed to be chosen on the part of this Province for this affair at the last sessions of the General Assembly; since which, he having been elected by the General Assembly of the Massachusetts Bay on their part, & being a gentleman of so universal a good character, and so agreeable to his Majesty's Instruction and the desires of this Govern[r]; and whereas the Government of the Massachusetts Bay have also chosen the Honourable Joseph Talbot, Esqr. Governor of Connecticut, on their part; and the Honourable Joseph Jencks, Esqr. Governor of Rhode Island, being thought a most suitable person to be a Commissioner on the part of New Hampshire:

Be it therefore Enacted by His Excellency the Governor, Council and Representatives convened in General Assembly and by the Authority of the same, that the aforesaid Honourable Adolph Phillips, Esq[r] chosen and appointed conjunctly by the two Governments, and the Honourable Joseph Jencks, Esq[r] chosen and appointed on the part of this Government, and the Honourable Joseph Talbot, Esq[r] chosen and appointed by the Government of the Massachusetts Bay, be Commissioners, and by virtue of these presents are hereby invested with all the powers and author[ity]s that this Government can give them, to repair to the places where the aforesaid controversy arises, and fully to hear each side, and then finally to fix and settle the said boundaries between the said Provinces according to his Majesty's aforesaid Instruction—that is to say, the Boundary between the Province of New Hampshire and the late Province of Maine, as well as the other Boundary between New Hampshire and the Massachusetts Bay.

And be it further Enacted by the authority aforesaid, that George Jaffrey, Esq[r], Richd Waldron, Esq[r], Benjamin Gambling, Esq[r], Theod[r] Atkinson Esq[c] Capt. James Jeffery, be a Committee in behalf of this Province, to joyn with so many to be chosen in behalf of the Province of the Massachusetts Bay, to make a joyn[t] application to the Hon[ble] Adolph Phillips, Esq[r] aforesaid to undertake the said affair, and likewise to make a separate application to the Hon[ble] Joseph Jenks, Esq[r], on the part of this Province; and if it should so happen, that the Hon[ble] Adolph Phillips, Esq[r], or the Hon[ble] Joseph Jenks, Esq[r] should not be prevail'd with to undertake the affair, or should be prevented by any unforeseen accident, that then the aforesaid Committee with the Committee to be chosen by the Massachusetts, appoint another person in the room of the said Mr. Phillips, and that the said Committee of this Province (separately) chuse a person in the room of Govr Jenks, in case they or either of them should not undertake the affair: And in case Govr Talbot should not undertake for the Province of the Massachusetts Bay, that then the Committee of that Province shall make choice of another person in his room, and that the Person or Persons which shall be chosen by the Committee conjunct or separate shall have the same full power and authority to all intents and purposes as the Commissioners who are herein nominated and appointed: Provided always, that the Genl Assembly of the Mass[r] Bay agree to the choice aforesaid, in the manner aforesaid, and to the Settlement of the Eastern as well as the Western boundary of the said Province of New-
Hampshire as aforesd, and that the said Commissioners be desired to proceed upon the business as soon as they conveniently can, so that if possible, the affair may be finally determined by the twenty-fourth day of June next, and that the charge be born by the two Provinces.

Dec. 34 1730. Read three times in the House of Represent. And pass'd to be enacted. Andrew Wiggins, Speaker.

Eodem die. Read three times at the Council Board and voted a concurrence. Richd Waldron, Secretary.

I assent to the enacting this Bill J. Belcher.

[From Adams’ Ann. Portsmouth, pp. 156, 157.]

November 30, 1730. The honourable Richard Waldron [Sen.] departed this life in the 80th year of his age. He was the son of Major Richard Waldron of Dover, and was bred a merchant under Lieutenant Governor Willoughby of Charlestown. After his return to this Province, he resided part of his time at Dover, and part at Portsmouth, and pursued the business of merchandise. He was early engaged in public life, and sustained many offices of honour and importance. His superior qualifications first introduced him to notice, and his desire of being useful to society, induced him to accept the several appointments which were offered him. He was a Councillor, Justice of the Court of Common Pleas, Judge of Probate, a Justice of the Peace, and Colonel of the Militia for many years together. He discharged the duties of these several offices with great ability and undeviating rectitude. Amidst these worldly honours and riches he did not neglect the more important concerns of religion. He was circumspect in his Christian conduct, and endeavored to walk agreeable to the precepts of the Gospel. He was buried without military honours, because he had frequently expressed his dislike to pomp and parade at funerals.

Hon. John Wentworth, late Lt Governor, deceased, Dec. 12, 1730, aged 59 years. He was son of Samuel Wentworth, and was born at Portsmouth June 16, 1672. His inclinations led him to a seafaring life, and he soon obtained the command of a ship. In this situation he was very exemplary in his conduct, and constantly maintained the worship of God in his ship, by morning and evening prayer. By a careful attention to his business, he acquired a handsome fortune. His engaging manners procured him the affection and esteem of all who knew him. His public spirit induced him to take an interest in whatever would benefit his native place. He was appointed one of the Council in 1712, and Lieutenant Governor in 1717,—his Commission being signed by J. Addison, Author of the “Spectator.” After the administration of the Government devolved on him, his unwearied endeavors were to promote the welfare of the Province. In the discharge of his official duties, he gained the approbation of the inhabitants, and the affairs of the Province flourished under his mild administration. He was constant in his attendance on public worship, regular in his family devotions and in the observance of all the ordinances of the Christian religion. He had 16 children: of whom fourteen survived him. [See Ad. Ann. Portsmouth, pp. 157-8. Farm. Belk., p. 228. Ed.]

Three of the members were sent up to signifie the House had made choice of a Speaker and that Andrew Wiggin Esq was chosen Speaker. The Board waited till the House had made choice of their Clerk.

Mr. James Jaffry was chosen Clerk and sworn accordingly.
Mr. Secretary came down and said that his Excellency ordered this Assembly to be adjourned to the last Monday [Wednesday?] in March next, and then declared the assembly adjourn'd accordingly.

Wednesday March the 31st A. D. 1731.
The house met according to adjournment. Mr. Secretary came down and said that his Excellency ordered this Assembly to be adjourned to the last Thursday in April next, and then declared the assembly adjourned accordingly.

Thursday April the 29th A. D. 1731.
A Quorum of the House being met, a Mess* was sent to signifie it to his Excellency.
A Mess* from his Excell* to Mr. Secretary viz. That his Excell* required the attendance of Mr. Speaker & the House in the Council Chamber. Mr. Speaker & the House went up accordingly. His Excell* made a speech. Mr. Speaker obtained a Copy and then with the House returned.
His Excellency's Speech was read as followeth, viz.

Gentlemen of the Council and House of Representatives.
[p. 337.] Your steady Loyalty and duty to the King is your great happiness and distinguishing honour. In this Light I have represented you to his Majesty, and I doubt not but you will constantly reap the advantage of it, in the enjoyment of his Gracious Favour and Protection; and I have no reason to think but you are now met in General Assembly to do every thing in your power that may be for his Majesty's honour and service, & for the best good & welfare of your Countrey; and to these things you shall always have my hearty consent.

I suggested so much to the last Assembly for advancing the Prosperity of the People that I have hardly anything more to say than to desire you to look back and peruse them; yet for your own safety and tranquillity I must remind you of revising your Laws, and adding to them, what may be further necessary at present. Your Militia more especially wants the assistance of the Legislature to make it serviceable to the Province, they being under God our only defence in case of a rupture with any of our Neighbours; & I am told the fines for the Neglect of appearance on days of muster are so low, that the Militia are in a manner dwindled to nothing.

It is also absolutely Necessary that the public Papers and Records of the Province should be reduced to good order and method.

I am now to acquaint you, Gent* That the late Gen' Court of the
Massachusetts Bay have past a Law much of the Nature of that past here the last fall, for settling the long disputed Bounds between this Province and that; & an authentick Copy of this Law shall be laid before you; and I shall not doubt your adding to yours what may still be Necessary for perfecting so good a work.

Gentm of the House of Representatives,

As it is more peculiarly your business & duty to make the Necessary supplies for the Honble support of this His Majesty's Government & for establishing the peace and well-being of his good subjects in this Province, I shall order the Publick accounts to be laid before you, That you may know the state of the Treasury, & do what may be Needful for defraying the growing charge of the curr\(^2\) year.

[F. 338.] Gentm of the Council and House of Representatives,

As it is a busy season of the year, I hope you will carefully endeavour the best dispatch of what affairs may come under your consideration, by a good harmony and unanimity among yourselves—which will always give me the greatest pleasure and satisfaction.

J. Belcher.

Mr. Secretary bro't down a Copy of the act of the Mass\(^a\) refer'd to in his Excelly\(^a\) Speech. The same was read in the House. Then the House adjourn'd to the 30\(^{th}\) curr\(^t\).

Fryday April the 30\(^{th}\) A. D. 1781.

Voted that Joshua Pierce and Nathaniel Weare Esqs. be a Committee of this House to draw up objections why this House cannot come into the measures proposed in the act of the Mass\(^a\) relating to the Lines & make return to the House for approbation.

Post Meridiem.

The Committee for drawing objections ag\(^t\) the act of the Mass\(^a\) about the Lines made the\(^c\) Report which was read in the House as follows, viz.

1. Objection, The Act of the Mass\(^a\) binds up the Comiss\(^m\) only to the Bounds mentioned in their Old Charter (which is vacated) Whereas our dispute is only on the Charter of King William & Queen Mary to the Mass\(^a\) Bay, which also ties up the Comiss\(^m\) from hearine arguments that either part may offer.

2 Objection ag\(^t\) the said Act is, That the Comiss\(^m\) shall have power to order equivalent Lands to be given and received by each Governm in lieu of such Lands as either Governm is in possession of, if it happen not to be within their lines. This is not in his Maj\(^m\) Instruction, nor any thing like it, nor in the power of the Assembly to take or give Equivalent Lands, the right of soil being in the Crown.

3 Objection is, That the Act of the Mass\(^a\) is absolute that the Comiss\(^m\) finally settle the Boundary Lines without any Regard [p. 839] to the Reservation in his Maj\(^m\) Royal Instruction which \(^t\)is humbly presumed this Province will not come into.
4th Objection ag'Instant paying halfe the charges. If when the Comiss'rs hath settle the Lines, and it be found that New Hampshire never granted or intrud'd upon any lands within the bounds of the Massachusetts Charter granted by King Wm. & Queen Mary, then they ought not to pay halfe the charge, and that if 'tis found that the Mass'rs hath made sundry grants without the Charter that falls in New Hampshire (and very lately too) then they ought in justice to pay the whole charge or leave it to Comiss'rs to quadrate or asses the charges according to the Transgressions of either Governt.

5th As to the nominating the p'sons 'tis humbly presum'd the way proposed in the New Hampshire Act, lookes much more indifferent than the way propos'd in the Mass' Act—all which is humbly submitted.

Then the House adjourn'd to May ye 1st.

Saturday May the 1st A. D. 1731.

Voted that Joshua Pierce and Theodore Atkinson, Esqs. be a Committee of this House to answer his Excell'y Speech and present it for acceptance. Then the House adjourn'd to Monday May the 3rd.

Monday May the 3rd A. D. 1731.

[p. 340.] An Answer to His Excell'y's Speech which was made April 30, 1731.

May it please your Excell'y,

The Favours and Protection, which his Majt's subjects the People of this Province are constantly receiving from him, are the greatest encouragemt to Loyalty and Duty. These we hope will always be our distinguishing character, and we assure your Excell'y we are now met to do every thing tending to his Majesty's Hon'r, and the welfare of
this his Maj"ste Province. To this end, we shall according to your Excel-"lent desier, inform ourselves of what you laid before the former Assemblys, and shall (if we can be so happy as to obtain your Excel-lyss assent) pass all such acts as shall be thought necessary for the safety and tranquillity of this Province:

And shall take care that the several officers shall be directed to reduce the files & papers into method and good order, that so they may be lodged in the proper offices.

We have carefully perused the Transcript of the Act pass'd by the Governour of the Mass" Bay for settling the Boundary Lines between the two Governours which we by no means can think reasonable, nor correspond to his Maj"ste Instruction in scarce one paragraph; however, we shall do every thing in our Power that can square with that so reasonable an Instruction, & that so the fault shall not rest with us.

We readily acknowledge that the supply of the Treasury Comences with this House, and shall cheerfully render such, and all the supplies in our Power; but if the several Acts already made and passed for the calling in the money & sinking y" several funds on which our Paper Currency is established, must terminate and be complied with and the Money accordingly burnt without any further remittance; It will be attended with the greatest difficulty. It will lay his Maj"ste subjects, the People whom we represent, under the most distressing circumstances imaginable, which will be very plain [p. 341] to your Excelly, being rightly informed of our present conditions. We shall use our best Endeavour to go thro' the Publick affairs of this Sessions with all possible unanimity and dispatch.

Belcher, It is observed that the said Act of the Massa. is
not agreeable to the intent of his Maj' est Instructions for settling the Boundary Lines—Therefore Voted, That this House adhere to their act made and passed in New Hamp-shire X° 30 1730 with their amendments viz. instead of the words (“that the aforesaid Committee with the Committee to be chosen by the Massachusetts, appoint another in the room of the said Phillips””) there be added. That in case Mr. Phillips do not accept or cannot come, that then his Excell' ence the Govr. of New York be desired, and fully empower'd to appoint some suitable person of that Gover'n in the room of the said Mr. Phillips; and that instead of the words (“by the 24th day of June next”) it be entred by the [p. 343] last day of September next; and that the charges be born by each Province as the Comiss' direct; and that a clause be added as in the Mass' Act, that the determination be under hand and seal, and duplicates given to each Party, or such of the Committees as may be appointed to receive the same, and that the act be amended accordingly.

A Mess' concurr'd above.

An act to revive the Sup' Court read.

A Mess' to the Board pr four member's viz. That the house did adhere to their former vote about the Act for settling the Lines, and that unless the govern't of the Mass' will pass an Act correspond' therewith, tis the first Resolution of the House not to pass any Act but what is agreeable in substance with his Maj' est Instruction, and in order to finish said affair, to desire the Council to joyn with the House in the choice of some suitable p'son as an agent to represent the affair to his Majest'æ, to shew how far this Government has condescended to the Mass' in this affair, and that the said agent be paid by a Private subscription, several gen' having offered to subscribe to support the said Agent so ap pointed to prosecute the said affair.
In Council, May 6, 1781.

Whereas by a verbal Messrs. Weare, Pierce Atkinson and Clarkson it is declared to be the sentiments of the House, That the settlement of the Province lines will never be adjusted but by his Maj'ty in Council, and whereas it was moved to his Excell'y and the Board by the gen'l above named that an agent might be chosen to make remonstrance of the affaire to his Maj'ty Accordingly, and further, as the said gen'l were pleased to represent, That there was a certain num' of P'sons that will subscribe considerable sums out of their own Private Purse for carrying on the affaire: The Council desire to be informed, who the P'sons are that are so bountifully disposed, what sums they will advance, and when it will be paid; and whether the House has yet gotten any security for the same; and they also expect the original subscription to be laid upon the Board, in order to their passing upon the aforesaid verbal Messa.

Then the House adjourn'd to Fryday, May 7th curr't.

Fryday, May the 7th A. D. 1781.

Whereas the Genl Assembly of this Province Xr 8d 1780, passed an Act for appointing Comiss'd for settling the Boundary Lines between said Province and the Mass', and whereas there has been a Transcript of an Act passed by the Gen'l Court of the Mass' last February, which this Gen'l Court observe is not conformable to his Maj'ty's Instruction for settling the Lines or Boundaries of said Provinces:

And whereas the House of Representatives has for accommodating the affaire come into some amendments to the Act made here Xr 8d, aforesaid—and since 'tis not likely that the Gen'l Assembly of each Province shall agree in every particular in their Acts—Therefore

Voted, That there be a Committee from the General Assembly of New Hampshire appointed to meet a Committee to be appointed by the Gen'l Assem. of the Mass', at Newbury [p. 345] the tenth day of June, to treat and see whether
they can agree upon drawing up an Act conformable to his Majesty's Instructions, that may suit both Govern're, and that the Comittee make return to the Gen' Assembly, and that his Excell'y be desired to adjourn this Ass'n (when they break up) to the 15th of June next, to receive the Return, in order to act thereon, that the matter may be ended by the Comiss'n by the last of Sept. next.

Post Meridiem.

In Council, May, 7th 1731.

Whereas his Excell'y the Gov'r has been pleased to signifie to the Court that the affairs of his other Govern'r call for his being at home the beginning of next week, whereby this Ass'n will undoubtedly be obliged to rise tomorrow—wherefore the Council earnestly move that the House would pass upon every necessary matter without any delay, such as the settlement of the Treasurer's Accounts, making the proper allowances, and supplying the Treasury, that there may be no room for any to suspect the Loyalty & Duty of this Province to his Maj' in the necessary support of this his Govern'r, and that all persons who have any just Claims upon the Treasury may have no cause to complain.

Richard Waldron, Sec'r.

In the House, &c.

Whereas there are great frauds and deceit practised by p'sons travelling in this Province by selling of Foreign Linens, under pretence they were made at Londonderry in this Province, which tends to the Damage of those who really make and sell the Linen in Londonderry, and to evade the Act made by this Govern'r ag'Hawking & Peddling, &c.; For prevention of which, & for encouraging the manufacturing Linnen in said Town,

Voted, That an Act be drawn up authorizing the said Town to make choice of a suitable p'son to Seal all such Linen as shall be made in the said Town, and to have a seal with the name of the Town engraved on it, & authority to such sealer [p. 346] (if suspect y't was not made in the Town) to adm' an oath to the p'sons that brings Linen to be sealed, that it was bona fide made in said Town.

The Bill for altering the Supe'r Court read a second time.

Then the House adjourn'd to May the 8th curr'

Then his Excell'y adjourned the Assembly to the first day of July next.

Thursday, July 1st, A. Dom. 1731.

Whereas the Genl Assembly of this Province, did on the 7th day of May last past pass a vote & appointed a Committee of the Genl Assembly to meet a Committee to be appointed by the Genl Court of the Mass* in their May Sessions, to meet at Newbury, on the 22nd of June last past, to treat with each other, and try if said Committees could agree upon a Draught of a Bill conformable to his Maj’st Instruction about settling the Boundary Lines as might be agreeable and past upon by the Genl Assemblys of each Province and return to be made with all convenient speed, and that his Excell’y was therein desired to adjourn this Court to this day, in order to pass a Bill upon the Report; and that the Mass* Assembly being sitting at that time might pass an Act also, that then the matter of the Lines might be ended this Fall:

But we find by a letter of the 15th of June from Elisha Cook, Esq. That the Assem. of the Mass* Govern’t did not see fit to appoint any meeting while the Genl Court sate, and by another letter from the said Elisha Cook, of the 21st of June last, he writes, the Committee from that Govern’t will meet the Comitee of N. the Comittee of the Mass* are, or how many, nor have any
copy of the vote of their Assm. been sent, and since this
Assm. must be prorogued to 7th next, and is not likely
[p. 348] that the Mass* Assembly will meet till Xr next,
and therefore no hope nor likely-hood of p'fecting any thing
this yeare about the lines, and this Goverm' think these De-
lays are contrary to the intent of his Maj'ies Instructions:
Therefore, Voted, That this House do not think it fit, or
for the interest of this Province to chuse a Comittee, but
come into some other method, and represent the matter to
the Court of Great Britaine & shew how far this Province
has proceeded, and endevourd a peaceable settlem' of the
said lines, and pray that his Hon' the Leut. Gov'r and Board

had it and then Mr. Speaker & the House return'd.

The Speech was read, viz.

Gen't of the Council & House of Representatives.

You being now, conformable to my Prorogation conven'd in Gen'
Assembly, I hope you will apply yourselves with good unanimity in the
dispatch of the Publick affairs, and so as may most of all tend to his
Majesty's Honor & service, and to the lasting weal of his good subjects
of this Province; and in such your proceedings, you will be always sure
of my hearty concurrence. As I have it in command from his Majesty
to give all possible countenance to virtue and Religion, and also to en-
courage Trade and Commerce among you, I should be glad you would
look back on what I have said to you (and the late Assem.) on those
heads, and after you have carefully reviewed your Laws, I would
cheerfully join with you in doing what may be still needful on these
accounts.

I won't at this time gent again recommend to you the settlement of the
Boundaries between this Province and the Massa in the manner so
wisely directed to by his Majesty's Royal Instruction. I assure you, I
have no other Interest in the matter than to discharge my duty to my
King in a faithful care of his People under my Government; and I am
sorry the House of Representatives (at this Courts meeting in July
last) did not in Fidelity to their Country, fall in with what his Majesty's
Council so prudently voted for reviving the Committee to meet at [p. 350]
Newbury, and, protracting the time from June 22d to August following,
or at least with the time the Massachusetts Assem. had agreed on, viz.
the 18th July. This matter has been once and again laid before his
Majesty, and as yet no final Issue made upon it, That I think it must
plainly appear his Majesty judges it best the affair should be adjusted
between the two Governments themselves; and I should be very glad to
see all sinister views laid aside, and this great and publick good still
pursued to a happy conclusion, and which you will see the Assem. of the
Massa Bay are desirous of by what they past at their last sitting, which
shall be delivered you by the Secretary.

Gen't of the House of Representatives.

I shall order the Commissary of the Treasury to lay their accounts be-
fore you, that you may see the Expense of the Province since our last

already commenced between them increased as long as Dunbar con-
tinued in the country. He was not allowed a seat in the Council. Shadrack Walton, the senior Councillor, in the absence of the Governor, pre sides at the Board. But Dunbar was commander of the Fort at
Great Island; he had authority to grant passes to outward bound ves-
sels, and licenses for marriages. From these several appointments he
received about £50 sterling. As Surveyor General, £200, and the
meeting, for your better judging what further necessary supply must be made for the support of his Majest's Govern't & for the safety & Protection of his People.

Gen't of the Council and House of Representatives.

If you have any thing more than what I have mentioned to suggest for the Publick service, I shall be glad to do every reasonable thing on my part towards it; and since it will soon be a very busy season, I doubt not you will, for your own sakes, as well as to save expence to the Province, give the best dispatch you can to every thing that may come before you.
Sept. 15th 1731.

J. Belcher.

Voted, That Nathaniel Weare and Theo. Atkinson, Esq. be a Committee of this House to draw up an answer to his Excellency's Speech, & present to the House for approbation.

Then the House adjourn'd to Thursday the 16th curr.

[P. 351.] Thursday, Sept. 16th A. D. 1731.

The Answer to his Excellency's Speech bro't in by the Committee was read and voted to be amended.

Post Meridiem

The Answer as amended read again & voted, accepted & sent up which was in the words following, viz.

May it Please your Excellency.

We being now met according to Prorogation, in Gen'l Assem. we assure your Excellency we shall be unanimous in the dispatch of all the Publick affairs that shall properly before us, always showing a just regard to his Majest's Hon' and the best good and Prosperity of his good subjects in this Province, which we imagine can't be Established upon a better Basis than Vertue and Religion, which we shall always countenance and encourage to the utmost of our Power.

As to what your Excellency has moved to us for encouraging Trade And Commerce amongst us, the want of a medium is the greatest hinderance.

As to the settlement of the Boundary Lines of the Govern't, we apprehend we have no other power to transact in that affair than what is given and directed to by his Majest's Instructions, and whenever we depart from that, we exceed the power given us, and of consequence render fruitless and ineffectual all our attempts. Now your Excellency can't be unsensible that we have once and again passed such acts and votes as was directed by said Instruction; and tho' this house did not concur with the vote of Council of the first July last past, we assure your Excellency it was done in great Fidelity to the Country we represent; and we believe to their satisfaction; and tho' we believe it would be pleasing to his Majest's to have the Lines settled between the two Govern'ts, yet we are assured it would be far otherwise if we should derogate from the method he hath so wisely prescribed, and which we
apprehend the Massachusetts hath not followed [p. 352] by their vote
laid before us by the Secretary; and we assure your Excell'y that no
sinister ends hath nor shall not be in view, neither in this nor any other
affaire that shall come before us, which we imagine is far otherwise by
the equivalent &c. mentioned in the above mentioned vote of the Mass'.

As to the supply of the Treasury, when the Accounts are laid be-
fore us, we shall take it into consideration to do the best we can con-
sidering the circumstances of the Province.

Andrew Wiggin, Speaker.

Thursday, October the 7th, A. D. 1731.
The Committee that went to Newbury, to meet the Comittee of the Mass* about the Lines, according to the vote of this Gen'l Assem. September 25th 1781, made their Return and also two draughts to be sent home, one to his Grace the Duke of New Castle, the other to the Right Hon*he the Lords
Commissaries for Trade [p. 360] and Plantations; all which was read in the House as follows, viz.

May it please your Grace—The great difficulty attending the settlement of the Divisional Boundaries between this Province and that of the Mass. Bay lays us under a necessity of troubling your Lordship at this time, to implore your Grace's interest and friendship in making such a representation of this unhappy affair to his Maj's in Council, as may produce an impartial adjustment of a long standing and previous Quarrel as soon as may be consistent with his Maj's Royal Pleasure.

Immediately after his Excellency's the governours was pleased to communicate to us his Maj's Royal Instruction in relation to this affair, We past an act in conformity thereto, appointed commissaries to settle the Lines, &c. which the genl assembly of the Mass. did not see fit to agree with, But passed an act very different from ours, and as we conceive much in prejudice of this Province, which we (therefore) could not agree with: then we proposed a Committee of each governour to meet and try whether (conferring together) they could not agree upon Preliminaries for a Bill to be drawn and enacted by both governours, and Committees were chosen and did meet & try to agree, &c.

But this attempt had no better success than the former essays. For the Mass. Committee were instructed by their genl assembly to insist upon having Property and Jurisdiction as far as their antient grants extended, which, if conceded to would bring the northern Boundary of that Province Eleven miles and three quarters (at least) to the northward of Merrimack, instead of three miles, which is the Boundary fixed by their charter;—by all which your Lordship will plainly discover that the settlement of the Lines here are impracticable. Wherefore we pray it may have a final determination at home.

May it please your Lordship—

[p. 361.] In order to a more full & p'fect understanding of the whole affair, we have presumed to put under cover with this a copy of all that has passed in relation to this matter since the receipt of his Maj's Royal Instruction before mentioned, we humbly request the importance of the subject we write of (with respect to this Province) and the grand inconvenience & difficulty we are struggling with on the account of this unfortunate misunderstanding between the two governours may in some measure appollogize for the great trouble now given your Grace, by, may it please, your Grace's most, &c.

The foregoing is a Draught of a Representation made pursuant to a vote of Genl assembly, 7th 25, 1781. (%)

Post Meridiem.

Pursuant to vote of Genl Assembly made and passed 7th the 25th, 1781, We the subscribers met a Committee of the Mass'd at Newbury, the 30th of said month, to try whether we could agree upon a preliminary Bill for settling the Divisional Lines of this and that Province; but to no purpose. For the Instruction of the Genl Ass'd of that Province had given their Committee were much straitener and more ag't the Interest of New Hampshire, than the act which that Gov'r passed the 10th of February, 1730; which the Genl Ass'd of this Province could by no means agree to. For in the Instruction the Mass'd Committee are directed that provision be made in the Bill, That all such lands or Towns which either Gov'r are in Poss'sion off, or improve'd by virtue of any antient Grants, be reserved to the several Gov'r's, both as to Jurisdiction and Property;—which if agreed to would bring the Dividing Line (according [p. 362] to our understanding) at least Eleven Miles & 1/2 to the northward of Merrymack, instead of three miles, which we utterly refused to comply with, especially, as to Jurisdiction; insisting that the line which the Commiss's should fix, should be but three miles to the northward of Merrimack River, according to the intent of their charter, for their Boundary, as to the Jurisdiction, whatever we might consent to in respect of Property. Then those Genl told us they could not act any further as a Committee, for as they had particular directions, they were obliged to conform to 'em.

However they proposed that as they and we were members of the Genl Assemblies of the two Provinces (Laying the matter of Jurisdiction aside) to try whether we could agree with respect to Property and Equivalents; upon which we offered to their consideration the giving and receiving Equivalents for all such lands as had been improved within fence twelve years, by planting, sowing or mowing. Provided such Land had been granted by the Town in which it lay, and the Grant & Return of Laying out fairly entered in the Town Book ten years: who in reply thereto told us they could not think we had offered any way reasonable;—which concluded our conference.

In the House of Representatives, Read and accepted & sent up.

Whereas this Gov'r hath for many years past done their utmost endeavour to settle the Boundary Lines between this Gov'r and that of Mass'd, and have passed such votes and acts as we conceive will (by every impartial person) be tho't & acknowledged very reasonable on the part of this Gov'r, which as yet hath not had the desired effect: Having lately been defeated in our Endeavours at Newbury, as doth appeare by the Returne of the Comittee sent there by this Gov'r, to meet a Comittee of the Mass'd Gov'r, and upon that, this Gov'r made an humble Representation to his Grace the Duke [p. 363] of New Castle and the Right Hon'd's the Lords Comiss's for Trade and Plantations:
And this Govern'r haveing at present no agent in Great Britaine to forward that affaire, and Capt. John Rindge (1) being about to go to Great Britaine, and several private persons (as Friends of this Govern'r) having offered to supply with money for defraying the charges.

John Rindge Agent for this Govern'r as far as this House could impower him, was sent up to the Council for concurrence and approbation, and this House having not heard whether the Council will joyne in that affaire with this House or not, and that the matter might not fall to the ground, Voted, that the said John Rindge be impowered by this House as their Agent, and be invested with the powers in said vote mentioned, and for the ends therein mentioned.

We your Majestys most Dutifull and Loyall subjects, the members of your Majr Councill, Judges, Justices of the Peace, Sheriffs, under Sheriffs, Coroner, Collector & Naval officers and sundry others, Chief officers of the Militia & Principal Inhabitants & Freeholders of your Majesty's Province of New Hamp's, in New England, In America, whose names are hereunto subscribed, Crave leave to Implore your Majesty's paternal reguard to this Province in the following Humble Address.
Most Gracious Majesty.

It is now about a year since your Majesty's Royal Commission appointing his Excellency Jonathan Belcher, Esq. to Represent your Majesty's Royal Person at the Head of this Government, was opened & published amongst us to our universal Joy and Satisfaction, not long after which the Council & Representatives of the Said Province, Convened in General Assembly, most humbly addressed your Majesty (1) (as in duty bound) on that very occasion, Expressing (with great Truth) the utmost gratitude of this people for such a Royal Benignity & Earnestly Supplicating the continuance of your Majesty's grace & favour in Continuing a person so well accomplished for a Governor & so acceptable to the people to Rule over us: Notwithstanding which some Rootless Persons, for about three weeks past have been Endeavouring to Disquiet the minds of the weaker sort amongst us, In order to memorial the Governor to the Right Honourable the Lords of Trade & Plantations, as a person not a friend to the Province, & to pray that New Hamp may be no longer under the Government of the Massachusetts Bay, which Essay, may it please your Majesty gives birth to the present address.—For in Duty to our Sovereign, in Honour to our Governor, In faithfulness to the Province & in Justice to ourselves, we cannot be Dumb on such an occasion; but most humbly crave leave to bear Testimony against an attempt (the' never so unlikely to succeed) which tends to sap the very foundation of our Happiness.

May it Please your Majesty, Your Majesty's Councill can witness the Governors solicitous concern for the settlement of the Divisional Lines between the Two Provinces & his unwearied Endeavours to accomplish it with the strictest Impartiality, what is what we earnestly supplicate may have as speedy an Issue as is consistant with your Majesty's Royal Pleasure; for the longer that Difference lies open the greater are the mischiefs which attend it.

But to return to his Excellency, What is it that we can't all say (without a compliment) Even the little number of Discontented themselves, in praise of a Governor whose administration is so wise, so just, so equal & to such universal acceptance, & who will without any question make such unbiased remonstrances to your Majesty upon this unfortunate misunderstanding as may be a means at last to bring it to a happy issue.

May it please your Majesty, This your Majesty's Province is so small, the people so few, and in general so poor, that it makes the settlement of the lines still more necessary & is no bad argument to Enforce our humble request for being continued under the Government of the Mass Bay, & especially him who is at Present, & we humbly hope will long continue in that Station; for we have done our utmost already even to our almost undoing in fixing so large a sum for the Governors Salary, pursuant to your Majesty's Instruction, & if more should be required to support the Dignity of a Resident Governor, we can foresee nothing but Inevitable ruin, & besides if we should again be visited with a French or Indian War, or Both, (as at this Juncture we are threatened) Then yet more Deplorable would our condition be, for now we can ask succours (as occasion may require) from the common father of both Provinces with hopes of success, but how it may be upon a different

(1) See Page 684 of this Volume. Ed.
footing God alone knows. Numberless argument we humbly conceive might be used to induce your Majesty's favour in continuing us under our Present Governor, but your Majesty's consummate Wisdom as well as Goodness makes them unnecessary, & as we know what has been offered (by any who are the Troublers of our Israel) by way of Impeachment of his Excellency's conduct, can't fail of redounding to his Honour (Even without a reply) so we shall attempt no particular answer, but leave that to himself, if he shall think it worth his while.

