**Robert R. Scott, Commissioner**

May 26, 2020

His Excellency, Governor Christopher T. Sununu  
and The Honorable Council  
State House  
Concord, NH 03301

**REQUESTED ACTION**

Approve the Brouillard Family Realty Trust's request to perform the following work on Lake Winnepesaukee in Gilford. File # 2019-03815. This project will not have significant impact on or adversely affect the values of Lake Winnepesaukee.

Remove an existing 4 foot x 22 foot seasonal pier and install a 6 foot x 40 foot seasonal pier with a 7 foot x 3 foot anchoring pad east of an existing 68 linear foot breakwater with an existing 4 foot 9 inch x 47 foot crib supported pier and repair 72 linear feet of existing retaining wall, in-kind, on an average of 230 feet of frontage on Lockes Island along Lake Winnepesaukee, Gilford.

The New Hampshire Department of Environmental Services (NHDES) imposed the following conditions as part of this approval:

1. All work shall be in accordance with plans by Folsom Design & Construction Management dated November 30, 2019, and as received by NHDES on December 10, 2019.
2. This permit is not valid and effective until it has been recorded with the appropriate county Registry of Deeds by the applicant. Prior to starting work under this permit, the permittee shall submit a copy of the recorded permit to the NHDES Wetlands Bureau by certified mail, return receipt requested.
3. No work is authorized to the pre-existing 68 foot breakwater or existing 4 foot 9 inch x 47 foot crib supported pier.
4. All development activities associated with this project shall be conducted in compliance with applicable requirements of RSA 483-B and NH Code of Administrative Rules Env-Wq 1400 during and after construction.
5. This permit does not authorize the removal of vegetation within the waterfront buffer.
6. As shown on the approved plan, the repair of the retaining wall shall result in no impacts of any kind outside of the immediate footprint of the retaining.
7. Work shall be carried out in a time and manner to avoid disturbances to migratory waterfowl breeding and nesting areas.
8. Appropriate turbidity controls shall be installed prior to construction, shall be maintained during construction such that no turbidity escapes the immediate dredge area, and shall remain until suspended particles have settled and water at the work site has returned to normal clarity.

9. Any subdivision of the property frontage will require removal of a sufficient portion of the docking structures to comply with the dock size and density requirements in effect at the time of the subdivision.
10. Only those structures shown on the approved plans shall be installed or constructed along this frontage. All portions of the structures, including the breakwater toe of slope, shall be at least 20 feet from the abutting property lines or the imaginary extension of those lines into the water.
11. No portion of the seasonal pier shall extend more than 40 feet from the shoreline at full lake elevation (Elev. 504.32).
12. All seasonal structures shall be removed for the non-boating season.
13. The proposed anchoring pad shall be constructed landward of the shoreline defined by the elevation of normal high water so as not to create land in public water.
14. This permit shall not preclude the NHDES from initiating appropriate action if the NHDES later determines that any of the structures depicted as "existing" on the plans submitted by, or on behalf of, the permittee were not previously permitted or grandfathered.

#### EXPLANATION

The NHDES approved this project on April 24, 2020. The NHDES supported its decision with the following findings:

1. This is a major impact project per Administrative Rule Env-Wt 303.02(d), construction of any dock adjacent to a breakwater.
2. The applicant has provided evidence which demonstrates that this proposal is the alternative with the least adverse impact to areas and environments under the NHDES' jurisdiction per Env-Wt 302.03.
3. The applicant has demonstrated by plan and example that each factor listed in Env-Wt 302.04(a), Requirements for Application Evaluation, has been considered in the design of the project.
4. The applicant has an average of 230 feet of shoreline frontage along Lake Winnepesaukee.
5. A maximum of 4 slips may be permitted on this frontage per Rule Env-Wt 402.13, Frontage Over 75'.
6. The proposed docking facility will provide 3 slips as defined per RSA 482-A:2, VIII, and therefore meets Rule Env-Wt 402.13.
7. The NHDES finds that because the project is not of significant public interest and will not significantly impair the resources of Lake Winnepesaukee a public hearing under RSA 482-A:8 is not required.
8. This application was received and determined to be administratively complete prior to December 15, 2019 and therefore, was reviewed for compliance with the previous version of the Wetlands Program Code of Administrative Rules Chapters Env-Wt 100 - 900.

