**Robert R. Scott, Commissioner**

October 24, 2018

His Excellency, Governor Christopher T. Sununu  
and The Honorable Council  
State House  
Concord, NH 03301

**REQUESTED ACTION**

Approve Robert/Vicki Gilfert's request for a five year time extension, in accordance with RSA 482-A:3, XIV-a, to perform the following work on Lake Winnepesaukee in Alton. File # 2013-02930. This project will not have significant impact on or adversely affect the values of Lake Winnepesaukee. This project was previously approved by the Governor & Council on January 29, 2014, Item #43.

The Department finds that the applicant has demonstrated all of the following:

1. The permit for which the extension is being sought has not been revoked or suspended without reinstatement.
2. The extension will not violate a condition or law or rule.
3. The project is proceeding toward completion in accordance with the plans and other documentation referenced in the permit dated December 3, 2013.
4. The applicant proposes reasonable mitigation measures to protect the public waters of the state from deterioration during the period of the extension.

The New Hampshire Department of Environmental Services (NHDES) imposed the following conditions as part of this approval:

1. All work shall be in accordance with plans by Winnepesaukee Marine Construction dated October 12, 2013, as received by the NH Department of Environmental Services (NHDES) on October 25, 2013.
2. This permit shall not be effective until it has been recorded with the County Registry of Deeds office by the Permittee. A copy of the recorded permit shall be submitted to the NHDES Wetlands Bureau by certified mail, return receipt requested, prior to construction.
3. This permit shall not preclude NHDES from taking any enforcement or revocation action if NHDES later determines that any of the structures depicted as "existing" on the plans submitted by the applicant were not previously permitted or grandfathered.
4. Appropriate siltation, erosion, and turbidity controls shall be in place prior to construction, maintained during construction, and shall remain until the area is stabilized.
5. This permit does not allow for maintenance dredging.
6. The piling pier shall not extend more than 30 feet lakeward at full lake elevation of 504.32.
7. The minimum clear spacing between piles shall be 12 feet.
8. All activities shall be in accordance with the Shoreland Water Quality Protection Act, RSA 483-B. The owner is responsible for obtaining any Shoreland Permit that may be required per RSA 483-B, for construction, excavation or fill that will occur within the Protected Shoreland.

EXPLANATION

The NHDES approved this project on December 3, 2013. The NHDES supported its decision with the following findings:

1. This project is classified as a major project per Rule Env-Wt 303.02(j), construction or modification of a dock adjacent to a breakwater.
2. The existing breakwater to provide safe docking at this site is justified in accordance with Rule Env-Wt 402.06, Breakwaters.
3. The applicant has an average of 130 feet of shoreline frontage along Lake Winnepesaukee.
4. A maximum of two slips may be permitted on this frontage per Rule Env-Wt 402.13 Frontage Over 75'.
5. The proposed docking facility will provide two slips as defined per Rule Env-Wt 101.09 Boat slip, and, therefore, meets Rule Env-Wt 402.13.1. 6. Public hearing is waived with the finding that the project impacts will not significantly impair the resources of Lake Winnepesaukee.

Application file documents are being forwarded to the Governor and the Executive Council in connection with their consideration of this matter pursuant to RSA 482-A:3,II.(a) as it is a major project in public waters of the state.

We respectfully submit this request for your consideration.

Robert R. Scott  
Commissioner

### 2. Abutter Notification (Env-Wt 501.02(a)(1)& 505.01(f))

Confirm the submitted tax map illustrates the property of the applicant, the location of the proposed project on the property, and the location of properties of abutters (defined Env-Wt 101.03) with each lot labeled with the abutter's name(s) and mailing address(es); or provide a list of abutters' names and mailing addresses to cross-reference with the tax map

Exemption: Abutter notification shall not be required for logging operations, minimum impact agricultural projects, projects in utility rights-of-way, or public highway construction. (Env-Wt 501.01(c))

Permission: If jurisdictional impacts occur within 20 feet of an abutting property line or imaginary extension thereof over surface water signed permission letter(s) from the affected abutters must be included with this application (Env-Wt 304.04). This letter must be notarized if your project is a boat docking facility (RSA 482-A:3-XIII(c)). Notarized abutter permission is not required for maintenance projects.

### I. Need and Minimization & Avoidance (Env-Wt 302.03, Env-Wt 302.04, 505.01)

Minimum: Attach statements demonstrating:

1. The need for the proposed project; and
2. That the proposal is the alternative with the least adverse impact to areas and environments under the department's jurisdiction.