In conclusion, We pray your Majesty may have a long & Glorious reign upon earth, & when the period of mortal Life expires, that your Majesty may be Translated to the mansions of bliss & there reign with the King eternal for ever and ever.

In humble obseusement we now withdraw from your Majesty's Presence & are with the profoundest veneration.

May it please your Majesty,
Your Majesty's
Most Loyal,
Most Dutiful,
Most Obedient,
And faithful
Subjects & Servants.

Gent of the Council,
and House of Representatives,

This being the usual season for your Spring Sessions, I am come to attend his Majesty's service, and to concur with you in every thing that may have the best tendance thereto, and to the lasting Weal and happiness of this Province, and I shall be glad you may be met at this time to pursue those good ends with chearfulness and unanimity, and that there may be no struggles or contentions among you, but who shall most of all approve his duty to the King, and his Love to his Country; and for my own part I can assure you I have no other views or interest to seek among you.
If you have any thing further to offer on the old affairs of the Lines between this and the neighboring Province, I shall be ready to fall in with any reasonable measures for the peace and advantage of this Province.

Since I last met you, I have received his Majesty's Royal Instruction respecting Negroes and Felons, that may be imported into this Province,—a copy whereof shall be delivered you by the Secretary, and to which we must conform ourselves for the future.

Gentlemen of the House of Representatives,

By the small account which the Commissary of the Treasury will lay before you, you will see there is no money in the Treasury, and I doubt not you will think it inconsistent with the safety and Hon' of his Majesty Governor, or the Peace and Welfare of his subjects, for the Treasury to remain empty, and that you will therefore in duty to the King, and in a just regard to this People, make the necessary supply to the Treasury as early as may be this Sessions.

Gent of the Council & House of Represent
[p. 366.] A close application to the Business of the Sessions will prevent all unnecessary expense to the Province, and soon give you the opportunity of returning to your private affairs, in the Prosperity whereof, as well as those of the Publick, I shall always have pleasure and satisfaction.

Wednesday May the 10th A. D. 1732.

The Comittee bro’t in an Answer to his Excell’* Speech, which was read & voted, accepted and sent up in the words following, viz.

May it please your Excellency

We beg leave to assure your Excellency, that we are now met to attend his Majesty’s service in this Sessions and to do every thing that may tend to his Majesty’s service and the Prosperity of his good subjects within this Province whom we represent; and this we shall do with cheerfulness, and hope with unanimity, having no sinister ends or double views, and hope there will be no struggles nor contentions.

As to the affaire of the Lines, we apprehend this Govern[tr] has done every reasonable thing to accomodate that matter in a Peace between the two Govern[tr], and in order to do this have exceeded his Majesty’s Instruction to your Excellency in that affair; tho’ this House thinks it absolutely necessary that something should be speedily done in compassion to the Poor People that inhabit near the controversy; for sundry suits have been commenced ag[ai]n the People of Londonderry and Kings-town, and the people carried into the county of Essex in the Mass[ter] Govern[tr] to be tried for Trespass comitted at least twelve miles North from Merrimack, and this at their last Court at Ipswitch; and those suits upon the controverted lands have already cost one of those Towns, by a moderate Computation, at least Eight hundred pounds: Wherefore we humbly pray that your Excellency would put a stop to these proceedings until the Lines shall be settled at home, which we hope will not be long, seeing it could not be accomodated here; and to this end, this House did empower Capt. John Ringde to represent that affaire to his Majesty in Council and [p. 368] humbly pray his decision.

We have considered his Majesty’s Instruction relating to an Impost on Negroes & Felons, to which this House answers, that there never was any Duties laid on either, by this Govern[tr], and so few bro’t in that it would not be worth the Publick notice, so as to make an act concerning them.

As to the supply of the Treasury, when the Treasurers shall lay before us their accounts and estimates, we shall do every thing that shall
be consonant with our Duty to the King, still shewing a just regard to ye Liberty & Safety of the People whome we represent; and if any such way can be found to supply the Treasury, this House will readily grant it. But our circumstances are so that if there should be an additional tax upon the Poles and Estates of the Inhabitants of this Prov: it would have a great tendency to fill the Publick Goals than supply the Treasury. This plainly appears by the several Constables of this Govern't being indebted to the Treasury, and those Collectors too, no doubt have been necessitated to use money (collected for other uses) to pay the Province Tax. These circumstances of the Province being duly weighted & considered, we doubt not your Excell'y will be of opinion some other Method must be found out for supplying the Treasury.

And, may it please your Excell'y, we hope we shall give the necessary dispatch to the Busyness of Sessions that the season of the year requires.

[p. 372.] Tuesday May 16, A. D. 1732.
A vote bro’t down pr Mr. Secretary, viz.

In Council May 15\textsuperscript{th} 1732.
Whereas there is a vote . . . was passed by the House of Representatives on Saturday last which was concurr’d with the same day in Council and has since been assented to by his Excell\textsuperscript{t} the Governour for putting the Bonds for £1730 into the Treasurer’s hands and requiring the Treasurer forthwith to receive the Interest due on them and afterwards to demand and receive the Principle sums, to be bro’t into the Assm. and Burnt next fall,—and whereas the authority given the Treasurer by the said vote is only to demand and receive, which the Council conceive is insufficient to answer the maine end intended by said vote.

Therefore, Voted, that the Treasurer or Treasurers for the time being, after demand made of Principall & Interest due upon the said Bonds, do forthwith put the same in suite in a Course of Law ag\textsuperscript{t} such obliger or obligers, as shall neglect or refuse paym\textsuperscript{t}; such suit or suits to be commenced at the next Inferiour Court in June next.

In the House of Representatives, the last vote of Council was read & non concurr’d and voted that the House adhere to their vote of the 12\textsuperscript{th} curr\textsuperscript{t}.

Whereas by the Estimate made the 12\textsuperscript{th} curr\textsuperscript{t} it appears there will be above £1000 to be bro’t into the Treasury and not above £600 to be drawn out.

Therefore Resolved, the said sum of £1070 : 7 : 4, be for the supply of the Treasury & for payment of the charge of the Govern\textsuperscript{t} as allowed by Gen\textsuperscript{n} Assembly.

A Mess* from his Excellency pr Mr. Secretary, viz. That his Excell° required the attendance of the Speaker and the House in the Council Chamber. Mr. Speaker and the House went up accordingly.

His Excell° made a Speech. Mr. Speaker obtained a Copy as followeth, viz.

Gentlemen of the House of Representatives.

I have consented to every thing that has been passed by his Maj° Council and your House, and I am sorry the great Business of the Sessions (the supply of the Treasury) remains undone, notwithstanding I have so early and so often recomended it to your especial care, as a matter more immediately belonging to your House, and I have been patiently waiting many days in hopes of your coming to a proper sense of your duty to the King & to a tender regard of the good people of this Province, in this Article; yet after all, I find you are resolved to make no supply of the Treasury, that can be agreed to by his Majesty's Council or by me, which is to say you will make none, and this you persist in under a pretence of the difficulty that the supply of the Treasury in the usual manner might bring on the Inhabitants. But how spurious and vaine is such an amus'me when a Tax of £1000 for the present yeare would be sufficient, and in time of War it has been common for the Province to pay a Tax of 2 or 3000£ a yeare without any complaint, altho' the Inhabitants were then far less in number, and their lands not cultivated or improv'd to any degree as they now are. I find, therefore Gen° that the Assurance you gave me at the Beginning of this Sessions of your doing every thing that might tend to his Maj'ties service and the Prosperity of his subjects, were only words of course, and on which there was to be no dependence.

By the Treasurers accounts and the estimate laide before you, you are sensible of the Debts already due from the Province, and what may be the growing charge of the curr° yeare; and you must also know your refusing to make the necessary Provision for discharging them, is in open violation of your own laws & doing publick Injustice to all those to whom you are indebted, and it is exposing the King's Gover'n° and his People to the utmost hazard & confusion, for neither of them can be in safety and Peace without the usual and necessary supply of money.

Gentlemen.

Since what I have said do's not proceed from any p'sonnal views, or from a regard to my own Salary, which is provided for, for some time to come, by the Laws you have made; But from a pure aim at the safety of the King's Gover'n°, and at the good and welfare of the People, I have no doubt of its haveing due weight with all those who
would approve themselves true lovers of their country, by always conforming themselves to the dictates of Reason and Justice.

May 18th 1732. J. Belcher.

Then Mr. Secretary, by his Excellency's Order Declared the Assembly DI'SOLVED.

Governor's Order about £15,000 loan.

Gentlemen.

The time being expired for the payment of the fifteen thousand pounds loan, and not half of the sum being yet paid to the General Assembly to be burnt, tho' it was provided in the Act pass'd the fifteenth of May, 1729, That the then outstanding debt should be paid, one third at or before the 25th of July, 1729, another third at or before the 25th April, 1730, and the last third at or before the 25 April 1731, and that those who did not make the first of those payments should have no benefit of the said Act, but Extents should go against the land of such delinquent, yet so it is, That many persons made default in complying with the said first payment, yet no Extents have been made upon the mortgaged lands of such Delinquent, according to said Law; and since the term limited in the said Act expired, another year has passed away, and the money not yet paid in by one half; It is therefore my express order and direction, that you do forthwith, laying aside all excuse, and without any delay, render me an exact account of the state of that loan from your last account, and that you strictly pursue the rules and directions of the law in making sale of the mortgaged lands, so that the outstanding bills of that loan may be, with all possible dispatch, consumed to ashes, according to the tenour of the Law: his Majesty having been pleased to command me to see the same effectually done, according to the periods & provisions of the sd Acts.

Dated at ———— the ———— day of ———— & in the fifth year of his Majesty's reign.

Sent May 26th 1732.

A remark or two on the Representation of the Right Honourable the Lords for Trade and Plantations.
[From MS. Corr. in Secretary's office, vol. I, pp. 75-78.]

That the Governour gave orders to the Captain of the Fort not to suffer Col. Dunbar to enter there as Lt. Governour, is not rightly represented: The order intending no more than that the said Dunbar should not enter as Comander-in-Chief, to take the comand of that Garrison, in open contempt & defiance of the Governour's Comission; and well might the Governour give such an order, who had often heard that the said Dunbar had sworn he would have the Fort, tho' he scorn'd to ask or even to take a Commission from his Excellency for it; which (not onely indecency, but) aggravated insolence of the said Dunbar, necessitated the Governour to issue such an order, in a faithfull dis-
charge of the trust reposed in him, and in vindication of his own honour, which the said Dunbar had treated with so much disregard and igno-
miny, not only in the instance above mentioned, but likewise, when he swore he scorn'd to accept a Comission from the Governour, he sp't in
contempt of it, as tho' he would spit upon it if offered him: such insol-
ence & such arrogancy must surely be deem'd a sufficient inducement
to the Governour to exert his authority; for what could be more pro-
voking than for an Inferior officer to presume to vie powers with his
Captain General, as he always did, being ever upon the defiance, til
he was advised by an Express, that the Governour was upon the road
bound to New Hampshire; but then (being conscious of what he de-
served) to the great surprise of his few friends, he made a sudden
flight to Pemaquid, getting out of the Province by a hard shift against
wind & tide the evening before his Excellencys arrival at Portsmo',
chasing rather to expose himself to the hazard of ye mercyless waves,
in a dark and lowering night, in a little stinking fishing boat too, than
to the resentment of his Governour, whom he knew he had abused and
affronted, and from whom he desired chastisement; Can any thing
upon earth be a fuller proof of his own consciousness of his ill-deserv-
ings from his Excellency's hands than such a sudden & mean Escape?
and if so, there can be no greater argument to justify the order from
his Excellency to the Captain of the Castle, if such order needs a
Justification: Moreover, the said Col. Dunbar, in further violation of
his duty, was an open abetor to Mr. Atkinson in withstanding the
Governour's authority in the appoint'mt of Rich'd Wibird, Esq. Collect-
for the N. Hampshire District: The said Atkinson refusing to deliver
the Custom House Seal, and the said Dunbar justifying him in it, altho' his Excellency had given an express order for the same; and
besides, when Capt. Wibird waited on the 5th Col. Dunbar (as Lt. Gov'r)
by the Governour's order, to be sworn into the office of Collector, the
said Dunbar swore he would not administer the oath to him; so that
his Excellency was obliged to send a Deditimus to two Gentlemen of
the Council, to swear him and any other officers as occasions might
afterwards require: And again, after Mr. Wibird was appointed Col-
lector, the Governour ordered the Lt. Gov'r not to grant any Passes to
the Fort for any vessels without a clause in such Passes signifying that
such vessels were duly clear'd by Rich'd Wibird, Esq. Collect'r, which
he absolutely refused to obey, and instead thereof (endeavouring to
render null and void the Governour's authority & the Comission to the
said Wibird, as far as in him lay) he commanded some' of the officers
of the Governent to aid Mr. Atkinson as Collector, tho' the said At-
kinson had nothing to make him so, but a dead deputation from Mr.
Bacon, who departed this life some months before; and the said Dun-
bar well knowing at ye' same time, that the Governour had Comission-
ated Capt. Wibird for that office, & that he had taken the oaths accord-
ingly. What a high handed breach of duty & opposition was this?
and what an instance of base ingratitude too, after his Excellency had
wrote to the President & Council to receive him (when he came from
Pomaquid) with all possible respect, & to publish his Comission with
the usual marks of honour in such cases, and which he well knew both
from the President's letter and lips: This was some of the conduct of
that Gentleman that was such matter of speculation & wonderment ye'
last summer, in this part of the world: Tho' really the greatest wonder
of all, was at ye patience & forbearance of the Governour (under such prodigious provocations) that his Excellency did not immediately send him home to answer for his misdeeds before his Superiors there, or at least confine him til his Majestye's pleasure should be known; and to prevent the mischief which (it was generally tho't) he would have done, if he could have made any considerable party: But, heaven be praised,—his number was but small, being but about a doz'n or fifteen persons at most, who consisted onely of disbanded officers and their relatives and dependants, a decayed Gentleman or two, a book-keeper, an Irish rover, and Pedlar of the same country.

As to the Lt. Govr's Exercising the ordinary powers of Government when the Govr is at Boston. It is an ancient adage, "That what has been may be," and what has lately been (of what pernicious tendency) may be seen in the foregoing specimen of Mr. Dunbar's management in the last summer;—pretty much of the same kind & stamp with the administration of a Lt. Governour of the same Province in the year 1717, (1) who undertook to suspend a Councill, (2) to dissolve the Assembly, & Issue Public Instrum't in his own name, which Governor Shute, then in the Mass' being advised of by a courier, sent for that purpose, was obliged to ride post to that Province to still the disorder occasioned by the then Lt: Govr's misconduct there; and in order to it the first step his Excellency took, was to suspend the said Lt. Govr (as a Councill) which was done by unanimous advice of a full Council; & immediately there-upon (by ye like advice) he issued Proclamation throughout the Province, declaring how far the Lt. Govr's power extended, which was limited to such orders and Instructions as he should receive from his Majesty or the Capt. Genl. Then the Govr made an order in Council to the Clerk not to deliver nor make use of the Prov. Seal but by his special order; and finally, represented home the behaviour of that Gentleman, who was immediately thereupon dismissed from ye Lt'enancy; & ye suspension of him as a Councill was highly approved, and he never appeared more at the Coun. Board to his dying day. Now, however great the Inconveniencys have already been, either in the year 1717 or last summer, yet much greater may they be, & doubtless will, if the present Lt. Govr should be countenanced from home in jarring with the Governour and counter-governing ye Province; for if it sh'd be so, whatever the Govr may do in ye m't or six weeks in a year, that he is there, the Lt. Govr may undo as soon as his back is turn'd; and by the same rule and reason, when the Lt. Govr shall be gone to Pemaquid or elsewhere, the President of the Council may Act his part as Chief; and if he too should happen to step out of ye Province, then the next eldest Councill might also Execute another scheme of Politicks, and so on:—which would involve ye poor people in a labyrinth insufferable of Difficulty; for what can be ye consequence of a competition or rivalship for power but a train of evils, jars, discords & animosities, breaking the community into parties & pelouses & keeping them in a perpetual clash! What can be expected in such a case but almost daily enacting & abrogating the same Laws, frequent Elections & dissolution of Assemblies, & as frequent suspending Councils & calling others in their room; the often granting Commissions to Judges & Justices, & as often superseding them, whereby ye course of Justice must be unavoidably impeded; and be-

sides there will be a continual change of military officers, which will leave ye Militia untrained & undisciplied, and by consequence, entirely unfit for service, which will be ten thousand times worse than anarchy itself. And besides, the vesting ye Governr in ye Lt. Governr would be inverting the very nature & order of the thing contrary to the usage in such cases, as well as ye plane intent & express words of both the Governr & Lt. Governr Commissions; and moreover, it would be making a mere nominal officer of the Governour, & his Comission a blank, or at best it would be depriving him of 11–12ths of the authority which his Majr has been graciously pleased to bestow upon him.

P. S. Upon a 2d thot—May not ye Lt. Governr attempt to get ye Fort into his hands be improved as thot he designed thereby to support Atkinson as Collr by stopping ye vessels ye did not... with him.

Again: ye Testimony of Wentworth and Atkinson was not duly & properly authenticated, Col. Waldron not being notified.

Again: Those Deponents were evidently partial & bias as fully appears by Atkinson’s conduct as Collr & the Testimony taken last week agst Wentworth.

Again: ‘Tis sd the Clerk of ye peace was present, (an indifferent man) why was he not sworn as well as ye two party men?

PROBORGED ACCORDINGLY.

May it please your Excellency,

Sir—I being this day in Conversation with Mr. Sec'y Waldron, he intimated to me that your Excellency was much incensed against me for managing as I did with my Mandamus. Within a week after it came to hand (which was under cover of a letter from Capt. Tomlinson of London to my son Josh.) I presented it to Mr. President Walton in the Council Chamber, and neither he, nor any of the Gentlemen that were present, mentioned a word of my forwarding it to your Excellency; and I beg leave to assure your Excellency, that neither in this affair or any other since your administration in the Government of N. Hamp' have I acted any thing with design to give your Excellency any umbrage, and what has been amiss of any kind whatsoever, it was want of better information, and most humbly pray, that your Excellency will be so good as to pardon a sin of Ignorance, in your most obe'st humble serv't.

Gov. Belcher's Answer.

Sir—I have yours of the 11, present, & observe what you say in excuse for so long detaining the Kings royal order to me for admitting you to be one of his Majesty's Council for New Hamp'.

Capt. King who bro't it arrived here Monday the 18th Dec' and you received it the Wednesday following, and presented it to the President the 28th of the same month: How came you to conceal it so long? and since it was in the first place directed to me? (whom his Majesty is pleased to say is not absent from New Hampshire, when in the Massachusetts.) Why did you not by return of the Post transmit it to me that I might have given my order thereupon? However Sir, since
you seem to plead ignorance, and that you had no design to give me any umbrage, I have return'd the Mandamus to the Secretary, and have ordered the President to call a Council, and to have you sworn & admitted in obedience to his Majesty's royal orders, and that the Secretary record the Mandamus and return me the original, and that a copy of your letter and my answer on this head be put upon the files of the Secretary's office.

I give you joy, Sir, of the honour the King has done you, & I hope you will do his Majesty good service & honour in the station he has set you.

I am, Sir,

Yr Servt. J. Belcher.

The answer to his Excell' Speech read & accepted, and voted to be sent up and is as followeth, viz.

[p. 380.] May it Please your Excell.'

The Reason your Excell. has given for not meeting the Gen'l Assembly of this Province sooner, this House has given its full weight and consideration, and we beg leave to assure your Excell'y that we are met entirely disposed to serve the interest of this Province, and to do every thing that a Gracious King can expect from Dutyfull and Loyal subjects.

His Maj's Royal Instruction forbidding the imposing Duties on British shipping and Manufactures has, by your Excell'y Command, been delivered the Speaker, who has communicated the same to the House, and as former Assemblies have not been wanting in their Duty in paying a just regard to the King's Instructions, so it is to be the less doubted from this Assembly on such an occasion.

The Treasurer's accounts also lay before the House, and it is our greatest concern how, and by what means we shall supply the Treasury, which your Excell. has observed to us has been so long empty, that so the just Debts of the Province may be discharged, and in such a manner that we may approve ourselves faithful to the People we Represent, and in such a way as to be under no necessity of Loading the Inhabitants with heavier taxes than they are able to pay. We beg leave to repeat our assurances to your Excell'y that this Assembly is met, heartily disposed to promote the good of the Province as far as it shall be in our power; and if a diligent attention on and constant application to Publick affairs, a good harmony with your Excell'y and the Hon'ble Board, which your Excell'y has given us reason to hope for, will effect it, we shall pursue those ends whereby this Sessions will be rendered short and consequently attended with less charge—the only way to promote the Public weal under our present distressing circumstances for want of a proper medium.

The vote of the House on Nottingham Petition bro't down non-concurr'd and another vote of the Council thereon read and concurr'd and sent up.

Whereas upon the several successive years between this yeare and the yeare 1742, there is a Tax by several Acts laid upon the Poles and Estates of the Inhabitants of this Province which is when bro't into the Treasury to be burnt in order to sink the several pounds mentioned in the said acts which said sums on the said several years the People of this Province will scarcely be able to pay, & in as much as the aforesaid sumes [p. 383] were Emitted for & Expended in the service of this Province in defending the Lives and Estates of his Maj'ty's subjects in a Long & tedious war with the Indian Enemy, in repairing his Maj'ty's fortifications and for maintaining & supporting our armies & soldiers that we sent into the County of York & other places in quest of the said Ennemy, by which means the Province is now in debt by the aforesaid acts that it will be utterly impossible for the Inhabitants to pay by a tax the money that is by the said acts to be Bro't in and burnt, and at the same time to support and maintaine the charge of the government by an addition-
al Tax the scarcity of money being so very great and the People of this Province being so much reduced for want of a proper medium.

Wherefore, Voted, that there be the sum of £20,000 in paper money forthwith struck & and put into the hands of a Committee to be appointed by the gen"l assembly to be Lette out at 5 pr ct Interest for & during the Term of sixteen years to any p'son that shall give such security as shall be agreed upon by the gen"l assembly & that the Interest that shall be come due and paid be put into the Treasury in such sums and for paying such allowances as shall be made and agreed upon from time to time by the gen"l assembly; and for a fund and security for repaying the same.

Voted that the Borrowers be obliged by their security aforesaid to repay the same at £25 pr ct pr annum on each successive yeare after the expiration of the above mentioned sixteen years untill the Principle be paid in and that without any Interest as above said for the foure years last mentioned, and in as much as it will be some time before any Interest will become due on the said money & the Treasury not having a sufficiency to defray the allowances of the curr^t yeare, for the supplying of which,

Voted, that there be the sum of one thousand pounds made [p. 384] and put into the Treasury for the Ends above said, and for a fund for the Repaying the same, voted that a tax be laid on the Poles and Estates of the Inhabitants of this Goverment as follows, viz. one hundred pounds on the yeare 1733, £100 on the yeare 1734, £100 on the yeare 1735, and so on each successive yeare till the yeare 1742, and that the acts be drawn up accordingly. Sent up.

Eodm Die. In Council Read & non concurr'd unanimously.

Voted, That the Interest money now due on the Bonds for £1730, be forthwith bro't into the Treasury for defraying the Public charges and that ye several p'sons bring in their said sums to the Speaker of the assembly for the time being or that the several p'sons renew their Bonds at six pr ct. and that the Interest be paid into the Treasury next April for the ends aforesaid, and that if any p'son refuse forthwith to pay his Interest due or renew his Bonds at six pr ct. and pay his Interest now due such p'sons Bond be immediately put in suite by the Speaker for the time being. Sent up for concurrence.

The House adjourn'd to the 7^th curr^t.
Wednesday March the 7th A. D. 1732-3.

May it Please your Excellency.

This house having received many and great complaints of the extreme difficulties and hardships his Majestie Subjects in this Province Labour under by the Incroachments of our neighbours the Inhabitants of the Massachusets which are dayly made on the Land of the Inhabitants of this his Majesties Province, Particularly in the Towns of Bow, Londonderry & Kingstown.

Some of which Towns have greatly suffered by having their Inhabitants carried into the County of Essex in the Province of the Massachusets, and there tried and condemned in great cost, even to the Impoverishing the said Towns; some of which Towns, particularly the Town of Bow, who erected a House for defence in case of a Warr and for the Publick worship of God, was burnt & destroyed, which greatly retards the settlement of the said Town, and [p. 385] if not prevented will render it impracticable to settle the same according to the intent and meaning of their Charter: Weresfore this House begs leave to address your Excellency in behaff of those Poore distressed People, and pray that your Excellency would be pleased to recommend to the General Assembly of your other Governiour that they put a stop to all such proceedings until his Majesties shall graciously be pleased to order the settlement of the Boundary lines, and to assure your Excellency that this House will readily Joyn with your Excell. & the Honble the Council in passing any vote that shall be tho' necessary on the part of this Province to effect the Ends aforesaid.

Read and Voted to be sent up.

Whereas this House did on the 6th of this inst. Majestie pass a vote for the Emitting the sum of £20,000 to be let out at 5 per cent Interest for 16 years to any person that should give such security as should be agreed upon by the General Assembly, which said Interest was to be put into the Treasury in such sums and for paying such allowances as should be made & agreed upon from time to time by the General Assembly, and for a fund and security for repaying the same, it was Voted that the Borrowers be obliged by their security to repay the same at 25 pr Ct: for 4 years next succeeding the 16 years in said vote mentioned; and also in the said vote there was provision made for an immediate supply of the Treasury by voting the sum of £1000 to be made and put into the Treasury, & for a fund for the repaying the same. It was Voted that the same should be bro't in by an additional Tax of a £100 on each year till the same should be repaid in order to be burnt: Which said vote was on the same day non concurr'd unanimously by the Council—And the House apprehending the reason why the Council did not concur with the aforesaid vote, was because the money proposed to be made was to run & stand out for too long a time.
Wherefore Voted, That the above said sum of £20,000 be made and let out as mentioned in the said vote, and to run upon Interest [p. 386] for eight years instead of 16 years, and the Principle be paid in the two successive years, each year one moiety without Interest, instead of the 4 years mentioned in the said vote, and that the sume of £1000 be made for the supply of the Treasury as by the said vote above mentioned was intended, and that the said sum of £20,000 or any part thereof be redeemable by silver money at such a Rate as shall be agreed upon by the General Assembly, and that an Act be drawn up accordingly. Sent up for concurrence.

Post Meridiem.

A Petition of Richard Perry a sooldier at his Maj’st Fort Wm & Mary for himself & in behalfe of the other sooldiers belonging to the said Fort praying their pay may be made them, as usual halfe yearly, was Read.

And Voted thereon, That the Prayer of the Petition be granted & that the sooldiers be paid out of the money in Mr. Atkinson’s hands which by the vote of this House is ordered into the Treasury.

Then the House adjourn’d to the 8th curri

---

Thursday March 8th A. D. 1782-3.

Whereas there is money due to the Province from Theodore Atkinson, Esq. which he received as sherrif of this Province, which he informs this House he is ready to pay as soon as the same shall be settled, and this house having made choice of a Comittee to joyn with a Comittee of the Hon’ble the Council as well as for the settling the said Atkinson’s account as all others which lay before the Genl Assembly—Which as said vote was non concurred by the Council.

Wherefore Voted, That the Council be desired to reconsider the said vote for auditing the said Accounts; and whereas this House have granted the Praying of the Petition sign’d by the Souldiers of the Fort praying for theire Wages, which is by said Grant to be paid out of the said money in Mr. Atkinson’s hands,—Wherefore Voted, That the Ballance that shall becom due to the Province from the said Atkinson’s be put into the Treasury and be applied to
the [p. 387] paying the said souldiers, and that his Excell
be desired to give his warrant accordingly.

The above vote on the Petition & this sent up for con-
currence.

Eod\textsuperscript{m} Die. The above vote Read and nonconcurred, and the
Petition returned with a vote of Council thereon: viz. In
Council Mar. 8\textsuperscript{th} 1782-3—Voted, That when there is a suffi-
cient supply of the Treasury to discharge the debts of the
Province, the Petitioners within mentioned be paid off in
Course.

In Council March 8\textsuperscript{th}, 1782-3.

In answer to the vote of the Hon\textsuperscript{m} House of this day
desiring the board to reconsider their vote for a Committee
to audit the Publick accounts and Mr. Atkinson’s, the Coun-
cil say, That they have made the fullest and most pertinent
vote already that they are capable of making relating to an
audit:—which says, The Auditors shall pass upon the
Treasurers and all other accounts that are proper to the
Cognizance of the General Assembly, and what more they
can properly say in that regard they know not. As to Mr.
Atkinson’s Accounts the Council know of none at present
that are Cognizable to the Gen\textsuperscript{t} Assembly, for that the ac-
counts of Huse’s money he has given under his hand already,
by which the Ball\textsuperscript{t} due from him to the Treasury is £292;
and as to the estate of John Ambler which the said Atkin-
son took in Execution as sheriff, It was a Forfeiture to his
Maj\textsuperscript{t}e by a Judgm\textsuperscript{t} of one of the King’s Courts, which the
Hon\textsuperscript{m} House ought to know they have nothing to do with;
and as to any other Acct. of the said Mr. Atkinson’s, when
he layes it before the Council they will quickly committ it
to the Auditors if the House see meet to appoint any, and
it appears to the Council that tis proper for the Examina-

Pass’d unanimously.

In Council, Mar. the 8\textsuperscript{th} 1782-3

Whereas the vote of the Hon\textsuperscript{m} House of the 6\textsuperscript{th} inst. for
the Speakers taking the Bonds for the £1780 into his hands
and proceeding thereon according to the Tennour of the
said vote [p. 388] is not (in the Councils opinion) projected
for the best interest of the Province; because, in the first
place, it will charge the Province with double Comiss\textsuperscript{m} for
the said vote says the Speaker gather the Interest and then
pay into the Treasury, so that the Speaker and Treasurer
must both be paid; whereas if the collection was made by
the Treasurer it would be done with half the charge:—
In the next place, the Treasurer is under Bonds not to mis-
use or misapply the Publick moneys; therefore the Coun-
cel cannot but be of opinion he is the most proper p'son to
do that business; vast inconvenience having been already
experienced by Publick moneys having been scattered about
the Province in Private hands: Again, the Treasurer is not
only the proper officer in such a case, but is most conveni-
ently situated for doing the business—all or most of the
Debtors living in the Same Town with him: And Lastly,
Suppose the Speaker had commenced Suits on all the Bonds,
which would be attended with a vast charge, and the Gov'
should think proper to dissolve the Assess. the Process's
would be discontinued and the charge lost of course.

Therefore upon the whole, Voted, That Mr. Treasurer
Sherburne who now has the ș Bonds by virtue of the order
of the Gen' Assm. made the last sessions, forthwith demand
the Interest due upon the said Bonds, and that he take new
Bonds of those of the Borrowers that desire it, for one year
more at 6 pr ct. and that he Prosecute in Law those that
refuse to pay their Interest and renew their Bonds as above
said, at next June Court without faile. Sent down.

The following vote bro't down (with the above) viz. In
Council March the 8th 1732–3. Voted that the Hon'ble Joshua
Fierce Esq. be Recorder of Deeds for this Province for the
term of six months and to the end of the next Sessions of
Gen' Assm. after the six months is ended and that the
Recorders fee for the future be five shillings instead of half
a Crown. Sent down.

Eod'm Die. In the House Read and non concurred unan-
imously.

Post Meridiem.

The following vote of Council Bro't down, viz.

In Council Mar. 8th 1882–3. Whereas the Hon'ble House
of Representatives did on the sixth current send up a vote
to this Board of that date for the emition of £20,000 upon
Loan & £1000 for the supply of the Treasury under cer-
taine limitations and Promises, &c. which the Council non-
concurred unanimously and sent back to this House, and
whereas the House did yesterday think proper to send up
another vote of the same tendency but something different
as to the Restrictions in which they say the House apprehended the reason why the Council did not concur with their first vote was because the money proposed to be made was to run and stand out for too long a time, which the Council think proper now to tell them is a mistake. In order to prevent any further fruitless essays of the like sort, for the length of time was a good reason for the Council's non agreevt, yet it was not the only one there being several other material objections to that scheme which are needless to mention. The Council thinking it sufficient to say once for all that the Emission of £20,000 or any other sum whatever on that footing is diametrically opposite to his Maj's Instruction which was the maine though not the onely reason of the Council's non concurrence as above mentioned. Passed in Council unanimously.

Then the House adjourn'd to Mar. 9th 1732–3.

Fryday, March the 9th A. D. 1732–3.

[p. 890.] A Mess from the Board pr Mr. President and Mr. Secretary that the Board had nothing before them and that his Excell. intended to Dismiss the Assm to-morrow.

