EXPLANATION

The Department of Health and Human Services, Division for Behavioral Health, Bureau of Drug & Alcohol Services seeks approval to accept and expend State Opioid Response Grant federal funds on a pro rata basis from the Substance Abuse and Mental Health Service Administration (SAMHSA). 30 days of funding was approved by approved by Fiscal Committee (FIS 19-141) on June 14, 2019 and by Governor and Council on June 19, 2019 (Item #9). This request is to extend that pro rata funding by an additional 60 days, until September 30, 2019, the balance of the Continuing Resolution period.

Listed below are answers to standard questions required of all Fiscal Committee item requests, related to RSA 9:16-a, "Transfers authorized", RSA 14:30-a, VI "Expenditure of funds over \$100,000 from any Non State Source", or RSA 124:15,"Positions Authorized", or both, and all Emergency requests pursuant to " Chapter 145, subparagraph I, (a), Laws of 2019, making temporary appropriations for the expenses and encumbrances of the State of New Hampshire":

1. Is the action required of this request a result of the Continuing Resolution for FY 2020?

Yes the action required of this request is a result of the Continuing Resolution for FY 2020. The State Opioid Response Grant was awarded on 9/19/18 and was therefore not a part of the FY2018-2019 budget. The Continuing Resolution is allowing 3/12th of the FY 2019 Authorized budget, which did not include SOR funding.

2. If this request is retroactive what is the significance and importance of the action being effective from an earlier date?

This request is not retroactive

3. Is this a previously funded and ongoing program established through Fiscal Committee and Governor and Executive Council action? (If so, include as an attachment the original documents as approved and cite the specific dates of authorization and end dates for each action as part of your answer to this question.)

Yes this is an ongoing program that was established through Fiscal Committee and Governor and Executive Council action. The dates are as follows:

Fiscal Committee 9/21/18 item # 18-176 and G&C on 10/3/18 item #10 (\$19,236,637)

Fiscal Committee 1/4/19 item # 19-022 and G&C on 1/23/19 # 19 (\$3,383,089)

Fiscal Committee 6/14/19 item #19-141 and G&C letter dated 6/14/19 as amended to read "through the end of July 2019 pro rata"

-
4. Was funding for this program included in the FY 2018-2019 enacted Budget or requested and denied?

This funding was not included in the FY 2018-2019 as the grant was not awarded until 9/19/18. Funding was allowed through Fiscal Committee and Governor and Council per dates listed in #3 above.

5. Is this program in total or in part, included in the vetoed FY 2020-2021 Operating Budget proposal currently pending for your department, or was it requested and denied?

This program is included in total in the vetoed FY 2020-2021 Operating Budget proposal.

6. Does this program include, either positions or consultants, and if so are the positions filled, vacant, or have offers pending? (Please provide details for each position and note whether consultant contracts have been awarded.)

This program contains (6) filled Temporary Full Time positions as follows:

9T2933 Executive Project Manager

9T2932 Program Specialist IV

9T2930 Internal Auditor II

9T2931 Program Specialist IV

9T2929 Business Systems Analyst II

9T2928 Business Administrator II

7. What would be the effect should this program be discontinued or not initiated as a result of this request being denied?

If this request were to be denied Federal Substance Abuse and Mental Health Services Administration (SAMHSA) dollars would be lost. This program is 100% federally funded. Statewide programs that have been set up to help combat the area's opioid crisis would suffer. The project period for these funds will end on September 30, 2020.

Additional funding is required due to the implementation of a Continuing Resolution. Funding would not be available through the Continuing Resolution as this grant did not begin until after the initial drafting of the FY 20/21 budget and therefore does not have an "Adjusted/Authorized" amount for FY 19 to be used as a basis per the Continuing Resolution language. The grant funding does expire and will be lost if not utilized.

The State Opioid Response grant funds will be used to continue the implementation of a comprehensive and enhanced approach to address NH's opioid use disorder (OUD) crisis through various prevention, treatment, and recovery services. NH is continuing to increase and standardize services for individuals with OUD statewide. While services for OUD are now being made available to anyone seeking assistance in NH, special populations have been made a priority for some of the program designs including children and young adults, pregnant women, veterans and service members, individuals with or at-risk of HIV/AIDS, older adults caring for a minor child due to Division for Children, Youth and Families (DCYF) involvement, and individuals re-entering the community from incarceration. NH anticipates serving approximately 1,018,000 individuals annually and 2,036,000 individuals over the lifetime of this grant.

The projects affiliated with the grant have an emphasis on a strong collaboration between a newly designed hub for service access, referral, and care coordination and existing and expanded specialty spoke providers. Expansion of specialty spokes include investments in medication assisted treatment, recovery housing, services to individuals in corrections, telehealth, workforce readiness opportunities, peer recovery support services, enhanced care coordination, support services that increase treatment engagement (transportation, childcare), and parenting education. Surrounding all of the grant investments will also be a public awareness campaign around the risk of opioids, safe medication storage, and accessing help for those who are affected by OUD. NH will also invest in an education and training initiative that will provide training, technical assistance and educational opportunities to support the implementation of evidence-based programs.