Application file documents are being forwarded to the Governor and the Executive Council in connection with their consideration of this matter pursuant to RSA 482-A:3,II.(a) as it is a major project in public waters of the state.

We respectfully request your approval of this item.

Robert R. Scott, Commissioner

**1. REVIEW TIME:** Indicate your Review Time below. To determine review time, refer to Guidance Document A for instructions.

Standard Review (Minimum, Minor or Major Impact)  Expedited Review (Minimum Impact only)

**2. MITIGATION REQUIREMENT:**  
If mitigation is required, a Mitigation-Pre Application meeting must occur prior to submitting this Wetlands Permit Application. To determine if mitigation is required, please refer to the Determine if Mitigation is Required Frequently Asked Questions.

Mitigation Pre-Application Meeting Date: Month: \_\_\_ Day: \_\_\_ Year: \_\_\_  
 N/A - Mitigation is not required

**3. PROJECT LOCATION:**  
Separate wetland permit applications must be submitted for each municipality within which wetland impacts occur.

ADDRESS: **37 Lockes Island** TOWN/CITY: **Gilford**  
TAX MAP: **243** BLOCK: \_\_\_\_\_ LOT: **38** UNIT: \_\_\_\_\_  
USGS TOPO MAP WATERBODY NAME: **Lake Winnepesaukee**  NA STREAM WATERSHED SIZE:  NA  
LOCATION COORDINATES (if known): \_\_\_\_\_  Latitude/Longitude  UTM  State Plane

**4. PROJECT DESCRIPTION:**  
Provide a brief description of the project outlining the scope of work. Attach additional sheets as needed to provide a detailed explanation of your project. **DO NOT** reply "See Attached" in the space provided below.

1. Remove existing seasonal pier and dispose of out of Wetlands Jurisdiction; 2. Construct a 6' x 40' seasonal hinged pier anchored to a 7' x 3' concrete pad constructed behind legal full lake elevation 504.32; 3. Repair existing 72' mortared rock wall (wall width: 1', wall height: varies 1'-3" to 3'-8"0). Repair requires work in the water, however results in no change in height, length, location, or configuration as per Rule 303.03(j) Minor Impact Projects

**5. SHORELINE FRONTAGE:**

N/A This does not have shoreline frontage. SHORELINE FRONTAGE: **230.3' average (navigable)**  
*Shoreline Frontage* is calculated by determining the average of the distances of the actual natural navigable shoreline frontage and a straight line drawn between the property lines, both of which are measured at the normal high water line (Env-Wt 101.89).

**6. RELATED NHDES LAND RESOURCES MANAGEMENT PERMIT APPLICATIONS ASSOCIATED WITH THIS PROJECT:**  
Please indicate if any of the following permit applications are required and, if required, the status of the application. To determine if other Land Resources Management Permits are required, refer to the Land Resources Management Webpage.

**11. PROPERTY OWNER SIGNATURE:**

See the Instructions & Required Attachments document for clarification of the below statements

By signing the application, I am certifying that:

1. I authorize the applicant and/or agent indicated on this form to act in my behalf in the processing of this application, and to furnish upon request, supplemental information in support of this permit application.
2. I have reviewed and submitted information & attachments outlined in the Instructions and Required Attachment document.
3. All abutters have been identified in accordance with RSA 482-A:3, I and Env-Wt 100-900.
4. I have read and provided the required information outlined in Env-Wt 302.04 for the applicable project type.
5. I have read and understand Env-Wt 302.03 and have chosen the least impacting alternative.
6. Any structure that I am proposing to repair/replace was either previously permitted by the Wetlands Bureau or would be considered grandfathered per Env-Wt 101.47.
7. I have submitted a Request for Project Review (RPR) Form ([www.nh.gov/nhdhr/review](http://www.nh.gov/nhdhr/review)) to the NH State Historic Preservation Officer (SHPO) at the NH Division of Historical Resources to identify the presence of historical/ archeological resources while coordinating with the lead federal agency for National Historic Preservation Act (NHPA) 106 compliance.
8. I authorize NHDES and the municipal conservation commission to inspect the site of the proposed project.
9. I have reviewed the information being submitted and that to the best of my knowledge the information is true and accurate.
10. I understand that the willful submission of falsified or misrepresented information to the NHDES is a criminal act, which may result in legal action.
11. I am aware that the work I am proposing may require additional state, local or federal permits which I am responsible for obtaining.
12. The mailing addresses I have provided are up to date and appropriate for receipt of NHDES correspondence. NHDES will not forward returned mail.