Post Meridiem

Mr. Secretary bro't down a written Mess from his Excell. read and gave it the Speaker which was read againe in the House as follows, viz.

Gent. of the House of Representatives,

I assure you the contents of your Mess of the 7th cur gives me much concern and unesiness, and I shall very earnestly recommend what you desire to the Assm of the Mass at their meeting the next month, and shall be ready in the meantime to give my consent to any
reasonable act may be agreed on by the Council & your House for the Ease and Quiet of the distressed Borderers on the Line.

J. Belcher.

Mar. 9th, 1732-3.

Eodam Die. In the House Voted, that the thanks of the House be return'd to his Excell. for his Kind Messa Relating to the Lines.

Whereas great inconveniencies arise by the frequent Law-suits commenced agst People claiming Property in the Lands near the Boundary Lines between this Province and the Province of the Massa which greatly impoverishing all that are concern'd therein, and no wayes quiet the People in their Possessions or confirms their Property; for what has been done by one Govern't hath often been revised by the other, which creates a great and needless Expense & trouble to the Poor Inhabitants on those controverted Lands: Therefore Voted, that no action of Trespass or Ejectment be commenced from and after the first of May next, agst any p'son Either for Trespass or Trying of Title on any of the afore-said Lands in controversy between the Govern'mt until the lines between the Govern'mts are determined and settled, or till further orders.

Provided nevertheless, that this vote shall not be in force [p. 391] unless the Govern't of the Massa pass a vote in substance like this, and to continue for the same time.

May it Please your Excellency,

This House hath maturely considered and debated the weighty affair of granting a further supply of the Treasury, to answer which End this House projected two Bills for the emitting the sum of £20,000, the Interest of which was by the said votes for the supply of the Treasury; which said votes were nonconcur'd by the Council. They did also, for defraying the intervening charges of yea Govern't pass a vote for the putting in a 1000£, besides the interest on the 1730£ & the money in Mr. Atkinson's hands, (which this House proposed a vote for paym't of the soldiers of the Fort Wm. & Mary) but that vote was also nonconcur'd by the Board, and by their vote say the House ought to know they had nothing to do with: Now this House thinks they have and ought to have a vote in the disposal of all Publick money, and that the Board were formerly of this opinion, appears by their sending down Mr. Atkinson's account to be past upon in the last Sessions; so that that money is still unsold notwithstanding the said Atkinson hath declared his readiness to pay the same. So that the House can see no other way of supplying the Treasury without oppressing the People whom we Represent, than what they have come into. Wherefore this House are humbly of opinion that it will greatly tend to the Prosperity and welfare of his Majesty's subjects of this Province to address his Majesty by the hand of our Agent, to obtain his Royal
leave for a farther Emission of Paper currency, more especially since your Excellency has informed this House that you can't consent to; It being contrary to his Majesty's Royal Instruction to [your Instruction] your Excellency, and if the Honble Council should think proper to appoint a Committee to joyn with a Committee of this House for the ends aforesaid, we are humbly of opinion it would be attended with the desired effect.

Then the House adjourn'd to the 10th curr'd.

---

[p. 392.] Saturday March the 10th A. D. 1782-3.
Mr. Secretary Bro't down the following vote of Council, viz.

In Council March the 10th 1782-3.

Upon considering the several votes that have already past between the two Houses and of the Mass a made by the Council to the House yesterday relating to the 1730.£ Voted that the Borrowers of the 8th 1730.£ have liberty to renew their Bonds payable to the Treasurer for the time being for the space of two years from the date hereof, at 6 pr ct pr annum any time between this and the 25th of April next, first paying the Interest to the Treasury due to that time and that the Bonds of those that do not renew as aforesaid within the Term aforesaid shall be put into the hands of the Speaker for the time being who is hereby directed and Required to put the same in suite without delay or Excuse at the Inferior Court next coming after the said Speakers receiving them and that the said Speaker give a Receipt to the Treasurer for such Bonds as he received from him. Pass'd unanimously.

Eodm Die. In the House &c. Read and concurr'd with this amendm't. That there be a Committee of both Houses appointed to renew & take the Bonds payable to the Treasurer for the time being at 6 pr ct. as above and when they shall be renewed to be delivered to the Treasurer and take his receipt therefore in order to be Entered on the Journal of the Gen'l Assembly, and that James Clarkson, Esq. be a Committee of this House to joyn with whome the Honble Board shall appoint for the Ends aforesaid.

The vote of the House of the 8th curr't for a Recorder was Bro't down with a vote of Council thereon, viz.

In Council March 10th 1782-3. The Council adhere to above vote Excepting that the Recorders fee be 2:6 instead of 5s.
Eodm Die. In the House Read & concurred.

Mr. Secretary came down with a written Mess* from the Board & Read it as follows, viz.

[P. 393.] In Council March 10th 1732-3.

Whereas in a Mess* from the Honble House to his Excellency the forenoon bearing date the 9th curr & sent up this day and communicated to the Council, there are sundry things mentioned which seem to cast an odium on the Council, as tho' it lay at their door that there is not a due Supply of the Treasury, to which the Council in justice to themselves are obliged to say, that the reason of their non concurrence to the 20,000£ Bills on Loan was (as the House has heretofore once and again Informed) because the Emission of Bills on Loan is directly contrary to his Majts Royal Instruction; and as to the thousand pounds mentioned for the immediate Supply of the Treasury, it was couched in the Twenty Thousand pound Bills, from whence it plainly appears that the House never intended one should pass without the other; but that if the thousand pounds for the supply of the Treasury would not tempt the Council to break thro' the King's Instruction, their compliance with the King's Instruction should defeat the supply of the Treasury; but if they had a sincere disposition to supply the Treasury as they pretended and sent up a Bill for the same, they would have soon seen the heartiness of the Council in doing their duty to his Majts and the utmost Justice to this Province by the readiest concurrence: As to the interest of the 1730£ the Council have been long Endeavouring that that Loan might by some means or other be beneficial to the Publick, tho' to their great grief by the disappointment of their attempts in the Honble House Private persons have enjoyed the benefit of that money at 2½ pr Ct. when there have been many that would gladly have given more than double, yea treble for the same, if they might have been favoured with it; and the Council have this day sent down a vote for the setting that Loan at 6 pr Ct. for 2 years instead of 2½ pr Ct. in order to ease the Tax of the Province which has last succeeded.

[P. 394.] As to the money in Mr. Atkinson's hands which he rec'd of Hugh's Estate long agoe and which ought for several years past to have been in the Treasury, the Council presume his Excell will take due care that that £292£ Ball* settled under his hands be paid by a Course of Law. Since there is no prospect of its being done without it, even after so much indulgence to him who has been so notoriously delinquent, to the vast dishonor of the Govern't & unspeakable oppression of Sundry poor distressed Creatures, to whom the Province is indebted. As to the House* saying they ought to have a vote in the disposal of the Publck money, the Council Reply, when they the Council think proper to deny that point in Politicks it will be time en* for them them to form an argum* against it; but that is not yet got into the Question;—for saying the House of Representatives have nothing to do with a confiscation or forfeiture to his Majts by a Judgmt in Court, is not saying the House have nothing to do with the disposal of Publick money, unless it so by some Logick in the House w'd the Council have not Learn'd. As to Mr. Atkinson's declaration of his readiness to pay the money in his hands what is there in it? did he not
declare heretofore, even in the House and most solemnly at the Council Board too, that he would pay part of his Debt at such a time, and the residue in a short space after, & are not the terms long since Expired? But all the paynt made let the Treasurer's Accounts answer, which say No, not on* penny. Why then Gen* should you trouble yourselves in making such a mess* & boasting of such declarations? The Council might further very well observe too, that the Scheme of the House for an audit to be appointed by the Gen Court to examine a Sheriff's Return of an Execution is entirely new—however is a full Evidence that the House have been much bent on trifling. As to what the House propose [p. 395] of the Councils joyning with them in addressing his Majesty by the hand of Our Agent (as they express it) &c. the Council say they know of no Person so qualified. But if the House mean Capt. John Rindge, marriner, then they answer, That when it appears to them that his capacity & other Qualifications are equal to such a Trust & he is hon* with a Comiss* for that place, the Council will readily do w* is proper on those heads.

Rich* Waldron, Sec*.

Then Mr. Secretary Read a Mess* from his Excellly, follow: viz.

Gen't of the House of Representatives.

At the first opening of the Assembly I was glad to find in your answer to my speech such professions of Loyalty & Duty to the King as made at least some show of an inclination in you to conform to his Royal orders, in which article his Majest's Council have acted up to their duty by non concurring the votes you have sent up for supply of the Treasury, because they were clogg'd with projections for a loan of money which you yourselves knew to be contrary to his Majest's Royal Instructions: I therefore take all you have been doing in the affair of the supply to be but trifling, and what I suppose you fully believed could not take effect.

I think his Majest's Council seem to be Convinced of the great inconvenientys that would ensue upon the Assemblys having leave to Issue more Bills upon loans, since there is at this day upwards of 7000£ outstanding of the £15,000 loan Issued 15 years agoe, & should all have been paid in conformity to the Laws of the Province, in April 1731; and the £7000 unpaid must be either in the hands of the said Comittee for their own use & convenience, either of which is at this time of day a great abuse & injustice to the Govern'. Till, therefore, Gen* the money due [p. 396] on this Loan be justly & honestly paid in it must certainly tend to the Ruine of the Govern' and people to Issue any more Bills in such a method.

Altho, Gen* you have been setting the usual time of a Spring Sess* yet I must repeat to you that you have been really trifling with the Publick affairs, and I am afraid have been too much imposed on and deluded by such as have had nothing at heart but their own Sinister views; and as to the important affair of supplying the Treasury which you know has been so long empty, and on which the Hon' & Safety of his Majest's Govern' as well as the peace & welfare of his People in this Province depend, It is doubtless a matter too great to be play'd with as you have done: nor can your proceedings give you the least claim to that duty & Loyalty to his Maj* which you have pretended to.
therefore think it fit for the Kings Hon' & service as well as for the welfare of this Province, to dissolve this Ass'm and thereby to give his Maj' good subjects an opportunity of sending such to represent them in the next Assembly as will do all in their Power to retrieve the Injustice you have practiced in not paying the Publick Debts; and those that will promote peace & a good agreement amongst all the Branches of the Legislature.

March 10th 1782-3. J. Belcher.

And then Mr. Secretary Declared in his Majesty's name the Assembly DESOLVED ACCORDINGLY.

Lieut. Gov. Dunbar's Queries to his Council, 1733.

Portsmouth, in New Hampshire, December the 6th, 1733.

GENTLEMEN OF HIS MAJESTY'S COUNCIL.

Ye are all sensible of the difference and dispute between his Excellency, the Chief Governor of this province, and me, as Lieut. Governor, arising upon the meaning of the words of the last paragraph of his Commission, which run thus:—"And we do hereby require and command all officers and ministers, civil and military, and all other inhabitants of our said province to be obedient, aiding, and assisting, unto you the said Jonathan Belcher, in the execution of this our commission, and of the powers and authorities herein contained; and in case of your death or absence out of our said province, unto such person as shall be appointed by us, to be our Lieut. Governor, or commander in chief of our said Province, to whom we do therefore by these presents give and grant, all and singular the powers and authorities aforesaid, to be executed and enjoyed by him, during our pleasure, or until you return to our said Province."

I have sent this paragraph to the ministry in England, for an explanation of it, and represented that the chief Governor insists that he is in this Province, when he is in the Massachusetts; I have consulted the present judge of the admiralty, and the advocate general upon it, and do here lay their opinions before you; I have also consulted several gentlemen upon the same, and never heard one differ from these opinions except some of yourselves. However, I resolved waiting the determination from England, which I now scarce expect, because his Excellency says, he has long since given an account how that he and the Lieut Governor had got to a good understanding and a friendly correspondence, and that he would endeavour it should not be his fault if ever it should be otherwise.

By such account to the ministry, it may seem unnecessary to them to take any thought or order about this dispute, which is the reason that I think myself obliged at this time to desire and demand your opinions by virtue of the oaths you have taken as members of his Majesty's Council of this province, to the following queries:

Whether, when the Chief Governor is in the province of the Massachusetts bay, you esteem him to be in New Hampshire; if not, whether,
when he is in the Massachusetts province, he can legally be called or styled Commander in Chief in New Hampshire?

Whether, when he is in the Massachusetts province, he can sign commissions, patents or writs, for calling an Assembly in New Hampshire, and date them the same day he signs them there and transmit them to be passed by his Majesty's council here, which must be some days after?

Whether in the Council's meeting to pass or consent or advise any such patent, or writ, or proclamation, you think there is any necessity of the Lieut. Governor's presence, when by his order the Council is convened? And

Whether, when the Chief Governor is personally out of the province, all proclamations, writs for assembly or orders, ought not to be in the name of the Lieut. Governor or the eldest councillor first named in his Majesty's Instructions resident within the province, with the approbation of the Council, when proper?

One motive of my desiring the opinions of the gentlemen of the Council upon the dispute and these queries, is, lest I might lie under the imputation of ignorantly submitting my power without making any struggle for it, and that an entry may be made in your journals of this affair with your opinions, that the same may be a precedent for future times.

But I hope gentlemen will be cautious and weigh this matter fully and consider what consequences it may have. Your opinions shall determine me until his Majesty's pleasure be known upon it. (1)

DAVID DUNBAR.

Wednesday January 2d A. D. 1733-4.

His Excellency’s Speech was read and is as followeth, viz.

Gen’t of the Council & House of Representatives.

By the last Ships from London I have received an account of the French King’s Declaring War against the Emp’r of Germany with whom his Brittanick Maj’st is in alliance, & how far this unhappy Rupture may lead to a Gen’l War in Europe is uncertain; however I think it a faire Alarm to all his Maj’st Dominions to put themselves in a Posture of defence & you cannot but be sensible how naked & Exposed this Province is both by Sea and Land, Fort William & Mary at the Entrance of this River (the only Fortifications his Maj’st has in this Province) you know Lyes [p. 399] in a miserable condition, nor are you ignorant how often I have prest the Repaire of this Fortress
upon the Assembly here, altho' it has forty Guns yet it has for a long time had only a Cap't a gunner and two sentinels belonging to it. I hope your own safety as well as his Majesty's Hon'r (at this critical juncture) will put you up on doing what is absolutely necessary in this important affair.

I have, Gen'r frequent Complaints of the ruinous condition of the Goalls of the Province which will Require a large Repaire or Rather Rebuilding as soon as may be, their being continual Hazards of Escapes thro' its present Deficiency.

Gen'r of the House of Representatives.

You verry well know there has been no money in the Treasury of the Province for neare three years past, which has greatly Exposed & dishonr'd the Kings Govermn't and has been a Publick Injustice & oppression—this with the threatening aspect abroad (I have no doubt) will lead you to make ample Provision for what I have now mentioned as well as for all the other Exigencies of the Govermn't.

Gen'r of the Council,

& House of Representatives,

Upon my meeting of the Ass'm of the Massa'b Bay in April last I earnestly recomended to them the passing an Order (agreeable to what had been done in this Province) for putting a stop (at present) to any process in the Law ag't the Borders on the disputed Lines of the two Provinces, But the Public Prints have long since told you it had not the desired Success.

In January last, I wrote verry fully to the Right Hon'ble the Lords of Trade, praying them to Represent this long unhappy Dispute to his Majesty, that there might be an end put to the Contention; to which letter I have rec'd the Hon'r of their Lordships Answer, saying they hope upon the return [p. 400] of my answer to their letter no further delay may be occasioned to the accomplishing a matter of so much advantage to both Provinces, and my answer to their Lordships Letter is long since gone forward, and I shall rejoice in seeing this troublesome affair bro't to a happy conclusion.

Gen'r In whatsoever you can project for his Majesty's Hon'r & service and for the Prosperity of his good subjects in this Province you shall have my hearty assistance and consent.

Jan'y 1st 1733-4.

J. Belcher.

Governor Belcher's Letter.

[The following is a Copy of Gov. Belcher's Letter above referred to, and which has never before been published. It was found by Hon. C. H. Bell, of Exeter, among Papers of Secretary Waldron.] Ed.

Although I have wrote you pr. this Conveyance of 5th, 8th & 12th Instant, yet the ship being detain'd, I think it my Duty to say to your Lordships, that I have taken all possible Care and Pains, ever since my Arrival, to have the long contested Boundaries betwixt the Massachusets and New-Hampshire adjusted, agreeable to His Majesty's Royal Orders to me, but I can see no prospect of its being accom-
plish'd, and the poor Borderers on the Lines, (if your Lordships will allow me so vulgar an Expression) live like Toads under a Harrow, being run into Goals on the one side & the other, as often as they please to quarrell, such is the sad Condition of His Majesty's Subjects, that live near the Lines. They pull down one another's Houses, often wound each other, and I fear it will end in Bloodshed, unless His Majesty in his great goodness gives some effectual Order to have the Bounds fixt.

Although, my Lords, I am a Massachusetts man, yet I think this Province alone is culpable on this head. New-Hampshire has all along been frank and ready to pay exact Duty and Obedience to the King's Order, and have manifested a great Inclination to Peace and good Neighbourhood, but in return the Massachusetts Province have thrown unreasonable Obstacles in the way of any Settlement, and altho' they have for 2 or 3 years past been making offers to settle the Boundaries with New-York & Rhode-Island in an open, easy, amicable way, yet when they come to settle with New-Hampshire, they will not do so with them, which seems to me a plain Argument that the leading men of the Massachusetts Assembly are conscious to themselves of continual Incroachments they are making upon their Neighbours of New-Hampshire, and so dare not come to a Settlement. I say, my Lords, in Duty to the King, and from a just Care of His Subjects of New-Hampshire, I think myself oblig'd to set this matter in the Light I now do, nor do I ever expect to see it settled, but by a peremptory order from his Majesty appointing Commissioners to do it, and those agreed to by both Assemblies Febra. 1730-1.

Joseph Talcott Esq. Gov. of Connecticut,
Joseph Jenks Esq. then Gov. of Rhode Island, &
Adolph Phillips Esq. Speaker of the Assembly at N. York,
are Gentlemen of good Ability and Integrity, and altho' the Massachusetts, I fear, will still decline joining in the affair, yet I believe New-Hampshire from their Desire to Peace and good Order, would rejoice to see such a Direction from the King, & be glad to be at the whole Charge rather than the Dispute should still continue. I therefore humbly pray your Lordships so to represent this affair to His Majesty, that there may be an End of Strife and Contention.

And if your Lordships approve of the Bill I now send you for emitting Bills of Credit on a Foundation of Gold and Silver, & that I may have His Majesty's Leave for doing it in the Massachusetts, I pray I may also have the same Liberty of doing it in New-Hampshire, where they are in great Distress for something to pass in lieu of money, and without speedy Help it will be almost impossible for that little Province to support any Trade.

I have the honour to be with all possible Esteem and Respect
My Lords
Your Lordships
Most obedient and
Most Humble Servant
J. B.

These may certify that His Excellÿ the Governor, sent me this paper from Boston, and assured me that the contents of it were a genuine copy of what he had wrote and sent to the Lords of Trade & Planta-
tions: and also that he afterwards shew me an original letter from the secretary of the Plantation Board, which acknowledged their Lordships' receipt of the Governor's said letter. As witness my hand August 1st 1730:

The House adjourn'd to the 11th.

Fryday, Jan. 11th A. D. 1733-4.

The answer to his Excell. Speech Read as followeth, viz.

May it Please your Excellency

What fatal consequences the French King's Proclaiming War with the Emperor of Germany may produce and how far it may affect the tranquility of Great Britaine time only must discover; but we hope Great Britaine & the other Powers of Europe may mediate and divert the War with which we are alarm'd & conclude it in a happy and lasting Peace, and this we believe in as much as your Excell doth not mention in your Speech that the advice you receiv'd in the last ships was from the ministry of Great Britaine who this House apprehends would have sent forward their Directions had they conceived any immediate Danger of a War.

The supplying of the Treasury with such a sum as would be sufficient for the Repairing Fort Wm & Mary, Rebuilding the Province Goal & other necessary demands, together with the Tax already laid by the
several acts for repaying and sinking the several sums Borrowed in the late War agt the Indians. These would require a larger sum than is possible to be raised upon the Poles and Estates of his Maj's subjects within this Province, and such an Act would be as distressing as y' callamities of a War, which should this [p. 405] House be instrumental in would not dishonor his Maj's but be the greatest piece of Publick Injustice & oppression imaginable—things this House always have and we hope always will be strangers too: And to prevent any imputation of this kind Did in their Sessions in December 1730 pass an act for the emitting £6000 for Repairing the Fort Wm & Mary and for a further supply of the Treasury, with said Act past both Houses together with the Act for Removing the Courts then held at Portsmouth to the several Towns where they are now held and that the House imagined both these acts would have met the same fate, either both assented to or both rejected. But your Excellency was pleased to pass the Act for removing the Courts and to put the other in your Pocket till his Maj's Pleasure should be known; since which the House have heard nothing of it. This House hath several times made an exact estimate both of the Debts and Credits of the Province and voted into the Treasury what was then found due to the Province to discharge the several claims then made which votes was sent down from the Council non-concurr'd & a mess to the House in writing wherein they say the House had nothing to do with that money which this House thinks a very extraordinary Mess and by which means that money is still out of the Treasury, as is also the Interest of the 1730£ which the last Assembly voted into the Treasury & if any Borrowers of that money refused to pay the Interest then due and renew their Bond then such delinquent Bonds to be put in suit at June Court then next Ensuing by the Speaker of the House for the time being, to whom those Bonds are made payable. But your Excellency was pleased to Dissolve that House, by which means the Speaker was rendered incapable of demanding that money according to that vote, which hath occasioned a loss to the Province. We hope this will take of any imputation of Injustice or oppression & confirm your Excellency in the [p. 406] good opinion which you Expressed towards this House by saying we had always done every thing that a Gracious King could expect from a dutiful and Loyal People—a charactor we have always been so fortunate as to have and what shall always Endeavour to deserve: And therefore we think it highly expedient to address his Maj's for leave to Emit from time to time such sums of money on the Credit of this Province as he in his great Clemency and goodness shall think sufficient for those things mentioned in your Excellency's Speech, in which we hope for the concurrence of the Council.

Your Excellency receives the thanks of this House for recommending the Distressed Circumstances of the Borderers on the controverted Lines a stay to any Process agt them to your other Govern't tho' it had not the desired effect: Some of those Towns being by those Law Suits Extremely reduced: some of them having expended a 1000£ in the Law besides their loss of time and Improv'd. But this by what your Excellency mentions and by the success Capt. Bridg[e (the Agent to this House) had while at the Court of Great Britaine, gives us great hopes that That controversy will be speedily determined, understanding a copy of his memorial to the King in Council has been
transmitted to the Mass* for their answer, by the beginning of November last, at which time we hope there will be no further delay. We beg leave to assure your Excellency that this House are met determined to act every thing in their power for the Honours & service of his Maj* which we conceive can by no means be severed from the true Interest, Prosperity and Safety of his good subjects we Represent.

Andrew Wiggin, Speaker.

Voted accepted and sent up.

Inasmuch as this house may not be destitute of an agent at the Court of Great Britaine in this difficult time & in a time when we have the greatest occasion for a proper p'son to Represent the Circumstances of this Province,

Therefore Voted, That Capt. John Thomlinson be agent [p. 407] for this House of Representatives to all intents and purposes & as fully as in the Power of this House to appoint him, hereby giving him power to transact any affaire y' may be transmitted him from this House relating to the Lines of the Province.

A mess* Bro't down the vote of the House this day for Emitting 3000£ nonconcurr'd at the Board, and a vote of Council thereon for the like sum as follows, viz:

The reason why the Councils voting the payment within 1742, is because they well know (as they suppose the Honble House or the major part of them are well acquainted also)
That his Maj'ye has Prohibited his Excellency to signe any Emission of Bills to be outstanding beyond that year.

The Council conceive it would be an affront to his Maj’s to do, for notwithstanding his Maj’s strict Orders to his Excell’y to see the several Emissions Sunck according to the Periods provided which the Gov’r has Endeavoured as far as in him lay to have accomplisht, yet there is between six or seven thousand of the 15,000£ loan now out and unpaid, and 1730£ more being a loan on another footing outstanding also, which ought to have been paid in & burnt long ago, and till these impedim’t are Removed, the Council must be Excused from any address of that kind. You have now been Conven'd in Genl Assembly the usual length of a Sessions, and altho' I laid before you at your first meeting the necessity of the repair of his Maj'ty's Fort and the Goal together with the payment of your just Debts, yet you have not to this day made the least provision in these important articles; but in duty to the King I am still waiting on your further deliberations and wish they may be to your own honour & to the safety, peace & good order of the Government yet if ye are come to a resolution not to pay the debts of the Province but by Extending ye funds beyond ye year 1742, which for me to consent to would be a manifest violation of the King's royal orders, I say, if you are so resolved. I shall expect your direct & final answer, that the good people of this province may know who are accountable for any mischievous consequences from a neglect of so high a nature, and which I shall faithfully represent to his Majesty.

_J. Belcher._

Communication of Gov. Belcher to the Council Jan’y 22d 1734.

[Copied from the original in Secretary’s office.]

Gent’n of his Maj’ys Council

You may recollect that some time in Decr 1732, Capt. King arrived at Boston from London and bro’t his Maj’y’s Royal mandamus for admitting Josh’ Pierce, Esq., Mr. Benning Wentworth and Mr. Theodore Atkinson to be of his Majestys Council for New Hampshire, which mandamus were directed to me as his Majestys Governour of this Province, and the Gentlemen above mention’d in violation of their duty withholding them from me, I ordered Mr. Secretary Waldron to notify the detention of them in the publick prints, after which Mr. Piers wrote me a dutifull letter pleading ignorance in the affair, upon which I directed his being sworn; but so far were Messrs. Wentworth & Atkinson from a sense of their duty that they went on with their rudeness and ill manners in detaining his Maj’y’s commands to me for a fortnight after my being in the Province last year when they bro’t them desiring to be sworn, but after such an insolent behaviour I could not think it for his Majesty’s honour to admit them at that time, and represented to his Majesty’s ministers what had pass’d in this affair; and notwithstanding what has been suggested by one of these Gentlemen of my receiving fresh orders to admit him, I take this opportunity of declaring that to be a great mistake, for that I have not to this day rec’d any fresh order in this matter, & yet you are sensible, Gentlemen, that I sent for Mr. Wentworth and Mr. Atkinson the 1st of this month before they had taken their oath in the House of represent’ and told them that I was ready to admit them to be of his Majestys Council & had ordered the Secretary to administer the oaths to them, which they finally refused to take (for the reasons entred on the Council Book) I therefore desire your advice and opinion on what has passed in this matter, and what may most conduce to the King’s Honour as to my future proceeding in it.

January 22d, 1733-4. J. Belcher.

Pro. N. Hamp. At a Council Jan’y 22d 1733-4 (being Tuesday) at the house of Mr. Gambling in Portsmb.

Present, his Excellency the Gov’r

\[\text{Shad Walton} \quad \text{Benj. Gambling} \]
\[\text{Jotham Odiorne} \quad \text{Eqs} \quad \text{Josh’ Pierce} \]
\[\text{R. Waldron} \quad \text{Eqs} \quad \text{Joe. Sherburne} \]
\[\text{Ellis Huske} \]

In answer to his Excellency’s representation relating to ye conduct of Messrs. Wentworth and Atkinson touching their admission to the Council Board, & his demanding of our opinion, and advice thereon. We say it is our opinion that their behaviour on that occasion was in the beginning very indecent, and at least highly contemptuous of his Maj-
esty and his royal orders, and do therefore humbly advise that their
behaviour & refusal may be laid before his Majesty in order to his
Majesty giving such direction thereon as may best consist with his
honour & wisdome.
Pass'd unanimously.

R. W. Sec'y.

Wednesday January 23rd A. D. 1783-4.

Mr. Secretary came with a Mess' that his Excell'y Required
the attendance of the House in the Council chamber. Mr.
Speaker and the House went up accordingly. His Excell'y
made a Speech. Mr. Speaker pray'd a Copy and had it,
which is in the words following, viz.

Gen't of the House of Representatives.

I shall be heartily glad that the fears of war (by the advice from
Europe & other parts) may finally vanish and that a Lasting Peace
may be Established by yr's mediation of our most Gracious Sovereign.
But should it happen otherwise you must witness for me that I was
desirous to have Rouz'd you to make the best preparation for the
safety of his Majesty good Subjects of this Province. To say you are
not able to Repair in the Province or to make the Goal
secure is trifling with things of the Greatest Importance, and againe
to refuse paym of your Debts is a great dishon'r to his Majesty Govern't,
a manifest violation of the publick faith & an act of high Injustice to
all those to whom you are indebted. I must, Gentlemen, correct yr
in a gross mistake when you call yo' selves the same House of representa-
tives that sat here in the year 1730; whereas yr had not a being
30 days agoe tho' many of you were members of the House then that
are so at this time [f. 420] which makes it the more surprising to me
that yr should be guilty of so gross a misrepresentation (not to cal
it a name it more justly deserves) as to presume to say that there was
an expectation of the same fate of both the two Acts then projected,
one for removing the Courts, the other for Emitting £6000, because at
the opening of that sessions I laid before the House his Majestys royal
orders, forbidding my Giving my assent to any bill of the nature of
that for £6000, but yet I call'd up the House of Represent^ts to y^e Coun-
cil Chamber before they had pass'd the Bill, & told y^e whole Court, If
they pass'd such a bill I w^d write home in favour of it & Endeavour to
get leave to sign it: To which I rec'd from the R^e Hon^ble the L^e of
Trade the following Answer, dated at Whitehall July 6th 1731:

Whitehall, July 6th 1731.

We have considered the N. Hamp^s bill "for Emitting £6000 in bills
"of Credit & postponing y^e paym^t of y^e money that shall be due on
"y^e 25th April 1731, but we can by no means advise his Majesty to
"allow y^e to pass any such bill as it must in consequence lower y^e
"credit of the Province whereby their Trade must greatly suffer,"—
which being a further Prohibition I tho't it to little purpose to com-
mmicate it. y^o say this House had several times made estimates of y^e
debts &c. How can this be since y^o never had but one opportunity to
do it. As to the 1780£ w^h has been outstanding for near 20 years
at only y^e small Interest of 2½ pr Cent, you have never yet voted it to
be call'd in but by a renewing y^e Bonds to a longer time, altho' y^o
well know that the King's orders to me are y^e all the outstanding
moneys of y^e Province shall be paid in according to y^o several periods
at which they become due. If therefore any loss happen on this
[p. 421] account y^o are chargable with it.

I must observe to y^e the great absurdity of your laying claim to
what I said to the House of representatives, 3 years agoe, who did every
thing in their power for his Majestys honour and for y^e good of his
people, and you have been acting the very reverse in this Session by
Exposing the King's Government, by leaving his subjects naked and
insecure & by a cruel oppression in withholding (after near 3 years)
the just dues of all those to whom the Province is in debt.

The singular rudeness contain'd in your answer to my Speech I
suppose is not to be match'd unless by a memorial sent from a neighbor-
ing Province to the Hon^ble the House of Commons of Great Britaine
& by that August Body Voted an high Insult on his Maj^y's Government;
and that was relating to the same affairs you have been upon
this Sessions, (viz.) the supply of y^e Treasury & protracting the funds:
And his Majesty upon an Address from y^e Same Province on those
heads declared in a fresh order to me his high displeasure at such their
proceedings.

I have now been waiting on y^e beyond the common length of a ses-
sion and finding you are determined not to do one act of safety to the
Province or justice to those to whom you are indebted, I have order'd
this Court to be dissolved, hoping an other may come together well
disposed to the service of their King and of their Country.

Jan^ 23, 1733-4.

J Belcher.

Then Mr. Secretary in his Maj^est's name declared the Ass^m
Dissolved, Accordingly.

In Council.

After the General Assembly was dissolved Mr. Atkinson
made a motion to his Excellency in Council that as the rea-
son of his refusing to be admitted into the Council the 1st Instant was removed he was now ready to take the oaths, to which the Governor answered as follows:

Sir,

Your refusing to accept the royal favour of being of his Majesties Council when I offered to admit you three weeks ago, I look upon so great a disrespect to his Majesty as makes it necessary for me to represent home your Contemptuous behaviour before I admit you to the honour of being of his Majesties Council of this Province.

In Council Voted That the Govr draw for his next half year's salary when it becomes due, viz. 25 Feb. next.

In Council Advised that his Excellency Issue a writ for convening an Assembly when he shall think proper.

