Dept. Environmental Services, Drinking Water and Groundwater Trust, Grants Non-Federal	\$2,122,000

EXPLANATION

The Drinking Water and Ground Water Trust Fund was created in 2016, using \$276 million of MtBE trial judgement funds, as authorized by RSA 485-F. The purpose of the Trust Fund is to provide sustainable, long-term funding for the protection, preservation, and enhancement of the drinking water and groundwater resources of the State. The Drinking Water and Groundwater Advisory Commission was established to administer the Trust Fund and to provide guidance to the State on the use of the Trust Fund.

On December 13, 2021, the Drinking Water and Groundwater Advisory Commission voted to authorize \$2,122,000 in grant funds to the Sanbornville Water Precinct for payment for water system improvements. The Precinct will use the grant funds to complete the second phase of comprehensive water system upgrades including replacement of over 4,000 linear feet of aging distribution water main, construction of a booster pump station and upgrades to the existing pump house. If trust funds become no longer available, general funds will not be requested to support this program. This grant agreement has been approved by the Attorney General's Office as to form, substance, and execution.

We respectfully request your approval of this item.

Commissioner