Property Owner Signature

Print name legibly

Date

**MUNICIPAL SIGNATURES**

**12. CONSERVATION COMMISSION SIGNATURE**

The signature below certifies that the municipal conservation commission has reviewed this application, and:

1. Waives its right to intervene per RSA 482-A:11;
2. Believes that the application and submitted plans accurately represent the proposed project; and
3. Has no objection to permitting the proposed work.

	Print name legibly	Date
---	--------------------	------

**DIRECTIONS FOR CONSERVATION COMMISSION**

1. Expedited review ONLY requires that the conservation commission's signature is obtained in the space above.
2. Expedited review requires the Conservation Commission signature be obtained prior to the submittal of the original application to the Town/City Clerk for signature.
3. The Conservation Commission may refuse to sign. If the Conservation Commission does not sign this statement for any reason, the application is not eligible for expedited review and the application will be reviewed in the standard review time frame.

**13. TOWN / CITY CLERK SIGNATURE**

As required by Chapter 482-A:3 (amended 2014), I hereby certify that the applicant has filed four application forms, four detailed plans, and four USGS location maps with the town/city indicated below.

	Danielle Lafond <small>Print name legibly</small>	Giltford <small>Town/City</small>	12/9/19 <small>Date</small>
--	--	--------------------------------------	--------------------------------

**DIRECTIONS FOR TOWN/CITY CLERK:**

Per RSA 482-A:3, I

1. For applications where "Expedited Review" is checked on page 1, if the Conservation Commission signature is not present, NHDES will accept the permit application, but it will NOT receive the expedited review time.
2. IMMEDIATELY sign the original application form and four copies in the signature space provided above;
3. Return the signed original application form and attachments to the applicant so that the applicant may submit the application form and attachments to NHDES by mail or hand delivery.
4. IMMEDIATELY distribute a copy of the application with one complete set of attachments to each of the following bodies: the municipal Conservation Commission, the local governing body (Board of Selectmen or Town/City Council), and the Planning Board; and
5. Retain one copy of the application form and one complete set of attachments and make them reasonably accessible for public review.

**DIRECTIONS FOR APPLICANT:**

1. Submit the single, original permit application form bearing the signature of the Town/ City Clerk, additional materials, and the application fee to NHDES by mail or hand delivery.

**14. IMPACT AREA:**

For each jurisdictional area that will be/has been impacted, provide square feet and, if applicable, linear feet of impact.

**Permanent:** impacts that will remain after the project is complete.

**Temporary:** impacts not intended to remain (and will be restored to pre-construction conditions) after the project is completed.

**Intermittent Streams:** linear footage distance of disturbance is measured along the thread of the channel.

**Perennial Streams/ Rivers:** the total linear footage distance is calculated by summing the lengths of disturbance to the channel and each bank.

JURISDICTIONAL AREA	PERMANENT Sq. Ft. / Lin. Ft.	TEMPORARY Sq. Ft. / Lin. Ft.

Meredith, NH 03253

**From:** NH Natural Heritage Bureau

**Date:** 11/22/2019 (valid for one year from this date)

**Re:** Review by NH Natural Heritage Bureau of request submitted 11/17/2019

**NHB File ID:** NHB19-3727

**Applicant:** Cynthia Folsom

**Location:** Gilford  
Tax Maps: 243/38

**Project**

**Description:** Modify existing docking by reducing breakwater, removing/replacing concrete with wooden pier and replacing existing seasonal pier with permanent pier. Repair existing mortared rock wall "in-kind".

