EXPLANATION

Exotic aquatic plants have been a problem in Namaske Lake, Pickerel Cove in Lake Winnepesaukee, Powwow Pond, and Christmas Island in Lake Winnepesaukee for several years. DES grant funds in the amount specified above are earmarked for management activities to control these exotic aquatic plants in portions of the above mentioned waterbodies in 2014.

The primary purpose of New Hampshire's Exotic Aquatic Plant Program is to "prevent the introduction and further dispersal of exotic aquatic weeds and to manage or eradicate exotic aquatic weed infestations in the surface waters of the state" (RSA 487:17, II). The program, initiated in 1981, has five focus areas: 1) Prevention of new infestations, 2) Monitoring for early detection of new infestations to facilitate rapid control activities, 3) Control of new and

established infestations, 4) Research towards new control methods with the goal of reducing or eliminating infested areas, and 5) Regional cooperation.

DES received 42 requests for funding to control exotic plant growth in 2014, and each project was awarded a 40% match for the proposed work. See Attachment B for a listing of projects, as well as information on the grant request reviewer.

In the event that other funds become no longer available, General funds will not be requested to support this program. This agreement was approved by the Office of the Attorney General as to form, execution and content.

We respectfully request your approval.

11.2.2 give the Grantee a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the

portion of the Grant Amount which would otherwise accrue to the grantee during the period from the date of such notice until such time as the State determines that the Grantee has cured the Event of Default shall never be paid to the Grantee; and

11.2.3 set off against any other obligation the State may owe to the Grantee any damages the State suffers by reason of any Event of Default; and

11.2.4 treat the agreement as breached and pursue any of its remedies at law or in equity, or both.

Exhibit A

Scope of Services

1. The Namaske Lake Association (NLA) is the grantee for this project. The New Hampshire Department of Environmental Services (DES) is referred to as the “state.” Amy P. Smagula of the Watershed Management Bureau is the grant officer for the state.
2. Variable milfoil has become a nuisance problem in various portions of Namaske Lake, and the grantee is seeking grant funds to assist in control efforts in 2014.
3. The grantee shall ensure that the contractors (selected through a competitive bid process) adhere to the following project-specific tasks:

For herbicide treatment in 2014, the grantee will ensure that Aquatic Control Technology, LLC. performs the following tasks:

- Task 1 Prepare and file Special Permit application with NH DPC (inclusive of the required abutter notifications, publication of newspaper notices and all costs associated with advertising and attending a public hearing, if required).
- Task 2 Perform chemical treatment of the subject waterbody per the bid specifications, inclusive of all labor, chemical, and equipment costs.
- Task 3 Conduct pre- and post-treatment surveys and submit the required written reporting to the State per the bid specifications.
- Task 4 Perform post-treatment herbicide residue sample collection as required by permit.

For the diver work in 2014, the grantee will ensure that the diver(s) perform(s) the following tasks:

- Task 1 Notify the DES Exotic Species Program of the scope and timing of the project, and how the materials removed from the pond will be disposed of, and the names of the divers performing the work, at least two weeks before the work is scheduled to begin. Divers performing this work must be certified Weed Control Divers in New Hampshire.
 - Task 2 Notify DES within 5 business days of when the work is completed by submitting a daily dive report for work that was performed, per the reporting examples provided in the Weed Control Diver course.
4. DES will provide monetary support for up to 40% of the total project cost as outlined in the project bid, up to the amount specified in this document.

Should the cost of the herbicide or diver work be lower than the bids for those projects, remaining grant funds may be used match costs associated with other DES approved milfoil control projects in the above referenced waterbody.

Exhibit B

11.2.2 give the Grantee a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the

portion of the Grant Amount which would otherwise accrue to the grantee during the period from the date of such notice until such time as the State determines that the Grantee has cured the Event of Default shall never be paid to the Grantee; and

11.2.3 set off against any other obligation the State may owe to the Grantee any damages the State suffers by reason of any Event of Default; and

12.3 In the event of Termination under paragraphs 10 or 12.4 of these general provisions, the approval of such a Termination Report by the State shall in no event relieve the Grantee from any and all liability for damages sustained or incurred by the State as a result of the Grantee's breach of its obligations hereunder.

Neither the Grantee nor any of its officers, employees, agents, members, subcontractors or subgrantees, shall have authority to bind the State nor are they entitled to any of the benefits, workmen's compensation or emoluments provided by the State to its employees.

15. **ASSIGNMENT AND SUBCONTRACTS.** The Grantee shall not assign, or otherwise transfer any interest in this Agreement without the prior written consent of the State. None of the Project Work shall be subcontracted or subgranted by the Grantee other than as set forth in Exhibit A without the prior written consent of the State.

Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. This covenant shall survive the termination of this agreement.

17. **INSURANCE AND BOND.**

17.1 The Grantee shall, at its sole expense, obtain and maintain in force, or shall require any subcontractor, subgrantee or assignee performing Project work to obtain and maintain in force, both for the benefit of the State, the following insurance:

Each policy shall contain a clause prohibiting cancellation or modification of the policy earlier than ten (10) days after written notice has been received by the State.

18. **WAIVER OF BREACH.** No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event, or any subsequent Event. No express waiver of any Event of Default shall be deemed a waiver of any provisions hereof. No such failure or waiver shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other default on the part of the Grantee.

19. **NOTICE.** Any notice by a party hereto to the other party shall be deemed to have been duly delivered or given at the time of mailing by certified mail, postage prepaid, in a United States Post Office addressed to the

parties at the addresses first above given.

2. Variable milfoil, an invasive aquatic plant, has become a nuisance problem in various portions of Langley Cove where the resort is located, and the grantee is seeking grant funds to assist in control efforts in 2014.
3. The grantee shall ensure that the contractors (selected through a competitive bid process) adhere to the following project-specific tasks:

For the diver work in 2014, the grantee will ensure that the diver(s) perform(s) the following tasks:

- Task 1 Notify the DES Exotic Species Program of the scope and timing of the project, and how the materials removed from the pond will be disposed of, and the names of the divers performing the work, at least two weeks before the work is scheduled to begin. Divers performing this work must be certified Weed Control Divers in New Hampshire.
 - Task 2 Notify DES within 5 business days of when the work is completed by submitting daily dive reports for work that was performed, per the reporting examples provided in the Weed Control Diver course.
4. DES will provide monetary support to you for up to 40% of the total project cost as outlined in the project bid, up to the amount specified in this document.

Should the cost of the diver work be lower than the bids for those projects, remaining grant funds may be used match costs associated with other DES approved milfoil control projects in the above referenced waterbody.
