CIGARS & SUNDAES RECEPTION

HOW TO FREE MILLIONS OF FAMILIES FROM WELFARE DEPENDENCE

States are now facing the consequences of Washington widening onramps for welfare programs. Even federally-funded programs are causing problems, acting as gateways to other welfare programs that create a spillover effect of increased enrollment flooding state budgets. The consequences aren't just fiscal, however. Welfare widening is trapping a generation in poverty and dependence. For the first time ever, Americans think the next generation might be worse off than their own. This is a moral crisis wrapped around huge taxpayer liabilities, and one that is weakening local economic growth. This session will expose the real problems of welfare widening, highlight meaningful state-level welfare reforms to solve them, and reexamine how true charity can replace government growth with compassionate community support.

OBAMACARE MEDICAID EXPANSION BREAKOUTS

Whether or not your state expanded Medicaid welfare under ObamaCare, we've got a break out session for you:

YOUR OBAMACARE EXPANSION NIGHTMARE AND HOW TO END IT

States that expanded Medicaid under ObamaCare are experiencing buyer's remorse. Enrollment and costs are soaring past projections, leaving state budgeters scrambling and the truly needy on the chopping block. While the outlook is bleak, there is a way to wake up from the ObamaCare expansion nightmare. Hear from a dynamic panel of experts as they expose the problems and share tactics for rolling back ObamaCare expansion in states like yours.

PROTECTING VICTORY: HOW TO DEFEAT OBAMACARE'S MEDICAID EXPANSION ONCE AND FOR ALL

Nearly half the states defied powerful special interests and deep-pocket lobbyists to defeat ObamaCare's Medicaid expansion. The ones that did expand are now seeing record-high enrollment and skyrocketing costs. Yet this hasn't deterred the ObamaCare Army. They're fighting even harder with new weapons and tactics to convince you to expand. Learn how you and other non-expansion state leaders can continue to protect patients and taxpayers.

HOW TO KICK FRAUDSTERS OFF WELFARE TO SAVE BILLIONS

Welfare fraud disrespects taxpayers and steals resources from the truly needy. You will hear from experts on the front lines of welfare fraud prevention who will show you best practices from around the country and highlight why preserving the safety net for the truly needy is the fiscally- and morally-responsible choice for your state.

VOLUNTEER CARE: LOW-COST HEALTH CARE WITHOUT GROWING GOVERNMENT

Whether you're from an ObamaCare expansion state or not, government-run Medicaid has resulted in a shortage of health care providers for the truly needy. Florida has found an innovative solution to provide free and low-cost care to the poor, uninsured, and underserved without growing government. Learn how Florida got it done, what it has meant for the state's patients and providers, and what Volunteer Care legislation could mean for your state.

IT'S FOR THE CHILDREN...REALLY!

There are 400,000 kids trapped in foster care in the U.S. Nearly 24,000 will spend their entire childhood there, aging out when they turn 18 and never knowing the love of a family. The government-run child welfare system is overburdened and failing, but there is hope. In this session you will learn about a groundbreaking solution that taps into the compassion and power of community, not government, to protect kids and strengthen families.

SPARKING A PATIENT REVOLUTION WITH A RIGHT TO SHOP

Health care is the only product for which we must purchase something without knowing the price first. As a result, we have situations where one provider offers a knee replacement for \$40,000, while a second provider just a few miles away offers the same procedure, at the same level of quality, for just \$20,000. Unfortunately, patients don't have a clue that this is happening, but what if we gave them the power to discover these price differences themselves, then allowed them to pocket half the savings if they went to the lower cost, higher value provider? This session will discuss one of the most promising state-level health reforms in decades: The Right to Shop. It engages patients, increases access and transparency, and has a proven track record of reducing costs.

IDEAS INTO ACTION

You've heard about real-world reforms to revolutionize your state's health and welfare programs from the experts who know them best. Now, it's time to make these changes happen for your state. During this hour block, choose two War Rooms to attend. Get your last questions answered and then strategize with your colleagues about how to turn these good ideas into great legislation in 2016, as well as transformational solutions for generations to come.

WAR STORIES: LESSONS IN LEADERSHIP

You'll be regaled over refreshments as we revisit some of the most dramatic—and entertaining—session stories from legislatures around the country. Three legislative leaders will discuss how they fought against all odds—and in some cases, people in their own party—to protect taxpayers and advance a freedom agenda.
