FY 2021 \$12,500

Dept. Environmental Services, Coastal Zone Management, Contracts for Program Services

EXPLANATION

This award is **SOLE SOURCE** because the Seabrook-Hamptons Estuary Alliance (SHEA) is the only entity that works to preserve, restore, and advocate for the Hampton-Seabrook estuary through education, community outreach, and research in order to provide habitat for wildlife, improve water quality, protect against flooding, and provide for responsible recreational and commercial use. The New Hampshire Coastal Program (NHCP) annual program budget includes local technical planning assistance funds for the University of New Hampshire Cooperative Extension and NH Sea Grant programs (UNHCE/NHSG), SHEA, and the two Regional Planning Agencies – Rockingham Planning Commission (RPC) and Strafford Regional Planning Commission (SRPC) – that serve communities located in the coastal zone. These funds were specifically targeted for technical assistance to support partnerships with UNHCE/NHSG, SHEA, RPC, and SRPC on environmental issues of common concern where the planning agencies can broaden the NHCP's expertise and outreach to communities throughout the coastal region.

The NHCP Technical Assistance contracts have been part of the overall NOAA approved program and annual work plans for more than twenty years. NHCP staff meets annually with the directors and staff of the technical assistance grantees to develop program priorities and annual work programs for inclusion in the annual NHCP budget. All four organizations provide professional planning assistance and services to municipal planning boards and staff in the communities they serve.

The purpose of this agreement is to support SHEA in its provision of technical planning assistance to its member coastal communities—Hampton, Hampton Falls, and Seabrook. Funds will be used to 1) participate in the New Hampshire Coastal Adaptation Workgroup; 2) provide technical assistance focused on enhancing coastal resilience and/or stewardship of the Hampton-Seabrook Estuary in SHEA member

communities; 3) conduct outreach and analysis focused on enhancing coastal resilience and/or stewardship of the Hampton-Seabrook Estuary in SHEA member communities; and 4) develop outreach and educational products related to efforts conducted under this contract.

Total project costs are budgeted at \$25,000. DES will provide \$12,500 of the project costs through this federal grant. The UNHCE/NHSG will provide \$12,500 in matching funds. A budget breakdown is provided in Attachment A. In the event that the Federal funds become no longer available, general funds will not be requested to support this program.

This agreement has been approved by the Office of the Attorney General as to form, execution and content.

We respectfully request your approval of this item.

Robert R. Scott, Commissioner

Notice: This agreement and all of its attachments shall become public upon submission to Governor and Executive Council for approval. Any information that is private, confidential or proprietary must be clearly identified to the agency and agreed to in writing prior to signing the contract.

2. SERVICES TO BE PERFORMED. The State of New Hampshire, acting through the agency identified in block 1.1 ("State"), engages contractor identified in block 1.3 ("Contractor") to perform, and the Contractor shall perform, the work or sale of goods, or both, identified and more particularly described in the attached EXHIBIT B which is incorporated herein by reference ("Services").

3. EFFECTIVE DATE/COMPLETION OF SERVICES.

3.1 Notwithstanding any provision of this Agreement to the contrary, and subject to the approval of the Governor and Executive Council of the State of New Hampshire, if applicable, this Agreement, and all obligations of the parties hereunder, shall become effective on the date the Governor and Executive Council approve this Agreement as indicated in block 1.17, unless no such approval is required, in which case the Agreement shall become effective on the date the Agreement is signed by the State Agency as shown in block 1.13 ("Effective Date").

3.2 If the Contractor commences the Services prior to the Effective Date, all Services performed by the Contractor prior to the Effective Date shall be performed at the sole risk of the Contractor, and in the event that this Agreement does not become effective, the State shall have no liability to the Contractor, including without limitation, any obligation to pay the Contractor for any costs incurred or Services performed. Contractor must complete all Services by the Completion Date specified in block 1.7.

4. CONDITIONAL NATURE OF AGREEMENT.

Notwithstanding any provision of this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability and continued appropriation of funds affected by any state or federal legislative or executive action that reduces, eliminates or otherwise modifies the appropriation or availability of funding for this Agreement and the Scope for Services provided in EXHIBIT B, in whole or in part. In no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. In the event of a reduction or termination of appropriated funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to reduce or terminate the Services under this Agreement immediately upon giving the Contractor notice of such reduction or termination. The State shall not be required to transfer funds from any other account or source to the Account identified in block 1.6 in the event funds in that Account are reduced or unavailable.