The Memorandum of Understanding with the Department of Corrections has been applied to extend the successful provision of substance use disorder case management services to the residents of the Shea Farm Transitional Housing Unit and has made available Naloxone kits and related instruction on administration to individuals re-entering the community from any correctional facility or State-run transitional housing.

Funds will be used for:

EXPLANATION

The Department of Health and Human Services, Division for Behavioral Health, Bureau of Drug & Alcohol Services seeks approval to accept and expend State Opioid Response Grant federal funds in the amount of \$3,383,089 from the Substance Abuse and Mental Health Service Administration (SAMHSA). This request represents additional funding from year 1 of a two-year grant (September 30, 2018 – September 29, 2020). At the time the original request to accept and expend funds was approved, New Hampshire's spending plan was still in development. Plans have now been finalized and additional funding is needed in the identified class lines. This grant does not have a matching funds requirement. The federal notice of award from SAMHSA is attached.

The State Opioid Response grant funds will continue to be used to implement a comprehensive and enhanced approach to address NH's opioid use disorder (OUD) crisis through various prevention, treatment, and recovery services. NH is continuing to increase and standardize services for individuals with OUD statewide. While services for OUD are now being made available to anyone seeking assistance in NH, special populations have been made a priority for some of the program designs including children and young adults, pregnant women, veterans and service members, individuals with or at-risk of HIV/AIDS, older adults caring for a minor child due to Division for Children, Youth and Families (DCYF) involvement, and individuals re-entering the community from incarceration. NH anticipates serving approximately 1,018,000 individuals annually and 2,036,000 individuals over the lifetime of this grant.

The projects affiliated with the grant have an emphasis on a strong collaboration between a newly designed hub for service access, referral, and care coordination and existing and expanded specialty spoke providers. Expansion of specialty spokes include investments in medication assisted treatment, recovery housing, services to individuals in corrections, telehealth, workforce readiness opportunities, peer recovery support services, enhanced care coordination, support services that increase treatment engagement (transportation, childcare), and parenting education. Surrounding all of the grant investments will also be a public awareness campaign around the risk of opioids, safe medication storage, and accessing help for those who are affected by OUD. NH will also invest in an education and training initiative that will provide training, technical assistance and educational opportunities to support the implementation of evidence-based programs.

The Memorandum of Understanding with the Department of Corrections will be applied to extend the successful provision of substance use disorder case management services to the residents of the Shea Farm Transitional Housing Unit and to make available Naloxone kits and related instruction on administration to individuals re-entering the community from any correctional facility or State-run transitional housing.

His Excellency, Governor Christopher T. Sununu

Class 049 Funding for Dept. of Corrections MOU

The State Opioid Response grant funds will be used to continue the implementation of a comprehensive and enhanced approach to address NH's opioid use disorder (OUD) crisis through various prevention, treatment, and recovery services. NH is continuing to increase and standardize services for individuals with OUD statewide. While services for OUD are now being made available to anyone seeking assistance in NH, special populations have been made a priority for some of the program designs including children and young adults, pregnant women, veterans and service members, individuals with or at-risk of HIV/AIDS, older adults caring for a minor child due to Division for Children, Youth and Families (DCYF) involvement, and individuals re-entering the community from incarceration. NH anticipates serving approximately 1,018,000 individuals annually and 2,036,000 individuals over the lifetime of this grant.

The projects affiliated with the grant have an emphasis on a strong collaboration between a newly designed hub for service access, referral, and care coordination and existing and expanded specialty spoke providers. Expansion of specialty spokes include investments in medication assisted treatment, recovery housing, services to individuals in corrections, telehealth, workforce readiness opportunities, peer recovery support services, enhanced care coordination, support services that increase treatment engagement (transportation, childcare), and parenting education. Surrounding all of the grant investments will also be a public awareness campaign around the risk of opioids, safe medication storage, and accessing help for those who are affected by OUD. NH will also invest in an education and training initiative that will provide training, technical assistance and educational opportunities to support the implementation of evidence-based programs.

The Memorandum of Understanding with the Department of Corrections has been applied to extend the successful provision of substance use disorder case management services to the residents of the Shea Farm Transitional Housing Unit and has made available Naloxone kits and related instruction on administration to individuals re-entering the community from any correctional facility or State-run transitional housing. Funds will be used for:

Class 102 Contract payments to providers

Area served: Statewide.

Source of Funds: 100% Federal from Substance Abuse and Mental Health Service Administration.

In the event that federal funds become no longer available, general funds will not be requested to support the program expenditures.

Respectfully submitted,