Yr Act for yr Emission of yr £15,000 loan provided yr same should be paid & burnt in yr year 1728, and yr after Law for post poning yr pay'd of it (which was an Act of great indulgence to yr borrowers) enacted that yr utmost farthing of that sum should be consumed to ashes by yr 25 Apr 1731, since which yr have had my repeated orders to do your duty on that head, & been once & again informed that it was His Majestys Express Command to me to take especial care that all publick bills should be call'd in & sunk according to the Periods and Provisions of yr respective Acts, & yet between 6 & 7000 of yr 16 remains still unpaid, which is a great injustice to the possessors of the bills of yr loan, a breach of your trust, & a contemp of his Maj's Royal order to on that head, whereupon I am obliged in duty to His Majesty and faithfulness to yr Province once more to require you, and you are hereby strictly required & commanded without any further delay or Excuse immediately on receipt hereof to put the laws relating to yr above mentioned loan in Execution on pain of his Majesty's highest displeasure, and as yr will answer yr contrary at yr peril. Letter from John Sharp (1) to Gov. Jonathan Belcher.

[Original in his own hand.]

[From MS. Corr. in Secretary's office, pp. 81-83.]

Hon'ble Sir—

I beg leave to acknowledge the favour of your very kind & obliging letters, & to return you my best thanks for your generous present of green wax lights, than which nothing could be more agreeable to me. I am greatly concern'd that Mr. Dunbar should prove so troublesome a substitute; but I have had an opportunity of seeing something of the temper of his brother, & if his is the same, I don't at all wonder at any embarrassment he would endeavour to throw in the way of your Excellency's administration; but your Excellency's superior genius can look down upon these attempts with their deserv'd contempt, & whenever you are pleased to exert your power, moulder the authors of them into dust. You know his patron at home, & Mr. Dunbar pleasing himself with being secure in his protection, vainly imagines that gentleman's countenance is sufficient to put him on a level with his governor; but I hope & am fully persuaded a very little time will show the egregiousness of his folly, & humble him to that rank which he ought to be contented with.

The first degree of power in every province ought only to be intrusted to those of great & exalted minds, & will always, by a wise prince, be kept at a distance from or out of the reach of all, who are of a grovelling & mean disposition; & I am therefore fully convinced your Excellency will continue to hold your reins of government, without a possibility of their being snatch'd out of your hands by this vain aspiring man; & that he will Phaeton-like fall in the attempt he is now making for that purpose; for he has presented the most extraordinary petition, the end of which is to obtain two very modest requests, tho' entirely inconsistent one with the other: to wit, that he may be made governor in chief of New Hampshire, & that he may have a moiety of your excellency's salary as such; but men of poor & low talents will always blunder in this manner. I would have sent your Excellency a copy of his petition, but that I had not notice of this ship's sailing, till within this half hour; & I presume you will receive it from the ingenious young gentleman, your son, or Mr. Partridge. Mr. Paris, who is employed by Capt. Thomlinson for Mr. Dunbar, has given me notice to move the lords of the committee tomorrow night to take the petition into their consideration, when I shall pray their lordships to suspend proceeding on the said petition till a copy of it can be first transmitted to your Excellency, & your answer can be receiv'd; & in which I make no great question but I shall prevail: And your Excellency may be assured, that in this, as also in the affair of the naval officer, & in every other matter wherein your Excellency is any way concern'd, every assistance in my power shall be always at your service, being with the greatest truth and respect

Hon'ble Sir, your excellency's most oblig'd &
most obedient, faithful humble servant,

19th March, 1734,           John Sharpe.

His Excellency Gov'r Belcher.

(1) John Sharpe, of England, was one of the Lords of Trade & Plantations. Ed.
Hon'ble Sir—

The Speech was read as follows, viz.

[p. 425.] Gent. of the Council & House of Representatives

Understanding that a number of the members of the House of Representatives had not taken their places till yesterday, has been the reason I have not told you before that I am glad to meet you at this time in Gen’l Assm. hoping you are come together full of inclination & resolution to advance the King’s Interest and Honr by falling into the best methods of promoting the substantial good of his People in this Province. The difficult situation of the affairs of Europe should make us thofull & attentive how we may most of all contribute to ye Publick safety in case we should be surprised with the alarm of war.

I am much concern’d at the decayed condition in which the owne Fort of the Province lyes and to consider how slenderly it is provided with powder and other stores of War.

The owne Prison also of the Province is in absolute necessity of a speedy Repaire.

That law and justice may obtain their Effects, I have it. Gent, in comand from the King to Press your calling in the Publick Bills of Credit agreeable to the several Acts & Laws by which they have been. Emitt’t.

Gentlemen of the House af’l Representatives,

I have so often urged on former Assemblies the necessary supply of the Publick Treasury, That I hope a bare mention of the following things will readily induce you to make that your first care in this Sessions. It is now going on of four years since there has been any supply made. The Fort & prison, as I have observed, demand a present.
Repairs and a payment of the Public Debts will show your care to preserve the Credit & Hon’ of the Govern’t, the moneys due from the Province are in Exact conformity to the Laws, and how hard & severe is it, Gent, that your own Laws should take place upon Private p’sons while the money that should pay their just Debts is withheld from them by the Supreme power. I shall not therefore doubt [p. 426] of your giving the best dispatch to what is so Reasonable and Just.

Gent. of the Council & House of Representatives

A diligent application to the affairs of the present Sessions will be an instance of your carefull expense of the Public money and to Endeavour after unanimity in all your proceedings must have the most natural tendency to the Peace and welfare of your country; and you shall find in me a sincere disposition to do every thing in my power for the Prosperity of the Province.

Early in the morning before the hour of meeting, Mr. Secretary came with a Message from his Excellency required the attendance of the House in the Council Chamber. Mr. Speaker being there and but few members he answered the Secretary as soon as a few more members came he would attend. Mr. Secretary came immediately down againe with a Message that his Excellency required their immediate attendance. Mr. Speaker and the few members went up. His Excellency made a Speech. Mr. Speaker obtained a Copy which was as follows, viz.

_Gentleman of the House of Representatives,_

I have now been waiting on your deliberations the usual time of the sitting of a General Assembly of this Province to see whether you would make any supply to the Publick Treasury for the uses I mentioned at the opening of this Session, which affairs I understand came in Debate in the House the eighteenth of this Inst. and the Question being put, it passed by a considerable majority to make no supply. This resolution obliges me, in duty to my Royal Master & in tenderness to his People to put an end to the being of this Assembly in the same manner as I did the last, altho' there has been in it a greater number of gentlemen than in the other, who have been well disposed to his Majesty's service, and to the welfare of this Province, yet others have been once more able to defeat every thing that had a tendency to those good ends by their continued resolution of making no supply, & thereby keeping Fort Wm & Mary naked and defenceless as to its works and stores of war. The Prison also is in a posture liable to continual escapes which happening must be made good by a tax on the People and what is of a piece with these things is your suffering the cry of injustice and oppression thro' out the Province by not paying the debts that have been due now upwards of three years. With what face gentlemen can the officers of Justice put the Laws in execution or why should a goal be the portion of the Private men for not paying his debts, while you whose duty and province it is to raise money for the paym't [p. 482] of those of the Publick (knowing that the sufferers cannot compel you thereto) have openly declared you will not pay even the lawful Debts of the Province, with how much contencie, with how much how can you justify such proceedings I must submit to better judges than I can pretend to be.

I am also oblied to mention the injustice done by you (and former Assemblies) to the People by adding a new load of Debt of the Province in the sitting of Assemblies from time to time for three or four years past, for no other purpose than to the increase of the public taxes. To prevent my being more particular I would refer you to what I said at the close of the sitting of the last Assembly a great part of it being applicable to yourselves, and Pity it is but that the good people of this Province should know who are the immediate authors (as snake in the grass) of their present troubles and difficulties, that they may wisely avoid the one at their next Election & always have a just abhor-
rence of the other, and then they will send such to represent them in after Assemblies as being free from sinister views and party designs, will steadily act up to their duty to the King and with hearty concern for the best interest of the People.

J. Belcher.

Then Mr. Secretary by his Excellency's order Declared the General Assembly—DISOLVED.

The Members that were Quallified sent a Mess* to his Excell'y that they insist on their Priviledges and do desier your Excell'y to direct that Mr. Joshua Pierce may be Quallified (the House being informed by the Sheriff) that he was legally return'd for New Castle, and until that be done, the Members decline to go upon any Business—Sent up not sign'd

P. M. A Mess* pr. Mr. Secretary, viz. That his Excell'y directed the House Immediately to make choice of a Speaker & present him.

Mr. Secretary came with another Mess* viz. That there was some mistake about the Mess* sent up in the morning—and that the Mess* sent his Excell'y toke no notice of being a Blank, and that his Excell'y Directed the House to make
choice of a Speaker. A Mess* sent to his Excell* viz. That they were directed by the House to inform to inform his Excell*, That the House still continues of opinion, that they can't without giving up their Privileges go upon any business till all the members present are qualified that are legally return'd and are present.

Mr. Secretary came down and by command of his Excell* adjourn'd the Assembly to the 2d currant.

Friday, May the 2d A. D. 1735.

Mr. Secretary bro't down a Written Message from his Excell* & read it as follows, viz.

Gen't of the House of Representatives.

I have considered the Mess* you sent me yesterday and have ordered the Sec* to read you that clause of the King's Comiss* to me which I apprehend gives me the Power of Judging who are duly elected and who are not, to be Representatives in order to my giving directions for administering the Oaths to such as are returned for the several Towns. I am far from having any inclination to invade the least Privilege of your House, yet it is my Duty to support his Maj*es Authority and I hope upon your considering what I now communicate, you will proceed to the choice of your Speaker & give the best dispatch you can to the affairs of this Sessions. May 2, 1735.

J. Belcher.

[p. 436.] Then the Secretary laid the above on the Table and read theParagraph of his Excell* Comiss* referr'd to and carried it up with him.

The house sent up a Mess* to his Excell* desiring a Copy of the Paragraph read in the house. Mr. Secretary bro't down the Paragraph and left it, which was read in the House and is as followeth, viz.

"And we do hereby give and grant unto you full power and authority with the advice and consent of your said Council from time to time & as need require to summon and call Gen* Assemblys of the said Freholders & Planters within your Government in manner and form according to the usage of our Province of New Hampshire—And our Will & pleasure is that the Persons thereupon duly elected by the Major part of the Freeholders of the Respective Counties and places and so return'd shall before their sitting take the Oaths appointed to be taken by the said Act, entitled, An Act for the further security of his Maj*es P'son and Govern* and the succession of the Crown in the heirs of the late Princess Sophia being Protestants, and for extinguishing the hopes of the Pretended Prince of Wales and his open and secret abettors, as also make & Subscribe the for-mentioned Declaration, which Oaths and Declaration you shall comissionate fitt Persons
under our Seale of New hampshire to tender and administer to them, \\& untill the same be so taken and subscribed, no person shall be capa- \\ble of sitting tho' elected, and we do hereby declare that the Persons \\so elected & Qualified shall be called and deemed the Genl Assembly \\of that our said Province and Plantation."

A Message sent to his Excell'y, viz.

May it Please your Excellency,

The House of Representatives have considered your written Message 
sent down this day and also the Parchgraph in your Excell'y 
Comiss therein referred to—and upon the whole can not but continue of 
the Same opinion in as much as your Excell'y is thereby referred to 
the usage and customs of the Province, which has always been to 
administer the Oaths to such as are return'd by the Sheriffs, and 
[p. 437] for the House of Representatives to judge of the due or undue 
Elections of any of the Members upon complaint made to them, 
and if your Excell'y's Comiss or the Law was silent in this matter, it 
is no more than Reason itself requires.

For if the Gover'n for the time being hath authority upon pretence 
of undue Elections to prevent any member from acting in the House, 
it would be a power in a manner equal to that of choosing the Assembly himself. Upon the whole, we humbly pray your Excell'y to 
reconsider the matter and in as much as you have declared yourself far 
from inclining to invade any privilege of this House, and as the 
King himself (as far as we can learn) never pretended to examine the 
due or undue Elections of the Members of Parliament, We hope your 
Excell'y will be of opinion that no such power was design'd to be con-
vey'd to your Excell'y by that Paragraph and that you will accordingly 
order the Representative for New Castle to be qualified, that the House 
may proceed to business, which they would have done before now, according to your Excell'y's direction, if they could have done it without 
giving up the Rights and privileges of the People they represent.

Sign'd in the behalfe & by direction of the Rest of the Members.

May 2d, 1735.

Paul Gerrish.

While the above Mess was writing, Mr. Secretary came with a 
Mess viz. That his Excell'y was of opinion that the House might 
make choice of a Cler. or any Member might signe in behalfe of the 
Rest. Then the above was sent up.

took his place accordingly. A message from his Excell'y

A Mess sent to his Excell'y by four members to signify to him that [p. 438] Andrew Wiggin, Esq. was chosen Speaker.
Mr. Sec' came with a Mess' viz. That his Excell'y required the attendance of the Speaker and the House in the Council Chamber. Mr. Speaker and the House went up accordingly. The Rules of the House read, voted, accepted. Then the House adjourn'd to May 3d curr'.

Saturday, May 3d A. D. 1735.

His Excell'y Speech was read as follows, viz.

Gen't of the Council
& House of Representatives

The last accounts by the ships from Great Britaine leave us still at a great uncertainty with respect to the War & commotions in Europe, and time alone must discover how the present Ruptures may affect his Maj'ys Kingdoms at home and his Plantations in America: Yet I think in duty to the King, as well as from a tender regard to this Province I am obliged to say, it will be a point of wisdom in you to repair Fort William and Mary, and to put it into a good posture of defence, and you cannot, Gen'l, be ignorant of the unsafe and miserable condition of the only Goal in the Province, and how necessary it is that it be speedily repaired.

Some good laws to encourage the Husbandry of the Province, and more especially the giving a handsome Bounty for raising Hemp and Flax would be a likely method for recovering your Commerce from the difficulties it labors with at present & all proper frugality would still add weight to the scale in favor of this Province.

I cannot but observe to you, Gen'l, as I said once and again to the Assembly of the Mass' Province, on an occasion something like this, of the unwarrantable attempt made here [p. 429] by a set of private Gen'l to strike & issue paper notes or Bills to pass in lieu of money. If the Legislature are restrained by his Maj'ys Royal Orders from a Practice of this Nature any otherwise than may be for the necessary charge of the Province, surely private persons ought not to presume upon it.

Gentlemen of the House of Representatives

It is now upward of four years since there has been any supply made to the Publick Treasury. When you consider how much the Province is exposed on this Head and how unrighteous and oppressive it is to all persons that have just and long standing demands on the Govern'l I hope you will make it your first care (in this Sessions) to recover the Hon'ls & justice of the Govern'ls by making ample provision for paying the publick Debts and for repairing the Fort and the Prison.

Gent. of the Council
& House of Representatives

I shall be glad to see[e] you Industriously pursuing the business I have now laid before you, that this Sessions may be short and thereby create the least expence to the good People of the Province.

The Committee for answering his Excellency's speech broth in their Draught which was read & some amendment made and read as follows: viz.

[F. 442.] May it Please your Excellency

We beg leave to assure your Excellency that this House is met with full inclination to do every thing in their Power that shall tend to the Hon' of his Maj' and the Prosperity of his subjects whom we represent. We have given your Excellency's Speech its due weight and consideration & are not unsensible of the uncertainty with respect to the War & Comotions in Europe, where tho' at present in a difficult situation, yet we hope will not terminate in a war with Great Britaine. We are very sensible of the Ruinous posture and defenceless state of Fort Wm. & Mary as also of the insufficient condition of the Prison, which together with the Treasury we shall take under our immediate consideration & shall endeavour to supply the one and repair the other in such a manner as may be least grievous and Burthenome to our Constituents according to our present circumstances. We are likewise very ready and willing to come into the making and encouraging a manufactory by giving a Bounty on Hemp and Flax, if we can find a way for raising Money for that purpose, by which we are very sensible the Trade and commerce of this Province 'would be reviv'd & industry encouraged. As to what your Excellency was pleased to mention in relation to a set of private Gentlemen's striking & issuing paper notes or Bills to pass in lieu of money, this House is not sensible wherein such an attempt is unwarrantable unless some notorious Fraude or Cheat might be design'd & discovered therein, inasmuch as we can't apprehend his Majesty's Royal Instruction to your Excellency upon the head of Province Bills was ever intended to extend to negotiable Notes amongst merchants and Traders, and we are not a little concern'd to see your Excellency's Proclamation Publishing an Act of the Province of the Massa' against taking those notes prefaced thus-'least Some unwary persons be imposed upon by the said notes or Bills,' Your Excellency is pleased to observe that it is full forty years since there has been a supply made to the Publick Treasury, and when we consider how [F. 443] much the Province is exposed, It is with the utmost concern we are obliged to take notice of an expression in your Excellency's Speech charging the Representatives of this People with unrighteousness & oppression, when your Excellency can't but remember that the former Assemblies did vote sundry sums of money into the Treasury in order to pay their debts, and the last Assembly was prevented by a sudden Dissolution, before the accounts of the Province were completed, and we must needs think that the repeated Dissolutions, which seems to compel us to a way of acting contrary to the interest of the People we represent, whatever different sentiments your Excellency may entertain, are very unhappy presidents, and that such a method would be that a Grievance not only by the representative body of this People, but by Assemblies of the neighboring Provinces. We assure your Excellency that we shall industriously pursue the Business now before us, as we have nothing more at heart than his Majesty's Hon' & Interest which is inseparable from the Prosperity of the People we
represent. And we resolve to do all in our Power to shew convincing proofs of our sincerity therein.

The same read a second time.

Mr. Secretary Bro't down the Treasury Bill with some Written objections ag' some parts of the Bill.

Then the House adjourned to the 17th Curri
Saturday, May 17th A. D. 1785

The Council's objections to the Treasury Bill read as follows: viz. 1) No Provision for his Excellency's Salary to the 25th of August next as pretended in the Bill. For there's an average of Excise in the Farmers hands of £515, and to make up that sum which will be due the Governor the afore-said 25th August the Council apprehend there must be provided a £1000.

[p. 451.] 2) The Council are of the opinion that the allowance of the Fort officers & soldiers ought to express the sum due to each, to prevent any after dispute on the Dividend.

3) The Secretary's yeare Ends 15th April, not May.

4) The Council don't concur in the paym't of £300 to Mr. Thomlinson.

5) There is no act for giving bounty on hemp, and therefore the Council don't think it proper to grant a Bounty. Some however are ready to come into a Bounty.

6) There's no Provision for a Fund for the intended Emission, for that the Bill says "to be levy'd on the Polls and Estates Real & Personal, according to the Proportions as shall be agreed upon by this Court at their Spring Sessions in the yeare 1741. Now whether there will be a Spring Sessions in 1741, is uncertain, and againe if there should be, who knows that the three parts of the Legislature would certainly agree; if they should not agree, then the bills could not be called in.

7) The Council cannot consent to the calling in of the intended Emission in any but New Hampshire Bills, nor in Hemp nor in Flax, for its vastly uncertaine when foreign Bills or Flax or Hemp will bring them into the Treasury to be burnt, which must be consumed within the yeare.

The Answer of the House of Representatives to the Council's Objections to the Treasury Bill.

1) The £515 due from the Farmer of the Excise, and the £285 in the Treasury Bill makes up his Excell'y's Salary in full to the 25th of August next. The Excise being appropriated by the Act of the settlem't of his Excell'y's Salary Its out of the Power of this House to appropriate it to any other use, and 'tis not reasonable they should make two Funds for the paym't of any one of the Establish' until there is a Total failure or Insufficiency.
2) It has been usual for all former Assembly's to make the allowances to the Fort Officers and Soldiers generally £151:10 pr annum and for the Treasurer to pay each respectively for the time of service according to the Estab-[r. 452.]lishm't the House not knowing (nor having time to inform themselves) when any officer or soldier has been altered, But say that every officer & soldier be paid according to Establish'm for the time of his service.

3) The article for the Secretaries service is now entered ye 15th of April and the Dore keeper.

4) The House adheres to the article of £300 to Agent Thomlinson.

5) With this goes an Act for a Bounty on Hemp.

6) If there's any doubt of a Spring Sessions &c. and whether the three parts of the Legislature may agree (indeed a thing that lies in supposition may as well not be as be) But instead of the words referred to It may be said to be Levy'd on the Poles and Estates &c. according to the last Proportion, for as the Gen'l Assembly shall come into any new Proportion by an Act to be made at any sessions be-tween this and the yeare 1742 for before that time the House supposes there must be a new Proportion and most Towns taken in.

7) The House is of opinion that 'tis not possible to get in all the Bills of credit of this Province exactly to the day or time limited and tho' they'll leave out the receiving any other money but New hampshire yet they think Hemp and Flax such staple Commodities that they'll be a good Fund to redeem our Bills there being an allowance made for that Trouble and the House not being willing to oblige their constituants to do that which most think impossible For many of the Bills will be inevitably lost and some in the farthest Governments.

The Act for a Bounty on Hemp read a 3d time & past to be enacted & engross'd. The Treasury Bill with the An-swers to the Council objections voted and sent up. The Bill for a Bounty on Hemp sent up.

A Mess' from his Excell' pr Mr. Secretary that his Ex-cell'y required the attendance of the House in the Council Chamber. Mr. Speaker and the House went up accordingly. His Excell'y made a Speech. Mr. Speaker obtained a Copy which is as follows—viz.
Gentlemen;

[p. 453.] This is now the 7th sessions of a General Assembly of this Province that I have attended in the course of near five years & no supply has been made to the Treasury for the payment of the Publick Debts or for the support of the Government. How much the proceedings of this and former Assemblies may convince the King of your inclinations to do every thing in your power that shall tend to the hon'r of his Majesty and to the prosperity of his subjects whom you represent I submit with great duty and Deference to his Maj's wisdom.

Had you any concern for justice and righteousness instead of making the trifling answer you have done to me on these heads you would have made ample provision for paying all the Debts of the Province; with your face can you hold up your heads before God & your People while Poor men are hal'd to a goal from their wives and families for want of the money you unjustly withhold from them & how much do you act up to the Hon'r of his Maj's & to the safety of his People while the only Fort you have lies in ruins naked of men, Powder and all other stores. Methinks Gen' you should be a Little Roused with the fears of an alarm to War when you consider in how defenceless a state you are by Sea & Land, nor is the only Prison in the Province in any better condition to answer your Ends of Law & Justice.

I think it not worth while to say any thing more in answer to the mention you made of any former house of Representatives voting Sundry Sums of money into the Treasury than that I have never yet refused my assent to any vote of a House of Representatives that has been concurred in his Maj's Council (excepting a Bill for Emitting £6000, and of which I declare'd to both Houses before their passing it that I could not consent to it as being inconstant with yr King's Instruction) but that upon obtaining his Maj's leave I would gladly do it. I am sorry you have given me occasion to mention against the unwarrantable Practice of a set of Private persons striking and issuing of papers to pass or money. Instead of saying anything to justify yr chimerical projection I wish you had past a Law upon it in that wise and Landable manner the Massachusetts Bay have done. [p. 454.] But since you have not I am obliged to let you and all the good People of this Province know how just my fears were when I issued the Proclamation you speak of.

In that I have had several complaints made to me since my coming into this Province from some unwary People who have been imposed upon by these paper notes that some of the Principle founders or undertakers in the scheme have refused to give credit to those their own notes by which they must become a dead loss in the hands of those who have parted with their substance for them and this doubtless must discover to the world a notorious fraud (which I hope was not originally design'd) and I would further observe to you gen'y on this affair that I can't see why your House (or the persons concern'd) should take a miss that the Massachusetts Assembly have not tho' with you in this new scheme, for if there be a real intrinsic value in the notes (as the undertakers ought to believe there is) the act of the Massachusetts can't take it away & then what they have done must be of service to this Province by confining these notes to a currency or circulation here because I have had constant complaints from the People of this Province how they have been drain'd from time to time of their Bills of credit from the currency they have had in the Mass'.
As I would gen’l always be tender of the Priviledges of your House so I shall be carefull to maintaine his Majesties Prerogative in using the Power he has delegated to me of adjourning proroguing & Dissolving of General Assemblies.

And this I shall do from time to time as I shall judge may most of all conduce to the Kings Honour & Interest and to the good of the People. Nor do I see any great Inconvenience in the dissolution of an Assembly since there are but twelve Towns in the Province that send Representatives and of which the most Remote is not a days Journey from the place where you commonly sit and an Assembly according to the Law of the Province can always be conven’d in the space of fifteen days from the date of the King’s Writ. But be this as it [p. 455] will as I have at no time invaded the Rights of your house I think it had well become you not to have mentioned any thing to me that carries the face of Bearing upon his Majesties Just Authority. The Assemblies of the Province have at one time & another sat near Seventy weeks & the supply of the Treasury (an affaire of the first and highest nature) has been neglected & the time spent in matters of Little or no consequence & the good people you Represent loaded with a great charge to no purpose, and as to the assurance you made me at the opinions (?) of this Sessions of Industriously pursuing the Business then before you & of having nothing more at heart than his Majesties Hon’l and interest & the prosperity of the People you Represent. You having now sat the usual time of a Sessions of an Assembly and having done nothing more than passing a Bill for a Bounty on Hemp must convince the world that you have in your whole proceedings given proofs of a pretended Sincerity & that you have been Actuated & Deluded by such as have no regards to the Kings Hon’l & Interest who have it not in their Power and (if possible) less in their nature to do an act of Goodness or Respect to this People: But are playing mean Low games to accomplish (if they cou’d) their sinister views, while you therefore and the good People you represent suffer yourselves to be Imposed upon from time to time by the notorious falsehoods such persons bruit about you cannot practice your duty to God to your King nor to your Country.

I have therefore on consideration of what is now laid before you directed the Secretary to dissolve this Assembly hoping this Electors in the several Towns will for the future act with their eyes open and be no longer abus’d by designing men who have no complaints to make within the Rules of truth and justice and who have nothing at heart But to gratifie their Ill nature from a disappointmient in their private views: I say when the People calmly consider these things I believe they will hereafter send such to Represent them as will [p. 456] honestly pursue the Real Happiness of this Province and People.

May 17th 1785. J. BELCHER.
And then Mr. Secretary Declared the Assembly.

Dissolved Accordingly.

The above answers voted to be sent up.

The answer to his Excellency's Speech Read & accepted and is as follows, viz.

May it please your Excellency—

We the Representatives of his Majesty's Province of New Hampshire now met in Genl Assembly having received your Excellency's Speech wherein you only in a few words refer us to what you have once & again mentioned to other Houses assure you that we shall take all these things into our consideration & whilst we look back upon what has been laid before former Assembly's we cannot forbear taking notice of what you was pleased to offer at the Dissolution of the last, to which we had most of us the Hon' to belong, as in that Speech of your Excellency a very heavy charge was drawn up against us, which we think ourselves innocent of, were we wholly silent we might well be thought destitute of the first Principles of Nature, and be guilty of such a neglect of ourselves as would be culpable in [p. 465] the sight of God and man.

One thing your Excellency there accuses us of, is the being void of justice and Righteousness, and having no concern at all for it, an odious imputation we confess, and what we trust we shall always abhor. But how we can be thought to fall under it is very surprising to us, when to say nothing of what was done by former Assembly's (which we think if set in a true light would be sufficient for their defence) We then voted an ample supply of the Treasury & made provision for the payment of all the just debts of the Province within our knowledge. Indeed it was delayed for some time, But for no other reason but for fear of laying oppressive Burdens upon the People, and in hopes of being relieved from the limitation we were under by the Royal Instruc- tion to your Excellency as to the time of paying in our Publick Bills, and that year Period fixed to that purpose might be prolonged. But being disappointed in our Expectations, We at last broke through all difficulties to comply with your Excellency in making provision for the supply of the Treasury, in which supply Bill there was a small matter voted, viz. £300 of this currency to a Gent we had made use of at home as an agent in settling the Boundaries between this and the neighboring governmt. Your Excellency very well knows that we have always looked upon this as a thing of considerable consequence to us. And that we have thought ourselves great sufferers by its being so long delayed, and your Excellency may remember that we have done every thing in our Power to have that Business accomplished among ourselves. And when despairing of having that affair determined any other way we applied to his Majesty in order to do it, and Implored a Gent to assist us in the Business, of whose inclinations & capacity to serve us we are very well assured, and who has accordingly been at considerable cost and pains in [p. 467] order to do it, & we have reason to think
has brought the matter to a Conclusion. We cannot but look upon this charge he has been at among the Publick Debts that ought to be defrayed. And if your Excellency and his Majesty's Council rather than consent to the payment of this, will not allow the other Debts to be discharged, we cannot think it possible for us for the future to heare you Expressing any pitty for those that are sufferers for want of what is due to them from the Publick. As to your Excellency's solemn expostulation how we shall be able to hold up our heads before God and the people, we shall only say, that as to the People, we shall always be able to hold up our heads before them, as long as we never betray their Trust, and very well know that it's the opinion of the generality of them, as well as of our own that we are pursuing their true Interests. And as to your Excellency knowing how we shall hold up our heads before God, we must pray your Excellency to wait till that time, when you and we shall appear before him without distinction, and when our talking never so much of God and religion without something answerable to it will turn to no account to us.

To pass by a great many Reflections which we think undeservedly cast upon us in the Body of that Speech, your Excellency is pleased to close it with a Charge of being actuated and deluded by those that are playing mean and low Games & have it not in their Power (and if possible) less in their nature to do an Act of Goodness & Respect to this People.

To which we say, that in what we have done, we have pursued our own sentiments; that we know of none that have sought to mislead us. That had any attempted it, It would have been to no purpose. That whoever your Excellency may aim at we think it pitty but that so severe an aspersion upon them and us had been spared. Did your Excellency receive no more influence and impression from such as you describe (than those against whom [p. 488] you lay so heavy a charge) we doubt not but that there might have been a better agreement between your Excellency & his Majesty's good subjects of this Province, who have always been Remarkable for paying a due reverence to their respective Governors, and for doing every thing they could reasonably expect or desire of them. And now whatever may be insinuated to our disadvantage, and after all the prejudices that may have been conceived against us, we assure your Excellency we are come together, with a disposition to do every thing (if any remains that have not been done by former Assemblies) that was in their power to do) for the Honour of his Majesty and for the true Interest of the People we Represent.

That we no sooner made a reply to what was laid before us at the opening of the Sessions was because the House was divided into Committees and had passed into a Resolve agreeable to a Message sent up to your Excellency the 24th April last, they would do nothing till they had made provision for the supply of the Treasury.

Andrew Wiggin, Speak'r

May the 4th Read and voted to be sent up with the Treasury Bill.

Then the House adjourned to the 5th curr'.
Wednesday, May 5th A. D. 1736.

A Mess* from his Excell* pr Mr. Secretary, viz. That by his Excell* order the assembly was adjourned to Saturday next.

Saturday, May the 8th A. D. 1736.

Province of New hampshire: In the House of Representatives:

Whereas the House of Representatives for this Province hath from time to time for sundry years past, authorized and employed John Thomlinson Esq. as their agent at the Court of Great Britaine, to sollicit and use his utmost Endeavor to obtaine a settlem* of the Boundary Lines Between this His Majest* Province, and the Province of the Mass* Bay, which we are [p. 469] informed he is in a fair way to effect, and inasmuch as the said Ass* could never obtaine a concurrence at the Council Board on any of their votes, for raising or paying any small sum of money towards the defraying the charge the said Thomlinson has been at in that affaire, and to enable him to proceed further therein, By reason as we conceive of the great and undue influence his Excellency hath over a Majority of the Council, most of whom have been Employed & put into posts of Profit & Hon* by his Excellency; Wherefore, voted the same to be a grievance, and that Andrew Wiggin, John Rindge, James Clarkson & Ebenezer Stephens, Esqs. Capt. Edward Hall, Capt. Ichabod Roby & Mr. Samuel Smith, be a Comittee of this House in the Recess of the Assembly, and in case there be a Dissolution, to address his Majestie in this and such other affairs as may be necessary, to set the state of the Province in a true light before his Maj* and that they transmit also all such votes and Papers of this House as they think necessary to the Right Hon* the Lords Comiss* for Trade and plantations, humbly praying their good offices in Redressing the grievances That his Maj* Govern* labors under.

May 8* 1736. Past in the House unanimously.

A Mess* from the Council pr Mr. Secretary, viz. That the Council was doing something on the Treasury Bill and prayed the House to wait a little.

The Supply Bill hereunto annexed being sundry times
deliberately read at the Board, the Council concur therewith with the following amendments, viz.

1) That the word (therefore) in the 5th line be obliterated.

2) That there be an addition of £300 to the articles of Provision for the Govern^r^ Sallary, to be paid him the 25th of August next, when it shall become due according to Act of this Court.

Wednesday, May 12th A. D. 1736.