5. CONTRACT PRICE/PRICE LIMITATION/ PAYMENT.

- 5.1 The contract price, method of payment, and terms of payment are identified and more particularly described in EXHIBIT C which is incorporated herein by reference.
- 5.2 The payment by the State of the contract price shall be the only and the complete reimbursement to the Contractor for all expenses, of whatever nature incurred by the Contractor in the performance hereof, and shall be the only and the complete

compensation to the Contractor for the Services. The State shall have no liability to the Contractor other than the contract price.

- 5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.
- 5.4 Notwithstanding any provision in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made hereunder, exceed the Price Limitation set forth in block 1.8.

6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/ EQUAL EMPLOYMENT OPPORTUNITY.

- 6.1 In connection with the performance of the Services, the Contractor shall comply with all applicable statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal employment opportunity laws. In addition, if this Agreement is funded in any part by monies of the United States, the Contractor shall comply with all federal executive orders, rules, regulations and statutes, and with any rules, regulations and guidelines as the State or the United States issue to implement these regulations. - 8.1 Any one or more of the following acts or omissions of the Contractor shall constitute an event of default hereunder ("Event of Default"):
- 8.1.1 failure to perform the Services satisfactorily or on schedule;
- 8.1.2 failure to submit any report required hereunder; and/or
- 8.1.3 failure to perform any other covenant, term or condition of this Agreement.
- 8.2 Upon the occurrence of any Event of Default, the State may take any one, or more, or all, of the following actions:

- 8.2.2 give the Contractor a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the contract price which would otherwise accrue to the Contractor during the period from the date of such notice until such time as the State determines that the Contractor has cured the Event of Default shall never be paid to the Contractor;
- 8.2.3 give the Contractor a written notice specifying the Event of Default and set off against any other obligations the State may owe to the Contractor any damages the State suffers by reason of any Event of Default; and/or
- 8.2.4 give the Contractor a written notice specifying the Event of Default, treat the Agreement as breached, terminate the Agreement and pursue any of its remedies at law or in equity, or both.
- 8.3. No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event of Default, or any subsequent Event of Default. No express failure to enforce any Event of Default shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other Event of Default on the part of the Contractor.

9. TERMINATION.

- 9.1 Notwithstanding paragraph 8, the State may, at its sole discretion, terminate the Agreement for any reason, in whole or in part, by thirty (30) days written notice to the Contractor that the State is exercising its option to terminate the Agreement.
- 9.2 In the event of an early termination of this Agreement for any reason other than the completion of the Services, the Contractor shall, at the State's discretion, deliver to the Contracting Officer, not later than fifteen (15) days after the date of termination, a report ("Termination Report") describing in detail all Services performed, and the contract price earned, to and including the date of termination. Contractor, or subcontractors, including but not limited to the negligence, reckless or intentional conduct. The State shall not be liable for any costs incurred by the Contractor arising under this paragraph 13. Exhibit B Scope of Services

The goal of this task is to provide technical assistance, outreach, and analysis focused on enhancing coastal resilience and stewardship of the Seabrook-Hampton Estuary in Seabrook-Hamptons Estuary Alliance (SHEA) member communities: Seabrook, Hampton, and Hampton Falls. SHEA will perform the following activities.

Activity 1 - Participate in the New Hampshire Coastal Adaptation Workgroup (CAW)

SHEA will attend the majority of regular full CAW meetings and Municipal Discussion Group meetings, as available. At the end of the grant period SHEA will complete an evaluation form provided by the NH Coastal Program to evaluate the effectiveness of CAW and identify opportunities for improvement.

Activity 2 – Provide Technical Assistance Focused on Enhancing Coastal Resilience and/or Stewardship of the Hampton-Seabrook Estuary in SHEA Member Communities

Activity 2.1 - Provide Ongoing Support to Hampton Coastal Hazards Adaptation Team (CHAT) CHAT is a community-based team, tasked with identifying, researching, prioritizing, and recommending flooding adaptation strategies for the Town of Hampton, NH. CHAT has been meeting monthly since January 2019 and is comprised of members of Hampton boards and commissions, including the Board of Selectmen, Planning Board, Conservation Commission, Zoning Board of Adjustment, Budget Committee, Hampton Beach Area Commission, and Hampton Beach Village Precinct, as well as the Town Planner, Deputy Director of Public Works, and two property owners. As of early 2020, CHAT is closing in on selecting the recommendations it will vet via public input sessions and provide to the Hampton Board of Selectmen for how to deal with ongoing tidal flooding in the Town. SHEA will assist in the development and presentation of those recommendations, support the implementation of select strategies, help monitor implementation progress, and continue to expand and enhance CHAT's knowledge of flooding and adaptation strategies as flood conditions evolve. SHEA will also assist CHAT as it reviews and comments on draft recommendations for the new Coastal Hazards Chapter during the town's comprehensive Master Plan update.

