**Department of Environmental Services**

**Clark B. Freise, Assistant Commissioner**

May 15, 2017

His Excellency, Governor Christopher T. Sununu  
and the Honorable Council  
State House  
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Environmental Services to award a Local Source Water Protection grant to the Strafford Regional Planning Commission (VC #155570) in the amount of \$18,722 to complete a project to protect public drinking water systems, effective upon Governor and Council approval through May 31, 2018. 100% Federal Funds.

Funding is available as follows:

03-44-44-441018-4718-072-500574	<u>FY2017</u>
Dept. Environmental Services, DWSRF Administration, Grants- Federal	\$18,722

EXPLANATION

The Department of Environmental Services issued a request for proposals for 2017 Local Source Water Protection Grants. These grants are funded by set-asides under the Drinking Water State Revolving Loan Fund. Nineteen proposals were received. The proposals were evaluated and ranked based on criteria included in the request for proposals, such as whether the project fulfills a component of a source water protection program, that the proposed project addresses appropriate threats, and that the project will deliver a valuable and useful product. Based on the available federal funding, the Department determined that it could offer grants to nine source protection planning projects and six source security projects. See attachment A for the full list of grants awarded and list of reviewers.

Strafford Regional Planning Commission will use grant funds to work with the City of Rochester and the City of Dover on adopting new water conservation regulations. SRPC will work with the cities to improve their existing water conservation regulations through the inclusion of various components of the state's model regulations for water efficient landscaping and water use restriction ordinance, where applicable. SRPC will prepare draft regulations for consideration by the cities.

This agreement has been approved as to form, substance, and execution by the Office of the Attorney General. In the event that federal funds no longer become available, General funds will not be requested to support this program. This grant award, while less than \$25,000 threshold, requires G&C approval as the Strafford Regional Planning Commission has already received funds in excess of the threshold for this fiscal year.

We respectfully request your approval.

Clark B. Freise  
Assistant Commissioner

11.2.2 give the Grantee a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the Grant Amount which would otherwise accrue to the grantee during the period from the date of such notice until such time as the State determines that the Grantee has cured the Event of Default shall never be paid to the Grantee; and

11.2.3 set off against any other obligation the State may owe to the Grantee any damages the State suffers by reason of any Event of Default; and

11.2.4 treat the agreement as breached and pursue any of its remedies at law or in equity, or both.

person, on account of, based on, resulting from, arising out of (or which may be claimed to arise out of) the acts or omissions of the Grantee of Subcontractor, or subgrantee or other agent of the Grantee. Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. This covenant shall survive the termination of this agreement.

17.1 The Grantee shall, at its sole expense, obtain and maintain in force, or shall require any subcontractor, subgrantee or assignee performing Project work to obtain and maintain in force, both for the benefit of the State, the following insurance:

Each policy shall contain a clause prohibiting cancellation or modification of the policy earlier than ten (10) days after written notice has been received by the State.

18. WAIVER OF BREACH. No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event, or any subsequent Event. No express waiver of any Event of Default shall be deemed a waiver of any provisions hereof. No such failure or waiver shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other default on the part of the Grantee.

**EXHIBIT A**  
**SCOPE OF WORK**

**Stafford Regional Planning Commission:**

Stafford Regional Planning Commission (SRPC) will use New Hampshire Department of Environmental Services (NHDES) grant funds to work with the City of Rochester and the City of Dover on adopting new water conservation regulations. SRPC will work with the cities to improve their existing water conservation regulations through the inclusion of various components of the state's model regulations for water efficient landscaping and water use restriction ordinance, where applicable. SRPC will prepare draft regulations for consideration by the cities. Specifically, the following tasks, as described in the application submitted to NHDES, will be accomplished:

**Task 1: Formation of and collaboration with a technical planning committee**

For each city, SRPC will organize a small stakeholder group for the purpose of providing a variety of perspectives during the development of the regulations. The groups may include: SRPC staff, a member of the Planning Board, the City/Town Planner, and others that may include professional engineers, irrigation system designers, and municipal staff as necessary. Staff from NHDES will be requested to provide technical assistance when appropriate. SRPC will organize and facilitate a series of meetings that will focus on the review of the model regulations and to oversee general progress. Meetings will take place at key points in the project. These will include: a project kickoff meeting; review of gathered information, and draft model recommendations. Meeting minutes and other meeting materials will be provided to NHDES.

**Task 2: Information gathering and review of model regulations**

SRPC will research and gather local drought information, currently available water consumption data for public and private wells, references to enabling state legislation authorizing municipalities to take action, and organize a list of water conservation methods/practices to promote at the local level. SRPC will review the state model regulations on water efficient landscaping and the state model water use restriction ordinance to consider aspects of these models. Models will be reviewed with the technical planning committees in order to reach consensus on any administrative decisions.

**Task 3: Develop final draft regulations and present to planning board for adoption consideration**

SRPC will prepare and draft the final regulations. SRPC will attend at least two municipal board meetings, which may include the Planning Board, City Council, or Conservation Commission for each city to go over draft regulations. City planning staff will receive copies with a solicitation for staff comment prior to the meetings. SRPC will incorporate edits/comments from Planning Board members and/or staff into final draft regulations for adoption consideration. Draft of regulations will be provided to NHDES for review prior to completion.

**Task 4: Outreach to homeowners and developers**

Share the NHDES factsheets on water conservation and efficient landscaping with area residents. Develop a new factsheet for municipalities to distribute to developers that provides guidance to them on water efficient landscape options and how to comply with the new requirements. Provide NHDES draft of new factsheet for review prior to completion.

**EXHIBIT B**  
**BUDGET & PAYMENT METHOD**

All services shall be performed to the satisfaction of the Department of Environmental Services before payment is made. All payments shall be made upon receipt and approval of stated outputs and upon receipt of the associated invoice. **If the invoice is less than the initial estimate, only the amount on the invoice will be paid.** Payments shall be made in accordance with the following schedule, based upon completion of specific tasks:

<b>Task Number/Description</b>	<b>Source Water Protection Grant</b>
<b>Task 1: Formation of and collaboration with a technical planning committee</b>	3,118.30
<b>Task 2: Information gathering and review of model regulations</b>	7,038.40

**EXHIBIT C**  
**SPECIAL PROVISIONS**

Subparagraph 1.7 of the General Provisions shall not apply to this Agreement. The comprehensive public liability insurance against all claims of bodily injuries, death, or property damage under Subparagraph 17.1.2 of the General Provisions shall be reduced from \$2,000,000 to \$1,000,000 for bodily injury or death in any one incident. A reduction from the State's standard liability coverage is warranted in light of the minimal risk associated with the activities required under this contract.

Changes to the Scope of Work or reallocation of grant funds require NHDES approval in advance.

Grantee Initials *CJC*  
Date *5/9/17*

Work must be completed by the completion date listed on the grant agreement (section 1.6). Requests for payment along with required proof of work must be submitted no later than 90 days after the completion date or the grant will be closed out and funds will no longer be available.

If a deadline extension is requested, the grantee must make that request for approval at least two months before the completion date. Failure to do so may result in lower rankings of future grant applications.

Federal Funds paid under this agreement are from a Grant to the State from the U.S. Environmental Protection Agency, Drinking Water State Revolving Fund Set-Asides under CFDA #66.468. All applicable requirements, regulations, provisions, terms and conditions of this Federal Grant are hereby adopted in full force and effect to the relationship between this Department and the grantee.