Mr. Secretary & Joshua Pierce Esqs came down, Mr. Secretary said he had a Mess^a^ from the Council which he read as follows, viz.
Gen't of the House of Representatives

We could hardly think it consistent with [p. 471] the Trust reposed in us by his Majesty to join with you in any acts of Govern't after your unparalleled and unprudent answer (so full of first Principles of Nature and void of those of Grace) to his Excellency's Speech had been read at the Board. But breaking through the difficulty we have the'd proper to make some concessions, which we trust will arrive to the world, to whom the odious imputation of Injustice and unrighteousness (which you say you abhor) does belong. Had the guilt as well as the imputation been abhorr'd, it is likely our Public affairs had not been in their present unhappy situation. There has been no supply in the Treasury for five years past, and as there is now due from the Province between four and five thousand pounds by your own computation & settlem't and no Provision made for the paym't now where the fault lies is the Question and that must be on you or us, His Excellency having nothing to do with the affaire till the two Houses are agreed. For the three first years of the five, the cry of the Representatives was the Extreme Poverty of the People, their disability to pay their debts (when the sum amounted not to a thousand pounds) and the inhumanity of filling the goal with poor prisoners, these were the compassionate groans of former Assembly's (to which some if not the most of you had the Hon' to belong) and thus were the honest Creditors sigh'd & sob'd out of their just dues for some years. When these melancholy stories of Poverty and prisons were worn threadbare 'twas then Briskly reported that there was advice from Whitehall that the next ship would certainly bring an order for Emitting 40,000 & Extending the funds beyond 1742, & the next Post, and then the next Carrier would certainly bring it, & the application of this piece of Whitehall intelligence was, what pitty it would be to Tax the People or to make a new Emission to be repay'd within the year 1742, when so fine an order was so near at hand. But tho' the said next ships long since arriv'd & the [p. 472] said next Post and next Carrier long since came to Town, it seems the order is yet behind, agreeable to which are your own words (speaking of the supply of the Treasury) viz. "Indeed it was delay'd for some time but for no other reason but for fear of laying oppressive burdens upon the people and in hopes of being relieved from the limitation we were under by the Royal Instruction to your Excell'y, as to the time of paying our Publick Debts, and that the period fixed to that purpose might be prolonged," and then you go on ingeniously to own what is the cause there is no Provision for the payment of the debts, for speaking of the Treasury Bill you say "'In which supply Bill was a small matter voted 300 of this Currency to a Gen't we perceive has not been well accepted." Now after the solemn cry of Poverty, Prison & oppressive burthens for you to endeavour to enhance those oppressive burthens, & subject your principles to a greater danger of the Goal than when Prison was the cry, and at the same time to boast of not betraying the Peoples trust is to us irreconcileable.

You have observed Right that the Gen't to whom you have voted 300 is not well accepted (& well you might perceive it) who has lately signed a Petition to his Maj'tie in behalf of a person here Proposing to have this Province under a separate Govern't from that of
the Massachusetts, which we Esteem a most pernicious Essay tending
to the Ruine and destruction of the Province, and moreover in the
said Petition are suggested sundry things, which we know are not
true, and besides the attempt made by that Gent against the interest
of this Province, in the aforementioned Petition, we have great Reason
to believe he has been busy too in getting one of our Laws repealed,
Either of which we think sufficient Effectually to disqualifie him from
being an agent for this Province and consequently from having any
Remittance from us. Besides all this [p. 478] in the yeare 1731, the
then House of Representatives (to which some if not most of you had
the honor to belong) Desierd the Council to joyne with them in Chus-
ing an agent to get the Line settled, and for the Council's Encourage-
ment therein Represented to the Board that there were a certain num-
ber of Gent' who would subscribe considerable sums out of their own
private purses for carrying on the affaire, upon which the Council
made a Message to the House in the following words: "The Council
desier to be informed who the Persons are that are so bountifully dis-
pos'd, what sums they will advance, and when it will be paid, and
whether the House has yet gotten any security for the same." To
which the House reply'd: "In case the Council should see meet to
Joyne with the House in those affairs, we should readily convince
them that we had the offer of a private subscription to the value of
two or three hundred pounds sterling, from the members of this House
from whom this House desires no other security than their own Bill
payable to some suitable person in Great Britaine." How then can
you Insist upon the security of an act now, for money to carry on that
affaire so contrary to the declaration of that House: and besides
has't the undertaker in that affaire solemnly declared in the House
of Representatives once and againe that he would demand nothing of
the Province towards the settlem' of the Lines till the business should
be accomplished & that then he would rely on the generosity of the
Province; why will you then burthen the Poore People with sums
that are neither due nor so much as askt for, & why won't you let the
generous Gent' that subscribed to carry on that affaire have the honor of
accomplishing it at their own cost, and if they should desier a Re-
imbursm', let the Gent' Court take it under consideration when the
work is done. [p. 474.] However, notwithstanding all these things,
We have consented to the Treasury Bill with an amendm', by which
you might have had the sum you desier'd & disposed of it as you should
see meet, tho' we could not joyne with you to own an agent when we
had none.

May 12th 1736. Voted in Council & ordered to be sent
to the House of Representatives.

Rich'd Waldron, Secy.

Then Mr. Secretary Read a Mess' from his Excell' in the
words following.

Gentlemen of the House of Representatives—

Your indecent answer to what I said at the opening of this Sessions
is such an Insult on the King in the Person of his Governor, whom he
is Pleased to call the Representative of his Royal Person, and your
unreasonable Refusal to supply the Treasury (notwithstanding the cou-
cessions made of his Majesty's Council) make it inconsistent with his Majesty's Honour as well as with the Interest and safety of his People of this Province, that I suffer you to stand any longer as members of a general Assembly.

I have therefore ordered the Secretary to declare my Pleasure to you that this Assembly be Dissolved.

May 12th 1786.

Then Mr. Secretary according to his Excellency's order and Pleasure,

Declared the Assembly to be Dissolved.

Burning of the Secretary's Office—1786.

Letter from Hon. Richard Waldron, Secretary of the Province of New Hampshire, to Governor Jonathan Belcher, at Boston.

Portsmouth, May 21, 1786.

May it please your Excellency,

I am obliged to beg pen, ink and paper to tell your Excellency I received your favor by the Post, and how heavy the hand of heaven lyes upon me. A Tuesday between 8 and 9 o'clock in the morn, a spark of fire from my kitchen chimney (as I suppose) kindled a flame in the roof of my house, which in forty minutes laid it in ashes (the wind being very high). I esteem the burning of my cottage no great loss; but what was consumed within it makes a deep hole in my little fortune, which I never expect to see mended. All my clothes and linen, with my wife's gear and appurtenances, are laid in the dust. We had only time and presence of mind enough to save our lumbering stuff, such as tables and chairs. We are almost reduced to the same degree of nakedness as when we came into the world; and to aggravate my sorrows, my poor wife is almost inconsolable. But I desire forever to remember with great thankfulness the mercy I have experienced in the visitation—namely, that no life was lost, and that my flight was not in the night. I hope the Infinite God intends me good from the repeated strokes of his irresistible arm, and that they will be productive of the peaceable fruits of righteousness.

Most of my books and papers are lost, and what of the public records and files are saved, I cannot say as yet, but believe hardly any of them, I had begun to copy for Whitehall, but copies and originals are both consumed.

[From the Boston Weekly News-Letter, No. 1888, May 20th to May 27, 1786.]

Portsmouth, May 21, 1786.

Last Wednesday morning, about 8 o'clock, a violent fire broke out at the top of the roof of the Hon. Sec'y Waldron's dwelling-house, situated on the plain, within a mile of this town. The wind being high,
and but little help near at hand, 'twas consumed to ashes in three quarters of an hour. 'Tis judged the cause was from a spark falling out of a linten chimney (which was lower than the house) among the shingles, and kindled. The fire was so furious and quick that nothing could be saved out of the upper rooms. The whole family (through mercy) was saved. The flames consumed all their apparel, &c. excepting what's on their backs. Seven feather beds were saved, with most of the books, papers and plate.

Chester Petition.

[Copied from MS. Corr. in Secretary’s Office, Vol. 1, p. 80.]

To his Excellency Jonathan Belcher, Esq. Govt. and Commander in Chief, in & over his Majesty’s Province of New Hamp’, the Hon: his Majesty’s Council and House of Representatives.

The Petition of sundry of the Inhabitants of Chester in the Province of New Hampshire.

Humbly Sheweth,

That your Petitioners tho’ at present Inhabitants of Chester aforesaid formerly belonged (most of them) to the kingdom of Scotland & Ireland, where they were Educated in the principles of the Kirk of Scotland, for which they have a great veneration—that while Mr. Moses Hale was the minister of the Town your Petitioners paid taxes towards his support tho’ they went many of them to Londonderry to meeting, & most, if not all of them constantly to receive the sacraments, not being then in a condition to settle a minister of the Presbyterian order:—After Mr. Hale’s misfortunes had necessitated him to lay aside the work of the ministry, the Town being Destitute of a Gospel minister, your Petitioners proceeded to call & ordain a minister of that Denomination among them, tho’ scarce able to defray the charge, that they might worship God & enjoy the ordinances of the Gospel in a way (which they apprehend) more agreeable to Scripture & the primitive pattern, at least more agreeable to their consciences, than they could among the Congregationalists:—That during the time that y’ Town was destitute of a minister of the Congregational order your Petitioners often Invited their Brethren of that Denomination to joyn with them, if not longer, at least till they were better provided for, & that such conformity should be no Expence to them, for that your Petitioners would support their own Minister themselves; But they refused to accept the offer.—That about two years after Mr. Hale had left Chester those of the Inhabitants who differ in sentiments from your Petitioners in conjunction with the non-resident Proprietors proceeded to call & settle in the Town a Congregational Minister who is still there—That your Petitioners apprehending that those who had called & settled such a minister would be for supporting him by a tax on all the Inhabitants represented to them in their Public meeting & to the Select-men of the Town, that it was highly unreasonable and unkind, all things & cir-
cumstances considered, to oblige your Petition to pay towards the support of a minister they did not call nor hear when settled, &c. & prayed they might be exempted, & the rather because they conceived themselves to be such Persons as were intended & Exempted by the Provis in the Law of the Province Entitled an Act for maintenance & supply of the Ministry within this Province: But all would not prevail. The Selectmen of the Said Town have rated all the Inhabitants without Exception of any Sect, & have Distraint & Imprisoned some of yo Petitioners for such Rates.

Your Petition therefore pray the aid of this Court as the Dernier resort of the Distressed that you would be pleas'd in yo great wisdom and Goodness to Explain the Proviso in the aforesd Act, & say whether yo Petition are Exempted thereby from being taxed to the settling & support of the said Minister. And if your Excellency & the Honble the other Branches of this Court shall not think the Law already made excuses your Petition from the aforesd Charge, that you would be pleased to Commiserate the case of yo Petition (seeing as it now stands, they must either act against their own Judgment, or dearly purchase the liberty of the contrary) and make a special Act whereby they may be discharged & Exempted from bearing any part of the Burthen of settling & supporting any minister except their own, & from pays the aforesd Rates already made, and that such may have their money allowed them from whom the same has been distraint by virtue of the aforesd Rates: And yo Petition as in duty bound shall ever pray, &c.

Whereas the vote of this Gen'l Court of the 13th Inst. empowering the Committee appointed for laying all papers &c. before the Hon'ble Comissa'n for settling the Boundary Lines, to agree with such Committee or agents as [p. 508] should be appointed by the Gen'l Court of the Mass. upon any Draught or Draughts of the Rivers Merrymack & Newitchwannock, in pursuance of the 8th vote, we attended at the time and place therein mentioned, but heard nothing from the Mass. Committee until the day following at Portsmouth, by a letter which is herewith offered. Proposing a meeting at Salisbury on Tuesday the 19th Inst. at 10 o'clock before noon, when and where we the Subscribers did Repair: But not being empowered by said vote to Transact any affair therein mentioned out of the Province did not presume to make any agree't on any Draught, But having viewed a Draught Exhibited by said Committee Containing a Plan of the River Merrymack, and the River from thence to Winnipissioke Pond, which being proposed by both Committees to be laid before the Respective Gen'l Courts for their approbation, and we having viewed the same and find it differs in nothing material from the Plat or draught made use of in this affair in England and now on the Files of this Hon'ble Court, and altho' the said Draught may not be Exactly Right in every particular yet that the affair in controversy may not be Litigated or hindered, we humbly propose to this Hon'ble Court that they (when the said Draught shall be paid before them) do approve & allow of the same, to contain a Plat of the river Merrymack from the mouth thereof where the Water runs into the Atlantick Ocean to the head of the said River, viz. at the Falls about a mile above Haverill Meeting House, and from thence a Plat of the River Winnipissioke till it comes to the head thereof, viz. the Great Pond Winnipissioke, together with the Falls & Mouths of the Rivers emptying themselves into the same. We also humbly offer a Draught of the River Newitchwannock to the furthest head thereof which we apprehend contains a true Plat of said River as it was [p. 504] formerly taken and lately surveyed by Mr. Cyprian Jeffry,—all which is humbly offered and submitted to the Consideration of this Hon'ble Court, By

Province of New Hampshire,

August 20th 1737.

In the house of Representatives.

Pursuant to the Recomendation of the Hon'ble court of Comissa'n for to agree upon a Plan or Draught of the River Merrymack to be laid before them & having now before this House a Plan or Draught presented by Gen'l Court of the Mass. for this Court to agree with them upon to be present-
ed the Honble Court of Comiss' and upon Examination of
the aforesaid Draught we find the compass on said Draught
not to be true, But in as much as it will not be of any great
importance, the Mistake of the Compass, by Reason his
Majesty Comiss' Requires a Plan or Draught not for marking
out or settling the Boundarys between the two Provinces by,
But to give a Right understanding of the Controversy be-
tween the Provinces only:

Therefore voted, That the annexed Plan be presented the
Honble Comiss' to give them an Idea of the Course of the
Water from Winnipissiokee Pond to where it emptys itself
into the Atlantick ocean. But we know of no such name as
Merrimack River any further than from the Rivers mouth as
far as the salt water flows, or to the first Falls about a mile
above Haverill Meeting-house and from thence a Plat of the
River Winnipissiokee till it comes to the head thereof viz. the
Great Pond Winnipissiokee ; and as to the Channel at the
Rivers mouth where it Emptys itself into the Atlantick, we
know of no such alteration [p. 505] that it is to the southward
of where it used to be formerly, nor do we know of any
such thing as the Black Rocks or Indicots tree ever to be
any bound mark between the Provinces.

And it is also voted that the Plan of Newitchwanock
River, taken by Mr. Cyprian Jeffry be allowed by this House
to be a true Draught of s' River to the Ponds & direct the
same to be laid before the Honble Court of Comiss' for the
ends above said.

A vote of Exceptions to the Judgm* of the Hon* Comiss* relating to the Boundary Lines was drawn up and Read, as follows, viz.

Province of New hampshire, Oct* the 14th 1737.

To the Hon* the Comiss* appointed by his Maj* Comiss* under the Great Seale, to settle the Boundary Lines between his Maj* Province of New hampshire and the Province of the Mass* Bay in New England:

Forasmuch as his Excellency Prorogued the Gen* Assembly of this Province at their last sitting before they could know the Judgm* of the
Respecting the Boundary Lines of this his Majesty's Province to the day before the said Court of Comiss' was adjourned to meet in order to receive [p. 513] the appeal of Either Province, that should think themselves aggrieved, at which last meeting of the Comiss' Either Party aggrieved, was to give in an appeal from which part of the Judgm't as they should think erroneous & not afterwards, and this Province, being thereby stript of the Benefit & advantage of appealing from such part of the Comiss' Judgm't as they should think unreasonable and Prejudicial, and that his Majesty might not think this House satisfied with all parts of the said Judgm't.

Voted, That his Majesty's Province think themselves aggrieved by said Judgm't in the following particulars, viz. On the Southern Boundary, in that the Judgm't says, Beginning at the Southerly side of the Black Rocks so called at Low Water mark, when those Rocks are about a mile from the mouth of the River Merrymack, and near three Quarters of a mile north from where it Emptys itself into the Atlantic Sea or ocean. 2ndly From a Parallel Line with the River in case a crooked Line should be run (which by no means we are humbly of opinion ought to be admitted) For we object against the running a Crooked line Parallel to the River it being founded upon the old Charter of the Corporation of the Mass'a Bay long since vacated.

Yet in such a case it ought to begin three miles to the north of the mouth of the River Merrymack at Low water mark where it Emptys itself into the Atlantic Sea or ocean, & in that manner to run no further than the River hath a Westerly course and not to run Parallel to the River where it runs north & south, at three miles distance from the River and far beyond where wee apprehend it was formerly called Merrymack and more Particularly because the Province of the Mass'a Bay [p. 514] now holds under the Charter of Wm & Mary which never intended a Crooked Line.

3rdly As to the Northern Boundary we object against that part of the Judgm't that says "through the mouth of Picataqua Harbor & up the middle of the River," Because we humbly conceive that Mr. Gorges Patent by which the Mass'a claim, doth not convey any Right to the River, for the whole of that River and the Jurisdiction thereof hath ever been in the possession of this Province, & never claimed by the Massachusetts, and this Province in order to preserve & safe guard the same have always had a Castle and maintain'd a garrison there. And the Committee appointed by the Gen'l Assembly of this Province to lay all papers and Evidences relating to the affair of the Lines before the Commissioners are hereby directed to p'sent this vote immediately to the Court of Comiss' for settling the Lines & pray that the same may be entred at Large in their Minutes & made part of their Records.

In Council, 8, 18th 1737.

Whereas the Comitee chosen by the Genl Assembly to attend the Honble comissrs appointed by his Majtie for settling the Province Boundarys have presented an account to the Genl Assm amounting to £703:17:7. But not producing Receipts in support of the said account for so much as one halfe of the sum of the £500 which the said comitee have already rec'd. Therefore voted, that the said account ly for further consideration till sufficient and proper vouchers shall be produced to the satisfaction of the Genl Court.

Richd Waldron, Sec'y.

In the House of Representatives.

The articles of the within account Read and the Return of the comitee thereon and also the vote of Council thereon of 8th 17th 1737.

Voted, That the Return of the Comittee be received and that the account be accepted and the Ballance paid as soon as Provision is made for the same.

Whereas this House on the 17th day of [p. 522] August last past presented a vote for the sum of £500 for the paymt and defraying the charges that hath accrued in settling the Lines, which said vote was non-concurr'd by his Majt's Council, and as this House then apprehended it was for that the charges were not bro't in to the genl assembly for allowance, since which an account of £703:17:7, part of the expence hath been laid before the genl Court and allowed by the comitee of audit of both Houses to be well vouch'd & Right cast, so that all his Majt's council (Except two) hath allowed under their hands the said account to be just and Right:

Yet so it is that the said account is disallowed, by a vote of his Majesty's Council, and inasmuch as the said account of Expenses seems to be just and Reasonable & every article expended according to the true Intent of the genl assembly, This House has allowed and voted the same accepted, and there will yet be wanting neare a £1000, and in as much as his Majtie in Council the 9th of February 1736, by consent of the agents of both Provinces did order the charges of the comission and the Execution thereof to be equally born by both Provinces agreeable to which the Honble Court of comissrs hath passed their judgm't, and in as much as this House thinks it a great Indignity to his Majtie and an abuse to his Majt's Comissrs that have with great fatigue & trouble
attended on the said service of settling the Boundary lines if
their Expences should not be paid and they Honble recom-
pensed for their time and trouble:

Therefore that the Fault may not lye at the door of this
House, voted that the [p. 523] £5000 Blanck Bills—now in
the Treasury be sign’d off by the [signers of the last] emission
and put into the Treasury for the paym’t of £202:17:7, the
Ballance of the acct. past this day in this House and the re-
mainder of the said £500 be for paym’t of what is yet unpaid
by the Comitee on the part of New hampshire to the Comiss’n
after the rate of twenty shillings pr day for each Comiss’n
for each day they have been in Execution of the said Com-
iss’n and that for paym’t of the Clerks and surveyors as far as
the said £500 will go, and that the Treasurer be directed to
pay the same to the Comitee that attended the affair of
the Lines for the paym’t aforesaid as soon as may be.

And further, for paym’t of the said Comiss’n the Clerks,
Surveyors and others charges there be a new Emission of the
sum of £500 struck off of the new Plates the ½ pt. thereof
on the small Plates and the other ½ on the Large Plate &
sign’d off by the same Signers that sign’d the last Emission
and put into the Treasury & that the Treasurer be directed
to pay the same to the Comitee aforesaid for the paym’t of
the said Comiss’n &c. as aforesaid, and that they render an
account to the Gen’l Assembly how expended in that affair.
And for a fund for paym’t of the same, That it be paid by a
Tax on the Poles and Estates of the Inhabitants of this
Province and paid into the Treasury—the one halfe on the
25th of December in the yeare 1739, the other halfe on the
25th of December, in the year 1740 and that an Act be
drawn up accordingly.

8th, 19th, 1737.

The vote of the 19 curr’t for the Comitees of New hamp-
shire & Mass’t to account,
The account as audited & votes thereon [p. 524] and the
above vote all sent up for concurr’t.

Whereas the Honble Comiss’n have now given in their final
Judgm’t and Determination on the affair of the Lines and
have received the Appeals and Exceptions of the Provinces
and their is money wanting to carry on the affair before his
Majesty in Council,

Therefore, Voted, That besides what is mentioned in other
votes of this day there be the sume of £1000 in Bills of
Credit Emitted & Struck off on the new Plates, ½ part thereof on the Small Plate & ¼ parts thereof on the Great Plate and sign'd off by the Signers that sign'd the last Emission & put into the Treasury, and that the Treasurer be directed to pay so much of the said sum of £1000 to the Comittee appointed to manage the affaire of the Lines as will purchase a Bill of Exch to the value of £100 sterling, the remainder to lye in the Treasury for further Supply if wanted and if not wanted then to be for the pymt of other Debts as the Gen'l Assembly shall order, and that as the aforesaid Comittee is very well acquainted with all the Papers and Records relating to the affaire of the Lines that they still proceed in the affaire & transmitt the Case home to the agent with the Bill aforesaid & proper Instructions to proceed as the affaire may Require and for a fund for pymt of the same into the Treasury againe, That there be a Tax laid on the Poles and Estates of the Inhabitants of this Province payable into the Treasury on the 25th Day of December 1740, the sum of £500 and the like sum of £500 payable into the Treasury on the 25th day of December [p. 525] 1741, and that an Act be drawn up accordingly.

8th 19th 1737 Sent up for concurrence
Then the House adjourn'd to the 20th Curr.

Thursday October the 20th A. D. 1737.

The following vote was Br't down from the Council and Read. viz.

In Council 8th 20th 1737.

Voted That the £500 Blanck in the Treasury be immediately Sign'd off by the signers which sign'd the last Emission and put into the Treasury and that the Treasurer pay the Honble the Comiss'n so much out of the same as to make up twenty shillings pr day for each day of their being in the Execution of their Comiss'n for settling the Lines.

The same day read in the House and non-concurr'd

The above vote of Council Read and find the Council by this vote & a former has seem'd to make Provision for pymt of the Honble the Comiss'n for each day of their being in the Execution of their Comiss'n for settling the Lines and in neither of the votes taken any notice of the charges & pay-
m' to any of the Clerks, Surveyors, doare Keeper &c.—
Which in the Judgm' of the said Comiss' says shall be
equally boarn by the Respective Provinces, and whereas
there are votes of this House that have been some time with
the Council which makes Provision as well for the officer
as Comiss' (and all money Bills first proceeds from this
House according to all Parliamentary proceedings) There-
fore this House non-concurs [p. 526] the above vote of
Council and adheres to their own votes for the raising money
for the paym' of the Comiss' (who are gone before the
above vote of Council came to the House) and for paym' of
the officers & charges accruing by Entertaining said Co-
miss' &c.

The vote of the House of the 19th curr' for the Committees
of New hampshire and Mass* to account sent down non-con-
curr'd.

Whereas the Honble the Council on the 17th Curr' sent a
vote to this House "That they are of opinion that 'tis not
for the interest of the Province to appeal or defend against
" any appeal made or to be made from the Judgm' of the
" Honble Comiss' in the affaire of the Lines, But that it is
" best humbly to submit the matter as now stands to his
" Maj'ele Royal Pleasure;" and since the Mass* has made
their Appeal in Form, and this House has put in their paper
of Exceptions & that the agent may be well Inform'd of the
matter & the proceedings about the same, and to prosecute
the affaire to effect before his Maj'as in Council until 'tis
finally ended, And Whereas the Comittee that has managed
that affaire has full knowledge of the same, Therefore Voted,
That they are hereby fully Impower'd as this House can do
to transmit all the case and further Places as the same may
require to Mr. Agent Thomlinson and to prosecute & defend
the same and to give him such directions & Instructions as
they shall think best. Voted unanimously.

Voted on Portsmouth South Parish Petition that it be
heard the 2d day of the Sitting of the [p. 527] Gen: Ass'n
next sessions.

Voted that Rye and Hampton affaire be continued to the
2d day of the sitting of the Assembly next Sessions.

Whereas the Honble Comiss' has now made an end of
their Court & made up their Judgm' and finall Determina-
tion from which the Mass* Bay has filed their Appeale in
Form, and this Province of New hampshire (That is the
Committee by direction of the House of Representatives) has filed their Exceptions to what they tho' t convenient and whereas the affaire has been attended with great expense and this House has endeavoured to Raise money on the Publick, But the Council will not come into Raising any money or to prosecute any appeal or Exception or defend against the Massachusetts Appeal: But that the affaire may not fall through after so much Expence and so faire a prospect of obtaining our desires, This House has tho' t fit to appoint & authorize the Committee that has mannaged that affaire before the Comiss[a] to transmit the copy of the case home to the agent & to prosecute and defend the same to finall conclusion, and since his Maj[e]s Council will not come into any measure to Raise money to carry on that affaire nor to pay what is already Expended, Therefore this House thinks it very reasonable to Recommend it to the several Towns in this Province for the Inhabitants to contribute what they please to carry on the affaire before his Maj[e]s in Council (which they may put into the hands of some of their Inhabitants to be paid said Committee for the use aforesaid) & that an Acc't be kept of each man's subscription that if the Publick shall [p. 528] hereafter pay the charges each p'son may and shall receive his money againe or some other ample satisfaction.

JOURNAL OF THE GENERAL ASSEMBLY

UNDER THE ADMINISTRATION OF

GOVERNOR JONATHAN BELCHER,

From August 25, 1730, to October 20, 1737.

[Copyied from "Journal of Council and Assembly, 1729-1742," in Secretary's office.]

[NOTE BY THE EDITOR.]

The following Records of the General Assembly from the beginning of Gov. Belcher's Administration, August 25th, 1730, to the determination of the Boundary lines by the Commissioners, or to October 20th, 1737, are very scanty. During the aforesaid period, the Council, or a majority of them, with Gov. Belcher at their head, opposed all the measures of the House in relation to the boundary lines. Consequently, the House was obliged to assume responsibility and in a degree to act independently of the Council; but with ability and persistence worthy of the cause, they carried most of their measures through, and with the aid of their wise and distinguished agent, John Thomlinson, Esq., of England, finally gained their object. In transcribing this "Journal of the General Assembly" the Editor has made an exact copy of all the proceedings, but has taken the liberty to omit the frequent repetition of the names of the Governor and Council, at the several sessions, instead thereof often saying, [Present as before]; to avoid duplicating the record, frequent reference is made to the "Journal of the House."

The affair of the line is of such consequence to the Peace of this Province that I hope you will let nothing postpone your consideration of it and as the Masses have chosen three Gentlemen of unexceptionable knowledge and integrity I should think it would be wise in this Assembly to agree to the choice they have made, and to add to them two more in which I should not doubt a hearty concurrence of the Masses and it must doubtless give the best prospect of success if both Assemblies agree in the same men. I hope and believe you will so proceed as that ye world may see you are sincerely desirous to see a happy issue of this uncomfortable affair.

His Excellency was pleased this day to appoint Richard Waldron, ('*) Sec'y and accordingly signed his Commission

In Coun. Dec. 1, 1730.

Upon reading the report of the Committee appointed to examine Dover Town-book.

Voted, That another Committe be chosen to make a more Exact and particular Inquiry into the several grants and returns in said book, supposed to be corrupt and vicious; and that they have full power to summon & examine [p. 48] any Person or Persons upon oath, in order to discover the truth as far as may be, and any Person or Per-

(*) Richard Waldron [jun.] above named as Secretary, was the son of Richard Waldron Esq. who died Mar. 30, 1730, aged 80, and grandson of Major Richard Waldron, of Dover, who was killed by the Indians, 1639. He was born February 21, 1694, and graduated at Harvard College in 1712. He first resided on his paternal estate in Dover, but removed afterward to Portsmouth, and lived on the plains. On the decease of his father he was appointed Secretary of the Province and soon after, Councilor. In 1737 he was appointed Judge of Probate. He retained these offices as long as Gov. Belcher was in office; but, soon after Governor Benning Wentworth commenced his administration, he suspended Mr. Waldron as Councilor, removed him from office, and appointed Theodore Atkinson Secretary, and Andrew Wiggin, Judge of Probate. In 1749, he was elected a representative of Hampton, and when the Assembly met, was unanimously chosen Speaker but was not accepted by Gov. Benning Wentworth; hence arose a conflict between Gov. Wentworth and the Assembly, and a conspiracy to remove the Gov* from office. Mr. Waldron was a person of distinguished talents and literary acquirements. A strong friendship existed between him and Governor Belcher, which continued through life. He died in 1753, aged 59.

(i) Note. In the proceeding pages of this volume (as also in vols. II and III) the name of Plaisted, particularly that of Col. John Plaisted, frequently occurs. Since those pages were struck off, the Editor has received from the following notice of Col. Plaisted:

Col. John Plaisted was the son of Lt. Roger Plaisted, of Kittery, in the Province of Maine, who, with two of his sons, was killed by the Indians, Oct. 17, 1675. Jr. was born about 1660. His father was a Lieutenant under the authority of Mass., and had command of the Garrison at Salmon Falls at the time he was killed. He had been a Judge upon the Bench of Common Pleas for York County twelve years; a Representative from Kittery to the General Court, at Boston, five years, and "was highly respected for his uncommon valor, worth and piety."

Col. John P. went to Portsmouth about 1679. He married in 1685 Mary, daughter of Capt. John and Mary (Stanyan) Pickering. He was Judge of the Superior Court of N. H. twenty years, 1699 to 1719; Chief Just. in 1716. He was member of the Royal Council from 1702 to 1716. Was many years member of the N. H. Assembly, between 1692 and 1727, and Speaker of that body in 1696, 1717 and 1727.

Col. P. was an officer of distinction during the Indian Wars, from 1690 to 1712. He was the brother of Captis. Ichabod and James Plaisted, and father of Capt. Elisha Plaisted, of Berwick, Me. No other name at this period in the Province of Maine was more distinguished for military intrepidity than that of Plaisted. The children of Col. Plaisted were John, Josua, Mary, Elisha, James and Mehitable. He died at the age of about 85 years.

Correspondence, chiefly between Theodore Atkinson, Esq., of Portsmouth, and Capt. John Thomlinson, agent of the Province in London, relating mostly to the settlement of the boundary lines between the Massachusetts Bay and New Hampshire: This Correspondence is of great historical value, and should be carefully examined. Ed.

[Copied from "Belknap Papers" in a MS. volume belonging to the Library of the New-Hampshire Historical Society, in Concord.]

No. 1.

Capt. Thomlinson—

Sir—The last from you was by Capt. Ring, since which we have heard nothing from London but transiently by the Man of Warr who gave us some acc’ of the resentiment of the House of Commons of Mr. Dunbars treatment, offered by the House of Representatives at Boston, & if a strict Enquiry should be made into that affair I am of opinion his Excellency would be brought in for partes—which I believe Mr. Cook would Declare, having lately been displaced from the Judge’s office of the Inferior Court by the Gov’r’s Influence. We are impatient till we hear what success the affair of the lines will meet with, tho’ can’t expect a determination till the Massa’hath had time to answer, who Boast much of their Interest ag’st New Hamps which still we disbelieve: this Govr’n’ having never in one article disobeyed the Crown but have in everything complied with the King’s Instructions, however the Dispute on the controverted Land will increase I suppose. Coll. Dunbar who is now with us, & was an Eye witness of the Haverhill peoples behaviour the last week hath represented the affair home to the several Boards, how they came with fire arms &c. to take away grass at least Ten miles from the river—I wrote you how we Mr. Wentworth & myself were rejected by the Govr’ upon showing him our Mandamus (1) which I think very Extraordinary he not assigning any reason when he took them ’tis impossible for me to say any more than that he hath disobeyed the King’s positive comand, & I imagine will not receive thanks therefor, ’tis probable he will send home some reasons but must make them himself, otherways he would have Entered them with the Secretary which he never did and which his Instructions in case of a suspension of any [p. 2] member of that Board obligeides him to do, however tis vic Volo sic Jubeo, however I never desire to sustain any post of that nature longer than I am determined to act & speak my oppinion which I am determined shall always be rectified by the dic-

tates of a right reason & a good conscience, & God forbid I should live to see the day when such a voyce should either dishonour my Sovereign or injure my country however I think it hard as well as Extraordinary to be rejected after obtaining a positive mandate upon a solemn hearing at home, but those extraordinary acts here are now a days to frequent to be call'd a rarity. I should be glad if you'd pay my Honr to Coll. Bladen, that Gentleman I am inform'd th... spoke favorable of me in the affair of the Petition before their Lordships & gratitude will always oblige me to make a hearty acknowledgment of such an honr.