Activity 2.2 - Investigate Interest in Establishing a Seabrook CHAT

SHEA, in coordination with the Rockingham Planning Commission, will investigate the possibility of establishing a CHAT in Seabrook, NH via exploratory discussions with the Town Planner, Conservation Commission Chair and other municipal leaders. If interested, SHEA will invite Seabrook representatives to attend a Hampton CHAT meeting to get a better feel for what the process entails and what it could accomplish in their community.

Activity 3 – Conduct Outreach and Analysis Focused on Enhancing Coastal Resilience and/or Stewardship of the Hampton-Seabrook Estuary in SHEA Member Communities

Activity 3.1 – Coordination of the Flood Smart Roundtable Citizen Discussion Group. In 2019, SHEA planned and hosted a series of Flood Smart Roundtable discussions open to anyone interested in the topics being discussed. These were facilitated, informal discussions

Contractor Initials (A)
Date 4/28/20

about a variety of topics having to do with coastal flooding. These meetings were held bimonthly from April until October, and started again in March, 2020. Topics ranged from the technical aspects of elevating a structure, to the details of qualifying for and applying for FEMA's Hazard Mitigation Grant Program funding, and Emergency Management perspectives on what to do to stay safe before, during and after a flood. SHEA also served as the interface between local and national research groups seeking citizen-scientists to help inform their work related to coastal flooding, and the participants at the Flood Smart Roundtable. In 2020-2021, SHEA will develop and implement a plan in order to continue hosting these informative and well-attended Flood Smart Roundtables through October 2020, and in the Spring and Summer of 2021.

Activity 3.2 – Guide Development of a Visioning Document for the Hampton-Seabrook Estuary In 2019, SHEA was awarded a grant from the NH Charitable Foundation to audit the Master Plans and Zoning Ordinances of the three communities surrounding the Estuary (Hampton, Hampton Falls, and Seabrook). The purpose of this effort was to understand and chart the differences and similarities in how the Estuary is addressed in those documents. To follow up on this audit, and to further guide and inform revisions and updates to those Master Plans and ordinances, as well as the future development of the Hampton-Seabrook Estuary Management Plan, SHEA will hire an independent consultant to conduct Estuary visioning workshops and surveys. The facilitated workshops, open to the public and municipal officials in each of the three surrounding communities, would form a "vision of the Hampton-Seabrook Estuary for 2030." In these workshops, participants would be asked to identify the most important uses and resources of the estuary, based on their perspective as a passive or active user (e.g., fishing, recreational boating, land development, tourism, wildlife, flood storage). Data compiled from the workshops and surveys could be used to inform decisions regarding estuary management, as well as Master Plan and Zoning updates.

Activity 3.3 –Picture Post Monitoring and Measurements in the Hampton-Seabrook Estuary SHEA will investigate the possibility of working with Winnacunnet High School students to utilize "Picture Posts" and simple measuring metrics to measure and track ecotone movement in the salt marsh, as well as to "ground truth" the 2015 Sea Level Affecting Marshes Model (SLAMM) results. Ideally, this program would teach participating students how to identify low and high marsh indicators, recognize the transition areas and how they may be changing, and accurately record data and analyze the results through a combination of classroom and field work. The program would also teach students about the SLAMM modeling effort and how their data can play an important role in confirming SLAMM projections. Findings would be made public via student-led presentations and written reports.

Activity 3.4 - Additional educational, research, and outreach projects.

SHEA will administer, support, and enhance programs that protect and educate about the Hampton-Seabrook Estuary, including but not limited to National Estuaries Week programs and events, student enrichment programs, educational workshops, coordinated citizen-science projects, collaborative research projects, and other public outreach programs.

Activity 4 - Outreach and Education Product

SHEA will publish at least one blog post, news article, social media post, etc. summarizing at least one of the technical assistance or outreach efforts completed as part of Activity 2 or 3.

Date 4125(20)

Activity 5 - Reporting

SHEA will prepare and submit an Interim Report that summarizes work performed and progress made to date on all tasks. Report due date: December 2020

SHEA will prepare and submit a Final Report that summarizes all of the work completed for all tasks. As part of the Final Report, SHEA will complete an evaluation form provided by the NH Coastal Program to review the use of the technical assistance grant to support its participation in CAW (Activity 1) and technical assistance to coastal municipalities (Activity 2) and identify unmet needs and/or opportunities for improvement. All technical assistance grantees will be asked to complete a similar review. Responses will be used to help the Coastal Program maximize the effectiveness of its technical assistance programming. Report due date: June 2021