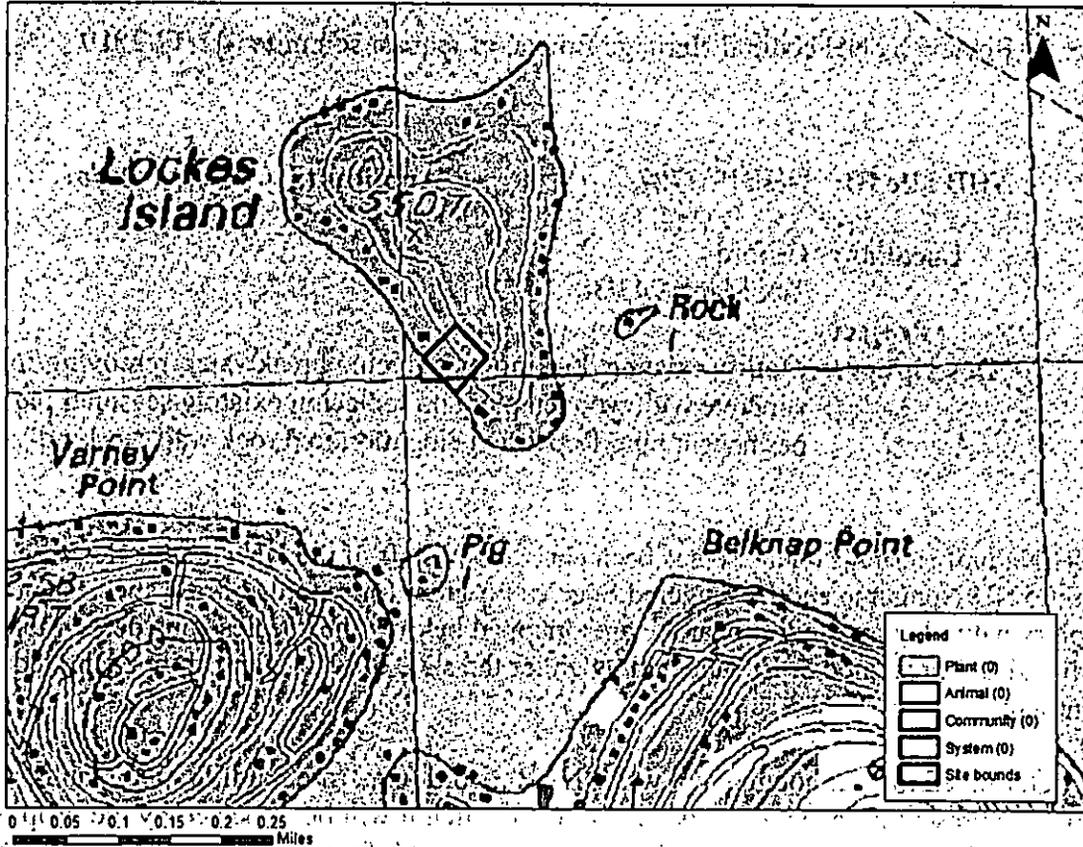

The NH Natural Heritage database has been checked by staff of the NH Natural Heritage Bureau and/or the NH Nongame and Endangered Species Program for records of rare species and exemplary natural communities near the area mapped below. The species considered include those listed as Threatened or Endangered by either the state of New Hampshire or the federal government.

It was determined that, although there was a NHB record (e.g., rare wildlife, plant, and/or natural community) present in the vicinity, ~~we do not expect that it will be impacted by the proposed project~~. This determination was made based on the project information submitted via the NHB Datacheck Tool on 11/17/2019, and cannot be used for any other project.

## ABUTTER NOTIFICATION

RE: Brouillard Property, Gilford, NH  
Tax Map No. 243 Lot No. 38

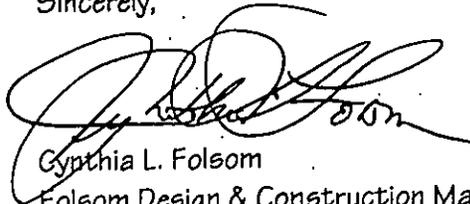

Dear Abutter:

Pursuant to NHDES Wetland Bureau Rule Wt 501.01(c) and as specified by RSA 482-A, this letter is notification of application submitted on behalf of Brouillard Family.

The proposed project consists of replacing the existing seasonal pier with a 6' x 40' seasonal hinged pier anchored to a concrete pad constructed behind legal full lake elevation and repairing the existing mortared rock wall "in-kind". No other work is proposed. The plans for the proposed project are on file at the town clerks office if you should wish to view them.

If you have any questions, please do not hesitate to contact this office. We will be happy to discuss any aspect of the proposed project.

Sincerely,

Cynthia L. Folsom  
Folsom Design & Construction Management