I have not to this moment heard one single word from Antigua & know not whether the ship Antigua gally be arrived here or not but hope if she did not miscarry in her passage Capt. Sutcliff hath wrote you to make Insurance for my interest which I would have you do in case she is at Antigua which you'll know by Capt. Ring or some other vessel. I would insure the value of my concern which you are as good a Judge as I am. I am Determined to sell my part & do desire you'd get her of for the most you can & receive the freight & settle with Capt. Sutcliff. You have my full power to act in any affairs with you: you I acknowledge have been very good & I as troublesome, I think I have been mighty treated by the Gentlemen in the West Indies & therefore have followed your advise in sending a Power to Capt. Sutcliff to settle my accounts having not rec'd one [p. 3] Penny since last fall, & all the wines she carried there the last year behind yet as he will have the command my part I have ordered him to put the ship & freight into your hands I am this moment informed that this ship by whom this goes, goes via Lisbon but makes no tarry there & will be consigned you if she delivers at London. I have also seen Mrs. Rindges letter from you giving an acc't of Sutcliff’s arrivall at Antigua, which as I mentioned is the whole acc’t I have had but hope he hath not omitted writing you for Insurance.

We shall send what we think necessary relating to the Lines by a ship from hence in about fourteen days, I mean as a Committee appointed for that end to write to Capt. Rindge or whom he should leave the affair with. We all heartily rejoice that ’tis placed in your hands, ’tis the person I advised him too, I have often told the Assembly so who are very well pleased. I shall write you by Collins and in the mean Time subscribe myself your very humble serv’t.

Aug’st 14, 1783.

With this you’ll receive the House of Representatives adresses to his majesty as alsoe their Comites Letter by way of adress to the 14 Commissioners for Trade & Plantations. Likewise several votes of
the House in ye Late Sessions in this Province & some of the votes of the Massachusetts Assembly, and as all those will go open to you 'tis needless to mention any thing in them again, & I would observe that the Township No. 4 mentioned in ye votes at a place called Amoskeag is about 15 miles at least above Dunstable on the river described in Capt. Rindge's draught so that their Lordships may see how that Governr is dayly Encroaching upon the Kings Province besides that very land hath been granted by this Governr above 12 years and doth belong to the Town of Chester which is a regular well settled town & hath an ordained minister there, but they imagine the settlemt of the lines will not affect property & so are determined to take possession of allmost all the Kings Lands, however we are in great hopes that controversy is Determined ere this & in such a manner as will Quiet this Province from any disturbance of their neighbors.

You'll observe by the several addresses that we have still one more favour to ask of his Majesty, that is a Permission to Emit about 50 or 60,000 this currency for which we propose this scheme that by the act of Genl Assembly the whole Province shall be security & the money so made shall be Let out to any Borrowers at 5 pr ct pr annum upon good improved Land security of Dubble the value of the money each person takes exclusive of any buildings thereon, this 5 pr ct to be annually paid into the Treasury for & toward the support of the Governr & for no other purposes whatever & after a certain term of years the Borrowers to pay in the Principal at 25 pr ct. in four successive years without Interest in order to sink the fund on which the money was Emitted; now it may not be Improper to inform you how the Province came into the Present difficult circumstances. The late war with the Indians was so long & vigorous that we could not maintain it by a [p. 6] Poll tax which was the only way except a small Excise which in the war time scarcely amounted to one hundred pound we had to supply our Treasury, and the charge of the war togethers with the support of Governr amounted to twice the sum we could raise, so were obliged to Borrow money on the Cred of the Governr & pass acts for repaying the same in sundry successive years as for Inst. the money we borrowed in the year 1720, was to be repaid by a Tax in the year 1730, and when bro't in to be burnt in the sight of the Generl Assembly, and thus our then condition obliged us year after year to Borrow in order to save the Province, & all this money was bona fide expended in the payment of our soldiers which we were so generous as bear what the Massachusetts called our Quota which far exceeded our Proportion for we sent 50 men of 500 as a travelling army through their Governr & in all the last war had not one soildier in our frontiers nor one shilling of support from them—this togethers with the Bounty upon Indian scalps was the charge by which we came so much in debt, & now these years being devolved upon us we have the whole support of the Governr to pay, which since we settled the sallary on the Governr & other officers the Fort at the entrance of the river & other necessary contingent charges about 1500 pr annum & a 1000 at least on each year to the year 1743 towards making our fund, which to raise by a Poll Tax would be utterly impossible—the biggest rate we ever made being 1500 & that being attended with so much difficulty & hardship & that it held but I think one year, & a man in this Province thus paid more than Double what a man of equall circumstances did in the Massachu-
setts—now we hope his Majesty will not suffer this Province that is
immediately his both as to Govern'd and soil be entirely ruined & lost,
which is as necessary as fatal without his royal Lizence to make
paper money, you know we have no other currency & tho' Private per-
sons may get money at 8 per cent, at Road Island yet the Publick as a
Govern'd if it was [p. 7] consistent with its hon' can have no redress
there, now such a sum as I have mentioned would not be a Proportion
to this Govern'd compared with any other Govern'd for we shall have
but about 10,000 out next May & that all bro't in by the year 1743,
and Road Island hath at least 300,000 out & I can scarce believe his
Majesty will deny this Province a Privilege of that nature and at the
same time allow it to a Charter Govern'd that hath so many other ad-
vantages that we can't expect; besides we are the only Govern'd that
hath not great sums of money out at 6 per ct. Interest & we never
made one penny for that end. You'll have a vote of the House for
choosing you their Agent & I dare be answerable had there been any
money in the Treasury you would have had an ample satisfaction & if
we can obtain this favor from The King it will enable us to reward
you handsomely. I assure you you have the hearty consent of nine
tenths of the Province in the choice & I hope shortly to see the day
when it will be in your friends power to recompence your Expence &
Trouble, but at present whatever is proposed by the house for the
good of the Province is not concurred by the Council who is so intire-
ly swayed & Influenced by the Gov'r that any thing that seems in the
least to clash with the Massachusetts Interest is immediately rejected &
this we fear will always be the case while we are governed by a Massa-
achusetts man, which we are fond of believing is near at an End &
should be I believe entirely content to be govern'd by Coll. Dunbar
who is a gentleman that the more knowledge we have of him the more
we are attached to him & we flatter ourselves he will be the man at
least the Govern'd of this Province.

Our people many of them would gladly goe upon raising hemp & if
we had the liberty of making such a sum of money we should immedi-
ately grant a Bounty upon that Commodity sufficient to Encourage an
Experiment of that kinde, this would be a good argument to obtain
that Lizence; besides the want of a medium keeps back our [p. 8]
inland settlements which I doubt not would produce large quantities
of potash, our wood in those Tracts we are now settling being too farr
from a market for wood & then as we clear our Land are obliged to
burn the wood on the ground but in such small quantities for want of
money that the Inhabitants are forced to spend one half of their time
on the old settlements in raising corn & other Provisions & a small
matter of the money we propose, let to those persons in the new
Towns, would enable them to clear their Land so fast that it would be
well worth their while to save their ashes.

I have here inclosed you a copy of a Letter I wrote the Govern'd about 3 weeks before he came into the govern'd, and had no answer
notwithstanding we had 3 posts & 8 carri'd after he rec'd it before he
came into the Govern'd & he came to this town on Fryday the 28th of
December last, & the Monday following I was chose a representative
for New Castle. I was in the Town with him the whole time & on
Tuesday while I was in the Assembly house waiting to take the oaths
I was send for by the Govern'd & past what you have copy from the
Secretary of— with this difference, I desired to be excused for that
sessions or till another member might be chosen in my room which the
Council entered as a peremptory refusall. I have taken my oath the
copy of my Letter was genuine & if there was occasion I would prove
he rec'd the second day after I wrote it. I should not have mentioned
any thing of it to you but was loth to be tho't ungratefull for such an
Hon'dr don me, tho' to perswade myself of this I am oblied to look at
the Intent of the thing rather than the thing itself & was it not for
the Hon'dr of the Comis'n more than the Company I should gladly be ex-
cused for the Govern'r hath recommended such persons & got them
established at that Board as some of them cannot write their names &
pers' that were never accounted worthy of any publck Implemt till
in this reign which God forbid should be long.

[P. 9.] I have one thing more to mention, that is the Parrish of Rye
in the Town of New Castle hath some time since discovered their min-
ister whose name is Nath'l Morrell to be one of the greatest villains in
America,—having got his servant girl with child was Prosecuted from
Court to Court & appeared a very rogue, many of his parrish having
sworn to his attempts of the like nature & is since silenced by the
Desenters at a meeting of them for that purpose & some few of his
people standing by him 'tis reported he's gone for England to take
orders, he haveing made his escape before the Sup'r Court sat when his
finall Tryall was to have been. If this suggestion be true & he gon
Doubtless you'll hear of it & I assure you it will Do more Diservice to
the Church than is possible to conceive, & this leads me to tell you our
Church now wants glass which if we had would be fit to preach in by
midsummer, & we have a prospect of a person that I am sure will be
agreeable & bleive very serviceable, his name is Brown—he is now a
missionary in Providence in Road Island Governor, we have heard him
preach at Kittre to admiration & he is an unexceptionable man in his
Carreeter & behaviour I believe might be obtained if the Bishop &
Society would allow of it. We propose to write to him shortly on this
head & in the mean time if any opportunity presents should be obliged
to you if you mentioned to those that can forward his removall not
as from him but from us, he is a Particular favorite of Dean Berlyk's
& believe he would assist in his removal to this place.

Sr. If you at your leisure Time in perusing this should furnish
yourself with any argument for the service of this province I perswade
myself you have its Interests so much at heart as to forgive the length.
If it should prove altogether useless I flatter myself you'll believe it
was the good of my Country was the Inducement and I am sure you
have goodness Enough to forgive this trouble without any other ap-
ology. I had almost forgot to mention to you that Mr. James Jaffrey
who hath been long notary Publick and being one of the subscribers
to the church, tis tho't the Gov'r will Dismiss him & I suppose he hath
wrote to [P. 10] get him appointed by the Bishop if so we all heartily
recomend him as the most suitable man in the whole Province for that
Post—the Govern'r may make what pretences he pleaseth but he is
the greatest Enemy the Church of Engl'd hath upon this Continent, I
believe & had it not been for him I believe ours in this Place would
have been finished but he upon being asked whether he would con-
trubute towards it at not as a Church, but if the Proprietors would
make a Stall-house of it he would give Twenty or Thirty pounds.
I hope you settled & finished my acct wth Capt. Sutcliff & sold & the Ships & got the Nth proceeds of my part of vessell & freight into your hands, tho' I declare I have never recd one line from Capt. Sutcliff while in London which is too long a neglect to be accidental. If he hath left any thing with you I believe I shall draw on you bleaving as Bills are now 'tis more advantageous than good bills being now upwards of 300 pr ct. but if I do shall take care that the bills shall be Drawn payable to yourself. I suppose Capt. Ring hath wrote you that I would gladly be concerned in the ship with him which I would heartily do in case of Pence but must get clear of the Antigua Gally first. (No signature.)

No. 3.

[Probably written by Mr. Atkinson to Capt. Thomlinson.]

[Pr. 11.] Capt. Thomlinson.

Sir, I acknowledge the reci of your favour by Roby of the 25th June last & observe you had receive mine by Capt. Noble & must tell you I am now in the same condition about my affairs in the West Indies having not heard only by your Postscript to Capt. Ringe of Capt. Sutcliffs arrivall in Antigua nor have I had one scrape of a pen from him or any person there this 12 months past I followed your directions & sent Capt. Sutcliff my power attorney what he hath Don I know not he had my positive orders to put my whole affairs into your hand upon his arrivall in Engld to which place I hope he hath advised you of his coming & that you have made Insurence for my Interest on board which if he hath neglected I beg you would do you know my Intrest no least better than I therefore leave it to your Descrition I would have the Ship sold by all means I wrote you some time since that I was the builder myself & only hired the carpenters by the Job to build her So there can be no other Bills of sail then what I gave to Capt. Sutcliff & Mr. Stephens & I will warrant her to any person that will buy.

I take notice alsoe what you write about the Publick affairs of the lines between the Two provinces The Massachusetts Assembly are now Sitting I have recd the copies of the memorials &c. I have made choice of the Comitte to Answer the several parsaphgs therein contained & as what that Court will write will be kept as a secret from us it will not be Expected we can regularly answer it and we have had no Assembly since the beginning of March last when we were Dissolved & there is no precepts out as yet so as a Govern't we can write nothing, tho' the last Assembly confirmed Capt. Ringe & whom he should leave that affair with & chose a Comitte to give Instructions I have sent for & Comittee & most of them will be in Town timely to [Pr. 12] write by Capt. Bush when we shall endeavour to give you all the arguments & proofs of that affair we can come at. I presume you are furnished with as many already as will be sufficient & dare say they can write nothing (that they can prove) as the memorials their common arguments were for I have been always upon the Comitte to meet them for many years past hath been, viz.
1. We must goe to the northermest Branch of Merrimack, which
some of them would allow to be that Branch in the map called Pemi-
gewasset others said & insisted for 3 miles to the north of the Great
Pond & then Draw a line from that point to a point 3 miles north from
the entrance of the river which you'll see takes of all most all the Gov-
ern't besides that destroys the Lines of Latitude & Longitude which
must be straught & Parallel with the Lines between them & Road
Island &c.

2. They would sometimes pretend to a crooked line & that this
Province could not come within three miles of the river or any of the
branches any where & then they would call it Merrimack from the
mouth of the river unto the Pond, which is so wild & Proposterous
that I need not answer it for how Imposseable would be to follow every
little branch & creek or brook where are as many as the branches of a
tree besides where would be their Latitude & Longitude Lines—but
I can scarcely believe they will offer such arguments in England as
they made use of here, but then—

3. Their third & greatest argument agst was what was call'd the
great River Merrimack they say is the northermest Branch tho you'll
observe many Branches running to the west ward & goes thro' Concord
& Sudbury &c which you cross with a west line from Boston at Sud-
bury now their Charter says 3 miles to the northward of Merrimack
the great river Merrimack now that was never call'd by the Indians
Merrimack [p. 18] further then the water flows which is no further than
Haeverhill, nor no vessell can or ever did pass above that Town—then
comes the Indian names again tho' they are not mentioned in the
Draught yet now they goe by the names given by the Indians as soon as
you get above the English settlements as you see Sowhegan, then there
is at the next Branch Amosceek then Suncook then Pennicook Conto-
cook Pemigewasset Winnipiaioke &c. So that the Indians who gave
the very name intended no further then the river flow'd should be
call'd Merrimack The Charter could mean no more but I think it
can't be better Explained then by their Charter upon the Eas side—
there it says if I mistake not. Thro' Piscataqua river into the river
Newichwannuck & thro' the same to the furthest head thereof—here
tho' the whole river goes in common descriptions by the name of Piscat-
aqua river yet realy & by their Charter 'tis call'd so no further
then where the rivers parte & Branches out & from that place the
lesser rivers as Newichwannuck Cochecho &c take their names & all
these are Indian names then it says thro' this little river Newichwan-
nuck & to the furthest head thereof doth it say any thing like that in
Merrimack—no only 3 miles to the northward of the great river Mer-
rimack.

Perhaps they may say something of Equivalent Land that is where
they have any Land in Possession to the north ward of our Line they
will hold it & give us Equivalent Land in the room of it that would at
first seem more reasonable then realy it is for we have given their
people (at Pennicook who went on there to settle before ever the[y] did
so much as Lay out their Township) (1) fair warning & they were told
in the name of the Govern't that it was the King's land & that it was
granted to his subjects of New Hamp's & that they would certainly
loose their Possessions & labour if they were so hardy as to settle there
& our Grants & theirs are so Interwoven & laid one upon another that

(1) See pp. 11, 12, 206, this vol. 2d.
there would be as great a difficulty to know [p. 14] who's the Land should be afterwards, as there is now unless the Boundary lines determine it & besides the Possessions & Improvements are vagrant & but of yesterday I make no question but the Province would be willing to let every Person that hath had an actual Possession by fencing or building for fifteen years past Injoy their Lands and hence Equiv-olent lands therefor but for a few years past they have granted almost half our Province or at least sold it to their Inhabitants & they have laid our their Lands upon our grants that were Prior & if we build a fort or Church tis burnt as soon as finished so I apprehend no Equiva-lents will answer unless withere a man in his own right had build'd & lived for more then 12 or 15 years & in that case I believe it might but not by antient grants or surveys only by an actual possession.

[p. 15.] Sr

I am now to acknowledge yours of the 8th of Octo. last by Eggleston & observe what you say relating to Mr. Joanes's answer to Coll Dunbar's letter about Mr. Slade, that affair was first mentioned to me by the Coll. with whom I often went into the Country he being obliged often to ride into the woods himself & he found he could by no means trust Mr. Slade he having been bribed by almost all the Gov-ern'd many Towns raising a general Contribution among the Logers for him but the Coll. did not dismiss him till he openly Quarrell'd with him & without the least reason for he Lived with the Coll whenever in Town yet he reported 'every where that he was Independ't & had his Comission from home & hath said with in this Ten days it is so. But as to this affair I suppose the Coll writes you fully upon it besides neither he nor Mr. Jacobs is at present capable of riding being both Laid up for the winter if not for life. The Coll. hath been as illly treated both by Superiours & Inferiors as perhaps any man ever was, the Govern'r still not only Insisting upon all Power & Sallary even when at Boston (1) that he in all Companies Ridicules & Denys that there ever was any thing said at the Board of Trade, that really Coll Dunbar is no more then a Cypher not one of the Gov'n officers ever comes near him either Civill or military the militia often meeting & beating Drums about the Town without his knowledge or consent if they are asked by any indifferent person why they don't pay that Compliment they will tell you 'tis to oblige the Gov't the Council sets in the same house where the Coll. lives & are summoned by the President by orders from the Gov't & there transacts the affairs without even taking the least notice of the Lieut Gov't. These transactions renders the Coll Entirely un-capable of doing any service either as Lieut. Gov't or as Survey' General for now if he gets decrees from the Admiralty the People will mob & murther his men that will venture to put in Execution such Decrees & if they apply to the Gov't he will forward their Comp't against the Coll. & will at the same time refuse to call those rioters to an acc't or make any Inquiry into it tho' desired by a large part of the Lower house—

(1) Thus undersoored in the Cop'y. En.
indeed he many months after (1) put out a Proclamation but offered no reward & Endeavours by all ways & means he can to render the Collodiuous, who notwithstanding the nature of his Employment being what the people ignorantly think detrimental to them yet was there an Election tomorrow for Comander in Chief I am sure he would have three to one agst Govr Belcher. The Govt told me that those persons that were the Coll friends could not nor should not be his & now all the officers that are attached to him will ask in a jearing way, w[h]ere is the halfe Sallary, were is the Letters from the Board of Trade, so that its necessary Something should be done We have had many Tryals put by this Court in December for want of the appointment of a special Judge, the Standing Court being related to the Causes & this is because they will not allow the Liit. Govt to appoint a Judge, but at most be at the charge to send to Boston & have a Comission [sent here (2)] tho' signed as if by consent of the Council & Dated at New Castle. [p. 16] I would leave the reason of the affair to any rationall man if the Comission & Instructions did not make it plain. Suppose a pirate should infest our Coast and we had advice of him in a harbour were we could surprise him in twelve hours must we send to Boston to the Govr 60 or 70 miles for orders, or a thousand Instances of the like nature so that at present this Govern't is a farce & we are Laugh'd at by every body. Now all the Govt Pretence to favour the Survey of the woods is shew only, for his greatest friends are those rioters at Exeter & he saw four or five hundred thousd feet of boards Lay at the shore-side the other day when he came from Boston, he choosing that way now rather than thro' Hampton. In shorte the very Tempers of the people are now as much altred since he became Govern't as is possible for you to conceive. I suppose you'll have a Letter from the Comitee chosen at the late Assembly to write you I know they have one prepar'd I wrote you by your kinsman that the last assembly were dissolvd as all have been for severall years past & I am well assured it was because the then Assembly talked of passing such Acts as would render the Survey of Generall of the woods post more effectual having taken that matter under consideration before I left the house & passed the vote about the riot at Exeter, but the Govr Dissolvd them early in the morning & thereby put a stop not only to that but to all other business that was then pass'd by both houses so that 'tis now Two years since we have had any more than one Act passed which Act too I conceive absolutely contrary to his Instructions being a private Act for brings forward a Tryall between two private persons at Dover so that that one Act hath been all that has been done in Two years tho' at each Sessions many publick Acts hath been voted by both Houses so that we are worry'd to Distraction with this Govern'r & the Lord send us a Deliverance. I warrant you hear nothing from Him to the Massachusetts about the settlemt of the Sallary while this Assembly subsists for now he could have it for asking for if he was hearty in the affair.

We are now in hopes of Mr. Browns consent to move to us having made him an offer agreeable to his request as soon as we have his

answer shall authentically apply to you in order to facilitate & finish that matter we want about 1500 squares of Glass 8 by 10 Inches square & hope by midsummer next to have it completely finished. There is a new Church erected at the South end of Boston & they are laying in for Mr. Brown but as they can't expect any assistance from the Society we hope they will not prevail if we miss that man it will much retard our settlement I fear now here is a Congregation on the other side the river at Kittry who Intend the Church & we should for the present satisfy them & Mr. Brown would do this in case he could [with the] Same Sallary from the Society that he now hath I doubt * * * savours in this affair Especially if Bishop Berkly is in England will Prevail [p. 17] with the Bishop of London & the Society.

I wrote you by your kinsman & Copy by one other vessell with Duplycates of my Acc" with Capt. Sutcliff & ship Antigua Gally since which I have heard nothing from him nor do I now know were he is nor can't advise for Insurence having heard nothing from him since he left Antigua I rec'd a pipe of Madary wine from him by Waterhouse this year if he charges the Pipe as they told I must be allowed the Draw back I have only to beg your favour in settling this affair for me & I'll Endeavour for the future to Imply men less troublesome.

I take this opportunity of thanking you for your kind offer to my kinsman Robert Pike to be sure I'll readily be concerned one qf Part in a vessell as you shall direct & I hope he will turn out an honest & industrious man & I believe a man of good capacity & I hope will give good Satisfaction to his Employers I suppose he writes you by this opportunity acquainting you of his voyage in the Snow your Brother left.

I am, Sir, with best respects to yourself and

Lady, your most humble & obedient Servt

Portsmouth, December 10th, 1734.

Theodore Atkinson.

P. S. December 12, 1734.

Since the above I have seen a man from the County of York who tells me the Govr' hath received Letters from the Board of Trade or D' New Castle he could not tell which relating the Tryalls there between Mr. Guistons workmen & the Inhabitants of which Tryall I suppose you have heard & those Letters I perceive hath been shewn to the Judges & what pass'd upon them I can't tell but something to the great satisfaction of Prosecutors & the person told me if any of those workmen should cut a tree they would be Immediatly Prosecuted that those former Tryalls would never be canvassed in England that the Govr' and Judges made very light of what came from those offices now you may see how he stands affected by his putting the whole county in such Prosecuting condition.

I have left the affaire of the Lines to the Comittee appointed to write you this reported at Boston that no money hath or shall be wanting to cause Delays in that affair till they have Tired your patience but I hope ere this that affair is at an end I am still fond of what I wrote to you about formerly with respect to a grant of his Majy of some of the unappropriated Lands or at Least an order to the Govr' & Council to make such here I am so fond of it that I can't omit it & no person could object for it would be of service to the Province in general.

Yours, ut supra.
Sr. If it should happen in your way without Laying under any obligations to get a List of the Council as Entered at home I should be glad for tho’ I demanded my place at the Board I was refused & the Gov’r told me I must be content to set lowest be my last sworn in The thing I don’t value but the creature thinks he can degrade a Councillor at pleasure & I am sure he will not alter it without the King’s Immediat Comand neither will he submit to the * * officers without it. Let their Lordships do what they please. (1)

Prov. N. Hampsh — 1735.

[Indorsed—“Copy to Mr. Thomlinson, 1735. Publick Letter.”]

Sr.—You’ll see by y* Inclosed votes of y* Assembly of this Province that you are continued their agent and we are appointed a Committee to write to you and send you the thanks of the House for your good services in y* affair of y* Lines between this and y* Massachusetts Governement which we hope will be settled before this reach you & that the northern Line will be but a few Degrees to y* westward of north that this his Majesty’s Province may include the greatest number & best Mast Trees for his Royali navy.

When the line is settled we apprehend it will be necessary that a new Comission for Goverm’t be made out, for if it Runs West from three miles north of y* mouth of Merimake River sundry Towns that the Massachusetts exercised Domission ower will be without their line and not Included in y* Present Comission for this Goverm’t and as we are appointed to write to you in Behalfe of the late Representatives of this Province We desire you will Endeavour all you can that the same Person may not be Governor over both Provinces, for many and great are the Inconveniences that attend it. The Gov’t Residing in the Massachusetts occasions great charge to this Prov. for frequent Expresses to him and attendance upon him by great part of the Millitia whenever he comes into and goes out of y* Province tho’ in time of Peace, and will be much more so in case of war;—as Capt. Generall he having y* sole Power of the Millitia nothing can be done for the Defence of y* Province in case of an attack without sending above sixty miles to him at Boston by which means many an opportunity of overtaking ye enemy [p. 20] has been lost, and this present Goverm’t Imagines himself always virtuall present here and that no affair of Government can be acted but by his particular order which must come from Boston when he is personally out of this Province so that there is not Power to Issue out so much as a Proclamation or make an order upon any Extraordinary Emergency till an Express is sent to him and the Return of an Instrument signed by him at y* Council Chamber at Portmouth tho’ really done at Boston, many instances of which might be enumerat’d—but we mention only two; viz. When ye survey’r of his Majesties Woods was Insulted at Exeter and the People he Employed for his Majesty’s service in a Rebellious & Riotous manner abused & Resisted,(2) as Lieut. Gov’t he cal’d a Council and Proposed Issuing a Proclamation giving Incouragement to any that would discover y* Rioters, But a

majority of ye Councillors were of opinion that it could not be done but by the Chief Governour's order which occasioned so great Delay as that ye actors in that great Disorder escaped with Impunity. The other Instance is in Relation to his Majesties order in Council Repealing ye Law ab't ye Courts at Hampton, Exeter & Dover. The Lt. Governour ordered ye Councill to meet that it might be Published as usual in such cases. But ye Cheifs Governour not being personally here a number of ye Council would not consent to it unti the originall order was sent by Express to Boston and they had Direction or Leave from his Excellency to obey the King's order and make it Publick.

[P. 21.] We apprehend as he is a Resident in the Massachusetts and his principall support arising from thence and his Estate and Interest in that Governament and not so much as a freehold in this Province, He has not bin so impartiall as a Governour ought to have bin, but has bin much attached to the interest of that Province in ye affair of ye Lines as has obstructed ye settlement from his first Entrance upon the Governour's first passing an act in ye Massachusets that prevented ye settlement by Commission to be chosen by both Provinces Pursuant to his Majesties Instruction for that purpose, and he has ever since at almost every Session of that Genl Court consented to the selling and granting ye Lands in Dispute (which are much within this Province) to ye People of ye Massachusetts who have thereby Raised considerible Sums of money which in a great measure has enabled them to Encourage their agent to Protract the Dispute that they might continue their Intrachments and opportunities to sell & grant more Townships—and that we might have not agent at all he has as much as in him lays Disparaged the person chosen by the Representatives by Influencing the Councill (many of whom were of his own Recomending and absolutely under his Direction) not to concur with the Assembly in their Choyse nor in allowing any money to Enable him to Prosecute ye Dispute about the Lines; an Instance of which was in May last (1) when the Assembly prepared an act for the supply of the Treasury—and because there was a very small sum appropriated for the Agent the Bill was Rejected—the Provision was made therein for payment of all ye Province Debts, and for Repairing the fort & Priscon which was absolutely necessary—and upon it Dissolved the Assembly as he always dos when he goes out of ye Province, and tho' they [p. 22] have bin Disposed and actually Doing every thing for the Honour & service of the Governour, yet if it was not done with precipitancy and Dispatch as he and his party in the Councill Directed they have been reproached with obprobrious Reflections and insulted in Dissolution Speeches which we apprehend were calculated to make Divisions and Parties in the Governour which we were always strangers to untill his Administration, and yet he has never obtained 'one Election to his purpose, for 'always the greatest part of the same members have bin chosen & Return'd which is a plain Demonstration that his Conduct & Administration has not bin pleasing and acceptable to the generality of his Majesties good subjects of this Province. Tho' we hear he has very lately obtained a subscription in his favor which was clandestinely handed about by his officers who have an Influence generally over the meaner sort of people of which sort are most of the subscribers, many of whom they have imposed upon not letting them know the Designe of the subscription as appears by the Deposition of

Inclosed you have Mr. Brown's Letter to Doctor Humphreys by which the Society hath his free consent & Desire to remove amongst us & tho' we hope that affair is Decided in our favour yet possibly the Society may hesitate for want of his consent being signified. You'll observe by the Date it was Designed upon Long since but some particular affairs then on the anvil not being ripe was what's Detained it in our hands, which being now over hope it will answer all the Desired Ends. I observe what you wrote me of y° Difficulty you met with in this affair & that the chief objection to Mr. Brown's removal was y° Providence must be provided for by a new missionary which the Society at Present was not able to Do. That Society I apprehend has always made it their practice to send their missionary where there was the greatest Prospect of success & if they'd made (as I doubt not you have don) sensible of the difference of the places—this being a sea port the metropolis of the Kings Govern't in which this is the first Church ever Erected & this carried on by the Cheif people in the whole Province, whose good Example will I hope be very prevalent in all the neighboring Towns as well as Portsmouth, & upwards of one hundred families of the best sort of [p. 26] People allready Declared their fix'd & Determined Resolution & such as without whose help this Town will scarce ever be able to maintain another Desenting Minister when either of those now here shall be removed.—who because we were under obligations to at their first settle't think ourselves obliged still to contrbutute for y° support. Now Providence being a country town & but very few Professed Churchments there & those too more so in Profession y° reality, of very different behaviour, scarce any stranger, & but a small distance from Road Island where there is a Church established,—& I believe were Mr. Brown to write his own sentiments he could give but a very Indifferent caracrer of the people there, & such an one as would scarce deserve the Society's care.
Besides as we have built a church which hath alreadly cost us near if not quite two thousand pounds 'tis natural to suppose every subscriber would desire a vote in recomendng the first minister at least & I Question Possability of ever thinking they should fix upon any one man by even a major vote, and yet ever[y] individual person concerned are heartily Intent upon Mr. Brown's removal & tho' we have subscribed some thing very handsome to Mr. Brown considering the Expense of the Building & what we usuallly pay to the Desenters yet not one subscriber but hath confined his [p. 27] subscription to Mr. Brown only, so that if we miss Mr. Brown our whole subscription Drops—he hath been Two Sundays with us & our house so crowded that the Isles were Intirely full & many people could not be comfortably accomodated. Under these circumstances we Desire you would recomend us to the Society. I write this as the mind of the whole Society & I beg leave to subscribe, your

Sir—My last was by Shiperdson, Since which I have yours by Capt. Eastwick with the Indosed votes as for what Relates to the province affairs I must Refer you to Messr. Wiggan & Bindge, and Coll. Dunbar will show you how his affairs are, and you must assist him all that lyes in your power. As for your own affairs I Received for you the 5th instant ninety two pounds six shillings for your Sallary and Traveling charges and shall ship you by the next ship as you Direct, and shall continue from time to time to follow your Directions, as I shall receive your Sallary.

I have took a great deal of pains with the Bishop of London, Doct. Humphreys, Mr. Tryon and others of the Society, and said as much to all of them as I could say, and did not only give them the Committee letters directed to them, but shew them the letters to me, but as yet have not had a direct answer from the Society, the affair being referred to a Committee who have not yet made their report, but the Bishop and some others of the Society gives me but bad Encouragement, they say If they remove Mr. Brown they must make an other Missionary to stand in his stead, and they are not able to make any more: I have pleaded with the Bishop as much as possible, and shall not yet give it up untill I have the Committee Report.

The affair of a Track of Land I have mentioned it privately to Coll. Bladen, but he doth not think it consistent with his duty to engage in it. And before such a grant can be solicited for here must have the particular parcel of land specified with the Bounds and Extent thereof, which if you have still thoughts of you must look out and send me the Extent and bounds and conditions or proposals. I would not have you Exceed ten miles square and the nearer such lands are to the sea or navigable rivers it will be the better.

I am sorry you cannot get my twenty guineas of Mr. Clarke. I think it very hard that I alone should suffer. I would have you dew what you can for me in it which will very much oblige—

Sir, your most Humi. Servi.

being on an affair for the account of his Grace's Duke of Chaudoes Coll Bladen and some other gentlemen, I hope you and Coll. Dunbar and my other friends will Render him all the service you can.