-OR-

Minor & Major: Attach statements in response to the 20 questions in Attachment B

### J. Mitigation

**Minor & Major Impact Projects ONLY:** Does the project require compensatory mitigation?  Y  N

Projects that require mitigation are listed in section Env-Wt 302.03. Mitigation requirements are outlined in Chapter Env-Wt 800 of the Wetland Rules Env-Wt 100-900 Link: <http://des.nh.gov/organization/commissioner/legal/rules/index.htm#wetlands>

If yes: Attach a completed Mitigation Agreement Form and materials outlined on the form (Env-Wt 501.02(a)(6) & 501.06) Link: <http://des.nh.gov/organization/divisions/water/wetlands/wmp/index.htm>

## 10. PROPERTY OWNER SIGNATURE

By signing the application, I am certifying that:

1. All abutters have been identified in accordance with RSA 482-A:3, I and Env-Wt 100-900.
2. I have read and provided the required information outlined in Env-Wt 302.04 for the applicable project type.
3. I have read and understand Env-Wt 302.03 and have chosen the least impacting alternative.
4. Any structure that I am proposing to repair/replace was either previously permitted by the Wetlands Bureau or would be considered grandfathered per Env-Wt 101.44.
5. I have submitted a copy of the application materials to the NH State Historic Preservation Officer.  
Link: <http://www.nh.gov/nhdhr/review/>
6. I authorize DES and the municipal conservation commission to inspect the site of the proposed project.
7. I have reviewed the information being submitted and that to the best of my knowledge the information is true and accurate.
8. I understand that the willful submission of falsified or misrepresented information to the New Hampshire Department of Environmental Services is a criminal act, which may result in legal action.
9. I am aware that the work I am proposing may require additional state, local or federal permits which I am responsible for obtaining.
10. The mailing addresses I have provided are up to date and appropriate for receipt of DES correspondence. DES will not forward returned mail.

## 11. APPLICATION SUBMITTAL DIRECTIONS FOR APPLICANT

1. If you are seeking expedited review, submit the original application form and accompanying items to the conservation commission for signature before submitting the application to the town/city clerk for mailing to DES. Standard review applications do NOT require conservation commission signature.
2. All applications require the original application form and accompanying items, with four copies, application fee and any required municipal fees (authorized by RSA 482-A:3,I) are submitted to the town/city clerk for their required signature and mailing via certified mail to DES. Municipal fees means an administrative fee not to exceed \$10 plus the cost of postage by certified mail

**12. CONSERVATION COMMISSION SIGNATURE: Required for Expedited review only**

Expedited review ONLY requires that the conservation commission's signature is obtained in the space below. The conservation commission signature should be obtained prior to submitting the original application and attachments and four copies to the town/city clerk for mailing to the DES. The Conservation Commission may refuse to sign. If the Conservation Commission does not sign this statement for any reason, then the application is not eligible for expedited review and the application will be reviewed in the standard review time frame.

The signature below certifies that the municipal conservation commission has reviewed this application, and:

1. Waives its right to intervene per RSA 482-A:11;
2. Believes that the application and submitted plans accurately represent the proposed project; and
3. Has no objection to permitting the proposed work.

Per RSA 482-A:3, I(d):

1. For applications where "Expedited Review" is checked on page 1, accept the application only if the Conservation Commission signature has been sought (Standard Review Applications do NOT require the Conservation Commission signature);
2. Collect from the applicant the postal receipts demonstrating that all abutters and the Local Advisory Committee were sent proper notice;
3. Collect any administrative fees; not to exceed \$10 plus the cost of postage by certified mail (RSA 482-A:3, I).
4. IMMEDIATELY sign the original application and four copies in the signature space provided above;
5. Retain one copy of the application form and attachments that will remain with the town/city clerk and will be made reasonably accessible to the public;
6. IMMEDIATELY distribute a copy of the application with attachments to the municipal Conservation Commission, the local governing body (Board of Selectmen or Town/City Council), and the Planning Board in accordance with RSA 482-A:3, I; and
7. IMMEDIATELY send (DO NOT HOLD FOR OTHER MUNICIPAL REVIEWS) the original application form and attachments and filing fee, by CERTIFIED MAIL to the NHDES Wetlands Bureau at the address indicated on the front of this application.

**Project Description:** Extend existing breakwater, open up 6' gap on shore-end of breakwater, install a 6' x 30' permanent piling dock 12' from existing breakwater dock.

The NH Natural Heritage database has been checked for records of rare species and exemplary natural communities near the area mapped below. The species considered include those listed as Threatened or Endangered by either the state of New Hampshire or the federal government. We currently have no recorded occurrences for sensitive species near this project area.

A negative result (no record in our database) does not mean that a sensitive species is not present. Our data can only tell you of known occurrences, based on information gathered by qualified biologists and reported to our office. However, many areas have never been surveyed, or have only been surveyed for certain species. An on-site survey would provide better information on what species and communities are indeed present.

This report is valid through 7/23/2014.
