**EXPLANATION**

The purpose of this amendment is to extend services with MAXIMUS Human Services, Inc. for one additional year for eWIC Project Management. The eWIC project start date was delayed by nine months due to contracting challenges, and therefore the implementation period had to be adjusted. The New Hampshire Women, Infants and Children (WIC) Nutrition Program is scheduled to pilot electronic benefits transfer (EBT) in July 2018 with full roll-out through Spring 2019. The WIC Nutrition Program currently provides approximately 15,000 participants with nutrition education and paper food vouchers. NH WIC Program clinics issue approximately 550,000 food instruments to participants each year.

The WIC Program is required to abide by the US Department of Agriculture Federal statute, "Healthy, Hunger-Free Kids Act of 2010" which requires that all WIC Programs make EBT available to WIC participants by 2020. The eWIC systems will be required to meet all applicable federal and state regulations and conform to the Operating Rules for eWIC systems as defined by the United States Department of Agriculture, Food and Nutrition Services.

Funds in this amendment will be used to extend monthly project management services. The New Hampshire WIC Project Manager will act as a primary point of contact for the State and coordinate efforts of the multiple eWIC contractors, Management Information System (MIS) contractor, United States Department of Agriculture (USDA) and stakeholders to ensure tasks are completed by the scheduled completion date and in compliance with New Hampshire and USDA eWIC requirements. The MIS enhancement work for eWIC, including end to end testing, user acceptance testing, piloting eWIC and full statewide roll-out will be coordinated by the WIC Project Manager.

The WIC Program is required to abide by the US Department of Agriculture Federal statute, "Healthy, Hunger-Free Kids Act of 2010" which requires that all WIC Programs make Electronic Benefit Transfer (EBT) available to WIC participants by 2020. The eWIC systems

will be required to meet all applicable federal and state regulations and conform to the Operating Rules for eWIC systems as defined by the United States Department of Agriculture, Food and Nutrition Services.

MAXIMUS Human Services Inc. was selected for this project through a competitive bid process. A Request For Proposals was posted to the department's website on May 20, 2016 through July 29, 2016 through a consortium of states with the Inter Tribal Council of Arizona, Inc. (ITCA). The original contract contained language that allows the Department to renew contracted services for up to two (2) years contingent on satisfactory performance and allowable funding and approval from the Governor and Executive Council. This request amends the current agreement to utilize one (1) of the two (2) years available for renewing services, as specified in the Exhibit C-1 of the original agreement.

Should Governor and Executive Council not approve this request, the Department may have significant delays in the implementation of the eWIC project. In addition, the Department may not meet the specific requirement that all WIC Programs make Electronic Benefit Transfer (EBT) available to their WIC participants by 2020, set by the United States Department of Agriculture.

Area Served: Statewide

Source of Funds: 100% Federal funds

In the event that federal funds are no longer available, general funds will not be requested to support this program.

Respectfully submitted,

Lisa Morris  
Director

**EXPLANATION**

The purpose of this agreement is for the provision of Project Management Services for the Electronic Benefits Transfer implementation for the New Hampshire Women, Infants, and Children Program (eWIC).

The New Hampshire Women, Infants and Children Program (WIC) provide approximately 15,000 participants with nutrition education and issuance of the Women, Infants and Children Program Food Vouchers. These vouchers are redeemed for nutritious foods to help keep pregnant women, new mothers, infants, and preschool children healthy. The vouchers can be redeemed at approximately 200 authorized vendors throughout the state. New Hampshire Women, Infants and Children Program clinics issue approximately 550,000 food instruments to participants each year.

Currently, the WIC Program uses a paper voucher system. The paper vouchers are issued at the WIC clinic to WIC participants at the time of their certification and follow up appointment, every three months. Participants then take their individually prescribed and tailored food vouchers to a New Hampshire authorized grocery retailer to redeem their vouchers. The foods allowed by the WIC Nutrition Program as reviewed and authorized by a New Hampshire WIC Nutritionist in order to meet the federal nutrition and program requirements. The vouchers are then processed by the grocery retailer and submitted back to the Department with an invoice for payment. Claims Processors process each individual paper voucher for accuracy and data entry into the WIC Management Information System. Upon successful completion of review and entry, the retailer is paid. The eWIC system is the technology that allows Women, Infants and Children Program food benefit issuance and redemption through debit-card technologies, thereby eliminating the need for a paper voucher system. The eWIC system must approve individual food items as prescribed by a Women, Infants and Children Program Nutritionist and ensure that payment to retailers does not exceed the maximum allotted amount for each food item.

The WIC Program is required to abide by the US Department of Agriculture Federal statute, "Healthy, Hunger-Free Kids Act of 2010" which requires that all WIC Programs make Electronic Benefit Transfer (EBT) available to WIC participants by 2020. The eWIC systems will be required to meet all applicable federal and state regulations and conform to the Operating Rules for eWIC systems as defined by the United States Department of Agriculture, Food and Nutrition Services.

A Request for Proposals was posted to the Department's website on May 20, 2016 through July 29, 2016 through a consortium of states with the Inter Tribal Council of Arizona, Inc. (ITCA). ITCA was the lead state. Three proposals were received. A team of individuals from the three state consortium with program expertise evaluated the proposals. MAXIMUS Human Services, Inc. was selected. A bid summary is attached. The New Hampshire Project Manager will act as a primary point of contact for the State and coordinate the efforts of the eWIC contractors to ensure tasks are completed by the scheduled completion date. The Management Information System (MIS) enhancement work for eWIC, including testing, User Acceptability Testing and rollout, will be coordinated by the Multi-State Consortium Project Manager working with New Hampshire's Project Manager and Management Information System Contractor, CQuest.

This contract contains language which allows for the option to renew for up to two additional years, subject to the continued availability of funds, satisfactory performance of services and approval by the Governor and Executive Council.

Should Governor and Executive Council not approve this request, the Department may have significant delays in the implementation of the eWIC project. In addition, the Department may not meet the specific requirement that all WIC Programs make Electronic Benefit Transfer (EBT) available to their WIC participants by 2020, set by the United States Department of Agriculture.

Area Served: Statewide

Source of Funds: 100% Federal funds

19. **Subcontractors:** DHHS recognizes that the Contractor may choose to use subcontractors with greater expertise to perform certain health care services or functions for efficiency or convenience, but the Contractor shall retain the responsibility and accountability for the function(s). Prior to subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.
- When the Contractor delegates a function to a subcontractor, the Contractor shall do the following:
- 19.1. Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function
  - 19.2. Have a written agreement with the subcontractor that specifies activities and reporting responsibilities and how sanctions/revocation will be managed if the subcontractor's performance is not adequate
  - 19.3. Monitor the subcontractor's performance on an ongoing basis

- 19.4. Provide to DHHS an annual schedule identifying all subcontractors, delegated functions and responsibilities, and when the subcontractor's performance will be reviewed

**INSTRUCTIONS FOR CERTIFICATION**

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.