I shall provid him owners for half and shall get him so fixt that he will get money for himself and owners, he will turn out a very Clever fellow and be a good manager. [p. 34.] To the Right Hon'ble the Lords of the Committee of his Maj'-esty's most Hon'ble Privy Council.

My Lords—

Pursuant to your Lordships ord' of the 16th day of April 1783 we have examined the Petition of John Ringe of the Province of New Hampshire in America, Esq' complains in behalf of the inhabitants of that Province of great Encroachments upon their Land and other oppressions w'ch they have suffered from the People of the Massachusetts Bay, both in matters of Property & Govern'm for want of fixed & known Boundaries betwixt the said Provinces w'ch the People of New Hampshire have in vain used their best endeavours to settle in Conjunction with those of the Massachusetts Bay—wherefore he most
humbly prays his Majesty to declare and ascertain the several Boundaries of the Province of New Hampshire & to afford his oppressed subjects of that Province such Relief in the Premises as to his Majesty in his great wisdom & justice shall seem meet.

We thought proper to communicate a Copy of this Petition (and of Eight others upon the same subject from the Inhabitants of the several counties of New Hampshire) to Mr. Wilkes, agent from the Province of the Massachusetts Bay, who having taken time to transmit the same to his Principals, did on the 14th day of February 1733-4 lay before us a Memorial in Relation to his submitting the Determination of the Boundaries between the Provinces of the Massachusetts Bay & New-Hampshire to such Commissioners as should be appointed by this Board. But his Memorial not containing so full a submission to the Determination w'ch we sh'd make upon this matter as Mr. Wilkes had before promised, he desired leave to withdraw the same in order to lay another before us w'ch should be more to our Satisfaction; and agreeable to this we received the next day a Letter from Mr. Wilkes in the following words:

"My Lords—Pursuant to Instructions I have received from the Great & General Court or Assembly of his Majesty's Province of the Massachusetts Bay in New England, in Relation to the Petition of Mr. Ringe touching the Controversy between the said province of the Massachusetts Bay & New Hampshire about their Bounds, & praying a settlem of the same, do hereby as agent of the said Province of the Massachusetts Bay, & on their behalf, humbly submit it to your Lordships, & do hereby consent & agree, [p. 35] that the said Boundaries may be Determined & Settled by wise disinterested persons of the Neighboring Governments to be nominated & appointed by his Majesty or your Lordships for that purpose, and I do further agree & consent for the Province of the Massachusetts Bay that the Said Comiss shall have the matter in controversy left to them fully and without any limitations saving only that the Lines, however they may happen to run, do not affect the property of Particular persons."

A Copy of this Letter having been communicated to the petitioner Mr. Ringe, we received the day following a second Petition on his behalf from Mr. Parris setting forth, "That he had nothing to object against Commissioners being authorized to set out the Boundaries between the two Provinces, But that he was under a necessity of representing to us, that the Question w'ch he had been so long depending was, at what place the South Boundary of New Hampshire (or w'ch is the same thing the Northern Boundary of the Massachusetts Bay in that part w'ch bounds to the Southward on New Hampshire) shall begin, & what course it shall run?"

"That this Question must receive its Determination from the true & legal construction of the Charter granted to the Massachusetts Bay & may not therefore be proper for the Determination of meer Surveyors or Mathematicians in America, but may be proper for his Majesty's own Royal Determination here, with the advice of his Privy Council, w'ch being once done & the place of beginning the Bound Lines & likewise the course they are to run being fixed, the matter w'od then be clear, & his Majesty's Comiss would have but
"very little trouble or difficulty in running the Lines, Wherefore he
humbly prays us to hear all partys by their Council upon the Quest-
ion where the Boundary Lines ought to begin & what course they
ought to run."

Hereupon we thought proper for our better information in a matter
of this Consequence to communicate to his Majesty's Attorney & Sollr
Genl a copy of the charter granted by their late Majestys King Wm. &
Queen Mary to the Province of the Massachusetts Bay 1691, & desired
their opinion from what point of Merrimack River the dividing Line
between the Province of the Massachusetts Bay & New Hampshire
ought to begin according to the intent & meaning of the 4th Charter.

In answer to this Query the Attorney & Sollr Genl have acquainted
us by their Report Dated the 19th day of March last "That they had
been several times attended by the Council and agent of the 4th
Provinces.

"That the Council for New Hampshire offered several arguments to
prove that the said dividing Line ought to be taken from three miles
north of the Merrimack River.

[p. 36.] "That the Council for the Massachusetts Bay would not
say what it was they insisted on, or give any answers to what had
been urged by the Council on the other side, But declared that in
"their opinion the Question w'ch was proposed to the Attorney &
"Solicitor General by this Board would not Determine the matters in
"Dispute & that therefore they thought it unnecessary to say any
"thing upon it.

"That whether this be so or not they are not able to judge. But as
"to the Question referred to them they are of opinion

"That the dividing Line between the Province of New Hampshire
"& the Province of the Massachusetts Bay is to be taken according to
"the Intent of the Charter of William & Mary from three miles North
"of the mouth of Merrimack River, where it runs into the Atlantic
"Ocean."

Since this Report we have been again attended by the Sollr for the
Petitioner & the agent of the Massachusetts Bay, and have heard what
either side had to offer by their Council upon this occasion, And upon
the whole we take leave to offer our opinion to your Lordships that his
Majy shd be graciously pleased to appoint & authorize Comiss to
be chosen from out of the neighbouring Provinces in America, to meet
within a limited time & mark out the dividing line between the said
Provinces of the Massachusetts Bay & New Hampshire, and we shall
take care that a copy of the above said opinion be given to each of the
said partys for the Information of the Comiss in case any doubts
should arise amongst them upon the Construction of the said Charter
granted by King Wm. and Queen Mary to the Province of the Mass-
achusetts Bay.

We are, My Lords,

I have not had any of your favours for some time or indeed from your place not so much as one line by the last Ship which I am really surprised at, however I have now to tell you that I have finished with Capt. Sutcliffe both the ships and his private account with you (he is since gone a voyage for three years) As I formerly writ you it is a sad affair but something better than it appeared at first sight, for when he gave me the ships accounts there was £500 or £600 sterling coming to him from the owners besides what 7th ship sold for, we had three worthy Gentlemen arbitrating and after they had been as indulgent as possible to him they make a balance coming from him to the owners of £141: 6: 0, of which I have Rec'd for your account £35: 6: 6 and for the Balance of your private acc' £54: 6: 8 both which I have carried to your credit and it is Just so much more than I expected I assure you I had so much trouble in the affair that had there been a Thousand pound coming to you, I should have charge you at least £100 for my trouble and dearly earned too. I hope by Sheperdson to be able to ship you in such goods as I think will best answer what I may have of yours in my hands. I am very glad to find that the Society has at last given leave to Mr. Brown to remove to your place. I shall be glad to hear his good success amongst you. Gentlemen,

My last to you was ye 14 August last, wherein I told you that I was in hopes by some of the fall ships to give you an account of the success of a hearing that was appointed before a Committee of his Majesty's Council in October, on the affair of the dividing lines, and you will find by the inclosed papers the said hearing was on the 28 Oct. Also the success of ye 8th hearing, which was to our Wish, as you may see pr the copy from our Brief sent you here & copy of the Committees order on 8th hearing. I have sent you also a copy of a petition to my Lords Commissioners for Trade & Plantations praying for a small quorum and some other things necessary which we hope to obtain & then I think there can be no great difficulty on your side the water. And I hope you and all your friends will do every thing in your power to assist such Commissioners that they may be enabled as soon as possible to send home their Report according to his Majesty's orders and Instructions, and notwithstanding either Provinces has ye liberty of appeal from ye Determination of such Commissioners, and it is very likely to be the case, yet I am pretty well assured that any such appeal will not occation much Trouble and very little delay, for this will be the case. If ye Comm'rs settle ye lines according to his Majesty's Instructions & the Intent and meaning of the Charter, I am sure you will not appeal; and notwithstanding any other appeal from ye Massachusetts, his Maj'ly will confirm such settlement, and should such settlement be made contrary to his Maj'ly Instructions & the Intent and meaning of the Charter, upon your appealing properly, and as the Instructions shall direct you need not doubt but his Maj'ly in Council will undertake the affair without any more delays: and we are pretty sure that ye Charter is construed here as it is with you. Indeed it can bear no other construction. I am very sorry that some of the good people of your Province are freighted by the Threats & Rumors that are raised in the other Province purely for that purpose. I think their case begins [p. 40] to be pretty well known, and I have now very great hopes you will soon be Relieved, and I assure you nobody will rejoice more to see it than

proper Instructions, &c., which I am sure you will be careful to observe and follow:—and as I am sensible you have no other views than to have these dividing lines run according to the true intent and meaning of the Charter, I think you may now justly hope to see it done without a great deal more trouble or loss of time: For it now appears to me that every body that hears the affairs perceives how you have been used and how necessary it is that the Boundaries should be settled, and it will consequently be done as speedily as possible. I assure you it will give me the utmost pleasure to see it done, and that his Maj'y's Province may become a more flourishing and happy people,

[p. 43.] To the R's Honourable the Lords of the Com'' of his Majes-
ty's most Honourable Privy Council.

My Lords—

We have had under our consideration your Lordships order of the 26th of Octo' last approving our nomination of the 5 Eldest Councillors in the Provinces of New York, New Jersey, Nova Scotia and Rhode Island (excepting Major Mascarine one of the Council in Nova Scotia who appeared to your Lordships to be a p'son interested in the Massachusetts Bay) to be the Com'' for settling the Boundaries between the Provinces of the Massachusetts Bay & New Hampshire, and requiring us to prepare, and lay before your Lordships such Di-
rections as we shall think necessary for his Majesty to give to the 5th Com'' for this purpose, specifying the time before w'ch the said Com'' shall hold their first meeting, the most convenient Place for such their meeting, and of what number the Quorum should consist.

Upon this occasion we have been attended by the resp'ive agents for the Massachusetts Bay & New Hampshire & have given them an opportunity of laying before us any Proposals they might have to make to further the settling & marking out the Lines in question, Wherenupon the agent for New Hampshire laid before us a Memorial for the purpose aforesaid: The agent for the Massachusetts Bay only raised some trivial objections to the place of meeting & to the Quorum men' by the agent for New Hampshire, but offered nothing further to us upon the subject.

As we are informed that the most proper time of the year for run-
ning the Boundary Lines in Question is between the beginning of June & the end of September, we take leave to propose that the 1st day of August in the year 1737 may be the day on w'ch the Com'' may be directed to hold their first meeting, from w'ch they may adjourn to such times as may be most convenient for them: For, altho' your Lo'ps did direct us to consider of a time before w'ch the 5th Com'' should hold their first meeting, yet upon consideracon, we found it convenient to appoint a Positive day because the great distances the Com'' live from each other would otherways make their first meeting very uncertain.

And as the Town of Hampton, in New Hampshire is situated ac-
cording to the best Drafts we have been able to Procure of that Prov-
The, very near, if not upon, the Place thro' w'ch one of the Boundary Lines is at first to run, we are of opinion that the first meeting of the Com'' sh'd be appointed to be held there.

With regard to the number a Quorum of the Com'' sh'd consist of, we take leave to observe, that altho' there are Twenty Com'' to be appointed, yet several of them from different occasions, may not be able to attend this service, and, as the want of a sufficient Quorum, supposing it sh'd be appointed too large, might prevent the fixing these Boundry's & occasion a fruitless long Journey to such of the Com'' as shall undertake the same, We are of opinion that five [p. 43] of ye Com''s sh'd be deemed a suffic'nt Quorum, and that all Determina-
tions shall be by a majority of the Com'' present. We are the rather of this opinion, because, each Province will have the liberty of appealing from any sentence given by these Com'' to his Majesty in Coun-
cill.
The agents for these Provinces having agreed that the charge attending this Commission & the Execution thereof shall be equally born between each Province, we have nothing to offer you upon that head but that we think it highly reasonable it shd be so.

As these Com's must be appointed under the Broad Seal, we are of opinion that the above men's Propositions with regard to the time & place of meeting & to the number of wch the Quorum is to consist ought to be expressed in the 2d Comission & a liberty thereby granted to either party who may find themselves aggrieved by the Determination of the 2d Com of appealing to his Maj'y in Council, from such Determination, and that the Com's may be impowered & directed to administer an oath or affirmation to such p'sons as shall be found necessary to be examined before them.

And, that the good Purposes Proposed by this Commission may not be frustrated by any failure in the Execution thereof, we take leave further to propose—

That notice be given by a Circular Letter to the resp'Ve Govr's of the Provinces where these Com's do reside, of his Majesty's Intentions to settle the Boundaries of the two Provinces afores'd by Com's to be appointed by his Majesty & that the resp'Ve Govr's of the 2d Provinces upon rec'd of such notice, do acquaint such Com's of the time & place of their first meeting, strongly recommending it to such as are able to go, to attend this Duty.

That the Com's be directed at their first meeting to make choice of one or more able clerk or clerks to enter their minutes & proceedings, as also of one or more skillfull p'sons to prepare Dr's or Plans of the Boundaries according to the Determinacion of the Com's, who are also to administer an oath or affirmation to such clerks or other p'sons as they shall employ for the due & faithfull Execucion of their Trusts.

That each of the two Provinces, whose Boundaries are to be settled do send to the 2d Com's at their first meeting the names & places of abode of two of their Publick officers, whom they shall appoint for that purpose, residing in the 2d Provinces, on either of whom, or at whose Place of abode, any notices, summons, or final Judgment of the 2d Com's may be served or left.

That each of the 2d two Provinces do send to the 2d Com's at their first meeting, a Plain full state of their Demands or Pretensions in writing, describing where, & in what places the Boundaries on the southern & northern Part of New Hampshire ought to begin, what courses & how far, the same ought to run respively, and that copies thereof may be [p. 44] mutually exchanged in ord' to prevent an unnecessary Delay & that each Party may come fully prepared.

That the Com's be directed to use all convenient Dispatch in the Execucion of this affair.

That the Com's present at any meeting, He, who is first named in the King's Comission shall Preside at such meeting & shall issue out the necessary summons for such Witnesses, as either party shall require.

That no Evidence be allowed of by the Com's but such as shall be sworn or take an affirmation before them in open Court, and that the whole of what such Evidence shall offer to the Com's be put in writing by the Clerk & in presence of the 2d Com's.
That Entries be made of the Papers, Evidences, Deeds, Charters & Proofs received by the Comrs in this affair, & of all their Proceedings & Resolutions throughout the same, & that the Plans or Draughts of the Boundary Lines, as agreed by them, be annexed thereto & made Part thereof.

That when the Comrs shall have made their final determination & signed the same, a copy thereof shall be sent to such Public officer in each resp'v Province as before men'd, as likewise notice of another meeting, to be within six weeks after the delivery of such copy, or such other reasonable time as the Comrs shall appoint, at w'ch either of the Provinces, who shall find themselves aggrieved, may enter their appeal, with a Declaration what part of the Determination of the sd Comrs they abide by or Appeal from, and that each Province be allowed true copies of the whole Process, to be attested by 3 or more of the Comrs.

That if, at this last meeting of the Comrs neither Province do enter their Appeal, the Determination of the Comrs do then become final & conclusive to all Partys.

And that, during the meeting of the said Comrs the Govr of the two Provinces do keep their resp'v assemblies sitting or under short Prorogations, that they may meet within Twenty days after such Determination, delivered as afo'd, in ord to Determine what to do thereon. The humble Petition of John Rindge of his Majestys Province of New Hampshire, Esq in his own Right and as agent for the Assembly of that Province.

Sheweth:

That by your Lordships Order of the 17th December instant, your Petitioner hath obtained a Copy of a Report made to your Lordships on the 8th of December Instant, by the Lords Comissioners for Trade and Plantations—Proposing sundry direcons as proper to be given to his majestys Comissioners and others for settling the Boundaries between the said Province and that of the Massachusetts Bay:
THOMLINSON CORRESPONDENCE. 857

That upon p'usal of the same your Pet's humbly conceives the same to be very wisely and prudently digested, and to be highly proper and well adapted, for the carrying his Majestys Royal intentions into execution:

Wherefore your Pet's most humbly prays your Lordships to take the said Report into your consideration, and that your Lordships will be pleased to agree in opinion as to the Directions and other matters proposed, with the said Lords commissioner for Trade and plantations, That so, his Maj's Authority and direcons may issue to the Commissioner (in such form or manner as shall seem fitt) with all convenient dispatch, in order to their haveing timely notice & beginning to proceed on this long contested matter by the first of August next, the time menconed in the said Lords Com's Report.

And your Pet's shall Ever pray, &c.

No. 20.

[p. 48.] To the Right Hon'o ble the Lords of the Committee of his Majestys most Hon'o ble Privy Council.

The humble Petition of Francis Wilks, Esq. agent for his Maj's Province of the Massachusetts Bay

Sheweth—

That sometime since John Ringe of his Majestys Province of New Hampshire as Agent of the House of Representatives of the said Province preferred a Petition to his Maj's humbly praying that his Majesty wou'd be pleased to declare & ascertain Sev'l Boundaries between the s'd Provinces of the Massachusetts Bay & New Hampshire.

That your Pet's having sent a copy of the s'd Petition to the said Province of the Massachusetts Bay & received their Instructions thereon & apprehending he was thereby authorized thereto & to avoid further Litigation & Expence he did (amongst other things) consent & agree for & on behalf of the s'd Province of the Massachusetts Bay that the said Boundaries might be determined & settled by wise disinterested p'sons of the neighbouring Governments to be nominated & appointed by his Maj'ty

That for the reasons men'd in a former Petition most humbly p'sented by yo' Pet's to his Majesty, your Pet's apprehended his s'd Proposal to have been disagreed to & rejected, & so he acquainted the s'd Province of the Massachusetts Bay in answe' wherefo the s'd Province acquainted your Pet' he was not warranted by his Instructions in making the s'd Proposal, they only authorizing him to submit to have the Boundaries determined by wise disinterested p'sons to be chosen on the behalf of the

(1) Paris.
Province of the Massachusetts Bay by the Assembly of that Province out of the neighbouring Govern'ts.

That hereupon you Pet' conceived himself bound in Duty to lay before his Maj'v by Petition the mistake he had committ'd, before any thing was finally done herein, w'ch your Pet' accordingly did. But on hearing the s'd Petition before your Lo'dips to whom the s'd Petition was referred your Lordships were pleased to report as your opinion to his Majesty, That it might be advisable for his Majesty to appoint and authorize Com'' to be chosen out of the neighboring Provinces in America to meet within a Limited time & mark out the dividing line between the s'd Provinces.

That your Lordships on the 26th day of Octo' last referred it to the Lords Com'' of Trade & Plantations to prepare & lay before your Lordships such directions as they sho'd think necessary for his Maj'v to give to the s'nd Com' specifying the time before w'ch the s'nd Com' sho'd hold there 1st meeting, the most convenient place for such their meeting & of what number the Quorum sho'd consist.

[p. 49.] That the Lords Com'' of Trade & Plantations have accordingly by their Report bearing date the 8th day of Dec' last Reported to your Lopp's as their opinion that the 1st day of Aug. 1737 sho'd be the day on which the Com'' sho'd be directed to hold their first meeting & that the first meeting of the Com'' sho'd be appointed to be held at the Town of Hampton in New Hampshire & that 5 of the Com'' sho'd be deemed a sufficient Quorum.

That your Pet', humbly insisted before the Lords of Trade that Newb'ry in the Massachusetts Bay was a more Proper Place than Hampton & that the Quorum ought not to consist of less than a Majority of the Com'' nominated who are 10 in number & insisted as a reason for this that by the Law of England no man's Property sho'd be affected by a less number than a Jury of 12.

That the Lords Com'' of Trade then p'ced to lay before your Lopp's, such directions as they think necessary to be given to the s'd Com'' & among the rest are pleased to propose that each of the s'd two Provinces do send to the s'd Com'' at their first meeting a Plan & full State of their demands or Pretensions in writing describing where, & in what places the Boundaries on the southern & northern parts of New Hampshire ought to begin, what courses & how far the same ought to run resp'vly & that copies thereof sho'd be mutually exchanged.

That your Pet' humbly submitts it to your Lopp's consideration whether there be any Instance wherever an obligation of this kind was laid upon the party's in a case of the like nature & as there may be real difficulties in complying herewith your humble Pet' hopes this shall not stand part of the Instructions.

That the Lords Com'' of Trade & Plantations further propose that the whole of the Evidence w'ch shall be offered to the Com'' be put into writing by the Clerk & in presence of the Com''

That your Pet' humbly apprehends this ought to be done likewise in p'sence of the witnesses & that the Depositions afterd so reduced into writing sho'd be read to the witnesses & then signed by them & that the reducing the Evidence into writing ou't not to be left to such minutes thereof as the Com'' Clerk may take.

That in that part of the report of the Board of Trade w'ch directs
the Com to adjourn in ord to give time to Appeal your Pet humbly apprehends it is not meant or intended that the Com sh’d have Power to abridge the 6 weeks p’osed to be given for that purpose, whereas if the direccons w’ch are sent to the Com run in the General words of the Report “or other reasonable time” It may be thought there they have such a Power, to p’vent w’ch yo Pet humbly submits it to your Lordships whether it may not be proper to Express it such further reasonable time as the Com shall appoint.

That yo Pet further humbly apprehends that by the said direccons p’osed to be given to the Com the copy of the Process is not ordered to be given time enough for the Assembly to see it before they must determine whether they will appeal or not, but only a Copy of [p. 50] the final determination, whereas the Evidence being what the case must be determined by your Pet humbly conceives it is reasonable they sh’d have that also before them for their consideration to form a right Judgm whether they ought to appeal or not.

That your Pet humbly Informs your Lp’ps the Assembly of the Massachusetts Bay always meet twice in every year, viz. The Spring & Fall sessions—your Pet therefore humbly submits it to your Lp’ps consideration whether it be necessary to keep the Assembly sitting or and short Prorogations during the time of this Enquiry as it may be of great & general Inconvenience to the members & create great uneasiness in the Province.

That the Report of the Lords Com of Trade & Plantations men- cons that your Pet has agreed that the charge attending this Comi- sion & the Execon thereof sh’d be equally born between each Prov- ince, as to w’ch yo Pet begs leave humbly to represent to your Lord- ships that p’uant to his Instructions he has in the strongest manner humbly insisted that the Com’s on the behalf of the Massachusetts Bay ought to be named by the Assembly of that Province but as it has been determined otherwise & as it has been Ordered that a Comission sh’d issue to the Com w’ch have been p’osed by the Lords of Trade your Pet did declare he co’d make no objection to the Expences attending the Execon of the Com being born equally by both Prov- inces & that he thought it reasonable it sh’d be so, & he now offers nothing in opposition thereto, but yo Pet being no otherwise con- cerned than meerly as an Agent for the Province of the Massachusetts Bay, & having had no Instructions from them in relacon hereto, so he cannot consent or agree to it but he does not oppose it, as thinking it reasonable it sh’d be so.

That your Pet most humbly Assures your Lord- ships he does not p’sent this his Petition with the least view to retard or delay this affair & as the strongest Evidence thereof he does not Insist to be heard by his Council, but is willing & hereby submits the sev’l m’re contained in this Petition to your Lordships great wisdom & Justice without desiring to be further heard thereon humbly praying your Lordships to make the Sev’l before men alterations in the direccons to be sent to the Com with such
further & other direccons in relacon thereto as to your Lordships shall seem proper & necessary.

And yo't Pet't shall ever Pray, &c

Francis Wilks.

No. 21.

Sir—

The Enclosed is just now sent to me from the Board of Trade. I hope it will come time enough to catch the Ship Ceres? I am told it contains a severe reprimand to Gov't Belcher (upon the Pet't of Mr. Graves who was p'executed ab't the Bounds & whose pet'n I deliv'ed into the Board lately) and that Reprimand sent to Mr. Dunbar, for his own delivery into Mr. Belcher's hands, w'ch will be of pleasure & service too, to our friends in New Hampshire.

Mr. Wilks has given us a parting blow, by a Peti'on complaining of almost all the direccons proposed by the Board of Trades Report. We have just seen it & bespoke a copy of it, in ord' to be heard tomorrow night upon it, but cannot yet send you a copy, having none my self.

I hope a 1're on Saturday morns' may catch the ship, but however you may (now) venture to give yo' Friends strong hopes, that we are at the end of the Line of oppositions on this side of the water, & that I am their, and also, Sir.

Y'o Packet above mentioned I have inclosed to Mr. Sam'l Wentworth, to forward to Coll. Dunbar or in his absence to Theo. Atkinson, Esq.

Sir—

The Lords have neither altered time, place nor Quorum of the Com'rs, They think the Assembly should neither be kept sitting nor under prorogation, and they have enlarged the time for the p'tys to declare whether they appeal or not, from the 6 weeks, to 3 months (if the Com'rs see fitt).

But they have added two notable matters, that if the Massachusetts do not name Attorneys (to be served with Sumons, &c.) at the first meeting of the Com'rs, or do not, at such 1st meeting, give in a plain state of their Demands, then the Com'rs are to proceed ex parte.

I have not more at present but remain

I want to carry the ord'rs to the present Atty & Soll'rs to prepare the Comission but our great loss (?) this morning makes me apprehensive of a change in those officers, so that one must wait (or at least it will be best to wait) two or three days first, to see what changes ensue.

[p. 56.] Sr.
I have the Honour to Enclose an ord' to Council, That my Lords Com'm of Trade & Plantations sho'd write certain Letters (relating to the affair of the Boundaries between his Maj'y Provinces

(1) In margin, "The Death of my Lord Chancelour very much lamented by every body."
of Massachusetts Bay & New Hampshire) unto the respective Govr of New York, New Jersey, Nova Scotia, Rhode Island, Massachusetts Bay & New Hampshire, as proposed by a Report from the Lords of the Comt of his Majr most Hon'ble Privy Council, included in & approved by the s'd order.

And as these Letters from my Lords Comrs are to precede & give notice of his Majr intended Comission, that the Comrs & the parties may prepare against the 1st day of August next, when the Comission is to be opened, My humble request is that their Lordships will be pleased to write these Letters with what convenient speed they may, & this the rather, because I am very well informed that a ship departs from London for New England, on Saturday next.

In going through the Report you will observe that a former proposal that the Assemblies of the contending Provinces should be kept sitting or under short prorogations, in ord to receive & determine whether to appeal from the Comrs final determination, is not inserted.

That proposal was objected to by the agent for the Massachusetts Bay as inconvenient for that Province, & it is no part of the present ord.

But by the present ord & by the Comrs to be prepared in consequence thereof, if either Province to be aggrieved by the Comrs determination shall not appeal from or except to the same, within a limited time, no Appeal or exception is to be receive afterwds.

The former conduct of the Province of Massachusetts Bay in this affair, the many endeavours used by them at least to delay if not to prevent, this Comission: The Govr of the small Province of New Hampshire being a notice & Govr over, the other great Province of the Massachusetts Bay, also his late Declaracon that the Lines in contest wo'd never be run, and the consideracon that he only calls the Assembly of New Hampshire, who, alone can determine whether to appeal or not, if occasion shall require:—all these considerations make me exceedingly anxious, lest it should happen that an Assembly of New Hampshire sho'd not be called to determine upon this affair, & that, for want thereof, the Comrs determination agst them sho'd become final.

[p. 57.] And therefore it is, that I am a most humble Pet'r to my Lords Comrs for Trade & Plantations that they will be pleased to interpose in this matter, in such manner as to their Lo'pps shall seem meet, so that the Province of New Hampshire may not, by any means, be deprived of that great & valuable priviledge, most graciously intended by his Majr of appealing from the Comrs Determinacon, if aggrieved thereby.

I could not omit mentioning this to you, & am with the greatest respect,

Sir—your most obedient serv't,

Sir—

This encloses to you a Duplicate of the ord’re in Counciill under Seal, which you will please to forward to yo’r Friends in New Hampshire for their own use & service.

This is also to accompany 4 Letters from the Lords of Trade to the Govr of New York, New Jersey, Nova Scotia & Rhode Island: Please to forward them with all speed to those Serv’d Provinces, & I beg the favour that you’ll keep a mem’dum when & by what Ships you send each of them.

There are two other Letters from the Lords of Trade, One to Mr. Belcher as Governor of the Massachusetts Bay, the other either to himself or such other person as shall have the supreme comand & shall actually be in New Hampshire. These two Letters (last menconed) I beg of you to send to some very safe hand in New Hampshire, who must make an affid’t of the delivery of one of these Letters (that to Mr. Belcher as Govr of Massachusetts) into Mr. Belcher’s own hands, & that affid’t should specify the time & place when & where it was so delivered; & the affid’t should likewise contain an acc’t when & where the other Letter to the Govr or Com’d:r in Chief of New Hampshire was delivered to the Com’d:r in Chief of New Hampshire, in New Hampshire; and this affid’t should be sent back to you here as soon as possible.

I have bespoke Duplicates of all these Letters ag’t the next ships. The orders are left with the Att’y & Sol’r Gen’l who are preparing the Comission & you may rely on it that they shall have continual applicacons from me till I get the Comission from them.

I can only add here that it is thought by some very good Judges
that whoever is the Com’d in Chief resident in New Hampshire will be very well justified in calling the Assembly there on receipt of these Letters.

Sir—I have but just time to tell you that Coll. Dunbar has given Bail to Mr. Wilks and the other occasion, And now has his Enlargement & about among his friends, he was very Improvident at his first coming, not to take the advice of his friends, and the Board of Green Cloth would have protected him from any thing of that nature. I hope he will be more careful for the future & I hope he will succeed in his solicitations. I see Gov’l Belcher has Receiv’d $ Packet containing his Maj’st’s Instructions from you, by his Proclamation, &c. Also that he has prorogued your Assembly untill 4 days after $ meeting of the Commissioners, contrary to his Maj’st’s Design & Instruction, Surely in order to prevent your choosing such Two persons properly Qual’d to
attend the Commissioners on the first day of their sitting as his Majestys Instructions direct, and I fear hath thereby Defeated his Majys most gracious Intention of having the Boundarys fixt and settled. I have already laid those things before the Lords Commissioners of Trade and Plantations, and if he should by this or any other act obstruct the Speedy settlement of the Boundarys, I hope the Assembly will with all speed send me as strong a Remonstrance to his Majy in Council as possible, of any such Act, and also of the many Grievances the Province hath and does still labour under, by his Administration; and as full proofs to support it as possible. I assure you I have not failed or shall I of Executing any commands the Assembly shall give me, and noe Remonstrance or complaint comes with that weight as from an Assembly. I think it more proper to communicate this to you Rather than ye Comitte, because it might look too much like my Directing them. You will only communicate this to a Friend or two. My last to you was 27th August pr. Capt. Egleston & Stanney. Therefore I can not tell how you are like to succeed in running the Boundarys, but this I am pretty sure of That had you and Mr. Jaffrey, Mr. Rindge, Mr. Wigan, &c. took care that the Remonstrance of the Assembly to his Majy setting forth your grievances under G. B. administration and the Bad consequences that must attend his Majy Province allways by being under the same Governour with the Massachusetts, I say had you Quietly sent home such a remonstrance (which I am told either was drawn up or was Designed) you had been by this time been a separate Government. I do every thing for you I can here, but if you will not assist when I tell you that Petitions or Remonstrance from a Body of men have a weight,—besides I can act with more assurance of success & courage and satisfaction to myself, I have not seen Col. Correspondence of Gov. Jonathan Belcher with Secretary Richard Waldron and others, of the New Hampshire Province.

NOTE. The Letters which follow are specimens of a Correspondence between Gov. Belcher when in Massachusetts, and Secretary Waldron, relative to affairs in New Hampshire. Letters were frequently passed between them. The Governor, on his part, indulges in a freedom and style of remark which can hardly be considered creditable to him. Should any person hereafter undertake to write the life of Gov. Belcher, he might, to advantage, consult the Waldron Papers now in the archives of the New-Hampshire Historical Society. For the sake of reference the letters are numbered.

The Letters of Secy Waldron appear to be copies, or rather first draughts of those written by him to Gov. Belcher, and the Governor's letters all bear his signature in his own hand, tho' probably copied by his clerk. Ed.

Letter No. 1.

From Richard Wibird and Henry Sherburne.

May it Please your Excellency—

A Saturday toward Eve being in Company with sundry Gentlemen in Town a paper was produced in presented to us for our signing. It had one or two cursory readings but our memories are too frail for us to pretend to give a particular account of its contents but to its best of our remembrance it was in the nature of a memorial or Petition to its Lords of Trade and Plantations. It was then subscribed in our Presence by Mr. Geo. Jaffry, Mr. David Jaffrey Mr. Benét Wentworth Mr. Atkinson & Mr. Wiggin & by whom since we know not but tis very probable the party will endeavour to get what additions they can. It mention'd the sudden proroga of the Assem by yo' Excell' order which hindered an Address for its redress of Public grievances.

It treated of the affair of its line at large, showing its readiness of this Governr's & its backwardness of its Mass which to settle it & proposed its matters being laid before his Majesty forthwith.

It mentioned great disadvantages its this Province was under by reasons of the Gov's residing in another Province (viz.) That it prevents passing acts that might be beneficial &c. with Earnest prayers for a separate Government. Moreover it mentioned something of a Disgust taken by your Excellency agst them & that therefore Constables were forced to ride 30 odd miles to be sworn, & to its best of our remembrance it said something agst advance payments of its Excellencys salary. These are but broken hints, but are such as we can recollect. We utterly refused signing, & tho't proper to consult Messrs Gambling.
Belcher Correspondence.

& Waldron upon this head & accordingly we did this morn who entirely agreed & joynd'd with us in sending a dispatch to your Excellency with an account of these things. There is a ship bound for England ready to sail & goes tomorrow if 'tis weather favours—on board of which we suppose is to go this Petition. If an out wind or storm should stop her (with we earnestly pray for) 'till Wednesday night, We hope your Excellency will have an opportunity of counter writing by 'tis same conveyance, for we shall hardly Expect to see our messenger till that time. Sir,

Capt. Hopson bro't me yours Dated this month, and the Post yours of 9: current, with what past in the Assembly, By which I find the mal contents are Restless and uneasy, and very Ready to do Mischief, but Hate to do good, The part you acted was Exactly well—(Presuming it was all with good manners to his Honour). What shall we say, and how shall we help it! We are Miserably of it, att the Council Board. I never tho' one of my Treasury Commis's to be any match att argument. The Lieutenant Govern't tells me he has had complaints, and that the People suffer for want of a Justice att Kingston, Chester, and Derry; and you mention Streatham. The King's qualificatios for officers in my Instructions, are to be men of good Lives, well affected to the Government, of good Estates and abilities. Let me therefore as soon as you can have the names of persons for each of those Towne & such as are best qualify'd, and make out Commissions and send me to sign. This matter for some Reasons requires Dispatch, and you must be sure the Persons will accept, before the Commissions are made out.
I know no Foundation for the Faith you say three in four have taken up, and if People are so silly as not to hold up their heads and keep up their courage, there's no forcing them. I Return you the Military Commissions (sign'd) to be given Coll. Sherburn, and Deliver'd at such a juncture as he shall judge seasonable. Send me also Commissions for the two special Justices on the occasion you mention. Let them be the best men you can find. You must advise and assist Capt. Wibird about his Enclosed Collector's Commission. I send you also the King's Instruction in this matter, which you must Lodge with the other Instruction in the Counciell Files.

I find the Gentleman very restless and uneasy. I don't altogether differ from you about starting over the Atlantick. I believe Mr. Gambling may have given a hint of a complaint made against you by the Lieutenant Governor, which was in these words, viz. "I intended "to have sent your Excellency an account of what past Both att the "Council Board and in the Assembly, but have not been able to get "one for myself, the Secretary and the Journals being in the country; "I do not say this by way of complaints of him, because if I was in-"clined to it, I could say something more material, but 'Tis not worth "my notice &c." The King having Done Coll. Dunbar the honour of a Commission for Lieutenant Governor of New Hampshire it is in my order, that you never show him the Least slight or Disregard, but always Treat him with all Possible Respect and Homage. This Letter goes as you Desire. And so I shall do for the future. If the Lieutenant Governor is not att Portsmouth, I have ordered the Past to give you my Letter for him—To be Delivered as soon as he may come.

I have sent a copy of my answer to his letter & pray yo' Excellency to return me ye original. I sent pr Sherburne. I hope yo' Excellency will give orders next week for swearing Capt. From Gov'r Belcher to Sec'y Waldron.

Sir—

I have now lying before me yours of 12; present pr C: Sherburne, & 16: Ditto pr Post—and particularly observe the Lieut. Gov't Letter to you and your answer—and am pleased the latter is so full of good manners. Its best to be patient & steady and to be very exact in every point of Duty.

I am glad my Letter per Sherburne got seasonably to go by the Ship from your River—(Pray who's the Capt.) as to the Justices for Kingston—Streatham—Chester & Derry, they must be men as near the King's Instructions as you can find 'Em, and so the Special Judges, and I desire their Commissions may be sent me, as soon as you conveniently can. I now return you the Commission for Col. Sherburne's Regiment, which shou'd be distributed at such a Time as may be most seasonable on all accounts.

Inclosed is Mr. Atkinson's Letter to me and my answer—return the original, seal and deliver mine & give me your Tho'ts.

Let Wibird be easy, and I think all will be right. If Atkinson has not recorded his several Commissions (or Powers) with you, you may say the Gov't by his Letter depends they are so done, however let there be no Delay but authentick copies pr the Post.

I take Notice of every Particular relating to his Honour &c. Some People seem to be like a wild Bull in a Net, and perhaps may be by and by caught in their own snares. Its best carefully to watch all their steps, and counterwork their wickedness for the Good of the poor People they would deceive. 25 or 30 make up but a small Number of Complainants. Especially if we consider how many Scrub, Paltry Fellows are among 'Em—I have wrotes Col. Walton particularly about the Fort which I desire he would show you. If he be steady, he shall be Capt. of the Fort, Maungre the Lieut Gov't and all his scyaphantick adherents. I wish it may be so that he has sent my last letter to England.

I shall write pr Cary, for Mr. Dennet's Mandamus, & wish Coll. Gillman & Gerrish would order money for theirs. I fancy he will not return suddenly from his Dear Joys.—Its best to give the Oaths to all the military officers—There's a clause in the Lieut. Gov't Commission that Tedders him,—According to such Instructions as you shall receive from us, and from our said Capt. General and Chief Governour of our Province of New Hampshire, Now, &c:

The Letter I have from Walton, Wibird & Sherburne have good spirit in 'Em you must often consult one another, & read to each other the Letters I write, you must not suffer yourselves to be bullied or frightened on any account but be steady and strong. I beleive they heartily repent their not coming into the affair of the Line. The Massachusetts will by no means abate the Course of the Law, since your Representatives were so stubborn & humerous—Its best the common People should know it, and let the blame iye on those busy wicked Instruments who have prevented an agreement between the Provinces. Consult all our Friends to make a good Judgment whether there may be a proper Juncture for a New Assembly, I would then dissolve this, and be at Portsmouth a few Days be-
fore the choice, but you must be able to make a shrewd guess before this matter be attempted.

Think and consult well, and tell me if any thing can be done to purpose. I say let your spirits rise with your Difficulties. I have done in the County of York as I told you—perhaps it may do good to your side of the River—I am,

Sir—your Friend

Sr—

Let me have the Commissions for Justices at Derry—Kingston—Chester and Stratham and for the two Special Justices.

I have sent a Dedimus to Walton and Sherburne to administer the Oaths to Wibird, and have so wrote the Lieut. Govr and my Letter to Atkinson is open in Wibird's—I say be you all strong and steady, and get a Petition from all the officers in the Government to counterwork their secret Complaint. You must be indefatigable where the Enemy are so vigilant. I am really afraid great Inconveniences will arise on the Line, and who must be thankful but those who had wickedness and Influence enough to prevent the Committee's meeting. I wish the Lieut. Govr may be a true Prophet & that the Line may be fixt before Christmas, nor am I very sollicitous how.

I know he has long talkt of this Province being put under another Form of Government, but this mayn't happen in his day. He wrote early for my leave to go out of the Province and he has it. If we could get a good new Assembly it would be a fine thing. When Coll' Westbrook comes hither I shall consult him about the Troop you mention. I now return you the Lieut. Govr's Letter. He complains to me of the great Disorder in your office, that the Records are only on Scraps of Paper and that you have made a gross mistake in omitting in the Commissions to say George the Second, you must be careful and Thoughtful in every thing of your office, he says he should suspend you 'till my Pleasure should be known—To which I have wrote pr this Post, I shall not allow him to do any such thing. But that I shall examine into all the matters, when I come to New Hampshire in September. It is my order that you do not deliver the seal to the Lieut. Govr or any Body else without my special order, and as soon as you can conveniently, I would have you come to me hither upon some particular Business.

Be all of you steady, strong and mannerly. Deliver my several Letters, and see by Wibird what I write

Gov'r Belcher to Sec'y Waldron.

Hon'ble Sir—

The Post brings me your Favourites of 22: & 23: P'sent. I hear not a word of Reynolds or old H—— and am still of opinion (as formerly) that Sancho (1) must consent to his Dismission, which I think he never will, because he can't expect any better Provision. my last Letters saying—"I believe D——'s character is pretty well known "with some of the Lords of the Council to be far interested"—and I am told he is greatly in Debt at Home: and by the appearance of all things, the Irish Wind-fall winds up to a Button. So you may be long plagud with him.

I assure you I have nothing but good news from Mr. Belcher. (2) If a new Gov'r be appointed, why won't they favour us with his name: I am not able to make any opinion about the Line. The Lords of Trade will favour New Hampshire all they can—But when the affair will be settl'd seems to me very uncertain—I most sincerely wish it was well over, and can't but think the Massachusetts have been very culpable or it had been done three years agoe.

I have the Same Sense of Sancho's Insolence that you have and the very same opinion of the man I always had, yet as it was the time for the Fast, how could I avoid the steps I took, and I am not displeased

1) Sancho appears to be one of the epithets which the Gov'r applies to Lt. Gov'r Dunbar. En.

2) Supposed to be the Gov'r's son or a brother in England. Ed.
that he treated the orders of the King's Govr with so much Rudeness & Impudence.

As to the pusillanimous Wretches (?) from whom we want assistance What shall we say or what shall we do? five have been lately admitted by your approbation, but except yourself, you say no man open'd his Jaws—When our Friends have all the Places of Profit and Honour, & yet are useless, I again say, What shall we do? What made the old ——go out of Town instead of being at his Duty; most certainly the mention of a Lt. Govr in the Salary but can have no other meaning than what you say. St. Pat's constant course of Folly makes him contemptible. I have had the same thoughts about the Fort, Passes, &c. but am desirous to do things in the wisest manner.

The P——a—dt (?) is a despicable mortal, yet I now inclose him the Proclamation for a Fast, leaving it to the Council to set the particular Day; and the order to him I cover to you, to be deliver'd or sent him, as may be the most proper, when you have read & seal'd it—and after consulting Gambling & old H—— & who else you please, I entirely submit it to your Prudence, whether to proceed in the matter or not. But if upon your own most deliberate consideration, you think it best not to go forward at present then it may be best not to open your lips to any body about it. On the other hand, if you think the Council will be strong enough, I should be best pleased with appointing the Fast in this manner.

The merchants private Bank here, and what they are bringing forward with you, bids fair to ruin this Country. Its too long a story to tell you how big these things are of fatal consequences.

I don't flatter you, but really Sir, you behav'd in Council like a Hero, upon every particular that hapen'd there.

I thank you for the accounts which I have also at large from Mons' and the answer I have given him is inclos'd.

I shall write for the Carrier to Coll. Gillman for copies of his Orders without mentioning any Reason.

Old Slade (?) is a poor creature, yet if he comes this way, I will have some talk with him. The affair of the Excise man must rest for the present. I remain with much Respect

Sir, yr' assured Friend

Copy of the Letter from Lt. Gov'r Dunbar—above referred to—to Gov'r Belcher.

Sir—

On Fryday last the Carrier deliver'd to me a Packet at Exeter where I was upon his Majesty's service, and in it an order from your

(1) The Govr's probably refer to members of the Council, who were not in his interest, but opposed to his policy. Ed.

(2) Shad's Walton, being the oldest member, was President of the Council in the Govr's absence. Ed.

(3) Arthur Slade, of New Market, was a man of Some note in his day. He died Jan. 12, 1743, aged 84. Ed.
Excellently dated from no Place the 11th Inst. for convening the Council here, and asking their advice upon a Proclamation for a Genl Fast upon the 25th Inst. Dated also the 11th Inst. and said to be from the Council Chamber in this Town, when every body knows you were at Boston, and I know no Council was held here on that day—I have always been of opinion, and am confirmed in it by the advice of every Gentleman, except a few here under your Influence, that you have no Right to send—(I) ers hither in the manner you do, a few Days will convince—that you have not, in the mean time, I shall only say—to the Proclamation, that I can by no means be—in issuing of it, the Day appointed being a Festival—Act of Parliament. I was in hopes two or three mistakes your Excellency had made at Boston in proclaiming a Feast on a Fast, & a fast on a feast Day of the Church would have prevented any more such, except it was done in Contempt of Church authority, which may be reasonably suspected by your giving sanction to your Platform of Worship, where you say That Arch Bishops, Bishops &c. not being Plants of the Lord's planting shall be all rooted out & cast forth at the last. I don't doubt but you have or will hear from home upon that Act of Government.

As to your Warrant for paying your Salary in advance I must presume your sending it to me was in case I should offer it for the Council's approbation (tho' it is already sign'd & countersign'd as if by their advice) to make use of it as an argument against my demanding any Part of it, for which Reason I shall not only suspend offering it, but protest against paying it until I know who has the Right to it, your Excellency knows there is no money in the Treasury, and so delaying this for a few Days until ships arrive can be no Detriment.

I did not intend to have troubled you with any Letter, at this time, but having this occasion, I can't avoid taking notice of your Treatment of me in sending your orders from Boston to the militia Officers here without any notice of me. This, Sir, is unprecedented & not like a soldier, and no man but yourself would have done it; this and your other usages of me is in effect taking His Majesty's Commission from me, which I shall not give up untill it is his Pleasure to take it; yet your construction of my Powers has made it so contemptible here that I meet with all the opposition & Disregard in the execution of my Duty, & in support of the King's service as Surveyor of the Woods.

I presume by the time this reaches you our Dispute will be ended from Home. Your manner of sending your orders was I suppose to avoid saying,

Sir,
Your humble———

(Copy defaced.)

P. S. I will call the Council to morrow and if they will joyn with me, I will appoint Fryday after your Excellency's appointment, being the 26: Inst. for Fasting & Prayer, &c.

Sir,

I have yours lying before me of 24: & 27: p'sent. The Riot cannot be mention’d but with abhorence. I send you another Extract out of a Letter last week Pr Prince. That from Sancho’s must be treat’d with great Secrecy, lest he should know I have the knowledge of what he writes, yet, you may in a prudent manner, let Coll. Jo: (1) & Husk know his Baseness.

I think I have put matters relating to Mons’ into a Stronger method than you suggest. But I command you some way or other to quicken Coll. Gilman in what I believe he is earnestly engaged In, and fail not to let me have the Copies I have desir’d as soon as possible.

I am well enough pleased at the Turn my order took about the Celebration, and have put into this Day’s Print, what you sent. Gambling is a brave fellow, and I have taken an opportunity to school of Sh—r—ly, and I think he’ll be cautious for the future, he told me, he was loth to refuse a £5: Bill.

I think there’s no great Reason to fear the Indians making a Breach at present.

I say, if Gilman will be quick in what he is about I think I shall be able to do Mons’ Business.

Yesterday was our Election and the Friends to their King & to their Country fairly show’d their strength, and the old Topper with his few adherents are sunk with Despair.

In the struggle for votes, it was once & again said in the House, loudly, none of your Irish Governors. In the Choice of the Clerk he cou’d make out but 22 for his Son to Coll. Wainwright’s 69 votes. The Health & the Proclamation about it have done excellent service. We have the best Assembly of 2 Seven years past.

I shall be glad to see my Friends in Augst or before if they think it for the best. His treating the solemnity of the Fast as he did must still make him more odious; certainly never was Wretch so hated as he in this Province and I wonder your’s chimes in no more.

I fancy Madam’s Dangler is heart-sick of the Party.

I remain, Honble Sir,

Honorable Sir—

I have yours of 16: p'sent, and inclose you the Judge's
answer, In which the learned here agree with him. H—sk shew'd
no sort of uncasiness with Respect to the Gov'r, but I thought he
seem'd to be pretty much so in himself, and if he can form a Judg-
ment of things, he must see he has grossly mist the mark. I believe
he'll stand right when he thinks it for his Interest, and otherwise, as
he thinks things may be otherwise—But let it be as it will you may
now look on him a Massachusetts man.

I am afraid the Judge is turning Fool. Its pitty Sancho has more
wit now, than he had about the former Letter—if he would comuni-
cate, and be a little Rhetorical (in his way) it would certainly be of
service; since they will be wicked, how can we help what they say?
About the naval office H—sk can't be so silly as to say you supplant
him, since he is leaving the Province. You'll see what I wrote J—th—m, and that matter must rest till I come. Its talk't as if
Sindryf was to be collector. If nothing should be done in it by our
first London ships; then I shall say my thoughts when I see you.

After all I am at a loss whether to pass from Haverhill by Streatham
&c. or to turn to Salisbury—Because I am told there is between
Haverhill and Exeter 10 miles of very bad Road and that Gov'r Shute
or Burnet could n't pass that way with wheels, and the Cavalcade
will not look so well with the Gov'r o' Horseback.—Think and deter-
mine with old H—how the Route must be, and tell me as soon as
you can.

I shall be glad to see as many of my Friends at Haverhill as incline
to come. Cr—d—a said yesterday Mons'r( ) would certainly go Home
this Fall, if he could make any Handle against the Gov'r (or any thing
else) for an Excuse, and if nothing comes in his favour by the London
ships, I am apt to think he will run mad and go: I have all along
thought the affair of the Riot would give him considerable advan-
tage. The Royal Woods is a precious tender Point, and he is artful
in laying Colors, but we must wait; the scene will soon open for we
daily expect the London ships.

From Gov'r Belcher to Sec'y Waldron.

Honorable Sir.

Altho' your Postscript says you believe'd you should be at home to receive this answer to yours of 22: Inst. yet I can't believe you will be long so after Rec' of mins pr the carrier, yet as this will fall into the hands of the faithful companion of your Pleasures & Tolls, I am easy, and once more tell you I am perfectly pleas'd in your whole conduct: and assure you an honorable, Quietus wou'd be highly acceptable but for the very Reason you mention.

I observe the whole Catalogue of Lyes that are bruited—Weak as your poor wretches are, Methinks four years Experience that lying has never come to be False, shou'd open their Eyes: and what Point has Sancho gain'd to this Day? On the contrary what a Fool has he been made of at Pemaquid,(1) and every where in every thing.

I have a fine time of it. That I must make old H—— a Collon', Treasurer & Clerk of the Court, and yet he must be such a poor unthinking —— as that if a Gov'r does not take notice of a worthless Hound that chimes in with all those that would cut his throat, the old Fool forsooth must be afronted. As to the charge of Beds for the Gov': and one servant, with Hay & the Stable Room for the Horses, I would be glad of an acc' of it and to pay it. I never eat Suppers, and always my own Chocolate. As to young Dick,(2) I take him to be a modest fellow. The matter of the Bill I transacted wholly with Husk, and have paid him 27: 5: 2, Str. with the Exchange he gave, and the punctual Interest from the Time it was unpaid, and he desire'd no more; but had I done it with the other, it had been a mighty Thing for him to have given the Governour his care & Pains of purchasing a bill of Exch. of 27£ Str. which I wou'd do for nothing for any friend if it fell in my way.

But he shou'd always remember I made his Father Collector, by which he got for salary £26 Str. besides all the Fees and I made the young fellow half Sheriff, for which I was offer'd in London 100 Guineas. But a Gov'r is to bestow all his Favours upon a Crew of Honours for the gratitude of being bit or sharp'd as they have opportunity, but I take all this talk to arise from the old Jezebel, whose Lec—h—ry & Lew—dn—ss falling thro' Dint of age, loves money, just as she us'd to do the poor decrepit post Doct'. So much for that.

As to the Address, you seem to think it impracticable—you are therefore wise not to attempt it.

What shall we do with old H—— Guts & Lt. Jo— I can give the office but to one. You say, you are in a worse state than ever; I think we concluded that cou'd not be, and that against another Assembly things wou'd come to rights. But if you think they won't, I shall put off the Tho'ts of coming, when I intended. For why should I make a Winter jaunt to no purpose. Oh Temporal! Oh Mores! I am sick of your fool'y Government, and yet I am fully in opinion with you that all the airs proceed from sound Despair; for they must some of 'em know, what I do by my Letters from London of 8: of last

month—that as one of the Sachems said to me in the Conference at Casco Bay (when I proposed changing their religion) that is too heavy for me to lift; so the Govr is too heavy for Sancho and all his minions to stir—No, the Govr stands firm with his Royall master and with his Ministers, and I have good Reason to believe Mr. Belcher grows in favor with God and man; and I assure you I am no ways discourag'd with all you write—but am prodigious fond of the fine Device round the Palm Tree—Depressa, Resurgo—but what is still more my favorite motto is—Sustine & Abate, which comprehends all Christian Virtues and grace.

I can say no more to you than I have, which is that I am always ready to do you good according to my Power—and the Instances you mention may be Proofs of it—and the last I will still do at all events, if you think it best. I have not heard a word from Wheelwright since I saw you, he promis to make his Request to me of quitting in a letter, but I take him to be an ignorant dull Fellow, and perhaps he has thot no more about it.

What's come of all their great talk about the Line—Why I suppose there will be orders once within these seven years to have it settled according to the Instruction the Govr brought with him, and why should the poor People pay for the Ipswich Boy's Wife's Brockade, &c.

I thank you for all your particular Intelligence, and am glad I have been able to steal Time from the Assembly, & our London ships to balance the acct with this long Letter.

I have the Copy of Bacon's Patent. Has Russell the Perry safe in his cellar,—I don't expect it this Winter.

Honble Sir—

I am oblig'd with your Favour of y° 17: & 24: present; and remark very particularly all you say about an Assembly, and inclose you old H's—pr this Post, to read and return, and think we all seem to jump in opinion that its best when we do sit to be at the usual place if it may be tho't for the good of the Lieu we can adjourn to Exeter when we please—I think by the strain of Old H's he seems to be honest—I am thankfull for your advice about the sitting of an Assembly which (in the Integrity of your Heart) you think best to postpone at Present. I assure you I have no Stomach to repeated Fatigues and charge to no purpose.

I take H—sk'd to be a sorry false Fellow, and young D—ck a very mean, narrow spirited Creature, he strenuousely insists on the Difference of the Exchange—I am therefore now determined to make R—s—I whole Sheriff, or put him in a new partner, and I will appoint a new naval officer without any more Delays, and if I can serve you in these affairs (vilis et modis) may let me do it. But I will make no further complements to Falseness and Ingratitude—yet these alterations can never be so well done as when I am on the Spot, and its best not to open your lips about 'em.—I hear nothing from Wheelwright but have frequent applications about his place—W—Wentworth, E.
Vaughan and Lane have been mention’d and the first from several Quarters. But here I would serve you again, so you must choose. If I don’t see you by the last of next mo’ you mustn’t expect it till next October.

As to the spring Ships or the Determination of points they must take their course, and we must go right forward in our Duty—they that observe the Winds and Clouds, will neither sow nor reap. When the Ships arrive, doubtless the advices will be chequer’d and perhaps nothing definitive. But they’ll go on lying and say it must be by the next—by the next—and so on: yet if upon the whole there is no probable Hope of a peacefull session Don’t let me come. I will do just as you agree among you. Think it and talk it closely and give me the Result by return of the Post. Because if I don’t see an Assembly with you, I wou’d bind myself to the Dispatch of some necessary affairs here.

How come you to have the Honour of supporting the Pall—Pray has the Vice Presidents Relict been yet to make his Compliments to Mrs. M.—ch.

The B B’s Pr—st is a jolly Fellow. I hear he stood Kick and Cuff upon the Road with some Swampers.

Your Friend & Servant

Boston Jan’r 27, 1734—5
Mr. Sec’y Waldron.

No. 12.
[Extract.]

Sir—

"By a Ship to New-York from London I have to the 18th Nov. but nothing new, so can’t say what Turn the Line will take, but Tomlinson seems to have a Flank upon Wilks, by the Submission the latter came into so inadvertently at the Board of Trade. Sancho’s man’s Letter pr King, I believe was of no great moment, but perhaps he will now have Letters by the York Ship, & if anything they judge proper for the Trumpet, you’ll hear it.

"Mr. Pt—m—r must be humour’d & kept honest. King’s a clever Fellow & seems to be more of a Hero than formerly, & has a considerable low thought of R—dge. I have no doubt but Tomlinson, as well as my brother & Son will push for a hearing, that we may know the Decision pr the ships the next month; what it will be I am not able to say, but its’ best you be prepar’d for the worst. The Gazette will tell you how forward the Peace is.

Boston, Febr 16th 1735—6.

I am, Sir
You servant

J. Belcher.

If Coll. W—st—br—k could proceed this Summer, I believe it might be to his own & your advantage in more respects then one.

Mr. Sec’y Waldron.

No. 13.

From Gov’r Belcher to Sec’y Waldron.

Sir—

Your several Letters of 13th, 16th and 20th present lye before me, methinks P—g—m made a short stay with his Friend. It akip my
thoughts, or I should have given you and Coll. H. orders to have sworn him, but its no great matter.

If it be as you heard, I think Dr. Rogers has play'd his Cards well. If Lord W—ld— is gone to George's, perhaps he'll think he has play'd the Fool, when he comes back. I fancy he'll find that affair grow more heavy and burdensome every Day.

If some of your Line Wretches had one about their Necks, it would be but a piece of Justice they richly deserve from the Province. I look upon that matter at an End upon the present Footing: and pray which of 'em is Politician enough to know what to do next? How barbarous would it be for the People of your Province to be burden'd with Taxes, to pay the charge of their vile management!

I have prorogued this Assembly to 20th of Oct' nor do I suppose they'll sit then. As to making a Visit your way, whenever you think it may be worth while, I'll come.

I am heartily sorry to hear the Sickness is renew'd among you, and that your Son Richard is down with it. I pray God to recover him, and to take all your good Family into his merciful care.

Boston       I am, Good Sir
August 29th, 1736.    Your Friend and Servant
Mr. Sec'y Waldron.       J. Belcher.

No. 14.

Gov'r Belcher to Lt. Gov'r Dunbar.

Sir—

Mr. Waldo brought me yours of 20th present and I wish I could omit remarking on your presuming to blot Packets with your Scrolls, directed on his Majesty's Especial service to the Gov'r: by what means you intercepted these Packets you best know, I assure you I take no notice of the copy of one you have sent me; but now demand of you the original, if there be such an one, for you must excuse me from giving any Faith to your attestations; but if I should, yet you have nothing to do with Packets primarily directed to me for the King's service, while I am either at Massachusetts or New Hampshire. Sure you can't be so silly and ignorant as to think the Direction on a Letter can countermand the Royal Hand and Seal.

I heard you had some time since a Letter directed—To his Excell'y David Dunbar, Esq. Gov'r &c. which I suppose you took as a gross affront upon you, tho' I heard you said upon it—you have rec'd a Letter worth £800, a year. This I did not wonder at neither. These little thin artifices you find are not to be practic'd with me—and why do you worry yourself? Since I told you years ago that nothing less than the Royal Hand, that gave me my authority, should take it from me, & should I be in any other way of thinking, I should highly abuse the goodness & Honour his Majesty does me, & justly forfeit the Trust he has repos'd in me.

You say you certainly imbarke this week, but I am told the gout has got hold of your Toe, I hope you won't let it prevail to stop your (talk of) voyage: I say this, because I found in yours to me of Dec' last, you were willing I should have hindered it. And I took the main Design of your humble Complaint to the House of Repres' of New Hampshire against the Gov'r to be, that they might desire you to stay, instead of which you doubtless thought 'em very uncomplaisant upon the offers of your service saying, If you believe I can do anything to
serve your Interest in England, & will be pleas'd to tell me wherein, you will find a grateful Return from me;—that they should think you not capable of doing anything to serve their Interest, which appears in their lean answer:—To Thank his Honour for his kind offer. Methinks they might have wish'd you a good voyage, but perhaps they didn't believe you was going; yet you have carry'd the jest so far, that I don't see how you can well avoid it.

You don't want the Province's nor my good Wishes for their happy Riddance, but I have had so many Letters from you in six years past, saying, You was resolv'd to go home, go home, that I shall not believe it, till some vessel tells me, they have met you to the Eastward of St. George's.

Boston,
April 25th 1737.
Lieut. Gov'r Dunbar.

From Gov'r Belcher to Sec'y Waldron.

I have your alive Letter of 26th ult. pr Post. As to your new Bills, the way to know whether they'll pass, is, to make Dispatch in getting them out; the sooner that's done, the more readily they'll obtain a currency, and which I think nobody need trouble themselves about. I am glad the first set of the Copies will be here tomorrow. The Pr-t-nd-r will certainly be a long pending affair, & full of charge.

I take a particular Notice of the whole Farce play'd off by Scarromoncho last We'sday. R—dge is a Rascal, G—tts a Soundrel, the Turner a Weathercock, a Fool, hardly worth notice, the Loon & the Ape are, very impudent, old H. is a compound of Ignorance, Jealousy & Brittleness, so one must be wise to keep him steady. Since things happened as they did, its well he went, for Sancho was near his Point: if they had been all alike brave with Coll. Jo. and D—nn—t, & have done as you directed, it had been better. G—mb—ng is knowing and honest, and its well he went. Don't you know five is a Quorum of the Council in ordinary, & even three in extraordinary cases? I wonder he doesn't try this Experiment, because he may always have four. I hope the T—nn—r (1) holds right & steady. As to calling the Assembly, you may depend he has no authority from home about it, not but that T— may write him to venture upon it, but you must watch their Waters, and timely issue the Preventer.

I thank you for handing along the Dose I sent him pr the Post, it was exactly tim'd. I hope he'll read it to the Priest, & the rest of his minions. I much approve your Answers to his Epistle & Sumons but pray send him no more copies of any thing, 'till he pays you, its enough to say your hands are full at present with the Gov'n Commands. I am fully perswaded he never yet intended to go, but if he should I shall attribute it entirely to the strong Doses administered to him last week, that have made such a Ferment in his Bowels, & even in his Brains, as to throw him into a downright Demention.

If he vamps, shouldn't some rough Game have a Hint (as wisely as possible) to make out some Tokens of Joy & Contempt.

Boston
I am, Sir
May 2d 1737.

Mr. Sec'y Waldron.

Your Hearty Friend

INDEX.

[Note. The Index, which follows, is designed to contain the name of every person mentioned in this fourth volume. The others of government, as Governor, Lieut. Governor, and Colonels, are put in small capitals, but not otherwise referred to, except as performing some assigned duty. The word passim indicates that a name is found very often in the volume, and need not, therefore, be repeatedly noted. Besides names, the Index, it will be seen, contains reference to all the leading matters in the volume, and should therefore be carefully consulted. The Editor has aimed to be accurate, but still fears that errors may be discovered.]

When a name occurs more than once on a page, or on two pages in the same connection, it is not generally repeated in the Index.]

NOTICE.

---

Joint Resolution, passed by the Legislature of New-Hampshire.

Resolved by the Senate and House of Representatives, in General Court convened, That his Excellency the Governor be hereby authorized and empowered, with the advice and consent of the Council, to employ some suitable person, and fix his compensation, to be paid out of any money in the treasury not otherwise appropriated, to collect, arrange, transcribe and superintend the publication of such portions of the early State and Provincial Records, and other State Papers of New-Hampshire, as the Governor may deem proper; and that eight hundred copies of each volume of the same be printed by the State Printer and distributed as follows: namely, one copy to each City and Town in the State, one copy to such of the Public Libraries of this State as the Governor may designate, two hundred copies to the New-Hampshire Historical Society, and the remainder placed in the custody of the State Librarian, who is hereby authorized to exchange the same for similar publications issued by other States.

Approved July 6, 1866.
EDITOR'S PREFACE.

This fourth volume of Provincial Papers embraces the latter part of the Administration of his Honor John Wentworth, Lt. Governor and Commander-in-Chief, in the absence of Governor Samuel Shute; the brief period of Governor William Burnet's administration, 1729, and that of Governor Jonathan Belcher, from 1730 to October 1737. The volume is of special and permanent value as containing all the proceedings of the Governor, Council and General Assembly of the Province, and all official documents and papers found in the Secretary's office, relating to the long controversy between New-Hampshire and Massachusetts, in respect of the boundary lines between the two Provinces. The correspondence, also, between Governor Belcher and Secretary Richard Waldron and others, and also that between John Thomlinson, Esq., agent for the Province, in England, and Theodore Atkinson, Esq., and others, of New-Hampshire, will be found to be of great interest and value.

In copying and preparing these Papers for the press, the editor has adhered to the rules at first adopted: viz., to preserve the exact words and orthography, capitals and abbreviations of the papers transcribed; even the punctuation has for the most part been left untouched. Where names of persons in office very often occur, it is denoted by passim, and not always noted in the Index.
The fifth volume of Provincial Papers will complete the record of Governor Belcher's administration and the correspondence relating to the boundary lines, between John Thomson, Esq., and Mr. Secretary Atkinson. Also, additional letters from Gov. Belcher to Secretary Richard Waldron; but the greater interest and value of the volume will consist in the full record it will contain of the part that New-Hampshire took in the expedition against Louisbourg, 1745, under the administration of Gov. Benning Wentworth.
